

REGULATION (EEC) No 2922/74 OF THE COUNCIL

of 18 November 1974

on the opening, allocation and administration of a Community tariff quota for certain textile fibres falling within heading No 56.04 of the Common Customs Tariff, originating in Cyprus

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Whereas, as regards the Community as originally constituted:

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof;

— it is necessary to ensure to all importers equal and uninterrupted access to the quota and uninterrupted application of the rates laid down for this quota to all imports of the products concerned until the quota has been used up;

Having regard to the proposal from the Commission;

Whereas the Agreement⁽¹⁾ establishing an association between the European Economic Community and the Republic of Cyprus, hereinafter called the 'Agreement', and the Protocol⁽²⁾ laying down certain provisions concerning that Agreement as a result of the accession of new Member States to the European Economic Community, hereinafter called the 'Protocol', provide for the opening of an annual Community tariff quota of 100 metric tons of man-made fibres (discontinuous or waste), carded, combed or otherwise prepared for spinning, falling within heading No 56.04 of the Common Customs Tariff, originating in Cyprus; whereas, pursuant to the joint declaration in Article 2 of the Protocol, the tariff quota should be allocated among the Member States as follows: 70 metric tons for the Community as originally constituted and 30 metric tons for the new Member States; whereas Annex 1 to the Agreement provides that the duties applicable to the quota shall be equal to 30% of the Common Customs Tariff duties; whereas as regards the duties applicable to goods within the limits of the quota by the new Member States, the special provisions of the Protocol and of the Act of Accession⁽³⁾ should be observed; whereas to comply with the special provisions of the Protocol, separate arrangements should be made for the Member States of the Community as originally constituted on the one hand and for the new Member States on the other hand;

— in the light of the principles elicited above, the Community nature of the quota may be preserved by an arrangement allocating it among the Member States; whereas in order to reflect more accurately the actual development of the market in the product concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference to both statistics of each State's imports of the said imports of the said products originating in Cyprus over a representative reference period and the economic outlook for the quota period concerned;

— however, as during the last three years no such products originating in Cyprus have been imported and as no forecast can be made for 1975, a significative and balanced participation by each of these States on this quota would ensure fair distribution among them;

— in order to take into account import trends for the products concerned in the different Member States, the quota amount should be divided into two tranches, the first tranche being allocated among the Member States and the second forming a reserve intended ultimately to cover the requirements of those Member States which have used up their initial shares; whereas, in order to ensure a certain degree of security to importers in each Member State, the first tranche of the quota should be determined at a level which, under present circumstances, may be approximately 75%;

(¹) OJ No L 133, 21. 5. 1973, p. 1.

(²) OJ No L 133, 21. 5. 1973, p. 88.

(³) OJ No L 73, 27. 3. 1972, p. 14.

- the initial share of the Member States may be used up more or less quickly; whereas, in order to take this fact into account and to avoid any break in continuity, it is important that any Member State having almost used up its initial share should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up, and repeated as many times as the reserve allows; whereas the initial and additional shares of the quota must be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which the quota amount is used and inform Member States thereof;
- if, at a specified date in the quota period, a considerable balance remains in one or other Member State, it is essential that that Member State pays a large amount of it back into the reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;
- since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and jointly represented by the Benelux Economic Union, all transactions concerning the administration of shares granted to the abovementioned Economic Union may be carried out by any one of its members;

Whereas as regards the new Member States:

- pursuant to the Protocol, a gross amount of 30 metric tons is allocated to the new Member States; whereas, for the purposes of the allocation of this amount among them, both the past and the prospective future situations are the same as those which faced the original Member States; whereas, therefore, the quota should be allocated

equally among the new Member States in the same way;

- the quota duties are to be calculated by the new Member States in accordance with Articles 3, 4, 5, 6 and 7 of the Protocol;
- it is necessary to ensure to all importers equal and uninterrupted access to the quota and uninterrupted application of the rates laid down for this quota to all imports of the products concerned until the quota has been used up,

HAS ADOPTED THIS REGULATION:

Article 1

From 1 January to 31 December 1975 a tariff quota of 100 metric tons shall be opened within the Community in respect of man-made fibres (discontinuous or waste), carded, combed or otherwise prepared for spinning, falling within heading No 56.04 of the Common Customs Tariff, originating in Cyprus. 2. If, after its initial share has been exhausted, 90% or more of the second share drawn up by a Member State has been used, that Member State shall proceed, in accordance with the conditions laid down in paragraph 1, to draw a third share, equal to 7.5% of its initial share, rounded up to the next unit where appropriate, to the extent that the reserve is sufficient.
