„— ‚ancillary system (AS)‘ means a system managed by an entity that is subject to supervision and/or oversight by a competent authority and complies with the oversight requirements for the location of infrastructures offering services in euro, as amended from time to time and published on the ECB website (*), in which payments and/or financial instruments are exchanged and/or cleared while the resulting monetary obligations are settled in TARGET2 in accordance with Guideline ECB/2007/2 and a bilateral arrangement between the ancillary system and the relevant CB,

(*) The Eurosystem's current policy for the location of infrastructure is set out in the following statements, which are all available on the ECB website at www.ecb.europa.eu: (a) the ‚Policy statement on euro payment and settlement systems located outside the euro area‘ of 3 November 1998; (b) ‚The Eurosystem's policy line with regard to consolidation in central counterparty clearing‘ of 27 September 2001; (c) ‚The Eurosystem policy principles on the location and operation of infrastructures settling in euro-denominated payment transactions‘ of 19 July 2007; and (d) ‚The Eurosystem policy principles on the location and operation of infrastructures settling euro-denominated payment transactions: specification of ‚legally and operationally located in the euro area‘ of 20 November 2008.“

b) Die Definition des Begriffs „Banking Directive“ wird gestrichen.

c) Die Definition des Begriffs „technical malfunction of TARGET2“ erhält folgende Fassung:

„— ‚technical malfunction of TARGET2‘ means any difficulty, defect or failure in the technical infrastructure and/or the computer systems used by TARGET2-ECB, or any other event that makes it impossible to execute and complete the same-day processing of payments in TARGET2-ECB.“

2. Artikel 4 erhält folgende Fassung:

„Artikel 4

Zugangsvoraussetzungen

Entities managing ancillary systems (including entities established outside the EEA) and acting in that capacity, whose access to TARGET2-ECB has been approved by the Governing Council, shall be the only entities that are eligible for participation in TARGET2-ECB.“

3. Artikel 7 wird wie folgt geändert:

Absatz 2 erhält folgende Fassung:

„2. Unless otherwise requested by the participant, its BIC(s) shall be published in the TARGET2 directory.“

Der folgende Absatz 5 wird angefügt:

„5. Participants acknowledge that the ECB and other CBs may publish participants' names and BICs.“

4. Artikel 10 Absatz 1 erhält folgende Fassung:

„1. The ECB shall open and operate at least one PM account for each participant. Upon request by a participant acting as a settlement bank, the ECB shall open one or more sub-accounts in TARGET2-ECB to be used for dedicating liquidity.“

5. Der folgende Artikel 12 Absatz 3 wird eingefügt:

„3. The SSP determines the timestamp for the processing of payment orders on the basis of the time when it receives and accepts the payment order.“

6. Artikel 13 erhält folgende Fassung:

„Article 13

Priority rules

1. Instructing participants shall designate every payment order as one of the following:

- a) normal payment order (priority class 2);
- b) urgent payment order (priority class 1); or
- c) highly urgent payment order (priority class 0).

If a payment order does not indicate the priority, it shall be treated as a normal payment order.

2. Highly urgent payment orders may only be designated by:

- a) CBs; and
- b) participants, in cases of payments to and from CLS International Bank and liquidity transfers in relation to ancillary system settlement using the Ancillary System Interface.

All payment instructions submitted by an ancillary system through the Ancillary System Interface to debit or credit the participants' PM accounts shall be deemed to be highly urgent payment orders.

3. Liquidity transfer orders initiated via the ICM are urgent payment orders.

4. In the case of urgent and normal payment orders, the payer may change the priority via the ICM with immediate effect. It shall not be possible to change the priority of a highly urgent payment order.“

7. Artikel 15 Absatz 4 erhält folgende Fassung:

„4. After receipt of the reservation request the ECB shall check whether the amount of liquidity on the participant's PM account is sufficient for the reservation. If this is not the case, only the liquidity available on the PM account shall be reserved. The rest of the requested liquidity shall be reserved if additional liquidity becomes available.“

8. Der folgende Artikel 15a wird eingefügt:

„Article 15a

Standing instructions for liquidity reservation and dedication of liquidity

1. Participants may predefine the default amount of liquidity reserved for highly urgent or urgent payment orders via the ICM. Such standing instruction or a change to such instruction shall take effect from the next business day.

2. Participants may predefine via the ICM the default amount of liquidity set aside for ancillary the next business day. Participants shall be deemed to have instructed the ECB to dedicate system settlement. Such standing instruction or a change to such instruction shall take effect from liquidity on their behalf if the relevant ancillary system so requests.“

9. Artikel 19 erhält folgende Fassung:

„Article 19

Settlement and return of queued payment orders

1. Payment orders that are not settled immediately in the entry disposition shall be placed in the queues in accordance with the priority to which they were designated by the relevant participant, as referred to in Article 13.

2. To optimise the settlement of queued payment orders, the ECB may use the optimisation procedures described in Appendix I.

3. Except for highly urgent payment orders, the payer may change the queue position of payment orders in a queue (i.e. reorder them) via the ICM. Payment orders may be moved either to the front or to the end of the respective queue with immediate effect at any time during daytime processing, as referred to in Appendix V.

4. At the request of a payer, the ECB may decide to change the queue position of a highly urgent payment order (except for highly urgent payment orders in the context of settlement procedures 5 and 6) provided that this change would not affect the smooth settlement by ancillary systems in TARGET2 or would not otherwise give rise to systemic risk.

5. Liquidity transfer orders initiated in the ICM shall be immediately returned as non-settled if there is insufficient liquidity. Other payment orders shall be returned as non-settled if they cannot be settled by the cut-off times for the relevant message type, as specified in Appendix V.“

10. Artikel 31 Absätze 2 und 3 erhalten folgende Fassung:

„2. The ECB shall freeze the balance on the sub-account of the participant upon communication by the ancillary system (via a ‚start-of-cycle‘ message). Where applicable, the ECB shall thereafter increase or reduce the frozen balance by crediting or debiting cross-system settlement payments to or from the sub-account or crediting liquidity transfers to the sub-account or crediting liquidity transfers to the sub-account. Such freezing shall expire upon communication by the ancillary system (via an ‚end-of-cycle‘ message).

3. By confirming the freezing of the balance on the participant’s sub-account, the ECB guarantees to the ancillary system payment up to the amount of this particular balance. By confirming, where applicable, the increase or reduction of the frozen balance upon crediting or debiting cross-system settlement payments to or from the sub-account or crediting liquidity transfers to the sub-account, the guarantee is automatically increased or reduced in the amount of the payment. Without prejudice to the abovementioned increase or reduction of the guarantee, the guarantee shall be irrevocable, unconditional and payable on first demand. If the ECB is not the ancillary system’s CB, the ECB shall be deemed instructed to issue the abovementioned guarantee to the ancillary system’s CB.“
