

**COMMISSION IMPLEMENTING REGULATION (EU) 2020/1395****of 5 October 2020**

**concerning the renewal of the authorisation of *Bacillus amyloliquefaciens* CECT 5940 as a feed additive for chickens for fattening, its authorisation for chickens reared for laying, and repealing Regulation (EC) No 1292/2008 (►M1 holder of the authorisation Evonik Operations GmbH ◀)**

(Text with EEA relevance)

*Article 1*

The authorisation of the additive specified in the Annex, belonging to the additive category ‘zootechnical additives’ and to the functional group ‘gut flora stabilisers’ for chickens reared for laying, and for the same category and functional group for chickens for fattening is renewed subject to the conditions laid down in that Annex.

*Article 2*

Regulation (EC) No 1292/2008 is repealed.

*Article 3*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

## ANNEX

Identification number of the additive	Name of the holder of authorisation	Additive	Composition, chemical formula, description, analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of authorisation
						CFU/kg of complete feedingstuff with a moisture content of 12 %			
<b>Category of zootechnical additives. Functional group: gut flora stabilisers.</b>
