Applicable provisions: Articles 1 to 4, 9 to 13.

Performance scheme:

In order to implement the requirements of Article 11 of Regulation (EC) No 549/2004, Moldova shall develop and put in place a national performance scheme including:

- National performance targets in the key performance areas of safety, environment, capacity and cost-efficiency. The targets shall be set by a governmental mechanism after taking into account input from the national supervisory authority;
- A performance plan consistent with the performance targets and including information on ATM investments, in particular those relating to the alignment with SESAR deployment plans including common projects. The performance plan shall be drawn up by the air navigation service provider after consultation of airspace users;

The consistency of the performance plan with the national performance targets shall be assessed by the national supervisory authority, which, in case of inconsistency, may decide to issue a recommendation that the ANSP propose revised performance targets and appropriate measures. Where the national supervisory authority finds that the revised performance targets and appropriate measures are not adequate, it may decide that the ANSP take corrective measures.

The reference period for the performance scheme shall be decided by Moldova and will be reported to the Joint Committee. It shall have a duration of three or five years and should be aligned with the reference period of the European Union.

The national supervisory authority shall carry out regular assessments of the achievement of the performance targets.
