

2025/2000

2.10.2025

COMMISSION IMPLEMENTING DECISION (EU) 2025/2000
of 29 September 2025

amending the Annex to Implementing Decision (EU) 2023/2447 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States

(notified under document C(2025) 6687)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') (¹), and in particular Article 259(1), point (c), thereof,

Whereas:

- (1) Highly pathogenic avian influenza (HPAI) is an infectious viral disease in birds and can have a severe impact on the profitability of poultry farming causing disturbance to trade within the Union and exports to third countries. HPAI viruses can infect migratory birds, which can then spread these viruses over long distances during their autumn and spring migrations. Therefore, the presence of HPAI viruses in wild birds poses a continuous threat for the direct and indirect introduction of these viruses into holdings where poultry or captive birds are kept. In the event of an outbreak of HPAI, there is a risk that the disease agent may spread to other holdings where poultry or captive birds are kept.
- (2) Regulation (EU) 2016/429 establishes the legislative framework for the prevention and control of diseases that are transmissible to animals or humans. HPAI falls within the definition of a listed disease in that Regulation, and it is subject to the disease prevention and control rules laid down therein. In addition, Commission Delegated Regulation (EU) 2020/687 (²) supplements Regulation (EU) 2016/429 as regards the rules for the prevention and control of certain listed diseases, including HPAI. In particular, Article 21 of that Delegated Regulation provides that in the event of an outbreak of a category A disease in an establishment, the competent authority is to immediately establish a restricted zone comprising a protection zone, a surveillance zone, and if necessary, further restricted zones around or adjacent to the protection and surveillance zones.
- (3) Commission Implementing Decision (EU) 2023/2447 (³) was adopted on the basis of Regulation (EU) 2016/429, and it lays down emergency measures at Union level in relation to outbreaks of HPAI.
- (4) In particular, Article 2, point (a), Article 3, point (a), and Article 4, point (a) of Implementing Decision (EU) 2023/2447 provide, respectively, that following outbreaks of HPAI, the protection, surveillance, and further restricted zones to be established by the Member States listed in the Annex thereto, in accordance with Delegated Regulation (EU) 2020/687, must comprise at least the areas listed as protection, surveillance, and further restricted zones in that Annex. Article 2, point (b), Article 3, point (b), and Article 4, point (b) of Implementing Decision (EU) 2023/2447 also provide that the measures to be applied in those respective zones, in accordance with Delegated Regulation (EU) 2020/687, must be maintained until at least the dates set out in the Annex to that Implementing Decision.

(¹) OJ L 84, 31.3.2016, p. 1, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>.

(²) Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).

(³) Commission Implementing Decision (EU) 2023/2447 of 24 October 2023 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L, 2023/2447, 30.10.2023, ELI: http://data.europa.eu/eli/dec_impl/2023/2447/oj).

- (5) The Annex to Implementing Decision (EU) 2023/2447 was recently amended by Commission Implementing Decision (EU) 2025/1927 (⁴), following outbreaks of HPAI in Germany in establishments where poultry were kept, which needed to be reflected in that Annex.
- (6) Since the date of adoption of Implementing Decision (EU) 2025/1927, Spain, Poland and Portugal have notified the Commission of four new outbreaks of HPAI in establishments where captive birds or poultry were kept; one outbreak in poultry in the Valladolid province in Spain, two outbreaks in poultry located in the Warmińsko-Mazurskie voivodeship in Poland, and one outbreak in captive birds in the district of Santarém in Portugal.
- (7) Following those four new outbreaks, Spain, Poland, and Portugal have taken the disease control measures required in accordance with Delegated Regulation (EU) 2020/687, including the establishment of protection and surveillance zones around the outbreaks.
- (8) The Commission has examined the disease control measures taken by Spain, Poland, and Portugal and it is satisfied that the boundaries of the protection and surveillance zones established by those Member States are at a sufficient distance from the establishments where the outbreaks of HPAI have been confirmed.
- (9) In the Annex to Implementing Decision (EU) 2023/2447, there are currently no areas listed as protection and surveillance zones for Poland.
- (10) In order to prevent any unnecessary disturbance to trade within the Union and to avoid any unjustified disruptions to trade being imposed by third countries, it is necessary to rapidly lay down at Union level, in collaboration with Spain, Poland, and Portugal the protection and surveillance zones established by those Member States, in accordance with Delegated Regulation (EU) 2020/687.
- (11) Therefore, the areas listed as protection and surveillance zones for Spain and Portugal in the Annex to Implementing Decision (EU) 2023/2447 should be amended, to take account of the boundaries of the protection and surveillance zones established by those Member States following the two new HPAI outbreaks in those Member States, as well as the required duration of the measures to be applied in those zones, in accordance with Delegated Regulation (EU) 2020/687.
- (12) In addition, the areas listed as protection and surveillance zones for Poland should be set out in the Annex to Implementing Decision (EU) 2023/2447, to take account of the boundaries of the protection and surveillance zones established by Poland following the two recent HPAI outbreaks in that Member State, as well as the duration of the measures required to be applied in those zones, in accordance with Delegated Regulation (EU) 2020/687.
- (13) The Annex to Implementing Decision (EU) 2023/2447 should, therefore, be amended accordingly.
- (14) Given the urgency of the epidemiological situation in the Union as regards the spread of HPAI, it is important that the amendments to be made to Implementing Decision (EU) 2023/2447 by this Decision take effect as soon as possible.
- (15) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

⁽⁴⁾ Commission Implementing Decision (EU) 2025/1927 of 19 September 2025 amending the Annex to Implementing Decision (EU) 2023/2447 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L, 2025/1927, 24.9.2025, ELI: http://data.europa.eu/eli/dec_impl/2025/1927/oj).

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2023/2447 is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 29 September 2025.

For the Commission
Olivér VÁRHELYI
Member of the Commission
