

COUNCIL REGULATION (EEC) No 438/80

of 18 February 1980

opening, allocating and providing for the administration of a Community tariff quota for rum, arrack and tafia, falling within subheading 22.09 C I of the Common Customs Tariff and originating in the ACP States (March/June 1980)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the ACP—EEC Convention of Lomé signed on 28 February 1975 expires on 29 February 1980; whereas, pending the entry into force of the second ACP—EEC Convention signed at Lomé on 31 October 1979, it is appropriate to apply the provisions of Protocol 5 to the latter Convention in advance, from 1 March 1980; whereas that Protocol provides that, until the entry into force of a common organization of the market in spirits, products of subheading 22.09 C I originating in the ACP States, shall be imported duty-free into the Community under conditions such as to permit the development of traditional trade flows between the ACP States and the Community and between the Member States; whereas the Community shall each year fix the quantities which may be imported free of customs duties on the basis of the largest quantities imported annually from the ACP States into the Community in the last three years for which statistics are available, increased by an annual growth rate of 40 % on the market of the United Kingdom and 18 % on the other markets of the Community, these growth rates being based on foreseeable internal demand in each Member State;

Whereas the levels reached by imports of the products concerned into the Community and the Member States during the last three years for which statistics are available should be taken into consideration;

Whereas the first quota period should end on 30 June 1980 and a *pro rata temporis* reduction of the quota volume to four-twelfths should, therefore, be introduced; whereas the size of the tariff quota for the period 1 March to 30 June 1980 should, therefore, be fixed at 59 433 hectolitres of pure alcohol;

Whereas the above principles also apply to the allocation of the tariff quota;

Whereas it seems likely that arrangements for using the Community tariff quota based on allocation between the United Kingdom and the other Member States would reconcile the application of the growth rates provided for in Protocol 5 with the uninterrupted application of the duty-free entry arrangements in respect of the said quota to all imports of the products concerned into the Member States until the quota is exhausted; whereas, in order to reflect as closely as possible the actual trends on the markets in the products concerned, such allocation should be made in accordance with the requirements of the Member States; whereas the tariff quota should be allocated among the Member States on the basis of the largest quantities imported annually into each Member State during the past three years, taking into account the abovementioned growth rates;

Whereas measures should be laid down to ensure that Protocol 5 is implemented under conditions such as to permit the development of traditional trade flows between the ACP States and the Community and between the Member States;

Whereas, owing to the special character of the products in question and their sensitivity on Community markets, exceptional provision should be made for a method of use based on a single division among Member States;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are jointly represented by the Benelux Economic Union, any measure concerning the administration of the share allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:
