Forslag til

EUROPA-PARLAMENTETS OG RÅDETS FORORDNING

om sikring af toldfri behandling af visse aktive farmaceutiske ingredienser på WHO's liste over internationale ikke-navnebeskyttede navne (INN) og af visse produkter, der anvendes til fremstilling af farmaceutiske færdigvarer, og om ændring af bilag I til forordning (EØF) nr. 2658/87

BEGRUNDELSE

Referatet af drøftelserne om handelen med farmaceutiske produkter (Record of Discussions of the Trade in Pharmaceutical Products) er en ordning mellem de vigtigste lægemiddelproducerende lande om at reducere deres WTO-toldbindinger på visse lægemidler til nul og på MFN-basis, herunder aktive farmaceutiske ingredienser og mellemstoffer. Aftalens parter er EU, USA, Japan, Canada, Schweiz, Norge og Macao (Kina).

Ordningen omfattede oprindeligt over 6 000 produkter. Da der hele tiden udvikles nye farmaceutiske produkter, er det ifølge ordningen hensigten, at disse produkter med jævne mellemrum tages op til revision. Parterne blev enige om, at mødes inden for rammerne af WTO's Råd for Handel med Varer, sædvanligvis mindst én gang hvert tredje år, for at revidere produktdækningen med henblik på ved konsensus at tilføje yderligere farmaceutiske produkter, der ikke længere skal belægges med told. Dækningen blev første gang revideret i 1995-1996, hvilket resulterede i, at yderligere 465 produkter blev fritaget for told. Efter den anden revision i 1998 (gennemført i juli 1999) blev endnu 639 produkter fritaget for told. Med den tredje revision i 2006 blev yderligere 1 290 produkter fritaget.

Med dette forslag opfordres Rådet og Europa-Parlamentet til at tillade, at yderligere 718 farmaceutiske og kemiske produkter tilføjes på listen over de 8 619 produkter, der opfylder betingelserne for obligatorisk behandling med toldfritagelse ved import til EU.

Der blev i 2009 foretaget en fjerde revision af de produkter, der er omfattet af referatet, i overensstemmelse med referatets artikel 3, som kræver, at deltagerne mindst hvert tredje år reviderer produktdækningen med henblik på at tilføje yderligere farmaceutiske produkter, der ikke længere skal belægges med told. EU deltog i disse tekniske drøftelser. I forbindelse med drøftelserne konkluderede deltagerne, at yderligere en række INN og farmaceutiske mellemstoffer, der bruges til produktion og fremstilling af farmaceutiske færdigvarer, bør indrømmes toldfritagelse, og at listen over specificerede præfikser og suffikser for salte, estere eller hydrater af INN bør udvides, hvorved listen over produkter, som opfylder betingelserne for behandling med toldfritagelse, udvides med 718 nye stoffer.

Medlemsstaterne er blevet hørt i forbindelse med de tekniske drøftelser.

Rådet og Europa-Parlamentet opfordres til at vedtage vedlagte forslag til Europa-Parlamentets og Rådets forordning om ændring af bilag I til Rådets forordning (EØF) nr. 2658/87 for at udvide behandlingen med toldfritagelse i Den Europæiske Union til ovennævnte farmaceutiske og kemiske produkter.

EUROPA-PARLAMENTETS OG RÅDETS FORORDNING

om sikring af toldfri behandling af visse aktive farmaceutiske ingredienser på WHO's liste over internationale ikke-navnebeskyttede navne (INN) og af visse produkter, der anvendes til fremstilling af farmaceutiske færdigvarer, og om ændring af bilag I til forordning (EØF) nr. 2658/87

EUROPA-PARLAMENTET OG RÅDET FOR DEN EUROPÆISKE UNION HAR -

under henvisning til traktaten om Den Europæiske Unions funktionsmåde, særlig artikel 207,

under henvisning til forslag fra Europa-Kommissionen,

efter fremsendelse af udkastet til retsakt til de nationale parlamenter,

efter den almindelige lovgivningsprocedure og

ud fra følgende betragtninger:

- (1) Under forhandlingerne i Uruguayrunden vedtog Fællesskabet og en række lande, at der bør indrømmes toldfri behandling for farmaceutiske varer henhørende under kapitel 30 i det harmoniserede system (HS) og HS-position 2936, 2937, 2939 og 2941 og for nærmere angivne aktive farmaceutiske ingredienser med internationale ikke-navnebeskyttede navne (INN) fra Verdenssundhedsorganisationen (WHO) samt for nærmere angivne salte, estere og hydrater af sådanne INN og desuden for nærmere angivne farmaceutiske mellemstoffer, der anvendes til produktion og fremstilling af farmaceutiske færdigvarer.
- (2) Resultaterne af drøftelserne som gengivet i referatet blev indarbejdet i deltagernes toldlister, der er bilagt Marrakeshprotokollen til GATT 1994.
- (3) Deltagerne konkluderede, at repræsentanterne for de medlemmer af Verdenshandelsorganisationen (WTO), der deltog i drøftelserne, skal mødes inden for rammerne af WTO's Råd for Handel med Varer, sædvanligvis mindst én gang hvert tredje år, for at revidere produktdækningen med henblik på ved konsensus at tilføje yderligere farmaceutiske produkter, der ikke længere skal belægges med told.
- (4) Tre sådanne revisioner har fundet sted, og resultatet er, at der er indrømmet behandling med toldfritagelse af yderligere et bestemt antal INN og farmaceutiske mellemstoffer, der bruges til produktion og fremstilling af farmaceutiske færdigvarer, at visse af disse mellemstoffer er overført til listen over INN, og at listen over nærmere bestemte præfikser og suffikser for salte, estere eller hydrater af INN er blevet udvidet.

- (5) En fjerde revision blev skønnet nødvendig og blev iværksat i 2009. Det blev konkluderet, at der bør indrømmes behandling med toldfritagelse af yderligere et bestemt antal INN og farmaceutiske mellemstoffer, der bruges til produktion og fremstilling af farmaceutiske færdigvarer, at et bestemt antal af de allerede tilføjede mellemstoffer bør overføres til listen over INN, og at listen over nærmere bestemte præfikser og suffikser for salte, estere eller hydrater af INN bør udvides.
- (6) Ved Rådets forordning (EØF) nr. 2658/87 af 23. juli 1987 om told- og statistiknomenklaturen og den fælles toldtarif¹ indføres den kombinerede nomenklatur (KN) og fastsættes den fælles toldtarifs konventionelle toldsatser.
- (7) Forordning (EØF) nr. 2658/87 bør ændres i overensstemmelse hermed.
- (8) [For at sikre, at de i denne forordning fastsatte foranstaltninger anvendes den 1. januar 2011, bør denne forordning træde i kraft på dagen efter offentliggørelsen -].

Fra den 1. januar 2011 indrømmer Den Europæiske Union toldfritagelse for de i bilag I angivne INN.

Artikel 2

Listen over præfikser og suffikser, som i forbindelse med de anførte INN beskriver de salte, estere eller hydrater af INN, som også er berettigede til behandling med toldfritagelse, under forudsætning af at disse kan tariffes i samme 6-cifrede HS-underposition som det tilsvarende INN, ændres fra den 1. januar 2011 som anført i bilag II.

Artikel 3

Fra den 1. januar 2011 indrømmer Unionen toldfritagelse for de farmaceutiske mellemstoffer, der anvendes til produktion og fremstilling af de farmaceutiske færdigvarer, der er opført i bilag III.

Artikel 4

Fra den 1. januar 2011 skal de farmaceutiske mellemstoffer, der er opført i bilag IV, slettes på listen over de stoffer, som er fritaget for told.

¹ EFT L 256 af 7.9.1987, s. 1.

Artikel 5

Bilag 3, 4 og 6 i III. del, afsnit II, i bilag I til forordning (EØF) nr. 2658/87 (Liste over farmaceutiske stoffer, som opfylder betingelserne for behandling med toldfritagelse) ændres i overensstemmelse hermed.

Artikel 6

Denne forordning træder i kraft dagen efter offentliggørelsen i *Den Europæiske Unions Tidende*.
