CHAPTER II**PROTECTED DESIGNATIONS OF ORIGIN AND GEOGRAPHICAL INDICATIONS***SECTION 1**Application for protection**Article 2***Name to be protected**

1. The name to be protected as a designation of origin or geographical indication shall be registered only in the languages which are or were historically used to describe the specific product in the demarcated geographical area.

2. The name of a designation of origin or a geographical indication shall be registered in its original script. Where the original script is not in Latin characters, a transcription in Latin characters shall be registered together with the name in its original script.

▼B*Article 3***Applicant**

A single producer may be deemed an applicant within the meaning of Article 95(1) of Regulation (EU) No 1308/2013 if it is shown that:

- (a) the person concerned is the only producer willing to submit an application; and
- (b) the demarcated geographical area possesses characteristics which differ appreciably from those of neighbouring areas or the characteristics of the product are different from those produced in neighbouring areas.

The circumstance by which a protected designation of origin or geographical indication consists of or contains the name of the holding of the single applicant producer shall not prevent other producers from using that name provided that they comply with the product specification.

*Article 4***Additional requirements for product specifications**

1. The description of the grapevine products shall indicate the relevant category or categories of grapevine products from amongst the categories set out in Part II of Annex VII to Regulation (EU) No 1308/2013.

2. Where the product specification indicates that packaging, including bottling, shall take place within the demarcated geographical area or within an area in the immediate proximity of the demarcated area in question, it shall also include a justification showing why, in the specific case, the packaging must take place in the particular geographical area to safeguard quality, to ensure the origin or to ensure control, taking into account Union law, in particular that on the free movement of goods and the free provision of services.

▼M2*Article 5***Derogations concerning production in the demarcated geographical area**

1. By way of derogation from Article 93(1), points (a)(iv) and (b)(iv), of Regulation (EU) No 1308/2013, and on condition that the product specification so provides, a product which has a protected designation of origin or geographical indication may be made into wine in any of the following locations:

- (a) in an area in the immediate proximity of the demarcated area in question;
- (b) in an area located within the same administrative unit or within a neighbouring administrative unit, in conformity with national rules;

▼ M2

(c) in the case of a trans-border designation of origin or geographical indication, or where an agreement on control measures exists between two or more Member States or between one or more Member States and one or more third countries, in an area situated in the immediate proximity of the demarcated area in question.

2. By way of derogation from Article 93(1), point (a)(iv), of Regulation (EU) No 1308/2013, and on condition that the product specification so provides, a product may be made into sparkling wine or semi-sparkling wine bearing a protected designation of origin beyond the immediate proximity of the demarcated area in question if this practice was in use prior to 1 March 1986.

3. By way of derogation from Article 93(1), point (a)(iv), of Regulation (EU) No 1308/2013, with regard to liqueur wines with the protected designation of origin ‘Condado de Huelva’, ‘Málaga’ and ‘Jerez-Xérès-Sherry’, the must of raisined grapes to which neutral alcohol of vine origin has been added to prevent fermentation, obtained from Pedro Ximénez vine variety, may come from the ‘Montilla-Moriles’ region.

▼ B*Article 7***Joint applications**

Where joint applications for the protection of a name as designation of origin or geographical indication, as referred to in Article 95(3) of Regulation (EU) No 1308/2013, are submitted, the related preliminary national procedures, including the objection stage, shall be carried out in all the Member States concerned.

*Article 8***Transitional national protection**

1. A Member State may, on a transitional basis only, grant protection to a name at national level, with effect from the date upon which an application for protection has been forwarded to the Commission.

Such transitional national protection shall cease on the date upon which either a decision on protection under Regulation (EU) No 1308/2013 is taken or the application is withdrawn.

2. Where a name is not protected under this Regulation, the consequences of such national protection shall be the sole responsibility of the Member State concerned. The measures taken by Member States under paragraph 1 shall have no effect on intra-Union or international trade.

*Article 9***Admissibility of the application**

1. Applications for protection are considered admissible if they are submitted in accordance with Articles 94, 95 and 96 of Regulation (EU) No 1308/2013 and Article 3 and Article 5(3) of Implementing Regulation (EU) 2019/34 and if they are duly completed.

▼B

An application for protection shall be considered to be duly completed when it complies with Article 94(1) and (3) of Regulation (EU) No 1308/2013 and Article 2 of Implementing Regulation (EU) 2019/34 and if the single document is duly completed.

The single document summarising the product specification, referred to in Article 94(1)(d) of Regulation (EU) No 1308/2013 shall be considered to be duly completed when it complies with the requirements listed in Article 5(1) and (2) of Implementing Regulation (EU) 2019/34. The product specification shall be considered duly completed when it complies with the requirements set out in Article 94(2) of Regulation (EU) No 1308/2013.

2. If the Commission considers that an application is inadmissible, it shall inform the competent authorities of the Member State or those of the third country or the applicant established in a third country of the reasons grounding the finding of inadmissibility.

3. At least once a month the Commission shall make public the list of names for which it has received applications for protection as designations of origin or geographical indications, the name of the applicant Member State or third country and the date of submission of the application.

▼M2**▼B***SECTION 2****Objection procedure****Article 11***Admissibility and grounds of objection**

1. For the purposes of Article 98 of Regulation (EU) No 1308/2013 a substantiated statement of objection shall be admissible where:

- (a) it is received by the Commission within the deadline set out in Article 98 of Regulation (EU) No 1308/2013;
- (b) it complies with the requirements set out in Article 8(1) of Implementing Regulation (EU) 2019/34;

and:

- (c) it shows that the application for protection or amendment to the product specification or for cancellation of the protection is incompatible with the rules on designations of origin and geographical indications because:
 - (i) it would conflict with Articles 92 to 95, 105 or 106 of Regulation (EU) No 1308/2013 and with the provisions adopted pursuant thereto;
 - (ii) the registration of the proposed name would conflict with Article 100 or 101 of Regulation (EU) No 1308/2013;

▼M2

- (iii) the registration of the proposed name would jeopardise the rights of a trade mark holder or of a user of a fully homonymous name or of a compound name, one term of which is identical to the name to be registered, or the existence of partially homonymous names or of other names similar to the name to be registered which refer to grapevine products which have been legally on the market for at least five years preceding the date of the publication provided for in Article 97(4) of Regulation (EU) No 1308/2013.

▼B

The grounds of objection shall be assessed in relation to the territory of the Union.

Where an objection is filed by a natural or legal person, the duly substantiated statement of objection shall be admissible only if it shows the legitimate interest of the objector.

2. Where the Commission considers that the objection is inadmissible, it shall inform the authority or natural or legal person that objected of the reasons grounding the finding of inadmissibility.

Article 13

Restrictions on the use of protected designations of origin and protected geographical indications

1. Without prejudice to Article 102 of Regulation (EU) No 1308/2013, the Commission may adopt implementing acts granting a transitional period of up to five years to enable products originating in a Member State or a third country, the designation of which consists of or contains a name that contravenes Article 103(2) of Regulation (EU) No 1308/2013, to continue to use the designation under which they were marketed.

The granting of such transitional period is conditional upon the submission of an admissible statement of objection under Article 96(3) or Article 98 of Regulation (EU) No 1308/2013 showing that the decision conferring protection over the name would jeopardise the existence:

- (a) of an entirely identical name or of a compound name, one term of which is identical to the name to be registered; or

▼M2

- (b) of partially homonymous names or of other names similar to the name to be registered which refer to grapevine products which have been legally on the market for at least five years preceding the date of the publication provided for in Article 97(4) of Regulation (EU) No 1308/2013.

▼B

2. The Commission may adopt implementing acts extending the transitional period referred to in paragraph 1 up to 15 years in duly justified cases where it is shown that:

▼B

- (a) the designation referred to in paragraph 1 has been in legal use consistently and fairly for at least 25 years before the application for protection was submitted to the Commission;
- (b) the purpose of using the designation referred to in paragraph 1 has not, at any time, been to profit from the reputation of the registered name and it is shown that the consumer has not been nor could have been misled as to the true origin of the product.

3. When using a designation referred to in paragraphs 1 and 2, the indication of the country of origin shall clearly and visibly appear on the labelling.

4. To overcome temporary difficulties, with the long-term objective of ensuring that all producers in the area concerned comply with the product specification, a Member State may grant protection for a transitional period, starting from the date on which the application is forwarded to the Commission, on condition that the operators concerned have legally marketed the grapevine products in question using the names concerned continuously for at least the five years prior to the lodging of the application to the authorities of the Member State and that these temporary difficulties had been raised in the national objection procedure referred to in Article 96(3) of Regulation (EU) No 1308/2013. The transitional period shall be as short as possible and shall not exceed 10 years.

The first subparagraph shall apply *mutatis mutandis* to a protected geographical indication or protected designation of origin referring to a geographical area situated in a third country, with the exception of the objection procedure.

Such transitional periods shall be indicated in the application file referred to in Article 94(1) of Regulation (EU) No 1308/2013.

SECTION 3

*Amendments to product specifications***▼M2**

▼B*Article 16***Admissibility of applications for Union amendment**

1. Applications for approval of a Union amendment to a product specification are considered admissible if they are submitted in accordance with Article 105 of Regulation (EU) No 1308/2013 and with Article 3 and Article 9(2) of Implementing Regulation (EU) 2019/34 *mutatis mutandis*, and if they are duly completed.

An application for approval of a Union amendment to a product specification shall be considered to be duly completed where it is comprehensive and exhaustive and where it complies with the requirements set out in Article 2 and Article 9(1) of Implementing Regulation (EU) 2019/34.

▼B

The approval by the Commission of an application for approval of a Union amendment to a product specification shall only cover the amendments submitted in the application itself.

2. If the application is considered inadmissible, the competent authorities of the Member State or those of the third country or the applicant established in a third country shall be informed of the reasons for the inadmissibility.

*Article 17***Standard amendments**

1. Standard amendments shall be approved and made public by Member States to which the geographical area of the designation of origin or geographical indication relates.

Applications for approval of a standard amendment to a product specification shall be submitted to the authorities of the Member State to whom the geographical area of the designation or indication relates. Applicants shall satisfy the conditions laid down in Article 95 of Regulation (EU) No 1308/2013. If the application for approval of a standard amendment to a product specification does not come from the applicant which had submitted the application for protection of the name or names to which the product specification refers, the Member State shall give that applicant the opportunity to comment on the application, if that applicant still exists.

▼M2

The application for a standard amendment shall provide a description of the standard amendments, provide a summary of the reasons for which the amendments are required and demonstrate that the proposed amendments qualify as standard in accordance with Article 105(2), third subparagraph, of Regulation (EU) No 1308/2013.

▼B

2. Where the Member State considers that the requirements of Regulation (EU) No 1308/2013 and the provisions adopted pursuant thereto are met, it may approve and make public the standard amendment. The approval decision shall include the modified consolidated single document, where relevant, and the modified consolidated product specification.

The standard amendment shall be applicable in the Member State once it has been made public. The Member State shall communicate standard amendments to the Commission not later than one month following the date on which the national decision of approval was made public.

3. Decisions approving standard amendments concerning grapevine products originating in third countries shall be taken in accordance with the system in force in the third country concerned and shall be communicated to the Commission by a single producer within the meaning of Article 3 or a group of producers having a legitimate interest, either directly to the Commission or via the authorities of that third country, not later than one month following the date they are made public.

4. The communication of standard amendments shall be considered to be duly completed when it complies with Article 10 of Implementing Regulation (EU) 2019/34.

▼B

5. In the event that the standard amendment implies a modification of the single document, the Commission shall publish the description of the standard amendment referred to in Article 10 of Implementing Regulation (EU) 2019/34 and the modified single document in the *Official Journal of the European Union*, C series, within three months from the date on which the communication is received from the Member State, third country or third country single producer or group of producers.

6. In the event that the standard amendment does not imply a modification of the single document, the Commission shall make public, via the information systems referred to in Article 32 of Implementing Regulation (EU) 2019/34, the description of the standard amendment within three months from the date on which the communication is received from the Member State, third country or applicant established in the third country.

7. Standard amendments shall be applicable in the territory of the Union once they have been published in the *Official Journal of the European Union*, C series or made public by the Commission in the information systems referred to in Article 32 of Implementing Regulation (EU) 2019/34.

8. If the geographical area covers more than one Member State, the Member States concerned shall apply the procedure for standard amendments separately for the part of the area which falls within their territory. The standard amendment shall be applicable only after the last national decision of approval becomes applicable. The Member State last approving the standard amendment shall send the Commission the communication referred to in paragraph 4 not later than one month following the date on which its decision approving the standard amendment is made public.

If one or more of the Member States concerned do not adopt the national decision of approval referred to in the first subparagraph, any of Member States concerned may submit an application under the Union amendment procedure. Such a rule shall also apply *mutatis mutandis* when one or more of the concerned countries is a third country.

Article 18

Temporary amendments

1. Temporary amendments shall be approved and made public by Member States to which the geographical area of the designation of origin or geographical indication relates. They shall be communicated to the Commission together with the reasons supporting the temporary amendments not later than one month following the date on which the national decision of approval was made public. A temporary amendment is applicable in the Member State once it has been made public.

2. Where the geographical area covers more than one Member State, the procedure for temporary amendment applies separately in the Member States concerned for the part of the area which falls within their territory. Temporary amendments shall be applicable only when the last national decision of approval becomes applicable. The Member State last approving the temporary amendment shall communicate it to the Commission not later than one month following the date upon which its decision of approval is made public. This rule applies, *mutatis mutandis*, also when one or more of the countries concerned is a third country.

▼B

3. Temporary amendments concerning grapevine products originating in third countries shall be communicated to the Commission, together with the reasons supporting the temporary amendments, by a single producer within the meaning of Article 3 or a group of producers having a legitimate interest, either directly or via the authorities of that third country, not later than one month following their approval.

4. The communication of temporary amendments shall be considered to be duly completed when it contains all the elements referred to in Article 11 of Implementing Regulation (EU) 2019/34.

5. The Commission shall make public such amendments within three months from the date on which the communication is received from the Member State, third country or third country single producer or group of producers. A temporary amendment is applicable in the territory of the Union once it has been made public by the Commission.

*SECTION 4****Cancelling a protected designation of origin or geographical indication****Article 19***Cancellation procedure**

Requests to cancel a protected designation of origin or geographical indication, as referred to in Article 106 of Regulation (EU) No 1308/2013, shall follow the procedure laid down in Article 94 and Articles 96 to 99 of that Regulation together with provisions of Sections 1, 2 and 4 of Chapter II of this Regulation and of Sections 1, 2, 4 and 5 of Chapter II of Implementing Regulation (EU) 2019/34 *mutatis mutandis*.

The Commission shall publish the cancellation request referred to in Article 13 of Implementing Regulation (EU) 2019/34 in the *Official Journal of the European Union*, C series.

▼M2**▼B***Article 21***Admissibility of cancellation requests**

1. For the purpose of Articles 106 of Regulation (EU) No 1308/2013 a substantiated cancellation request shall be admissible where:

- (a) the cancellation request complies with the requirements set out in Article 13(1) of Implementing Regulation (EU) 2019/34; and
- (b) the cancellation request is based on the grounds referred to in Article 106 of Regulation (EU) No 1308/2013.

2. Where the Commission considers that the cancellation request is not admissible it shall inform the Member State or third country authority or the natural or legal person that submitted the request of the reasons supporting the finding of inadmissibility.

3. Substantiated statements of objection to cancellation shall be admissible only where they show commercial reliance by an interested person on the registered name.

- (b) in the language used in trade for this term.

2. A traditional term shall be registered with its original spelling and in its original script. Where the original script is not in Latin characters, a transcription in Latin characters shall be registered together with the name in its original script.

Article 25

Applicants

1. Competent authorities of the Member States or third countries or representative professional organisations established in third countries may apply for the protection of a traditional term.
2. ‘Representative professional organisation’ shall mean any producer organisation or association of producer organisations having adopted the same rules, operating in the area of one or more wine designations of origin or geographical indications where it includes in its membership at least two thirds of the producers established in the area in which it operates and accounts for at least two thirds of the production of that area. A representative professional organisation may lodge an application for protection only for grapevine products which it produces.

Article 26

Admissibility of the application

1. Applications for protection are considered admissible where they are submitted in compliance with Article 25 of this Regulation and Article 21 and Article 30(3) of Implementing Regulation (EU) 2019/34 and are duly completed.

An application shall be considered to be duly completed where it contains the following information:

4. Where the application is inadmissible, the authorities of the Member State or those of the third country or the applicant established in the third country in question shall be informed of the reasons for its inadmissibility and that they are entitled to submit another application duly completed.

Article 27

Conditions of validity

1. An application for the protection of a traditional term shall be deemed valid if the name for which the protection is sought:

- (a) fulfils the requirements of a traditional term as defined in Article 112 of Regulation (EU) No 1308/2013 as well as the requirements laid down in Article 24 of this Regulation;
- (b) consists exclusively of either:
 - (i) a name traditionally used in trade in a large part of the territory of the Union or of the third country in question, to distinguish specific categories of grapevine products referred to in Article 92(1) of Regulation (EU) No 1308/2013; or

- (d) is defined and regulated in the Member State's legislation or subject to conditions of use as provided for by rules applicable to wine producers in the third country in question, including those emanating from representative professional organisations.

2. For the purposes of paragraph (1) (b), traditional use means:

- (a) use amounting to a period of at least five years in case of terms filed in the official language or regional language of the Member State or third country where the term originates;
- (b) use amounting to a period of at least 15 years in case of terms filed in the language used for trade.

3. For the purposes of paragraph (1)(c), a name that has become 'generic' means the name which, although it relates to a specific production method or ageing method, or the quality, colour, type of place, or a particular event linked to the history of a grapevine product, has become the common name of that product in the Union.

Article 28

Scrutiny by the Commission

1. The date of submission of an application for protection of a traditional term shall be the date on which the application is received by the Commission.

2. The Commission shall examine whether the application for protection meets the conditions laid down in this Chapter.

▼B

3. Where the Commission considers that the conditions laid down in Articles 26 and 27 are met, it shall adopt an implementing act concerning the publication, in the *Official Journal of the European Union*, of the application for protection.

4. If an application for the protection of a traditional term does not meet the conditions laid down in this Chapter, the Commission shall inform the applicant of the grounds for refusal, setting a deadline for the withdrawal or modification of the application or for the submission of comments.

5. If the obstacles are not remedied by the applicant within the deadline referred to in paragraph 4, the Commission shall adopt an implementing act rejecting the application in accordance with Article 115(2) of Regulation (EU) No 1308/2013.

*SECTION 2****Objection procedure****Article 29***Submission of an objection**

The date of submission of an objection shall be the date on which the objection is received by the Commission.

 - (a) it is submitted by any Member State or third country, or any natural or legal person having a legitimate interest;
 - (b) it is received by the Commission within the deadline provided for in Article 22(1) of Implementing Regulation (EU) 2019/34;
 - (c) it demonstrates that the application for protection is incompatible with the rules on traditional terms because it does not comply with Article 27 of this Regulation or because the registration of the name proposed would conflict with Article 32 or 33 of this Regulation.
2. An objection that is deemed admissible shall be notified to the Member State or the third country authorities or the representative professional organisation in the third country in question.

*Article 31***Scrutiny of an objection**

1. Where the Commission does not reject the objection in accordance with Article 23(3) of Implementing Regulation (EU) 2019/34, it shall communicate the objection to the applicant that submitted the application and shall invite the applicant to file observations within the time period referred to in Article 24(1) of Implementing Regulation (EU) 2019/34. Any observations received within this period shall be communicated to the objector.

▼B

In the course of its scrutiny of an objection, the Commission shall request the parties to provide comments, if appropriate, within the time period referred to in Article 24(2) of Implementing Regulation (EU) 2019/34, on the communications received from the other parties.

2. Where the applicant or the objector do not file any observations in response, or where the time periods for filing observations and for submitting comments referred to in Article 24 of Implementing Regulation (EU) 2019/34 are not respected, the Commission shall proceed to rule on the objection.

3. A decision to reject or recognise the traditional term in question shall be taken by the Commission on the basis of the evidence available to it. The Commission shall consider whether the conditions referred to or laid down in Articles 27, 32 or 33 of this Regulation are fulfilled. A decision to reject the traditional term shall be notified to the objector and to the applicant.

4. Where multiple objections are lodged, a preliminary examination of one or more such objections may prevent an application for protection from proceeding. In these circumstances, the Commission may suspend the other objection procedures. The Commission shall inform the other objectors of any decision affecting them which was taken in the course of the procedure.

Where an application is rejected, objection procedures which have been suspended shall be deemed to be closed and the objectors concerned shall be duly informed.

*SECTION 3****Protection****Article 32***Relationship with trade marks**

1. The registration of a trade mark that contains or consists of a traditional term which does not respect the definition and conditions of use of that traditional term as referred to in Article 112 of Regulation (EU) No 1308/2013, and that relates to a product falling under one of the categories listed in Part II of Annex VII thereto shall be:

- (a) refused if the application for registration of the trade mark is submitted after the date of submission of the application for protection of the traditional term to the Commission and the traditional term is subsequently protected; or
- (b) invalidated.

2. A name shall not be protected as a traditional term where, in the light of a trade mark's reputation and renown, such protection is liable to mislead the consumer as to the true identity, nature, characteristic or quality of the grapevine product.

▼B

3. Without prejudice to paragraph 2, a trade mark referred to in paragraph 1 which has been applied for, registered or established by use in good faith, where national legislation so provides, in the territory of the Union, prior to the date of protection of the traditional term in the country of origin, may continue to be used and renewed notwithstanding the protection of a traditional term, provided that no grounds for the trade mark's invalidity or revocation exist under Directive 2008/95/EC of the European Parliament and of the Council ⁽¹⁾, Directive (EU) 2015/2436 of the European Parliament and of the Council ⁽²⁾ or under Regulation (EU) 2017/1001 of the European Parliament and of the Council ⁽³⁾.

In such cases, the use of the traditional term shall be permitted alongside the relevant trade marks.

*Article 33***Homonyms**

1. A term for which an application for protection is submitted and which is wholly or partially homonymous with a traditional term already protected under Article 113 of Regulation (EU) No 1308/2013 shall be registered with due regard to local and traditional usage and the risk of confusion.

A homonymous term which misleads consumers as to the nature, quality or the true origin of the grapevine products shall not be registered even if the term is accurate.
