

## I

(Acts whose publication is obligatory)

**REGULATION (EEC) No 1522/74 OF THE COUNCIL**

of 17 June 1974

**on the tariff treatment of certain products intended for use in the maintenance and repair of aeroplanes of the types Mercure and Airbus during 1974**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community and, in particular Article 28 thereof;

Having regard to the draft Regulation submitted by the Commission;

Whereas Council Regulation (EEC) No 3584/73<sup>(1)</sup> of 28 December 1973 on the tariff treatment of certain products intended for use in the construction, maintenance and repair of aircraft provides, *inter alia*, for either the total or the partial suspension of the duties laid down in the Common Customs Tariff for a certain number of products intended to be used for the maintenance or repair of aeroplanes of an unladen weight exceeding 15 000 kg;

Whereas, in respect of the maintenance and repair of aeroplanes of this category manufactured in the Community, the list of products admissible under this total or partial suspension is greater when aeroplanes of types certified before 1 January 1974 (or of versions of the latter which do not differ fundamentally from the former) are involved than when aeroplanes of types certified after this date are involved;

Whereas aeroplanes of the types Mercure and Airbus were certified after 1 January 1974; whereas these aeroplanes currently require in their construction a certain number of products, imported from third countries, which do not appear in the list of suspensions relating to the maintenance and repair of aeroplanes of types certified after 1 January 1974; whereas, therefore, it seems possible to admit the aforementioned

products under total suspension if they are imported for the maintenance or repair of the aeroplanes in question; whereas, however, to take account of the technical advances in the Community aircraft industry and in Community aircraft equipment industries, provision must be made for the implementation of these measures until 31 December 1974 only,

HAS ADOPTED THIS REGULATION:

*Article 1*

1. The Common Customs Tariff duties on products listed in the Annex to this Regulation shall be totally suspended, provided that such products are intended to be used, under customs control, for maintenance or repair of aeroplanes of the types Mercure and Airbus.
2. Paragraph 1 shall not preclude the granting, in respect of products listed in Annex II of Regulation (EEC) No 3584/73 which are intended to be used, under customs control, for the maintenance or repair of aeroplanes of the types Mercure and Airbus, of the suspension of Common Customs Tariff duties to the level indicated in column 4 of the said Annex, unless such duties are totally suspended, pursuant to paragraph 1.

*Article 2*

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply until 31 December 1974.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 17 June 1974.

*For the Council*

*The President*

J. ERTL

<sup>(1)</sup> OJ No L 365, 31. 12. 1973, p. 3.

## ANNEX

CCT heading No	Description
1	2
62.05	<p>Other made-up textile articles (including dress patterns) :</p> <p>ex C. Other :</p> <p>— Passenger escape slides</p>
ex 84.12	<p>Air-conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air :</p> <p>— Air-conditioning machines, with or without refrigeration elements, of a capacity exceeding 5 000 Kcal/h</p>
ex 84.21	<p>Mechanical appliances (whether or not hand operated) for projecting, dispersing or spraying liquids or powders ; fire extinguishers (charged or not) ; spray guns and similar appliances ; steam or sand-blasting machines and similar jet projecting machines :</p> <p>— Built-in fire extinguishers for jet engines and auxiliary power units</p> <p>— Their parts</p>
84.22	<p>Lifting, handling, loading or unloading machinery, telfers and conveyors (for example lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics) not being machinery falling within heading No 84.23 :</p> <p>ex D. Other :</p> <p>The following built-in items :</p> <p>— Roller ball units</p> <p>— Lock actuators</p> <p>— Sill actuators</p> <p>— Pallet and container locks</p>
84.61	<p>Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure-reducing valves and thermostatically controlled valves :</p> <p>ex B. Other :</p> <p>— Valves used in air-conditioning and cabin-pressurization systems</p> <p>— Spherical hydropneumatic accumulators</p>

CCT heading No	Description
1	2
85.01	<p>Electrical goods of the following descriptions : generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors :</p> <p>A. Generators, motors (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters :</p> <p>ex II. Other :</p> <ul style="list-style-type: none"> <li>— High speed alternators (1 500 to 3 600 rpm)</li> <li>— Electric motors of not more than 2 ph for driving powered rollers</li> </ul> <p>ex C. Parts :</p> <ul style="list-style-type: none"> <li>— Casings for the above alternators</li> <li>— Parts of the above electric motors</li> </ul>
85.15	<p>Radiotelegraphic and radiotelephonic transmission and reception apparatus ; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras ; radio navigational aid apparatus, radar apparatus and radio remote control apparatus :</p> <p>A. Radiotelegraphic and radiotelephonic transmission and reception apparatus ; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras :</p> <p>ex II. Transmitter-receivers :</p> <ul style="list-style-type: none"> <li>— HF transmitter-receiver apparatus</li> </ul>
90.24	<p>Instruments and apparatus for measuring, checking or automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature (for example, pressure gauges, thermostats, level gauges, flow meters, heat meters, automatic oven-draught regulators), not being articles falling within heading No 90.14 :</p> <p>ex C. Other :</p> <ul style="list-style-type: none"> <li>— Regulators used in air-conditioning and cabin pressurization systems</li> </ul>
90.28	<p>Electrical measuring, checking, analyzing, or automatically controlling instruments and apparatus :</p> <p>ex A. Electronic instruments and apparatus :</p> <ul style="list-style-type: none"> <li>— Terrestrial magnetic-field detector apparatus, by saturation of magnetic circuits (flux valve)</li> <li>— Magnetic compensators for the magnetic field produced by the magnetic mass of the aeroplane</li> <li>— Air-speed indicators and associated instruments</li> <li>— Stall warning calculators</li> <li>— Apparatus for fuel consumption flow control</li> </ul> <p>ex B. Other :</p> <ul style="list-style-type: none"> <li>— Indicator apparatus for fuel pressure and engine oil</li> <li>— Fuel contents gauge</li> <li>— Speed indicator apparatus</li> <li>— Temperature indicator apparatus</li> <li>— Smoke detectors</li> </ul>

CCT heading No	Description
1	2
90.29	<p>Parts or accessories suitable for use solely or principally with one or more of the articles falling within heading No 90.23, 90.24, 90.26, 90.27 or 90.28 :</p> <p>ex A. Parts or accessories suitable for use solely or principally with the electronic instruments or apparatus falling within subheading 90.28 A</p> <p>— for :</p> <ul style="list-style-type: none"> <li>— Terrestrial magnetic field detector apparatus, by saturation of magnetic circuits (flux valve)</li> <li>— Magnetic compensators for the magnetic field produced by the magnetic mass of the aeroplane</li> <li>— Air-speed indicators and associated instruments</li> <li>— Stall warning calculators</li> <li>— Apparatus for fuel consumption flow control</li> </ul> <p>ex B. Other :</p> <ul style="list-style-type: none"> <li>— for regulators used in air-conditioning and cabin pressurization systems falling within subheading 90.24 C</li> <li>— for :</li> <ul style="list-style-type: none"> <li>— Indicator apparatus for fuel pressure and engine oil</li> <li>— Fuel contents gauge</li> <li>— Speed indicator apparatus</li> <li>— Temperature indicator apparatus</li> <li>— Smoke detectors</li> </ul> </ul> <p>falling within subheading 90.28 B</p>
92.11	<p>Gramophones, dictating machines and other sound recorders and reproducers, including record-players and tape decks, with or without sound-heads ; television image and sound recorders and reproducers, magnetic :</p> <p>A. Sound recorders and reproducers :</p> <p>ex I. Sound recorders :</p> <ul style="list-style-type: none"> <li>— Recorders of pilots' conversation with the ground</li> </ul> <p>ex II. Reproducers :</p> <ul style="list-style-type: none"> <li>— Reproducers of music and automatic announcers</li> </ul>
