Whereas this activating price for aid for peas and field beans must relate to a standard quality of soya cake which is representative of the average quality sold on the Community market;

Whereas Article 2 (3) of the same Regulation provides that the guide price for peas and field beans for human consumption must be fixed at a level which is fair to producers, taking account of the Community's supply requirements; whereas this price must relate to a standard quality;

Whereas Article 3 of the same Regulation provides for the fixing of a minimum price which, allowing for market fluctuations and for the cost of transport of the products from producer to processor, enables producers to obtain a fair return,
