**General remark: significance of the X, A and D codes used in Annex I**

All the information marked 'X' or 'A' is obligatory.

'X' = Data element already included in the previous version of this Regulation.

'A' = Data element to be added compared to the previous version of this Regulation.

'D' = Data element to be deleted compared to the previous version of this Regulation.

In the case a data request is not applicable 'N/A' could be used in text fields. '0' (zero) could be used in numeric fields (the required format of the date field should be respected though). It is also allowed to leave the field blank.

## ANNEX II

**TECHNICAL SPECIFICATIONS FOR THE TRANSFER OF COMPUTER FILES TO THE EAGGF****(applicable from 16 October 2001 onwards)**

## 1. TRANSFER MEDIUM

The computer files must be transferred to the Commission through STATEL/STADIUM. More information on the use of STATEL/STADIUM can be found at the CIRCA website of the EAGGF.

## 2. COMPUTER FILE STRUCTURE

- 2.1. The Member State must create a computer record for each individual component of the EAGGF (Guarantee Section) payments and receipts. These components are the individual items of which the payment (receipt) to (from) the beneficiary consists.
- 2.2. The records must have a flat file structure. If fields have more than one value, separate records containing all data fields are required. Make sure that no double counting occurs.
- 2.3. All information for the same category of payments or receipts must be contained in the same computer file. Separate files relating to the same payments (e.g. for traders or inspections, or for basic and measure data) are not allowed.
- 2.4. The computer files must have the following characteristics:
  - (1) The first record in the file (header row) contains the file description. The field names comprise an 'F' followed by the field number used in Annex I (the 'X table'). Only field names existing in this Annex are allowed.
  - (2) The following records in the file are data (data rows), in the order indicated by the first record describing the file structure.
  - (3) The fields are separated by a semicolon (;). The header row and data rows should all contain the same number of semicolons. In the data rows, empty fields appear as a double semicolon (;;) within the record, or as a single semicolon (;) at the end of the record.
  - (4) Records vary in length. Each record ends with a code 'CR LF' or 'Carriage Return — Line Feed' (in hexadecimal: '0D 0A'). The header row never ends on a ';'. Data rows only end on a ';' if the last field is empty.
  - (5) The file is in ASCII code ISO 8859-1, except in the case of files from Greece, where either ELOT-928 or ISO 8859-7 coding shall be applied. Other codes (such as EBCDIC, TAR, ZIP, etc.) are not accepted.
  - (6) Numeric fields:
    - (a) Decimal separator: '.'.
    - (b) The symbol ('×' or '-') appears on the far left, followed immediately by the figures. For positive numbers, the '+' sign is optional.
    - (c) Fixed number of decimals (the details are set out in the Annex III hereto).
    - (d) No spaces between digits. No spaces or other signs between thousands.
  - (7) Date field: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).
  - (8) EAGGF budget code (field F109) format: 'B99-9999-999' (where '9' stands for any figure between 0 and 9).
  - (9) Quotation marks (' ') are not allowed at the beginning or at the end of the records. The semicolon field separator ';' must not be used in data in text format.
  - (10) All fields: no spaces at the beginning or end of a field.

(11) Files satisfying these rules will look like the following (example):

```
F100;F101;F106;F107;F108;F109
BE01;154678;+152.50;BEF;20010715;B01-1000-123

etc...
(other data rows with the fields in the same order).
```

2.5. A computer program for checking the format of the computer files, before sending them to the Commission, can be found at the CIRCA web-site of the EAGGF.

### 3. DOCUMENTATION

A separate document must be sent to the Commission through STATEL/STADIUM, explaining:

- any discrepancies between the sum of the records in the computer files, by budget heading and subheading, and the annual declaration,
- any codes used for fields, for which Annex III does not enforce standard codes.

Such document may relate to one or more computer data files.

All the information marked 'X' or 'A' is obligatory.

X = Data element already included in the previous version of this Regulation.

A = Data element to be added compared to the previous version of this Regulation.

D = Data element to be deleted compared to the previous version of this Regulation.

In the case a data request is not applicable 'N/A' could be used in text fields. '0' (zero) could be used in numeric fields (the required format of the date field should be respected though). It is also allowed to leave the field blank.

The field 105A of the Xs table must be used to indicate the amounts retained (negative amounts) on the basis of Articles 3 and 4 of Regulation (EC) No 1259/1999. Field 105A must be used for each Budget Post where a retention has been made.

For the moment there is no specific Budget Post on which to declare payments made using the amounts retained on the basis of Articles 3 and 4 of Regulation (EC) No 1259/1999. These payments should therefore be indicated in field 105A of the corresponding Budget Posts (4030, 4040, 4050 and 4070)

*Required format:* +99 ..... 99.99 or -99 ... 99.99, where 9 stands for any number from 0 to 9 inclusive.

**F500: product code/rural development sub-measure code**

In the case of rural development measures, indicate where applicable a code per sub-measure implemented (e.g. type of agri-environmental measure). Member States must draw up their own lists of codes, to be explained in the accompanying letter.

The Member State should differentiate between on-farm inspections and inspections by remote sensing.

Administrative checks (in the meaning of Article 47(3) of Regulation (EC) No 1750/1999) should not be mentioned in F600. They are not mentioned as such in any field. Nevertheless, the sanctions taken are mentioned in F105, whether they originate from an administrative check or check on-the-spot.

*Required format:* 'N' = no inspection, 'F' = on-farm inspection and 'T' = inspection by remote sensing. In the case of rural development measures, the code 'FT' must be shown where certain transactions are checked by remote sensing and others by on-the-spot inspections.

## 9. ADDITIONAL INFORMATION ON BUYING-IN AND SALES FROM PUBLIC STORAGE

These transactions (buying-in and sales) fall under the budget heading covering other costs. In the case of buying-in, provide details of total quantities and values in line 4 of Table 1 (or 51). In the case of sales, give details of total quantities and values in line 4 of Table 7 (or 53). As to the other items (technical and financial costs plus depreciation), the computer file need contain only one line corresponding to the data in Table 52.

The Commission needs details of movements of quantities bought in, sales and losses even where no financial transactions are involved, as is the case with free sales of foodstuffs and losses within the tolerances allowed. For intervention products, the emphasis is on detailed stock movements rather than on the financial implications. The difference with the FAUDIT-ED system is that the Commission is not interested in the cumulative totals. The Commission also wants the information in the 'X Table' to reflect the actual transactions. Table 8 (Public storage — Public stock position and movements) supplements the above data.
