The High Representative of the Union for Foreign Affairs and Security Policy must ensure that the European Parliament is closely involved in all stages of the decision-making process. The joint consultation meetings provided for under point 25 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1), which are to be further intensified on the basis of the Declaration by the High Representative on political accountability (OJ C 210, 3.8.2010, p. 1), must enhance a continuous dialogue between the High Representative and the European Parliament on the main choices for and aspects of the Union's CFSP, including consultations prior to the adoption of mandates and strategies. In order to enhance interinstitutional CFSP coherence and provide up-to-date expert advice to all institutions as a means of developing a more coherent and effective CFSP, expert policy-relevant research will be provided, when appropriate, by the European Union Institute for Security Studies and others.

## CHAPTER 19 03 — COMMON FOREIGN AND SECURITY POLICY (CFSP) (cont'd)

**19 03 01 Support to preservation of stability through common foreign and security policy (CFSP) missions and European Union Special Representatives***Remarks*

Common foreign and security policy (CFSP) crisis management measures and operations in the area of monitoring and verification of peace processes, conflict resolution and other stabilisation activities, the rule of law and police missions fall under this article. Operations may be established to monitor border crossings, peace or cease-fire agreements or more generally political and security developments. As with all actions financed under the budget chapter, relevant measures must be civilian in nature.

## Remarks

This appropriation is intended to cover the financing of preparatory measures to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for European Union Special Representatives (EUSRs), in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

It also covers follow-up measures and audits of common foreign and security policy measures and the financing of any expenditure on the regularisation of previously closed measures.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the measures coming under Items 19 03 01 01, 19 03 01 02, 19 03 01 03, 19 03 01 04 and 19 03 01 07.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This appropriation is intended to cover all the expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 of the Treaty on European Union.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

This appropriation covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. ## Remarks

This appropriation is intended to finance measures which contribute to the non-proliferation of weapons of mass destruction (nuclear, chemical and biological), primarily in the framework of the EU Strategy against the Proliferation of Weapons of Mass Destruction of December 2003. This includes support for measures implemented by international organisations in this field.

This appropriation is intended to finance measures which contribute to the non-proliferation of conventional weapons and operations to combat the destabilising accumulation and trafficking of small arms and light weapons. This includes support for measures implemented by international organisations in this field.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. ## Remarks

This appropriation is intended to cover cooperation with third countries to advance and promote the Union and mutual interests under the Partnership Instrument, in particular with developed and developing countries which play an increasingly prominent role in the world affairs, including foreign policy, international economy and trade, multilateral forums, global governance and in addressing challenges of global concern or where the Union has significant interests. This cooperation includes measures supporting the Union's bilateral, regional or multilateral relationships in addressing challenges of global concern, the implementation of the international dimension of the 'Europe 2020' strategy, trade and investment opportunities and public diplomacy and outreach activities.

Part of these appropriations will also be used to implement the project 'Cooperation with northern and southern transatlantic dimension', which aims at increasing a broader transatlantic dialogue and cooperation involving northern and southern Atlantic countries in order to address common global challenges. The objective is to look into the feasibility of implementing common short- and longer term goals in fields such as economic cooperation, global governance, development cooperation, climate change, security and energy. This preparatory action should serve to strengthen a triangular dialogue, or even an extended Atlantic dialogue, as well as to promote the idea of a wider Atlantic community.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to implement the international dimension of higher education of the 'Erasmus+' programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover expenditure on information outreach on the Union's external relations. The information activities to be carried out under this article fall into two broad categories: horizontal activities and logistical support from headquarters, and activities carried out by Union delegations in third countries and vis-à-vis international organisations.

Measures carried out from headquarters:

- the European Union visitors programme (EUVP), carried out jointly by the European Parliament and the Commission, provides some 170 participants a year, chosen by the Union delegations, with the opportunity of experiencing contact with the Union by visiting the European Parliament and the Commission as part of a made-to-measure individual programme of visits based on a theme,
- the production and distribution of publications on priority themes as part of an annual programme,
- the production and dissemination of audiovisual material,
- the development of information delivered via electronic media (the internet and electronic message systems),
- the organisation of visits for groups of journalists,
- the support for the information activities of opinion leaders that are consistent with the Union's priorities,
- strategic communications, in particular in the Union neighbourhood and the Western Balkans.

TITLE 19 — FOREIGN POLICY INSTRUMENTS

CHAPTER 19 06 — INFORMATION OUTREACH ON THE UNION'S EXTERNAL RELATIONS (*cont'd*)**19 06 01** (*cont'd*)

The Commission will continue to fund news broadcasts in Farsi.

*Decentralised measures carried out by Union delegations in third countries and vis-à-vis international organisations*

In accordance with the communication goals laid down for each region and each country, the Union delegations propose an annual communication plan, which, once approved by headquarters, is assigned a budgetary allocation covering the following activities:

- websites,
- relations with the media (press conferences, seminars, radio programmes, etc.),
- information products (other publications, graphic material, etc.),
- organisation of events, including cultural activities,
- newsletters,
- information campaigns,
- strategic communications, in particular in the Union neighbourhood and the Western Balkans.

*Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This preparatory action will test how to counter disinformation more systematically, effectively and efficiently. An important objective is to build Union capacity on fact-checking disinformation by upgrading the skills base of staff through training and coaching by appointed strategic communication experts, who will then report on their monitoring activities to headquarters, including the East StratCom task force.

**CHAPTER 19 06 — INFORMATION OUTREACH ON THE UNION'S EXTERNAL RELATIONS** (*cont'd*)**19 06 77** (*cont'd*)19 06 77 01 (*cont'd*)

Therefore, the preparatory action will finance: (a) training to raise awareness of disinformation campaigns among Union staff; (b) monitoring of disinformation campaigns both within and outside the Union; (c) data-based analysis of the challenge and ways forward throughout Europe; (d) better output for the product of that analysis, i.e. translation and dissemination in local languages. As disinformation campaigns target the Union and its partner countries alike, these activities can benefit staff, according to priorities to be set, in: (1) Commission Permanent Representations in Member States; (2) Union Delegations in Eastern Partnership countries; and (3) Union Delegations in Western Balkans countries.

The preparatory action will be jointly implemented by the Commission (Service for Foreign Policy Instruments) and the European External Action Service.

This action will allow the Union to raise awareness, to increase capacity to anticipate, analyse and respond, to be more efficient, to better reach out to Member States and to promote its policy objectives vis-à-vis its citizens as well as the Eastern Neighbourhood and the Western Balkans, including in their languages.

*Legal basis*

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

## Remarks

This appropriation is intended to cover the following actions:

*Activities supporting the conduct of ongoing and new multi and bilateral trade negotiations*

Actions aim to strengthen the Union's negotiating position in ongoing multilateral trade negotiations (in the context of the Doha Development Agenda) as well as ongoing and new bilateral and regional trade negotiations, to ensure that Union policy conception is based on the highest economic, social and environmental standards, as well as comprehensive and up-to-date expert information and to build coalitions for their successful completion, including:

- meetings, conferences and seminars in connection with the preparation of policy and negotiating positions and with the conduct of ongoing as well as new trade negotiations,
- development and implementation of a consistent and comprehensive communication and information strategy, promoting the Union's trade policy and raising awareness of the detail and objectives of the Union's trade policy and ongoing negotiation positions, both within and outside the Union,
- information activities and seminars for state and non-state actors (including civil society and business actors) to explain the state of play of ongoing negotiations and of the implementation of existing agreements.

COMMISSION  
TITLE 20 — TRADE

CHAPTER 20 02 — TRADE POLICY (*cont'd*)

20 02 01 (*cont'd*)

*Studies, evaluations and impact assessments in relation to trade agreements and policies*

Actions to ensure that the Union's trade policy is underpinned by, and takes proper account of, *ex ante* and *ex post* evaluation results, including:

- impact assessments carried out in view of possible new legislative proposals and sustainable impact assessments carried out in support of ongoing negotiations, in order to analyse the potential economic, social and environmental benefits of trade agreements and, where necessary, to propose flanking measures to combat any negative outcomes for specific countries or sectors,
- evaluations of the policies and practices of the Directorate-General for Trade, to be carried out following its multiannual evaluation plan,
- expert, legal and economic studies related to ongoing negotiations and existing agreements, policy developments and trade disputes.

*Trade-related technical assistance, training and other capacity-building actions towards third countries*

Actions aiming to strengthen the capacity of third countries to participate in international, bilateral or bi-regional trade negotiations, to implement international trade agreements and to participate in the world trading system, including:

- projects involving training and capacity-building actions aimed at developing country officials and operators, mainly in the field of sanitary and phytosanitary measures, and with regard to equivalent environmental, animal welfare and social standards, thus enabling developing countries to export quality goods to the Union, which also contributes to a more level playing field,
- reimbursement of the expenses of participants in forums and conferences designed to build awareness and expertise in trade affairs among developing country nationals,
- management, operating, further development and promotion of the Export Helpdesk that provides business in partner countries with information on access to Union markets and facilitates efforts by business to take advantage of market access opportunities offered by the international trading system,
- trade-related technical assistance programmes arranged in the forum of the World Trade Organisation (WTO) and other multilateral organisations, in particular WTO Trust Funds, in the framework of the Doha Development Agenda.

*Market access activities supporting the implementation of the Union's market access strategy*

Actions in support of the Union's market access strategy, which aims at removing or lowering barriers to trade, identifying trade restrictions in third countries and, where appropriate, removing obstacles to trade. These actions may include:

- maintenance, operating and further development of the market access database available to economic operators via the Internet, listing trade barriers and other information affecting Union exports and Union exporters; purchase of the necessary information, data and documentation for this database,
- specific analysis of the various obstacles to trade in key markets, including analysis of the implementation by third countries of their obligations under international trade agreements, in connection with the preparation of negotiations,

**CHAPTER 20 02 — TRADE POLICY** (*cont'd*)**20 02 01** (*cont'd*)

- conferences, seminars and other information activities (e.g. production and distribution of studies, information packs, publications and leaflets) to inform businesses, Member States officials and other actors about trade barriers and trade policy instruments aimed at protecting the Union against unfair trading practices such as dumping or export subsidies,
- support to the European industry for the organisation of activities specifically geared towards market access issues.

*Activities supporting the implementation of existing rules and monitoring of trade obligations*

Actions to support the implementation of existing trade agreements and the enforcement of related systems that enable effective implementation of these agreements as well as the conduct of investigations and inspection visits to ensure third countries are respecting the rules, including:

- exchange of information, training, seminars and communication activities to support the implementation of existing Union legislation in the area of dual-use export controls,
- activities to facilitate investigations carried out in the context of the trade defence investigations with the aim of defending Union producers against unfair trade practices by third countries (anti-dumping, anti-subsidy and safeguards instruments) that can be harmful to the economy of the Union. In particular, activities will focus on the development, maintenance, operations and security of information technology systems supporting trade defence activities, the production of communications tools, the purchase of legal services in third countries and the conducting of expert studies,
- activities supporting the advisory groups monitoring the implementation of trade agreements entered into force. This includes financing of the members' and experts' travel expenses and accommodation,
- activities to ensure timely preparation and implementation of Domestic Advisory Group and Joint Consultative Committee tasks,
- activities supporting the acquisition of relevant data to form a basis for Domestic Advisory Group and Joint Consultative Committee discussions,
- activities with a view to promoting the Union's external trade policy through a process of structured dialogue with key opinion makers of civil society and stakeholders, including small and medium-sized enterprises, on external trade issues,
- activities related to the promotion and communication on trade agreements, both within the Union and in partner countries. This will primarily be implemented by means of production and dissemination of audio-visual, electronic and graphical support and printed publications, subscriptions to trade relevant media and databases, translation of communication materials into non-Union languages, media-oriented actions, including new media products,
- development, maintenance and operating of information systems in support of the operational activities in the 'Trade' policy area such as: Integrated Statistical Database (ISDB), Dual-Use e-system, Market Access Database, Export Helpdesk, Export Credit Database, SIGL and SIGL Wood systems, Civil Society platform and tools for monitoring and supporting trade agreements.

*Legal and other expert assistance*

Actions to ensure that the Union's trading partners effectively adhere to and comply with obligations arising under the WTO and other multilateral and bilateral agreements, including:

COMMISSION  
TITLE 20 — TRADE

**CHAPTER 20 02 — TRADE POLICY** (*cont'd*)

**20 02 01** (*cont'd*)

- expert studies, including inspection visits, as well as specific investigations and seminars on implementation by third countries of their obligations under international trade agreements,
- legal expertise, especially on questions of foreign law, required to facilitate the prosecution by the Union of its positions in WTO dispute-settlement cases, other expert studies necessary for the preparation, management and follow-up to WTO dispute settlement cases,
- arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union.

*Investment dispute resolution systems as established by international agreements*

The following expenditure is to support:

- standing costs for the operation of Investment Court Systems (First Tribunal and Appeal Instance) arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union,
- arbitration costs, legal expertise and fees incurred by the Union as party to disputes brought by investors under such international agreements,
- payment of a final award or of an award settlement paid to an investor in the context of such international agreements.

*Activities supporting trade policy*

This appropriation is also intended to cover general expenditure on translations, press events, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, such as the maintenance of the Directorate-General for Trade and Trade Commissioner's Internet site or the development and implementation of supporting information systems and tools.

Any revenue in the context of the management by the Union of the financial responsibilities linked to investor-state dispute settlement may give rise to the provision of additional appropriations in accordance with Article 21(4) of the Financial Regulation.

Part of this appropriation is intended to cover a comprehensive approach to communications to engage the general public and all stakeholders and maximise transparency with regard to the activities of the Directorate-General for Trade, especially with regard to the Transatlantic Trade and Investment Partnership (TTIP). This will include engagement and dialogue events, such as press or stakeholder events, publishing of information, translations, consultations and follow-up and publications directly linked to the achievement of the objective of the activities coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, such as maintenance of DG TRADE's and the Trade Commissioner's websites. Activities to engage the public and all stakeholders are crucial to a transparent, successful and comprehensive trade policy.

*Remarks*

This appropriation is intended to support multilateral programmes and initiatives in the field of trade-related assistance to strengthen the capacity of developing countries to participate effectively in the multilateral trading system and regional trading arrangements and to improve their trade performance.

Initiatives and programmes to be funded under this appropriation will support the following actions:

*Assistance for trade policy, participation in negotiations and implementation of trade and investment agreements and other trade-related initiatives*

Actions to strengthen the capacity of developing countries to formulate their trade policy and to strengthen the institutions involved in trade policy, including comprehensive and updated trade reviews and assistance in integrating trade into their respective policies for economic growth and development.

Actions to strengthen the capacity of developing countries to participate effectively in trade and investment negotiations, to implement trade and investment agreements and other trade-related initiatives, also to undertake follow-up actions, including on aspects of trade and sustainable development in its labour and environmental perspectives.

Research to advise policymakers how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and to promote an enabling environment for producers' access to world markets.

COMMISSION  
TITLE 20 — TRADE

**CHAPTER 20 02 — TRADE POLICY** (*cont'd*)

**20 02 03** (*cont'd*)

This assistance is primarily targeted at the public sector, but could also include initiatives in support of responsible business conduct and fair and ethical trade.

*Trade development*

Actions to reduce supply-side constraints which impact directly on the ability of developing countries to exploit their international trading potential, including, in particular, private-sector development.

This appropriation complements the Union's geographical programmes and should only cover multilateral initiatives and programmes that offer real added value to the Union's geographical programmes.

The Commission will provide an annual report on implementation and results obtained and on the main outcomes and effects of aid for trade assistance. The Commission will provide information on a total figure for all aid for trade finance coming from within the general budget of the Union, and a total figure for aid for trade coming from within all 'trade-related assistance' provided.

*Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

The project entails the following activities:

(1) reviewing existing gender chapters in free trade agreements and their effectiveness; (2) designing a questionnaire to capture information on the impact of trade agreements and the barriers for women-owned/led firms to trade; (3) training interviewers in the selected Member States and partner countries; (4) conducting interviews and related data quality control; (5) compiling a database; (6) drafting a report summarising the main findings; (7) drafting a model chapter on gender in free trade agreements.

**CHAPTER 20 02 — TRADE POLICY** (*cont'd*)**20 02 77** (*cont'd*)20 02 77 02 (*cont'd*)

The survey will capture variables on women ownership, women in management and female employment in exporting firms. It will be representative at Union level by firm size and export sector, with interviews across all Member States and in selected third countries (to be defined in consultation with DG Trade).

The survey will capture trade barriers with all current trading partners of firms with additional questions on specific trade agreements that have recently been concluded or are in the process of negotiation or renegotiation. The list of such agreements for which more detailed information will be captured will be defined in consultation with DG Trade.

The survey will cover regulatory and procedural trade barriers, existing information gaps as well as the firms' recommendations for improvements. These will be captured by product and partner country and can as such be attributed to specific free trade agreements and, depending on the type of issue reported, to specific provisions therein.

The data collected will be novel and unique. This pilot project reflects strong demand from trade negotiators (including at the World Trade Organisation), who would like to better include the gender dimension in trade policy-making but lack the data and evidence base to do so.

*Legal basis*

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external personnel at headquarters is limited to EUR 7 549 714. This estimate is based on a provisional annual unit cost per man-year of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to the external personnel financed under this item,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in delegations of external personnel remunerated from the appropriations entered against this item,

(cont'd)

## 21 01 04 (cont'd)

## 21 01 04 01 (cont'd)

- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 21 02.

*Remarks*

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency incurred as a result of the implementation of the international dimension of higher education of the 'Erasmus+' programme (Heading 4) entrusted to the Agency, under Chapter 21 02. The mandate of the Agency includes managing the outstanding actions from the 2007-2013 programming period for the Youth, Tempus and Erasmus Mundus programmes in which DCI beneficiaries are involved.

The Agency will also receive an annual contribution to be financed from Article 21 02 09 appropriations. This will allow the continuation of the programme Intra-ACP Mobility aiming to facilitate the student mobility in Africa, which was financed until 2013 through the 10th European Development Fund.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

The establishment plan of the Agency is set out in Annex 'Staff' to this Section.

*Remarks*

The primary objective of the Union's development policy is poverty reduction, as laid down in the Treaty. The European Consensus on Development provides the general policy framework, guidance and the focus to direct implementation of Regulation (EU) No 233/2014.

These appropriations are intended to cover activities concerning the pursuit of poverty reduction, sustainable economic, social and environmental development and consolidating and supporting democracy, the rule of law, good governance, human rights and the relevant principles of international law, including those reflected in the Millennium Development Goals and in the emerging post-2015 international development framework. Synergies with other Union external instruments will be sought where appropriate, without any loss of focus on the above basic objectives.

In principle, 100 % of expenditure in the geographic programmes and at least 95 % of expenditure in the thematic programmes and 90 % of expenditure in the pan-African programme must conform to the OECD/DAC criteria for Official Development Assistance.

**CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)**

As a general rule, at least 20 % of appropriations should be used for basic social services and secondary education. Moreover, the DCI should contribute to the objective of addressing at least 20 % of the Union budget to a low carbon and climate-resilient society.

*Remarks*

The purpose of development cooperation under this article is primarily its contribution to support the promotion of democracy, good governance, equality, respect for human rights and for the rule of law, and fostering sustainable development and economic integration, as well as to achieving the 2030 Agenda for Sustainable Development.

The Commission must continue to report annually on the benchmark used in the past for the assistance to developing countries that is to be allocated to social infrastructure and services, recognising that the Union contribution must be seen as part of overall donor support for the social sectors and that a degree of flexibility must be the norm. Moreover, the Commission will endeavour to ensure that a benchmark of 20 % of its assistance under the DCI will be dedicated to basic social services, with a focus on health and education, and to secondary education, this being an average across all geographical areas, and recognising that here too a degree of flexibility must be the norm, for example where exceptional assistance is involved. This appropriation is intended to cover cooperation schemes in developing countries, territories and regions in Latin America in order to:

- contribute to the achievement of the 2030 Agenda for Sustainable Development in the region,
- support trade union, non-governmental organisations and local initiatives to monitor the impact to the investments on the national economy, particularly respect for labour, environmental, social and human rights standards,
- support gender equality, through supporting actions to combat harmful traditional practices such as child marriage, and women empowerment,
- foster the development of civil society,
- combat poverty and social exclusion and promote social cohesion,
- contribute to improve social standards with focus on education, including education and vocational training for employment, and health, and to the improvement of social protection schemes,
- promote a more favourable climate for economic expansion and enhanced productive sector, encourage the transfer of know-how, promote contact and collaboration between business players bi-regionally,
- promote private sector development, incl. a SME-friendly business climate via i.e. legal property rights, reducing unnecessary administrative burden, improving access to credit, improving associations of small and medium-sized enterprises,

COMMISSION

TITLE 21 — INTERNATIONAL COOPERATION AND DEVELOPMENT

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 01 (*cont'd*)

- support efforts towards food security and combat malnutrition,
- support regional integration; in Central America, foster the region's development via enhanced benefits derived from the EU-Central America association agreement,
- promote the sustainable use of natural resources, including water, and the combating of climate change (mitigation and adaptation),
- support efforts for improving good governance and help consolidate democracy, human rights and the rule of law,
- promote policy reform particularly in the area of justice and security and support related actions to enhance development of countries and regions.

Where assistance is delivered through budget support, the Commission will support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency.

Appropriations under this article are subject to evaluations that will include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations will be used in the formulation of subsequent measures financed with these appropriations.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union trust funds.

This appropriation is intended to cover the financing of development schemes in Asian developing countries, in particular in countries where the poorest and most fragile live, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. Emphasis is placed on irregular migration, economic and social governance and development, improving the human rights situation, democratisation, gender equality, youth, education, vocational training, lifelong learning, academic and cultural exchange, scientific and technological exchange, the environment, regional cooperation, trade, disaster prevention and reconstruction measures, as well as the promotion of sustainable energy and information and communications technology.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action. Appropriate consideration will be given to the areas described below, reflecting jointly-agreed strategies, partnerships, cooperation and trade agreements. Priorities will be established in accordance with President Juncker's policy priorities, the Sustainable Development Goals, building on the European Consensus on Development, the Global Strategy for the European Union's Foreign and Security Policy and the subsequent conclusions of the Council.

This appropriation is intended to include actions related to inclusive and sustainable growth for human development. Sectors that may be addressed include:

- migration,
- gender equality and youth,
- social protection and jobs, and universal access to health and education,
- business environment, regional integration and world markets,
- sustainable agriculture, nutrition and energy,
- climate change and environment,
- encouraging social cohesion, in particular social inclusion, fair income distribution, decent work and equity,
- establishing inclusive partnerships around trade, investment, aid, migration, civil registration, research, innovation and technology,
- supporting an active and organised civil society for development and fostering public private partnerships,

- supporting climate change mitigation and adaptation, the promotion of sustainable consumption and production as well as investments in clean technologies, sustainable energies, transport, sustainable agriculture and fisheries, the protection of and enhancement of biodiversity and ecosystem services, including water, sanitation and forests, and decent job including creation for young people and women, in the green economy,
- encouraging greater regional integration and cooperation in a result-oriented way through support to different processes of regional integration and dialogue,
- contributing to preventing and responding to health risks, including those originating at the interface between animals, humans and their various environments,
- supporting disaster preparedness and post-disaster long-term recovery, including in the field of food and nutrition security and assistance to uprooted people,
- strengthening the capacity to provide universal access to basic social services particularly in health and education.

This appropriation will address actions related to:

- democracy, human rights including children's and women's rights and the rule of law,
- gender equality and the empowerment of women and girls,
- public sector management,
- tax policy and administration,
- corruption and transparency,
- civil society and local authorities,
- building and strengthening legitimate, effective and accountable public institutions and bodies, through promotion of institutional reforms (including on good governance and anti-corruption, public financial management, taxation and public administration reform) and legislative, administrative and regulatory reforms in line with international standards, in particular in fragile States and countries in conflict and post-conflict situations,
- in the context of the security and development nexus, fighting against corruption and organised crime, production, consumption and trafficking of drugs and against other forms of trafficking, and supporting efficient border management and cross-border cooperation and improving civil registration.

The purpose of development cooperation under this heading is its contribution to achieving the Sustainable Development Goals without losing sight of the unfinished Millennium Development Goals as well as the promotion of democracy, good governance, respect for human rights and for the rule of law, fostering sustainable development and economic integration and promoting conflict prevention, conflict resolution and reconciliation.

*Remarks*

This appropriation is intended to cover help to eradicate poverty and contribute to the creation of conditions for sustainable and inclusive economic and social development, social cohesion, democratisation and the improvement of people's lives. Appropriate consideration will be given to the areas described below, reflecting jointly-agreed strategies, partnerships, cooperation and trade agreements. Priorities will be established in accordance with President Juncker's policy priorities, the Sustainable Development Goals, building on the European Consensus on Development, the Global Strategy for the European Union's Foreign and Security Policy and the subsequent conclusions of the Council.

The bilateral programmes will focus on promoting sustainable growth, integrated rural development, income-generating opportunities and jobs creation in rural areas, and fostering food security; reforms in the area of rule of law, promoting democratisation and human rights, transparency and anti-corruption measures, and supporting public finance management; the establishment of an effective system of education focused on quality secondary and vocational education matching job market needs; support to the health sector through improved access to equitable and quality health services and support to economic investments.

Regional programmes aim at supporting a broad-based process of dialogue and collaboration between Central Asian countries, notably in areas sensitive for overall security and stability.

The programmes will be implemented with a steady focus on those most in need. Cross-cutting issues, such as environment and climate change, disaster risk reduction, local governance, anti-corruption, human rights, gender equality, and youth will be mainstreamed in all Union programmes.

When and where governance reform efforts of a meaningful nature and genuine democratisation processes exist, providing support for them will be a priority. Similarly, allocations to border management and anti-drugs programmes will depend on the outlook for achieving significant results. Cooperation with civil society will be a major element of cooperation. Increasingly, collaboration with Member States' agencies to implement these programmes will be considered as well as blending with resources from international financing institutions.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. *Remarks*

This appropriation is intended to cover Union operations in the framework of the Afghanistan reconstruction process.

Appropriate consideration will be given to the areas described below, reflecting jointly-agreed strategies, partnerships, cooperation and trade agreements. Priorities will be established in accordance with President Juncker's policy priorities, the Sustainable Development Goals, building on the European Consensus on Development, the Global Strategy for the European Union's Foreign and Security Policy and the subsequent conclusions of the Council.

This appropriation is intended to support basic social services and economic development in Afghanistan.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

This appropriation is also intended to support the Union contribution to the processes for the return of Afghan refugees and displaced persons to their country and regions of origin in accordance with the commitments entered into by the European Community at the Tokyo Conference in January 2002.

This appropriation is also intended to finance activities of women's organisations which have worked for a long time for Afghan women's rights.

The Union should increase its financial assistance in Afghanistan for areas such as health (construction and renovation of hospitals, prevention of child mortality, strengthening of health systems, eradicating polio in what is one of the last 'endemic' countries) and small and medium-sized infrastructure projects (repairing of road network, embankments, etc.), as well as effectively implementing job security and food security schemes.

This appropriation is intended to cover assistance to the Government of South Africa in reducing unemployment, in transforming the education, training and innovation system so that it can contribute to improved economic performance of the country (60 % of learners drop out before taking their end of school exam, and only 12 % of learners receive a qualification for entry to university), and to assist South Africa in fulfilling its developmental and transformative role, including improving service delivery.

COMMISSION

TITLE 21 — INTERNATIONAL COOPERATION AND DEVELOPMENT

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 06 (*cont'd*)

South Africa's growth trajectory has not absorbed labour at the required scale, and the lack of access to the labour market and to wage income has hampered efforts to reduce poverty, unemployment and inequality. The unemployment rate stands at approximately 27 % of the overall labour force, and at more than 50 % for the youth (15-24 years old). There were also 14 million people not in education employment or training (NEETs), which represents 39 % of the working age population. South Africa's mismatch between the demand for semi-skilled or skilled labour and the oversupply of unskilled or low-skilled workers is a key factor in the high unemployment. Moreover, lack of coordination in the planning and implementation of the South African National System of Innovation among various state authorities and the insufficient level of linkage between academia and research on the one hand and industry on the other are main impediments that prevent South Africa from addressing poverty reduction and inclusive growth. Inclusive growth is also hampered by dysfunctionality at local government level and municipalities' inability to assure stable and quality basic services, which are not a conducive environment for local economic development and job creation.

Part of this appropriation is expected to contribute to: (a) promoting employability in South Africa through improving relevant education opportunities, as well as employment and matching opportunities through enhancing skills development and placement assistance; (b) increasing access to technical and vocational education and training as well as its quality and relevance for the labour market; and (c) strengthening work integrated learning.

Part of this appropriation will be used to build on lessons learnt from previous experiences to extract greater social and economic benefits from science, technology and innovation for all South Africans.

Part of this appropriation is also expected to contribute to improving local authorities' capacity to provide access to essential services and thereby to address poverty and inequality through enhanced public finance management, governance, public participation and innovation. The support could focus on the use of innovation as a tool to enhance capacity to deliver basic services.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union trust funds.

## CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)

## 21 02 07 (cont'd)

This appropriation is intended to cover poverty reduction and fostering sustainable development as a component under the 'Global Public Goods and Challenges' programme. The objective of the programme is to support inclusive sustainable development by addressing the main global public goods and challenges in a flexible and cross-cutting manner. The main areas of action include environment and climate change, sustainable energy, human development (including health, education, gender, equality, identity, employment, skills, social protection, social inclusion, and economic-development-related aspects such as growth, jobs, trade and private-sector engagement), food and nutrition security, sustainable agriculture, and migration and asylum. This thematic programme will also enable a swift response to be made to unforeseen events and global crises affecting the poorest populations. By promoting synergies across the various sectors, the 'Global Public Goods and Challenges' programme will reduce fragmentation of Union development cooperation and increase coherence and complementarity with other Union programmes and instruments. At least 50 % of the funds, prior to the use of the markers based on OECD methodology (Rio markers), should serve for climate action and environment-related objectives.

## Remarks

This appropriation is intended to provide financial support to actions under the 'Environment and climate change subtheme', of the 'Global Public Goods and Challenges' programme.

It will be used in particular to finance initiatives in the following areas: climate change adaptation and mitigation and transition to climate resilient low-carbon societies in particular by supporting the implementation of the nationally determined contributions to climate action prepared by all Parties to the United Nations Framework Convention on Climate Change in view of the Paris Agreement; protection, enhancement and sustainable management of natural capital (e.g. biodiversity, ecosystem services, forests, land, water resources); transformation towards an inclusive green economy; integration of environment, climate change and disaster risk reduction in the Union's development cooperation programmes; international governance of environment and climate. Attention will be paid to relevant governance issues and support be given to the pursuit of relevant global targets, such as sustainability goals set within a post-2015 development framework. This appropriation will also be used to encourage public-private partnerships to fight climate change and support green energy projects in the infrastructure, telecommunications and other sectors.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union trust funds.

## Remarks

This appropriation is intended to cover provision of financial support to actions under the 'Sustainable energy subtheme' of the 'Global Public Goods and Challenges' programme.

It will be used for promoting access to reliable, secure, affordable, climate-friendly and sustainable energy services as a key driver for poverty eradication and inclusive growth and development with a special emphasis on the use of local and regional renewable energy sources and on ensuring access for poor people in remote regions. Investments and public-private partnerships to improve energy efficiency in generation, transmission, distribution and smart use of energy including through supporting implementation of innovative projects in poor urban and semi-urban communities will be also supported. Likewise, actions for building strategic alliances to achieve sustainable energy goals through facilitating dialogue and coordination with key players and other donors are envisaged.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. *Remarks*

This appropriation is intended to provide financial support to actions in developing countries under the 'Human development subtheme', covering health, education, culture, gender issues and other aspects of human development, of the 'Global Public Goods and Challenges' programme. It should primarily benefit the poorest sections of the populations in the countries it covers.

The health component will support the implementation of Sustainable Development Goal 3 (Ensure healthy lives and promote well-being for all at all ages), namely universal access to good quality essential health services, child and maternal health, sexual and reproductive health and rights, access to family planning, eradicating polio, protection against and treatment of HIV/AIDS, tuberculosis, malaria and other poverty-related and neglected diseases, and access to psychological support for victims of violence.

Equal access and quality of education will be supported as part of the implementation of Sustainable Development Goal 4 (Ensure inclusive and equitable quality education and promote lifelong learning opportunity for all), including for migrants, women and girls, and people from countries suffering from protracted crises, with an emphasis on countries furthest from achieving global targets.

Following the Commission's Joint Communication to the European Parliament and the Council 'Towards an EU strategy on international cultural relations' (JOIN(2016) 29 final), culture will be supported as engine for development and catalyst for social inclusion, societal resilience and pluralism, peaceful coexistence and mutual respect.

Gender equality issues will be supported to back achievement of Sustainable Development Goal 5 (Achieve gender equality and empower all women and girls).

Measures aimed to help governments to enhance mobilisation and effective use of domestic revenue for sustainable human development will also be supported.

In relation to gender equality, programmes to promote women's and girls' economic and social empowerment will be supported. Addressing sexual and gender-based violence and supporting victims will also be priorities. Helping to eradicate gender-biased sex selection practices will also be among the objectives.

The appropriation can also be used for activities in support of children and youth, especially those to ensure full enjoyment of rights and to empower youth more generally, focusing on young girls in particular; health and education; non-discrimination; employment, skills, social protection and social inclusion; growth, jobs and private sector engagement and culture.

*Remarks*

This appropriation is intended to provide financial support to actions under the 'Food and nutrition security and sustainable agriculture subtheme', of the 'Global Public Goods and Challenges' programme.

In the area of food and nutrition security and sustainable agriculture, the overall objective is to improve food security for the poorest and more vulnerable, to help eradicate poverty and hunger for current and future generations and to better address under-nutrition thereby reducing child mortality. This objective will be pursued in line with the Union policy will focus on enhancing the incomes of smallholder farmers, the resilience of vulnerable communities and on helping partner countries reducing the number of stunted children by 7 million by 2025. As food security is a global challenge, the 'Global Public Goods and Challenges' programme will focus on activities and approaches to address global public goods and challenges that provide strong multiplier to the agricultural, livestock and fisheries sector, the food and nutrition security situation of households, the rural economy and food systems, and the resilience of the most vulnerable households to shocks and stresses. This will complement and add value to the support provided through geographical programmes.

## CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)

21 02 07 (cont'd)

21 02 07 04 (cont'd)

The following three components are included in the theme:

- *Component 1: Generating and exchanging knowledge and fostering innovation* that will generate and apply new knowledge to the challenges of food and nutrition security mainly at international and continental levels. This component will work with existing global and regional initiatives, but also envisages new partnerships that are needed to ensure that knowledge generated by research is used by beneficiaries to improve their income and livelihoods,
- *Component 2: Strengthening and promoting governance and capacity at the global, continental, regional and national levels, for all relevant stakeholders.* This component will support international initiatives addressing food and nutrition security, including land, sustainable fisheries, and improve the effectiveness of dialogue on food and nutrition security issues. It will also foster a coordinated international effort to generate reliable, accessible and timely information and analytical capacity to support evidence-based policymaking and to strengthen and/or set up sustainable regional and national information systems for food security (ISFS) institutions. This component may also support capacity development initiatives of stakeholders such as civil society organisations, farmers' organisations and other inter-professional groups along the value chain,
- *Component 3: Supporting the poor and nutrition-insecure to react to crises and strengthen resilience.* This component will provide support to countries where there will not be bilateral programmes under geographical programming, to countries which suffer from the consequences from a major unforeseen crisis and/or shock, including natural and man-made disasters, epidemics and major food and nutrition crises in fragile and food crisis prone countries, this component will also support innovative approaches to strengthen prevention and to build resilience. Where relevant, interventions will be also designed in order to enhance synergies and complementarities between humanitarian and development interventions. Joint analysis of the situation performed by humanitarian and development stakeholders will be encouraged.

## CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)

21 02 07 (cont'd)

21 02 07 05 (cont'd)

In particular, the 'Global Public Goods and Challenges' programme in the area of migration and asylum aims to enhance the governance of migration in and by developing countries, placing particular attention on maximising the positive impact and minimising the negative impact of migration and mobility on development in low- and middle-income countries of origin and destination. In this sense, the programme will support the implementation of the migration related Sustainable Development Goals, including in particular target 10.7 on facilitating orderly, safe regular and responsible migration and mobility. Initiatives launched will contribute to the implementation of Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 13 May 2015 entitled 'A European Agenda on Migration' (COM(2015) 240 final), including notably the priorities set out in Communication from the Commission to the European Parliament, the European Council, the Council and the European Investment Bank of 7 June 2016 on establishing a new Partnership Framework with third countries under the European Agenda on Migration (COM(2016) 385 final). Protection and promotion of the human rights of migrants, including access to services such as health, and support for the Union commitments to ensure policy coherence for development on migration will be pursued as cross-cutting objectives. Activities funded under this budget line must be in line with the primary objective of the Union's development policy, which is poverty reduction.

The programme will focus on initiatives at global level as well as multi-regional level (e.g. to support cooperation along south-south or south-north migratory routes). A limited number of national projects to support new cooperation activities with priority countries for the Union's external migration policy may also be launched.

**21 02 08 Financing initiatives in the area of development by or for civil society organisations and local authorities***Remarks*

This appropriation is intended to support development initiatives in developing countries carried out by or for civil society organisations and local authorities originating in the Union and partner countries, as well as to strengthen their capacity to contribute to the policymaking process and to ensure accountability and transparency.

Particular attention will be paid to supporting civil society and local authorities and to promoting dialogue, an enabling environment for citizens' participation, with due regard for the gender perspective and women's empowerment, reconciliation and institution-building, including at local and regional level.

*Remarks*

This appropriation is intended to cover support for initiatives to strengthen civil society organisations in partner countries and in the Union and beneficiaries eligible under Regulation (EU) No 231/2014 of the European Parliament and of the Council of 11 March 2014 establishing an Instrument for Pre-accession Assistance (IPA II) (OJ L 77, 15.3.2014, p. 11) when referring to development education and awareness raising (DEAR) activities. The initiatives to be financed will be primarily carried out by civil society organisations. Where appropriate, in order to ensure their effectiveness, initiatives may be carried out by other actors for the benefit of the civil society organisations, so as to contribute to:

- an inclusive and empowered society, including from a gender equality perspective, in partner countries through strengthened civil society organisations,
- an increased capacity of European and southern civil society networks, platforms and alliances to ensure a substantive and continued policy dialogue in the field of development and to promote democratic governance and empowerment of women,
- an increased level of awareness of Union citizens regarding development issues and mobilising active public support for poverty reduction and sustainable development strategies in partner countries.

Possible activities to be supported by this programme:

- interventions in partner countries which support vulnerable and marginalised groups by providing basic services delivered through civil society organisations,
- capacity development of the targeted actors complementary to support granted in the framework of the national programme, actions aiming at:
  - creating enabling environment for citizen participation and civil society action and the capacity of civil society organisations to participate effectively in policy formulation and in the monitoring of policy implementation processes,
  - facilitating an improved dialogue and better interaction between civil society organisations, local authorities, the State and other development actors in the context of development,
- coordination, capacity development and institutional strengthening of civil society networks, within their organisations and between different types of stakeholders active in the European public debate on development as well as coordination, capacity development and institutional strengthening of southern networks of civil society organisations and umbrella organisations,
- raising public awareness of development issues, empowering people to become active and responsible citizens and promoting formal and informal education for development in the Union and in candidate countries and potential candidates, to anchor development policy in European societies, to mobilise greater public support for action against poverty and for more equitable relations between developed and developing countries, to raise awareness of the issues and difficulties facing developing countries and their peoples, and to promote the right to a process of development in which all human rights and fundamental freedoms can be fully realised and the social dimension of globalisation.

TITLE 21 — INTERNATIONAL COOPERATION AND DEVELOPMENT

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 09 (*cont'd*)*Remarks*

This appropriation is intended to cover support to the implementation of the Joint Africa-EU Strategy (JAES). In particular, the Pan-African programme will be used to provide specific support to development cooperation activities of cross-regional, continental and trans-continental nature, as well as relevant JAES initiatives in the global arena. The Pan-African programme will work in close cooperation with other instruments, notably the European Neighbourhood Instrument established by Regulation (EU) No 232/2014, the European Development Fund and the thematic programmes under the Development Cooperation Instrument established by Regulation (EU) No 233/2014, and will concentrate on specific initiatives agreed in the framework of JAES, ensuring the necessary coherence and synergy and preventing duplications and overlaps.

This will be used in the following main priority development areas, subject to their possible update in the multiannual indicative programme 2018-2020 following the outcomes of the 5th Africa-EU summit held in Abidjan in November 2017:

- development of peace, security, democratic governance and human rights, with a support to the African governance architecture through cooperation with the Commission of the African Union and other related institutions such as the Pan-African Parliament, the African Court for People and Human Rights; civil society organisations,
- support to regional integration at the continental level, including harmonisation of policies, standards and regulations, and capacity building to promote regional integration, trade and investments,
- on migration, mobility and employment, targeting improvements in the areas of remittances, mobility and labour migration, fight against trafficking in human beings, irregular migration and international protection,
- good stewardship of natural resources (this includes areas such environment and climate change, raw materials and agriculture) and development-oriented use of the wealth they can bring,
- development of a knowledge-based and skilled-based society, in order to develop competitiveness and sustain growth, through support to higher education and research at continental level, by providing support to the African Union flagship initiatives in these areas, and supporting the improvement and availability of accurate statistical data.

Support will also be provided in order to develop the Africa-EU partnership, to tackle global issues in the worldwide arena, and to reinforce civil society for specific action at continental level.

Remarks

This appropriation is intended to cover the technical and the financial assistance provided under this external instrument in order to implement the international dimension of higher education of the 'Erasmus+' programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

2015 was a strategic milestone for global governance, poverty eradication and sustainable development. It saw a series of landmark international summits and conferences over the course of the year (the Sendai Framework for Disaster Risk Reduction 2015-2030, the Addis Ababa Action Agenda, the 2030 Agenda for Sustainable Development and the COP 21 Paris Agreement under the United Nations Framework Convention on Climate Change) which have collectively recast the way the international community, including the Union, will work to achieve sustainable development and poverty eradication for many years.

The Third United Nations Conference on Housing and Sustainable Urban Development (known as Habitat III, held in Quito, Ecuador, in October 2016) was among the first UN Conferences to take place following adoption of the 2030 Agenda.

**CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)****21 02 77** (cont'd)

21 02 77 28 (cont'd)

It adopted a global 'New Urban Agenda', intended to guide sustainable urban development for the next 20 years, and thus gave considerable impetus to the implementation of the 2030 Agenda, in particular Sustainable Development Goal (SDG) 11 but also a number of other goals and associated targets with a preminent urban dimension, and the COP 21 decisions.

The New Urban Agenda makes concrete suggestions on how to address the challenges raised by urbanisation and urban demography and turn them into opportunities that will support sustainable development in its economic, social and environmental dimensions.

The aim is to focus on a major challenge encountered by cities in developing countries: urban governance. More specifically the pilot project will make it possible to use expertise of the cities in the Union in related fields for capacity building purposes in order to address financial, legal and urban planning components in an integrated manner.

It will seek to:

- provide concrete examples of financial, legal and urban planning shortcomings in selected developing countries and cities and identify gaps and needs,
- facilitate cooperation between cities in developing countries and cities in the Union with sound experience in urban development and provide capacity building activities in different areas, such as urban mobility, public spaces and housing, with an emphasis on establishing an adequate framework to use innovative means of funding urban development (such as Union blending),
- be based on these experiences, deliver recommendations on how implementation of the urban dimension of the SDGs and the New Urban Agenda can be operationalised in developing countries and their cities while using Union experience.

The project will build on the lessons of twinning cities in the Union and in developing countries. It will use the expertise of city platforms and networks in the Union that develop pragmatic solutions for integrated and sustainable urban development.

The pilot project will provide the Commission with the necessary information for the next programming period.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action will fund, and work with, both private and non-governmental organisations which develop sustainable programmes to support micro, small and medium-sized enterprises (MSMEs) in developing countries in the following ways:

- national and regional entrepreneurship competitions,
- access to capital and appropriate financial services in different ways, ranging from capacity strengthening of financial intermediaries to the provision of capital,
- use of information and communication technologies (ICTs) as a tool for achieving financial inclusion of the poor,
- legal and financial support for businesses moving from informality into the formal private sector,
- programmes for supporting youth start-ups,
- promoting female entrepreneurship,
- access to equity loans, credits and micro-credits,
- business training for potential entrepreneurs,
- financing for social businesses.

MSMEs, which form the backbone of all market economies, face much heavier regulatory burdens in developing countries than within the Union, and most of them resort to operating in the informal economy, which is wracked with volatility and where they are denied legal protection, labour rights and access to finance.

Concerted action in this area has the potential to create hundreds of thousands of new jobs for local communities in developing countries, creating a vibrant climate where private initiatives can further flourish, expand and generate wealth.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Existing research and development (R&D) funding mechanisms dedicated to neglected tropical diseases (NTDs) tend to take a siloed approach: gaps persist between the different phases of the R&D cycle and linkages with fringe issues such as Water, Sanitation and Hygiene (WASH) and education programmes are not addressed as part of a multi-sector approach. Likewise, the need for equally important incremental research, which can help to significantly improve the acceptability of treatments and diagnoses to populations affected by NTDs, tends to be overlooked.

With the objective of addressing some of the R&D gaps for NTDs, this preparatory action will contribute to or cofund an alternative model that relies on an innovative and coordinated approach to address persistent R&D gaps stemming from market failures. The model will identify a specific part of the gap in R&D for NTDs that disproportionately affect developing countries, and will provide crucial elements for the development of high-quality, accessible, affordable and suitable health solutions.

This action will build on the work carried out under previous preparatory actions and pilot projects on global health research and innovation and support efforts to address identified and recognised gaps in line with the WHO process in connection with the report available at [http://www.who.int/phi/cewg\\_report/en/](http://www.who.int/phi/cewg_report/en/) and with the list of demonstration projects identified and preselected by the Global Technical Consultative Meeting on Health R & D Demonstration Projects.

In doing so, while seeking to improve acceptability, this action will contribute to meeting at least one of the following objectives:

- recommending effective and efficient mechanisms for coordination with other current initiatives,
- proposing innovative ways of decoupling the price of final products from R&D costs,

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

In view of the lack of doctors in Togo, people in rural communities are left to their fate and, for almost as long as they live, will never have an opportunity to see a doctor. Aimes-Afrique seeks to eliminate what are real shortcomings in Togo's health system. Accordingly, Aimes-Afrique members who are doctors have decided to do what they have done in the past, in so far as has been possible with the means at their disposal, and provide free medical care in the countryside in all five regions of Togo (Maritime, Plateaux, Centrale, Kara and Savannes).

Humanitarian operations are to be carried out in all five regions of the country, but are organised on a region-specific basis. Each region contains health districts in which healthcare personnel from the various rural clinics will be given initial and continuing training. Examinations will be carried out locally in villages. Operations will be performed in suitable facilities as near as possible to the communities concerned.

The objective is to make hospital care accessible to poor and vulnerable rural communities by providing free medical and surgical treatment and ensuring that local healthcare personnel are well trained.

Free medical and surgical treatment is intended to benefit all people in all regions of Togo, regardless of age, gender or religion.

The amount specified breaks down as follows:

- investment in medical equipment,

- purchase of ambulances, including transport,
- purchase of all-wheel-drive buses and a lorry, including transport,
- purchase of medical tents and their contents, including transport,
- missions involving doctors: operating and consumption costs.

*Geographical aspect*

Doctors will be on mission in all five regions of Togo (Maritime, Plateaux, Centrale, Kara and Savannes), i.e. across the entire country, and will be working with local healthcare personnel in rural villages. That is why medical tents are also needed. Unless other arrangements are possible, operations will be performed in regional hospitals in provincial capitals. The project will therefore complement the Union's work in provincial capitals across the country.

This involves sending physicians on assignment in rural regions of Togo, making it possible for people in communities that currently have no access to any qualified health care to be treated by specialists. Aimes-Afrique sets up teams comprising at least seven highly qualified Togolese physicians with different specialisms who, each year, carry out a 14-day assignment in each of Togo's five regions, examining and, as far as possible, immediately treating some 5 000 people free of charge during each mission and operating on about 500 patients. In total, accordingly, this benefits at least 25 000 people in each region. Action PiT-Togohilfe e.V. is doing everything it can to back the project with funding and donations in kind.

The Union, faced with mass migration, must commit to stopping such population movements at source in addition to strengthening control of its external borders.

This development is likely to be accentuated: demographers estimate that Africa could have 800 million more inhabitants within 30 years.

21 02 77 (cont'd)

21 02 77 32 (cont'd)

The European Fund for Sustainable Development established by Regulation (EU) 2017/1601 of the European Parliament and of the Council of 26 September 2017 establishing the European Fund for Sustainable Development (EFSD), the EFSD Guarantee and the EFSD Guarantee Fund (OJ L 249, 27.9.2017, p. 1) is one of the financial instruments for a pro-active development aid policy. It remains essential to make support manpower available to provide services in priority areas, in particular schooling, health care and technical assistance.

Accordingly, the Union could encourage young Europeans to become volunteers for periods of 6 months to a year; they would be hosted by public-sector development aid bodies, NGOs and approved civic-service structures. The Union budget contribution would take the form of grants to cover travel and accommodation expenses. The EU Aid Volunteers scheme can serve as a model, the two differences being that assignments will focus on development and the target audience age range is 18 to 26.

To best cater for funding needs for this preparatory action, the focus should be on Heading 4, which is the heading most suited to the Development Cooperation Instrument reaching its objectives.

*Remarks*

This pilot project will create both innovative methodologies and technological tools to facilitate monitoring of the social impact of public services and international cooperation projects carried out by local authorities in Guatemala. It aims to:

- promote citizen participation, institutional transparency and gender mainstreaming as key elements for the identification and formulation of local initiatives,
- provide access for local authorities to the most suitable set of indicators and mechanisms for accessing data in order to measure the impact of the actions implemented in their territory,
- develop a reference framework with regard to the level of efficiency of development politics at local level,
- harmonise local initiatives and national strategic plans in accordance with the Commission's Multiannual Indicative Programme for Guatemala by standardising impact indicators.

This pilot project will foster cooperation between local authorities willing to work together towards the development of a methodology based on open data and big data. This will provide current data on the impact of initiatives at local level in Guatemala in line with national public strategies. Moreover, it will provide international donors, especially the Commission, with a reference framework on the efficiency of development cooperation policies at local level. Both indicators and mechanisms must take into account the specific characteristics of the country: multiculturalism, multiethnicity and multilingualism.

*Remarks*

This pilot project will make funding available for the network of partner NGOs in the EverGreen Agriculture Partnership that is implementing the action called 'Reversing Land Degradation in Africa by Scaling-up EverGreen Agriculture' financed through the Global Public Goods and Challenges programme under the Development and Cooperation Instrument (DCI). Integrating this pilot project into the activities of the DCI action above will have the advantage of avoiding the creation of a separate ad-hoc project structure and other related costs. The aim is to provide technical training, planning and tree seedlings to local groups in one or more of the eight targeted African countries, particularly to those communities with severely degraded land, empowering inhabitants to improve their living conditions. There should be transparent evaluation of success and the results should be monetarily measurable.

*Remarks*

The general objective will be to contribute to the development and consolidation of democracy and respect for human rights, in accordance with Union policies and guidelines and in close cooperation with civil society.

Key areas of activity will include:

- enhancing respect for and observance of human rights and fundamental freedoms, including women's rights, as proclaimed in the Universal Declaration of Human Rights and other international and regional human rights instruments, with a focus on freedom of expression, freedom of assembly and digital freedoms, and strengthening their protection, promotion and monitoring, mainly through support to relevant civil society organisations, human rights defenders, and victims of repression and abuse,

**CHAPTER 21 04 — EUROPEAN INSTRUMENT FOR DEMOCRACY AND HUMAN RIGHTS** (cont'd)**21 04 01** (cont'd)

- supporting and consolidating democratic reforms in third countries except European Union Electoral Observation Missions, by enhancing participatory and representative democracy, empowerment of women, strengthening the overall democratic cycle, and improving the reliability of electoral processes.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union trust funds.

*Remarks*

This appropriation is intended to cover payments in respect of commitments remaining to be settled under the European Instrument for Democracy and Human Rights in the 2007-2013 period.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to cover the assistance in addressing global and trans-regional threats and emerging threats, defined in Article 5 of Regulation (EU) No 230/2014 establishing an instrument contributing to stability and peace.

It is intended to cover actions aiming to help safeguard countries and populations against risks either of an intentional, accidental or natural origin. This may, inter alia, include:

- strengthening the capacity of the competent civilian authorities involved in the development and enforcement of effective control of the trafficking in chemical, biological, radiological and nuclear materials or agents (including the equipment for their production, or delivery or effective border controls), including through the installation of modern logistical evaluation and control equipment. The actions relate to natural and industrial disasters as well as criminal activities,

**CHAPTER 21 05 — INSTRUMENT CONTRIBUTING TO STABILITY AND PEACE (ICSP) — GLOBAL AND TRANS-REGIONAL THREATS AND EMERGING THREATS** (*cont'd*)**21 05 01** (*cont'd*)

- the development of the legal framework and institutional capacities for the establishment and enforcement of effective export controls on dual-use goods, including measures of regional cooperation,
- the development of effective civilian disaster preparedness, emergency planning, crisis response, and capabilities for clean-up measures in relation to possible major environmental incidents in this field,
- the promotion of civilian research activities as an alternative to defence-related research, and support for the retraining and alternative employment of scientists and engineers having formerly been employed in weapons-related areas,
- support for measures to enhance safety practice related to civilian facilities where sensitive chemical, biological, radiological or nuclear materials or agents are stored, or are handled in the context of civilian research programmes,
- support, within the framework of Union cooperation policies and their objectives, for the establishment of civil infrastructure and relevant civilian studies necessary for the dismantlement, remediation or conversion of weapons-related facilities and sites where these are declared as no longer belonging to a defence programme,

Other measures in the field of global and trans-regional threats will cover:

- strengthening the capacity of law enforcement and judicial and civil authorities involved in the fight against terrorism,
- countering radicalisation, violent extremism and organised crime, including illicit trafficking in human beings, drugs, firearms and explosive materials, cybercrime, falsified medicine and in the effective control of illegal trade and transit; exchanging expertise and best practices on countering radicalisation and violent extremism with partner countries in regions where extremism is on the rise, such as South Asia; also addressing global and trans-regional effects of climate change with a potentially destabilising impact, and including the promotion of biosafety and biosecurity of facilities handling dangerous microbes,
- support for measures to address threats to international transport, and critical infrastructure, including passenger and freight traffic, energy operations and energy distribution, electronic information and communication networks,
- ensuring an adequate response to major threats to public health, such as pandemics with a potential transnational impact.

Such measures may be adopted under this instrument in the context of stable conditions, where they aim to address specific global and trans-regional threats having a destabilising effect, and only to the extent that an adequate and effective response cannot be provided under related Union instruments for external assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union trust funds.

Remarks

This appropriation is intended to cover the financing of the promotion of an effective nuclear safety and nuclear security culture at all levels, in particular through:

- continuous support for regulatory bodies, technical support organisations, and the reinforcement of the regulatory framework, notably concerning licensing activities in order to establish strong independent regulatory oversight,
- support for the safe transport, treatment and disposal of spent nuclear fuel and radioactive waste both from nuclear power plant and from other (orphan) sources, (medical applications, uranium mining),
- the development and implementation of strategies for decommissioning existing installations and the remediation of former nuclear sites,
- the promotion of effective regulatory frameworks, procedures and systems to ensure adequate protection against ionising radiations from radioactive materials, in particular from high activity radioactive sources, and their safe disposal,

**21 06 01** (*cont'd*)

- the financing of stress tests based on the *acquis*,
- the establishment of the necessary regulatory framework and methodologies for the implementation of nuclear safeguards, including for the proper accounting and control of fissile materials at State and operators level,
- the establishment of effective arrangements for the prevention of accidents with radiological consequences as well as the mitigation of such consequences should they occur, and for emergency planning, preparedness and response, civil protection and rehabilitation measures,
- measures to promote international cooperation (including in the framework of relevant international organisations, notably IAEA) in the abovementioned fields, including the implementation and monitoring of international conventions and treaties, exchange of information and training and research,
- the enhancement of emergency preparedness in case of nuclear accidents, as well as training and tutoring *inter alia* to increase the capacities of the regulators.

This appropriation is intended also to fund health and environmental projects as regards the consequences of the Chernobyl accident, which affect human health and the environment, especially in Ukraine and Belarus.

Priority will be given to address the needs in the countries being part of the European Neighbourhood Policy.

Relevant work previously carried out under the Instrument for Pre-accession Assistance (IPA) was taken over by the Instrument for Nuclear Safety Cooperation in order to ensure a comprehensive approach.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This appropriation is intended to cover the financing of various monitoring and evaluation needs and related support measures with respect of operations funded by Union external assistance in the areas of international cooperation and development, designed to improve the quality of the projects and programmes throughout their life-cycle (from identification and ex-ante evaluation to monitoring and final and ex-post evaluation), focusing on their relevance, efficiency, effectiveness, sustainability and impact, including the following:

- ex-ante evaluation systems and methodologies and related support measures for projects and programmes during the identification and design stages,
- systems and methodologies for internal monitoring and external review of project and programme implementation as well as systems and methodologies to ensure appropriate identification, collection and reporting on results of projects and programmes financed by Union external assistance,
- systems and methodologies for mid-term, final or ex post evaluation of projects and programmes, including support measures concerning the implementation and supervision of these evaluations, and for the implementation of complex evaluations, as well as systems and measures relating to the dissemination of evaluation results,
- approaches and methodologies concerning the project and programme management cycle and the sectoral and thematic approaches essential to the proper performance of ex-ante evaluation, monitoring and evaluation activities (including approaches and methodologies for monitoring and capacity-building, and approaches, methodologies and systems for the identification, definition and use of performance indicators),
- training and knowledge-sharing systems and other horizontal actions to support dissemination of expertise and knowledge on the approaches, methodologies and systems referred to above with a view to enhancing the skills and knowledge of staff involved in programme and project management,

- systems for managing operational information concerning projects and programmes at the different stages of the project cycle being essential in relation to the performance of the activities referred to above, to the proper use of their results and to the reporting, including at aggregated level.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field, including audit systems and methodologies and systems audits, and the financing of related training activities, based on the special rules governing Union external assistance and organised for external auditors.

This appropriation is also intended to cover expenditure for studies, meetings of experts, information and publications directly linked to the measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

*Remarks*

Budget financing provides the Commission with the means of support it needs to prepare, formulate and follow up coordination measures under its development policy. Policy coordination is crucial to consistency, complementarity and aid and development effectiveness.

Coordination measures are essential in defining and shaping the Union development policy at a strategic and programming level. The specific nature of the Union development policy is directly enshrined in the Treaties (Articles 208 and 210 of the Treaty on the Functioning of the European Union). Union aid and the national policies of the Member States in the sphere of development cooperation need to complement and reinforce each other and this cannot work without coordination. Article 210 of the Treaty on the Functioning of the European Union calls on the Commission to act as coordinator of the Member States' and the Union's development policies and of action in development cooperation.

Coordination is not only a major factor in the Commission's value added vis-à-vis the policies of the Member States but also a priority in the work schedule at the point where the agendas of the Union and the international community intersect. This appropriation covers various forms of action:

**CHAPTER 21 08 — DEVELOPMENT AND COOPERATION WORLDWIDE** (*cont'd*)**21 08 02** (*cont'd*)*Action A — Coordination at European and international levels:*

- effectiveness, efficiency, relevance, impact and viability studies in the area of coordination,
- support, analyses and coordination activities in the priority areas of development policy (including budget support, public finance management, domestic revenue mobilisation), aid and development effectiveness (including joint programming/joint implementation) and financing for development,
- meetings of experts and exchanges between the Commission, Member States, and other international actors (United States of America, emerging donors, etc.) and preparation of and participation to international fora such as the Global Partnership for Effective Development Cooperation or those under the policy stream financing for development, means of implementation, Agenda 2030, new Consensus,
- research, communication, consultation, and evaluation services, including for technical assistance,
- monitoring of policies and operations in the course of implementation,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations, including capacity-building,
- measures to support external initiatives in the sphere of coordination,
- the preparation of common positions, statements and initiatives,
- the organisation of events relating to coordination,
- the Commission's membership fees to the international organisations and networks,
- the dissemination of information through the production of publications and the development of information systems.

*Action B — Raising awareness*

This appropriation covers the financing of activities designed to draw attention to action by the Union and its Member States in the international cooperation and development field and to raise public awareness of related issues. Every activity financed pursuant to this action must include the following two components, which are complementary in the Commission's view:

- an 'information' component, designed to promote the various activities which the Union undertakes the international cooperation and development aid fields and the activities which it conducts in partnership with its Member States and other international institutions,
- an 'awareness-raising' component, covering public opinion in the Union and in partner countries.

COMMISSION

TITLE 21 — INTERNATIONAL COOPERATION AND DEVELOPMENT

CHAPTER 21 08 — DEVELOPMENT AND COOPERATION WORLDWIDE (*cont'd*)

21 08 02 (*cont'd*)

These activities consist mainly, though not exclusively, of financial support for audio-visual and online publications, communication via social media, seminars, trainings and events as applied to development, the production of information material, the development of information systems, networks of Member States and prizes for journalism in the field of development.

These activities are directed at the general public and are implemented through public and private sector partners and stakeholders and through a network of Member States, the Commission Representations in the Member States and Union delegations in partner countries.

This appropriation is moreover intended to cover the funding of priority information and communication activities directed towards the citizens of the Union and dealing with the Union's external policies as a whole.

The areas which will be covered by information activities include those below, but may include other aspects of the Union's external relations, particularly in relation to the future of the Union's external policies:

- addressing the public perception of external assistance, building on the results and the evaluation of the activities deployed by the Union institutions and Member States in the context of European Year for Development 2015, the Joint Declaration of the European Parliament, the Council and the Commission on the Legacy of the European Year for Development 2015, and on the adoption of the Agenda 2030 by the United Nations in September 2015. The objective is to make clear that external assistance is an integral part of what the Union does for the benefit both of the population of partner countries and of European taxpayers and to raise awareness of the fact that the Union is delivering tangible results on behalf of Union citizens to fight poverty and support sustainable growth worldwide,
- organising key events highlighting the Union's leading role in international development, most notably the annual edition of the European Development Days (EDD). This major event has become one of the main events in the Commission agenda in terms of external relations. It brings together development advocates, decision-makers and practitioners. Each year, EDD serves as a platform for policy brainstorming and forward-looking recommendations ahead of key international summits. It highlights the importance of the Union's role not only as the world's largest development assistance provider, but also as a leader in the international development policy debates,
- the organisation of visits for groups of journalists and other target groups.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

This appropriation is also intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on printing, translation, studies, meetings of experts, information and the purchase of information material directly linked to the achievement of the objective of the programme.

**CHAPTER 21 08 — DEVELOPMENT AND COOPERATION WORLDWIDE** (*cont'd*)**21 08 02** (*cont'd*)

It also covers the costs of publication, production, storage, distribution and dissemination of information material, in particular via the Publications Office of the European Union, and other administrative costs related to coordination.

*Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Tasks resulting from specific powers directly conferred on the Commission pursuant to Article 210 of the Treaty on the Functioning of the European Union.

Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

Decision No 472/2014/EU of the European Parliament and of the Council of 16 April 2014 on the European Year for Development (2015) (OJ L 136, 9.5.2014, p. 1).

Remarks

This appropriation is intended to cover administrative costs directly linked to the implementation of the Instrument for Pre-Accession Assistance (IPA), the phasing out of pre-accession assistance and TAIEX, in particular:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff), limited to EUR 5 146 149. This estimate is based on a provisional annual unit cost per man-year, of which an estimated 95 % is accounted for by the remuneration of the personnel concerned and 5 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to the external personnel financed from this appropriation,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as in Commission Post-Accession Transitions Teams remaining in new Member States during the phasing-out period (contract staff, agency staff) working on tasks directly related to completion of accession programmes. In both cases, it also covers additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in Union delegation of external personnel remunerated from the appropriations entered against this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,

- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers expenditure on administrative management under Chapter 22 02.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices. Expenditure on external personnel at headquarters is limited to EUR 4 846 907. This estimate is based on a provisional annual unit cost per man-year, of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in delegations of external personnel remunerated from the appropriations entered against this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,

*Remarks*

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency relating to the management of programmes in the 'Neighbourhood and enlargement negotiations' policy area. The mandate of the agency includes managing the outstanding actions from the 2007-2013 programming period for the Youth, Tempus and Erasmus Mundus programmes in which IPA beneficiaries are involved. This appropriation is also intended to cover, under the 'Erasmus+' programme, the operating costs of certain actions of that programme in order to promote the international dimension of higher education and other actions.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency incurred as a result of the implementation of the international dimension of higher education of the ‘Erasmus+’ programme (Heading 4) entrusted to the Agency, under Chapter 22 04. The mandate of the agency includes managing the outstanding actions from the 2007-2013 programming period for the Youth, Tempus and Erasmus Mundus programmes in which ENI beneficiaries are involved.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

The establishment plan of the Executive Agency is set out in Annex ‘Staff’ to this Section.

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I to Regulation (EU) No 231/2014 at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in Turkey:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I to Regulation (EU) No 231/2014 at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the specific objective of regional integration and territorial cooperation involving the beneficiaries listed in Annex I to Regulation (EU) No 231/2014, Member States and, where appropriate, third countries within the scope of Regulation (EU) No 232/2014.

This appropriation is intended to cover the financing of pre-accession regional and multi-beneficiary programmes for the beneficiaries.

This appropriation is also intended to cover technical assistance for the beneficiaries in the field of approximation of legislation for the entire *acquis* of the Union, helping all bodies involved in the implementation and enforcement of the *acquis*, including non-governmental organisations, to achieve their objectives and to monitor their rate of achievement.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

In accordance with Article 3 of Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95), this appropriation also covers expenditure directly necessary for the implementation of IPA II related to the preparation, follow-up, monitoring, audit and evaluation activities as well as to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

*Remarks*

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to promote the international dimension of higher education for the implementation of the 'Erasmus+' programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

This preparatory action will support the International Commission on Missing Persons (ICMP) Western Balkans Programme for 2018 and 2019 in assisting governments in the search for and identification of missing persons from the conflicts in the former Yugoslavia through enhanced regional cooperation.

Despite the progress achieved so far and the significant efforts and active commitment of the Union, resolving the fate of the missing from the conflicts in the former Yugoslavia remains a burning issue. Cooperation at regional level between the countries concerned has not been sufficiently explored.

This action will help authorities address the large number of NN (unidentified bodies) cases in countries in the region and the interrelated issue of misidentification, which occurred prior to the ICMP's introduction of DNA identification in 2001.

Following the signing of cooperation agreements between the ICMP and Bosnia and Herzegovina, Kosovo and Montenegro respectively in 2016, and the conclusion of an agreement with Serbia in 2017, the action will establish a database of active missing person cases from the conflicts in the former Yugoslavia and facilitate regular meetings with regional authorities to discuss them. This will enable the transparent management of data on missing persons and a cooperative approach at regional level in order to reduce the number of unresolved missing person cases. Collection of additional genetic references from families of missing persons in the region, supported by outreach and campaigning efforts, will help the authorities to identify NN cases and take corrective action where misidentifications are demonstrated to have occurred. The action will also strengthen regional cooperation among associations of families of the missing so they can be involved in the process and jointly ensure government accountability on this matter.

The main activities to be undertaken under this regional action are:

- (1) establishing a database of active missing person cases from conflicts in the former Yugoslavia, and facilitating regular meetings with regional authorities to discuss cases;
- (2) providing and managing a small grant to the body responsible for regional coordination of associations of families of missing persons from the former Yugoslavia for the purposes of lobbying to encourage regional governments and authorities to search for and identify the missing;
- (3) providing assistance to national authorities in affected countries in the Western Balkans to excavate and examine mortal remains from clandestine graves;
- (4) providing continued access to the ICMP's DNA laboratory standing capacity (sampling and extraction of DNA profiles from excavated cases, and DNA matching of genetic reference profiles and post mortem profiles);
- (5) engaging the national authorities in Bosnia and Herzegovina, Croatia, Kosovo and Serbia that are responsible for searching for missing persons (government commissions on missing persons) in a regional policy dialogue that will develop sustainable and effective initiatives for resolving the related issues of NN cases and misidentifications resulting from the use of traditional visual recognition methods.

The added value of this action will be in ensuring that the issue of missing persons remains a rule-of-law priority in the Western Balkan region. It is indeed important to remember the regional dimension of the wars in the former Yugoslavia, with tens of thousands of missing persons now living in neighbouring countries and with many of those who died during the conflicts having been buried in neighbouring countries.

COMMISSION

TITLE 22 — NEIGHBOURHOOD AND ENLARGEMENT NEGOTIATIONS

CHAPTER 22 02 — ENLARGEMENT PROCESS AND STRATEGY (*cont'd*)22 02 77 (*cont'd*)22 02 77 03 (*cont'd*)

ICMP activities financed at national level, at this point in time mainly in Bosnia and Herzegovina, include: technical support for locating and excavating clandestine graves; access to DNA testing and matching; support for local stakeholders to complete the review of unidentified remains in mortuaries through a systematic process involving additional blood collection from relatives of the missing in order to identify NN cases in mortuary facilities in Bosnia and Herzegovina, increase the identification rate and significantly reduce the number of unidentified remains in storage.

Activities carried out under this regional action are separate from and complementary to the activities that are currently taking place at national level. It is essential to note that, while separate from each other, there are important synergies between the regional and national projects that will help ensure that goals are achieved under both actions.

In this process it will also be important that investigations are done in a manner that respects the needs of families and the long-term societal need to provide a historically accurate accounting of atrocities that can counterbalance unsubstantiated and politically motivated narratives. To this end, the regional dimension will be very important in strengthening cooperation among associations of families in the countries concerned.

*Remarks*

This appropriation is intended to cover the ERDF support under the European territorial cooperation goal in the 2014-2020 programming period to cross-border and sea-basin cooperation programmes under the European Neighbourhood Instrument (ENI).

It is intended in particular to finance cross-border cooperation programmes along the external borders of the Union between partner countries and Member States to promote integrated and sustainable regional development between neighbouring border regions, including the Baltic Sea and the Black Sea, and harmonious territorial integration across the Union and with neighbouring countries.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Legal basis*

*Remarks*

This appropriation is intended mainly to finance the multi-country umbrella programmes that will supplement the country financial allocations. The purpose of the multi-country umbrella programmes — as stipulated in Regulation (EU) No 232/2014 — is to facilitate the implementation of the incentive-based approach.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. *Remarks*

This appropriation is intended to cover actions which aim to:

- provide general support to the functioning of the Union for the Mediterranean,
- provide general support to the functioning of the Eastern Partnership initiative,
- provide general support to the functioning of the other regional cooperation frameworks, such as the Northern Dimension and Black Sea Synergy.

It is also intended to cover actions improving the level and capacity of implementation of Union assistance as well as for actions aiming to inform the general public and the potential beneficiaries of assistance and to increase visibility.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. ## Remarks

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to promote the international dimension of higher education for the implementation of the 'Erasmus+' programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

## Remarks

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

It is also intended to cover the completion of the financial protocols with Mediterranean countries, including, inter alia, support for the Euro-Mediterranean Investment Facility within the European Investment Bank and covers the execution of non-EIB financial aid provided for in the third and fourth generation of financial protocols with the southern Mediterranean countries. The protocols cover the period 1 November 1986 to 31 October 1991 for the third generation of financial protocols and the period 1 November 1991 to 31 October 1996 for the fourth generation of financial protocols.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

At present, there is a dearth of factual knowledge among journalists in the Union and in European Neighbourhood Policy (ENP) countries regarding relations between the Union and its neighbours, which leads to risks of untrustworthy or irrelevant reporting by those working on or in the European Neighbourhood. Often, the reporting tools used were developed over a century ago, but are not suited to today's demands. Building capacities among relevant journalists is all the more pressing, given the frequently fragile situations in the European Union's neighbourhood.

Consequently, Union and ENP countries' publics and decision-makers need knowledge-based, trustworthy and coherent reporting on the Union's neighbouring countries and regions. Poor-quality journalism can hinder the success of the ENP, while — conversely — knowledge-based and coherent journalism can contribute to its impact and positive visibility.

This pilot project will cover a knowledge-building programme at the College of Europe Natolin Campus for European and ENP countries' journalists working on the European Union's neighbourhood, encompassing a classroom educational component, study visits in ENP countries and training in the field. As part of the classroom educational component, the pilot project will develop and provide a modular academic education programme for Union and ENP countries' journalists, targeting media workers at the beginning of their career and mid-career journalists. It will consist of a series of short (two to three days) and intensive in situ academic classes (for which an appropriate certificate or diploma will be provided) while providing participants with digital tools and communication channels to remain in contact between classes. The programme will also encompass on-site study visits in ENP countries and field training so as to ensure comprehensive and practical skill development and liaison with key societal actors on the ground. Such a methodology will ensure that professionally active journalists will be permitted by their media outlets to take part in this modular education programme (while allowing their managements to benefit from the journalists' enhanced knowledge acquired through the project). In addition, such an approach will establish and strengthen professional networks of Union and ENP South and East journalists specialising in in-depth sectoral and cooperation policies, thus building a shared network of information sources and broadening the spectrum of reliable information available in the Union and in ENP countries. Geographical balance with regard to participating journalists (between and within Union and the ENP countries) will be ensured during the pilot project. In this geographically balanced group, three best-performing participants (based on objective test and exam scores) from the EU, ENP South and ENP East, respectively, will be granted one-year scholarships to study at Natolin Campus on its advanced master's programme in order to specialise in ENP-related issues.

Such academic classes can only be delivered by a highly acclaimed higher-education institution already specialising in the ENP and the Union's wider neighbourhoods, and an institution that already successfully serves as the link between the Union and its neighbourhoods, which is the Natolin Campus of the College of Europe. Therefore, this pilot project will be implemented by the College of Europe Natolin Campus, which has grown to specialise both in Union studies and in ENP issues, thanks to its specialisation, location (e.g. proximity to the Frontex Agency), organised field visits in many countries in the Union's neighbourhood, including ENP-South and ENP-East, its cutting-edge academic activities carried out by its own European Neighbourhood Policy Chair and the European Civilisation Chair, the 'E-Platform for Neighbourhood' project currently being implemented, and its long-standing vast network of professional and academic links in the Union, ENP-East and ENP-South.

The College of Europe Natolin Campus is a unique hub of accumulated expertise with experience and access to a wide network of the highest-level academics and practitioners (including in the Union's neighbouring countries thanks to long-standing academic and educational cooperation) specialising in Union institutions and policies, European integration, the Union's relations with external actors, including all ENP aspects, and Europe's neighbouring countries themselves.

*Remarks*

This preparatory action will build on successful practices under the Union-funded preparatory action to support Arab Spring countries to implement asset recovery. That action focused on supporting Egypt, Libya and Tunisia in furthering asset recovery cases resulting from the 2011 revolutions that toppled their former leaders, in particular with respect to bilateral judicial cooperation with the Member States and other countries. This has resulted in, among other achievements, strengthened coordination between Arab Spring countries and the Member States on asset recovery, and in facilitating the recovery and return of over USD 300 million. In the light of the above, officials from the Member States and high-level officials of the original beneficiary states (including the Prime Minister of Libya, the Prosecutor-General of Egypt and the Minister for State Property for Tunisia) have indicated a strong interest in seeing a broader, more permanent Union programme to implement asset recovery which includes the activities referred to above:

- (1) strengthening regional platforms for dialogue, exchange of best practices and operational cooperation (particularly with Union counterparts) on asset recovery;
- (2) strengthening legislation on seizure and confiscation of assets linked to corruption;
- (3) specialised case mentoring for asset recovery practitioners so as to produce better operational practices in tracing and recovering stolen assets;
- (4) technical advice to ensure that recovered stolen assets are directed to high-priority development needs in national health and education sectors so as to help further stabilise Union neighbours;
- (5) technical advice to ensure greater operational harmonisation with both the Union and Financial Action Task Force standards;
- (6) dissemination of evidence-based research to enhance widespread knowledge of how assets are corruptly diverted and stolen, and to educate policymakers on how development is impeded by delays in the recovery of assets; and
- (7) strengthening civil society's role in prioritising the final destination of recovered assets.

It should be noted that the planned DG DEVCO Global Project to Combat Money Laundering and the Financing of Terrorism (CRIS number: 038875) focuses principally on anti-money-laundering and combating the financing of terrorism, whereas this action focuses principally on asset recovery and on continuing the work of assisting beneficiary countries in actual high-level cases linked to acts of corruption and other forms of organised criminal activity. Accordingly, this action is distinct in nature, but will serve as a useful complement to the DG DEVCO project and strengthen its impact.

CHAPTER 22 04 — EUROPEAN NEIGHBOURHOOD INSTRUMENT (ENI) (*cont'd*)22 04 77 (*cont'd*)22 04 77 07 (*cont'd*)

Given the value of asset recovery work in contributing to stabilisation among Union neighbours, the ownership taken up by national counterparts and the results achieved thus far through the expertise provided through the preliminary preparatory action, this action will be highly relevant to Tunisia and Libya, as well as to other European Neighbourhood Policy South partner countries (Jordan and Lebanon). Egypt will be involved in region-wide activities. The action, while distinct in scope from other pending or planned projects, will also serve to reinforce and complement such efforts to assist these countries in combating corruption, money laundering, the financing of terrorism and other forms of organised crime. This action will also directly support existing Union and United Nations sanctions regimes affecting countries in the Middle East and the North Africa region.

*Remarks*

This appropriation is intended to cover support expenditure directly linked to the achievement of the objectives of the humanitarian aid policy. This covers, inter alia:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- fees and reimbursable expenses incurred through service contracts to undertake audits and evaluations of partners and actions of the Directorate-General for European Civil Protection and Humanitarian Aid Operations (ECHO),
- expenditure on studies, information systems and publications, on public awareness and information campaigns, and on any other measure highlighting the Union character of the aid,
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff) limited to EUR 1 800 000. This personnel is intended to take over the tasks that were entrusted to external contractors handling the administration of individual experts and to manage programmes in third countries. That amount, based on an estimated annual cost per person/year, is intended to cover the remuneration of the external personnel in question and training, meetings, missions, information technology (IT) expenditure and telecommunications expenditure related to their tasks,
- expenditure related to the purchase and maintenance of security, specialised IT and communication tools and technical services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24-hour basis and responsible for the coordination of the Union's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian aid and civil protection,
- expenditure on the development, maintenance, operation and support of information systems, intended for internal use or to improve coordination between the Commission and other institutions, national administrations, agencies, non-governmental organisations, other partners in humanitarian aid, and Directorate-General for European Civil Protection and Humanitarian Aid Operations (ECHO) experts in the field.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Articles 23 02 01 and 23 02 02.

*Remarks*

This appropriation is intended to cover the financing of humanitarian and food assistance operations of a humanitarian nature to help people in countries outside the Union who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to. It will be carried out in accordance with the rules on humanitarian aid under Regulation (EC) No 1257/96.

The aid and assistance is granted to victims without discrimination or adverse distinction on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation. That aid and assistance is provided in accordance with international humanitarian law and should not be subject to restrictions imposed by other partner donors, as long as it is necessary to meet the humanitarian needs to which such situations give rise.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

COMMISSION

TITLE 23 — HUMANITARIAN AID AND CIVIL PROTECTION

CHAPTER 23 02 — HUMANITARIAN AID, FOOD ASSISTANCE AND DISASTER PREPAREDNESS (*cont'd*)23 02 01 (*cont'd*)

This appropriation may be used to finance the purchase and delivery of food, seeds, livestock or any product or equipment needed for the implementation of the humanitarian aid and food assistance operations.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations and the cost of the measures that are essential for implementing food assistance operations of a humanitarian nature within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

It covers, *inter alia*:

- measures to provide an enabling environment and access to quality education in humanitarian emergencies, including the basic rehabilitation and reconstruction of school buildings and facilities, psycho-social support, training of teachers and any product or equipment needed for the implementation of humanitarian aid operations related to access to education,
- feasibility studies on humanitarian operations, evaluations of humanitarian aid projects and plans, visibility operations and information campaigns linked to humanitarian operations,
- the monitoring of humanitarian aid projects and plans and the promotion and development of initiatives intended to increase coordination and cooperation so as to make aid more effective and improve the monitoring of projects and plans,
- the supervision and coordination of the implementation of aid operations forming part of the humanitarian aid and food assistance concerned activities, in particular the terms for the supply, delivery, distribution and use of the products involved, including the use of counterpart funds,
- measures to strengthen Union coordination with the Member States, other donor countries, international organisations and institutions (in particular those forming part of the United Nations), non-governmental organisations and organisations representing the latter,
- the financing of technical assistance contracts to facilitate the exchange of technical know-how and expertise between Union humanitarian organisations and agencies or between such bodies and those of third countries,
- studies and training linked to the achievement of the objectives of the humanitarian aid and food assistance policy,
- action grants and running cost grants in favour of humanitarian networks,
- humanitarian mine-clearance operations including public awareness campaigns for local communities on anti-personnel mines,
- expenditure incurred by the network on humanitarian assistance (NOHA), pursuant to Article 4 of Regulation (EC) No 1257/96. This is a 1-year multidisciplinary postgraduate diploma in the humanitarian field designed to promote greater professionalism amongst humanitarian workers and involving several participating universities,
- the transport and distribution of aid or assistance, including any related operations such as insurance, loading, unloading, coordination, etc.,

**CHAPTER 23 02 — HUMANITARIAN AID, FOOD ASSISTANCE AND DISASTER PREPAREDNESS** (*cont'd*)**23 02 01** (*cont'd*)

- back-up measures that are essential for the programming, coordination and optimum implementation of the aid or assistance, the cost of which is not covered by other appropriations, e.g. exceptional transport and storage operations, processing or preparation of foodstuffs on the spot, disinfection, consultants' services, technical assistance and equipment directly involved in providing the aid or assistance (tools, utensils, fuel, etc.),
- pilot schemes concerning new forms of transport, packaging or storage, studies of food assistance operations, visibility operations linked to the humanitarian operations, and information campaigns to increase public awareness,
- the storage of food (including administrative costs, futures operations, with or without options, training of technicians, purchase of packaging and mobile storage units, cost of maintaining and repairing stores, etc.),
- the technical assistance necessary for the preparation and implementation of humanitarian aid projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of the Directorate-General for European Civil Protection and Humanitarian Aid Operations (ECHO) units deployed throughout the world.

In order to ensure full financial transparency under Articles 58 to 61 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits regarding the use of Union funds to the European Court of Auditors and to the Internal Auditor of the Commission.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation is intended to cover the financing of operations to prepare for or prevent disasters or comparable emergencies and ensure the development of early warning systems for all types of natural disaster (floods, cyclones, volcanic eruptions, etc.), including the purchase and transport of any equipment required for that purpose.

This appropriation may also cover any other costs directly linked to the implementation of disaster preparedness operations, such as:

- the financing of scientific studies on the prevention of disasters,
- the constitution of emergency stocks of goods and equipment for use in connection with humanitarian aid operations,
- the technical assistance necessary for the preparation and implementation of disaster preparedness projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of the Directorate-General for Humanitarian Aid and Civil Protection units deployed throughout the world.

**CHAPTER 23 02 — HUMANITARIAN AID, FOOD ASSISTANCE AND DISASTER PREPAREDNESS** (*cont'd*)23 02 77 (*cont'd*)23 02 77 01 (*cont'd*)*Remarks*

Sexual and gender-based violence (SGBV) threatens lives in humanitarian contexts: in conflict, where rape is routinely used as a weapon of war; and in situations of natural disaster, which studies suggest increased risks of SGBV.

The Union and its Member States together are the world's leading humanitarian aid donor. In 2014, the Commission's Directorate-General for European Civil Protection and Humanitarian Aid Operations developed and implemented a Gender-Age Marker, showing that in 2015 89 % of Union-funded humanitarian action integrated gender and age strongly or to some extent. Yet the efficient delivery of Union aid and capacity-building for the Union's humanitarian partners face growing challenges, such as restrictions on reproductive care funding by third-party donors and an increase in vulnerable populations due to ongoing and new conflicts. Significant information gaps remain on what constitutes good evidence-based practices and compliance with applicable legal frameworks.

This pilot project will study how sexual violence in humanitarian settings affects women, girls, boys and men; how many persons are affected; what forms of medical and psychosocial assistance are offered to victims/survivors in five conflict areas and two situations of natural disaster; the compliance of this assistance with international law; and what best practices exist and should be reproduced.

It will (a) determine the forms of sexual violence most prevalent in humanitarian settings, including armed conflict and natural disasters, affecting women, girls, boys and men; (b) estimate its extent in terms of occurrences and/or numbers of victims/survivors; (c) assess the specific medical and psychosocial services offered to victims/survivors, and any gaps in protection, in particular with regard to gender; (d) investigate whether WHO protocols are adhered to; (e) study whether international humanitarian law (in armed conflict settings) and international human rights law are adhered to; and (f) identify and disseminate best practice in delivering effective aid to women, girls, boys and men who are victims/survivors of sexual violence in humanitarian settings.

This pilot project will be carried out by a consortium of relevant institutions, humanitarian actors and relevant civil society organisations. It will produce recommendations and contribute to increasing the capacity of humanitarian actors to adequately respond to sexual violence in humanitarian settings, and improve the effectiveness and efficiency of Union aid.

*Remarks*

This appropriation is intended to cover expenditure on actions in the field of civil protection. It aims at supporting, coordinating and supplementing the actions of the Member States, EFTA States and candidate countries having signed an appropriate agreement with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring inside the Union. It also aims to facilitate closer cooperation between the Member States in the field of civil protection.

It covers, in particular:

- actions in the field of prevention aiming at supporting and promoting Member States' risk assessment and mapping activity, such as the sharing of good practice, the compilation and dissemination of information from Member States on risk management activity including peer reviews,

CHAPTER 23 03 — THE UNION CIVIL PROTECTION MECHANISM (*cont'd*)23 03 01 (*cont'd*)23 03 01 01 (*cont'd*)

- the creation of a 'European emergency response capacity', a 'stand-by' capability for resources and equipment to be made available to a Member State in the event of an emergency,
- the development and management of a certification and registration process for the 'European emergency response capacity'. This includes also the development of capacity goals and quality requirements,
- the identification of significant response capacity gaps in the 'European emergency response capacity' and support to the development of required capacities,
- the identification of intervention experts, modules and other support available in Member States for assistance interventions in case of emergencies,
- the development and maintenance of a network of trained experts of Member States to assist at headquarters level in the monitoring, information and coordination tasks of the Emergency Response Coordination Centre (ERCC),
- a programme of lessons learnt from civil protection interventions and exercises in the framework of the Union Civil Protection Mechanism,
- a training programme for intervention teams, external personnel and experts, to provide the knowledge and tools needed to participate effectively in Union interventions and to develop a common European intervention culture,
- the management of a training network open to training centres for civil protection and emergency management personnel and other relevant actors to provide guidance on Union and international civil protection training,
- the management of an exercises programme including command post exercises, full-scale exercises and exercises for civil protection modules to test interoperability, train civil protection officials and create a common intervention culture,
- exchanges of experts to enhance understanding of Union civil protection and to share information and experience,
- information and communication (ICT) systems, in particular CECIS (common emergency communication and information system), facilitating the exchange of information with Member States during emergencies, to improve efficiency and to enable the exchange of 'EU classified' information. This covers the costs of development, maintenance, operation and support (hardware, software and services) of the systems. It also covers the cost of project management, quality control, security, documentation and training linked to the implementation of such systems,
- the study and development of civil protection modules within the meaning of Article 4 of Decision No 1313/2013/EU including support to improve their interoperability,
- the study and development of disaster detection and early warning systems,
- the study and development of scenario-building, asset mapping and plans for the deployment of response capacities,

**23 03 01** (*cont'd*)

23 03 01 01 (*cont'd*)

- workshops, seminars, projects, studies, surveys, modelling, scenario-building and contingency planning, capacity-building assistance, demonstration projects, technology transfer, awareness-raising, information, communication and monitoring, assessment and evaluation,
- other supporting and complementary actions necessary in the framework of the Union Civil Protection Mechanism to achieve a high level of protection against disasters and enhance the Union's state of preparedness to respond to disasters,
- expenditure on audits and evaluation as enshrined in the Union Civil Protection Mechanism.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

TITLE 23 — HUMANITARIAN AID AND CIVIL PROTECTION

CHAPTER 23 03 — THE UNION CIVIL PROTECTION MECHANISM (*cont'd*)23 03 01 (*cont'd*)23 03 01 02 (*cont'd*)*Remarks*

This appropriation is intended to cover expenditure on actions in the field of civil protection. It aims at supporting, coordinating and supplementing the actions of the Member States, EFTA States, acceding countries, candidate countries and potential candidates having signed an appropriate agreement with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring in third countries. It covers in particular the mobilisation of experts to assess prevention and preparedness needs in third countries in the event of disasters, and the basic logistical support for such experts.

It also aims at providing financial support for certain actions covered under Articles 21 and 22 of Decision No 1313/2013/EU to candidate countries not participating in the Union Civil Protection Mechanism and countries under the European Neighbourhood Policy to the extent that they complement funding available from the Instrument for Pre-Accession Assistance and the European Neighbourhood Instrument.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

TITLE 23 — HUMANITARIAN AID AND CIVIL PROTECTION

CHAPTER 23 03 — THE UNION CIVIL PROTECTION MECHANISM (*cont'd*)23 03 51 (*cont'd*)*Remarks*

This appropriation is intended to cover the clearance of commitments made for programmes and actions in the field of civil protection. It is also intended to cover payments in respect of commitments resulting from actions in the field of civil protection and from activities undertaken within the framework for the protection of the marine environment, coastlines and human health against the risks of accidental or deliberate marine pollution at sea.

This appropriation is also intended to cover part of the expenditure related to civil protection intervention in third countries under the Civil Protection Financial Instrument and the Community Civil Protection Mechanism.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

The creation of a network of European hubs, with existing infrastructures specialised in different components of civil protection and crisis management interventions, could help to prepare the Union, its Member States and various stakeholders (including DG ECHO) for tackling new challenges in the field of civil protection and crisis management.

Emerging new risks can lead to global crises (for instance, population displacement or new types of terrorist attacks). Hence there is a need for:

- (1) identifying existing gaps for which new scenarios should be designed to react to global crisis situations more quickly, more effectively and with deeper coordination between European actors. Experience sharing and promotion of best practices at European level will also make risk prevention more effective;
- (2) existing infrastructure and projects to be used for enhanced capacity building and pooling for interventions in and outside Europe. This could involve geographical and technical specialisation of the hubs, depending on the type of risk, e.g. forest fires, health assistance, shelters and containers for humanitarian aid;

Remarks

This appropriation is intended to cover the implementation of the European Voluntary Humanitarian Aid Corps ('EU Aid Volunteers initiative').

The objective of the EU Aid Volunteers initiative shall be to contribute to strengthening the Union's capacity to provide needs-based humanitarian aid aimed at preserving life, preventing and alleviating human suffering, and maintaining human dignity, and to strengthening the capacity and resilience of vulnerable or disaster-affected communities in third countries, particularly by means of disaster preparedness, disaster risk reduction and by enhancing the link between relief, rehabilitation and development. That objective shall be attained through the added value of joint contributions of EU Aid Volunteers, expressing the Union's values and solidarity with people in need and visibly promoting a sense of Union citizenship.

This appropriation is intended to cover the following measures and items of expenditure:

- the certification of sending and hosting organisations,
- the identification and selection of candidate volunteers,
- the establishment of a training programme and support for training of candidate volunteers and apprenticeship placements,

- the establishment, maintenance and updating of a database of EU Aid Volunteers,
- the deployment of EU Aid Volunteers in order to support and complement humanitarian aid in third countries,
- capacity-building of hosting organisations,
- technical assistance for sending organisations,
- the establishment and management of a network for the EU Aid Volunteers initiative,
- communication and awareness-raising,
- ancillary activity that furthers the accountability, transparency and effectiveness of the EU Aid Volunteers initiative.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This appropriation is intended to cover expenditure relating to the European Anti-Fraud Office (OLAF), including for OLAF staff posted in Union delegations, the objective of which is to combat fraud within an interinstitutional framework.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 20 000.

*Remarks*

This appropriation is intended to cover all expenditure resulting from the mandate of the members of the OLAF Supervisory Committee, namely:

- allowances granted to the members of the Supervisory Committee for the time dedicated to the fulfilment of their functions, as well as their travel expenses and ancillary costs,
- costs incurred by members of the Supervisory Committee officially representing the Supervisory Committee,
- all operating expenditure, such as the cost of purchase of equipment, stationery and office supplies and expenditure arising from communications and telecommunications (postal charges, telephone, fax and telegraph charges), documentation and library expenditure, the purchase of books and subscriptions to information media,
- travel, subsistence and incidental expenses of experts, invited by the members of the Supervisory Committee to participate in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices),
- expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) where the members of the Supervisory Committee are unable to entrust such studies to suitable staff of the Office.

Moreover, for the sake of transparency, the resources made available to the secretariat of the Supervisory Committee in PMO's budget (Article 26 01 21) can be identified. Based on a secretariat of seven permanent posts and an allocation for one member of contract staff, the appropriations for the operation of the secretariat of the Supervisory Committee would come to around EUR 1 000 000. This amount covers expenditure on staff costs, training, missions, internal meetings, buildings and IT.

## Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project will specifically simplify and promote ECIs through the use of IT platforms and other electronic tools, such as applications that are compatible with mobile devices, in order to simplify what is a very important agenda-setting instrument. In this regard, the reliable collection of signatures and safe access to and use of IT platforms and/or electronic tools should be possible via electronic identification and authentication services (e-IDAS). The use of these digital tools should enable citizens to receive and exchange information about existing or potential ECIs, to actively participate in discussions and to launch and/or support initiatives, in particular including the possibility of signing an ECI. These tools will also make it possible for the Commission to interact efficiently with ECI promoters, exchanging information and providing them with technical guidance in order to contribute to the success of the initiatives, while allowing substantial economic and administrative savings.

## Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

**CHAPTER 25 01 — ADMINISTRATIVE EXPENDITURE OF THE 'COMMISSION'S POLICY COORDINATION AND LEGAL ADVICE' POLICY AREA** (*cont'd*)**25 01 77** (*cont'd*)25 01 77 05 (*cont'd*)*Remarks*

This preparatory action will develop the potential and enhance the active and passive use of open data by linking data (linked open data) for European public administrations. The concept of open data is becoming a reference for the dissemination of data produced by public administrations. 'Knowledge is open if anyone is free to access, use, modify and share it — subject, at most, to measures that preserve provenance and openness.' Open data refers to data that is legally open (i.e. data published under an open licence with conditions for re-use limited to attribution) and technically open (i.e. machine-readable and non-proprietary where possible). In practice, this means that the data is free to access for everybody, and the file format and its content are not restricted to a particular non-open source software tool. In recent years, several initiatives to disseminate open data have been launched at national and European level, including the Open Data Portal of the Publications Office of the European Union.

Linked open data is a method of publishing structured open data so that it can be interlinked and become more useful through semantic queries. It builds upon standard web technologies, but, rather than using them to serve web pages for human readers, it extends them to share information in a way that can be read automatically by computers. This enables data from different sources and different policy areas to be connected and queried.

This preparatory action will boost linked open data in European public administrations by developing the implementation of linked open data techniques and infrastructure. The aim is to identify, assess and support the exploitation of the potential of linked open data for European public administrations and, consequently, facilitate the generation of new data, information and knowledge.

The action will target open data produced and released by European public administrations (notably the European data portal) and focus on:

- enabling a core set of open data to be identified for linking according to ISA semantic guidelines. e.g. migration data,
- providing the technical solutions to generate targeted queries to be used by European public administrations, e.g. a search engine for linked open data on migration,
- providing the capability to define indicators and contextualise them, e.g. performance indicators for migration policies v statistics on migration,
- promoting the culture and potential of linked open data.

*Legal basis*

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

## Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as the contracts of technical assistance offices expire during subsequent years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Remarks

The amount entered corresponds to the appropriations for the Office for the Administration and Payment of Individual Entitlements set out in detail in the specific annex to this section.

In accordance with Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1), the appropriations for, and staff of, the Supervisory Committee and its secretariat are entered in the budget and establishment plan of PMO.

For the sake of transparency, the resources made available to the secretariat of OLAF's Supervisory Committee in PMO's budget can be identified. Based on a secretariat of seven permanent posts and an allocation for one member of contract staff, the appropriations for the operation of the secretariat of OLAF's Supervisory Committee would amount to approximately EUR 1 000 000. This amount covers expenditure on staff costs, training, missions, internal meetings, buildings and IT.

The expenditure resulting from the mandate of the members of the Supervisory Committee is covered by appropriations of EUR 200 000 in Article 24 01 08.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 8 903 000.

## Remarks

This appropriation is intended to cover the following expenditure incurred within Union territory:

- the purchase, hire or leasing, maintenance, repair, installation and renewal of technical equipment and installations, and in particular:
  - equipment (including photocopiers) for producing, reproducing and archiving documents in any form (paper, electronic media, etc.),
  - audiovisual, library and interpreting equipment (booths, headsets and switching units for simultaneous interpretation facilities, etc.),
  - kitchen fittings and restaurant equipment,
  - various tools for building-maintenance shops,
  - facilities required for officials with disabilities,
  - studies, documentation and training relating to such equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the purchase, hire, maintenance and repair of vehicles, and in particular:
  - new purchases of vehicles, including at least one vehicle adapted for transporting persons with reduced mobility,
  - the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,
  - the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet, or when the vehicle fleet does not cater for needs of passengers with reduced mobility,
  - the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.),
  - various types of insurance (in particular third-party liability and insurance against theft) and the insurance costs referred to in Article 84 of the Financial Regulation,

CHAPTER 26 01 — ADMINISTRATIVE EXPENDITURE OF THE 'COMMISSION'S ADMINISTRATION' POLICY AREA (*cont'd*)26 01 22 (*cont'd*)26 01 22 04 (*cont'd*)

- the purchase, hire, maintenance and repair of furniture, and in particular:
  - the purchase of office furniture and specialised furniture, including ergonomic furniture, shelving for archives, etc.,
  - the replacement of worn-out and broken furniture,
  - supplies of special equipment for libraries (card indexes, shelving, catalogue units, etc.),
  - the hire of furniture,
  - furniture maintenance and repair costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenditure on working equipment, and in particular:
  - purchase of uniforms for floor messengers and drivers,
  - purchase and cleaning of working clothes for workshop staff and staff required to do work for which protection is necessary against bad or cold weather, abnormal wear and dirt,
  - purchase or reimbursement of the cost of any equipment which might be necessary pursuant to Directives 89/391/EEC and 90/270/EEC,
  - purchase of tickets (one-way ticket and business pass), free access to public transport routes to facilitate mobility between Commission buildings or between Commission buildings and public buildings (e.g. airport), service bicycles and any other means encouraging the use of public transporting and Commission staff mobility, with the exception of service vehicles,
- expenditure on inputs for protocol restaurant services.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items in Article 01 05 of the titles concerned.

This appropriation covers expenditure incurred within the territory of the Union, excluding the Commission Representations in the Union, for which expenditure is entered in Item 16 01 03 03.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 499 000.

The creation of a specific appropriation for reimbursing public transport season tickets is a modest but crucial measure to confirm the commitment of the institutions of the Union to reducing their CO<sub>2</sub> emissions in line with their Eco-Management and Audit Scheme (EMAS) policy and the agreed climate change objectives.

Remarks

This appropriation is intended to cover expenses concerned with:

- the physical and material security of persons and property, in particular the purchase, hiring or leasing, maintenance, repair, installation and replacement of technical security equipment,
- the health and safety of individuals at work, in particular statutory inspection costs (inspection of technical installations in buildings, safety coordinator and health and hygiene inspections of foodstuffs), the purchase, hire and maintenance of firefighting equipment and expenditure on training and equipment for leading fire fighters (ECI) and fire pickets (EPI), whose presence in the buildings is required by law,
- periodic evaluation of the functioning of the environmental management system within the institution,
- the design, production and personalisation of the *laissez-passer* issued by the Union.

Before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items in Article 01 05 of the titles concerned.

This appropriation covers expenditure incurred within the territory of the Union, excluding the Commission Representations in the Union, for which expenditure is entered in Item 16 01 03 03.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 087 000.

*Remarks*

This appropriation is intended to cover the costs of:

- collecting, processing, publishing and disseminating notices of public contracts put up for tender in the Union and third countries on various media, and of incorporating them in the eProcurement services offered by the institutions to firms and contracting authorities. This includes the cost of translating the notices of public contracts published by Union institutions,
- promoting the use of new techniques for collecting and disseminating notices of public contracts by electronic means,
- developing and exploiting eProcurement services for the various contract award stages.

*Remarks*

The programme on interoperability solutions and common frameworks for European public administrations, businesses and citizens (ISA<sup>2</sup> Programme) is the successor of the ISA programme (established by Decision No 922/2009/EC) that ended in December 2015.

ISA<sup>2</sup> Programme aims to implement a holistic approach on interoperability in the Union and to facilitate the efficient and effective electronic cross-border or cross-sector interaction between European public administrations as well as between them and citizens and businesses. It shall identify, develop and operate interoperability solutions (frameworks, common services and generic tools) implementing the Union's policies.

The programme will be implemented in close cooperation and coordination with Member States and concerned Commission services via projects and accompanying measures (awareness raising, promotion, community building, etc.).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The discovery of a severe vulnerability in the OpenSSL cryptography software library in April 2014 drew broader attention to the need for understanding how governance of code relates to the quality of code and code review. Both the general public and the Union institutions regularly use and depend on free and open-source software — from end-user devices up to server systems. Therefore the need for coordinated efforts to maintain a reasonable level of security and protection of users is a recognised and repeated demand from both citizens and the European Parliament itself, regardless of how the software is licensed and whether it is maintained by software companies or by volunteers.

Vulnerabilities in software libraries that are by design meant to be used in many locations are especially important. The pilot project proposed going beyond the commendable efforts of CERT-EU to not only warn the Union institutions, bodies and agencies and the general public about upcoming threats, but also to pro-actively work together with software developer communities to aid and contribute to the discovery of security issues in software which carries essential information infrastructure functions. This work should be conducted by using the Debian Social Contract as a reference in terms of effectiveness and trust and in accordance with established procedures on reasonable disclosure.

The preparatory action will build on and extend what the pilot project has produced as regards:

- creating an inventory of free software and open standards in use within Union institutions,
- developing a set of reliable criteria for a software and projects auditing framework,
- establishing an infrastructure to encourage developer communities to aid and contribute to the discovery of security-relevant bugs,
- developing and enhancing best practices with regard to mitigation of security threats by conducting and promoting code reviews,
- exploring further incentives to improve IT security such as 'bug bounty' approaches,
- conducting code reviews of critical open-source software.

As pointed out in the Commission's assessment, during the pilot project preceding this preparatory action, the idea of creating a 'bug bounty' approach — incentivising the discovery of security-relevant issues in software used by the institutions through financial rewards — had already been considered, but was disregarded in the end because of insufficient provisions. However, such approaches are very common and successful in the industry and would allow broader involvement of the security community in the common objective of ensuring a more secure IT infrastructure.

*Legal basis*

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

26 03 77 07 Pilot project — Deployment of online eIDs and digital signatures by way of implementation of the eIDAS Regulation by the European Parliament and the Commission

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project will provide the European Parliament and the Commission with an online means of authentication to access online services in a secure manner, as well as digital signatures to electronically sign documents required in the daily work of Union institutions. The eIDAS Regulation will be implemented, too, thus enabling mutual recognition of digital signatures and national eID schemes within Union institutions.

CHAPTER 26 03 — SERVICES TO PUBLIC ADMINISTRATIONS, BUSINESSES AND CITIZENS (*cont'd*)26 03 77 (*cont'd*)26 03 77 07 (*cont'd*)*Legal basis*

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action will continue support for the implementation of secure electronic communications within the Union institutions.

A way of attaining significantly more secure electronic communications would be to apply state-of-the-art encryption technology to the institutions' email services. The project will involve developing Union encryption standards which are guaranteed not to be compromised or weakened by third-country governments.

The current project has reached the recommendations stage. Recommendations have been presented both at working group level and to DG DIGIT management.

With reference to existing remarks in the 2017 budget, the current project has reached the recommendations stage.

The goal of the preparatory action is to continue to support the IT services of the Council, Council Presidency, Commission and Parliament in implementing the systems needed for secure communications by Commissioners, Members of Parliament, officials, administrators and staff members of all institutions involved in Union decision-making.

The preparatory action will allow continuation of the implementation phase of the preceding pilot project. In the longer term, the action could encompass both written (email and text messages) and vocal (fixed and mobile) electronic communications.

The way forward will be to follow up on the recommendations made on the basis of the pilot project. There will also be a move towards a more operational / service delivery mode of piloting. It may need to be handed over to an operational team. The first step under the preparatory action will therefore have to be the designation of that team, which will require coordination between the Union institutions. The second step will be the further, and broader, implementation of piloting at a more operational level.

CHAPTER 26 03 — SERVICES TO PUBLIC ADMINISTRATIONS, BUSINESSES AND CITIZENS (*cont'd*)26 03 77 (*cont'd*)26 03 77 08 (*cont'd*)*Legal basis*

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This preparatory action will identify, develop, implement and promote the use of data analytics techniques in the European and national policymaking process.

The use of data analytics (big data, data and text mining, business intelligence, data analytics) is becoming more and more instrumental in the European decision-making process. Initiatives launched in recent years by the Commission, such as its Regulatory Fitness and Performance (REFIT) programme — which ensures that Union legislation delivers results for citizens and businesses effectively, efficiently and at minimum cost — and the better regulation agenda — on designing and evaluating Union policies and laws transparently, with evidence, and backed up by the views of citizens and stakeholders — openly promote interaction with citizens and call for the use of evidence in policymaking.

This action will cover the development, implementation and promotion of data analytics solutions for evidence-based policymaking, with potential application at national and European level. In particular:

- developing and implementing selected text mining solutions for analysing feedback from citizens on policies and initiatives (e.g. the Doris tool developed by the Commission),
- developing and implementing selected data mining solutions for assessing data in specific policy areas and adding intelligence,
- integrating those solutions in consultation processes (e.g. Doris for analysing the Better Regulation feedback; text mining solutions for Union Survey, the open-source survey solution developed by the Commission),
- developing and implementing data analytics tools for monitoring the performance of specific policies and contextualising them (e.g. key performance indicators for Union-funded programmes contextualised against the key social/economic indicators in that specific area).

The development of such data analytics (in the broad sense) solutions is in its early stage and requires dedicated actions to be embedded in the regular European decision-making process. The potential benefits at European level and the re-usability for Member States are expected to be relevant.

## Remarks

This appropriation is not allocated to a specific policy area at the start of the financial year and may be used to cover the requirements of all Commission departments. It will be transferred in the course of the year, in accordance with the Financial Regulation, to the corresponding budget lines of the policy areas for which it will be implemented.

CHAPTER 27 01 — ADMINISTRATIVE EXPENDITURE OF THE 'BUDGET' POLICY AREA (cont'd)

27 01 02 (cont'd)

27 01 02 19 (cont'd)

Remarks

This appropriation is not allocated to a specific policy area at the start of the financial year and may be used to cover the requirements of all Commission departments. It will not be used from this item but will be transferred in the course of the year, in accordance with the Financial Regulation, to the corresponding budget line of the policy areas for which it will be implemented.

*Remarks*

This appropriation is intended to cover budgetary adjustments:

- in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting either from the liquidation or cessation of activities of financial institutions with which the Commission has accounts or from the management of financial assets.

## Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year is to be entered in the budget for the following financial year as revenue in the case of a surplus or as a payment appropriation in the case of a deficit.

The estimates of such revenue or payment appropriations are entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with Regulation (EC, Euratom) No 1150/2000.

After the close of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A surplus is entered in Article 3 0 0 of the statement of revenue.

## Legal basis

Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities' own resources (OJ L 130, 31.5.2000, p. 1).

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover:

- expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects,
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff), up to EUR 2 300 000. This amount is calculated on the basis of a unit annual cost per person per year, 97 % of the total comprising the remuneration for the staff in question and 3 % the costs of training, meetings, missions, information technology and telecommunications in connection with such staff,

**CHAPTER 29 01 — ADMINISTRATIVE EXPENDITURE OF THE ‘STATISTICS’ POLICY AREA** *(cont'd)***29 01 04** *(cont'd)*29 01 04 01 *(cont'd)*

— expenditure on studies, meetings of experts, missions, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, such amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation. They give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation’s contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Remarks

This appropriation is intended to cover the following:

- statistical data collection and surveys, studies and development of indicators and benchmarks,
- quality studies and activities designed to improve the quality of statistics,
- the processing, dissemination, promotion and marketing of statistical information,
- the development, maintenance and reengineering of IT systems and infrastructure linked to putting into place and monitoring measures coming under this article,
- risk-based control work at the sites of entities involved in the production of statistical information in Member States, especially to support the economic governance of the Union,
- support to collaborative networks and support to organisations having as their primary objectives and activities the promotion and support for the implementation of the European Statistics Code of Practice and the implementation of new methods of production of European statistics,

**CHAPTER 29 02 — THE EUROPEAN STATISTICAL PROGRAMME** (*cont'd*)**29 02 01** (*cont'd*)

- services rendered by external experts,
- statistical training courses for statisticians,
- the cost of purchasing documentation,
- subsidies and subscriptions to international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up an annual summary report on the economic and social state of the Union on the basis of economic data and structural indicators and benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation in the field of statistics with third countries; expenditure relating to exchanges of officials, the costs of information meetings, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside databases.

In addition, funding should be used to develop new, modular techniques.

This appropriation is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the multiannual financial framework) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, such amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation. They give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure relating to officials and temporary staff implementing research and innovation programmes — Horizon 2020, occupying posts on the authorised establishment plans engaged in indirect action under the non-nuclear programmes, including officials and temporary staff posted in Union delegations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Remarks*

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01 and XX 01 03 01 and Article 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of that charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY (*cont'd*)

32 02 01 (*cont'd*)

32 02 01 01 (*cont'd*)

Remarks

This appropriation is intended to cover the cost of co-financing studies and works for projects of common interest which contribute primarily to the integration of the internal energy market and the interoperability of gas and electricity networks across borders. This appropriation is also intended to cover the cost of programme support actions related to the same objective.

Legal basis

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular point (a) of Article 4(3) thereof.

Regulation (EU) 2015/1017 of the European Parliament and of the Council of 25 June 2015 on the European Fund for Strategic Investments, the European Investment Advisory Hub and the European Investment Project Portal and amending Regulations (EU) No 1291/2013 and (EU) No 1316/2013 — the European Fund for Strategic Investments (OJ L 169, 1.7.2015, p. 1).

*Remarks*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, financing, evaluation and implementation of a competitive, safe and sustainable European energy policy, of the internal energy market and its extension to third countries, of all aspects of energy supply security in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

The principal endorsed objectives are to implement a progressive common European policy in line with the Energy Union strategy (COM(2015) 80 final) ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of energy market, integrated governance and monitoring, analysis of modelling including scenarios on the impact of considered policies and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation, as well as expenditure on information and communication, digital processing and visualisation of data, conferences and events promoting activities in the energy sector, electronic and paper publications, audiovisual products as well as the development of different web-based and social media activities directly linked to the achievement of the objective of the energy policy. This appropriation will also support an enhanced energy dialogue with the Union's key energy partners and international agencies in the field of energy.

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, communication, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

- measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructure of the European system of energy generation and transmission,
- approximation of legislation, technical standards and administrative monitoring practices relating to energy security,
- definition of common indicators, methods and security objectives for the energy sector and collection of the data necessary for such definition,
- monitoring of measures taken on energy security by national authorities, operators and other key actors in the field,
- international coordination on energy security, including neighbouring supplier and transit countries and other world partners,
- promoting technology development in energy security.

This appropriation may also cover expenditure on information and communication, as well as electronic and paper publications directly linked to the achievement of the objective of this article.

*Remarks*

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2) and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (point (c) of Article 21(3) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Agency for the Cooperation of Energy Regulators is set out in the Annex 'Staff' to this section.

The Union contribution for 2018 amounts to a total of EUR 13 562 000. An amount of EUR 528 883 coming from the recovery of surplus, is added to the amount of EUR 13 033 117 entered in the budget.

## Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The action is unique in placing islands at the forefront of climate change action through the new framework of the Global Covenant of Mayors. Union islands and island authorities around the world, having a closer understanding of the climate change challenges for island territories and having pushed for an ambitious global climate agreement, will join forces, through this action, to lead efforts to achieve the 1,5 °C climate target. Union islands will work closely and in solidarity with island authorities beyond the Union with a view to overall capacity building and, more concretely, to sharing experiences, to transferring knowledge and know-how on sustainable energy and climate planning, to sharing best examples of climate change mitigation and adaptation and to sharing their knowledge of innovative Union financial instruments in support of sustainable energy investments. The action will involve analysis of existing good practices for sustainable energy and climate planning implemented on islands and the development of innovative integrated island strategies that would properly address energy access and energy poverty, climate change mitigation and greenhouse gas emission reduction, as well as adaptation of island territories to climate change. These strategies will be in line with the 2030 climate and energy framework and with the United Nations Sustainable Development Goals and the 'Sustainable Energy for All' objectives. Finally, provision will be made for transparent monitoring, reporting and verification of greenhouse gas emissions in line with UNFCCC requirements.

CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY (*cont'd*)

32 02 77 (*cont'd*)

32 02 77 10 (*cont'd*)

This pilot project will promote energy efficiency in the Ionian-Adriatic macro-region through the funding of regional/local initiatives supporting energy renovation of public or private residential buildings. Based on the premise that the Ionian-Adriatic macro-region faces a high risk of energy poverty (well over 50%), the pilot project will seek to address the problem by providing pilot home retrofitting schemes for representative private residential buildings in selected parts of the macro-region. Given the possibility of using renewable energy, of which the macro-region has a huge potential supply, as well as state-of-the-art renovation techniques, the project will reduce energy consumption, tackle energy poverty and reduce greenhouse gas emissions. The project will provide a blueprint for making building renovations easier and for increasing renewable energy share in the macro-region. The project outcomes will be assessed at regional level in order to secure efficient use of structural funds and additional funding in order to promote larger-scale energy efficiency programmes rolled out by national or regional authorities.

*Remarks*

The pilot project will set up a platform of best practices and technical advice, based on the experience and needs of the new actors in the energy market, thus helping the Commission to stimulate the development of technical standards for distributed ledgers.

To do this, the following activities will be carried out during the project:

- analysis of the existing distributed ledger based on blockchain technology, the aim being to understand the problems and the solutions found during setup and use of a distributed ledger in real cases,
- analysis of the needs of all energy market stakeholders (institutionalised energy suppliers, prosumer organisations, energy community organisations, etc.); a survey in 2016 by the German Energy Agency (Dena) found that 52 % of German energy actors were already implementing or planning blockchain activities; the analysis will focus on those activities so as to understand the needs of the actors concerned; a focus group involving prosumer associations will also be set up,
- organising information events on distributed ledgers based on blockchain technology,
- setting up a network for stakeholders involved in the new energy market; it will be a tool for disseminating and sharing best practices and technical advice.

*Remarks*

The recovery of the Union from the economic crisis and the effective implementation of its key goals of strong growth and global competitiveness, including through sustainable reindustrialisation and modernisation of the Union economy, must be founded on long-term environmental, economic and social sustainability. In the context of the ambitious climate commitments of the Union and its transition to a low-emission economy based on the circular model, its coal and carbon-intensive regions with a high proportion of workers in carbon-dependent sectors need targeted support to effectively contribute to this strategic transformation.

According to Eurostat figures, coal and lignite mining alone currently account for over 300 000 direct jobs in the Union. These are concentrated in a limited number of regions, where their impact on the local economy and social cohesion is the principal driver. In the face of the challenges of technological progress, global competition and demanding environmental and climate policies, the ability of those regions to contribute to and benefit from the Union's transition to a low-emission circular economy has a crucial bearing on the overall success of the Union. This has been acknowledged by the Commission, which in its communication on 'Clean Energy for All Europeans' committed to 'examine how to better support the transition in coal and carbon-intensive regions'.

This preparatory action will ensure the effectiveness of these support efforts, their long-term sustainability, and ultimately the success of the transformation of the Union as a whole and its global leadership, by establishing a platform which should enable the Commission to:

- identify the Union's coal and carbon-intensive regions in transition and their smart specialisations,
- build a dedicated practical toolkit with (a) best practices, (b) existing support instruments identifying best synergies, and (c) information exchange with and between regions,
- establish stakeholder fora and provide tools for intra-regional exchanges, including on comprehensive roadmaps for low-emission reindustrialisation and reskilling needs,
- identify on-the-ground bottlenecks and streamline support to new technologies and clean-coal innovation development and uptake, including carbon capture and storage, carbon capture and utilisation and coal gasification,

- establish a compendium of best practices and operational guidelines, and eventually a practical toolkit for third country coal and carbon-intensive regions in transition, as part of the capacity-building measures under the Paris Agreement,
- set up a cross-DG team to (a) identify areas of possible Union policy/programme synergies with a view to ensuring the most effective financial and policy support post-2020; (b) assist regions (central and local authorities) in developing sustainable transition strategies.

*Remarks*

With its 2011 Low Carbon Economy Roadmap, the Commission developed a vision to largely decarbonise the European economy and set out specific steps to achieve that goal. The Union has confirmed that commitment, most prominently with the adoption of the Paris Agreement. While recognising that Member States have the sole prerogative to determine their national energy mix, this inevitably puts the focus on coal-mining regions, which have to deal with multiple challenges in connection with this transition, brought about by political decisions, economic realities and public aspirations. The Commission is therefore launching a dedicated dialogue in the form of a coal platform for regions facing this transition.

Activities: Produce a series of toolkits to integrate the results of coal platform meetings in order to support participants in developing local transition strategies in the following fields:

- (a) establishing a governance process at local level: How to start an inclusive dialogue with a view to developing a common transition vision with local and social partners, civil society, industrial and economic actors and academia, including information on best practices and lessons learnt;
- (b) access to funding: Guidance on existing Union funds and their possible combination and technical assistance for project aggregation to support the local transition strategies developed;
- (c) employment and growth perspectives: How to support the labour market transition process (including reskilling and retraining as well as targeted support for vulnerable groups) with a regional concept for economic development to attract future-proof, local jobs;

**CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY** (*cont'd*)**32 02 77** (*cont'd*)**32 02 77 13** (*cont'd*)

- (d) environmental rehabilitation: Guidance on converting former sites, including best practices on decommissioning, recultivation, remediation and re-establishment of ground water levels.

Remarks

This appropriation is intended to cover, in particular:

- expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),
- training of inspectors and meetings with Member States, international organisations, nuclear operators and other stakeholders,
- purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal-reader systems,
- procurement and renewal of information technology hardware for inspections,
- specific information technology projects for inspections (development and maintenance),

**CHAPTER 32 03 — NUCLEAR ENERGY** (*cont'd*)**32 03 01** (*cont'd*)

- replacement of monitoring and measurement devices which have reached the end of their service life,
- maintenance of equipment, including insurance of specific equipment at the Canberra, Ametek, Fork and GBNS sites,
- technical infrastructure measures, including waste management and sample transport,
- on-site analyses (labour costs and mission expenses for analysts),
- agreements on working premises on site (laboratories, offices, etc.),
- day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),
- information technology support and tests for applications for inspections.

The following will also give rise to the provision of additional appropriations in accordance with Article 21(3) of the Financial Regulation:

- paid insurance claims,
- repayment of sums unduly paid by the Commission for goods, work or services.

This appropriation may also cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

Remarks

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,
- expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections,
- expenditure linked to the implementation of the Commission's tasks referred to in point 31 of the European Council conclusions of 24 and 25 March 2011.

This appropriation may also cover expenditure on information and publications directly linked to the achievement of the objectives coming under this article.

**CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY** (*cont'd*)*Remarks*

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the framework programme for research and innovation, which covers the 2014 to 2020 period, and for the completion of the previous research programmes (seventh framework programme and preceding framework programmes) and the completion of the 'Intelligent energy — Europe' programmes (prior to 2014).

Horizon 2020 activities, in particular those addressed under the societal challenge 'Secure, clean and efficient energy', but also relevant parts of other sections of the programme, including 'Access to finance', implemented in line with the Union's energy policy framework and in particular the Energy Union strategy (Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 25 February 2015 on a framework strategy for a resilient Energy Union with a forward-looking climate change policy (COM(2015) 80 final)) as well as the European strategic energy technology plan (SET-Plan) and the communication on energy technologies and innovation, will contribute primarily to the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource-efficient Europe', 'An industrial policy for the globalisation era' and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area. Horizon 2020 will contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

Horizon 2020 will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively, and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

In Horizon 2020, gender equality is addressed as a cross-cutting issue in order to rectify imbalances between women and men and to integrate a gender dimension in research and innovation content. Particular account will be taken of the need to step up efforts to enhance the participation at all levels, including decision making, of women in research and innovation.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme For Research And Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

TITLE 32 — ENERGY

**CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY** (*cont'd*)

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from states taking part in the European cooperation in the field of scientific and technical research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 32 04 50 01.

Administrative appropriations of this chapter will be provided under Article 32 01 05.

**32 04 03 Societal challenges**

*Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test beds, support for public procurement, design, end-user-driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

This appropriation is intended to support the implementation of the societal challenge ‘Secure, clean and efficient energy’ of the Horizon 2020 priorities, in line with the Union’s energy policy and in particular the Energy Union strategy (Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 25 February 2015 on a framework strategy for a resilient Energy Union with a forward-looking climate change policy (COM(2015) 80 final)), Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 30 November 2016 ‘Clean Energy for all Europeans’ (COM(2016) 860 final), Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 22 November 2007 ‘A European Strategic Energy Technology Plan’ (SET-Plan) (COM(2007) 723 final) and Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 2 May 2013 ‘Energy Technologies and Innovation’ (COM(2013) 253 final). These initiatives are primarily addressing energy efficiency, wind, solar, bioenergy, carbon capture and storage, smart cities and electricity grids. In recognition of their important contribution to future sustainable energy systems, at least 85 % of the budget appropriations over the period 2014-2020 will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids and energy storage.

Support to market uptake measures will be part of the Horizon 2020 programme to build capacity, improve governance and overcome market barriers so that energy efficiency and renewable energy solutions can be rolled out, thus contributing to improving energy security in the Union. Part of the appropriations in the overall energy challenge budget will therefore be spent on market uptake activities for existing renewable and energy efficiency technologies within the programme, carried out by a dedicated management structure, and will include support for sustainable energy policy implementation, capacity building and mobilisation of financing for investment, in line with what has been done to date.

## CHAPTER 32 05 — ITER (cont'd)

*Remarks*

The ITER project aims to demonstrate fusion as a viable and sustainable source of energy by building and operating an experimental fusion reactor as a major step towards the creation of prototype reactors for fusion power stations that are safe, sustainable, environmentally responsible and economically viable. It will contribute to the Europe 2020 strategy and in particular to its Innovation Union flagship initiative as the mobilisation of European high-tech industries, which are involved in the construction of ITER, should provide the Union with a global competitive advantage in this promising sector.

The project brings together seven parties: the Union, China, India, Japan, South Korea, Russia and the United States.

*Remarks*

The European Joint Undertaking for ITER and the Development of Fusion for Energy provides the contribution of the European Atomic Energy Community (Euratom) to the joint implementation of the international ITER project. ITER, a major experimental facility which will demonstrate the scientific and technical feasibility of fusion power, will be followed by the construction of a demonstration fusion power plant (DEMO).

This joint undertaking has the following tasks:

- to provide the contribution of Euratom to the ITER International Fusion Energy Organisation,
- to provide the contribution of Euratom to broader approach activities with Japan for the rapid realisation of fusion energy,
- to prepare and coordinate a programme of activities in preparation for the construction of a demonstration fusion reactor and related facilities.

33 01 04 (cont'd)

33 01 04 01 (cont'd)

*Remarks*

This appropriation is intended to cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the 'Rights, equality and citizenship' programme (the 'Programme') and the assessment of the achievement of its objectives; in particular, it is intended to cover studies, meetings of experts, information and communication actions, including institutional communication of the political priorities of the Union, insofar as they are related to the general objectives of the programme, expenses linked to IT networks focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the Programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the Programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Legal basis*

See Chapter 33 02.

*Remarks*

This appropriation is intended to cover expenditure on studies, meetings of experts, information measures and publications directly linked to the achievement of the objective of the programme or measures covered by this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the contribution for expenditure on the staff and administration of the Consumers, Health, Agriculture and Food Executive Agency (the 'Executive Agency') incurred as a result of the Executive Agency's role in the management of measures forming part of the Consumer programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The establishment plan of the Executive Agency is set out in Annex 'Staff' to this section.

*Legal basis*

Council Regulation (EC) No 58/2003 of 19 December 2002 laying down the statute for executive agencies to be entrusted with certain tasks in the management of Community programmes (OJ L 11, 16.1.2003, p. 1).

Regulation (EU) No 254/2014 of the European Parliament and of the Council of 26 February 2014 on a multiannual consumer programme for the years 2014-20 and repealing Decision No 1926/2006/EC (OJ L 84, 20.3.2014, p. 42).

TITLE 33 — JUSTICE AND CONSUMERS

## CHAPTER 33 02 — RIGHTS, EQUALITY AND CITIZENSHIP (cont'd)

*Remarks*

The 'Rights, equality and citizenship' programme is the successor to three previous programmes: Fundamental rights and citizenship, Daphne III, and the 'Antidiscrimination and diversity' and 'Gender equality' sections of the programme for employment and social solidarity (Progress). The general objective of the 'Rights, equality and citizenship' programme is to contribute to the further development of an area where equality and the rights of persons as enshrined in the Treaty on European Union, in the Treaty on the Functioning of the European Union, in the Charter of Fundamental Rights of the European Union, and in the international human rights conventions to which the Union has acceded, are promoted, protected and effectively implemented.

*Remarks*

This appropriation is intended to: help prevent and combat all forms of violence against children, young people and women, and violence against other groups at risk of domestic violence and protect victims of such acts (one of the goals of the Daphne programme); promote and protect the rights of the child; promote and ensure the social and labour rights of workers; ensure the highest level of protection of privacy and personal data; promote and enhance the exercise of the rights that the Union confers on its citizens; and allow individuals, as consumers or entrepreneurs in the internal market, to exercise the rights that the Union gives them, taking into account the projects financed by the Consumer programme.

The objective of the 'Rights, equality and citizenship' programme is to contribute to the further development of an area in which the rights of persons are promoted and protected by enhancing the exercise of rights deriving from Union citizenship, promoting the principle of non-discrimination, contributing to the protection of personal data, enhancing protection of the rights of the child and rights deriving from Union consumer legislation and promoting fundamental rights and citizenship in the digital environment. Funding will be allocated to analytical and training activities and for dissemination, mutual learning, cooperation and awareness raising activities.

In particular, this appropriation is intended to cover the following types of action:

- analytical activities, such as the collection of data and statistics, where appropriate disaggregated by gender; the development of common methodologies and, where appropriate, indicators or benchmarks; studies, research, analyses and surveys; evaluations; the elaboration and publication of guides, reports and educational material; workshops, seminars, experts' meetings and conferences,
- training activities such as staff exchanges, workshops, seminars, train-the-trainer events and the development of online training tools or other training modules,

CHAPTER 33 02 — RIGHTS, EQUALITY AND CITIZENSHIP (*cont'd*)33 02 77 (*cont'd*)33 02 77 12 (*cont'd*)*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The EU Framework for National Roma Integration Strategies calls on Member States to include robust monitoring mechanisms and involve civil society, including Roma organisations, in strategy implementation and monitoring. Capacity-building is needed to prepare local Roma civil society organisations for helping to plan and implement programmes.

The preparatory action will build on the pilot project supported by the European Parliament in the 2014 and 2015 budgets, which was designed to contribute to capacity creation and building for local Roma civil society and provide a mechanism to monitor Roma integration and inclusion, especially by producing and circulating 'shadow reports'. 'Shadow reports' should enable civil society coalitions to supplement the reports submitted by Member States on implementation of their strategies or present alternative information and figures. Such reports could add local knowledge to national and European policy processes and reflect on the real social impact of government measures. Monitoring will focus on the local implementation of strategies in the four priority anti-discrimination and gender equality areas, employment, education, housing and health, and would also provide information on the level of civil society involvement, use of Union funds, and mainstreaming of Roma inclusion measures.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The extent of physical and sexual violence experienced by women across the European Union requires renewed attention from policymakers. The economic and social crisis, with its consequences of unemployment, job insecurity, wage cuts and reduction of social benefits, inter alia, has contributed dramatically to the increase in domestic violence, in prostitution and migration.

CHAPTER 33 03 — JUSTICE (*cont'd*)33 03 04 (*cont'd*)*Remarks*

This appropriation is intended to cover Eurojust's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

Eurojust must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue in accordance with point (c) of Article 21(3) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

Eurojust's establishment plan is set out in Annex 'Staff' to this section.

The Union contribution for 2018 amounts to a total of EUR 38 606 737. An amount of EUR 255 269 coming from the recovery of surplus is added to the amount of EUR 38 351 468 entered in the budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project is designed to bring together legal experts, national authorities and international experts, in particular from the OECD.

The aim of the initiative is to explore the different purposes of letterbox companies, but also to address more general questions relating to abuses in registrations and cross-border operations of companies. In this context, legal solutions and standards based on company law could be proposed in order to ensure a level playing field regardless of the nature of the undertaking, so that future Union legislation on company law can benefit from the work carried out under the pilot project. It will also be useful to test the feasibility of Union action to identify and prevent the loopholes for corporate tax avoidance based on national or Union company law without undermining the current work on the Accounting Directive.

Empowering civil society organisations, movements and individuals is key to a truly democratic Union and its values as enshrined in the Treaties and the Charter of Fundamental Rights of the European Union. This preparatory action will create a Union fund for awareness raising and legal assistance to individuals and civil society organisations litigating democracy, rule of law and fundamental rights violations based on the outcome of a requested feasibility study. This feasibility study should include an overview of the current obstacles facing individuals and NGOs wishing to exercise their rights regarding democracy, the rule of law and fundamental rights through litigation. The fund will work closely with and build upon the work of the Agency for Fundamental Rights.

## Remarks

This appropriation is intended to cover expenditure for achieving the objectives established through the multiannual consumer programme for the years 2014-2020. The aim of the programme is to ensure a high level of consumer protection and to empower consumers in the heart of the internal market within the framework of an overall strategy for smart, sustainable and inclusive growth, by contributing to the protection of the health, safety, legal and economic interests of consumers, as well as to the promotion of their right to information, education and to organise themselves in order to safeguard their interests, supporting the integration of such consumer interests into other policy areas, as well as to increase customers' knowledge of their fundamental rights and their trust in the market and public authorities and to facilitate the complaints and dispute resolution mechanisms. The programme complements, supports and monitors the policies of Member States.

**CHAPTER 33 04 — CONSUMER PROGRAMME** (*cont'd*)**33 04 01** (*cont'd*)

This general objective shall be pursued through the following four specific objectives:

- safety: to consolidate and enhance product safety through effective market surveillance, in particular in the Digital Single Market, throughout the Union. Since 2016, the Rapid Alert System for dangerous non-food products has facilitated information exchange and cooperation between Member States, with over 20 000 alerts concerning dangerous products registered so far. The feedback ratio of reports of other authorities to notifications indicating 'serious risk' has also significantly increased, which indicates a higher level of cooperation between authorities,
- information and education and support to consumer organisations: to improve consumers' education, information and awareness of their rights and empowerment regarding consumer policy, to develop the evidence base for consumer policy and to provide support for consumer organisations, also taking into account the specific needs of vulnerable consumers. With approximately one third of the budget allocated to European Consumer Centres (ECCs), the number of customer contacts with ECCs and visits to ECCs' websites continues to increase each year, with 111 563 contacts and over 4,6 million website visits in 2016. Consumer Champion and Consumer Classroom initiatives — this is an interactive collaborative website for teachers to promote consumer education in secondary schools — are gaining in popularity, too, with over one million unique visits and over 32 000 registered users, 18 652 of whom are teachers,
- rights and redress: to develop and reinforce consumer rights, in particular through smart regulatory action, and to improve access to simple, efficient, expedient and low-cost redress, including alternative dispute resolution.

According to the Consumer Conditions Scoreboard, over half of Union consumers (52 %) agree that it is easy to settle disputes with retailers and service providers through out-of-court bodies. Since mid-February 2016 the new Online Dispute Resolution (ODR) platform has registered more than 258 registered Alternative Dispute Resolution Entities from 24 Member States. It enables consumers and traders to settle online disputes about domestic and cross-border online purchases without going to court. The platform is designed to boost people's trust in online shopping. In its first year, over 24 000 consumer complaints were lodged on the platform. In addition, awareness-raising campaigns on the ODR platform in 2016 resulted in over 1,5 million online visits,

- enforcement: to support enforcement of consumer rights by strengthening cooperation between national enforcement bodies and by supporting consumers with advice. In 2015, cooperation between Consumer Protection Cooperation (CPC) authorities resulted in compliance checks on 735 commercial websites; irregularities were found in 436 cases (63 %). As of October 2016, 353 of them had been corrected. Provision has been made for new powers for consumer authorities, which would allow for closer coordination of enforcement actions when harmful practices affect a large majority of European consumers.

The programme also takes into account new societal challenges which have grown in importance in recent years. They include: the increased complexity of consumer decision-making, the need to move towards more sustainable patterns of consumption, the opportunities and threats that digitalisation brings, an increase in social exclusion and the number of vulnerable consumers, and an ageing population.

TITLE 33 — JUSTICE AND CONSUMERS

CHAPTER 33 04 — CONSUMER PROGRAMME (*cont'd*)33 04 01 (*cont'd*)

The outcome of implementation of the consumer programme could be indirectly traced in the Consumer Conditions Index, which shows significant improvements, at Union level, in consumer perceptions in 2016 compared to 2014. The largest increases are in knowledge and trust (about 4 %), compliance and enforcement of customer protection (about 3 %), as well as complaints and dispute resolutions (about 2 %).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Remarks

This appropriation is intended to cover:

- hosting, maintenance, security, quality assurance, operation and support (hardware, software and services) of information technology (IT) systems supporting the climate policy objectives, such as the Union Single Registry, Union Transaction Log, the auctioning platforms and IT systems related to the implementation of legislation such as the use of fluorinated greenhouse gases and ozone-depleting substances,

**CHAPTER 34 01 — ADMINISTRATIVE EXPENDITURE IN THE ‘CLIMATE ACTION’ POLICY AREA** (*cont'd*)**34 01 04** (*cont'd*)34 01 04 01 (*cont'd*)

- development, maintenance, operation and support of adequate IT systems for communication, selecting, evaluating, monitoring, reporting on projects and disseminating results of projects of the LIFE programme,
- the engagement of IT experts *intra muros* to support the development, quality assurance, testing and security of critical policy supporting IT systems,
- procurement of technical and administrative assistance relating to communication activities such as social media including the engagement of experts *intra muros*.

It is also intended to provide support to the organisation of international climate events, to activities to which the Union is party and to preparatory work for future international agreements on climate and ozone related matters involving the Union.

*Legal basis*

See Chapter 34 02.

## Remarks

This appropriation is intended to finance measures to support the Union's role in the development, implementation and enforcement of policy and legislation in the area of climate change mitigation. It includes the monitoring of mainstreaming across policy areas by developing, testing and demonstrating policy or management approaches, best practices, solutions for the climate, improving the knowledge base of effective climate mitigation, enhancing its capacity to apply in practice, facilitating development and implementation of integrated approaches and action plans at local, regional or national level, as well as contributing to the development and demonstration of innovative low carbon technologies, systems, methods and instruments for being replicated, transferred or mainstreamed.

COMMISSION  
TITLE 34 — CLIMATE ACTION

CHAPTER 34 02 — CLIMATE ACTION AT UNION AND INTERNATIONAL LEVEL (*cont'd*)

34 02 01 (*cont'd*)

The following priorities will be taken into account:

- ensuring the implementation of the Union's commitments under the Kyoto Protocol to the United Nations Framework Convention on Climate Change (UNFCCC),
- developing new policies and further implementation of the existing 'Climate and Energy' package, the achievement of the 20/20/20 climate and energy targets of the Europe 2020 strategy and the communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 22 January 2014 'A policy framework for climate and energy in the period from 2020 to 2030' (COM(2014) 15 final) supporting the transition towards a low carbon and climate-resilient economy and society.

The measures financed by LIFE may be implemented through action grants, operating grants, financial instruments, procurement procedures or any other interventions that are needed (Articles 17, 18, 21 and 22 of Regulation (EU) No 1293/2013) including:

- cooperation with Eurocontrol on implementation of Union emissions trading system in aviation,
- the costs of development, maintenance, operation and support (hardware, software and services) of policy support systems, in particular but not exclusively the Union Single Registry, Union Transaction Log and the ozone-depleting substances (ODS) and fluorinated gases monitoring system.

At least 81 % of the budgetary resources for the LIFE programme shall be allocated to projects supported by the way of action grants or, where appropriate, financial instruments (Article 17(4) of Regulation (EU) No 1293/2013).

Cooperation with relevant international organisations and their institutions and bodies shall be possible where needed for the purpose of achieving the climate action objectives.

*Legal basis*

Regulation (EU) No 1293/2013 of the European Parliament and of the Council of 11 December 2013 on the establishment of a Programme for the Environment and Climate Action (LIFE) and repealing Regulation (EC) No 614/2007 (OJ L 347, 20.12.2013, p. 185), and in particular Article 14 thereof.

CHAPTER 34 02 — CLIMATE ACTION AT UNION AND INTERNATIONAL LEVEL (*cont'd*)34 02 02 (*cont'd*)*Remarks*

This appropriation is intended to finance measures to support the Union's role in the development, implementation and enforcement of policy and legislation in the area of climate change adaptation. This includes the monitoring of mainstreaming across policy areas by developing, testing and demonstrating policy or management approaches, best practices, solutions for climate change adaptation including, where appropriate, ecosystem-based approaches, improving the knowledge base of effective climate change adaptation, enhancing its capacity to apply in practice, facilitating the development and implementation of integrated approaches of strategies and action plans to adapt to the impact of climate change at local, regional or national level as well as contributing to the development and demonstration of innovative technologies, systems, methods and instruments for being replicated, transferred or mainstreamed, taking into account the following priorities:

- developing new policies and further implementation of the existing 'Climate and Energy' package, the achievement of the 20/20/20 climate and energy targets of the Europe 2020 strategy, the communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 22 January 2014 'A policy framework for climate and energy in the period from 2020 to 2030' (COM(2014) 15 final) and the communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 16 April 2013 'An EU Strategy on adaptation to climate change' (COM(2013) 216 final) supporting the transition towards a low carbon and climate-resilient economy and society,
- harnessing the contribution of many Union policies (in particular cohesion, agricultural, rural development, research and innovation, transport and energy programmes, external action, etc.) to climate action, in particular through mainstreaming and adaptation measures,
- developing innovative support mechanisms to fully exploit the potential of new technologies to reduce losses caused by climate-change-related events, such as severe drought, flooding and extreme climate events, as well as to develop the Union's capacity for disaster prevention and response,
- supporting the development of 'climate proofing' tools, risk based assessments of programmes and measures to enhance adaptive capacity and resilience to climate change support and 'climate tracking' methodologies to monitor climate-related expenditure under the mainstreaming objective 'to increase the proportion of climate mainstreaming to at least 20 % of the future total Union budget in 2014-2020', with contribution from different policies.

The measures financed by LIFE may be implemented through action grants, operating grants, financial instruments, procurement procedures or any other interventions that are needed (Articles 17, 18, 21 and 22 of Regulation (EU) No 1293/2013).

At least 81 % of the budgetary resources for the LIFE programme shall be allocated to projects supported by way of action grants or, where appropriate, financial instruments (Article 17(4) of Regulation (EU) No 1293/2013).

Cooperation with relevant international organisations and their institutions and bodies shall be possible where needed for the purpose of achieving the climate action objectives.

*Remarks*

This appropriation is intended to finance measures to support the Union's role in enhancing climate governance by broadening stakeholder involvement, including non-profit-making organisations in the development and implementation of policy, building capacity, raising awareness, promoting policies/legislation in the area of climate action and knowledge on sustainable development, supporting communication, management and dissemination of information, facilitating knowledge-sharing of successful climate solutions and practices including developing platforms among stakeholders via cooperation platforms, contributing to more effective compliance with and enforcement of climate legislation, in particular by promoting the development and dissemination of best practices and policy approaches ('success stories').

The following priorities will be taken into account:

- developing new policies and further implementation of the existing 'Climate and Energy' package, the achievement of the 20/20/20 climate and energy targets of the Europe 2020 strategy, the communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 22 January 2014 'A policy framework for climate and energy in the period from 2020 to 2030' (COM(2014) 15 final) and the communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 16 April 2013 'An EU Strategy on adaptation to climate change' (COM(2013) 216 final) supporting the transition towards a low carbon and climate-resilient economy and society,
- promotion of non-profit-making entities primarily active in the field of climate action at a European level and involved in the development and implementation of Union policy and legislation aiming to strengthen the participation of these NGOs in the dialogue process of climate action policymaking, in its implementation and in the European standardisation process to ensure balanced stakeholder representation and the systematic integration of climate-related aspects.

Costs of technical assistance for selecting projects and monitoring, evaluating and auditing projects under the LIFE programme (including non-profit-making organisations supported via operating grants) may also be financed by this appropriation.

The measures financed by LIFE may be implemented through action grants, operating grants, financial instruments, procurement procedures or any other interventions that are needed (Articles 17, 18, 21 and 22 of Regulation (EU) No 1293/2013).

At least 81 % of the budgetary resources for the LIFE programme shall be allocated to projects supported by way of action grants or, where appropriate, financial instruments (Article 17(4) of Regulation (EU) No 1293/2013).

Cooperation with relevant international organisations and their institutions and bodies shall be possible where needed for the purpose of achieving the climate action objectives.

The aim of this study is to compare the life cycle emissions and broad environmental impacts of different types of light-duty vehicles in the context of achieving transport decarbonisation.

*Approach*

**Phase 1**

Mapping of CO<sub>2</sub> and NO<sub>x</sub> emissions, both directly and indirectly, and of other environmental impacts over the entire life cycle of light-duty vehicles.

The vehicle types to be studied should include but not be limited to:

- conventional fossil fuel vehicles,
- electric vehicles (battery, plug-in hybrid, fuel cell),
- biofuel-using vehicles.

*Remarks*

This pilot project will demonstrate nature-based solutions (constructed wetlands/retention ponds) for mitigating the impact of climate change and human land use on water quantity (droughts and floods) and quality (nutrients, pesticides) in agricultural regions. The water cycle is under pressure in agricultural regions, while agricultural practices depend on the availability of water. Therefore the focus of this project will be on solutions that mitigate problems of water availability for rural and agricultural users, while also minimising the impact of agricultural practices on the downstream catchments. Research questions are the following:

- How can nature-based solutions help mitigate hydrological events such as floods and droughts at the farm scale?
- How can these nature-based solutions help mitigate hydrological events at the catchment scale?
- How do these solutions contribute to decreasing water pollution from agricultural areas, such as nutrients, pesticides, sediments and heavy metals?

COMMISSION

TITLE 34 — CLIMATE ACTION

CHAPTER 34 02 — CLIMATE ACTION AT UNION AND INTERNATIONAL LEVEL (*cont'd*)34 02 77 (*cont'd*)34 02 77 04 (*cont'd*)

- What are the total economic costs and benefits of the proposed solutions? What are the other ecosystem services related to these nature-based solutions and which policy/governmental measures have to be taken to exploit them?

This project will select three pilot study regions. In each region, collaboration arrangements will be set up with local agriculture research agencies that will implement the nature-based solutions in existing monitored agricultural areas (discharge and pollution of first/second order streams). Modelling will be based on the combined data from the piloting sites.

- Demonstrating pilot types: For each region, four prototypes (12 in total) of retention ponds/constructed wetlands will be constructed, with variations in size and outflow mechanisms and in position/catchment size. Water quantity and quality will be monitored at the outlet and at the existing monitoring stations on first or second order streams. In order to take into account seasonal effects, monitoring should at least cover one year, with potential for follow-up monitoring beyond the project's lifetime.
- Modelling study: Results from pilot prototypes will be extrapolated to an entire catchment through hydrological modelling. Influence on quantity (floods, base flow) and quality (nutrients, pesticides, pollutants, sediment) of water will be assessed at the watershed scale. Modelling will be based on existing models, although additional calibration and validation will be required. Modelling results should focus on the required densities to achieve a good status at the catchment scale.
- Economic viability: On the basis of a combination of the demonstration and modelling result, the economic viability of the different prototypes will be assessed. Costs and benefits will be quantified, and mechanisms to compensate for the additional ecosystem services will be evaluated.

The development plans will be based on regional cost-benefit analyses and economic tools, including the cost of water resilience plans. The solutions will prevent water cycle pollution and avoid pollution through water discharge. The benefits will be compared to alternative or complementary options. The selection of pilots and regions will take into account relevant Interreg and other Union projects.

Remarks

The appropriations in the Title 'Reserves' are intended for two circumstances only: (a) where no basic act exists for the action concerned when the budget is established; and (b) where there are serious grounds for doubting the adequacy of the appropriations or the possibility of implementing, under conditions consonant with sound financial management, the appropriations entered in the lines concerned. The appropriations entered in this article may be used only after transfer in accordance with the procedure laid down in Article 27 of the Financial Regulation.

*Remarks*

The emergency aid reserve (EAR) is intended to allow for a rapid response to specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection, and situations of particular pressure resulting from migratory flows at the Union's external borders where circumstances so require.

The annual amount of the reserve is fixed at EUR 280 000 000 (2011 prices) and may be used up to year n+1 in accordance with the Financial Regulation. The reserve shall be entered in the general budget of the Union as a provision. The portion of the annual amount stemming from the previous year shall be drawn on first. That portion of the annual amount from year n which is not used in year n+1 shall lapse.

*Remarks*

The aim of this reserve is to cover the European Globalisation Adjustment Fund so as to enable the Union to demonstrate solidarity towards, and to support workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world patterns due to globalisation, as a result of the continuation of the global financial and economic crisis addressed in Regulation (EU) No 1309/2013, or as a result of a new global financial and economic crisis and to provide financial support for their rapid reintegration into sustainable employment.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management.

*Remarks*

The aim of this reserve is to cover the European Union Solidarity Fund in the event of major or regional disasters in the Member States or in countries involved in accession negotiations with the Union. Assistance should be provided in connection with natural disasters to the Member States or countries involved in accession negotiations with the Union concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the 'polluter pays' principle, for example, or received in excess of the final valuation of damage should be recovered.

**ANNEXES**

COMMISSION

**EUROPEAN ECONOMIC AREA**

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheading 1a and headings 2, 3, 4 and 5 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2018 the proportionality factor is estimated at 2,37 % (on the basis of 2016 figures), i.e. 2,21 % for Norway, 0,12 % for Iceland and 0,04 % for Liechtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EFTA contribution for the operational part for 2018 is estimated at about EUR 382 140 961 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget headings concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

#### A. INTRODUCTION

This Annex is drawn up in accordance with Article 35(1) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 31 December 2016, outstanding operations covered by the Union budget totalled EUR 83 246 950 925; of that total EUR 53 633 721 333 was inside the Union and EUR 29 613 229 592 outside (including accrued interest and rounded figures and exchange euro rate applicable at 31 December 2016).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 (OJ L 128, 27.5.2009, p. 1).

Council Decision 2013/531/EU of 22 October 2013 providing precautionary Union medium-term financial assistance to Romania (OJ L 286, 29.10.2013, p. 1).

#### 2. *Description*

In accordance with Regulation (EC) No 332/2002, the Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans was limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

On 22 October 2013, the Council decided to make available to Romania precautionary medium-term financial assistance amounting to a maximum of EUR 2 000 000 000 in the form of a loan with a maximum average maturity of 8 years. The facility expired at the end of September 2015 without having been drawn down.

#### 3. *Effect on the budget*

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2016 the outstanding capital amount under this instrument is EUR 4 200 000 000.

2. **Description**

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

2. **Description**

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000 the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000 the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004 the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in 2006.

In 2013 the Commission decided to grant a loan to Energoatom, Ukraine, of EUR 300 000 000 for safety upgrades of nuclear power plants. The loan will be provided in cooperation with the EBRD, which provides another EUR 300 000 000 loan in parallel. The conditions precedent to the initial availability of the loan have been assessed as fully met in 2015 and the loan was declared effective. The first tranche of EUR 50 000 000 was disbursed in May 2017.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), and subsequently of Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

## BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the European Investment Bank signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the European Investment Bank signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. **Description**

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank (EIB) grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)*

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the EIB against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the EIB the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the EIB had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish an EIB special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU grants an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. The maximum ceiling of the EIB financing operations shall not exceed EUR 30 000 000 000 broken down into a fixed ceiling of a maximum amount of EUR 27 000 000 000 and an optional additional amount of EUR 3 000 000 000 to be decided in accordance with the ordinary legislative procedure following the mid-term review exercise. The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

Commission proposal COM(2016) 583 final of 14 September 2016 foresees an increase in the overall ceiling of the EIB financing operations under the EU guarantee throughout the period 2014-2020 by releasing the optional additional amount of EUR 3 000 000 000 referred to in Decision No 466/2014/EU and by adding a new private sector lending mandate amounting to EUR 2 300 000 000 for projects addressing root causes of migration. The overall ceiling will reach a total amount of EUR 32 300 000 000 and will be broken down into regional ceilings and sub-ceilings.

#### 4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), and subsequently of Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

### 3. *Description*

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank (EIB) decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the EIB might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in EIB loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the EIB against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the EIB to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by six months.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidates: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU grants an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. The maximum ceiling of the EIB financing operations shall not exceed EUR 30 000 000 000 broken down into a fixed ceiling of a maximum amount of EUR 27 000 000 000 and an optional additional amount of EUR 3 000 000 000 to be decided in accordance with the ordinary legislative procedure following the mid-term review exercise. The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

Commission proposal COM(2016) 583 final of 14 September 2016 foresees an increase in the overall ceiling of the EIB financing operations under the EU guarantee throughout the period 2014-2020 by releasing the optional additional amount of EUR 3 000 000 000 referred to in Decision No 466/2014/EU and by adding a new private sector lending mandate amounting to EUR 2 300 000 000 for projects addressing root causes of migration. The overall ceiling will reach a total amount of EUR 32 300 000 000 and will be broken down into regional ceilings and sub-ceilings.

#### 4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), and subsequently of Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

### 3. **Description**

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank (EIB) in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the EIB for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by six months.

2. *Union budget guarantee*

Decision 95/207/EC was the basis for a contract of guarantee signed by the European Community and the European Investment Bank (EIB) in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC was the basis for a contract of guarantee between the EC and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. *Description*

In accordance with the provisions of Decision 95/207/EC, the Union will guarantee European Investment Bank (EIB) loans to South Africa up to a maximum total amount of EUR 300 000 000.

The budget guarantee covers all the debt-servicing (repayment of principal, interest and ancillary costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in the Republic of South Africa. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 375 000 000 is for the Republic of South Africa. It covered a period of three years beginning on 1 July 1997 (with a possible 6-month extension).

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the EIB for loans for projects in the Republic of South Africa. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period beginning on 1 July 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period has been automatically extended by 6 months.

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the EIB signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU grants an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. The maximum ceiling of the EIB financing operations shall not exceed EUR 30 000 000 000 broken down into a fixed ceiling of a maximum amount of EUR 27 000 000 000 and an optional additional amount of EUR 3 000 000 000 to be decided in accordance with the ordinary legislative procedure following the mid-term review exercise. The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

## COMMISSION

## BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)

Commission proposal COM(2016) 583 final of 14 September 2016 foresees an increase in the overall ceiling of the EIB financing operations under the EU guarantee throughout the period 2014-2020 by releasing the optional additional amount of EUR 3 000 000 000 referred to in Decision No 466/2014/EU and by adding a new private sector lending mandate amounting to EUR 2 300 000 000 for projects addressing root causes of migration. The overall ceiling will reach a total amount of EUR 32 300 000 000 and will be broken down into regional ceilings and sub-ceilings.

**4. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), and subsequently of Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

### **Technical notes on tables**

Exchange rate: the amounts in column 2 'Equivalent at date of disbursement' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2016.

Column 3 'Initial amount paid up to 31 December 2016': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2016 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2016': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2016, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 – column 5.

MFA 2011: following the loan agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, and reducing proportionally the liability of Serbia with regard to the long-term loans granted by the Community to the State Union of Serbia and Montenegro (formerly the Federal Republic of Yugoslavia) pursuant to Decisions 2001/549/EC and 2002/882/EC (OJ L 269, 10.10.2008, p. 8), the loans initially granted to Serbia and Montenegro in 2001, 2003 and 2005 have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries.

#### High Growth and Innovative SME Facility under the Competitiveness and Innovation Framework Programme (CIP) (GIF) — Prior to 2014

(i) **Reference to the basic act**

Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007 to 2013) (OJ L 310, 9.11.2006, p. 15).

(ii) **Budget lines corresponding to the relevant operations**

Article 01 04 51 — Completion of programmes in the field of small and middle-sized enterprises (SMEs) (prior to 2014) (in 2015 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The High Growth and Innovative SME Facility (GIF) is one <sup>(1)</sup> of the financial instruments provided for under the Entrepreneurship and Innovation Programme (EIP), which in turn is one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP) <sup>(2)</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation.

The GIF is implemented by the European Investment Fund (EIF) on behalf of the Commission. It aims to increase the supply of equity for innovative SMEs in their early stages (GIF1) and in the expansion phase (GIF2). Investment proposals by financial intermediaries are selected on the basis of a notice of implementation (OJ C 302, 14.12.2007, p. 8).

In general, the CIP market-oriented instruments (both GIF and SMEG 07) have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The GIF is a venture capital facility focused and targeted on a relatively limited number of companies that have the potential to achieve high growth, to bring innovation to the market and to create high-added-value jobs.

As regards the duration, the commitment period for GIF ended on 31 December 2013 but the instruments will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1 130 million, with an original indicative split of EUR 620 million for GIF (including eco-innovation) and EUR 510 million for the SME Guarantee Facility.

<sup>(1)</sup> The other instrument being SMEG 07.

## **Equity Facility for Growth under the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) —2014 to 2020**

### **(i) Reference to the basic act**

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014-2020) and repealing Decision No 1639/2006/EC (OJ L 347, 20.12.2013, p. 33).

### **(ii) Budget lines corresponding to the relevant operations**

Article 02 02 02 — Improving access to finance for small and medium-sized enterprises (SMEs) in the form of equity and debt.

### **(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Equity Facility for Growth (EFG) focuses on funds that provide venture capital and mezzanine finance, such as subordinated and participating loans, to expansion and growth-stage enterprises, in particular those operating across borders, while having the possibility to make investments in early stage enterprises in conjunction with the Equity Facility for Research and Innovation (R&I) under Horizon 2020.

In the latter case, the investment from EFG shall not exceed 20 % of the total Union investment except in cases of multi-stage funds, where funding from EFG and the Equity Facility for R&I will be provided on a pro rata basis, based on the funds' investment policy. The Commission may decide to amend the 20 % threshold in light of changing market conditions.

The EFG may include seed funding, angel funding and quasi-equity financing subject to market demand but exclude asset-stripping.

Support is given in the form of direct investments made by the entrusted entity in financial intermediaries that provide equity or quasi-equity financing to SMEs or indirect investments via funds-of-funds as part of the Pan-European VC funds-of-funds project.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market. The latter will be achieved by focusing predominantly on those risk capital funds which invest cross-border.

The implementation of the EFG has been entrusted to the European Investment Fund (EIF) on the basis of a Delegation Agreement signed on 22 July 2014.

The delegation agreement ensures that the EFG is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support SMEs in their growth and expansion phase.

From a technical point of view, the EIF is instructed to invest on a *pari passu* basis with other private and public investors. Target final recipients are SMEs of all sizes without a specific sector focus.

The duration of the equity instrument is planned to last until 31 December 2034 (until the last operations are wound down).

Regulation (EU) No 1287/2013 provides that no less than 60 % of the total financial envelope for the implementation of the COSME programme shall be allocated to the financial instruments. Based on the distribution of the total amount allocated to the financial instruments between the equity instrument (48 %) and the debt instrument (52 %) as foreseen in the legislative financial statement, the initial overall budget envelope foreseen for the EFG for the total 2014-2020 programming period amounts to EUR 662 million.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The estimated initial budget allocation foreseen for the total programming period amounts to EUR 662 million <sup>(1)</sup>.

The target leverage effect as indicated in the legal basis is between 4 and 6, with EUR 1 from the Union budget resulting in EUR 4-6 in equity investments over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total investment volumes mobilised would range from EUR 2 600 to 3 900 million for the entire duration of the programme.

---

<sup>(1)</sup> This amount is based on the assumption that the distribution between the COSME financial instruments is 52 % for the Loan Guarantee Facility (LGF) and 48 % for the Equity Facility for Growth (EFG) as foreseen in the legislative financial statement, and subject to change, in line with Article 17 of Regulation (EU) No 1287/2013.

Item 04 03 02 03 — Microfinance and Social Entrepreneurship — Increasing access to, and the availability of, financing for legal and physical persons, especially those furthest from the labour market, and social enterprises.

**(iii) General description of the financial instruments, including their duration and their impact on budget**

A Union-level Equity Facility for Research and Innovation ('R&I') is needed to help improve the availability of equity finance for early and growth-stage investments and to boost the development of the Union venture capital market.

The goal is to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovative enterprises, including social enterprises, from the seed stage through to growth and expansion.

The Equity Facility for R&I focuses on early-stage risk capital funds providing venture capital and quasi-equity (including mezzanine capital) to individual portfolio enterprises. That facility has also the possibility to make expansion and growth-stage investments in conjunction with the Equity Facility for Growth (EFG) under the Programme for the Competitiveness of Enterprises and SMEs (COSME), to ensure a continued support during the start-up and development of companies.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

In the latter case, the investment from the Equity Facility for R&I of Horizon 2020 shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity Facility for R&I will be provided on a pro rata basis, based on the funds' investment policy. Like the EFG, the Equity Facility for R&I shall avoid buy-out or replacement capital intended for the dismantling of an acquired enterprise.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market.

In terms of EU added value, the Equity Facility for R&I will complement national schemes that cannot cater for cross-border investments in R&I. The early-stage deals will also have a demonstration effect that can benefit public and private investors across Europe. For the growth phase only at European level it is possible to achieve the necessary scale and the strong participation of private investors that are essential to the functioning of a self-sustaining venture capital market.

The implementation of the direct investments under this facility is entrusted to the European Investment Fund (EIF) in Luxembourg.

The Delegation Agreement (amendment to the Delegation Agreement for the early-stage equity facility under Horizon 2020 signed on 15 June 2015) with the entrusted entity ensures that the early-stage equity facility under Horizon 2020 is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support portfolio companies in their early-stage development and growth.

Through an amendment to the Delegation Agreement signed on 22 July 2015 a new compartment focusing on co-investments alongside Business Angels, in particular in the areas of ICT and social enterprises has been implemented. One of its objectives is to unlock private capital to support the development of the social investment market and facilitate access to finance for innovative social enterprises.

From a technical point of view, the entrusted entity will be instructed to invest on a *pari passu* basis with other private and public investors. The target final recipients are early-stage companies (notably SMEs or small midcaps) without a specific sector focus.

The duration of the equity instrument will not exceed the year 2035 (until last operations are wound down).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The estimated budget allocation foreseen for the total programming period amounts to EUR 487 million, of which EUR 29 million from EaSI.

The envisaged leverage effect of the Equity Facility for R&I of Horizon 2020 will be approximately 4-6 depending on the type of investments and the form of cooperation with venture capital funds and/ or knowledge transfer investors. Based on the leverage targets of the programme, it is estimated that the total amount of venture capital investments mobilised through the sole Horizon 2020 and EaSI contribution would range from approximately EUR 1 950 million to EUR 2 900 million for the entire duration of the programme.

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

The last amendment to the Delegation Agreement has modified the structure of the Equity Facility for R&I branded as InnovFin (IFE) so that IFE is financially supported by the Union contribution for the Horizon 2020 Equity Financial Instrument provided on a first loss basis and the European Fund for Strategic Investments (EFSI) and EIF provided on a second loss basis. The initial indicative size of the IFE facility shall amount to up to EUR 1 018 million. This is supported by the initial EU contribution for the Horizon 2020 Equity Financial Instrument, which has an indicative value of EUR 458 million (45 %). The initial indicative amount of the EFSI participation in the IFE shall amount up to EUR 270 million (26,5 %). The initial indicative amount of the EIF participation in the IFE amounts up to EUR 290 million (28,5 %).

The pan-European venture capital fund-of-funds created through this last amendment can help increase the scale of venture capital funds in Europe and the industry's footprint across all Member States, as well as attracting private investors including (as for investment platforms) pension funds, insurance funds and sovereign wealth funds. The aim of the fund-of-funds is to unlock market-based finance for SMEs and increase cross-border investments. Its creation is part of the Capital Market Union action plan.

### (ii) **Budget lines corresponding to the relevant operations**

Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects — CEF Broadband.

### (iii) **General description of the financial instruments, including their duration and their impact on the budget**

Given the current market failures in the financing of infrastructure projects and in view of recent developments, in particular the establishment of the European Fund for Strategic Investments (EFSI), an Equity Instrument was established under CEF by way of the 2015 CEF Work Programme for a contribution to financial instruments (Commission Implementing Decision C(2015) 8847 final). The establishment of EFSI greatly enhanced the available financing opportunities in the form of debt and made it possible to optimise the use of scarce CEF resources by re-directing a part of the available budget to finance smaller and more risky projects, especially in the area of broadband. The Debt Instrument will nonetheless remain the main delivery mechanism for the financial instruments under CEF. An ex-ante assessment of the CEF Equity Instrument complementing the ex ante assessment of the CEF Debt Instrument has been carried out in 2016, which concluded that an equity fund in the broadband sector may be established under Regulation (EU) No 1316/2013.

Currently, the contribution to the CEF Equity Instrument is foreseen for broadband (EUR 100 million) for the establishment of a Broadband Investment Fund. The Fund will contribute to enhancing the roll-out of broadband networks in line with applicable eligibility criteria (in particular, the support to innovative projects, based on state-of-the-art technology and with a potential for replicability), both via direct financing to private sector companies (focusing on mid-caps and SMEs) and public and private partnerships, and via public or private financial intermediaries.

The Broadband Investment Fund will be implemented under the CEF Equity Instrument by setting up of a dedicated investment vehicle to allow the pooling of contributions from multiple investors (direct management). The Fund will be managed by a fund manager selected in a competitive selection process in 2016. The investment manager is a professional asset manager with extensive experience in infrastructure and, in particular, broadband investments in Europe. For alignment of interest, the investment manager will also subscribe to the fund. The Fund is envisaged to become operational in 2017.

The use of the CEF Equity Instrument in subsequent years of CEF implementation may be considered, for the transport sector, for riskier projects or for projects in immature markets. In the energy sector, the Equity Instrument may be used to intervene in duly justified cases to prevent major delays in the construction of projects of common interest.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The EaSI Capacity Building Investments is one of the financial instruments foreseen under the Employment and Social Innovation ('EaSI') programme. The objectives of this financial instrument are set out in Regulation (EU) No 1296/2013, in particular Article 4 thereof.

*General objective*

To promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable people who wish to start up a micro-enterprise as well as for existing micro-enterprises, and by increasing access to finance for social enterprises.

*Specific objectives under Article 26 of Regulation (EU) No 1296/2013*

To build up the institutional capacity of microcredit providers.

More specifically, EaSI Capacity Building Investments aim at building up the institutional capacity of financial intermediaries that have not yet reached sustainability (i.e. break-even, operational capacity, etc.), including greenfield financial intermediaries, or financial intermediaries that are in need of risk capital to expand further their operations, both in the microfinance and in the social entrepreneurship space. EaSI Capacity Building Investments will be implemented through direct and indirect equity investments in financial intermediaries and loans with an 'equity-like' risk profile in term of subordination or maturity profile to financial intermediaries that are not allowed to receive equity investments by law or due to regulatory restrictions.

The EaSI Capacity Building financial instrument is implemented by the European Investment Fund (EIF) on behalf of the Commission. The amended EaSI Delegation Agreement introducing the set up and the implementation process of EaSI Capacity Building Investments was signed between the Commission and the EIF on 19 December 2016.

Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007 to 2013) (OJ L 310, 9.11.2006, p. 15).

(ii) **Budget lines corresponding to the relevant operations**

Article 01 04 51 — Completion of programmes in the field of small and middle-sized enterprises (SMEs) (prior to 2014) <sup>(1)</sup>.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The SME Guarantee Facility (SMEG 07) is one <sup>(2)</sup> of the financial instruments provided for under the Entrepreneurship and Innovation Programme (EIP), which in turn is one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP) <sup>(3)</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. SMEG 07 contributes to this objective by providing leverage to SME debt financing instruments to increase the supply of debt finance to SMEs.

The SMEG 07 is operated by the European Investment Fund (EIF) on behalf of the Commission. It provides counter- or co-guarantees to guarantee schemes and direct guarantees to financial intermediaries operating in eligible countries.

In general, the CIP market-oriented instruments (both SMEG 07 and GIF) have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The SMEG07 is a counter-cyclical instrument that helped final recipients to face the difficulties arising from the economic conditions since the crisis, namely to obtain or maintain access to finance and to create or maintain jobs over the period.

As regards the duration, the commitment period for the SMEG07 ended on 31 December 2013 but the instrument will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1 130 million, with an original indicative split of EUR 620 million for GIF and EUR 510 million for the SMEG07.

<sup>(1)</sup> Article 01 04 51 also includes: (a) completion actions related to the multiannual programme for enterprise and entrepreneurship, and in particular for small and medium-sized enterprises (SMEs) (2001-2005); (b) the former Article 01 04 04 (in 2013 budget nomenclature) — Competitiveness and Innovation Framework Programme — Entrepreneurship and Innovation Programme.

In the period 2007-2013, a total amount of EUR 1 230,73 million has been committed from the general budget of the Union (initial Seventh Framework Programme budget plus additional EFTA and third country appropriations to that programme) and paid to the European Investment Bank (EIB) to support both Risk-Sharing Finance Facility (RSFF) and Risk-Sharing Instrument (RSI).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The RSFF, co-developed by the Commission and the EIB, was established in June 2007. The Union and the EIB are risk-sharing partners for loans provided by the EIB directly or indirectly to beneficiaries. The European Union, through budget resources for the Seventh Framework Programme, and the EIB have set aside a total amount of up to EUR 2 000 million (up to EUR 1 000 million each) for the period 2007-2013 to cover losses if RSFF loans are not repaid. Through these EU/EIB contributions for risk-sharing and loss coverage, the EIB is able to extend a loan volume of EUR 10 000 million to companies and the research community for their investments in research, development and innovation (RDI).

In early 2012, a new pilot guarantee facility, the RSI (Risk-Sharing Instrument for SMEs and small midcaps, with up to 499 employees) was launched to improve access loan finance for RDI investments. The RSI guarantee facility is part of the RSFF implementation and is carried out by the European Investment Fund (EIF). For this RSI pilot guarantee facility, the Union contribution coming from the Seventh Framework Programme (plus additional EFTA and third country appropriations to that programme) for the period 2012/2013 amounted to EUR 270 million (in addition to the abovementioned amount).

(i) **Reference to the basic act**

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Article 04 03 53 (in part) — Completion of other activities.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The aim of the European Progress Microfinance Facility (the 'Facility') is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, the Facility enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility shall provide Union resources to increase access to, and availability of, microfinance for:

- persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in the preceding indent.

The financial contribution from the general budget of the Union for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 103,6 million, out of which EUR 23,6 million is foreseen for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF *Fonds commun de placement — Fonds d'investissement spécialisé* (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),

## **Loan Guarantee Facility under the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) —2014 to 2020**

### **(i) Reference to the basic act**

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014-2020) and repealing Decision No 1639/2006/EC (OJ L 347, 20.12.2013, p. 33).

### **(ii) Budget lines corresponding to the relevant operations**

Article 02 02 02 — Improving access to finance for small and medium-sized enterprises (SMEs) in the form of equity and debt.

### **(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Loan Guarantee Facility (LGF) provides:

- counter-guarantees and other risk-sharing arrangements for guarantee schemes,
- direct guarantees and other risk-sharing arrangements for any other financial intermediaries meeting the eligibility criteria.

The LGF consists of:

- guarantees for debt financing via loans, including subordinated and participating loans, or leasing, which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived high risk or their lack of sufficient available collateral,
- securitisation of SME debt finance portfolios, which shall mobilise additional debt financing for SMEs under appropriate risk-sharing arrangements with the targeted institutions. Support for those transactions is conditional upon an undertaking by the originating institutions to use a significant part of the resulting liquidity or the mobilised capital for new SME lending within a reasonable period of time. The amount of this new debt financing will be calculated in relation to the amount of the guaranteed portfolio risk and shall be negotiated, together with the period of time, individually with each originating institution.

The LGF covers, except for loans in the securitised portfolio, loans up to EUR 150 000 and with a minimum maturity of 12 months. The LGF may also cover loans above EUR 150 000 in cases where SMEs who meet the criteria to be eligible under the COSME programme do not meet the criteria to be eligible under the SME window in the Debt Facility of the Horizon 2020 programme (the so-called InnovFin SME Guarantee Facility), and with a minimum maturity of 12 months. The LGF is designed in such a way that it will be possible to report on SMEs supported, both in terms of number and volume of loans.

The implementation of the LGF has been entrusted to the European Investment Fund (EIF), on the basis of a Delegation Agreement signed on 22 July 2014.

The Delegation Agreement ensures that the LGF is accessible for a broad range of financial intermediaries (guarantee societies, national promotional institutes, commercial banks, cooperatives, etc.) which are experienced in financial transactions with SMEs or which have the capacity to enter into financial transactions with SMEs.

From a technical point of view, the EIF is instructed to provide capped portfolio guarantees to the financial intermediaries which will cover a portion of expected losses of a portfolio of newly generated SME transactions which have a higher risk profile.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

As far as securitisation transactions are concerned, the EIF is instructed to provide guarantee coverage on a part of the mezzanine tranche of a securitised SME lending portfolio coupled with an undertaking by the financial intermediary to build up a new SME loan portfolio.

Target final recipients under the capped portfolio guarantees and the securitisation transactions are SMEs of all sizes without a specific sector focus. The range of financial products which can be supported through the capped guarantees is very broad so as to not discriminate amongst the SME population which has very differing financing needs depending on a company's stage of development and the sector/industry in which it operates.

The guarantee instrument is planned to last until 31 December 2034 (until last operations are wound down). Individual guarantee agreements to be signed by the entrusted entity will have a maximum duration of ten years.

The LGF may also contribute to the financial instruments to be deployed under the SME initiative, a joint instrument combining EU funds available under COSME and/or Horizon 2020 and ESIF resources in cooperation with the EIB and EIF with a view to generate additional lending to SMEs in specific Member States. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover the mezzanine tranche of the portfolio.

Regulation (EU) No 1287/2013 provides that no less than 60 % of the total financial envelope for the implementation of the COSME programme shall be allocated to the financial instruments. Based on the distribution of the total amount allocated to the financial instruments between the equity instrument (48 %) and the debt instrument (52 %) as foreseen in the legislative financial statement, the initial overall budget envelope foreseen for the LGF for the total 2014-2020 programming period amounts to EUR 717 million.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The estimated initial budget allocation foreseen for the total programming period amounts to EUR 717 million <sup>(1)</sup>.

The target leverage effect as indicated in the legal basis is between 20 and 30, with EUR 1 from the Union budget resulting in EUR 20-30 in financing over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total amount of loan volumes mobilised would range from EUR 14 300 to 21 500 million for the entire duration of the programme.

---

<sup>(1)</sup> This amount is based on the assumption that the overall distribution between the COSME financial instruments is 52 % for the Loan Guarantee Facility (LGF) and 48 % for the Equity Facility for Growth (EFG) as foreseen in the legislative financial statement, and subject to change, in line with Article 17 of Regulation (EU) No 1287/2013.

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

This guarantee facility succeeds and refines the Risk-Sharing Instrument (RSI) pilot under the Risk-Sharing Finance Facility (RSFF) in the Seventh Framework Programme, and is part of a single debt financial instrument supporting the growth of enterprises and their R&I activities. It targets R&I-driven SMEs and small midcaps (with up to 499 employees) requiring loans of between EUR 25 000 and EUR 7,5 million. A loan of more than EUR 7,5 million will be considered on a case-by-case basis.

The European Investment Fund (EIF) implements this facility by providing direct guarantees to financial intermediaries such as banks, which will extend the actual loans to final recipients. The guarantee will cover up to 50 % of intermediaries' potential losses. EIF also offers counter-guarantees to financial intermediaries (such as guarantee institutions) providing risk protection to banks extending loans to R&I-driven SMEs and small midcaps.

R&I-driven SMEs or small midcaps wishing to apply for a loan should contact one of the financial intermediaries signing an agreement (see 'Selection procedure') with EIF. This is a demand-driven facility, with no prior allocations between sectors, countries or regions. However, subject to the successful conclusion of negotiations, the Commission incentivises EIF to make a particular effort to ensure that a significant proportion of final recipients are eco-innovative SMEs and small midcaps.

Expected impact: R&I-driven SMEs and small midcaps able to carry out a greater amount of R&I. The indicators are the number of agreements signed with financial intermediaries and the number and volume of loans made.

Indicative timetable: This facility is available since 10 June 2014.

Selection procedure:

- (a) for financial intermediaries: EIF issues calls for expression of interest, with eligibility and selection criteria defined as part of each call after consultation with DG Research & Innovation;
- (b) for loans: according to the internal processes of the intermediary bank or other financial institution that the SME or small midcap applies to, using normal commercial criteria.

The total budget foreseen for the programming period 2014-2020 to the SMEs and Small Midcaps R&I Loans Service coming from the 'Access to risk finance' part of Horizon 2020 is EUR 1 060 million.

The risk-sharing arrangement with the EIF will leverage the Union contribution to the SME & Small Midcaps R&I Loans Service by a factor of up to 9, thus resulting in loan finance for R&I-driven SMEs and small midcaps of approximately EUR 9 540 million for the entire duration of the programme.

The instrument will also contribute to the financial instruments that will be deployed under the joint SME initiative as endorsed by the October 2013 European Council. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover, in combination with resources from ESIF, COSME and EIF, the mezzanine tranche of the portfolio.

The estimated budget allocation foreseen for the total programming period amounts to EUR 1 060 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 9 over the lifetime of the financial instrument.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The objectives of these financial instruments are set out in Regulation (EU) No 1296/2013, in particular Article 4 thereof.

*General objective*

To promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable people who wish to start up a micro-enterprise as well as for existing micro-enterprises, and by increasing access to finance for social enterprises.

*Specific objectives under Article 26 of Regulation (EU) No 1296/2013:*

- increase access to, and the availability of, microfinance for:
  - vulnerable persons who have lost or are at risk of losing their job, or have difficulty in entering or re-entering the labour market, or are at risk of social exclusion, or are socially excluded, and are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro- enterprises,
  - micro-enterprises in both start-up and development phase, especially micro-enterprises which employ persons as referred to in the previous indent,
- build up the institutional capacity of microcredit providers,
- support the development of the social investment market and facilitate access to finance for social enterprises by making equity, quasi-equity, loan instruments and grants of up to EUR 500 000 available to social enterprises with either an annual turnover not exceeding EUR 30 million, or an annual balance sheet total not exceeding EUR 30 million which are not themselves a collective investment undertaking.

The Union contribution (excluding repayments) may be committed until 31 December 2020, however, in accordance with Article 30(4) of Regulation (EU) No 1296/2013, 'annual repayments generated by one financial instrument shall be assigned to that financial instrument until 1 January 2024'. The budget of the microfinance and social enterprise financial instruments will consist of 21 % of the total EaSI budget for 2014-2020, which is EUR 919 469 000 in current prices.

Its division shall respect the following minimum percentages:

— microfinance for vulnerable groups and micro-enterprises: 45 %,

— social entrepreneurship: 45 %.

The remainder will be split between these two.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

Indicative target results are 41 000 microloans given to final recipients and 1 100 loans given to social enterprises. The target for microfinance has been based on the past experience with the European Progress Microfinance Facility.

The target for social enterprises has been based on the total volume of the guarantees and funded instruments funds, multiplied by the expected leverage and divided by an average investment size of EUR 200 000 per social enterprise.

The indicative budget allocation foreseen for the total programming period amounts to EUR 96 million (EUR 56 million for microfinance and EUR 40 million for social entrepreneurship).

The target minimum leverage effect is 5,5 over the lifetime of the financial instrument for the guarantees part. Based on the target leverage of the instrument, it is estimated that the total amount of 96 million used for the guarantees part would represent around EUR 528 million for the final recipients.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The general objective of the Cultural and Creative Sectors Guarantee Facility is in line with those of the Creative Europe framework programme which is to: to foster the safeguarding and promotion of European cultural and linguistic diversity, and strengthen the competitiveness of the cultural and creative sector, with a view to promoting smart, sustainable and inclusive growth, in line with the Europe 2020 strategy.

The specific objective of the Cultural and Creative Sectors Guarantee Facility strand is to strengthen the financial capacity of the cultural and creative sectors.

The issues it will strive to address are:

- the difficulties for cultural and creative SMEs and projects in accessing bank credits,
- the limited spreading and dissemination of expertise among financial institutions in the area of financial analysis of cultural and creative SMEs and projects throughout the Union.

To respond to these issues, operational objectives will be:

- to provide guarantees to banks dealing with cultural and creative SMEs thereby enabling them easier access to bank credits,
- to provide expertise/capacity building to the financial institutions,
- to increase the number of financial institutions which are willing to work with cultural and creative SMEs,
- to maximise the European geographical diversification of financial institutions willing to work with cultural and creative SMEs.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The budgetary commitments foreseen for the total programming period amount to EUR 121 million, plus up to EUR 2 million expected recoveries from the MEDIA Production Guarantee Fund, in line with Annex I of Regulation (EU) No 1295/2013. The estimated budget allocation foreseen for the total programming period amounts to EUR 123 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 5,7 over the lifetime of the financial instrument.

**(ii) Budget lines corresponding to the relevant operations**

Item 15 02 01 01 (in part) — Promoting excellence and cooperation in European education and training areas and its relevance to the labour market.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The objective of the 'Erasmus+ Master' Student Loan Guarantee Facility (the 'Facility') is to foster and support full programme mobility at master's level (second cycle of higher education). In order to do this, the Facility provides partial guarantees to financial intermediaries which issue loans on favourable conditions to students from Erasmus+ participating countries undertaking a full (one or two-year) master's-level programme outside their country of residence, and outside the country where they obtained their bachelor-level qualification.

Guarantees issued through the Facility cover new eligible student loans up to a maximum of EUR 12 000 for a one-year master's programme and up to EUR 18 000 for a two-year master's programme.

The Facility thus represents a direct contribution to the Union and Bologna Process ministerial target to double the proportion of students completing a study or training period abroad to 20 % by 2020.

The management of the Facility at Union level has been entrusted to the European Investment Fund (EIF), which concludes agreements with financial intermediaries such as banks or national or regional student lending institutions. These participating financial intermediaries in turn pass on the benefit of the EU guarantee by making student loans available free of any requirement for student or family collateral and on favourable terms, e.g. lower than market rate interest, and safeguards against student hardship to include a 'grace period'. Such a 'grace period' enables graduates to find employment before beginning loan repayments and a 'payment holiday' whereby they could freeze repayments if needed such as during a spell of unemployment or maternity.

Capital for the loans is leveraged from the participating financial intermediaries, with the Union acting as part-guarantor against possible final recipient's default on loans. Repayment of loans occurs via 'normal' bank loan mechanisms, with all operational information and processing taking place at a local level.

The Erasmus+ programme 2014-2020 legal basis provides for a total Union contribution of EUR 517 million (3,5 % of the programme's budget), which should enable up to 200 000 students to benefit from loans backed by the Facility. Given the delayed start-up of the Facility and the slow take-up by financial intermediaries, budgetary commitments for the year 2017 have been reduced.

The duration of the instrument will extend to 2037 (i.e. programme in place until 2020 + 2 years commitment deadline + up to 15 years maturity on the student loans).

The Facility provides partial guarantees at up to 90 % of the first losses resulting from final recipient's defaults with a guarantee cap of 18 % of the loan portfolio. The estimated leverage is 5,7 (i.e. approximately EUR 3 000 million to be provided as capital for student loans from participating financial intermediaries).

Article 34 02 01 — Reducing Union greenhouse gas emissions.

Article 34 02 02 — Increasing resilience of the Union to climate change.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The purpose of the PF4EE Instrument (Private Financing for Energy Efficiency) is to provide access to adequate and affordable commercial financing for eligible energy efficiency (EE) investments targeted by schemes developed by participating countries to implement their national energy efficiency action plans (NEEAP) or other programmes in line with EU directives relating to energy efficiency.

The PF4EE instrument provides to financial intermediaries : (i) a portfolio-based credit risk protection (risk-sharing facility or RSF); combined with (ii) expert support services for the FIs in order to support the implementation of the PF4EE instrument; (iii) long-term financing from the EIB.

The RSF is designed to mitigate the credit risk faced by financial intermediaries when lending to final recipients undertaking eligible EE investments. By means of Union funds deposited on a collateral account, the RSF will cover part of the ones incurred under EE loans included in the portfolio to be built by the financial intermediaries for the financing of EE investments.

The RSF aims to increase lending activity and to improve financing conditions for final recipients through, among others, lower pricing, longer maturities and lighter securities requirements. The EIB loan for EE to the financial intermediaries may complement the RSF. Such EIB loans for EE will be provided by the EIB at competitive rates and with long maturities.

The PF4EE needs to be operational for as long as underlying loans covered by the RSF remain outstanding. The maximum tenor to be allowed under the RSF will be 20 years. Therefore the PF4EE will be in place for up to 20 years after the end of the implementation period (2042).

The final recipients include private individuals, home-owner associations, SMEs, corporates or public institutions or bodies, undertaking EE investments in line with the NEEAP of each Member State.

The size of the EE loans provided to beneficiaries range from EUR 40 000, which can be reduced to accommodate small investments within the residential sector, to EUR 5 million and in exceptional cases up to EUR 15 million.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The implementation of the PF4EE started on 8 December 2014 with the signature of the Delegation Agreement.

Under the PF4EE approximately 6-10 financing agreements (EIB Loans for EE and RSF/Expert Support Facility) could be signed with FIs in the period 2014-2017.

COMMISSION  
INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

The budget foreseen to be allocated to PF4EE between 2014 and 2017 is EUR 80 million. The anticipated EIB leverage effect will be six-fold. Taking into account that the EIB is limited by its own internal policies to finance up to 75 % of the eligible EE investments; the target investment leverage effect is eight-fold.

Following the operations signed in 2015 and 2016 and in view of the prospective operations, the EIB now targets to achieve EUR 1 000 million of new investments in energy efficiency during the 2014-2017 pilot phase (EUR 430 million from EIB and EUR 570 million from financial intermediaries), covering 10 Member States.

#### (ii) *Budget lines corresponding to the relevant operations*

Article 08 02 51 (in part) — Completion of previous research framework programme — seventh framework programme — EC indirect action (2007 to 2013).

In the period 2007-2013, a total amount of EUR 1 230,73 million has been committed from the general budget of the Union (initial Seventh Framework Programme budget plus additional EFTA and third country appropriations to that programme) and paid to the EIB to support Risk-Sharing Finance Facility (RSFF), of which EUR 960,73 million correspond to RSFF and EUR 270 million to the Risk-Sharing Instrument (RSI).

#### (iii) *General description of the financial instruments, including their duration and their impact on the budget*

A key objective of the RSFF is to improve access to debt finance for investments in research, development and innovation in the Union, notably by private promoters. It contributes to addressing the financing needs of innovative projects and companies of all size and ownership, including midcaps and SMEs.

The RSFF supports access to finance across the entire research, development, demonstration and innovation (RDI) spectrum, from fundamental research to technological development, demonstration and innovation. The RSFF addresses cross-sector policy goals and related investments needs in a demand-driven, 'first come, first served' way.

The RSFF, co-developed by the Commission and the EIB, was established in June 2007. The Union and the EIB are risk-sharing partners for loans provided by the EIB directly or indirectly to beneficiaries. The European Union, through budget resources for the Seventh Framework Programme, and the EIB have set aside a total amount of up to EUR 2 000 million (up to EUR 1 000 million each) for the period 2007-2013 to cover losses if RSFF loans are not repaid. Through these EU/EIB contributions for risk-sharing and loss coverage, the EIB is able to extend a loan volume of EUR 10 000 million to companies and the research community for their investments in RDI.

RSFF beneficiaries can be European research-intensive entities (companies, stand-alone-projects) as well as research infrastructures. RSFF loans support RDI investments made by promoters and beneficiaries located in the Member States and in associated countries.

Risk-sharing between the Union and the EIB was initially made on a loan-by-loan basis (until 2010). Since 2011, following a recommendation by an independent expert group, risk-sharing is made on a portfolio basis, with first-loss-taking by the Union. The EIB is assuming further risks above a certain threshold in case the Union risk absorption has been fully used.

The amount of EUR 375 million has been repaid from the RSFF to the Equity Facility for Horizon 2020 instrument.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The estimated budget allocation foreseen for the total programming period amounts to EUR 960,73 million for RSFF.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 5 over the lifetime of the RSFF financial instrument.

Based on the target leverage of the RSFF instrument, it was estimated that the total amount of loan volumes mobilised would be around EUR 5 000 million but it reached actually EUR 10 500 million for the entire duration of the programme.

Item 08 02 03 03 — Making the transition to a reliable, sustainable and competitive energy system.

Item 08 02 03 01 — Improving lifelong health and well-being.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The goal is to improve access to debt financing — loans, guarantees, counter-guarantees and other forms of debt and risk finance — for public and private entities and public-private partnerships engaged in research and innovation activities requiring risky investments in order to come to fruition. The focus shall be on supporting research and innovation with a high potential for excellence.

The target final recipients are potentially legal entities of all sizes that can borrow and repay money and, in particular, SMEs with the potential to carry out innovation and grow rapidly; mid-caps and large firms; universities and research institutes; research infrastructures and innovation infrastructures; public-private partnerships; and special-purpose vehicles or projects.

The Loan and Guarantee Service for Research and Innovation is implemented towards a platform approach offering several products specifically designed to address particular needs. The key partner as entrusted entity for the implementation of the Loan and Guarantee Service for Research and Innovation is the European Investment Bank (EIB).

The funding of the Loan and Guarantee Service for Research and Innovation has two main components:

— *demand-driven*, providing loans and guarantees on a first-come, first-served basis, with specific support for beneficiaries such as SMEs and midcaps. This component shall respond to the steady and continuing growth seen in the volume of RSFF lending, which is demand-led. This demand-driven component will be supported by the budget of the Horizon 2020 access to risk finance programme,

COMMISSION

- *targeted*, focusing on policies and key sectors crucial for tackling societal challenges, enhancing competitiveness, supporting sustainable, low-carbon, inclusive growth, and providing environmental and other public goods. This component helps the Union address research and innovation aspects of sectorial policy objectives and will be supported by other parts of Horizon 2020, other frameworks, programmes and budget lines in the Union budget, particular regions and Member States that wish to contribute with their own resources (including through Structural Funds) and/or specific entities (such as Joint Technology Initiatives) or initiatives.

The expiry date of the instrument is expected to be in 2027-2030.

The total budget (primary credits) foreseen for the programming period 2014-2020 for the demand-driven part of the Loan and Guarantee Service for Research and Innovation is EUR 1 060 million. This Horizon 2020 budget contribution will, at least, be matched by the EIB through its own resources, thus allowing increasing the total lending capacity and impact of the Loan and Guarantee Service for Research and Innovation by a factor of two.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The estimated budget allocation foreseen for the total programming period amounts to EUR 1 500 million including EUR 440 million from the Risk-Sharing Finance Facility (RSFF) under the Seventh Framework Programme.

The target leverage effect as indicated in the legal basis is 12,5 over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total amount of loan volumes mobilised would be around EUR 19 000 million.

Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects.

Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects — CEF broadband.

Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects.

**(iii) General description of the financial instruments, including their duration and their impact on the budget****Financial instruments**

Pursuant to Regulation (EU) No 1316/2013, the objective of the financial instruments under the CEF is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage. They shall help finance projects of common interest with a clear EU added value, and to facilitate greater private sector involvement in the long-term financing of such projects in the field of transport, energy and telecommunications, the latter limited to broadband networks.

They shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource utilisation.

In addition, these instruments shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market oriented toolbox of Union financial support.

In 2014, the Commission, following the conclusion of the CEF *ex ante* assessment provided for in Article 14(3) of Regulation (EU) No 1316/2013, decided to set-up and launch a debt risk-sharing instrument for loans and guarantees which will also provide support to project bonds. The *ex ante* assessment can be found at: [http://www.europarl.europa.eu/meetdocs/2014\\_2019/documents/tran/dv/exanteassessmentcef\\_/exanteassessmentcef\\_en.pdf](http://www.europarl.europa.eu/meetdocs/2014_2019/documents/tran/dv/exanteassessmentcef_/exanteassessmentcef_en.pdf)

A CEF Equity *ex-ante* assessment complementing the CEF Debt Instrument (CEF DI) *ex ante* assessment has also been carried out, in particular focusing on energy, the broadband and ICT, and an equity fund may be established under Regulation (EU) No 1316/2013.

### **Implementation of the CEF Debt Instrument and merger of all other financial instruments under Regulation (EC) No 680/2007**

The CEF DI is implemented following the signature of a Delegation Agreement with the EIB in July 2015. Moreover, the Agreement includes the merger of existing instruments (LGTT and the PBI) with the new debt instrument under the CEF which came into effect on 1 January 2016.

#### **Impact on the budget**

Article 14(2) of Regulation (EU) No 1316/2013 (the 'CEF Regulation'), as amended by the Regulation (EU) 2015/1017, provides that the indicative Union contribution for the financial instruments for the period 2014-2020 shall not exceed 8,4 % of the overall CEF budget. This percentage may be raised to 10 % under certain conditions laid down in Article 21(4) of the CEF Regulation.

#### **Duration of the CEF DI**

The last tranche of the Union contribution to the CEF DI shall be committed by the Commission by 31 December 2020. The actual approval of debt financing by the EIB shall be finalised by 31 December 2022.

#### **Risk-sharing instrument for loans and guarantees**

The support through the subordinated debt financing shall not exceed 30 % of the total amount of the senior debt issued. The senior debt financing to be provided under the CEF DI shall not exceed 50 % of the total amount of the overall senior debt financing to be provided by the EIB.

#### **Administrative, performance and treasury management fees**

As established in the legal basis, the administrative and performance fees to be paid to the EIB shall not exceed 2 % and 3 % respectively of the Union contribution effectively used for individual operations.

Pursuant to Article 13(5) of the Financial and Administrative Framework Agreement the treasury management fee is not to exceed 1 % of the Union contribution effectively used to cover operations over the duration of the financial instrument.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

As regards the *energy sector*, the CEF DI should facilitate access of projects of common interest to long term debt financing both on corporate and project finance basis. The instrument should in particular assist the projects of common interest where the instrument can facilitate access to debt capital from commercial lending institutions, institutional investors or senior lending from the EIB. The Delegation Agreement provides that other categories of energy assets (e.g. renewable generation, smart distribution grids) may benefit from the support of the CEF DI in case of ring-fenced contributions from other programmes or bodies.

As regards the *broadband sector*, the CEF DI shall facilitate the efficient flow of private and public investments to stimulate the deployment and modernisation of high speed broadband networks in line with the targets of the Digital Agenda for Europe. In order to ensure best value for money and given the limited resources allocated to CEF broadband, the CEF DI shall be available for projects which rely on the technology best suited for the specific project, can help spur innovative business models and show a high potential for replicability. The CEF DI shall in particular address the special needs of suburban, rural, and sparsely populated and less developed regions, which need to be served with high speed connections. This includes the deployment of broadband networks to link islands, landlocked, mountainous, remote and peripheral regions, including island Member States, with the central regions of the Union and/or actions to improve the reliability or performance of connections between such regions and central regions of the Union.

As regards the *transport sector*, the CEF DI shall serve to increase the total level of investment in transport infrastructures in the EU in the period 2014-2020 in line with the policy objectives and investment volumes foreseen in the legal basis and in Regulation (EU) No 1315/2013 of the European Parliament and of the Council of 11 December 2013 on Union guidelines for the development of the trans-European transport network and repealing Decision No 661/2010/EU (OJ L 348, 20.12.2013, p. 1). In order to ensure complementarity between the projects supported under the CEF and EFSI, the CEF focuses on promoting projects eligible under the respective TEN-T Guidelines including promotion of key European flagship initiatives such as the deployment of ERTMS, SESAR and greening of the shipping fleet and investments on the Core and Comprehensive Networks defined in the CEF Regulation and in the TEN-T Guidelines.

**Financial parameters and leverage**

Risk- and revenue-sharing parameters have been set in such a way that specific policy objectives, including targeting of particular categories of projects, can be achieved while still preserving the market-oriented approach of the CEF DI.

The expected leverage of the CEF DI — defined as the total funding (i.e. Union contribution plus contributions from other financial sources) divided by the Union contribution — shall range from 6 to 15, depending on the type of operations involved (level of risk, target beneficiaries, and the debt financing concerned).

To date, CEF DI portfolio is composed of 11 projects:

- (i) three projects formerly part of the LGTT portfolio (total project costs amounting to EUR 9 294,7 million),
- (ii) seven projects formerly part of the PBI portfolio: one project in the energy sector (EUR 424,9 million in project costs), one ICT project (EUR 189,1 million in project costs) and five transport projects (EUR 3 451,6 million in project costs), and
- (iii) one transport project initially supported under LGTT which was refinanced under the CEF DI in 2016, for EUR 505 million in project costs (amount is at the date of the refinancing).

In addition, the Commission signed with the EIB the first Green Shipping Guarantee, which in turn, has signed an individual guarantee with a private bank in November 2016, for a total amount of EUR 150 million.

Article 34 02 02 — Increasing the resilience of the Union to climate change.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Natural Capital Finance Facility (NCF) will finance upfront investment and operating costs for revenue-generating or cost-saving pilot projects which promote the conservation, restoration, management and enhancement of natural capital for biodiversity and adaptation benefits, including ecosystem-based solutions to challenges related to land, soil, forestry, agriculture, water and waste. The NCF combines direct and indirect financing of projects through debt and equity.

Given that the projects supported by the NCF will be projects that the European Investment Bank (EIB) normally does not invest in, either because they are too small or because their perceived high risk is too high, the facility includes a risk-sharing mechanism whereby the Union funds will absorb first losses in case of project failure. The implementation mechanism is established in a Delegation Agreement between the Commission and the EIB, which also defines exclusion and selection criteria for projects, ensuring that the correct priorities are built in the selection process and that there is sufficient geographical coverage and a balanced spread over project types.

An expert support facility is provided in order to ensure that projects reach a sufficient stage of maturity for financing. The implementation of the NCF has been entrusted to the EIB by means of indirect management.

The NCF pilot phase foresees a programming period of 2014 to 2017 with an implementation period of up to 2019. The Union contribution foreseen for this period is EUR 60 million including EUR 10 million for the Technical Support Facility.

NCF will be developed in two phases: a pilot phase will allow testing different financing options, in order to focus on the most suitable approaches in a second operational phase.

Projects will fall into four broad categories:

- payments for Ecosystem services (PES): projects involving payments for the flows of benefits resulting from natural capital, usually a small scale bilateral transaction with a well identified buyer and seller of an ecosystem service. They are based on the beneficiary pays principle, whereby payments take place to secure critical ecosystem services,
- green infrastructure (GI): GI is a strategically planned network of natural and semi-natural areas with other environmental features designed and managed to deliver a wide range of ecosystem services. It incorporates green spaces (or blue if aquatic ecosystems are concerned) and other physical features in terrestrial (including coastal) and marine areas. On land, GI is present in rural and urban settings. GI projects have the potential to generate revenues or save costs based on the provision of goods and services including water management, air quality, forestry, recreation, flood/erosion/fire control, pollination, increased resilience to the consequences of climate change,

- biodiversity offsets: these are conservation actions intended to compensate for the residual, unavoidable harm to biodiversity caused by development projects. They are based on the polluter pays principle, whereby offsets are undertaken for compliance or to mitigate reputational risks. Projects aimed at compensating damages done to Natura 2000 sites according to Article 6(4) of Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora (OJ L 206, 22.7.1992, p. 7) are not eligible for financing under the NCFE,
- innovative pro biodiversity and adaptation investments: these are projects involving the supply of goods and services, mostly by SMEs, which aim to protect biodiversity or increase the resilience of communities and other business sectors.

The aim is to identify and finance projects with a sufficiently broad geographical and sector coverage, while testing various financial mechanisms, to ensure replicability across the Union during the operational phase.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

During the initial pilot phase, the NCFE is expected to execute 9 to 12 operations (including indirect operations). The amount for each operation committed to any individual investments is expected to be between EUR 5 and 15 million.

The estimated EU budget allocation foreseen for the programming period (2014-2017) amounts to EUR 60 million (including EUR 10 million for the Technical Support Facility).

The target leverage effect as indicated in the Delegation Agreement is 2-4 over the lifetime of the financial instrument (31st December 2019).

Based on the target leverage of the instrument, it is estimated that the total amount of investments and loans mobilised would be of at least EUR 120 million for the entire duration of the programme.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The SME Initiative was presented on 27-28 June 2013 in the Commission's and EIB's joint report to the European Council, to complement and utilise synergies between existing SME support programmes at national and Union level. More specifically, the SME Initiative is a joint-instrument, combining Union funds available under COSME and Horizon 2020 and ERDF-EAFRD resources in cooperation with the EIB and the EIF in view of generating additional lending to SMEs. The EIB is the entrusted entity for the implementation of this initiative. Three types of financial instruments could be implemented under the SME Initiative and they boil down in substance to two alternative ways of operating, namely:

- (a) uncapped guarantees providing capital relief to financial intermediaries for new portfolios of debt finance to SMEs; and

<sup>(1)</sup> Article 46 of Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320) provides for the reporting framework for financial instruments under shared management including — in connection with Article 39(10) of that Regulation — the SME Initiative, which also includes ERDF/EAFRD contributions. Pursuant to Article 111 of Regulation (EU) No 1303/2013, each year by 31 May (in 2017 and 2019 by 30 June), managing authorities have to provide their annual implementation reports on the preceding year, which must include, as an annex, the information on financial instruments set out in Article 46 of that Regulation. That latter article also stipulates that each year, starting in 2016, the Commission shall, within six months of the deadline for the submission of the annual implementation reports referred to in Article 111 of that Regulation, provide summaries of the data on the progress made in financing and implementing the financial instruments. Hence, most of the data relevant with regard to the implementation of financial instruments under shared management will only be available on 30 November each year, and this is true also for 2016.

In terms of budget, Regulation (EU) No 1303/2013 lays down a limit of EUR 8 500 million of aggregate ERDF-EAFRD to be committed under the SME Initiative. In that scenario, the corresponding maximum COSME and Horizon 2020 contributions would amount to EUR 175 million each over the 2014-2016 period.

As of end 2016, the SME Initiative was implemented in six Member States, namely Spain, Malta, Bulgaria, Romania and Finland under the uncapped guarantee instrument, and Italy under the securitisation instrument (option No 1).

### European Progress Microfinance FCP-FIS (EPMF FCP-FIS) — Prior to 2014

(i) **Reference to the basic act**

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Article 04 03 53 (in part) — Completion of other activities.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The aim of the European Progress Microfinance Facility (the 'Facility') is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, the Facility enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility provides Union resources to increase access to, and availability of, microfinance for:

- persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in the preceding indent.

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 103,6 million, out of which EUR 23,6 million for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF *Fonds Commun de Placement* — *Fonds d'Investissement Spécialisé* (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

The FCP-FIS is expected to end on 30 April 2020.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

No further budgetary commitments have been made by the Commission since the end of the commitment period.

The estimated budget allocation foreseen for the total programming period amounts to EUR 103,6 million (cumulative budget for EPMF Guarantee and EPMF FCP-FIS).

The target leverage effect of the Facility is 4,83 over the lifetime of the financial instruments (EPMF Guarantee and EPMF FCP-FIS).

Based on the target leverage of the Facility, it is estimated that the total amount of loan volumes mobilised would be around EUR 500 million.

The aggregate EPMF FCP-FIS budgetary commitments for the period 2010-2013 amount to a total of EUR 80 million. The target volumes of lending to beneficiary persons and micro-enterprises are estimated to EUR 226,4 million for the EPMF (FCP-FIS) debt and equity instruments <sup>(1)</sup>.

## **2020 European Fund for Energy, Climate Change and Infrastructure (Marguerite) — Prior to 2014**

(i) **Reference to the basic act**

Regulation (EC) No 680/2007 of the European Parliament and of the Council of 20 June 2007 laying down general rules for the granting of Community financial aid in the field of the trans-European transport and energy networks (OJ L 162, 22.6.2007, p. 1).

Commission Decision C(2010) 941 of 25 February 2010 on European Union participation in the 2020 European Fund for Energy, Climate Change and Infrastructure (the Marguerite Fund).

(ii) **Budget lines corresponding to the relevant operations**

Article 06 02 51 (in part) — Completion of trans-European networks programme.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Marguerite Fund is a pan-European equity fund developed in the context of the financial crisis and in recognition of the need for successful long-term infrastructure investment in Europe. It supports infrastructure investment within the transport (TEN-T), energy (TEN-E) and renewables sectors in Member States and will primarily invest in greenfield projects.

The core sponsors include public long term investors from France (CDC), Italy (Cdp), Germany (KfW), Spain (ICO) and Poland (PKO) as well as the European Investment Bank (EIB) and the Commission. The size of the Marguerite Fund at final close is EUR 710 million.

Union aggregate budgetary commitments: EUR 80 million from the TEN-T budget

Expected results:

- 30 to 40 % of the total commitments invested in the transport sector,
- 25 to 35 % invested in the energy sector,
- 35 to 45 % invested in the renewable energies sector,
- at least 3,5 times the EU commitment to be invested into TEN-T eligible projects.

The Marguerite Fund has a maximum term of 20 years from the initial closing (December 2009), which may however be extended for up to two additional one-year periods (up to December 2031). The investment period of the Fund ends in December 2016 (four years after the final closing) with a possible extension of up to two additional one-year periods. The period was extended for one year (December 2017).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The estimated budget allocation foreseen for the total programming period amounts to EUR 80 million (fully committed in 2010).

No target leverage effect was indicated in the legal basis and no *ex ante* evaluation was produced by Commission services before the Commission decided to invest in the dedicated investment vehicle. However consultants prepared a market analysis assessing the existence of an equity gap for European infrastructure for the founding investors of the Marguerite Fund in 2009 to which the Commission services had access.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

Between 2009 and 2016, the Marguerite Fund invested an amount of EUR 456 million in 12 projects (mainly equity and mezzanine loans). The total amount of equity provided to those projects reached EUR 1 842 million at the end of 2016, whereas the total amount of investment mobilised (equity and debt together) reached EUR 5 402 million <sup>(1)</sup> at the end of 2016. At this date the Commission has paid to the Marguerite Fund EUR 43,72 million out of a commitment of EUR 80 million.

The current leverage effect amounts to 42 (ratio between total equity provided to projects and the amount paid by the EC = 1842 / 43,72), whereas the overall investment mobilised is 123-times the Union contribution.

Based on this leverage effect, it is estimated that for the entire duration of the programme the total amount of equity provided would be around EUR 3 360 million, or almost EUR 10 000 million of overall investment mobilised.

### **European Energy Efficiency Fund (EEEF) — Prior to 2014**

(i) **Reference to the basic act**

Regulation (EU) No 1233/2010 of the European Parliament and the Council of 15 December 2010 amending Regulation (EC) No 663/2009 establishing a programme to aid economic recovery by granting Community financial assistance to projects in the field of energy (OJ L 346, 30.12.2010, p. 5).

(ii) **Budget lines corresponding to the relevant operations**

Article 32 02 52 (in part) — Completion of energy projects to aid economic recovery.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

On 1 July 2011, EUR 146,3 million from the European Energy Programme for Recovery (EEPR) were allocated to a new European Energy Efficiency Fund — EEEF in the form of a specialised investment fund (SICAV). The EEEF invests in energy efficiency, renewable energy projects, and clean urban transport particularly in urban settings, achieving at least 20 % energy saving or GHG/CO<sub>2</sub> emission reduction.

The beneficiaries must be public authorities or public or private entities acting on their behalf, including ESCOs <sup>(1)</sup>.

The EEEF was launched on 1 July 2011 with an initial volume of EUR 265 million: in addition to the Union contribution (EUR 125 million in junior 'C-shares'), the European Investment Bank (EIB) invested EUR 75 million (mainly senior 'A shares'), Cassa Depositi e Prestiti SpA (CDP) EUR 60 million (mainly senior 'A shares'); and the designated investment manager (Deutsche Bank) EUR 5 million (mezzanine 'B shares').

The EEEF offers a range of non-standard financial products such as senior and junior loans, guarantees, equity participation or forfeiting schemes which can be combined in a flexible way with standard finance.

In addition, about EUR 20 million of the Union funding is available for technical assistance (in the form of grants) to help sponsors make projects bankable for the EEEF. Finally, a EUR 1,3 million programme has been established to raise awareness of financing methods and options for energy efficiency and renewable energy among national and regional authorities managing the Cohesion Fund or the Structural Funds. EPEC <sup>(2)</sup> manages this programme.

In accordance with Regulation (EU) No 1233/2010, the deadline for allocating Union funds to investment projects and technical assistance (TA) was 31 March 2014.

#### *Fund/Investment Manager*

Deutsche Bank is responsible i.e. for selecting projects and conducting a due diligence process before submitting the projects to the EEEF's Investment Committee for advice and to the Management Board for approval. Deutsche Bank also manages the TA component, submitting TA propositions to the Commission's DG ENER for approval.

#### *Investment Committee*

The Investment Committee is responsible for assessing projects submitted to it by the fund manager and giving recommendations to the Management Board. Two EIB members and one member from CDP are appointed to the Investment Committee.

<sup>(1)</sup> An energy service company (ESCO), via an energy performance contract (EPC), can enable a public authority to implement upfront investments (e.g. to upgrade the performance levels of public buildings or to install efficient street lighting) without taking the financial risk.

<sup>(2)</sup> The European PPP Expertise Centre (EPEC) is a joint initiative of the EIB, the Commission, Member States and candidate countries. EPEC helps strengthen the capacity of its public sector members to enter into Public Private Partnership (PPP) transactions.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

*Management Board*

The Management Board has broad powers to administrate and manage the EEEF; it decides on the investments upon recommendation by the Investment Committee. However, it cannot decide on major issues (such as change of the statutes and documentation) without approval by the Supervisory Board. It reports quarterly to the Supervisory Board. It is composed of representatives from the Commission (1), the EIB (1, the chair) and the CDP (1).

*Supervisory Board*

The Supervisory Board's main duties include a permanent supervision of the management of the EEEF, giving strategic advice to the Management Board, proposing the annual EEEF business plan for shareholder approval, and approving changes in the investment guidelines etc. It is composed of representatives from the Commission (2), the EIB (1) and the CDP (1).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The budget allocation foreseen for the total programming period amounts to EUR 146,3 million (fully committed in 2011, EUR 125 million to the EEEF, EUR 20 million in the form of a technical assistance facility (grant) and EUR 1,3 million for awareness raising activities).

No target leverage effect was indicated in the legal basis and no full *ex ante* evaluation was produced before the Commission decided to invest in the dedicated investment vehicle, but in any case a business plan and risk scenarios were prepared.

The EEEF had successfully disbursed EUR 99,8 million of Union contribution to the allocated projects by the end of the investment period (31 March 2014), providing innovative financing solutions to energy efficiency projects. As of 31 December 2016, EUR 128 million have been allocated to 12 projects that has generated some EUR 231 million of total investments. Out of these, the EEEF has signed contracts with 11 projects for EUR 121 million, already generating 224 million final investments.

The achieved leverage at 31 December 2016 is 2,2. This is calculated as the ratio between the total amount of the investments supported by EEEF (EUR 224 million) and the amount of the Union contribution actually disbursed (EUR 99,8 million).

Based on the current investment pipeline, it is estimated that the amount of investments expected to be made by eligible final recipients due to the financing will reach EUR 561 million. The EEEF is open to new investors and can grow further.

**External facilities (not financed exclusively through the European Development Fund)****Regional facilities****Neighbourhood Investment Facility (NIF)****(i) Reference to the basic act**

Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

Regulation (EU) No 232/2014 of the European Parliament and of the Council of 11 March 2014 establishing a European Neighbourhood Instrument (OJ L 77, 15.3.2014, p. 27).

One of the priorities of the European Neighbourhood and Partnership Instrument (ENPI) and of the new European Neighbourhood Instrument (ENI), is promoting investment projects in European Neighbourhood Policy (ENP) partner countries, the scope of which covers the Neighbourhood Investment Facility (NIF).

The EU launched the NIF in 2007. The following eight Commission Decisions have been adopted for this instrument during the period 2007-2013 for a total envelope of EUR 777,4 million (EUR 467,2 million for ENPI South budget line and EUR 310,2 million from ENPI East budget line): C(2007) 6280, C(2008) 2698, C(2009) 3951, C(2009) 8985, C(2010) 4400, C(2010) 7989, C(2011) 5547, C(2012) 4533 and C(2013) 1276. In 2014 additional commitments of EUR 381,7 million were approved: EUR 369,4 million in Commission Decision C(2014) 5750 and a top-up of EUR 12,3 million from Commission Decision C(2013) 5300. In 2015 additional commitments of EUR 295,0 million were approved in Commission Decision C(2015) 2748. In 2016 additional commitments of EUR 224,5 million were approved in Commission Decisions C(2016) 3436 and C(2016) 8387. This provides for aggregated figures for the 2007-2015 period of EUR 1 068 520 334,34 for the South and 610 125 902,58 for the East (in total EUR 1 678 646 236,92). Of this total, only a part has been further invested in projects corresponding to financial instruments. In aggregated figures for the 2007-2016 period, financial instruments correspond to investments of EUR 146 450 000 for the South and 38 300 000 for the East (in total EUR 184 750 000). The balance between this latter amount and the aggregated NIF total mentioned above has been channelled through investment grants and technical assistance projects.

The NIF has included since the beginning of 2011 a Climate Change Window (CCW) under the Environment and the Sustainable Management of Natural Resources including Energy Thematic Programme (ENRTP) of the Development Cooperation Instrument to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures. The NIF CCW is managed in a streamlined way and has in general the same rules and the same financing and implementation modalities as the NIF.

**(ii) Budget lines corresponding to the relevant operations**

Item 22 04 01 02 — Mediterranean countries — Poverty reduction and sustainable development.

Item 22 04 02 02 — Eastern Partnership — Poverty reduction and sustainable development.

**(iii) General description of the financial instruments, including their duration and their impact on the budget***Policy objectives and scope*

The NIF contributes to achieving the objectives of the ENP or related Union thematic policy priorities by leveraging additional financing for the region.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

The NIF's overarching objective is to mobilise additional investments to support the establishment of an area of prosperity and good neighbourliness involving the Union and neighbouring countries. In complementarity with other EU-funded programmes, the NIF can foster sustainable, inclusive growth and a favourable investment climate in our partner countries.

Within this framework, the NIF pursues three strategic objectives, namely:

- establishing better energy and transport infrastructure interconnections between the Union and neighbouring countries and among neighbouring countries themselves,
- addressing threats to our common environment including climate change,
- promoting smart, sustainable and inclusive growth, in particular through support for small and medium size enterprises.

The NIF operations will continue to support the implementation of the ENP Action Plans and focus on five main sectors: energy, environment with a particular focus on climate change mitigation and adaptation, transport, social and small and medium enterprise development.

#### *Geographical coverage and final recipients*

European Neighbourhood Policy partner countries directly eligible for the NIF are neighbourhood countries having signed an action plan with the Union except for those that do not qualify because of their level of development. On a case by case basis, other countries which are not directly eligible may benefit from NIF interventions taking into account regional or specific circumstances. Their eligibility will have to be decided unanimously by Member States and the Commission.

Other final recipients will be the private sector and in particular the SMEs. Both multilateral and national European development finance institutions might be direct beneficiaries and important stakeholders of the facility.

#### *Main technical characteristics*

Under the NIF, risk capital (equity and quasi-equity investments), risk-sharing instruments, guarantees, loans, other financing such as investment grants, interest rate subsidies and technical assistance can be used.

#### *Duration and impact on the budget*

The decisions relating to the NIF are valid for the multiannual financial frameworks 2007-2013 and 2014-2020 and may be extended further following decisions on the next multiannual financial framework.

The final date for contracting is 31 December 2017 relating to decisions from 2016. This is not the date of duration of the facility but the final date for contracting of the individual decisions financing the facility. The duration of individual projects is established on a case-by-case basis, depending on the type of instrument, with an indicative maximum of 180 months from the date of entry into force of the financing agreement or, when none is concluded, from the adoption of the Annual Action Document financing the NIF.

Commission Implementing Decision C(2016) 3436 was adopted on 31 May 2016 and Commission Implementing Decision (2016) 8387 on 7 December 2016 for a maximum contribution East and South of EUR 225,0 million included in the above table.

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The estimated budget allocation foreseen for the total programming period 2014-2020 amounts to EUR 150 million per year, for a total of EUR 1 050 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 4 to 5 over the lifetime of the financial instrument.

It is estimated that the total amount of EUR 1 678 million NIF funds for the period 2008-2016 would mobilise investments and loans from European financial institutions of around EUR 15 941 million. With 9,5, this leverage effect by far exceeds the expected leverage effect. These investments, in turn, are expected to support projects with a total value of about EUR 33 207 million.

**Investment Facility for Central Asia (IFCA) and Asia Investment Facility (AIF)****(i) Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (OJ L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 100), and in particular Article 4(3) thereof.

Based on the first results from the Neighbourhood Investment Facility (NIF), the Commission proposed to set up investment facilities targeting countries under the Development Cooperation Instrument (DCI) Regulation, initially in Central Asia, Asia and Latin America. Two facilities were set up for Asia: the Investment Facility for Central Asia (IFCA) in 2010 and the Asian Investment Facility (AIF) in 2011 for the period 2010-2013. These two facilities have been modelled on the NIF and have the same types of objectives and scope as those defined in the NIF general framework agreed in March 2008 (cf. section on NIF).

As of end 2013, there have been three decisions for the IFCA financed through the 2010, 2011, 2012 and 2013 budgets and three decisions for AIF financed through the 2011 and 2012 (jointly), 2013 and 2014 budgets.

AIF was recreated in 2014 in order to achieve the objectives of Regulation (EU) No 233/2014 for the period 2014-2020 through a new financing decision of EUR 26 million whereas IFCA was recreated by the end of 2014 through a new financing decision of EUR 20 million under the budget 2015.

In 2016, a total amount of EUR 20 million was allocated to IFCA and EUR 45 million to AIF.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The IFCA's main purpose is to promote additional investments and key infrastructures with a priority focus in the first implementation period on energy and environment. Based on the development of the Central Asia strategies, a later extension to transport, SMEs, water/waste management and social infrastructure sectors in the Central Asian countries was envisaged.

The AIF's main purpose is to promote additional investments and key infrastructure with a priority focus on climate change and 'green' investments in the areas of environment and energy and transport as well as in SMEs and social infrastructure. A later extension to the transport sector could be envisaged.

*Geographical coverage and final recipients*

The final recipients of these two facilities are the countries of these two regions. Other final recipients will be the private sector and, in particular SMEs.

Eligible finance institutions will be the entrusted entities and important stakeholders of these two facilities.

*Main technical characteristics*

The types of operations to be financed are the following:

- investment co-financing in public infrastructure projects;
- loan guarantee cost financing;
- interest rate subsidies;
- technical assistance;
- risk capital operations;
- any other risk-sharing mechanisms.

Possible management modes have been centralised (direct and indirect), joint and partially decentralised management and indirect management (budget management mode in force for the use of 2014 funds).

*Duration and impact on the budget*

The IFCA and the AIF were initially established for the duration of the legal basis, i.e., until 31 December 2013. Whereas AIF has already been recreated in 2014 in order to achieve the objectives of Regulation (EU) No 233/2014 for the period 2014-2020 IFCA has also been recreated in 2015.

The final dates for contracting are 31 December 2016 for IFCA and 31 December 2016 for AIF, both related to decisions from 2015. For the financing decision taken in 2014 related to AIF the deadline for contracting is 31 December 2015. The duration of individual projects is established on a case-by-case basis with a maximum of 120 months from the date of entry into force of the financing agreement or, when none is concluded, from the adoption of the 2014 Action Document creating the AIF. The estimated budget allocation foreseen for the total programming period amounts to EUR 340 million for AIF and EUR 140 million for IFCA.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

(1) *IFCA*

The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the IFCA is of EUR 165,57 million. The leverage effect based on historical leverage experience during the period 2010-2016 for the IFCA is estimated as follows:

- total project cost (*circa* EUR 970 million) / IFCA contributions (projects approved through a Commission Decision following a positive opinion of the Board of the DCI Blending Framework: *circa* EUR 143 million): 6,8,
- eligible finance institutions resources (*circa* EUR 605 million) / IFCA contributions (projects approved through a Commission Decision following positive opinion of the Board of the DCI Blending-Framework): 4,2.

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The estimated budget allocation foreseen for the total programming period amounts to EUR 140 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 4 to 5 over the lifetime of the financial instrument.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

Based on the target leverage of the instrument, it is estimated that the total amount of EUR 165 million would mobilise a maximum of EUR 825 million in financing (loans/investment volumes) for the entire duration of the programme.

(2) AIF

The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the AIF is of EUR 183 million. The target leverage effect based on historical leverage experience during the period 2011-2016 for the AIF is estimated as follows:

- total project cost (*circa* EUR 3 152 million) / AIF contributions (projects approved through a Commission Decision following positive opinion of the Board of the DCI Blending-Framework: *circa* EUR 142 million): 22,2,
- eligible finance institutions resources (*circa* EUR 1 782 million)/AIF contributions (projects approved through a Commission Decision following positive opinion of the Board of the DCI Blending-Framework): 12,5.

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The estimated budget allocation foreseen for the total programming period amounts to EUR 340 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is 4 to 5 times over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total estimated amount of EUR 340 million would mobilise a maximum of EUR 1 700 million in financing (loans/investment volumes) for the entire duration of the programme.

(i) **Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (OJ L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 100), and in particular Article 4(3) thereof.

The Facility was initially established in 2009 through the above-mentioned DCI Regulation (EC) No 1905/2006 for the period 2009-2013 with Commission contributions to be decided annually. The LAIF was recreated in 2014 in order to achieve the objectives of Regulation (EU) No 233/2014 for the period 2014-2020 through a financing decision of EUR 30 million.

Item 21 02 51 02 — Cooperation with developing countries in Latin America (completion line).

Item 21 02 51 06 — Environment and sustainable management of natural resources, including energy (completion line).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The LAIF's main purpose is to promote additional investments in infrastructures in the transport, energy, and environment sectors (including water and sanitation, as well as agriculture and rural development) and to support social sector such as health and education, and private sector development in the Latin American countries. The LAIF will support the growth of SMEs, by making available a range of financial instruments in Latin America.

The LAIF included in 2011, a climate change window to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures.

*Geographical coverage and final recipients*

The final recipients will be the Latin American countries listed in Regulation (EC) No 1905/2006 and those referred to in Regulation (EU) No 233/2014.

Other final recipients will be the private sector and in particular SMEs for categories of operations dedicated to private sector development. Eligible finance institutions will be the entrusted entities and important stakeholders of the operations of this financial instrument.

*Main technical characteristics*

The types of operations to be financed under the LAIF are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidies,
- technical assistance,
- risk capital operations,
- any other risk-sharing mechanisms.

Possible management modes have been centralised management (direct and indirect), joint management, partially decentralised management (budget management modes in force until end 2014 for the use of 2013 funds), and indirect management (budget management mode in force for the use of 2014 funds).

*Duration and impact on the budget*

The LAIF was established by Regulation (EC) No 1905/2006 until 31 December 2013 and the budget envelope amounted to EUR 179,35 million. As mentioned above, the LAIF has been recreated in 2014 in order to achieve the objectives of Regulation (EU) No 233/2014 for the period 2014-2020.

The final date for contracting is 31 December 2017 relating to decisions from 2016. This is not the date of duration of the facility but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis, taking into account that the end date of the operational implementation period of decision DCI-ALA/2014/037-570 is 31 December 2030. The estimated budget allocation foreseen for the total programming period amounts to EUR 320 million.

— eligible European finance institutions resources (*circa* EUR 3 672 million) / LAIF contributions (projects approved through a Commission Decision following positive opinion of the Board of the DCI Blending-Framework): 13,4.

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The estimated budget allocation foreseen for the total programming period amounts indicatively to EUR 320 million.

The target leverage effect as indicated in the legal basis in the *ex ante* evaluation is 4 to 5 over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total amount of EUR 322 million would mobilise a maximum of EUR 1 600 million financing (loans/investments volumes) for the entire duration of the programme.

### Support to the Facility for Euro-Mediterranean Investment and Partnership (FEMIP)

(i) **Reference to the basic act**

Previous acts were the *Mesures d'accompagnement financières et techniques* (MEDA I and MEDA II for 1996-2006).

The latest act for FEMIP is the European Neighbourhood and Partnership Instrument (ENPI for 2007-2013) for which the legal basis is Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Item 19 08 01 01 — European Neighbourhood and Partnership financial cooperation with Mediterranean countries (in 2013 budget nomenclature <sup>(1)</sup>).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The objective of the support to FEMIP is to provide capital to the private sector of Mediterranean partner countries on terms that are not available locally.

Risk capital is invested directly or indirectly in order to: (i) support the private sector, i.e. enable the creation, restructuring or growth of enterprises; (ii) strengthen the role of the local financial sector by supporting the creation of new institutions or the establishment of new activities for the benefit of the private sector.

Technical assistance is mobilised to strengthen FEMIP operations in the Mediterranean region, with a special focus on private sector development.

*Geographical coverage and final recipients*

FEMIP covers nine southern Mediterranean states. The beneficiaries of the Risk Capital Facility are the private sector in general and SMEs as well as financial intermediaries. The beneficiaries of technical assistance are private enterprises, public institutions and the financial intermediaries.

*Main technical characteristics*

This action with the objective of financing risk capital and technical assistance operations is implemented in indirect centralised management with the European Investment Bank.

The European Investment Bank is entrusted to carry out the following operations:

- risk capital operations,
- technical assistance operations.

<sup>(1)</sup> The last contribution was committed in 2013, hence the 2013 budget line reference.

*Duration and impact on the budget*

FEMIP was established for the duration of the multiannual financial framework 2007-2013. There has been an annual budgetary commitment of EUR 32 million against budget line 19 08 01 01 for each of the seven years of that period. Therefore, the total financial envelope for 2007-2013 is EUR 224 million. (EUR 180 million for risk capital operations and EUR 33 million for technical assistance).

The final date of implementation for the 2013 commitment is 31 December 2029.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

No payments were foreseen in 2016 to the FEMIP, as no more commitments were foreseen after 2013.

The estimated budget allocation foreseen for the total programming period amounts to EUR 224 million.

The leverage effect as expected according to the applications performed until 2015 is 19,54.

Based on the target leverage of the instrument, it is estimated that the total amount of EUR 224 million will mobilise investments/ loan volumes around EUR 4 376 million for the entire duration of the programme.

## Global Energy Efficiency and Renewable Energy Fund (GEEREF)

(i) **Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

The GEEREF was approved in the annual action plans (AAPs) of the four-year thematic programme for environment and sustainable management of natural resources including energy (ENRTP 2007-2010).

Legal basis for the Regional Fund Support Facility (RFSF): preparatory action within the meaning of Article 54 of the Financial Regulation.

(ii) **Budget lines corresponding to the relevant operations**

Item 21 02 51 06 — Environment and sustainable management of natural resources, including energy (completion line).

Item 21 02 77 14 — Global Energy Efficiency and Renewable Energy Fund (GEEREF).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The GEEREF is an innovative financing vehicle aiming to promote energy efficiency and renewable energy in developing countries and economies in transition. Structured as a fund-of-funds, GEEREF's strategy is to invest in — and thus help develop — regional private equity funds whose investments will target small and medium-sized energy efficiency and renewable energy projects.

The objectives are to contribute to the expansion of renewable energy, energy efficiency and other related clean energy technologies to markets and services in developing countries and economies in transition, with the objective to increase access to low carbon, secure and affordable energy, and to help improve the economic and social circumstances of underserved or disadvantaged populations, to encourage sustainable economic development, while promoting the protection of the environment.

*Geographical coverage and final recipients*

The scope of the GEEREF is to support regional sub-funds for sub-Saharan Africa, Caribbean and Pacific Island states, the countries of the European Neighbourhood Policy including Russia, Latin America, and Asia (including Central Asia and the Middle East). There will be a special emphasis on serving the needs of the African, Caribbean and Pacific (ACP) countries.

*Duration and impact on the budget*

The end date of the activities under GEEREF is 31 December 2023, as calculated from the date the last commitment was recorded.

Article 21 02 07 — Global public goods and challenges and poverty reduction, sustainable development and democracy.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

#### **ElectriFI**

The aims of the financial instruments are to (a) bridge the gaps in structuring and financing of investments addressing the lack of access to clean, reliable and affordable electricity and energy services all over the world with a view to attracting the development financing sector, and (b) de-risk investments to attract the interest of a wider range of financial institutions, including commercial banks.

#### **AgriFI**

The main objective is to develop inclusive, sustainable and climate-smart agriculture based value chains. Agriculture has the potential to generate growth, employment in rural areas and along the value chains, and to manage environmental services. To fully exploit three priorities have been set:

- (1) Produce knowledge and analyse experiences to help policy makers and investors to design strategies, policies and projects.
- (2) Facilitate the establishment of public-private stakeholder alliances and strengthen capacities of various operators along the value chain (farmers and their organisations, MSMEs, market organisations etc.) to improve governance, to access existing and new markets (domestic and international), and to remain competitive.
- (3) Increase investments in the agriculture value chain to start 'rural transformations' through blending mechanisms.

#### **Climate Change**

The action's objectives are as follows:

- meeting the demand of low-carbon and climate change resilient infrastructure in sub-Saharan Africa;

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH POINT (E) OF ARTICLE 49(1) OF THE FINANCIAL REGULATION

- systematically translating local climate strategies into concrete investments;
- fully achieving/maximising climate co-benefits of urban projects;
- building local governments' capacities to implement climate-friendly urban projects;
- take part to the dissemination of local climate strategies in sub-Saharan Africa, in complementarity with existing initiatives;
- fully complete a low carbon cities mechanism in Africa, in connection with the deployment of the Covenant of Mayors to sub-Saharan Africa and other major initiatives (e.g. UNCDF's LoCAL program, Africa4Climate program, Urban LEDS programme, the Mobilise Your City initiative, etc.).

A transversal objective is also to ensure the contribution of cities for countries to abide by their Intended National Determined Contributions (INDCs), which is central for the implementation of the Paris Agreement on Climate Change.

*Geographical coverage and final recipients*

Thematic initiatives are not attributed a priori to a specific geographical region under the corresponding financing instrument. Targeted countries are countries eligible under the DCI financing instrument.

*Main technical characteristics*

The financial instruments are implemented by indirect management. The types of operations to be financed are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidies,
- technical assistance,
- risk capital operations,
- any other risk-sharing mechanisms.

*Duration and impact on the budget*

The final date for contracting is 31 December 2017 relating to decisions from 2016 or amendments made in 2016 to decisions of 2015. This is not the date of duration of the operations but the final date for contracting the individual decisions relating to the initiatives. The duration of individual operations is established on a case-by-case basis.

The budgetary impact understood as the total financial envelope in terms of global commitments as of end 2016 for is EUR 193 311 212. It is estimated that investments of approximately EUR 1 400 million would be mobilised based on the total global commitments.

The leverage effects are estimated as follows:

- total project cost (circa EUR 968 million / ElectriFI contribution (projects approved through a Commission decision following positive opinion of the Board of the DCI Blending Framework: EUR 131 million) : 7,4;
- eligible European finance institutions resources (EUR 458 million) / ElectriFI contributions (projects approved through a Commission decision following positive opinion of the Board of the DCI Blending Framework: EUR 131 million): 3,5.

*AgriFI*

Blended finance and technical assistance will aim at promoting investment in the smallholder and MSME agribusiness sector where a high development impact is expected, but where high risks and/or low rates of return cannot attract public lenders or commercial financiers without grant support. The grant support will be provided only when there is high development impact, additionality, adherence to social, environmental and fiscal standards, or when innovative technologies are being used that can potentially be replicated.

The budgetary impact understood as the total financial envelope in terms of global commitments as of end 2016 is EUR 69 000 000. It is estimated that about EUR 538 million will be mobilised with respect to this global envelope.

The leverage effects are estimated as follows:

- total project cost (circa EUR 234 million / Union contribution (projects approved through a Commission decision following a positive opinion of the Board of the DCI Blending Framework: EUR 30 million) : 7,8;
- eligible European finance institutions resources (EUR 31 million) / Union contributions (projects approved through a Commission decision following a positive opinion of the Board of the DCI Blending Framework: EUR 30 million) : 1.

*Climate Change*

Activities will consist in: (a) supporting city climate planning when needed, and in connection with the Covenant of Mayors in sub-Saharan Africa and other relevant Union initiatives; and (b) preparing low-carbon and resilient urban infrastructure projects stemming from urban climate strategies and urban planning with coherent climate mainstreaming approach. Additionally, this action will aim at supporting around 25 cities in Africa in the financing of climate-friendly investment projects through the provision of loans which will total an estimated EUR 600 000 000. The Union support of EUR 8 000 000 is in the form of technical assistance.

Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA) (OJ L 210, 31.7.2006, p. 82), and in particular Article 14(3) thereof.

Regulation (EU) No 231/2014 of the European Parliament and of the Council of 11 March 2014 establishing an Instrument for Pre-accession Assistance (IPA II) (OJ L 77, 15.3.2014, p. 11).

(ii) **Budget lines corresponding to the relevant operations**

Item 22 02 04 01 — Multi-country programmes, regional integration and territorial cooperation.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The financial instrument of the Union for the Guarantee Facility I contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans.

Its major objectives are the creation of preconditions for the emergence and growth of innovative and high-potential companies. The instrument will guarantee SME loan portfolios issued by commercial banks for new SME lending. This will entail improving SME access to lending and potentially lowering the cost of borrowing.

Under the Guarantee Facility, guarantees of first loss of new loans to targeted SMEs with a guarantee rate of up to 70 % and a guarantee cap of up to 25 % in the overall loan portfolio can be used. Exact guarantee rate and cap is being determined on a case-by-case basis.

The Commission implements the Guarantee Facility under indirect management in accordance with Article 139 of the Financial Regulation (through a fiduciary and management agreement). Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The Guarantee Facility is to be implemented under indirect management, with the implementation tasks entrusted to the EIF.

The Guarantee Facility started in 2013 and will guarantee loans with maturity until 2023. The geographical coverage will be the Western Balkans in line with Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The financial envelope for the instrument under IPA I amounts to EUR 21,9 million (of which EUR 1,9 million is a provision for fees to the EIF as the manager and EUR 20 million is the guarantee capital) that was committed and paid out to the EIF.

### **(iii) General description of the financial instruments, including their duration and their impact on the budget**

The financial instrument of the Union for the Enterprise Expansion Fund (ENEF) contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans.

Its major objectives are the creation of preconditions for the emergence and growth of innovative and high-potential companies. The instrument will finance development and expansion capital in established SMEs with high-growth potential in their respective markets through equity participation. Under the instrument, equity and quasi-equity investment can be used.

The Commission implements the ENEF under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The ENEF is to be implemented under indirect management with the implementation tasks entrusted to the EIF.

In 2016, the ENEF financed four investments as follows:

- an investment was signed in 2016 in the amount of EUR 1,8 million in Serbia,
- an investment was signed in 2016 in the amount of EUR 3 million in former Yugoslav Republic of Macedonia,
- an investment was signed in 2016 in the amount of EUR 1,3 million in Serbia,
- an investment was signed in 2016 in the amount of EUR 10 million for Croatia.

The EBRD has built up a pipeline of deals which were undergoing due diligence as at 31 December 2015. Following an investment period of maximum five years, its portfolio will be wound up in a subsequent period of maximum five years. EUR 10,4 million were paid out to the EIF in its function as a trustee in December 2012. This amount shall leverage a total investment in the fund of EUR 55 million approximately, implying the leverage factor of 5 combined with foreseen EBRD 'one for one' co-investments from the Local Enterprise Facility the total investment can reach EUR 110 million implying the leverage factor of 10. The remaining EUR 0,4 million will be disbursed after January 2018.

The aggregate budgetary commitment of EUR 11,0 million from IPA I may be increased under the multi-beneficiary programme IPA II, subject to the assessment of the performance of the ENEF and the adoption of the corresponding financing decisions.

The estimated budget allocation foreseen for the total programming period amounts to EUR 11 million.

The target leverage effect as anticipated in the project application form for EDIF is 10 over the lifetime of the ENEF.

Based on the target leverage of the instrument, it is estimated that the total amount of EUR 110 million of investments would be made for the entire duration of the programme.

There are projects in Kosovo, Montenegro and Albania in the pipeline, which were approved by the ENEF Investment Committee.

Item 22 02 04 01 — Multi-country programmes, regional integration and territorial cooperation (in 2015 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The financial instrument of the Union for the Enterprise Innovation Fund (ENIF) contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans. Its major objectives are the creation of preconditions for the emergence and growth of early stage innovative companies through equity investments. The ENIF will finance early to development and expansion stage capital in innovative SMEs. Under the instrument, equity and quasi-equity investment can be used.

The Commission implements the ENIF under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The ENIF is implemented under indirect management with the implementation tasks entrusted to the EIF.

EIF, as part of its responsibilities as platform coordinator has been charged with the selection of the private sector Fund Manager for ENIF.

After ENIF's second closing in 2016, the total amount of the commitments to the Fund are EUR 39,9 million (out of which Union contribution was EUR 12,5 million), whereby investments from EBRD, DEG, OeEB, Croatia, former Yugoslav Republic of Macedonia, Montenegro and Kosovo as well as private investors were secured.

The investments signed in 2016 are the following:

- Drytools in Serbia, EUR 300 000;
- Cityexpert in Serbia, EUR 700 000;
- Agrivi in Croatia, EUR 1 000 000;
- Letz in former Yugoslav Republic of Macedonia, EUR 100 000;
- Bulb in Croatia, EUR 2 000 000;
- Cognism in former Yugoslav Republic of Macedonia, EUR 100 000.

There are investments in the pipeline in Serbia for signature in 2017.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The financial envelope of the ENIF amounts to EUR 21,2 million (of which EUR 0,9 million is a provision for fees to the EIF as the Trustee for the Commission, EUR 6,2 million is a provision for technical assistance and EUR 14,1 million is the equity part) that was committed and paid out to the EIF in its function as a trustee. As at 31 December 2016 the amount is considered as cash equivalent (fiduciary account) on the balance sheet of DG NEAR and not yet a financial instrument. This amount leveraged a total investment of approximately EUR 40 million, implying the leverage factor of 2.

The estimated budget allocation foreseen for the total programming period amounts to EUR 21,2 million.

The target leverage effect as anticipated in the project application form for EDIF is 2 over the lifetime of the ENIF.

The target amount of EUR 40 million of the ENIF was reached, and the investments would be made for the entire duration of the programme.

The aggregate budgetary commitment of EUR 21,2 million from IPA I may be increased in the future under the Multi-beneficiary Programme IPA II, subject to the assessment of the instrument performance and adoption of the corresponding financing decisions.

Item 22 02 04 01 — Multi-country programmes, regional integration and territorial cooperation (in 2015 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The European Fund for Southeast Europe (EFSE) is a form of public-private-partnership. Its objective is to attract capital from the private sector thereby leveraging public donor funds that will assist the development of the private sector in the region. EFSE extends loans to local commercial banks and micro-finance institutions in the Western Balkans for on-lending to micro and small enterprises and households. The European Investment Fund (EIF) manages the EFSE, the latter generating impacts at three different levels:

- supporting micro and small enterprises as the backbone of the local economies, thereby contributing to generating income and creating employment,
- satisfying the basic need of decent shelter,
- strengthening local financial markets.

The EFSE has a revolving nature and has an undetermined duration. Extension of the underlying Delegation Agreements establishing a trusteeship for the IPA funds in EFSE with the EIF was included under IPA II, multi-country programme 2015 and the agreement signed in December 2016.

The total amount of the Union contributions to EFSE, i.e. EUR 88 968 090, includes share and cash transfers from other instruments during the period 2006-2011.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

No commitment for additional financing from IPA II of the new shares subscriptions in EFSE took place in 2016.

The estimated budget allocation foreseen for the total programming period as at 31 December 2016 equals the total allocation to date, i.e. EUR 88 968 090.

The achieved leverage effect of the EFSE at present is in the order of 40.

Based on the achieved leverage of the EFSE, it is estimated that it will generate in order of EUR 3 600 million of loans to eligible final recipients.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The mission of the Green for Growth Fund, south-east Europe is to contribute, in the form of a public private partnership with a layered risk/return structure, to enhancing energy efficiency and fostering renewable energies in south-east Europe and Turkey, predominantly through the provision of dedicated financing to businesses and households via partnering with financial institutions and direct financing.

GGF's investments seek to achieve a 20 % reduction in energy consumption and/or a 20 % reduction in CO<sub>2</sub> emissions, by

- refinancing financial institutions (local commercial banks, non-bank financial institutions such as microfinance institutions and leasing companies and other selected financial institutions) providing loans to households, businesses, municipalities and public sector for energy efficiency measures or renewable energy projects. Investments through financial institutions will constitute the majority of GGF's investments,
- providing direct financing to non-financial institutions (energy service companies, renewable energy companies or projects, small scale renewable energy and energy efficiency service and supply companies) that meet GGF energy-saving and/or emissions targets, and comply with the technical criteria and GGF exclusion list.

The GGF has a revolving nature and has an undetermined duration. A new underlying Delegation Agreement establishing a trusteeship for the IPA funds in GGF with EIF has been signed in December 2016, with allocations for the trusteeship fee from IPA II, multi-country programme 2015. The total amount of the Union contributions to the instrument, i.e. EUR 38 633 232, includes subscription to C-shares.

### **SME Recovery Support Loan for Turkey**

(i) **Reference to the basic act**

Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA) (OJ L 210, 31.7.2006, p. 82).

Crisis Response Package, IPA 2009/021-373.

(ii) **Budget lines corresponding to the relevant operations**

Item 22 02 51 — Completion of former pre-accession assistance (prior to 2014) (in 2015 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The overall objective of the SME Recovery Support Loan for Turkey is to mitigate the crisis impact for SMEs and contribute to the development of the Turkish economy and employment sector. The main objective is to support SMEs with concrete productive investments by providing access to attractive and longer-dated debt financing. The co-financing of loans is to be provided to local commercial banks operating in Turkey (the 'financial intermediaries') for the benefit of eligible investments carried out by SMEs. In the context of the action, the European Investment Bank (EIB) shall extend loans from its own resources together with the Union contribution loans.

Individual SMEs are eligible for financing from a financial intermediary using funding available through the action (each a 'sub-loan') up to a maximum amount of EUR 5,0 million and a minimum amount of EUR 200 000 and with a minimum maturity of four years.

The financial Commission commitment of the instrument amounts to EUR 30,0 million (of which EUR 360 000 are for management fees). It is a joint management action with the EIB who contributes with EUR 120,0 million. The action will end in December 2017. A one-year extension was approved in December 2016 in order to give the EIB the time to explore the existence of the pre-conditions to continue the action with a second round of sub-loans, as already set out in the Contribution Agreement signed with the EIB in 2009. The second round of sub-loans would use the Union contribution which has been repaid to EIB by financial intermediaries together with new resources of EIB. A second round is likely to entail an extension of the termination date of at least three years.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The 2009 Union commitment of EUR 30 million has supported a lending volume of EUR 150 million to the two participating Turkish banks.

The estimated budget allocation foreseen for the total programming period amounts to EUR 30 million.

The target leverage effect as indicated in the legal basis and in the *ex ante* evaluation is '1 to 10' over the lifetime of the financial instrument.

Based on the target leverage of the instrument, it is estimated that the total amount of loan volumes mobilised would be around EUR 300 million for the entire duration of the programme. In the case of a second round of sub-loans with additional EIB funds the actual leverage of the initiative would change.

**CHAPTER A3 02 — FINANCING ANTI-FRAUD MEASURES** (*cont'd*)**A3 02 01** (*cont'd*)*Remarks*

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

- devising, developing, improving and managing information exchange systems and common infrastructures, while respecting confidentiality and security requirements,
- searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),
- supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,
- financing measures to increase the effectiveness of preventive measures, inspections and investigations,
- strengthening cooperation with national administrations, in particular to combat cigarette smuggling,
- organising and participating in monitoring and on-the-spot inspections,
- financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,
- covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,
- covering the costs of conferences, congresses and meetings that the Office organises in its anti-fraud work.

*Remarks*

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

CHAPTER A4 02 — INTERINSTITUTIONAL COOPERATION, INTERINSTITUTIONAL SERVICES AND ACTIVITIES

**A4 02 01** *Interinstitutional cooperation, interinstitutional services and activities*

*Remarks*

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

- improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,
- reducing the length of the selection process,
- considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,
- establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,
- providing all the necessary facilities to enable the participation of applicants with disabilities.
