**COMMISSION REGULATION (EEC) No 2179/92**  
**of 30 July 1992**

**laying down detailed rules for the application of the specific import measures for the Canary Islands as regards tobacco**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1601/92 of 15 June 1992 concerning specific measures for the Canary islands with regard to certain agricultural products<sup>(1)</sup>, and in particular Article 6 (2) thereof,

Whereas Article 6 of Regulation (EEC) No 1601/92 provides for exemption from customs duties for direct imports into the Canary Islands of a maximum quantity of 20 000 tonnes of raw and semi-manufactured tobacco intended for the local manufacture of tobacco products;

Whereas, in order to administer the exemption scheme and to ease the administrative burden, the provisions of Commission Regulation (EEC) No 1695/92 of 30 June 1992 laying down common detailed rules for implementation of the specific arrangements for the supply of certain agricultural products to the Canary Islands<sup>(2)</sup> should be applied as far as possible;

Whereas the maximum quantity of raw and semi-manufactured tobacco benefiting from the scheme should be broken down according to the requirements of local industry and commerce, taking into account the traditional patterns of use;

Whereas, for the purposes of good management, a timetable for the submission of applications for certificates and a period for deciding on their issue should be set;

Whereas the provisions of Regulation (EEC) No 1601/92 apply from 1 July 1992; whereas the detailed rules contained in this Regulation should apply from the same date;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Tobacco,

HAS ADOPTED THIS REGULATION:

*Article 1*

The importation into the Canary Islands, with exemption from customs duties, of the maximum annual quantity of 20 000 tonnes of raw stripped tobacco equivalent pursuant to Article 6 of Regulation (EEC) No 1601/92 shall be effected in accordance with the rules laid down in this Regulation.

The maximum quantity shall be broken down in accordance with the provisions of the Annex. This breakdown may be revised during the period of application following a justified request from the Spanish authorities.

The period of application of the arrangements shall run from 1 July of a given year to 30 June of the following year.

*Article 2*

The importation of the products listed in the Annex shall be subject to the presentation of a certificate of exemption.

<sup>(1)</sup> OJ No L 173, 27. 6. 1992, p. 13.

<sup>(2)</sup> OJ No L 179, 1. 7. 1992, p. 1.

**▼M3**

Except where otherwise provided for in this Regulation, Articles 2 and 4 to 16 of Regulation (EC) No 2790/94 apply *mutatis mutandis*.

**▼B***Article 3*

1. Applications for certificates of exemption shall be submitted during the first five working days of each month. Spain shall designate the authority competent to issue the certificates.

2. The competent authority shall publish the quantities available during the last week of the month preceding the month in which applications are to be submitted.

The competent authority shall allocate the available quantities among the different subheadings with reference to the maximum quantities set out in the Annex, the requirements of industry and commerce and the traditional patterns of use. The quantities of the different products shall be converted into quantities of stripped tobacco using the coefficients of equivalence set out in the Annex.

3. Applications for certificates shall not be accepted unless:

- they relate to a quantity which does not exceed the quantity available,
- the applicant provides proof, prior to the expiry of the time limit set for the presentation of applications for certificates, that a security of **►M1** ECU 0,2/kg **◄** has been lodged.

4. Box 20 of the application for a certificate and the certificate shall contain the words: 'product intended for industries manufacturing tobacco products'.

5. Certificates shall be issued on the 10th working day of each month at the latest.

*Article 4*

If, in respect of one of the products, the quantities for which certificates of exemption have been applied for exceed the quantities available, the competent authorities shall apply to each application a uniform coefficient of reduction in order to comply with the quantity available. The measure shall be applied in a way that ensures that all applicants are treated equally.

When certificates are issued for quantities less than those applied for, the applicant may withdraw the application in writing within three working days of the issue of the certificate. The security shall then be released.

*Article 5*

The certificate of exemption shall be valid for two months from its date of issue.

*Article 6*

The quantity imported with exemption from customs duties shall not exceed that indicated in boxes 17 and 18 of the certificate of exemption. Box 19 of the certificate shall contain the figure 0 to that effect.

*Article 7*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply from 1 July 1992.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
