## Introductory notes

1. The following table shows:
  - (a) third countries listed by continent (column 1);
  - (b) airports of departure in third countries (column 2);
  - (c) airports of arrival in the Communities with the percentages which represent the part of the air transport costs to be included in the value for customs purposes (column 3) and following columns).
2. When the goods are shipped to or from airports not included in the following list, other than the airports referred to in paragraph 3, the percentage given for the airport nearest to that of departure or arrival should be taken.
3. As regards the French overseas departments of Guadeloupe, Guiana, Martinique and Reunion, and as regards Greenland, of which territories the airports are not included in the list, the following rules shall apply:
  - (a) for goods shipped direct from third countries to these territories, the whole of the cost of air transport to these airports is to be included in the value for customs purposes;
  - (b) for goods shipped from third countries to the European part of the Community and transhipped or unloaded in one of those territories, the air transport costs which would have been incurred for carrying the goods only as far as the airport of transhipment or unloading are to be included in the value for customs purposes;
  - (c) for goods shipped from third countries to those territories and transhipped or unloaded in an airport in the European part of the Community, the air transport costs to be included in the value for customs purposes are those which result from the application of the percentages given in the following list to the costs which would have been incurred for carrying the goods from the airport of departure to the airport of transhipment or unloading.

The transhipment or unloading shall be certified by an appropriate endorsement by the customs authorities on the airway bill, with the official stamp of the office concerned; failing this certification the provisions of the last subparagraph of Article 6 (3) of Regulation (EEC) No 803/68 shall apply.
