ПОЯСНЕНИЯ

1. Общият каталог на сортовете от зеленчукови видове се публикува в съответствие с разпоредбите на член 17 от Директива 2002/55/ЕО на Съвета от 13 юни 2002 г. относно търговията със семена от зеленчукови култури ⁽¹⁾, последно изменена с Директива 2006/124/ЕО ⁽²⁾.

В съответствие с влизането в сила на Споразумението за Европейското икономическо пространство (ЕИП) общият каталог включва също сортове от страните от ЕАСТ, които изпълняват изискванията на споразумението ⁽³⁾.

Този каталог съдържа всички сортове, чиито семена съгласно член 16 от горепосочената директива не са предмет в ЕИП на пазарни ограничения, свързани със сорта, освен в случаите, предвидени в член 16, параграф 2 и член 18 от горепосочената директива.

От влизането в сила на Директива 92/33/ЕИО на Съвета от 28 април 1992 г. относно търговията със зеленчуков размножителен и посадъчен материал, различен от семена ⁽⁴⁾ този каталог включва също сортовете, чийто размножителен или посадъчен материал е част от родовете или видовете, обхванати от посочената директива.

2. Общият каталог на сортовете от зеленчукови видове е публикуван за първи път на 29 юни 1972 г. ⁽⁵⁾. Настоящото 26-о пълно издание осъвременява 25-ото пълно издание ⁽⁶⁾. Това осъвременяване отразява ситуацията към 8 юни 2007 г. ⁽⁷⁾.

При предоставяне на информация от държавите-членки ще бъдат изготвяни допълнения и редовно ще бъдат публикувани нови пълни издания.

3. Каталогът се подразделя на видовете, обхванати от Директиви 92/33/ЕИО и 2002/55/ЕО. При всеки вид или, когато е уместно (според ботаническото му наименование и неговия превод на анялийски), подвид той представя сортовете в азбучен ред по техните приети сортови наименования. Това са:

- а) наименованията, под които сортът е официално приет в държавите-членки или в страна от ЕАСТ; съгласно член 9, параграф 2 от Директива 2002/55/ЕО нови сортове могат да бъдат приемани в държава-членка или страна от ЕАСТ само с едно наименование. Същият сорт може да бъде приет в друга държава-членка или страна от ЕАСТ с различно наименование само при обосновани случаи;

- б) другите наименования, с които семената на сорта са известни на пазара (стари сортове).

За улеснение, когато семената на един сорт се предлагат на пазара под няколко наименования, се избира едно общоприето наименование. По правило това наименование е официалното наименование, дадено на сорта в първата известна страна на приемане. Всички подробности за сорта са дадени под това наименование.

При останалите сортови наименования се споменава само съответното общоприето наименование.

4. Каталогът съдържа четири колони:

— колона 1: „Сорт“

— колона 2: „Държава-членка на приемане“

— колона 3: „Страна на приемане от ЕАСТ“ (към настоящия момент само Норвегия)

— колона 4: „Забележки“

Колоната 1 съдържа всички сортови наименования в азбучен ред.

За общоприетите наименования информацията за сортовете се дава в четирите колони по начина, обяснен в точка 5.

За други наименования в колоната 4 се отбелязва позоваване на общоприетото наименование, както е показано в следния пример:

ALLIUM CEPA

1	2	3	4
Bianca di Maggio			= La Reine

5. За общоприетите наименования четирите колони съдържат следната информация за сорта:

5.1. Колоната 1

Непосредствено под общоприетото наименование в азбучен ред се повтарят другите наименования на сорта, с които той е официално приет в държавите-членки или в страна от ЕАСТ, предшествани от едно тире за страна на приемане.

За наименованията на сортове, които не са обхванати, виж точка 5.3.

5.2. Колони 2 и 3

- Преди съкращението на всяка държава-членка или страна от ЕАСТ, която официално е приела сорта, се поставя буква „а“ или „б“.

Буква „а“ означава, че семената на този сорт могат, от една страна, да бъдат сертифицирани като „базови семена“ или „сертифицирани семена“ или, от друга страна, да бъдат контролирани като „стандартни семена“ (виж член 3, параграф 2, буква а) от Директива 2002/55/ЕО).

Буква „б“ означава, че семената на този сорт могат да бъдат контролирани само като „стандартни семена“ (виж член 3, параграф 2, буква б) от Директива 2002/55/ЕО).

- В повечето случаи съкращението на страната е последвано от число. Това число посочва лицето, отговорно за поддържането на сорта в страната на приемане. Имената, съответстващи на тези числа, се съдържат в приложението със заглавие „Списък на имената на лицето или лицата, отговарящи за поддържането на сортовете, и органите, разполагащи със списък на тези лица“.
- Когато вместо число е поставен знак „х“, това означава, че няколко лица отговарят за поддържането в страната на приемане. Имената им могат да бъдат получени от органа, посочен в списъка за съответната държава-членка или страна от ЕАСТ.
- Когато числото или знакът „х“ са подчертани, това означава, че съответните лица отговарят също за поддържането на сорта за други страни, за които е отбелязана буква „а“ или „б“ без число или знак „х“.
- Горепосочените бележки се дават на реда, съответстващ на наименованието, с което сортът е официално приет в съответната държава-членка или страна от ЕАСТ (виж точка 5.1).

5.3. Колоната 4

В тази колоната се дава следната информация:

- хибридните сортове се отбелязват с буква „Х“;
- сортовете, които до голяма степен са възпроизвеждани чрез размножителен или посадъчен материал, различен от семена, са обозначени с буквата „V“;

- наименованията, които не се обхващат от точка 5.1, са дадени в азбучен ред, последвани от съкращението за държавата-членка или страната от ЕАСТ, в която е използвано наименованието;
- наименование, което вече не е позволено съгласно разпоредбите на точка 3 или което е било коригирано, но е включено в предишното издание на този каталог, се посочва само за информация, предшествано от съкращението „ant.“;
- когато определен сорт е изваден от каталога и е определен период за сертифициране, проверка и пускане на пазара на семена съгласно член 15, параграф 2 от Директива 2002/55/ЕО, продължителността на този период се посочва с датата на неговото изтичане, предшествана от буквата „f“.

Допълнителна информация се съдържа в специален списък с бележки.
