

Corrigendum to Commission Implementing Regulation (EU) 2024/2632 of 8 October 2024 amending Implementing Regulation (EU) 2022/1193 as regards measures on water liable to be infected by *Ralstonia solanacearum* (Smith 1896) Yabuuchi et al. 1996 emend. Safni et al. 2014, measures to be taken by the professional operators and the template on the reporting of survey results

(Official Journal of the European Union L, 2024/2632, 9 October 2024)

On page 5, in the Annex, the new Annex II to Commission Implementing Regulation (EU) 2022/1193 is replaced as follows:

‘ANNEX II

Survey template referred to in Article 3(3)

Template for presenting the results of the brown rot surveys carried out during the calendar year preceding the year of reporting

Member State	Category	Cropping area (ha)	Visual inspections of growing crops					Visual inspections of tuber lots in store ^(f)			
			Area visually inspected (ha)	Number of visual inspections ^(b)	Number of visual inspections where symptoms were observed ^(c)	Number of symptomatic samples taken ^(d)	Number of asymptomatic samples taken ^(d)	Number of visual inspections ^(b)	Number of visual inspections where symptoms were observed ^(c)	Number of symptomatic samples taken ^(d)	Number of asymptomatic samples taken ^(d)
	Potato tubers for planting ^(f)										
	Potato tubers intended to be planted in their place of production										
	Potato tubers other than those for planting										
	Tomatoes intended for replanting										

Member State	Category	Cropping area (ha)	Visual inspections of growing crops					Visual inspections of tuber lots in store ⁽⁴⁾				
			Area visually inspected (ha)	Number of visual inspections ^(b)	Number of visual inspections where symptoms were observed ^(c)	Number of symptomatic samples taken ^(d)	Number of asymptomatic samples taken ^(d)	Number of visual inspections ^(b)	Number of visual inspections where symptoms were observed ^(c)	Number of symptomatic samples taken ^(d)	Number of asymptomatic samples taken ^(d)	
	Other hosts (specify species)											
	Irrigation water											
	Waste water											

Member State	Category	Laboratory tests related to visual inspections of growing crops			Laboratory tests related to tuber lot inspections			Laboratory tests related to water		Notification number(s) of the outbreaks notified, as applicable, in accordance with Implementing Regulation (EU) 2019/1715	Additional information
		Number of symptomatic samples tested positive	Number of asymptomatic samples tested positive	Number of positive visual inspections ⁽⁸⁾	Number of symptomatic samples tested positive	Number of asymptomatic samples tested positive	Number of positive lots	Number of samples tested	Number of positive samples		
	Potato tubers for planting ^(f)										
	Potato tubers intended to be planted in their place of production										
	Potato tubers other than those for planting										

Member State	Category	Laboratory tests related to visual inspections of growing crops			Laboratory tests related to tuber lot inspections			Laboratory tests related to water		Notification number(s) of the outbreaks notified, as applicable, in accordance with Implementing Regulation (EU) 2019/1715	Additional information
		Number of symptomatic samples tested positive	Number of asymptomatic samples tested positive	Number of positive visual inspections ^(e)	Number of symptomatic samples tested positive	Number of asymptomatic samples tested positive	Number of positive lots	Number of samples tested	Number of positive samples		
	Tomatoes intended for replanting										
	Other hosts (specify species)										
	Irrigation water										
	Waste water										

^(a) To be filled only for the results of survey carried out on specified plants and other hosts grown and harvested in your country.
^(b) Including the number of multiple visual inspections carried out on the same field or on the same lot, as applicable.
^(c) Symptoms were found on cut tubers or plants, and samples were taken for laboratory testing.
^(d) Sample preparation is described in point 4 of Annex I.
^(e) Symptoms were found on cut tubers and samples were taken for laboratory testing.
^(f) Except potato tubers intended to be planted in their place of production.
^(g) Total number of visual inspections for which samples were tested positively for the presence or *R. solanacearum*.’
