

2024/1351

22.5.2024

**REGULATION (EU) 2024/1351 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**of 14 May 2024**

**on asylum and migration management, amending Regulations (EU) 2021/1147 and (EU) 2021/1060  
and repealing Regulation (EU) No 604/2013**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(2), point (e), and Article 79(2), points (a), (b) and (c), thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee (¹),

Having regard to the opinion of the Committee of the Regions (²),

Acting in accordance with the ordinary legislative procedure (³),

Whereas:

- (1) The Union, in constituting an area of freedom, security and justice, should ensure the absence of internal border controls for persons and frame a common policy on asylum, immigration and management of the external borders of Member States, based on solidarity and fair sharing of responsibility between Member States, which is fair towards third-country nationals and stateless persons and in compliance with international and Union law, including fundamental rights.
- (2) In order to reinforce mutual trust between Member States, it is necessary to have a comprehensive approach to asylum and migration management which brings together internal and external components. The effectiveness of such an approach depends on all components being addressed jointly and implemented consistently and in an integrated manner.
- (3) This Regulation should contribute to such comprehensive approach by setting out a common framework for the actions of the Union and of the Member States, each within their respective competences, in the field of asylum and relevant migration management policies, by upholding and elaborating on the principle of solidarity and fair sharing of responsibility, including the financial implications of that principle, between the Member States, which governs the policies in the area of asylum and migration in accordance with Article 80 of the Treaty on the Functioning of the European Union (TFEU). The principle of solidarity and fair sharing of responsibility should be the premise on the basis of which the Member States collectively share the responsibility to manage migration, in particular in the area governed by the Common European Asylum System.
- (4) Member States should take all necessary measures, *inter alia*, to provide access to international protection and adequate reception conditions to those in need, to promote legal pathways, to enable the effective application of the rules on determining the Member State responsible for examining an application for international protection, to effectively manage the return of third-country nationals who do not or no longer fulfil the conditions for residence in the territory of the Member States, to prevent the irregular migration and unauthorised movements of third-country nationals and stateless persons between Member States, to combat migrant smuggling and trafficking in human beings, including reducing the vulnerabilities caused by them, and to provide support to other Member States in the form of solidarity contributions, as their contribution to the comprehensive approach.

(¹) OJ C 155, 30.4.2021, p. 58.

(²) OJ C 175, 7.5.2021, p. 32.

(³) Position of the European Parliament of 10 April 2024 (not yet published in the Official Journal) and decision of the Council of 14 May 2024.

- (5) To strengthen cooperation with third countries on asylum and migration, including readmission and addressing the root causes and drivers of irregular migration and forced displacement, it is necessary to promote and build tailor-made and mutually beneficial partnerships with those countries. Such partnerships should provide a framework for better coordination of the relevant Union policies and tools with third countries, and be based on human rights, rule of law and the respect of the Union's common values. As regards the external components of the comprehensive approach, nothing in this Regulation affects the pre-existing division of competences between the Member States and the Union, or between the institutions of the Union. Those competences will continue to be exercised with full respect for the procedural rules of the Treaties and in line with the case law of the Court of Justice of the European Union, in particular as regards non-binding instruments of the Union.
- (6) The common framework is needed in order to effectively address the increasing phenomenon of mixed arrivals of persons in need of international protection and of those who are not, and in recognition that the responsibility for irregular arrivals of migrants and asylum seekers in the Union should not have to be assumed by individual Member States alone, but by the Union as a whole. The scope of this Regulation should also include admitted persons.
- (7) In order to ensure the coherence and effectiveness of the actions and measures taken by the Union and its Member States, acting within their respective competences, there is a need for integrated policymaking and a comprehensive approach in the field of asylum and migration management, including both its internal and external components. The Union and Member States should ensure, each within their respective competences, and in compliance with the applicable Union law and international obligations, the coherence and implementation of asylum and migration management policies.
- (8) In order to ensure that their asylum, reception and migration systems are well prepared and that each part of those systems has sufficient capacity, Member States should have the necessary human, material and financial resources and infrastructure to effectively implement asylum and migration management policies, and allocate the necessary staff to their competent authorities for the implementation of this Regulation. The Member States should also ensure appropriate coordination between the relevant national authorities as well as with the national authorities of the other Member States.
- (9) Taking a strategic approach, Member States should have national strategies to ensure their capacity to effectively implement their asylum and migration management systems, in full compliance with their obligations under Union and international law. Those strategies should include preventive measures to reduce the risk of migratory pressure as well as information on contingency planning, including as provided for under Directive (EU) 2024/1346 of the European Parliament and of the Council<sup>(4)</sup>, and relevant information as regards the principles of integrated policymaking and of solidarity and fair sharing of responsibility under this Regulation and legal obligations stemming therefrom at national level. The Commission and relevant Union bodies, offices and agencies, and in particular the European Union Agency for Asylum (the 'Asylum Agency'), should be able to support the Member States when establishing their national strategies. The consultation of local and regional authorities by Member States, in accordance with national law and as appropriate, could also improve and strengthen national strategies. To ensure that the national strategies are comparable on specific core elements, a common template should be established by the Commission.
- (10) In order to ensure that an effective monitoring system is in place to ensure the application of the Union asylum *acquis*, the results of the monitoring undertaken by the Asylum Agency and the European Border and Coast Guard Agency, and other relevant bodies, offices, agencies or organisations, relevant parts of the evaluation carried out in accordance with Council Regulation (EU) 2022/922<sup>(5)</sup> as well as those carried out in line with Article 10 of Regulation (EU) 2024/1356 of the European Parliament and of the Council<sup>(6)</sup> should also be taken into account in Member States' national strategies. Member States could also consider the results of other relevant monitoring mechanisms.

<sup>(4)</sup> Directive (EU) 2024/1346 of the European Parliament and of the Council of 14 May 2024 laying down standards for the reception of applicants for international protection (OJ L, 2024/1346, 22.5.2024, ELI: <http://data.europa.eu/eli/dir/2024/1346/0j>).

<sup>(5)</sup> Council Regulation (EU) 2022/922 of 9 June 2022 on the establishment and operation of an evaluation and monitoring mechanism to verify the application of the Schengen *acquis*, and repealing Regulation (EU) No 1053/2013 (OJ L 160, 15.6.2022, p. 1).

<sup>(6)</sup> Regulation (EU) 2024/1356 of the European Parliament and of the Council of 14 May 2024 introducing the screening of third-country nationals at the external borders and amending Regulations (EC) No 767/2008, (EU) 2017/2226, (EU) 2018/1240 and (EU) 2019/817 (OJ L, 2024/1356, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1356/0j>).

- (11) The Commission should adopt a long-term European Asylum and Migration Management Strategy (the 'Strategy') setting out the strategic approach to ensure a consistent implementation of national strategies at Union level, in accordance with the principles set out in this Regulation and in Union primary law and applicable international law.
- (12) Considering the importance of ensuring that the Union is prepared and able to adjust to the developing and evolving realities of asylum and migration management, the Commission should annually adopt a European Annual Asylum and Migration Report (the 'Report'). The Report should assess the asylum, reception and migratory situation over the previous 12-month period along all migratory routes to and in all Member States, serve as an early warning and awareness tool for the Union in the area of migration and asylum, and provide a strategic situational picture and projections for the coming year. The Report should set out, *inter alia*, the preparedness of the Union and the Member States to respond and adapt to the evolution of the migratory situation and the results of monitoring by the relevant Union bodies, offices and agencies. The data and information as well as the assessments contained in the report should be taken into account in the decision-making procedures relating to the solidarity mechanism set out in Part IV of this Regulation.
- (13) The Report should be prepared in consultation with Member States and relevant Union bodies, offices and agencies. For the purposes of the Report, the Commission should use existing reporting mechanisms, primarily the Integrated Situational Awareness and Analysis, provided that the Integrated Political Crisis Response is activated, and the EU mechanism for preparedness and management of crises related to migration set out in Commission Recommendation (EU) 2020/1366 (7). It is of the utmost importance for ensuring that the Union is prepared and able to adjust to the developing and evolving realities of asylum and migration management, and hence for the successful functioning of the annual asylum and migration cycle and the solidarity mechanism, that the Member States, the Council, the Commission, the European External Action Service and the relevant Union bodies, offices and agencies contribute to such existing reporting mechanisms and ensure the adequate and timely exchange of information and data. Information from other relevant sources, including the European Migration Network, the United Nations High Commissioner for Refugees, and the International Organization for Migration, should also be taken into consideration. The Commission should request additional information from Member States only when that information is not available through those reporting mechanisms and relevant Union bodies, offices and agencies, in order to avoid a duplication of efforts.
- (14) In order to ensure that the necessary tools are in place to assist Member States in dealing with challenges that can arise due to the presence on their territory of third-country nationals or stateless persons, regardless of how they crossed the external borders of Member States, the Report should be accompanied by a decision determining which Member States are under migratory pressure, at risk of migratory pressure during the upcoming year or facing a significant migratory situation (the 'Decision'). Member States under migratory pressure should be able to rely on the use of the solidarity contributions included in the Annual Solidarity Pool.
- (15) In order to provide predictability to Member States under migratory pressure and to contributing Member States, the Report and the Decision should be accompanied by a Commission proposal identifying concrete annual solidarity measures, including relocations, financial contributions and, where applicable, alternative solidarity measures, and their numerical scale likely to be needed for the upcoming year at Union level, recognising that the various types of solidarity are of equal value. The types and numerical scale of the measures identified in the Commission proposal should as a minimum correspond to annual minimum thresholds for relocation and financial contributions. Those thresholds should be set out in this Regulation to ensure the predictable planning by contributing Member States and to provide minimum guarantees for the benefitting Member States. Where it is considered necessary, the Commission could identify in its proposal higher annual numbers for relocation or financial contributions. In order to preserve the equal value of solidarity measures, the ratio set out between the annual numbers identified in this Regulation should be maintained. In the same vein, when identifying the annual numbers, the Commission proposal should take into account exceptional situations where there would be no projected need for solidarity for the coming year.
- (16) In order to ensure better coordination at Union level and in view of the particular features of the system of solidarity provided for by this Regulation, which is based on pledges made by each Member State, exercising full discretion as to the type of solidarity, in the High-Level EU Solidarity Forum (the 'High-Level Forum'), the implementing power to establish the Annual Solidarity Pool should be conferred on the Council, acting on a proposal by the Commission. The Council implementing act establishing the Annual Solidarity Pool should identify concrete annual solidarity measures, including relocations, financial contributions and, where applicable, alternative solidarity measures, as

(7) Commission Recommendation (EU) 2020/1366 of 23 September 2020 on an EU mechanism for preparedness and management of crises related to migration (Migration Preparedness and Crisis Blueprint) (OJ L 317, 1.10.2020, p. 26).

well as their numerical scale likely to be needed for the upcoming year at Union level, while recognising that the various types of solidarity are of equal value. The Council implementing act establishing the Annual Solidarity Pool should also include the specific pledges that each Member State has made.

- (17) Benefitting Member States should be granted the possibility to implement actions in or in relation to third countries, in accordance with the scope and purpose of this Regulation and of Regulation (EU) 2021/1147 of the European Parliament and of the Council <sup>(8)</sup>.
- (18) Member States and the Commission should ensure respect for fundamental rights and compliance with the Charter of Fundamental Rights of the European Union (the 'Charter') in the implementation of the actions funded by the financial contributions. The enabling conditions laid down in Article 15 of Regulation (EU) 2021/1060 of the European Parliament and of the Council <sup>(9)</sup>, including the horizontal enabling condition on the 'Effective application and implementation of the Charter of Fundamental Rights' should apply to the Member States' programmes supported by the financial contributions. For the selection of the actions supported by the financial contributions, Member States should apply the provisions laid down in Article 73 of Regulation (EU) 2021/1060, including taking account of the Charter. For the actions funded by the financial contributions, Member States should apply the management and control systems established for their programmes in accordance with Regulation (EU) 2021/1060. Member States should protect the Union budget and should apply financial corrections by cancelling all or part of the support from the financial contributions, where expenditure declared to the Commission is found to be irregular, in line with Regulation (EU) 2021/1060. The Commission may interrupt the payment deadline, suspend all or part of payments, and apply financial corrections in accordance with the provisions laid down in Regulation (EU) 2021/1060.
- (19) During the operationalisation of the Annual Solidarity Pool contributing Member States should have the possibility, upon the request of a benefitting Member State, to provide alternative solidarity contributions. Alternative solidarity contributions should have practical and operational value. Where the Commission, following the consultation with the Member State concerned, considers that such measures as indicated by the Member State concerned are needed, such contributions should be identified in the Commission proposal for a Council implementing act establishing the Annual Solidarity Pool. Contributing Member States should be allowed to pledge such contributions, even if they are not identified in the Commission proposal for a Council implementing act establishing the Annual Solidarity Pool, and they should be counted as financial solidarity and their financial value should be assessed and applied in a realistic manner. Where those contributions are not requested by the benefitting Member State in a given year, they should be converted into financial contributions, at the end of the year.
- (20) In order to facilitate the decision-making process, the Commission proposal for a Council implementing act establishing the Annual Solidarity Pool should not be made public until its adoption by the Council.
- (21) For the effective implementation of the common framework and to identify gaps, address challenges and prevent the building up of pressure on asylum, reception and migration systems, the Commission should monitor and provide information on the migratory situation through regular reports.
- (22) In order to ensure a fair sharing of responsibility, solidarity as enshrined in Article 80 TFEU and a balance of effort between Member States, a mandatory solidarity mechanism should be established which provides effective support to Member States under migratory pressure and ensures swift access to fair and efficient procedures for granting international protection. Such a mechanism should provide for different types of solidarity measures of equal value and should be flexible and able to swiftly adapt to the evolving nature of the migratory challenges. The solidarity response should be designed on a case-by-case basis in order to be tailor-made to the needs of the Member State in question.
- (23) To ensure the smooth implementation of the solidarity mechanism, an EU Solidarity Coordinator should be appointed by the Commission. The EU Solidarity Coordinator should monitor and coordinate the operational aspects of the solidarity mechanism and should act as a central point of contact. The EU Solidarity Coordinator should facilitate communication between Member States in the implementation of this Regulation. The EU Solidarity Coordinator should, in cooperation with the Asylum Agency, promote coherent working methods for the identification of persons eligible for relocation and their matching with Member States of relocation, in particular to

<sup>(8)</sup> Regulation (EU) 2021/1147 of the European Parliament and of the Council of 7 July 2021 establishing the Asylum, Migration and Integration Fund (OJ L 251, 15.7.2021, p. 1).

<sup>(9)</sup> Regulation (EU) 2021/1060 of the European Parliament and of the Council of 24 June 2021 laying down common provisions on the European Regional Development Fund, the European Social Fund Plus, the Cohesion Fund, the Just Transition Fund and the European Maritime, Fisheries and Aquaculture Fund and financial rules for those and for the Asylum, Migration and Integration Fund, the Internal Security Fund and the Instrument for Financial Support for Border Management and Visa Policy (OJ L 231, 30.6.2021, p. 159).

ensure that meaningful links are taken into account. To effectively fulfil the role of the EU Solidarity Coordinator, the office of the EU Solidarity Coordinator should be provided with sufficient staff and resources and the EU Solidarity Coordinator should be able to participate in High-Level Forum meetings.

- (24) To ensure the effective implementation of the solidarity mechanism established by this Regulation, representatives of the Member States at the ministerial or other senior political level should be convened in a High-Level Forum, which should consider the Report, Decision and Commission proposal for a Council implementing act establishing the Annual Solidarity Pool and take stock of the overall situation and come to a conclusion on the solidarity measures and their levels needed for establishment of the Annual Solidarity Pool and, where needed, other migratory response measures. In order to ensure the smooth functioning and operationalisation of the Annual Solidarity Pool, a Technical-Level EU Solidarity Forum (the 'Technical-Level Forum') comprising representatives at a sufficiently senior level, such as high-level officials of the relevant authorities of the Member States, should be convened and chaired by the EU Solidarity Coordinator, on behalf of the Commission. The Asylum Agency and, where appropriate and invited by the EU Solidarity Coordinator, the European Border and Coast Guard Agency and the European Union Agency for Fundamental Rights, should participate in the Technical-Level Forum.
- (25) Considering that search and rescue stems from international obligations, Member States confronted with recurring disembarkations arising in the context of search and rescue operations might be among the Member States benefitting from solidarity measures. It should be possible to identify an indicative percentage of the solidarity measures that might be required for the Member States concerned. In addition, Member States should take into account the vulnerabilities of persons arriving from such disembarkations.
- (26) In order to provide a timely response to the situation of migratory pressure, the EU Solidarity Coordinator should support the swift relocation of applicants for and beneficiaries of international protection eligible for relocation. The benefitting Member State should draw up a list of eligible persons to be relocated, with the assistance of the Asylum Agency if requested and should be able to use tools developed by the EU Solidarity Coordinator. Persons to be relocated should be given the opportunity to provide information on the existence of meaningful links with specific Member States but should not have the right to choose a specific Member State of relocation.
- (27) In order to ensure an adequate solidarity response, and where Member States contributions are insufficient in relation to the needs identified, the Council should be able to reconvene the High-Level Forum to allow the Member States to pledge additional solidarity contributions.
- (28) When assessing whether a Member State is under migratory pressure, at risk of migratory pressure or facing a significant migratory situation, the Commission, on the basis of a broad quantitative and qualitative assessment, should take account of a broad range of factors, including the relevant recommendations provided by the Asylum Agency and information gathered pursuant to the EU mechanism for preparedness and management of crises related to migration. Such factors should include: the number of applications for international protection, irregular border crossings, unauthorised movements of third-country nationals and stateless persons between the Member States, return decisions issued and enforced, transfer decisions issued and carried out, number of arrivals by sea including through disembarkations following search and rescue operations, vulnerabilities of asylum applicants and the capacity of a Member State in managing its asylum and reception caseload, the specificities stemming from the Member States' geographical location and relations with relevant third countries and possible situations of instrumentalisation of migrants.
- (29) A mechanism should be set out for the Member States identified in the Decision as being under migratory pressure or those that consider themselves to be under migratory pressure, to make use of the Annual Solidarity Pool. The Member States that have been identified in the Decision as being under pressure should be able to make use of the Annual Solidarity Pool in a simple manner by merely informing the Commission and the Council of their intention to use it, following which the EU Solidarity Coordinator, on behalf of the Commission should convene the Technical-Level Forum. The Member States that consider themselves to be under migratory pressure should, in order to make use of the Pool, provide a duly substantiated reasoning of the existence and extent of the migratory pressure and other relevant information in the form of notification which the Commission should assess expeditiously. Benefiting Member States should use the Annual Solidarity Pool in a reasonable and proportionate manner, taking into account solidarity needs of the other Member States under migratory pressure. The EU Solidarity Coordinator

should ensure a balanced distribution of the solidarity contributions available among the benefitting Member States. Where a Member State considers itself to be in a situation of crisis, the procedure in Regulation (EU) 2024/1359 of the European Parliament and of the Council (<sup>10</sup>) should apply.

- (30) Where Member States are themselves benefitting Member States they should not be obliged to implement their pledged contributions to the Annual Solidarity Pool. At the same time, where a Member State is facing or considers itself to be facing migratory pressure or a significant migratory situation, which could hinder its ability to implement its pledged contributions due to challenges that that Member State needs to address, it should be possible for that Member State to request a full or partial deduction of its pledged contribution.
- (31) A reference key based on the size of the population and of the GDP of the Member States should be applied in accordance with the mandatory fair share principle for the operation of the solidarity mechanism enabling the determination of the overall contribution of each Member State. A Member State could, on a voluntary basis, provide an overall contribution beyond its mandatory fair share to assist Member States under migratory pressure. In the operationalisation of the Annual Solidarity Pool, contributing Member States should implement their pledges in proportion to their overall pledge, so that each time solidarity is drawn from the pool, those Member States contribute according to their fair share. In order to safeguard the functioning of this Regulation, the contributing Member States should not be obliged to implement their solidarity pledges towards the benefitting Member State where the Commission has identified systemic shortcomings in that benefitting Member State with regard to the rules set out in Part III of this Regulation that could result in serious negative consequences for the functioning of this Regulation.
- (32) In addition to the Annual Solidarity Pool, Member States, in particular when under migratory pressure or facing a significant migratory situation, as well as the Union, have at their disposal the Permanent EU Migration Support Toolbox (the 'Toolbox') which includes measures that can assist in responding to the needs of and alleviating pressure on the Member States and which are foreseen in the Union *acquis* or policy tools. In order to ensure that all relevant tools are used effectively to respond to specific migratory challenges, the Commission should have the possibility to identify the necessary measures from the Toolbox, without prejudice to the relevant Union law where applicable. Member States should endeavour to use components of the Toolbox in conjunction with the Annual Solidarity Pool. However, the use of measures in the Toolbox should not be a precondition for benefitting from solidarity measures.
- (33) Responsibility offsets should be introduced as a secondary level solidarity measure, pursuant to which the responsibility for examining an application is transferred to the contributing Member State, depending on whether or not the relocation pledges reach certain thresholds as set out in this Regulation. In certain circumstances, in order to provide sufficient predictability for the benefitting Member States, the application of responsibility offsets becomes mandatory. Contributions to solidarity through responsibility offsets should be counted as part of the mandatory fair share of the contributing Member State. A system of guarantees should be established, to avoid to the extent possible, incentives for irregular migration into the Union, unauthorised movements of third-country nationals and stateless persons between Member States and to support the smooth functioning of the rules for determining responsibility for examining applications for international protection. Where the application of the responsibility offsets becomes mandatory, a contributing Member State that has pledged relocations and has no applications for international protection for which the benefitting Member State has been determined as responsible to offset remains bound to implement its relocation pledge.
- (34) While relocation should primarily apply to applicants for international protection, and whereas primary consideration should be given to vulnerable persons, its application should be kept flexible. Given its voluntary nature, contributing and benefitting Member States should have the possibility to express their preferences in terms of persons to be considered. Such preferences should be reasonable in light of the needs identified and the profiles available in the benefitting Member State in order to ensure that the pledged relocations can be effectively implemented.
- (35) Upon request, Union bodies, offices and agencies in the field of asylum and border and migration management should be able to provide support to the Member States and the Commission in implementing this Regulation by providing expertise and operational support as provided for in their respective mandates.

<sup>(10)</sup> Regulation (EU) 2024/1359 of the European Parliament and of the Council of 14 May 2024 addressing situations of crisis and *force majeure* in the field of migration and asylum and amending Regulation (EU) 2021/1147 (OJ L, 2024/1359, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1359/oj>).

- (36) The Common European Asylum System has been built progressively as a common area of protection based on the full and inclusive application of the Geneva Convention relating to the Status of Refugees of 28 July 1951, as supplemented by the New York Protocol of 31 January 1967 (the 'Geneva Convention'), thus ensuring that no person is sent back to persecution, in compliance with the principle of non-refoulement. In this respect, and without the responsibility criteria laid down in this Regulation being affected, Member States, all respecting the principle of non-refoulement, are considered as safe countries for third-country nationals.
- (37) It is appropriate that a clear and workable method for determining the Member State responsible for the examination of an application for international protection is included in the Common European Asylum System as set out by the European Council at its special meeting in Tampere on 15 and 16 October 1999. That method should be based on objective, fair criteria both for the Member States and for the persons concerned. It should, in particular, make it possible to determine rapidly the Member State responsible, so as to guarantee swift and effective access to fair and efficient procedures for granting international protection and not to compromise the objective of the rapid processing of applications for international protection.
- (38) In order to significantly increase the understanding of the applicable procedures, Member States should, as soon as possible, provide persons subject to this Regulation, in a language that they understand or are reasonably supposed to understand, with all relevant information regarding the application of this Regulation, in particular information relating to the criteria for determining the Member State responsible, the respective procedures as well as information on their rights and obligations under this Regulation, including the consequences of non-compliance. In order to ensure that the best interests of the child are preserved and to guarantee inclusiveness of the minors in the procedures set out in this Regulation, Member States should provide information to minors in a child-friendly manner and taking into account their age and maturity. The Asylum Agency should in this regard develop common information material, as well as specific information for unaccompanied minors and vulnerable applicants, in close cooperation with national authorities.
- (39) Providing good quality information and legal support on the procedure to be followed to determine the Member State responsible as well as the rights and obligations of the applicants in that procedure is in the interests of both Member States and applicants. To increase the effectiveness of the procedure for determining the Member State responsible and ensure correct application of the responsibility criteria as set out in this Regulation, legal counselling should be introduced as an integral part of the system for determining the Member State responsible. For that purpose, legal counselling should be made available for the applicants, upon their request, to provide guidance and assistance on the application of the criteria and mechanisms for determining the Member State responsible.
- (40) This Regulation should build on the principles in Regulation (EU) No 604/2013 of the European Parliament and of the Council<sup>(11)</sup> while addressing the challenges identified and developing the principle of solidarity and fair sharing of responsibility as part of the common framework, in line with Article 80 TFEU. To that end, a new mandatory solidarity mechanism should enable a strengthened preparedness of Member States to manage migration, to address situations where Member States are faced with migratory pressure and to facilitate regular solidarity support among Member States. The effective implementation of such a solidarity mechanism is, together with an effective system for determining the Member State responsible, a key prerequisite to the functioning of the Common European Asylum System as a whole.
- (41) This Regulation should apply to applicants for subsidiary protection and persons eligible for subsidiary protection in order to ensure equal treatment for all applicants for and beneficiaries of international protection and consistency with the current Union asylum *acquis*, in particular Regulation (EU) 2024/1347 of the European Parliament and of the Council<sup>(12)</sup>.

<sup>(11)</sup> Regulation (EU) No 604/2013 of the European Parliament and of the Council of 26 June 2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person (OJ L 180, 29.6.2013, p. 31).

<sup>(12)</sup> Regulation (EU) 2024/1347 of the European Parliament and of the Council of 14 May 2024 on standards for the qualification of third-country nationals or stateless persons as beneficiaries of international protection, for a uniform status for refugees or for persons eligible for subsidiary protection and for the content of the protection granted, amending Council Directive 2003/109/EC and repealing Directive 2011/95/EU of the European Parliament and of the Council (OJ L, 2024/1347, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1347/oj>).

- (42) In order to ensure that third-country nationals and stateless persons that are resettled or admitted in accordance with Regulation (EU) 2024/1350 of the European Parliament and of the Council (<sup>(13)</sup>) or granted international protection or humanitarian status under national resettlement schemes are taken back to the Member State that admitted or resettled them, this Regulation should also apply to admitted persons who are present without authorisation on the territory of another Member State.
- (43) For reasons of efficiency and legal certainty, it is essential that this Regulation be based on the principle that responsibility is determined only once, unless one of the cessation grounds set out in this Regulation applies.
- (44) Directive (EU) 2024/1346 should apply to all procedures involving applicants under this Regulation, subject to the limitations in the application of that Directive.
- (45) Regulation (EU) 2024/1348 of the European Parliament and of the Council (<sup>(14)</sup>) should apply in addition and without prejudice to the procedural safeguards under this Regulation, subject to the limitations in the application of that Regulation.
- (46) In accordance with the 1989 United Nations Convention on the Rights of the Child and with the Charter, the best interests of the child should be a primary consideration of Member States when applying this Regulation. In assessing the best interests of the child, Member States should, in particular, take due account of the minor's well-being and social development in the short, medium and long term, safety and security considerations and the views of the minor in accordance with his or her age and maturity, including his or her background. In addition, specific procedural guarantees for unaccompanied minors should be laid down on account of their particular vulnerability, including the appointment of a representative.
- (47) To ensure the effective application of the guarantees for minors established in this Regulation, Member States should ensure that staff of the competent authorities who deal with requests concerning unaccompanied minors receive appropriate training, for example in accordance with the relevant Asylum Agency guidelines, in areas such as the rights and individual needs of the minor, early identification of victims of trafficking in human beings or abuse, as well as best practices to prevent disappearance of the minor.
- (48) In accordance with the European Convention for the Protection of Human Rights and Fundamental Freedoms and with the Charter, respect for private and family life should be a primary consideration of Member States when applying this Regulation.
- (49) Without prejudice to the competence of Member States on the acquisition of nationality and the fact that, under international law, it is for each Member State, having due regard to Union law, to lay down the conditions for the acquisition and loss of nationality, in applying this Regulation, Member States should respect their international obligations towards stateless persons in accordance with international human rights law instruments, including where applicable under the Convention relating to the Status of Stateless Persons, adopted in New York on 28 September 1954. Where appropriate, Member States should endeavour to identify stateless persons and strengthen their protection, thus allowing stateless persons to enjoy core fundamental rights and reducing the risk of discrimination or unequal treatment.
- (50) In order to prevent that persons who represent a security risk are transferred among the Member States, it is necessary to ensure that the Member State where an application is first registered does not apply the responsibility criteria or the benefitting Member State does not apply the relocation procedure where there are reasonable grounds to consider that the person concerned poses a threat to internal security.
- (51) In order to ensure that applications for international protection of the members of one family are examined thoroughly by a single Member State, that the decisions taken in respect of them are consistent, and that the members of one family are not separated, it should be possible to conduct the procedures for determining the Member State responsible for examining those applications together.

(<sup>13</sup>) Regulation (EU) 2024/1350 of the European Parliament and of the Council of 14 May 2024 establishing a Union Resettlement and Humanitarian Admission Framework, and amending Regulation (EU) 2021/1147 (OJ L, 2024/1350, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1350/oj>).

(<sup>14</sup>) Regulation (EU) 2024/1348 of the European Parliament and of the Council of 14 May 2024 establishing a common procedure for international protection in the Union and repealing Directive 2013/32/EU (OJ L, 2024/1348, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1348/oj>).

- (52) The definition of family member should reflect the reality of current migratory trends, according to which applicants often arrive to the territory of the Member States after a prolonged period of time in transit. The definition should therefore include families formed outside the country of origin, but before their arrival on the territory of the Member State.
- (53) In order to ensure full respect for the principle of family unity and for the best interests of the child, the existence of a relationship of dependency between an applicant and his or her child, sibling or parent on account of the applicant's pregnancy or maternity, state of health or old age should be a binding responsibility criterion. When the applicant is an unaccompanied minor, the presence on the territory of another Member State of a family member, sibling or relative who can take care of him or her should also become a binding responsibility criterion. In order to discourage unauthorised movements of unaccompanied minors in the absence of such a family member, sibling or relative, which are not in the best interests of the child, the Member State responsible should be the Member State where the unaccompanied minor's application for international protection was first registered, if it is in the best interests of the child. Where the unaccompanied minor has applied for international protection in several Member States, and a Member State considers that it is not in the best interests of the child to transfer him or her to the Member State responsible on the basis of an individual assessment, that Member State should become responsible for examining the new application.
- (54) The rules on evidence should allow for a swifter family reunification than under Regulation (EU) No 604/2013. It is therefore necessary to clarify that formal proof, such as original documentary evidence and DNA testing, should not be necessary where the circumstantial evidence is coherent, verifiable and sufficiently detailed to establish responsibility for examining an application for international protection. Member States' authorities should consider all available information, such as photos, proof of contact and witness statements to make a fair appraisal of the relationship. In order to facilitate the early identification of possible cases that involve family members, the applicant should receive a template developed by the Asylum Agency. Where possible, the applicant should complete the template before the personal interview. Taking into account the importance of the family links within the hierarchy of the responsibility criteria, all cases that involve family members should be prioritised during the relevant procedures set out in this Regulation.
- (55) Where applicants are in possession of a diploma or other qualification, the Member State where the diploma was issued should be responsible for examining their application provided that the application is registered less than six years after the diploma or qualification was issued, which would ensure a swift examination of the application in the Member State with which the applicant has meaningful links based on such a diploma.
- (56) Considering that a Member State should remain responsible for a person who has irregularly entered its territory, it is also necessary to provide for the situation where the person enters the territory following a search and rescue operation. A derogation from the responsibility criterion should be laid down for the situation where a Member State has relocated persons having crossed the external border of another Member State irregularly or following a search and rescue operation. In such a situation, the Member State of relocation should be responsible if the person applies for international protection.
- (57) A Member State should be able to derogate from the responsibility criteria at its own discretion, in particular on humanitarian, social, cultural and compassionate grounds, in order to bring together family members, relatives or any other family relations and examine an application for international protection registered with it or with another Member State, even if such examination is not its responsibility according to the criteria laid down in this Regulation.
- (58) In order to ensure that the procedures set out in this Regulation are respected and to prevent obstacles to the efficient application of this Regulation, in particular in order to avoid absconding of third-country nationals and stateless persons or their unauthorised movements between Member States, it is necessary to establish clear obligations for the applicant in the context of the procedure, of which he or she should be duly informed in a timely manner. Non-compliance with such obligations should lead to appropriate and proportionate procedural consequences for the applicant and his or her reception conditions. Member States should take into account the individual circumstances of the applicant when assessing his or her compliance with the obligations and cooperation with the competent authorities, in accordance with the rules set out in this Regulation. In line with the Charter, the Member State where such an applicant is present should in any case ensure that the immediate material needs of that applicant are covered.
- (59) In order to limit the possibility that the behaviour of applicants could lead to the cessation or shift of responsibility to another Member State, the time limits leading to cessation or the shift of responsibility where the person concerned leaves the territory of the Member States during the examination of the application or absconds to evade a transfer to the Member State responsible should be extended. In addition, the shift of responsibility when the time

limit for sending a take back notification has not been respected by the notifying Member State should be removed in order to discourage circumvention of the rules and obstruction of procedure. In situations where a person has entered a Member State irregularly without applying for asylum, the period after which the responsibility of that Member State ceases and another Member State where that person subsequently applies becomes responsible should be extended, to further incentivise persons to comply with the rules and apply in the first Member State of entry and hence limit unauthorised movements of third-country nationals and stateless persons between Member States and increase the overall efficiency of the Common European Asylum System.

- (60) A personal interview with the applicant should be organised in order to facilitate the determination of the Member State responsible for examining an application for international protection unless the applicant has absconded, has not attended the interview without justified reasons or the information provided by the applicant is sufficient for determining the Member State responsible. In order to ensure that all relevant information is gathered from the applicant to correctly determine the Member State responsible, a Member State which omits the interview should give the applicant the opportunity to present all further information, including duly motivated reasons for the authority to consider the need for a personal interview. As soon as the application for international protection is registered, the applicant should be informed in particular of the application of this Regulation, of the fact that the determination of the Member State responsible for examining his or her application for international protection is based on objective criteria, of his or her rights and obligations under this Regulation and of the consequences of not complying with the obligations.
- (61) In order to ensure that the personal interview facilitates as much as possible the determination of the Member State responsible in a swift and efficient manner, the staff interviewing applicants should have received sufficient training, including general knowledge of problems which could adversely affect the applicant's ability to be interviewed, such as indicators showing that the applicant might have been a victim of torture or trafficking in human beings.
- (62) In order to guarantee the effective protection of the applicants' fundamental rights to respect for private and family life, the rights of the child and the protection against inhuman and degrading treatment because of a transfer, applicants should have a right to an effective remedy, limited to those rights, in accordance, in particular, with Article 47 of the Charter and the relevant case-law of the Court of Justice of the European Union.
- (63) In order to facilitate the smooth application of this Regulation, Member States should in all cases indicate the Member State responsible in Eurodac after having concluded the procedures for determining the Member State responsible, including in cases where the responsibility results from the failure to respect the time limits for sending or replying to take charge requests, carrying out a transfer, as well as in cases where the Member State of first application becomes responsible or it is impossible to carry out the transfer to the Member State primarily responsible due to a real risk that the applicant will be subjected to inhuman or degrading treatment within the meaning of Article 4 of the Charter as a result of the transfer to that Member State and subsequently another Member State is determined as responsible.
- (64) In order to ensure the speedy determination of the Member State responsible, the deadlines for making and replying to requests to take charge, for making take back notifications, as well as for making and deciding on appeals, should be streamlined and shortened, without prejudice to the fundamental rights of applicants.
- (65) The detention of applicants should be applied in accordance with the underlying principle that a person should not be held in detention for the sole reason that he or she is seeking international protection. Detention should be for as short a period as possible and subject to the principles of necessity and proportionality, thereby only being allowed as a measure of last resort. In particular, the detention of applicants must be in accordance with Article 31 of the Geneva Convention. The procedures provided for under this Regulation in respect of a detained person should be applied as a matter of priority, within the shortest possible deadlines. As regards the general guarantees governing detention, as well as detention conditions, where appropriate, Member States should apply the provisions of Directive (EU) 2024/1346 also to persons detained on the basis of this Regulation. Minors should, as a rule, not be detained and efforts should be made to place them in accommodation with special provisions for minors. In exceptional circumstances, as a measure of last resort, after it has been established that other less coercive alternative measures cannot be applied effectively, and after detention is assessed to be in the best interests of the child, minors could be detained in the circumstances provided for in Directive (EU) 2024/1346.

- (66) Deficiencies in, or the collapse of, asylum systems, often aggravated or contributed to by particular pressures on them, could jeopardise the smooth functioning of the system put in place under this Regulation, which could lead to a risk of violation of the rights of applicants as set out in the Union asylum *acquis* and the Charter, other international human rights and refugee rights.
- (67) Sincere cooperation between Member States is essential for the proper functioning of the Common European Asylum System. Such cooperation entails the proper application of, *inter alia*, the procedural rules laid down in this Regulation, including that all appropriate practical arrangements, necessary to ensure that transfers are actually carried out, are put in place and implemented.
- (68) In accordance with Commission Regulation (EC) No 1560/2003 (<sup>15</sup>), transfers to the Member State responsible for examining an application for international protection may be carried out on a voluntary basis, by supervised departure or under escort. Member States should promote voluntary transfers by providing adequate information to the person concerned and should ensure that supervised or escorted transfers are undertaken in a humane manner, in full compliance with fundamental rights and respect for human dignity, as well as the best interests of the child and taking utmost account of developments in the relevant case law, in particular as regards transfers on humanitarian grounds.
- (69) Provided it is necessary for the examination of an application for international protection, Member States should be able to share specific information relevant for that purpose without the consent of the applicant where such information is necessary for the competent authorities of the Member State responsible to fulfil their obligations, in particular those stemming from Regulation (EU) 2024/1348.
- (70) In order to ensure a clear and efficient relocation procedure, specific rules for benefitting and contributing Member States should be set out. Where responsibility is not determined prior to the relocation, the Member State of relocation should become responsible, except for the cases where the family-related criteria apply. The rules and safeguards relating to transfers set out in this Regulation should also apply, where relevant, to transfers for the purposes of relocation. Such rules should ensure that family unity is preserved and that persons that might pose a threat to internal security are not relocated.
- (71) Where Member States undertake relocation as a solidarity contribution, appropriate and proportionate financial support from the Union budget should be provided. In order to incentivise Member States to give priority to the relocation of unaccompanied minors a higher incentive contribution should be provided in respect of unaccompanied minors.
- (72) It should be possible to mobilise the resources of the Asylum, Migration and Integration Fund, as established by Regulation (EU) 2021/1147, and of other relevant Union funds (the 'Funds'), to provide support for Member States' efforts in applying this Regulation, in line with the rules governing the use of the Funds and without prejudice to other priorities supported by the Funds. In this context, Member States should be able to make use of the allocations under their respective programmes, including the amounts made available following the mid-term review. It should be possible to make additional support under thematic facilities available, in particular to those Member States which might need to increase their capacities at the external borders or are faced with specific pressures on or needs concerning their asylum and reception systems and their external borders.
- (73) Regulation (EU) 2021/1147 should be amended to guarantee a full contribution by the Union budget to the total eligible expenditure of solidarity actions, as well as to introduce specific reporting requirements in relation to those actions, as part of the existing reporting obligations on the implementation of the Funds.
- (74) When defining the eligibility period for expenditure of solidarity actions, the need to implement solidarity actions in a timely manner should be considered. In addition, due to the solidarity nature of the financial transfers under this Regulation, such transfers should be used in full to fund solidarity actions.

<sup>(15)</sup> Commission Regulation (EC) No 1560/2003 of 2 September 2003 laying down detailed rules for the application of Council Regulation (EC) No 343/2003 establishing the criteria and mechanisms for determining the Member State responsible for examining an asylum application lodged in one of the Member States by a third-country national (OJ L 222, 5.9.2003, p. 3).

- (75) The application of this Regulation can be facilitated, and its effectiveness increased, by bilateral arrangements between Member States for improving communication between competent departments, reducing time limits for procedures or simplifying the processing of take charge requests or take back notifications, or by establishing procedures for the performance of transfers and in order to carry them out more efficiently.
- (76) Continuity between the system for determining the Member State responsible established by Regulation (EU) No 604/2013 and the system established by this Regulation should be ensured. Similarly, consistency should be ensured between this Regulation and Regulation (EU) 2024/1358 of the European Parliament and of the Council (16).
- (77) One or more networks of competent Member State authorities should be set up and facilitated by the Asylum Agency in order to enhance practical cooperation and information sharing on all matters related to the application of this Regulation, including the development of practical tools and guidance. Those networks should aim to meet regularly to enhance trust-building and a common understanding of any challenges of the implementation of this Regulation in the Member States.
- (78) The operation of the Eurodac system, as established by Regulation (EU) 2024/1358, should facilitate the application of this Regulation.
- (79) The operation of the Visa Information System (VIS), as established by Regulation (EC) No 767/2008 of the European Parliament and of the Council (17), and in particular the implementation of Articles 21 and 22 thereof, should facilitate the application of this Regulation.
- (80) With respect to the treatment of persons falling within the scope of this Regulation, Member States are bound by their obligations under instruments of international law, including the relevant case-law of the European Court of Human Rights.
- (81) Regulation (EU) 2016/679 of the European Parliament and of the Council (18) applies to the processing of personal data by the Member States under this Regulation. Member States should implement appropriate technical and organisational measures to ensure and be able to demonstrate that processing is performed in accordance with that Regulation and the provisions specifying its requirements in this Regulation. In particular those measures should ensure the security of personal data processed under this Regulation and in particular to prevent unlawful or unauthorised access or disclosure, alteration or loss of personal data processed. The competent supervisory authority or authorities of each Member State should monitor the lawfulness of the processing of personal data by the authorities concerned, including of the transmission to the authorities competent for carrying out security checks. In particular, data subjects should be notified without undue delay when a personal data breach is likely to result in a high risk to their rights and freedoms under Regulation (EU) 2016/679.
- (82) Member States as well as Union bodies, offices and agencies should, when implementing this Regulation, take all proportionate and necessary measures to ensure that personal data is stored in a secure manner.
- (83) In order to ensure uniform conditions for the implementation of this Regulation, certain implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council (19), with the exception of Commission implementing

(16) Regulation (EU) 2024/1358 of the European Parliament and of the Council of 14 May 2024 on the establishment of 'Eurodac' for the comparison of biometric data in order to effectively apply Regulations (EU) 2024/1351 and (EU) 2024/1350 of the European Parliament and of the Council and Council Directive 2001/55/EC and to identify illegally staying third-country nationals and stateless persons and on requests for the comparison with Eurodac data by Member States' law enforcement authorities and Europol for law enforcement purposes, amending Regulations (EU) 2018/1240 and (EU) 2019/818 of the European Parliament and of the Council and repealing Regulation (EU) No 603/2013 of the European Parliament and of the Council (OJ L, 2024/1358, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1358/0j>).

(17) Regulation (EC) No 767/2008 of the European Parliament and of the Council of 9 July 2008 concerning the Visa Information System (VIS) and the exchange of data between Member States on short-stay visas (VIS Regulation) (OJ L 218, 13.8.2008, p. 60).

(18) Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1).

(19) Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

decisions determining whether a Member State is under migratory pressure, at risk of migratory pressure or facing a significant migratory situation.

- (84) In order to provide for supplementary rules, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the identification of family members, siblings or relatives of an unaccompanied minor; the criteria for establishing the existence of proven family links in respect of unaccompanied minors; the criteria for assessing the capacity of a relative to take care of an unaccompanied minor, including where family members, siblings or relatives of the unaccompanied minor stay in more than one Member State; the elements to be taken into account in order to assess the dependency link; the criteria for establishing the existence of proven family links in respect of dependent persons; the criteria for assessing the capacity of the person concerned to take care of the dependent person and the elements to be taken into account in order to assess the inability to travel for a significant period of time, whilst fully respecting the best interests of the child as provided for in this Regulation. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making (20). In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.
- (85) A number of substantive changes are to be made to Regulation (EU) No 604/2013. In the interests of clarity, that Regulation should be repealed.
- (86) The effective monitoring of the application of this Regulation requires that it be evaluated at regular intervals.
- (87) This Regulation respects the fundamental rights and observes the principles which are guaranteed in Union and international law, including in the Charter. In particular, this Regulation seeks to ensure full observance of the right to asylum guaranteed by Article 18 of the Charter as well as the rights recognised under Articles 1, 4, 7, 24 and 47 thereof. Member States should therefore apply this Regulation accordingly, in full observance of those fundamental rights.
- (88) Since the objectives of this Regulation, namely the establishment of criteria and mechanisms for determining the Member State responsible for examining an application for international protection registered in one of the Member States by a third-country national or a stateless person, and the establishment of a solidarity mechanism to support Member States in addressing situations of migratory pressure, cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (89) With a view to ensuring the consistent implementation of this Regulation by the time of its application, implementation plans at Union and national levels that identify gaps and operational steps for each Member State should be developed and implemented.
- (90) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application. Given that Parts III, V and VII of this Regulation constitute amendments within the meaning of Article 3 of the Agreement between the European Community and the Kingdom of Denmark on the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in Denmark or any other Member State of the European Union and 'Eurodac' for the comparison of fingerprints for the effective application of the Dublin Convention (21), Denmark is to notify the Commission of its decision whether or not to implement the content of such amendments at the time of the adoption of the amendments or within 30 days hereafter.
- (91) In accordance with Articles 1 and 2 and Article 4a(1) of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, Ireland is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

<sup>(21)</sup> OJ L 66, 8.3.2006, p. 38.

- (92) As regards Iceland and Norway, Parts III, V and VII of this Regulation constitute new legislation in a field which is covered by the subject matter of the Annex to the Agreement between the European Community and the Republic of Iceland and the Kingdom of Norway concerning the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in a Member State or in Iceland or Norway (22).
- (93) As regards Switzerland, Parts III, V and VII of this Regulation constitute acts or measures amending or building upon the provisions of Article 1 of the Agreement between the European Community and the Swiss Confederation concerning the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in a Member State or in Switzerland (23).
- (94) As regards Liechtenstein, Parts III, V and VII of this Regulation constitute acts or measures amending or building upon the provisions of Article 1 of the Agreement between the European Community and the Swiss Confederation concerning the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in a Member State or in Switzerland to which Article 3 of the Protocol between the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement between the European Community and the Swiss Confederation concerning the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in a Member State or in Switzerland (24) refers,

  - (a) 30 000 for relocations;
  - (b) EUR 600 million for financial contributions.

The Commission proposal referred to in paragraph 1 of this Article shall also set out annual indicative contributions for each Member State by applying the reference key set out in Article 66 with a view to facilitating the exercise to pledge its solidarity contributions (the 'pledging exercise') pursuant to Article 13.

3. When identifying the level of the Union-wide responsibility to be shared by all Member States and the consequent level of solidarity, the Commission shall take into account relevant qualitative and quantitative criteria, including, for the relevant year, the overall number of arrivals, the average recognition rates as well as the average return rates. The Commission shall also take into account that the Member States which will become benefitting Member States pursuant to Article 58(1) are not obliged to implement their pledged solidarity contributions.

The Commission may identify a higher number for relocations and financial contributions than those provided for in paragraph 2 of this Article and may identify other forms of solidarity as set out in Article 56(2), point (c), depending on the need for such measures arising from the specific challenges in the area of migration in the Member State concerned. In order to preserve the equal value of the different types of solidarity measures, the ratio between the numbers set out in paragraph 2, points (a) and (b), of this Article shall be maintained.

4. Notwithstanding paragraph 2 of this Article, in exceptional situations, where the information provided by the Member States and the relevant Union bodies, offices and agencies pursuant to Article 9(2), or the consultations carried out by the Commission pursuant to Article 11(1) do not indicate a need for solidarity measures for the upcoming year, the Commission proposal referred to in paragraph 1 of this Article shall take this duly into account.

5. Where the Commission has identified in an implementing decision as referred to in Article 11 that one or more Member States are under migratory pressure as a result of large numbers of arrivals stemming from recurring disembarkations following search and rescue operations, taking into account the specificities of the Member States concerned, the Commission shall set out the indicative percentage of the Annual Solidarity Pool to be made available to those Member States.

6. The Commission shall adopt the proposal referred to in paragraph 1 of this Article by 15 October each year and transmit it to the Council. The Commission shall simultaneously transmit that proposal to the European Parliament. Until the adoption of the Council implementing act referred to in Article 57, the Commission proposal referred to in paragraph 1 of this Article shall not be made public. ### PART III

#### CRITERIA AND MECHANISMS FOR DETERMINING THE MEMBER STATE RESPONSIBLE

##### CHAPTER I

###### General principles and safeguards

###### Article 16

###### Access to the procedure for examining an application for international protection

1. Member States shall examine an application for international protection by a third-country national or a stateless person who applies on the territory of any one of them, including at the border or in the transit zones. The application shall be examined by a single Member State which shall be the Member State responsible on the basis of the criteria set out in Chapter II or the clauses set out in Chapter III of this Part.

2. Without prejudice to the rules set out in Part IV of this Regulation, where no Member State can be determined responsible for examining the application for international protection on the basis of the criteria listed in this Regulation, the first Member State in which the application for international protection was registered shall be responsible for examining it.

3. Where it is impossible for a Member State to transfer an applicant to the Member State primarily designated as responsible because there are substantial grounds for believing that the applicant, because of the transfer to that Member State, would face a real risk of violation of the applicant's fundamental rights that amounts to inhuman or degrading treatment within the meaning of Article 4 of the Charter, the determining Member State shall continue to examine the criteria set out in Chapter II or the clauses set out in Chapter III of this Part in order to establish whether another Member State can be designated as responsible.

Where a Member State cannot carry out the transfer pursuant to the first subparagraph of this paragraph to any Member State designated on the basis of the criteria set out in Chapter II or the clauses set out in Chapter III of this Part or to the first Member State with which the application was registered, and cannot establish whether another Member State can be designated as responsible, that Member State shall become the Member State responsible for examining the application for international protection.

4. If a security check provided for in Article 15 of Regulation (EU) 2024/1356 has not been carried out pursuant to that Regulation, the first Member State in which the application for international protection was registered shall examine whether there are reasonable grounds to consider that the applicant poses a threat to internal security as soon as possible after the registration of the application, before applying the criteria for determining the Member State responsible pursuant to Chapter II or the clauses set out in Chapter III of this Part.

If a security check provided for in Article 15 of Regulation (EU) 2024/1356 has been carried out, but the first Member State in which the application for international protection was registered has justified reasons to examine whether there are reasonable grounds to consider that the applicant poses a threat to internal security, that Member State shall carry out the examination as soon as possible after the registration of the application, before applying the criteria for determining the Member State responsible pursuant to Chapter II or the clauses set out in Chapter III of this Part.

Where the security check carried out in accordance with Article 15 of Regulation (EU) 2024/1356 or in accordance with the first and second subparagraphs of this paragraph shows that there are reasonable grounds to consider that the applicant poses a threat to internal security, the Member State carrying out the security check shall be the Member State responsible, and Article 39 of this Regulation shall not apply.

5. Each Member State shall retain the right to send an applicant to a safe third country, subject to the rules and safeguards laid down in Regulation (EU) 2024/1348.

#### Article 17

##### **Obligations of the applicant and cooperation with the competent authorities**

1. An application for international protection shall be made and registered in the Member State of first entry.

2. By way of derogation from paragraph 1, where a third-country national or stateless person is in possession of a valid residence document or a valid visa, the application for international protection shall be made and registered in the Member State that issued the residence document or visa.

Where a third-country national or stateless person is in possession of a residence document or visa which has expired or was annulled, withdrawn or revoked, the application for international protection shall be made and registered in the Member State where he or she is present.

3. The applicant shall fully cooperate with the competent authorities of the Member States in collecting the biometric data in accordance with Regulation (EU) 2024/1358 and in matters covered by this Regulation, in particular by submitting and disclosing, as soon as possible and at the latest during the interview referred to in Article 22 of this Regulation, all the elements and information available to him or her that are relevant for determining the Member State responsible, including by submitting his or her identity documents if the applicant is in possession of such documents. Where the applicant is not in a position at the time of the interview to submit evidence to substantiate the elements and information provided, or to complete the template referred to in Article 22(1) of this Regulation, the competent authority shall set a reasonable time limit for submitting such evidence, taking into account the individual circumstances of the case, within the period referred to in Article 39(1) of this Regulation.

4. The applicant shall be required to be present in:

(a) the Member State referred to in paragraphs 1 and 2 pending the determination of the Member State responsible and, where applicable, the implementation of the transfer procedure;

(b) the Member State responsible;

(c) the Member State of relocation following a transfer pursuant to Article 67(11).

5. Where a transfer decision is notified to the applicant in accordance with Article 42(2) and Article 67(10), the applicant shall cooperate with the competent authorities and comply with that decision.

## Article 18

**Consequences of non-compliance**

1. Provided that the applicant has been informed of his or her obligations and the consequences of non-compliance therewith in accordance with Article 11(1), point (b), of Regulation (EU) 2024/1356 or Article 5(1) and 21 of Directive (EU) 2024/1346, the applicant shall not be entitled to the reception conditions set out in Articles 17 to 20 of that Directive in any Member State other than the one in which he or she is required to be present pursuant to Article 17(4) of this Regulation from the moment he or she has been notified of a decision to transfer him or her to the Member State responsible.

The first subparagraph shall be without prejudice to the need to ensure a standard of living in accordance with Union law, including the Charter, and international obligations.

2. Elements and information relevant for determining the Member State responsible submitted after expiry of the time limit shall be taken into account only if they provide evidence that is decisive for the correct application of this Regulation, in particular regarding unaccompanied minors and family reunification.

3. Paragraph 1 shall not apply where the applicant is not in the Member State where he or she is required to be present and the competent authorities of the Member State in which the applicant is present have reasonable grounds to believe that the applicant might have been subjected to any of the offences referred to in Articles 2 and 3 of Directive 2011/36/EU of the European Parliament and of the Council <sup>(39)</sup>.

4. When applying this Article, Member States shall take into account the individual circumstances of the applicant, including any real risk of violations of fundamental rights in the Member State where the applicant is required to be present. Any measures taken by the Member States shall be proportionate.

2. The applicant shall have the possibility to request information regarding the progress of the procedure and the competent authorities shall inform the applicant about that possibility. *Article 20***Accessibility of information**

1. The information referred to in Article 19 shall be provided in writing in a concise, transparent, intelligible and easily accessible form, using clear and plain language and in a language that the applicant understands or is reasonably supposed to understand. The common information material shall also be available online, on an open and easily accessible platform for applicants for international protection.

Where necessary for the applicant's proper understanding, the information shall also be provided orally, where appropriate in connection with the personal interview referred to in Article 22. For that purpose, the applicant shall have the opportunity to ask questions to clarify the information provided. Member States may use the support of multimedia equipment.

## Article 22

### Personal interview

1. In order to facilitate the procedure for determining the Member State responsible, the competent authorities of the determining Member State referred to in Article 38(1) shall conduct a personal interview with the applicant for the purpose of applying Article 39. The interview shall also enable the applicant to properly understand the information received in accordance with Article 19.

The competent authorities shall collect information on the specific applicant's situation by proactively asking questions that would help determine the Member State responsible for the purpose of applying Article 39.

Where there are indications that the applicant has family members or relatives in a Member State, the applicant shall receive a template, to be developed by the Asylum Agency. The applicant shall fill that template with the information available to him or her in order to facilitate the application of Article 39. Where possible, the applicant shall complete that template before the personal interview set out in this Article.

The Asylum Agency shall develop the template referred to in the third subparagraph of this paragraph by 12 April 2025. The Asylum Agency shall also develop guidelines for the identification and tracing of family members to support the application of Articles 25–28 and 34 by the requesting and the requested Member State in accordance with Articles 39 and 40.

The applicant shall have the opportunity to present duly motivated reasons to the competent authorities in order for them to consider applying Article 35(1).

2. The personal interview may be omitted where:

- (a) the applicant has absconded;
- (b) the applicant has not attended the personal interview and has not provided justified reasons for his or her absence;
- (c) the applicant, after having received the information referred to in Article 19, has already provided the information relevant to determine the Member State responsible by other means.

For the purposes of the first subparagraph, point (c), of this paragraph, the Member State omitting the interview shall give the applicant the opportunity to present all further information which is relevant to correctly determine the Member State responsible within the period referred to in Article 39(1), including duly motivated reasons for the authority to consider the need for a personal interview.

3. The personal interview shall take place in a timely manner and, in any event, before any take charge request is made pursuant to Article 39.

4. The personal interview shall be conducted in the language preferred by the applicant unless there is another language which he or she understands and in which he or she is able to communicate clearly. Interviews of unaccompanied and, where applicable, accompanied minors shall be conducted by a person who has the necessary knowledge of the rights and special needs of minors, in a child-sensitive and context-appropriate manner, taking into consideration the age and maturity of the minor, in the presence of the representative and, where applicable, the minor's legal adviser. Where necessary, an interpreter who is able to ensure appropriate communication between the applicant and the person conducting the personal interview shall be provided. The presence of a cultural mediator may be provided during the personal interview. Where requested by the applicant and where possible, the person conducting the interview and, where applicable, the interpreter shall be of the sex that the applicant prefers.

5. Where duly justified by the circumstances, Member States may conduct the personal interview by video conference. In such a case, the Member State shall ensure the necessary arrangements for the appropriate facilities, procedural and technical standards, legal assistance and interpretation, taking into account guidance from Asylum Agency.

6. The personal interview shall take place under conditions which ensure appropriate confidentiality. It shall be conducted by a person qualified under national law. Applicants who are identified as being in need of special procedural guarantees pursuant to Regulation (EU) 2024/1348, shall be provided with adequate support in order to create the conditions necessary for effectively presenting all elements allowing for the determination of the Member State responsible. Staff interviewing applicants shall also have acquired general knowledge of factors which could adversely affect the applicant's ability to be interviewed, such as indications that the person has been tortured in the past or has been a victim of trafficking in human beings.

7. The Member State conducting the personal interview shall make an audio recording of the interview and make a written summary thereof which shall contain at least the main information supplied by the applicant at the interview. The applicant shall be informed in advance of the fact that such a recording is being made and the purpose thereof. Where there is doubt as to the statements made by the applicant during the personal interview, the audio recording shall prevail. The summary may take the form of either a report or a standard form. The Member State shall ensure that the applicant or the legal adviser or other counsellor, admitted or permitted as such under national law, who is legally representing the applicant has timely access to the summary, as soon as possible after the interview and in any event before the competent authorities take a decision on the Member State responsible. The applicant shall be given the opportunity to make comments or provide clarification orally or in writing with regard to any incorrect translations or misunderstandings or other factual mistakes appearing in the written summary at the end of the personal interview or within a specified time limit.

## Article 23

### **Guarantees for minors**

1. The best interests of the child shall be a primary consideration for Member States with respect to all procedures provided for in this Regulation. Procedures including minors shall be treated with priority.

2. Each Member State where an unaccompanied minor is present shall ensure that he or she is represented and assisted by a representative with respect to the relevant procedures provided for in this Regulation. The representative shall have the resources, qualifications, training, expertise and independence to ensure that the best interests of the child are taken into consideration during the procedures carried out under this Regulation. The representative shall have access to the content of the relevant documents in the applicant's file including the specific information material for unaccompanied minors, and shall keep the unaccompanied minor informed about the progress of the procedures under this Regulation.

Where an application is made by a person who claims to be a minor, or in relation to whom there are objective grounds to believe that he or she is a minor, and who is unaccompanied, the competent authorities shall:

- (a) designate as soon as possible and in any event in a timely manner, and for the purpose of assisting the minor in the procedure for determining the Member State responsible, a person with the necessary skills and expertise to provisionally assist the minor in order to safeguard his or her best interests and general well-being which enables the minor to benefit from the rights under this Regulation and, if applicable, act as a representative until a representative has been appointed;
- (b) appoint a representative as soon as possible and no later than fifteen working days from the date on which the application is made.

In the case of a disproportionate number of applications made by unaccompanied minors or in other exceptional situations, the time limit for designating a representative pursuant to the second subparagraph, point (b), may be extended by ten working days.

Where the competent authority concludes that an applicant who claims to be a minor is without any doubt above the age of eighteen years, it shall not be required to designate a representative in accordance with this paragraph.

The duties of the representative or the person referred to in the second subparagraph, point (a), shall cease where the competent authorities, following the age assessment referred to in Article 25(1) of Regulation (EU) 2024/1348, do not assume that the applicant is a minor or consider that the applicant is not a minor, or where the applicant is no longer an unaccompanied minor.

Where an organisation is appointed as a representative, it shall designate a person responsible for carrying out its duties in respect of the minor. The first subparagraph shall apply to that person.

The representative provided for in the first subparagraph may be the same person or organisation as provided for in Article 23 of Regulation (EU) 2024/1348.

3. The Member States shall involve the representative of an unaccompanied minor throughout the entire procedure for determining the Member State responsible under this Regulation. The representative shall assist the unaccompanied minor in providing information relevant to the assessment of the best interests of the child in accordance with paragraph 4, including the exercise of the right to be heard, and shall support his or her engagement with other actors, such as family tracing organisations, where appropriate for that purpose, with due regard to confidentiality obligations towards the minor.

4. In assessing the best interests of the child, Member States shall closely cooperate with each other and shall, in particular, take due account of the following factors:

- (a) family reunification possibilities;
- (b) the minor's well-being and social development in the short, medium and long term, including situations of additional vulnerabilities such as trauma, specific health needs or disability, taking into particular consideration the minor's ethnic, religious, cultural and linguistic background, and having regard to the need for stability and continuity in the social and educational care;
- (c) safety and security considerations, in particular where there is a risk of the minor being a victim of any form of violence or exploitation, including trafficking in human beings;
- (d) the views of the minor, in accordance with his or her age and maturity;
- (e) where the applicant is an unaccompanied minor, the information provided by the representative in the Member State where the unaccompanied minor is present;
- (f) any other reasons relevant to the assessment of the best interests of the child.

5. Before transferring an unaccompanied minor, the transferring Member State shall notify the Member State responsible or the Member State of relocation, which shall confirm that all appropriate measures referred to in Articles 16 and 27 of Directive (EU) 2024/1346 and Article 23 of Regulation (EU) 2024/1348 will be taken without delay, including the appointment of a representative in the Member State responsible or the Member State of relocation. Any decision to transfer an unaccompanied minor shall be preceded by an individual assessment of the best interests of the child. The assessment shall be based on the relevant factors listed in paragraph 4 of this Article and the conclusions of the assessment of those factors shall be clearly stated in the transfer decision. The assessment shall be done without delay by appropriately trained staff with the necessary qualifications and expertise to ensure that the best interests of the child are taken into consideration.

6. For the purpose of applying Article 25, the Member State where the unaccompanied minor's application for international protection was first registered shall immediately take appropriate action to identify any family members, siblings or relatives of the unaccompanied minor on the territory of Member States, while protecting the best interests of the child.

To that end, that Member State may request the assistance of international or other relevant organisations, and may facilitate the minor's access to the tracing services of such organisations.

The staff of the competent authorities referred to in Article 52 who deal with requests concerning unaccompanied minors shall receive appropriate training concerning the specific needs of minors relevant for the application of this Regulation.

7. With a view to facilitating the appropriate action to identify the family members or relatives of an unaccompanied minor living in the territory of another Member State pursuant to paragraph 6 of this Article, the Commission shall adopt implementing acts including a standard form for the exchange of relevant information between Member States. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

**CHAPTER II**

**Hierarchy of criteria**

1. The criteria for determining the Member State responsible shall be applied in the order in which they are set out in this Chapter.

3. Where the applicant is an unaccompanied minor who has a relative who is legally present in another Member State and where it is established, on the basis of an individual examination, that the relative can take care of him or her, that Member State shall unite the minor with his or her relative and shall be the Member State responsible, unless it is demonstrated that it is not in the best interests of the child.

4. Where family members, siblings or relatives as referred to in paragraphs 2 and 3 are staying in more than one Member State, the Member State responsible shall be determined on the basis of what is in the best interests of the child.

5. In the absence of a family member, sibling or relative as referred to in paragraphs 2 and 3, the Member State responsible shall be that where the unaccompanied minor's application for international protection was first registered, if it is in the best interests of the child.

(b) the criteria for establishing the existence of proven family links;

(c) the criteria for assessing the capacity of a relative to take care of an unaccompanied minor, including where family members, siblings or relatives of the unaccompanied minor are staying in more than one Member State.

In exercising its power to adopt delegated acts, the Commission shall not exceed the scope of the best interests of the child as provided for under Article 23(4).

7. The Commission shall, by means of implementing acts, establish uniform methods for the consultation and the exchange of information between Member States for the purposes of this Article. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

*Article 26***Family members who legally reside in a Member State**

1. Where the applicant has a family member who has been allowed to reside as a beneficiary of international protection in a Member State or who resides in a Member State on the basis of a long-term residence permit in accordance with Council Directive 2003/109/EC<sup>(40)</sup> or long-term residence permit granted in accordance with national law, where that Directive does not apply in the Member State concerned, that Member State shall be responsible for examining the application for international protection, provided that the persons concerned have expressed their desire to that effect in writing.
2. Where the family member had previously been allowed to reside as a beneficiary of international protection, but has later become a citizen of a Member State, that Member State shall be responsible for examining the application, provided that the persons concerned have expressed their desire to that effect in writing.
3. Paragraphs 1 and 2 shall also apply to children born after the family member arrived on the territory of the Member States.

*Article 27***Family members who are applicants for international protection**

Where the applicant has a family member whose application for international protection in a Member State has not yet been the subject of a first decision regarding the substance, that Member State shall be responsible for examining the application for international protection, provided that the persons concerned have expressed their desire to that effect in writing.

*Article 28***Family procedure**

Where applications for international protection by several family members or minor unmarried siblings are registered in the same Member State simultaneously or on dates close enough for the procedures for determining the Member State responsible to be conducted together, and where the application of the criteria set out in this Regulation would lead to those persons being separated, the Member State responsible for examining their applications shall be determined in the following order:

- (a) the Member State which the criteria indicate is responsible for taking charge of the largest number of them;
- (b) the Member State which the criteria indicate is responsible for examining the application of the oldest of them.

*Article 29***Issue of residence documents or visas**

1. Where the applicant holds a valid residence document, the Member State that issued that document shall be responsible for examining the application for international protection.
2. Where the applicant holds a valid visa, the Member State that issued that visa shall be responsible for examining the application for international protection, unless that visa was issued on behalf of another Member State under a representation arrangement as provided for in Article 8 of Regulation (EC) No 810/2009. In such a case, the represented Member State shall be responsible for examining the application for international protection.
3. Where the applicant holds more than one valid residence document or visa issued by different Member States, the Member State responsible for examining the application for international protection shall be determined in the following order:
  - (a) the Member State that issued the residence document conferring the right to the longest period of residency or, where the periods of validity are identical, the Member State that issued the residence document having the latest expiry date;

<sup>(40)</sup> Council Directive 2003/109/EC of 25 November 2003 concerning the status of third-country nationals who are long-term residents (OJ L 16, 23.1.2004, p. 44).

- (b) where the various visas are of the same type, the Member State that issued the visa having the latest expiry date;
- (c) where the visas are of different types, the Member State that issued the visa having the longest period of validity or, where the periods of validity are identical, the Member State that issued the visa having the latest expiry date.

4. Where the applicant holds one or more residence documents the validity of which has expired or which were annulled, revoked or withdrawn less than three years before the application was registered, or one or more visas the validity of which has expired or which were annulled, revoked or withdrawn less than 18 months before the application was registered, paragraphs 1, 2 and 3 shall apply.

5. The fact that the residence document or visa was issued on the basis of a false or assumed identity or on the submission of forged, counterfeit or invalid documents shall not prevent responsibility being allocated to the Member State which issued that residence document or visa. However, the Member State that issued the residence document or visa shall not be responsible if it can establish that fraud was committed after the document or visa was issued.

#### Article 30

##### **Diplomas or other qualifications**

1. Where the applicant is in possession of a diploma or qualification issued by an education establishment established in a Member State, that Member State shall be responsible for examining the application for international protection, provided that the application is registered less than six years after the diploma or qualification was issued.

2. Where the applicant is in possession of more than one diploma or qualification issued by education establishments in different Member States, the responsibility for examining the application for international protection shall be assumed by the Member State which issued the diploma or qualification following the longest period of study or, where the periods of study are identical, by the Member State in which the most recent diploma or qualification was obtained.

#### Article 31

##### **Visa-waived entry**

1. If a third-country national or a stateless person enters the territory of the Member States through a Member State in which the need for him or her to have a visa is waived, that Member State shall be responsible for examining his or her application for international protection.

2. Paragraph 1 shall not apply if the application for international protection of the third-country national or the stateless person is registered in another Member State in which the need for him or her to have a visa for entry into the territory is also waived. In that case, that other Member State shall be responsible for examining the application for international protection.

#### Article 32

##### **Application in an international transit area of an airport**

Where the application for international protection is made in the international transit area of an airport of a Member State, that Member State shall be responsible for examining the application.

#### Article 33

##### **Entry**

1. Where it is established, on the basis of proof or circumstantial evidence as described in the lists referred to in Article 40(4) of this Regulation, including the data referred to in Regulation (EU) 2024/1358, that an applicant has irregularly crossed the border into a Member State by land, sea or air from a third country, the first Member State that the applicant enters shall be responsible for examining the application for international protection. That responsibility shall cease if the application is registered more than 20 months after the date on which that border crossing took place.

2. Notwithstanding the first paragraph of this Article, where it is established, on the basis of proof or circumstantial evidence as described in the lists referred to in Article 40(4) of this Regulation, including the data referred to in Regulation (EU) 2024/1358, that an applicant has been disembarked on the territory of a Member State following a search and rescue operation, that Member State shall be responsible for examining the application for international protection. That responsibility shall cease if the application is registered more than 12 months after the date on which that disembarkation took place.

3. Paragraphs 1 and 2 of this Article shall not apply if it can be established, on the basis of proof or circumstantial evidence as described in the lists referred to in Article 40(4) of this Regulation, including the data referred to in Regulation (EU) 2024/1358, that the applicant was relocated to another Member State pursuant to Article 67 of this Regulation after having crossed the border. In that case, that other Member State shall be responsible for examining the application for international protection.

### CHAPTER III

#### **Dependent persons and discretionary clauses**

##### *Article 34*

###### **Dependent persons**

1. Where, on account of pregnancy, having a new-born child, serious mental or physical illness, severe disability, severe psychological trauma or old age, an applicant is dependent on the assistance of his or her child, sibling or parent legally resident in one of the Member States, or his or her child, sibling or parent legally resident in one of the Member States is dependent on the assistance of the applicant, Member States shall normally keep or bring together the applicant with that child, sibling or parent, provided that family ties existed before the applicant arrived on the territory of the Member States, that the child, sibling or parent or the applicant is able to take care of the dependent person and that, having been informed of this possibility, the persons concerned expressed their desire to that effect in writing.

Where there are indications that a child, sibling or parent is legally resident on the territory of the Member State where the dependent person is present, that Member State shall verify whether the child, sibling or parent can take care of the dependent person, before making a take charge request pursuant to Article 39.

2. Where the child, sibling or parent referred to in paragraph 1 is legally resident in a Member State other than the one where the applicant is present, the Member State responsible shall be the Member State where that child, sibling or parent is legally resident, unless the applicant's health prevents him or her from travelling to that Member State for a significant period of time. In such a case, the Member State responsible shall be the Member State where the applicant is present. That Member State shall not be subject to the obligation to bring the child, sibling or parent of the applicant to its territory.

3. The Commission is empowered to adopt delegated acts in accordance with Article 78 concerning:

- (a) the elements to be taken into account in order to assess the dependency link;
- (b) the criteria for establishing the existence of proven family links;
- (c) the criteria for assessing the capacity of the person concerned to take care of the dependent person;
- (d) the elements to be taken into account in order to assess the inability of the person concerned to travel for a significant period of time.

4. The Commission shall, by means of implementing acts, establish uniform methods for the consultation and exchange of information between Member States for the purposes of this Article. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

## Article 35

**Discretionary clauses**

1. By way of derogation from Article 16(1), a Member State may decide to examine an application for international protection by a third-country national or a stateless person registered with it, even if such examination is not its responsibility according to the criteria laid down in this Regulation.
2. The Member State in which an application for international protection is registered and which is carrying out the procedure for determining the Member State responsible, or the Member State responsible, may, at any time before a first decision regarding the substance is taken, request another Member State to take charge of an applicant in order to bring together any family relations, on humanitarian grounds based in particular on meaningful links regarding family, social or cultural considerations, even where that other Member State is not responsible according to the criteria laid down in Articles 25 to 28 and 34. The persons concerned shall express their consent to that effect in writing.

The take charge request shall contain all the material in the possession of the requesting Member State necessary to allow the requested Member State to assess the situation.

The requested Member State shall carry out any necessary checks to examine the humanitarian grounds referred to in the request, and shall reply to the requesting Member State within two months of receipt of the request using the electronic communication network set up under Article 18 of Regulation (EC) No 1560/2003. A refusal of the request shall state the reasons on which the refusal is based.

## CHAPTER IV

**Obligations of the Member State responsible**

## Article 36

**Obligations of the Member State responsible**

1. The Member State responsible under this Regulation shall be obliged to:
  - (a) take charge, under the conditions laid down in Articles 39, 40 and 46, of an applicant whose application was registered in a different Member State;
  - (b) take back, under the conditions laid down in Articles 41 and 46 of this Regulation, an applicant or a third-country national or a stateless person in relation to whom that Member State has been indicated as the Member State responsible under Article 16(1) of Regulation (EU) 2024/1358;
  - (c) take back, under the conditions laid down in Articles 41 and 46 of this Regulation, an admitted person who has made an application for international protection or who is irregularly staying in a Member State other than the Member State which accepted to admit him or her in accordance with Regulation (EU) 2024/1350, or which granted international protection or humanitarian status under a national resettlement scheme.
2. For the purposes of this Regulation, it shall not be possible to separate the situation of a minor who is accompanying the applicant and meets the definition of family member from that of his or her family member and the minor shall be taken charge of or taken back by the Member State responsible for examining the application for international protection of that family member, without the need for a written consent by the person concerned, even if the minor is not individually an applicant, unless it is demonstrated that this is not in the best interests of the child. The same shall apply to children born after the arrival of the applicant on the territory of the Member States, without the need to initiate a new procedure for taking charge of them.

Notwithstanding the requirement for written consent provided for in Article 26, where a new procedure for taking charge of a minor is initiated with regard to a Member State which is indicated as the Member State responsible pursuant to Article 26, no written consent shall be required by the persons concerned, unless it is demonstrated that the transfer to the Member State responsible is not in the best interests of the child.

3. In the situations referred to in paragraph 1, points (a) and (b), of this Article the Member State responsible shall examine or complete the examination of the application for international protection in accordance with Regulation (EU) 2024/1348.

**Article 37****Cessation of responsibilities**

1. Where a Member State issues a residence document to the applicant, decides to apply Article 35, considers that it is not in the best interests of the child to transfer an unaccompanied minor to the Member State responsible, or does not transfer the person concerned to the Member State responsible within the time limits set out in Article 46, that Member State shall become the Member State responsible and the obligations laid down in Article 36 shall be transferred to that Member State. Where applicable, it shall inform the Member State previously responsible, the Member State conducting a procedure for determining the Member State responsible or the Member State that has been requested to take charge of the applicant or that has received a take back notification, using the electronic communication network set up under Article 18 of Regulation (EC) No 1560/2003.

The Member State that becomes responsible pursuant to the first subparagraph of this paragraph shall indicate that it has become the Member State responsible pursuant to Article 16(3) of Regulation (EU) 2024/1358.

2. Following an examination of an application in the border procedure pursuant to Regulation (EU) 2024/1348, the obligations laid down in Article 36(1) of this Regulation shall cease 15 months after a decision rejecting an application as inadmissible, unfounded or manifestly unfounded with regard to refugee status or subsidiary protection status or a decision declaring an application as implicitly or explicitly withdrawn has become final.

An application registered after the period referred to in the first subparagraph shall be regarded as a new application for the purposes of this Regulation, thereby giving rise to a new procedure for determining the Member State responsible.

3. Notwithstanding the first subparagraph of paragraph 2 of this Article, where the person applies for international protection in another Member State within the period of 15 months referred to in that subparagraph and a take back procedure is pending at the date of expiration of that period of 15 months, responsibility shall not cease until that take back procedure is completed or the time limits for the transferring Member State to carry out the transfer in accordance with Article 46 have expired.

4. The obligations laid down in Article 36(1) of this Regulation shall cease where the Member State responsible establishes, on the basis of data recorded and stored in accordance with Regulation (EU) 2017/2226 or other evidence, that the person concerned has left the territory of the Member States for at least nine months, unless the person concerned is in possession of a valid residence document issued by the Member State responsible.

An application registered after the period of absence referred to in the first subparagraph shall be regarded as a new application for the purposes of this Regulation, thereby giving rise to a new procedure for determining the Member State responsible.

5. The obligation laid down in Article 36(1), point (b), of this Regulation to take back a third-country national or a stateless person shall cease where it is established, on the basis of the update of the data set referred to in Article 16(2), point (d), of Regulation (EU) 2024/1358, that the person concerned has left the territory of the Member States, on either a compulsory or a voluntary basis, in compliance with a return decision or removal order issued following the withdrawal or rejection of the application.

An application registered after an effective removal or voluntary return has taken place shall be regarded as a new application for the purposes of this Regulation, thereby giving rise to a new procedure for determining the Member State responsible.

**CHAPTER V****Procedures****SECTION I*****Start of the Procedure*****Article 38*****Start of the procedure***

1. The Member State where an application for international protection is first registered pursuant to Regulation (EU) 2024/1348 or, where applicable, the Member State of relocation shall start the procedure for determining the Member State responsible without delay.

2. If the applicant absconds, the Member State where an application is first registered or, where applicable, the Member State of relocation shall continue the procedure for determining the Member State responsible.

3. The Member State which has conducted the procedure for determining the Member State responsible, or which has become responsible pursuant to Article 16(4) of this Regulation, shall without delay indicate in Eurodac pursuant to Article 16(1) of Regulation (EU) 2024/1358:

- (a) its responsibility pursuant to Article 16(2);
- (b) its responsibility pursuant to Article 16(3);
- (c) its responsibility pursuant to Article 16(4);

- (e) the responsibility of the Member State which has accepted a request to take charge of the applicant pursuant to Article 40.
- (f) its responsibility pursuant to Article 68(3).

Until such information has been added, the procedures in paragraph 4 of this Article shall apply.

4. An applicant who is present in another Member State without a residence document, or who in that Member State makes an application for international protection during the procedure for determining the Member State responsible, shall be taken back by the determining Member State under the conditions laid down in Articles 41 and 46.

That obligation shall cease where the determining Member State establishes that the applicant has obtained a residence document from another Member State.

5. An applicant who is present in a Member State without a residence document, or who in that Member State makes an application for international protection, after another Member State has confirmed that the person concerned is to be relocated pursuant to Article 67(9), and before the transfer has been carried out to the Member State of relocation pursuant to Article 67(11), shall be taken back by that Member State under the conditions laid down in Articles 41 and 46. That obligation shall cease where the Member State of relocation establishes that the applicant has obtained a residence document from another Member State.

## SECTION II

### ***Procedures for take charge requests***

#### **Article 39**

##### **Submitting a take charge request**

1. If the Member State referred to in Article 38(1) considers that another Member State is responsible for examining the application, it shall, immediately and in any event within two months of the date on which the application was registered, request that other Member State to take charge of the applicant. Member States shall prioritise requests made on the basis of Articles 25 to 28 and 34.

Notwithstanding the first subparagraph of this paragraph, in the case of a Eurodac hit with data recorded pursuant to Articles 22 and 24 of Regulation (EU) 2024/1358 or of a VIS hit with data recorded pursuant to Article 21 of Regulation (EC) No 767/2008, the request to take charge shall be sent within one month of receiving such hit.

Where the request to take charge of an applicant is not made within the periods laid down in the first and second subparagraphs, responsibility for examining the application for international protection shall lie with the Member State where the application was registered.

Where the applicant is an unaccompanied minor, the determining Member State shall, at any time before a first decision regarding the substance is taken, where it considers that it is in the best interests of the child, continue the procedure for determining the Member State responsible and request another Member State to take charge of the applicant, in particular if the request is based on Article 26, 27 or 34, notwithstanding the expiry of the time limits laid down in the first and second subparagraphs of this paragraph.

2. The requesting Member State may request an urgent reply where the application for international protection was registered after a decision to refuse entry or a return decision was issued.

The request shall state the reasons that warrant an urgent reply and the period within which a reply is requested. That period shall be at least one week.

3. The take charge request shall include full and detailed reasons, based on all the circumstances of the case including the relevant elements from the applicant's statement, relating to the relevant criteria set out in Chapter II and, where applicable, the template referred to in Article 22(1). It shall be submitted using a standard form and include proof or circumstantial evidence as described in the lists referred to in Article 40(4) or any other documentation or information relevant for justifying the request, enabling the authorities of the requested Member State to check whether that Member State is responsible on the basis of the criteria laid down in this Regulation.

The Commission shall, by means of implementing acts, establish uniform methods for the preparation and submission of take charge requests. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

#### *Article 40*

##### **Replying to a take charge request**

1. The requested Member State shall carry out the necessary checks, and shall reply to the request to take charge of an applicant without delay and in any event within one month of receipt of the request. Member States shall prioritise requests made on the basis of Articles 25 to 28 and 34. To that end, the requested Member State may request assistance from national, international or other relevant organisations to verify the relevant elements of proof and circumstantial evidence submitted by the requesting Member State, in particular for the identification and tracing of family members.

2. Notwithstanding paragraph 1, in the case of a Eurodac hit with data recorded pursuant to Articles 22 and 24 of Regulation (EU) 2024/1358 or of a VIS hit with data recorded pursuant to Article 21(2) of Regulation (EC) No 767/2008, the requested Member State shall reply to the request within two weeks of receipt of the request.

3. In the procedure for determining the Member State responsible elements of proof and circumstantial evidence shall be used.

4. The Commission shall, by means of implementing acts, establish, and review periodically, two lists, indicating the relevant elements of proof and circumstantial evidence in accordance with the criteria set out in the second and third subparagraphs of this paragraph. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

For the purposes of the first subparagraph, proof refers to formal proof which determines responsibility pursuant to this Regulation, provided that it is not refuted by proof to the contrary. The Member States shall provide the Commission with models of the different types of administrative documents, in accordance with the typology established in the list of formal proof.

For the purposes of the first subparagraph, circumstantial evidence refers to indicative elements which while being refutable may be sufficient according to the evidentiary value attributed to them. The evidentiary value of circumstantial evidence shall, in relation to the responsibility for examining the application for international protection, be assessed on a case-by-case basis.

5. The requirement of proof and circumstantial evidence shall not exceed what is necessary for the proper application of this Regulation.

6. The requested Member State shall acknowledge its responsibility provided that the circumstantial evidence is coherent, verifiable and sufficiently detailed to establish responsibility.

Where the request is made on the basis of Articles 25 to 28 and 34, and the requested Member State does not consider that the circumstantial evidence is coherent, verifiable and sufficiently detailed to establish responsibility, it shall set out the reasons in the reply referred to in paragraph 8 of this Article.

7. Where the requesting Member State has asked for an urgent reply pursuant to Article 39(2), the requested Member State shall reply within the period requested or, failing that, within two weeks of receipt of the request.

8. Where the requested Member State does not object to the request within the one-month period set out in paragraph 1 of this Article, or where applicable within the two-week period set out in paragraphs 2 and 7 of this Article, by a reply which sets out substantiated reasons, based on all the circumstances of the case relating to the relevant criteria set out in Chapter II, that lack of objection shall be tantamount to accepting the request, and shall entail the obligation to take charge of the person, including the obligation to provide for proper arrangements for arrival. The substantiated reasons shall be supported by proof and circumstantial evidence where available.

The Commission shall, by means of implementing acts, draw up a standard form for replies setting out substantiated reasons pursuant to this Article. Those implementing acts shall be adopted in accordance with the examination procedure laid down in Article 77(2).

### SECTION III

#### ***Procedures for take back Notifications***

##### *Article 41*

###### ***Submitting a take back notification***

1. In a situation referred to in Article 36(1), point (b) or (c), the Member State where the person is present shall make a take back notification immediately and in any event within two weeks after receiving the Eurodac hit. Failure to make the take back notification within that time limit shall not affect the obligation of the Member State responsible to take back the person concerned.

2. A take back notification shall be made using a standard form and shall include proof or circumstantial evidence as described in the lists referred to in Article 40(4) or relevant elements from the statements of the person concerned.

3. The notified Member State shall confirm receipt of the notification to the Member State which made the notification within two weeks, unless the notified Member State demonstrates within that time limit that it is not responsible pursuant to Article 37 or that the take back notification is based on an incorrect indication of the Member State responsible pursuant to Regulation (EU) 2024/1358.

4. Failure to act within the two-week period set out in paragraph 3 shall be tantamount to confirming the receipt of the notification.

5. The Commission shall, by means of implementing acts, establish uniform methods for the preparation and submission of take back notifications. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

### SECTION IV

#### ***Procedural safeguards***

##### *Article 42*

###### ***Notification of a transfer decision***

1. The determining Member State whose take charge request as regards the applicant referred to in Article 36(1), point (a), has been accepted or that made a take back notification as regards persons referred to in Article 36(1), point (b) and (c), shall take a transfer decision within two weeks of the acceptance or confirmation.

2. Where the requested or notified Member State accepts to take charge of an applicant or confirms to take back a person referred to in Article 36(1), point (b) or (c), the transferring Member State shall notify the person concerned of the decision to transfer him or her to the Member State responsible in writing, in plain language and without delay as well as, where applicable, of the fact that it will not examine his or her application for international protection, the time limits for carrying out the transfer and the obligation to comply with the decision pursuant to Article 17(5).

3. Where a legal adviser or other counsellor, admitted or permitted as such under national law, is legally representing the person concerned, Member States may notify the decision referred to in paragraph 1 to such legal adviser or counsellor instead of to the person concerned and, where applicable, communicate the decision to the person concerned.

4. The decision referred to in paragraph 1 of this Article shall also include information on the legal remedies available pursuant to Article 43, including on the right to apply for suspensive effect, and on the time limits applicable for seeking such remedies and for carrying out the transfer, and shall, if necessary, contain information on the place where, and the date on which, the person concerned is required to appear, if that person is travelling to the Member State responsible by his or her own means.

Member States shall ensure that information on persons or entities that are able to provide legal assistance to the person concerned is communicated to the person concerned together with the decision referred to in paragraph 1, unless that information has already been communicated.

5. Where the person concerned is not legally represented by a legal adviser or other counsellor, admitted or permitted as such under national law, Member States shall provide him or her with information on the main elements of the decision, which shall include information on the legal remedies available and the time limits applicable for seeking such remedies, in a language that the person concerned understands or is reasonably supposed to understand.

#### Article 43

##### Remedies

1. The applicant or another person as referred to in Article 36(1), points (b) and (c), shall have the right to an effective remedy, in the form of an appeal or a review, in fact and in law, against a transfer decision before a court or tribunal.

The scope of such remedy shall be limited to an assessment of:

- (a) whether the transfer would, for the person concerned, result in a real risk of inhuman or degrading treatment within the meaning of Article 4 of the Charter;
- (b) whether there are circumstances subsequent to the transfer decision that are decisive for the correct application of this Regulation;
- (c) whether Articles 25 to 28 and 34 have been infringed, in the case of persons taken charge of pursuant to Article 36(1), point (a).

2. Member States shall provide for a period of at least one week but no more than three weeks after the notification of a transfer decision within which the person concerned may exercise his or her right to an effective remedy pursuant to paragraph 1.

3. The person concerned shall have the right to request, within a reasonable period of time from the notification of the transfer decision but in any event no longer than the period provided for by Member States pursuant to paragraph 2, a court or tribunal to suspend the implementation of the transfer decision pending the outcome of his or her appeal or review. Member States may provide in national law that the request to suspend the implementation of the transfer decision must be lodged together with the appeal pursuant to paragraph 1. Member States shall ensure that an effective remedy is in place by suspending the transfer until the decision on the first suspension request is taken. Any decision on whether to suspend the implementation of the transfer decision shall be taken within one month of the date when the competent court or tribunal received that request.

Where the person concerned has not exercised his or her right to request suspensive effect, the appeal against, or review of, the transfer decision shall not suspend the implementation of the transfer decision.

A decision not to suspend the implementation of the transfer decision shall state the reasons on which it is based.

If suspensive effect is granted, the court or tribunal shall endeavour to decide on the substance of the appeal or review within one month of the decision to grant suspensive effect.

4. Member States shall ensure that the person concerned has access to legal assistance and, where necessary, to linguistic assistance.

5. Member States shall ensure that legal assistance and representation in the appeal procedure are granted on request free of charge where the person concerned cannot afford the costs involved. Member States may provide that, as regards fees and other costs, the treatment of persons subject to this Regulation shall not be more favourable than the treatment generally accorded to their nationals in matters pertaining to legal assistance and representation.

Member States may provide that free legal assistance and representation is not to be granted where the appeal or review is considered by the competent authority or a court or tribunal to have no tangible prospect of success, provided that access to legal assistance and representation is not thereby arbitrarily restricted.

Where a decision not to grant free legal assistance and representation pursuant to the second subparagraph is taken by an authority other than a court or tribunal, Member States shall provide for an effective remedy before a court or tribunal to challenge that decision. Where the decision is challenged, the remedy shall be an integral part of the remedy referred to in paragraph 1.

Member States shall ensure that legal assistance and representation are not arbitrarily restricted and that effective access to justice for the person concerned is not hindered.

Legal assistance shall include at least the preparation of the required procedural documents. Legal representation shall include at least the representation before a court or tribunal and may be restricted to legal advisers or counsellors specifically designated by national law to provide legal assistance and representation.

Procedures for access to legal assistance and representation shall be laid down in national law.

## SECTION V

### ***Detention for the purposes of transfer***

#### **Article 44**

##### **Detention**

1. Member States shall not hold a person in detention for the sole reason that he or she is subject to the procedure established by this Regulation.

2. Where there is a risk of absconding or where the protection of national security or public order so requires, Member States may detain the person concerned in order to ensure transfer procedures in accordance with this Regulation, on the basis of an individual assessment of the person's circumstances, and only in so far as detention is proportional and other less coercive alternative measures cannot be applied effectively.

3. Detention shall be as short as possible and for no longer than the time reasonably necessary to complete the required administrative procedures with due diligence until the transfer under this Regulation is carried out.

4. As regards the detention conditions and the guarantees applicable to applicants detained pursuant to this Article, Articles 11, 12 and 13 of Directive (EU) 2024/1346 shall apply.

#### **Article 45**

##### **Time limits for detained applicants**

1. By way of derogation from Articles 39 and 41, where a person is detained pursuant to Article 44, the period for submitting a take charge request or a take back notification shall not exceed two weeks from the registration of the application for international protection or two weeks from receiving the Eurodac hit where no new application has been registered in the notifying Member State.

Where a person is detained at a later stage than the registration of the application, the period for submitting a take charge request or a take back notification shall not exceed one week from the date on which the person was placed in detention.

2. By way of derogation from Article 40(1), the requested Member State shall reply as soon as possible, and in any event within one week of receipt of the request. Failure to reply within the one-week period shall be tantamount to accepting the take charge request and shall entail the obligation to take charge of the person, including the obligation to provide for proper arrangements for arrival.

3. By way of derogation from Article 46, where a person is detained, the transfer of that person from the transferring Member State to the Member State responsible shall be carried out as soon as practically possible, and within five weeks of:

- (b) the date when the appeal or review no longer has suspensive effect in accordance with Article 43(3).

4. Where the transferring Member State fails to comply with the time limits for submitting a take charge request or take back notification or to take a transfer decision within the time limit laid down in Article 42(1) or where the transfer does not take place within the period of five weeks referred to in paragraph 3 of this Article, the person shall no longer be detained. Articles 39, 41 and 46 shall continue to apply accordingly.

1. The transfer of an applicant or of another person as referred to in Article 36(1), points (b) and (c), from the transferring Member State to the Member State responsible shall be carried out in accordance with the national law of the transferring Member State, after consultation between the Member States concerned, as soon as practically possible and within six months of the acceptance of the take charge request, of the confirmation of the take back notification by another Member State or of the final decision on an appeal or review of a transfer decision with suspensive effect in accordance with Article 43(3).

Member States shall prioritise transfers of applicants following the acceptance of requests made on the basis of Articles 25 to 28 and 34.

Where the transfer is carried out for the purposes of relocation, the transfer shall take place within the time limit set out in Article 67(11).

If transfers to the Member State responsible are carried out by supervised departure or under escort, Member States shall ensure that they are carried out in a humane manner and in compliance with and with full respect for human dignity and other fundamental rights.

If necessary, the transferring Member State shall supply the person concerned with a *laissez-passer*. The Commission shall, by means of implementing acts, establish the design of the *laissez-passer*. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

The Member State responsible shall inform the transferring Member State, as appropriate, of the safe arrival of the person concerned or of the fact that he or she did not appear within the set time limit.

2. Where the transfer does not take place within the time limit set out in paragraph 1, first subparagraph, the Member State responsible shall be relieved of its obligations to take charge of or to take back the person concerned and responsibility shall be transferred to the transferring Member State. That time limit may be extended up to a maximum of one year if the transfer could not be carried out due to the imprisonment of the person concerned or up to a maximum of three years from when the requesting Member State informed the Member State responsible that the person concerned, or a family member to be transferred together with the person concerned, has absconded, is physically resisting the transfer, is intentionally making himself or herself unfit for the transfer, or is not complying with medical requirements for the transfer.

Where the person concerned becomes available to the authorities again and the time remaining from the period referred to in paragraph 1 is less than three months, the transferring Member State shall have a period of three months to carry out the transfer.

3. Where a person has been transferred erroneously or a decision to transfer is overturned on appeal or review after the transfer has been carried out, the Member State which carried out the transfer shall promptly accept that person back.

4. The Commission shall, by means of implementing acts, establish uniform methods for the consultation and exchange of information between Member States for the purposes of this Article, in particular in the event of postponed or delayed transfers, transfers following acceptance by default, transfers of minors or dependent persons, and supervised transfers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

2. Where the person concerned is to be transferred back to a Member State as a result of an erroneous transfer or of a transfer decision that has been overturned on appeal or review after the transfer has been carried out, the Member State which initially carried out the transfer shall be responsible for the costs of transferring the person concerned back to its territory.

3. Persons transferred pursuant to this Regulation shall not be required to meet the costs of such transfers.

#### Article 48

##### **Exchange of relevant information before a transfer is carried out**

1. The Member State carrying out the transfer of an applicant or of another person as referred to in Article 36(1), point (b) or (c), shall communicate to the Member State responsible personal data concerning the person to be transferred that are adequate, relevant and limited to what is necessary for the sole purposes of ensuring that the competent authorities, in accordance with national law of the Member State responsible, are in a position to provide that person with adequate assistance, including the provision of immediate health care required in order to protect his or her vital interests, to ensure continuity in the protection and rights afforded by this Regulation and by other applicable legal instruments in the field of asylum. Those data shall be communicated to the Member State responsible within a reasonable period of time before a transfer is carried out, in order to ensure that its competent authorities have sufficient time to take the necessary measures.

2. The transferring Member State shall transmit to the Member State responsible any information that is essential in order to safeguard the rights and any immediate special needs of the person to be transferred, and in particular:

- (a) information on any immediate measures which the Member State responsible is required to take in order to ensure that the special needs of the person to be transferred are adequately addressed, including any immediate health care required and, where necessary, any arrangements needed to protect the best interests of the child;

The information exchanged shall be used only for the purposes set out in paragraph 1 of this Article and shall not be further processed.

4. With a view to facilitating the exchange of information between Member States, the Commission shall, by means of implementing acts, draw up a standard form for the transfer of the data required pursuant to this Article. Those implementing acts shall be adopted in accordance with the examination procedure laid down in Article 77(2).

5. Article 51(8) and (9) shall apply to the exchange of information pursuant to this Article.

#### Article 49

##### **Exchange of security-relevant information before a transfer is carried out**

For the purpose of applying Article 41, where the transferring Member State is in possession of information that indicates that there are reasonable grounds to consider the applicant or another person as referred to in Article 36(1), point (b) or (c), a danger to national security or public order in a Member State, the competent authorities of that Member State shall indicate the existence of such information to the Member State responsible. The information shall be shared between the law enforcement authorities or other competent authorities of those Member States through the appropriate channels for such information exchange.

#### Article 50

##### **Exchange of health data before a transfer is carried out**

1. For the sole purpose of the provision of medical care or treatment, in particular concerning vulnerable persons, including disabled persons, elderly people, pregnant women, minors and persons who have been subject to torture, rape or other serious forms of psychological, physical or sexual violence, the transferring Member State shall, in so far as it is available to its competent authority in accordance with national law, transmit to the Member State responsible information on any special needs of the person to be transferred, which in specific cases can include information on that person's physical or mental health. That information shall be transferred in a common health certificate with the necessary documents attached. The Member State responsible shall ensure that those special needs are adequately addressed, including in particular any essential medical care required.

The Commission shall, by means of implementing acts, draw up the common health certificate referred to in the first subparagraph. Those implementing acts shall be adopted in accordance with the examination procedure laid down in Article 77(2).

2. The transferring Member State shall transmit the information referred to in paragraph 1 to the Member State responsible only after having obtained the explicit consent of the applicant or of his or her representative or when such transmission is necessary to protect public health or public security, or, where the person concerned is physically or legally incapable of giving his or her consent, to protect the vital interests of the person concerned or of another person. The lack of consent, including a refusal to consent, shall not constitute an obstacle to the transfer.

3. The processing of personal health data referred to in paragraph 1 shall be carried out only by a health professional who is subject, under national law, to the obligation of professional secrecy or by another person subject to an equivalent obligation of professional secrecy.

4. The exchange of information under this Article shall take place only between health professionals or other persons referred to in paragraph 3. The information exchanged shall be used only for the purposes set out in paragraph 1 and shall not be further processed.

CHAPTER VI  
**Administrative cooperation**

**Article 51**

**Information sharing**

1. Each Member State shall communicate to any Member State that so requests personal data concerning a person covered by the scope of this Regulation that are adequate, relevant and limited to what is necessary for the purpose of:

- (a) determining the Member State responsible;
- (b) examining the application for international protection;
- (c) implementing any other obligation arising under this Regulation;
- (d) implementing a return decision.

2. The information referred to in paragraph 1 shall include only:

- (a) the personal details of the person concerned, and, where appropriate, of his or her family members, relatives or any other family relations, namely full name and where appropriate, former names, nicknames or pseudonyms, current and former nationality, date and place of birth;
- (b) information on identity and travel documents, including information on references, validity, date of issue, issuing authority and place of issue;
- (c) any other information necessary for establishing the identity of the person concerned, including biometric data taken of the applicant by the Member State concerned, in particular for the purposes of Article 67(8) of this Regulation, in accordance with Regulation (EU) 2024/1358;
- (d) information on places of residence and routes travelled;
- (e) information on residence documents or visas issued by a Member State;
- (f) information on the place where the application was registered;
- (g) information on the date on which any previous application for international protection was registered, the date on which the current application was registered, the stage reached in the proceedings and the decision taken, if any.

3. Provided that it is necessary for the examination of the application for international protection, the Member State responsible may request another Member State to inform it about the grounds on which the applicant bases his or her application and, where applicable, the grounds for any decisions taken concerning the applicant. Where the Member State responsible applies Article 55 of Regulation (EU) 2024/1348, that Member State may also request information enabling its competent authorities to establish whether new elements have arisen or have been presented by the applicant. The requested Member State may refuse to respond to the request, if the communication of such information is likely to harm its essential interests or the protection of the liberties and fundamental rights of the person concerned or of others. The applicant shall be informed by the requesting Member State in advance about the specific information requested and the reason for that request.

4. Any request for information shall be sent only in the context of an individual application for international protection or transfer for the purposes of relocation. That request shall set out the grounds on which it is based and, where its purpose is to check whether there is a criterion that is likely to entail the responsibility of the requested Member State, shall state on what evidence it is based, including relevant information from reliable sources on the ways and means by which applicants enter the territories of the Member States, or on what specific and verifiable part of the applicant's statements it is based. Such relevant information from reliable sources shall not in itself be sufficient to determine the responsibility and the competence of a Member State under this Regulation, but it may contribute to the evaluation of other indications relating to an individual applicant..

5. The requested Member State shall be obliged to reply within three weeks. Any delays in the reply shall be duly justified. Failure to reply within three weeks shall not relieve the requested Member State of the obligation to reply. If that requested Member State withholds information which shows that it is responsible, that Member State may not invoke the expiry of the time limits provided for in Article 39 as a reason for refusing to comply with a request to take charge. In that case, the time limits provided for in Article 39 for submitting a request to take charge shall be extended by a period of time equivalent to the delay in the reply by the requested Member State.

6. The exchange of information shall be carried out at the request of a Member State and may only take place between authorities whose designation by each Member State has been communicated to the Commission in accordance with Article 52(1).

7. The information exchanged may be used only for the purposes set out in paragraph 1. In each Member State such information may, depending on its type and the powers of the recipient authority, only be communicated to the authorities and courts and tribunals entrusted with:

- (a) determining the Member State responsible;
- (b) examining the application for international protection;
- (c) implementing any other obligation arising under this Regulation.

8. The Member State which forwards the information shall ensure that the information is accurate and up-to-date. If it transpires that the Member State has forwarded information which is inaccurate or which should not have been forwarded, the recipient Member States shall be informed thereof immediately. They shall be obliged to correct such information or to have it erased.

9. In each Member State concerned, a record shall be kept, in the individual file for the person concerned or in a register, of the transmission and receipt of information exchanged.

## Article 52

### Competent authorities and resources

1. Each Member State shall notify the Commission without delay of the competent authorities responsible for fulfilling the obligations under this Regulation, and any amendments thereto. Member States shall ensure that those authorities have the necessary human, material and financial resources for carrying out their tasks relating to the application of the procedures for determining the Member State responsible for examining an application for international protection in a rapid and efficient manner, and in particular for safeguarding procedural and fundamental rights, ensuring a swift procedure for reuniting family members and relatives present in different Member States, replying within the prescribed time limits to requests for information, take charge requests and take back notifications and, where applicable, complying with their obligations under Part IV.

2. The Commission shall publish a consolidated list of the authorities referred to in paragraph 1 in the *Official Journal of the European Union*. Where there are changes to that list, the Commission shall publish an updated consolidated list once a year.

3. Member States shall ensure that the staff of the authorities referred to in paragraph 1 receive the necessary training with respect to the application of this Regulation.

4. The Commission shall, by means of implementing acts, establish secure electronic communication channels between the authorities referred to in paragraph 1 and between those authorities and the Asylum Agency for transmitting information, biometric data taken in accordance with Regulation (EU) 2024/1358, requests, notifications, replies and any other written correspondence and for ensuring that senders automatically receive electronic proof of delivery. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2).

## Article 53

- (c) solidarity contributions made pursuant to Part IV.

2. Member States may also maintain the administrative arrangements concluded under Council Regulation (EC) No 343/2003<sup>(41)</sup> and Regulation (EU) No 604/2013. To the extent that such arrangements are not compatible with this Regulation, the Member States concerned shall amend those arrangements in such a way as to eliminate any incompatibilities.

3. Before concluding or amending any arrangement as referred to in paragraph 1, point (b), the Member States concerned shall consult the Commission as to the compatibility of the arrangement with this Regulation.

4. Where the Commission considers the arrangements referred to in paragraph 1, point (b), to be incompatible with this Regulation, it shall, within a reasonable period, notify the Member States concerned. The Member States concerned shall take all appropriate steps to amend the arrangement concerned within a reasonable time in such a way as to eliminate any such incompatibilities.

5. Member States shall notify the Commission of all arrangements referred to in paragraph 1, and of any denunciation thereof, or amendment thereto.

#### Article 54

##### **Network of responsible units**

The Asylum Agency shall set up and facilitate the activities of one or more networks of the competent authorities referred to in Article 52(1), with a view to enhancing practical cooperation, including transfers, and information sharing on all matters related to the full application of this Regulation, including the development of practical tools, best practices and guidance.

The European Border and Coast Guard Agency and other relevant Union bodies, offices and agencies may be represented in such networks when necessary.

#### CHAPTER VII

#### Article 55

##### **Conciliation**

1. In order to facilitate the proper functioning of the mechanisms set up under this Regulation and resolve difficulties in the application thereof, where two or more Member States encounter difficulties in their cooperation under this Regulation or in its application between them, the Member States concerned shall, upon request by one or more of them, hold consultations without delay with a view to finding appropriate solutions within a reasonable time, in accordance with the principle of sincere cooperation as enshrined in Article 4(3) TEU.

Where appropriate, information about the difficulties encountered and the solution found may be shared with the Commission and with the other Member States within the committee referred to in Article 77.

2. Where no solution is found under paragraph 1 or where the difficulties persist, one or more of the Member States concerned may request the Commission to hold consultations with the Member States concerned with a view to finding appropriate solutions. The Commission shall hold such consultations without delay. The Member States concerned shall actively participate in the consultations. The Member States and the Commission shall take all appropriate measures to promptly resolve the matter. The Commission may adopt recommendations addressed to the Member States concerned indicating the measures to be taken and the appropriate deadlines.

<sup>(41)</sup> Council Regulation (EC) No 343/2003 of 18 February 2003 establishing the criteria and mechanisms for determining the Member State responsible for examining an asylum application lodged in one of the Member States by a third-country national (OJ L 50, 25.2.2003, p. 1).

Where appropriate, information about the difficulties encountered, the recommendations made and the solution found may be shared with the other Member States within the committee referred to in Article 77.

The procedure set out in this Article shall not affect the time limits set out in this Regulation in individual cases.

3. This Article shall be without prejudice to the powers of the Commission to oversee the application of Union law under Articles 258 and 260 TFEU. It shall also be without prejudice to the possibility for the Member States concerned to submit their dispute to the Court of Justice of the European Union in accordance with Article 273 TFEU or to the possibility for any Member State to bring the matter before the Court in accordance with Article 259 TFEU.

PART IV

*Article 56*

**Annual Solidarity Pool**

1. The Annual Solidarity Pool, which shall include the contributions set out in the Council implementing act referred to in Article 57 as pledged by the Member States during the meeting of the High-Level Forum, shall serve as the main solidarity response tool for Member States under migratory pressure on the basis of the needs identified in the Commission proposal referred to in Article 12.

2. The Annual Solidarity Pool shall consist of the following types of solidarity measures, which shall be considered of equal value:

(a) relocation, in accordance with Articles 67 and 68:

(i) of applicants for international protection;

(b) financial contributions provided by Member States primarily aiming at actions in Member States related to the area of migration, reception, asylum, pre-departure reintegration, border management and operational support, which may also provide support for actions in or in relation to third countries that might have a direct impact on the migratory flows at the external borders of Member States or improve the asylum, reception and migration system of the third country concerned, including assisted voluntary return and reintegration programmes, in accordance with Article 64;

(c) alternative solidarity measures in the field of migration, reception, asylum, return and reintegration and border management, focusing on operational support, capacity building, services, staff support, facilities and technical equipment in accordance with Article 65.

##### **Council implementing act establishing the Annual Solidarity Pool**

1. On the basis of the Commission proposal referred to in Article 12 and in accordance with the pledging exercise carried out in the High-Level Forum referred to in Article 13, the Council shall adopt, on an annual basis, before the end of each calendar year, an implementing act establishing the Annual Solidarity Pool, including, the reference number of required relocations and financial contributions for the Annual Solidarity Pool at Union level and the specific pledges that each Member State has made for each type of solidarity contribution referred to in Article 56(2) during the High-Level Forum meeting referred to in Article 13. The Council shall adopt the implementing act referred to in this paragraph by qualified majority. The Council may amend the Commission proposal referred to in Article 12 by qualified majority.
2. The Council implementing act referred to in paragraph 1 of this Article shall, where necessary also set out the indicative percentage of the Annual Solidarity Pool that may be made available to Member States under migratory pressure as a result of large number of arrivals stemming from recurring disembarkations following search and rescue operations, taking into account the geographical specificities of the Member States concerned. It may also identify other forms of solidarity as set out in Article 56(2), point (c), depending on the needs for such measures arising from the specific challenges in the area of migration in the Member States concerned.
3. During the High-Level Forum meeting referred to in Article 13, Member States shall come to a conclusion regarding an overall reference number for each solidarity measure in the Annual Solidarity Pool, based on the Commission proposal referred to in Article 12. During that meeting, the Member States shall also pledge their contributions to the Annual Solidarity Pool, in accordance with paragraph 4 of this Article and the mandatory fair share calculated according to the reference key set out in Article 66.
4. In implementing paragraph 3 of this Article, Member States shall have full discretion in choosing between the types of solidarity measures listed in Article 56(2), or a combination thereof. Member States pledging alternative solidarity measures shall indicate the financial value of such measures, based on objective criteria. Where the alternative solidarity measures are not identified in the Commission proposal referred to in Article 12, Member States may still pledge such measures. Where such measures are not requested by the benefitting Member States in a given year, they shall be converted into financial contributions.

#### Article 58

##### **Information regarding the intention to use the Annual Solidarity Pool by a Member State identified in the Commission decision as being under migratory pressure**

1. A Member State that has been identified in a decision as referred to in Article 11 as being under migratory pressure shall, after the adoption of the Council implementing act referred to in Article 57, inform the Commission and the Council where it intends to make use of the Annual Solidarity Pool. The Commission shall inform the European Parliament thereof.
2. The Member State concerned shall include information on the type and level of solidarity measures referred to in Article 56(2) needed to address the situation, including where relevant any use made of the components of the Permanent EU Migration Support Toolbox. Where that Member State intends to make use of financial contributions, it shall also identify the Union spending programmes concerned.
3. Following the receipt of the information referred to in paragraph 2, the Member State concerned shall have access to the Annual Solidarity Pool in accordance with Article 60. The EU Solidarity Coordinator shall without delay and in any event within 10 days of receiving the information convene the Technical-Level Forum to operationalise the solidarity measures.

## Article 59

**Notification of the need to use the Annual Solidarity Pool by a Member State that considers itself to be under migratory pressure**

1. Where a Member State has not been identified in a decision as referred to in Article 11 as being under migratory pressure but considers itself to be under migratory pressure, it shall notify the Commission of its need to make use of the Annual Solidarity Pool and inform the Council thereof. The Commission shall inform the European Parliament thereof.

2. The notification referred to in paragraph 1 shall include:

- (a) a duly substantiated reasoning on the existence and extent of the migratory pressure in the notifying Member State, including updated data on the indicators referred to in Article 9(3), point (a);
- (b) information on the type and level of solidarity measures as referred to in Article 56 needed to address the situation, including where relevant any use made of the components of the Permanent EU Migration Support Toolbox and, where the Member State concerned intends to make use of financial contributions, the identification of the Union spending programmes concerned;
- (c) a description of how the use of the Annual Solidarity Pool could stabilise the situation;
- (d) how the Member State concerned intends to address any possible identified vulnerabilities in the area of responsibility, preparedness or resilience.

3. The Asylum Agency, the European Border and Coast Guard Agency and the European Union Agency for Fundamental Rights as well as the Member State concerned, shall, where requested by the Commission, assist the Commission in drawing up an assessment of the migratory pressure.

4. The Commission shall expeditiously assess the notification, taking into account the information set out in Articles 9 and 10, whether the notifying Member State was identified as being at risk of migratory pressure in the decision referred to in Article 11, the overall situation in the Union, the situation in the notifying Member State during the preceding 12 months, and the needs expressed by the notifying Member State, and adopt a decision whether to consider the Member State as being under migratory pressure. Where the Commission decides that that Member State is under migratory pressure, the Member State concerned shall become a benefitting Member State, unless it is denied access to benefit from the Annual Solidarity Pool in accordance with paragraph 6 of this Article.

5. The Commission shall transmit its decision to the Member State concerned, the European Parliament and the Council without delay.

6. Where the Commission decision establishes that the notifying Member State is under migratory pressure, the EU Solidarity Coordinator shall convene the Technical-Level Forum without delay and within two weeks of the transmission of the Commission decision to the Member State concerned, the European Parliament and the Council, to operationalise the solidarity measures. The EU Solidarity Coordinator shall convene the Technical-Level Forum unless the Commission considers, or the Council decides by way of an implementing act adopted within two weeks of the transmission of the Commission decision to the Member State concerned, the European Parliament and the Council, that there is insufficient capacity in the Annual Solidarity Pool for the Member State concerned to be allowed to benefit from the Annual Solidarity Pool or that there are other objective reasons for not allowing that Member State to benefit from the Annual Solidarity Pool.

7. Where the Council decides that there is insufficient capacity in the Annual Solidarity Pool, Article 13(4) shall apply and the High-Level Forum shall be convened no later than one week after the Commission decision.

In the case of a Commission decision rejecting a request by a Member State to be considered to be under migratory pressure, the notifying Member State may submit a new notification to the Commission and the Council with additional relevant information.

**Article 60****Operationalisation and coordination of solidarity contributions**

1. In the Technical-Level Forum, Member States shall cooperate among themselves and with the Commission to ensure an effective and efficient operationalisation of the solidarity contributions in the Annual Solidarity Pool for the year concerned, in a balanced and timely manner, in light of the needs identified and assessed and the solidarity contributions available.

2. The EU Solidarity Coordinator, taking into account developments in the migratory situation, shall coordinate the operationalisation of the solidarity contributions to ensure a balanced distribution of the solidarity contributions available among the benefitting Member States.

3. With the exception of the implementation of financial contributions, in operationalising the solidarity measures identified, Member States shall implement their pledged solidarity contributions referred to in Article 56 for a given year before the end of that year, without prejudice to Article 65(3) and Article 67(12).

Contributing Member States shall implement their pledges in proportion to their overall pledge to the Annual Solidarity Pool for a given year before the end of the year.

Member States which have been granted a full deduction of solidarity contributions in accordance with Article 61 or 62 or are themselves benefitting Member States pursuant to Article 58(1) and Article 59(4) are not obliged to implement their pledged solidarity contributions referred to in Article 56(2) for a given year.

Contributing Member States shall not be required to implement their pledges made pursuant to Article 56(2) or to apply responsibility offsets pursuant to Article 63 towards a benefitting Member State, where the Commission has identified, in a decision as referred to in Article 11 or Article 59(4), systemic shortcomings in that benefitting Member State with regard to the rules set out in Part III of this Regulation that could result in serious negative consequences for the functioning of this Regulation.

4. During the first meeting of the Technical-Level Forum in the annual cycle, contributing and benefitting Member States may express reasonable preferences, in light of the needs identified, for the profiles of available relocation candidates and a potential planning for the implementation of their solidarity contributions, taking into account the need for urgent actions for the benefitting Member States.

The EU Solidarity Coordinator shall facilitate interaction and cooperation between the Member States on those aspects.

When implementing relocations, Member States shall give primary consideration to the relocation of vulnerable persons.

5. The Union bodies, offices and agencies competent in the field of asylum and border and migration management shall, when requested and within their respective mandates, provide support to the Member States and the Commission, with a view to ensuring the proper implementation and functioning of this Part. Such support may take the form of analyses, expertise and operational support. The EU Solidarity Coordinator shall coordinate any assistance by experts or teams deployed by the Asylum Agency, the European Border and Coast Guard Agency or any other Union body, office or agency, in relation to the operationalisation of the solidarity contributions.

Such contributions shall be counted as financial solidarity, and their concrete value shall be established, jointly, in a realistic manner, by the contributing and the benefitting Member States concerned and communicated to the EU Solidarity Coordinator before those contributions are implemented.

<sup>(42)</sup> Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

##### **Procedural requirements**

#### Article 67

##### **Procedure before relocation**

1. The procedure set out in this Article shall apply to the relocation of persons referred to in Article 56(2), point (a).

2. Before applying the procedure set out in this Article, the benefitting Member State shall ensure that there are no reasonable grounds to consider that the person concerned poses a threat to internal security. If there are reasonable grounds to consider that the person poses a threat to internal security, before or during the procedure set out in this Article, including where a threat to internal security has been determined in accordance with Article 15 of Regulation (EU) 2024/1356, the benefitting Member State shall not apply or shall immediately terminate the procedure set out in this Article. The benefitting Member State shall exclude the person concerned from any future relocation or transfer to any Member State. Where the person concerned is an applicant for international protection, the benefitting Member State shall be the Member State responsible in accordance with Article 16(4) of this Regulation.

3. Where relocation is to be carried out, the benefitting Member State shall identify the persons who could be relocated. Upon request of the benefitting Member State, the Asylum Agency shall support the benefitting Member State in the identification of persons to be relocated and in their matching with Member States of relocation in accordance with Article 2(1), point (k), of Regulation (EU) 2021/2303.

The Member State shall take into account, where applicable, the existence of meaningful links such as those based on family or cultural considerations, between the person concerned and the Member State of relocation. For that purpose, the benefitting Member State shall give the persons to be relocated the opportunity to provide information on the existence of meaningful links with specific Member States and to present relevant information and documentation to determine those links. That opportunity shall not imply a right to choose a specific Member State of relocation pursuant to this Article.

4. For the purpose of identifying persons to be relocated and matching them with the Member States of relocation, benefitting Member States may use tools developed by the EU Solidarity Coordinator.

Applicants who do not have meaningful links to any Member State shall be fairly shared among the remaining Member States of relocation.

Where the identified person to be relocated is a beneficiary for international protection, the person concerned shall be relocated only after that person has consented to the relocation in writing.

5. Where relocation is to be carried out, the benefitting Member State shall inform the persons referred to in paragraph 1 of this Article of the procedure set out in this Article and Article 68, as well as, where applicable, of the obligations set out in Article 17(3), (4) and (5) and the consequences of non-compliance set out in Article 18.

The first subparagraph of this paragraph shall not apply to applicants for whom the benefitting Member State can be determined as the Member State responsible pursuant to the criteria set out in Articles 25 to 28 and 34, with the exception of Article 25(5). Such applicants shall not be eligible for relocation.

6. Member States shall ensure that family members are relocated to the territory of the same Member State.

7. In the cases referred to in paragraphs 2 and 3, the benefitting Member State shall transmit to the Member State of relocation as quickly as possible all relevant information and documents on the person concerned by using a standard form, in order, *inter alia*, to enable the authorities of the Member State of relocation to check whether there are grounds to consider that the person concerned poses a threat to internal security.

8. The Member State of relocation shall examine the information transmitted by the benefitting Member State pursuant to paragraph 7, and verify that there are no reasonable grounds to consider that the person concerned poses a threat to internal security. The Member State of relocation may choose to verify that information via a personal interview with the person concerned. The person concerned shall be duly informed about the nature and the purpose of such interview. The personal interview shall take place within the time limits provided for in paragraph 9.

9. Where there are no reasonable grounds to consider that the person concerned poses a threat to internal security, the Member State of relocation shall confirm that it will relocate the person concerned within one week of receipt of the relevant information from the benefitting Member State.

Where the checks confirm that there are reasonable grounds to consider that the person concerned poses a threat to internal security, the Member State of relocation shall inform the benefitting Member State, within one week of receipt of the relevant information from that Member State of the nature of and underlying elements for an alert from any relevant database. In such cases, relocation of the person concerned shall not take place.

In exceptional cases, where it can be demonstrated that the examination of the information is particularly complex or that a large number of cases need checking at the same time, the Member State of relocation may give its reply after the one-week time limit mentioned in the first and second subparagraphs, but in any event within two weeks. In such situations, the Member State of relocation shall communicate its decision to postpone a reply to the benefitting Member State within the original one-week time limit.

Failure to act within the one-week period mentioned in the first and second subparagraphs or the two-week period mentioned in the third subparagraph shall be tantamount to confirming the receipt of the information, and entail the obligation to relocate the person concerned, including the obligation to provide for proper arrangements for arrival.

10. The benefitting Member State shall take a transfer decision within one week of the confirmation by the Member State of relocation. It shall notify the person concerned in writing without delay of the decision to transfer him or her to that Member State at the latest two days before the transfer in the case of applicants and one week before the transfer in the case of beneficiaries.

Where the person to be relocated is an applicant, he or she shall comply with the relocation decision.

11. The transfer of the person concerned from the benefitting Member State to the Member State of relocation shall be carried out in accordance with the national law of the benefitting Member State, after consultation between the Member States concerned, as soon as practically possible, and within 4 weeks of the confirmation by the Member State of relocation or of the final decision on an appeal or review of a transfer decision with suspensive effect in accordance with Article 43(3).

12. The benefitting Member States and the Member States of relocation shall continue the process of relocation even after the timeframe for the implementation or the validity of Council implementing acts referred to in Articles 57, 61 and 62 has expired.

13. Article 42(3), (4) and (5), Articles 43 and 44, Article 46(1) and (3), Article 47(2) and (3), and Articles 48 and 50 shall apply *mutatis mutandis* to the relocation procedure.

The benefitting Member State carrying out the transfer of a beneficiary of international protection shall transmit to the Member State of relocation all the information referred to in Article 51(2), information on the grounds on which the beneficiary based his or her application, and the grounds for any decisions taken concerning the beneficiary.

14. The Commission shall, by means of implementing acts, establish uniform methods for the preparation and submission of information and documents for the purposes of relocation. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 77(2). In the preparation of those implementing acts, the Commission may consult the Asylum Agency.

#### Article 68

##### **Procedure after relocation**

1. The Member State of relocation shall inform the benefitting Member State, the Asylum Agency and the EU Solidarity Coordinator of the safe arrival of the person concerned or of the fact that he or she did not appear within the set time limit.

2. Where the Member State of relocation has relocated an applicant for whom the Member State responsible has not yet been determined, the Member State of relocation shall apply the procedures set out in Part III, with the exception of Article 16(2), Article 17(1) and (2), Article 25(5), Article 29, Article 30 and Article 33(1) and (2).

Where no Member State responsible can be determined under the first subparagraph of this paragraph, the Member State of relocation shall be responsible for examining the application for international protection.

The Member State of relocation shall indicate its responsibility in Eurodac pursuant to Article 16(1) of Regulation (EU) 2024/1358.

3. Where an applicant, for whom the benefitting Member State was previously determined as responsible on other grounds than the criteria referred to in Article 67(5), second subparagraph, has been relocated, the responsibility for examining the application for international protection shall be transferred to the Member State of relocation.

Responsibility for examining any further representations or any subsequent application of the person concerned in accordance with Articles 55 and 56 of Regulation (EU) 2024/1348 shall also be transferred to the Member State of relocation.

The Member State of relocation shall indicate its responsibility in Eurodac pursuant to Article 16(3) of Regulation (EU) 2024/1358.

4. Where a beneficiary for international protection has been relocated, the Member State of relocation shall automatically grant international protection status respecting the status granted by the benefitting Member State.

#### Article 69

##### **Procedure for responsibility offsets under Article 63(1) and (2)**

1. Where a benefitting Member State requests another Member State to take responsibility for examining a number of applications for international protection pursuant to Article 63(1) and (2), it shall transmit its request to the contributing Member State and include the number of applications for international protection to be taken responsibility for instead of relocations.

2. The contributing Member State shall reply to the request within 30 days of receipt of that request.

The contributing Member State may decide to accept to take responsibility for examining a lower number of applications for international protection than requested by the benefitting Member State.

3. The Member State which has accepted a request pursuant to paragraph 2 of this Article shall identify the individual applications for international protection for which it takes responsibility and shall indicate its responsibility pursuant to Article 16(3) of Regulation (EU) 2024/1358.
