## A. INTRODUCTION AND FINANCING OF THE GENERAL BUDGET

### INTRODUCTION

The general budget of the Union is the instrument which sets out and authorises the total amount of revenue and expenditure deemed necessary for the European Union and the European Atomic Energy Community for each year.

The budget is established and implemented in compliance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency.

- The *principle of unity* and the *principle of budgetary accuracy* mean that all revenue and expenditure of the Union when it is charged to the budget must be incorporated in a single document.
- The *principle of annuality* means that the budget is adopted for one budgetary year at a time and that both commitment and payment appropriations for the current budgetary year must, in principle, be used in the course of the year.
- The *principle of equilibrium* means that forecasts of revenue for the budgetary year must be equal to payment appropriations for that year; borrowing to cover any budget deficit which may arise is not compatible with the own resources system and will not be authorised.
- In accordance with the *principle of unit of account*, the budget is drawn up and implemented in euros and the accounts shall be presented in euros.
- The *principle of universality* means that total revenue is to cover total payment appropriations with the exception of a limited number of revenue items which are assigned to particular items of expenditure. Revenue and expenditure are entered in full in the budget without any adjustment against each other.
- The *principle of specification* means that each appropriation must have a given purpose and be assigned to a specific objective in order to prevent any confusion between appropriations.
- The *principle of sound financial management* is defined by reference to the principles of economy, efficiency and effectiveness.
- The budget is established in compliance with the *principle of transparency*, ensuring sound information on the implementation of the budget and the accounts.

The budget presents appropriations and resources by purpose (activity-based budgeting), with a view to enhancing transparency in the management of the budget with reference to the objectives of sound financial management and in particular efficiency and effectiveness.

The expenditure authorised by the present budget totals EUR 160 113 520 011 in commitment appropriations and EUR 144 680 980 690 in payment appropriations, representing a variation rate of + 0,18 % and of + 14,13 % respectively by comparison with the 2017 budget.

Budgetary revenue totals EUR 144 680 980 690. The uniform rate of call for the VAT resource is 0,30 % (except for Germany, Netherlands and Sweden for which the rate of call for the period 2014-2020 has been fixed at 0,15 %) whilst that for the GNI resource is 0,6524 %. Traditional own resources account for 15,79 % of the financing of the budget for 2018. The VAT resource accounts for 11,92 % and the GNI resource for 71,01 %. Other revenue for this financial year is estimated at EUR 1 848 645 936.

The own resources needed to finance the 2018 budget account for 0,91 % of the total GNI.

The tables below set out step by step the method used to calculate the financing of the 2018 budget.

## FINANCING OF THE GENERAL BUDGET

**Appropriations to be covered during the financial year 2018 pursuant to Article 1 of Council Decision 2014/335/EU, Euratom of 26 May 2014 on the system of own resources of the European Union**

| 11. Correction for the United Kingdom = (9) – (10)                                   |                                | 4 992 305 660          |

<sup>(1)</sup> Rounded percentages.  
<sup>(2)</sup> The amount of enlargement-related expenditure corresponds to total allocated expenditure in 13 Member States (that have acceded to the EU after 30 April 2004), except for agricultural direct payments and market-related expenditure as well as that part of rural development expenditure originating from the EAGGF, Guarantee Section.  
<sup>(3)</sup> The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource.  
<sup>(4)</sup> These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 20 % as of 1 January 2014 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

*Remarks*

The common organisation of the market in the sugar sector provided that sugar, isoglucose and inulin syrup producers had to pay basic and B production levies. These levies were intended to cover market support expenditure. At present amounts entered under this article are a consequence of the revision of past established levies. Levies for the marketing year 2007/2008 till the marketing year 2016/2017 are entered under Article 1 1 7 of this chapter as a 'production charge'.

Figures are net of collection costs.

*Remarks*

This article is intended to record revenue from the outstanding sugar storage levies as Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector (OJ L 178, 30.6.2001, p. 1) abolished the storage levy.

It also covers the outstanding amounts due pursuant to Article 5 of Commission Regulation (EEC) No 65/82 of 13 January 1982 laying down detailed rules for carrying forward sugar to the following marketing year (OJ L 9, 14.1.1982, p. 14) when the obligation to store sugar carried forward is not complied with, and the amounts due in accordance with Council Regulation (EEC) No 1789/81 of 30 June 1981 laying down general rules concerning the system of minimum stocks in the sugar sector (OJ L 177, 1.7.1981, p. 39) when the general rules concerning the system of minimum stocks in the sugar sector are not complied with.

This article is also intended for the recording of income charged by new Member States in the event of non-elimination of sugar stocks considered surplus within the meaning of Commission Regulations laying down transitional measures in the sugar sector by reason of the accession.

Figures are net of collection costs.

*Remarks*

This article is intended to record revenue from the production charge levied on undertakings producing sugar, isoglucose or inulin syrup in accordance with Article 128 of Regulation (EU) No 1308/2013.

The production charge was collected and declared by Member States for the last time under the general budget of the Union for 2017 following the end of the sugar quota system in marketing year 2016/2017 on 30 September 2017. Any incoming revenue under this article would only concern possible regularisations of certain files, for which estimates are not possible in advance.

Figures are net of collection costs.

*Remarks*

This article is intended to record revenue from the surplus amount levied and charged by the Member States to the sugar undertakings concerned located on its territory.

Following the end of the sugar quota system in marketing year 2016/2017 on 30 September 2017, any incoming revenue under this article would only concern possible regularisations of certain files, for which estimates are not possible in advance.

Figures are net of collection costs.

*Remarks*

The assignment of customs duties as own resources to the financing of common expenditure is the logical consequence of the free movement of goods within the Union. This article may comprise levies, premiums, additional or compensatory amounts, additional amounts or factors, Common Customs Tariff duties and other duties established or to be established by the institutions of the European Union in respect of trade with third countries and customs duties on products under the expired Treaty establishing the European Coal and Steel Community.

Figures are net of collection costs.

*Remarks*

The GNI-based resource is an 'additional' resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments and other revenue in any particular year. By implication, the GNI-based resource ensures that the general budget of the Union is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (VAT-based payments, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States' gross national income for this financial year is 0,6524 %.

## CHAPTER 1 5 — CORRECTION OF BUDGETARY IMBALANCES

**1 5 0** *Correction of budgetary imbalances granted to the United Kingdom in accordance with Articles 4 and 5 of Decision 2014/335/EU, Euratom*

| Financial year 2018 | Financial year 2017 | Financial year 2016 |

*Remarks*

The budgetary imbalance correction mechanism in favour of the United Kingdom (UK correction) was introduced by the European Council in Fontainebleau in June 1984 and the resulting own resources decision of 1985. The purpose of the mechanism is to reduce the UK budgetary imbalance through a reduction in its payments to the Union.

| p.m.                | 6 404 529 791       | 1 349 116 813,74    |

#### *Remarks*

In accordance with Article 18 of the Financial Regulation, the balance from each financial year, whether surplus or deficit, is entered as revenue or expenditure in the budget of the subsequent financial year.

The relevant estimates of such revenue or expenditure are entered in the budget during the budgetary procedure and, where appropriate, in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with the principles set out in Article 1(1) of Regulation (EU, Euratom) No 608/2014.

After the closure of the accounts for each financial year, any discrepancy in relation to the estimates is entered in the budget for the following financial year through an amending budget that must be presented by the Commission within 15 days following the submission of the provisional accounts.

A deficit is entered in Article 27 02 01 of the statement of expenditure in Section III 'Commission'.

#### *Legal basis*

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 18 thereof.

Council Regulation (EU, Euratom) No 608/2014 of 26 May 2014 laying down implementing measures for the system of own resources of the European Union (OJ L 168, 7.6.2014, p. 29).

*Remarks*

Under Article 7(1) of Regulation (EEC, Euratom) No 1553/89, Member States are to send the Commission a statement of the total amount of the VAT resources base for the previous calendar year before 31 July.

Each Member State is debited with an amount calculated on the basis of that statement according to Union rules and credited with the 12 payments actually made during the previous financial year.

Any corrections to the abovementioned statements resulting from Commission controls in accordance with Article 9 of Regulation (EEC, Euratom) No 1553/89 or/and any changes to the GNI of previous financial years that have an effect on the capping of the 'VAT' base will lead to adjustments of the 'VAT' balances.

The Commission shall inform the Member States of the amounts resulting from this calculation before 1 February of the year following that in which the data for the adjustments was supplied.

*Legal basis*

Council Regulation (EEC, Euratom) No 1553/89 of 29 May 1989 on the definitive uniform arrangements for the collection of own resources accruing from value added tax (OJ L 155, 7.6.1989, p. 9).

*Remarks*

On the basis of figures for aggregate gross national income and its components from the preceding year, supplied by the Member States in accordance with Article 2(2) of Regulation (EC, Euratom) No 1287/2003, each Member State shall be debited with an amount calculated according to Union rules and credited with the 12 payments made during that previous financial year.

Any changes to the gross national product/gross national income of previous financial years pursuant to Article 2(2) of Regulation (EC, Euratom) No 1287/2003, subject to Articles 4 and 5 thereof, gives rise for each Member State concerned to an adjustment to the balance established pursuant to Article 10b(4) of Regulation (EU, Euratom) No 609/2014.

The Commission shall inform the Member States of the amounts resulting from this calculation before 1 February of the year following that in which the data for the adjustments was supplied.

*Remarks*

Result of the calculation for the netting of adjustments to the VAT and GNI-based resources of previous financial years.

This calculation is the product of multiplying the total amounts of the adjustments referred to in Article 10b(1) to (4) of Regulation (EU, Euratom) No 609/2014, with the exception of particular adjustments pursuant to points (b) and (c) of Article 10b(2) of that Regulation, by the percentage that the GNI of that Member State represents of the GNI of all Member States, as applicable on 15 January to the budget in force for the year following that in which the data for the adjustments was supplied.

The Commission shall inform the Member States of the amounts resulting from this calculation before 1 February of the year following that in which the data for the adjustments was supplied.

CHAPTER 3 4 — ADJUSTMENT RELATING TO THE NON-PARTICIPATION OF CERTAIN MEMBER STATES IN CERTAIN POLICIES IN THE AREA OF FREEDOM, SECURITY AND JUSTICE

**3 4 0** *Adjustment for the impact of the non-participation of certain Member States in certain policies in the area of freedom, security and justice*

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| p.m.                | p.m.                | 6 378 878,24        |

*Remarks*

Article 3 of the Protocol on the position of Denmark and Article 5 of the Protocol on the position of the United Kingdom and Ireland, annexed to the Treaty on European Union and the Treaty on the Functioning of the European Union, grant full exemption to these Member States from supporting the financial consequences of some specific policies in the area of freedom, security and justice, with the exception of the related administrative costs. They can therefore obtain an adjustment to the own resources paid for each year in which they do not participate.

Each Member State's contribution to the adjustment mechanism is calculated by applying to the budget expenditure resulting from this operation or policy the scale of the aggregate gross national income and its components from the preceding year, supplied by the Member States in accordance with Article 2(2) of Council Regulation (EC, Euratom) No 1287/2003 of 15 July 2003 on the harmonisation of gross national income at market prices (OJ L 181, 19.7.2003, p. 1).

The Commission works out each Member State's balance and informs it in time for that Member State to enter its balance in the account referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 on the first working day of December, in accordance with Article 11 of that Regulation.

*Legal basis*

Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39), and in particular Article 11 thereof.

Protocol on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 3 thereof, and Protocol on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 5 thereof.

*Remarks*

This article is intended to record revenue from the interest yielded by pre-financing.

In accordance with point (d) of Article 21(3) of the Financial Regulation, this revenue may be used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Interest generated by pre-financing payments made from the budget shall not be due to the Union except as otherwise provided for in the delegation agreements, with the exception of those agreements concluded with third countries or the bodies they have designated. In cases in which it is provided for, such interest shall be reused for the corresponding action, deducted from payment requests in accordance with point (c) of the first subparagraph of Article 23 of the Financial Regulation, or recovered.

Delegated Regulation (EU) No 1268/2012 also lays down provisions regarding the accounting of interest yielded on pre-financing.

*Remarks*

Revenue resulting from cooperation agreements between the Union and third countries, in particular those participating in European cooperation in the field of scientific and technical research (COST) in order to associate them with Union research programmes.

**CHAPTER 6 0 — CONTRIBUTIONS TO UNION PROGRAMMES** (*cont'd*)**6 0 1** (*cont'd*)6 0 1 3 (*cont'd*)

Any contributions received are to cover the costs of meetings, experts' contracts and research expenditure under the programmes in question.

In accordance with Article 21 of the Financial Regulation, any revenue will be used to provide additional appropriations under Articles 02 04 50, 05 09 50, 06 03 50, 08 02 50, 08 03 50, 08 04 50, 09 04 50, 15 03 50, 32 04 50, 32 05 50 (indirect action), 10 02 50 and 10 03 50 (direct action) of the statement of expenditure in Section III 'Commission', depending on the expenditure to be covered.

The association of Switzerland to parts of Horizon 2020 Framework Programme, to Euratom Programme 2014-2018 and to the activities carried out by the European Joint Undertaking for ITER and the Development of Fusion for Energy for 2014-2020 (Fusion for Energy), was expected to last until 31 December 2016.

Following the ratification of the Protocol to the Agreement between the European Community and its Member States, of the one part, and the Swiss Confederation, of the other, on the free movement of persons, regarding the participation of the Republic of Croatia as a Contracting Party, following its accession to the European Union (OJ L 31, 4.2.2017, p. 3) by the Swiss Federal Council on 16 December 2016, as of 1 January 2017 the Agreement associating Switzerland to Horizon 2020 continues to apply and it is expanded to cover Horizon 2020 in its entirety, the Euratom Programme 2014-2018 and the activities carried out by Fusion for Energy.

*Legal basis*

Partnership and Cooperation Agreement between the European Communities and their Member States, and Ukraine (OJ L 49, 19.2.1998, p. 3) signed on 14 June 1994, entered into force on 1 March 1998 and remains applicable for the parts not covered by the provisional application of the Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part.

Council Decision 2008/372/EC of 12 February 2008 on the signing and provisional application of a Protocol to the Euro-Mediterranean Agreement establishing an association between the European Communities and their Member States, of the one part, and the State of Israel, of the other part, on a framework Agreement between the European Community and the State of Israel on the general principles governing the State of Israel's participation in Community programmes (OJ L 129, 17.5.2008, p. 39).

## CHAPTER 6 1 — REPAYMENT OF MISCELLANEOUS EXPENDITURE

6 1 1 *Repayment of expenditure incurred on behalf of one or more Member States*

## 6 1 1 3 Revenue from the investments provided for in Article 4 of Decision 2003/76/EC — Assigned revenue

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| p.m.                | p.m.                | 35 732 929,25       |

*Remarks*

Decision 2003/76/EC stipulates that the Commission is entrusted with winding up the financial operations of the European Coal and Steel Community which are still in progress upon expiry of the ECSC Treaty.

Pursuant to Article 4 of that Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by the Research Fund for Coal and Steel.

The net revenue available for financing research projects in year  $n + 2$  appears in the balance sheet of the ECSC in liquidation for year  $n$ , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism took effect in 2003. Revenue coming from 2016 will be used for research in 2018. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2018 comes to EUR 27 400 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel-related sector and 27,2 % for the coal-related sector.

In accordance with Article 21 and Article 181(2) of the Financial Regulation, revenue will be used to provide additional appropriations under Chapter 08 05 of the statement of expenditure in Section III 'Commission'.

*Legal basis*

Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22).

7 0 0 0      Default interest in respect of own resources made available by the Member States

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| 5 000 000           | 5 000 000           | 24 228 921,70       |

*Remarks*

Any delay by a Member State in making the entry in the account opened in the name of the Commission referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 gives rise to the payment of interest by the Member State concerned. However the recovery of amounts of interest below EUR 500 shall be waived.

For the VAT and GNI-based own resources, interest shall be payable only in relation to delays in entering amounts referred in Article 12(2) of Regulation (EU, Euratom) No 609/2014.

In the case of Member States belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate as published in the Official Journal of the European Union, C series, which the European Central Bank applied to its main refinancing operations on the first day of the month in which the due date fell, or 0 per cent, whichever is higher, increased by 2,5 percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay.

In the case of Member States not belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate applied on the first day of the month in question by the central banks for their main refinancing operations, or 0 per cent, whichever is higher, increased by 2,5 percentage points. For the Member States for which the central bank rate is not available, the interest rate shall be equal to the most equivalent rate applied on the first day of the month in question on the Member State's money market, or 0 per cent, whichever is higher, increased by 2,5 percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay.

The total increase shall not exceed 16 percentage points. The increased rate shall be applied to the entire period of delay.

| p.m.                | p.m.                | 35 170 433,24       |

*Remarks*

This article is intended to record capital repayments and interest payments on special loans and risk capital granted from the appropriations in Chapters 22 02 and 22 04 of the statement of expenditure in Section III 'Commission' to Mediterranean third countries.

It also comprises capital repayments and interest payments on special loans and risk capital granted to certain Mediterranean Member States which, however, represent a very small proportion of the overall amount. These loans/ risk capital were granted at a time those countries had not yet joined the Union.

The revenue obtained normally exceeds the amounts forecast in the budget because of the interest payments on special loans which may still be disbursed during the preceding financial year as well as during the current financial year. The interest on special loans and risk capital is charged from the moment the loans are disbursed; interest on special loans is paid in six-monthly instalments and interest on risk capital generally in annual instalments.

This article may accommodate, in accordance with Article 21 of the Financial Regulation, assigned revenue which is used to provide additional appropriations to finance expenditure to which this revenue is assigned.

*Legal basis*

For the legal basis, see remarks for Chapters 22 02 and 22 04 of the statement of expenditure in Section III 'Commission'.

<sup>(1)</sup> Net book value entered in balance sheet at 31 December 2016 (except when stated otherwise).

<sup>(2)</sup> These appropriations represent the cumulative amounts entered in Items 2 0 0 0 (rent), 2 0 0 1 (annual lease payments) and 2 0 0 3 (acquisition of immovable property).

<sup>(3)</sup> Commission's contribution towards the Union delegations.

<sup>(4)</sup> These appropriations cover the renting of premises financed by Item 10 01 05 03 'Other management expenditure for research and innovation programmes — Horizon 2020'.

<sup>(5)</sup> Net book value entered in balance sheet at 31 December 2016 for the renovated Annex buildings 'A', 'B' and 'C' and for the buildings complex of the new Palais (the renovated original Palais, Anneau, two towers and connecting gallery) under lease-purchase contracts.

<sup>(6)</sup> Net booked value in 2017. The buildings of the Union delegations were transferred to the European External Action Service on 1 January 2011.

<sup>(7)</sup> These appropriations represent the amount entered for rents in Item 3 0 0 3 (infrastructure in delegations) and include amounts transferred from Section III 'Commission' as a result of the 2015 budgetary procedure. As from 2015, appropriations for rents and construction/acquisition of delegations' premises are fully included in Section X.

EUROPEAN PARLIAMENT

## TITLE 2

## BUILDINGS, FURNITURE, EQUIPMENT AND MISCELLANEOUS OPERATING EXPENDITURE

*Remarks*

Since risk cover has been revoked by insurance companies, the risk of industrial conflicts and terrorist attacks for the European Parliament buildings needs to be covered through the general budget of the European Union.

The appropriations of this title accordingly cover all expenses in connection with damage resulting from industrial conflicts and terrorist attacks.

## CHAPTER 2 0 — BUILDINGS AND ASSOCIATED COSTS

2 0 0 **Buildings**

## 2 0 0 0 Rent

*Remarks*

This appropriation is intended to cover:

- expenditure committed for promoting relations between the European Parliament and national parliaments. It relates to parliamentary relations other than those covered by Chapters 1 0 and 3 0, exchanges of information and documentation, and assistance in the analysis and management of that information, including exchanges with the European Centre for Parliamentary Research and Documentation (ECPRD),
- funding of cooperation programmes and training schemes for officials of the European Parliament and national parliaments and, in general, activities to strengthen their parliamentary capacities.

Training schemes include study visits to the European Parliament in Brussels, Luxembourg and Strasbourg; the appropriation is intended to cover all or part of the expenditure incurred by participants, in particular travelling costs, travel expenses, accommodation and daily allowances,

- cooperation measures, including those linked to legislative work, and measures linked to documentation, analysis and information and making the [www.ipex.eu](http://www.ipex.eu) domain secure, including those carried out by the ECPRD.

This appropriation aims at financing the cooperation between the European Parliament and national parliaments in the parliamentary scrutiny of the CFSP/CSDP, in accordance with the Treaty on European Union and the Treaty on the Functioning of the European Union, and in particular Articles 9 and 10 of Protocol No 1 on the role of national parliaments in the European Union.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 100.

*Remarks*

To foster an effective dialogue among Members, the scientific community and journalists — especially in relation to current scientific and technological developments and issues — the European Parliament can benefit from a dedicated and authoritative structure to support for discussion, training and dissemination of knowledge in this field. A 'European Science-Media Hub' has been established for that purpose, and its operation will be overseen by the European Parliament's STOA Panel.

Appropriations under this article, which are intended to enhance activities at the interface between the European Parliament, the scientific community and the media, will cover the costs of the European Science-Media Hub, in order specifically to promote networking, training and knowledge dissemination, by for example:

- setting up and maintaining networks at the interface between the European Parliament, the scientific community and the media;

**CHAPTER 3 2 — EXPERTISE AND INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISSEMINATION** (*cont'd*)**3 2 6** (*cont'd*)

- organising seminars, conferences and training courses on current scientific and technological developments and issues and on the nature and effectiveness of science journalism;
- harnessing expert information and analysis from academia, the media and other sources in the field of science and technology for the benefit of policy-makers and citizens;
- making the European Parliament research and other relevant material in the field of science and technology more widely available by written, audiovisual and other means;
- developing techniques and methods for increasing the ability to identify and disseminate trustworthy sources in the field of science and technology;
- supporting the installation, upgrading and/or use of state-of-the-art technical equipment and media facilities in support of such dialogue;
- developing closer cooperation and link more generally between the European Parliament, relevant media outlets and universities and research centres in this field, including through promotion in the media of the role, and work of the European Scienc-Media Hub as well as its accessibility for citizens.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 100.

COMMISSION

**CHAPTER 5 2 — REVENUE FROM INVESTMENTS OR LOANS GRANTED, BANK AND OTHER INTEREST** (*cont'd*)**5 2 2** (*cont'd*)

In accordance with point (d) of Article 21(3) of the Financial Regulation, this revenue may be used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Interest generated by pre-financing payments made from the budget shall not be due to the Union except as otherwise provided for in the delegation agreements, with the exception of those agreements concluded with third countries or the bodies they have designated. In cases in which it is provided for, such interest shall either be reused for the corresponding action, deducted from payment requests in accordance with point (c) of the first subparagraph of Article 23(1) of the Financial Regulation or recovered.

Delegated Regulation (EU) No 1268/2012 also lays down provisions regarding the accounting of interest yielded on pre-financing.

*Legal basis*

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 8(4) and point (d) of Article 21(3) thereof.

Commission Delegated Regulation (EU) No 1268/2012 of 29 October 2012 on the rules of application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union (OJ L 362, 31.12.2012, p. 1).

*Remarks*

This article is intended to record interest and other revenue generated on trust accounts.

The trust accounts are kept on behalf of the Union by international financial institutions (European Investment Fund, European Investment Bank, Council of Europe Development Bank/Kreditanstalt für Wiederaufbau, European Bank for Reconstruction and Development) managing Union programmes and the amounts paid in by the Union remain on the account until they are made available to the beneficiaries under the single programme, such as small and medium-sized enterprises or institutions managing projects in accession countries.

In accordance with Article 21(4) of the Financial Regulation, interest generated by trust accounts used for Union programmes is used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

*Legal basis*

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 21(4) thereof.

COMMISSION

## CHAPTER 6 1 — REPAYMENT OF MISCELLANEOUS EXPENDITURE

6 1 1 *Repayment of expenditure incurred on behalf of one or more Member States*

6 1 1 3 Revenue from the investments provided for in Article 4 of Decision 2003/76/EC — Assigned revenue

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| p.m.                | p.m.                | 35 732 929,25       |

*Remarks*

Decision 2003/76/EC stipulates that the Commission is entrusted with winding up the financial operations of the European Coal and Steel Community (ECSC) which are still in progress upon expiry of the ECSC Treaty.

Pursuant to Article 4 of that Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by the Research Fund for Coal and Steel.

The net revenue available for financing research projects in year  $n + 2$  appears in the balance sheet of the ECSC in liquidation for year  $n$ , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism took effect in 2003. Revenue coming from 2016 will be used for research in 2018. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2018 comes to EUR 27 400 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel-related sector and 27,2 % for the coal-related sector.

In accordance with Article 21 and Article 181(2) of the Financial Regulation, revenue will be used to provide additional appropriations under Chapter 08 05 of the statement of expenditure in this section.

*Legal basis*

Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22).

## TITLE 7

## DEFAULT INTEREST AND FINES

## CHAPTER 7 0 — DEFAULT INTEREST AND INTEREST ON FINES

7 0 0 *Default interest*

7 0 0 0 Default interest in respect of own resources made available by the Member States

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| 5 000 000           | 5 000 000           | 24 228 921,70       |

*Remarks*

Any delay by a Member State in making the entry in the account opened in the name of the Commission referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 gives rise to the payment of interest by the Member State concerned. However the recovery of amounts of interest below EUR 500 shall be waived.

For the VAT and GNI-based own resources, interest shall be payable only in relation to delays in entering amounts referred in Article 12(2) of Regulation (EU, Euratom) No 609/2014.

In the case of Member States belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its main refinancing operations on the first day of the month in which the due date fell, or 0 per cent, whichever is higher, increased by 2,5 percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay.

In the case of Member States not belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate applied on the first day of the month in question by the central banks for their main refinancing operations, or 0 per cent, whichever is higher, increased by 2,5 percentage points. For the Member States for which the central bank rate is not available, the interest rate shall be equal to the most equivalent rate applied on the first day of the month in question on the Member State's money market, or 0 per cent, whichever is higher, increased by 2,5 percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay.

The total increase shall not exceed 16 percentage points. The increased rate shall be applied to the entire period of delay.

*Legal basis*

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 78(4) thereof.

Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39), and in particular Article 12 thereof.

COMMISSION

CHAPTER 7 1 — FINES AND PENALTIES (*cont'd*)7 1 0 (*cont'd*)*Remarks*

The Commission may impose fines, periodic penalty payments and other penalties on undertakings and associations of undertakings for not respecting bans or not carrying out their obligations under the Regulations enumerated below or under Articles 101 and 102 of the Treaty on the Functioning of the European Union.

The fines must normally be paid within three months of the Commission decision being notified. However, the Commission will not collect the amount due when the undertaking has lodged an appeal with the Court of Justice of the European Union. The undertaking must provide the Commission with either a provisional payment or a financial guarantee covering both the principal of the debt and interest or surcharges by the final date for payment.

*Legal basis*

| p.m.                | p.m.                | 0,—                 |

*Remarks*

The Union guarantee is for borrowings raised on the capital markets or from financial institutions. The amount in principal of loans which may then be granted to the Member States is limited to EUR 50 000 000 000.

This article is intended to record any revenue arising from exercise of rights in connection with a guarantee under Article 01 02 02, provided that this revenue has not been deducted from expenditure.

A summary of borrowing and lending operations, including debt management, in capital and interest, is given in Annex Part II to the statement of expenditure in this section.

*Legal basis*

For the legal basis, see the remark for Article 01 02 02 of the statement of expenditure in this section.

| p.m.                | p.m.                | 0,—                 |

*Remarks*

The Union guarantee is for borrowings raised on the capital markets or from financial institutions. The outstanding amount of loans or credit lines to be granted to Member States shall be in the limits set out in the legal basis.

This article is intended to record any revenue arising from exercise of rights in connection with a guarantee under Article 01 02 03, provided that this revenue has not been deducted from expenditure.

A summary of borrowing and lending operations, including debt management, in capital and interest, is given in Annex Part II to the statement of expenditure in this section.

*Legal basis*

For the legal basis, see the remark for Article 01 02 03 of the statement of expenditure in this section.

**CHAPTER 8 1 — LOANS GRANTED BY THE COMMISSION****8 1 0** *Capital repayments and interest in respect of special loans and risk capital granted in the framework of financial cooperation with Mediterranean third countries*

| Financial year 2018 | Financial year 2017 | Financial year 2016 |
|---------------------|---------------------|---------------------|
| p.m.                | p.m.                | 35 170 433,24       |

*Remarks*

This article is intended to record capital repayments and interest payments on special loans and risk capital granted from the appropriations in Chapters 22 02 and 22 04 of the statement of expenditure in this section to Mediterranean third countries.

It also comprises capital repayments and interest payments on special loans and risk capital granted to certain Mediterranean Member States which, however, represent a very small proportion of the overall amount. These loans/ risk capital were granted at a time the countries had not yet joined the Union.

The revenue obtained normally exceeds the amounts forecast in the budget because of the interest payments on special loans which may still be disbursed during the preceding financial year as well as during the current financial year. The interest on special loans and risk capital is charged from the moment the loans are disbursed; interest on special loans is paid in six-monthly instalments and interest on risk capital generally in annual instalments.

This article may accommodate, in accordance with Article 21 of the Financial Regulation, assigned revenue which is used to provide additional appropriations to finance expenditure to which this revenue is assigned.

## Missions:

- travel expenses, including ancillary costs relating to tickets and reservations, daily subsistence allowances and additional or exceptional expenditure incurred in connection with missions by Commission staff covered by the Staff Regulations and by national or international experts or officials seconded to Commission departments (refunds of mission expenses paid for the account of other Union institutions or bodies and for third parties will constitute assigned expenditure). Where the option is available, the Commission will use airlines covered by collective bargaining agreements and complying with the relevant ILO conventions.

## Representation expenses:

- reimbursement of the costs incurred by persons officially representing the Commission (reimbursement is not possible for expenses incurred in the performance of representation duties vis-à-vis staff of the Commission or other Union institutions).

## Meetings of experts:

- reimbursement of the costs incurred for the functioning of the expert groups established or convened by the Commission: travel, subsistence and incidental expenses of experts participating in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure in the headquarters of the institutions or external offices (experts are reimbursed on the basis of decisions made by the Commission).

## Conferences:

- expenditure relating to conferences, congresses and meetings organised by the Commission in support of its various policies, and expenditure for running a network for financial control organisations and bodies, including an annual meeting between such organisations and the members of the European Parliament's Committee on Budgetary Control, as requested in paragraph 88 of European Parliament resolution of 27 April 2006 with comments forming an integral part of the decision on the discharge for implementation of the European Union general budget for the financial year 2004, Section III — Commission (OJ L 340, 6.12.2006, p. 5),
- expenditure relating to conferences, seminars, meetings, training courses and practical in-house training for officials of the Member States who manage or monitor operations financed by the Union funds or operations to collect revenue that constitutes Union own resources or cooperate in the Union statistics system, and expenditure of the same type for officials from the countries of central and eastern Europe managing or monitoring operations financed under Union programmes,
- expenditure on training third-country officials who carry out management or control duties with a direct bearing on protecting the Union's financial interest,
- the cost of the Commission's participation in conferences, congresses and meetings,
- conference enrolment fees, excluding training expenses,

— subscriptions to trade and scientific associations,

— the cost of refreshments and food served on special occasions during internal meetings.

## Meetings of Committees:

— travel, subsistence and incidental expenses of experts participating in committees set up by the Treaty and by European Parliament and Council Regulations or Council Regulations, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices) (experts are reimbursed on the basis of decisions made by the Commission).

## Studies and consultations:

— expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) if the Commission does not have suitable staff available to carry out such studies,

— the purchase of studies already carried out or subscriptions with specialist research institutions.

## Information and management systems:

— the development and maintenance under contract of management and information systems,

— the acquisition and maintenance of complete (turnkey) information and management systems in the field of administrative management (staff, budget, finance, accounts, etc.),

— studies, documentation and training linked to those systems and project management,

— the acquisition of skills and expertise in the area of information technology for all departments: quality, security, technology, development methodology, information technology management, etc.,

— technical support for those systems, and the technical work needed to ensure that they operate satisfactorily.

## Further training and management training:

— expenditure on general training designed to improve the skills of the staff and the performance and efficiency of the Commission:

— fees for experts employed to identify training needs, design, develop and hold courses and evaluate and monitor results,

— fees for consultants in various fields, in particular organisational methods, management, strategy, quality assurance and personnel management,

COMMISSION

TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRS

CHAPTER 01 02 — ECONOMIC AND MONETARY UNION (*cont'd*)01 02 01 (*cont'd*)*Remarks*

This appropriation is intended to cover the cost of carrying out the Joint Harmonised EU Programme of Business and Consumer Surveys in the Member States and candidate countries. The programme was initiated by a Commission Decision in November 1961 and was modified through subsequent Council and Commission decisions. It was last approved through Commission Decision C(97) 2241 of 15 July 1997 and presented in the Commission communication COM(2006) 379 final on 12 July 2006 (OJ C 245, 12.10.2006, p. 5).

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases and software and the part-financing and support of measures relating to:

- fiscal policy including monitoring of fiscal positions,
- assessment of transposition and application by the Member States of the new Union fiscal governance framework supporting the functioning of the economic and monetary union (EMU),
- economic monitoring, macro and micro-based analysis of the combination of measures and coordination of economic policies,
- the external aspects of the EMU,
- macroeconomic developments in the euro area,
- monitoring structural reforms and improving the operation of markets in the EMU and in the Union,
- coordination with financial institutions and analysis and development of financial markets, and borrowing and lending operations involving Member States,
- the facility providing financial assistance for Member States' balance of payments and the European financial stabilisation mechanism,
- cooperation with economic operators and decision-makers in the abovementioned fields,
- deepening and expanding the EMU,
- purchase of equipment, software development, maintenance and related training for the protection of the euro against counterfeiting.

This appropriation is also intended to cover the funding of priority information measures on Union policies on all aspects of the rules and functioning of EMU, as well as on the benefits of closer policy coordination and structural reforms, and to address information needs of key stakeholders and citizens, in relation to the EMU.

**CHAPTER 01 02 — ECONOMIC AND MONETARY UNION** (*cont'd*)**01 02 01** (*cont'd*)

This measure is designed to be an effective channel of communication and dialogue between the citizens of the Union and the Union institutions, and to take account of specific national and regional characteristics, where appropriate in cooperation with the Member State authorities. Emphasis will also be placed on preparing citizens for the introduction of the euro in Member States planning for its introduction.

It includes:

- the development of communication activities at central level (brochures, leaflets, newsletters, website design, development and maintenance, social media, exhibitions, stands, conferences, seminars, audiovisual products, opinion polls, surveys, studies, promotional material, coin design competitions, twinning programmes, training etc.), and similar activities at the national and regional level implemented in cooperation with the Commission's Representations,
- partnership agreements with Member States that wish to provide information about the euro or the EMU,
- cooperation and networking with Member States in the appropriate forums,
- communication initiatives in third countries, in particular to point out the international role of the euro and the value of financial integration.

The Commission, when implementing this article, should take duly into account the outcomes of the meetings of the Interinstitutional Group on Information (IGI).

The implementation of the Commission's communication strategy takes place in close coordination with the Member States and the European Parliament.

The Commission adopts a strategy and an annual work plan drawing on the orientations set out in its Communication of 11 August 2004 (COM(2004) 552 final) and it reports regularly to the relevant committee of the European Parliament on the implementation of the programme and on planning for the coming year.

This appropriation is also intended to cover or to temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with the borrowing and lending operations for macro-financial assistance, Euratom, balance of payment and European financial stabilisation mechanism.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with point (a) of Article 21(3) of the Financial Regulation.

*Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

The European Union guarantee is for borrowings raised on the capital markets or from financial institutions. The amount in principal of loans which may then be granted to the Member States is limited to EUR 50 000 000 000.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

*Remarks*

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of granting Union financial assistance to a Member State in difficulties or seriously threatened with severe difficulties caused by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under this stabilisation mechanism is to be limited to the margin available under the Union's own resources for payment appropriations.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action is intended to finance the provision of support to Member States for the implementation of key reforms in the areas of fiscal responsibility, growth-enhancing public administration and competitiveness.

**CHAPTER 01 02 — ECONOMIC AND MONETARY UNION** (*cont'd*)**01 02 77** (*cont'd*)01 02 77 01 (*cont'd*)

This support will aim to enhance the capacity of Member States to implement reforms and to strengthen their public institutions. It should be focused in particular on fiscal, structural and institutional reforms that have been identified as priorities in the course of the Union's regular cycle of macroeconomic surveillance, in the course of an economic adjustment programme, during enhanced surveillance, or during post-programme surveillance. It will be delivered by the Commission upon request of the Member State concerned and is open to all Member States.

This appropriation may be used to cover the implementation of technical assistance programmes and projects by national and international public organisations with strong expertise in capacity development and institution building as well as by private sector actors. It may also be used to cover expenditure related to the preparatory phases of such programmes and projects (programming, identification and formulation) as well as monitoring, evaluation, audit and control during and after implementation. It may also cover the costs of short-term technical assistance, twinning-type arrangements between public authorities as well as support expenditure for such activities (training, meetings, seminars, studies).

## Remarks

Macro-financial assistance ('MFA') is a form of financial aid extended by the Union to partner countries experiencing a balance of payments crisis. MFA is designed for countries geographically, economically and politically close to the Union. These include candidate and potential candidate countries, countries covered by the European Neighbourhood Policy and, in certain circumstances, other third countries. In principle, MFA is only available to countries benefiting from an International Monetary Fund programme.

CHAPTER 01 03 — INTERNATIONAL ECONOMIC AND FINANCIAL AFFAIRS (*cont'd*)01 03 02 (*cont'd*)

MFA is exceptional in nature and is mobilised on a case-by-case basis to help countries dealing with serious balance-of-payments difficulties. Its objective is to restore a sustainable external financial situation, while encouraging economic adjustments and structural reforms.

While MFA can take the form of medium/long-term loans or grants, or a combination of these, this article only covers the grant element of MFA operations.

Appropriations under this article will also be used to cover costs incurred in relation to MFA operations, and in particular: (i) costs incurred to conduct operational assessments in the beneficiary countries to obtain reasonable assurances on the functioning of administrative procedures and financial circuits, (ii) costs related to the implementation of the 'Better Regulation' guidelines, in particular for ex-post evaluations of MFA operations, and (iii) costs to cover comitology requirements.

The Commission will inform the budgetary authority regularly of the macro-financial situation of the beneficiary countries and will report extensively on the implementation of MFA on a yearly basis.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with point (a) of Article 21(3) of the Financial Regulation.

*Remarks*

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on a loan granted under the Decisions referred to below.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 14 of Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39) applies.

*Remarks*

Pursuant to Council Decision of 8 March 1977, the Union guarantees loans made by the European Investment Bank (EIB) in the context of the Union's financial commitments in respect of the Mediterranean countries.

That decision was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 30 October 1978 and in Luxembourg on 10 November 1978, setting up a comprehensive guarantee, equal to 75 % of all the funds available for loan operations in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Syria, Israel, Jordan, Egypt, former Yugoslavia and Lebanon.

Decision 90/62/EEC was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 24 April 1990 and in Luxembourg on 14 May 1990 as regards Hungary and Poland and for the extension of that contract to cover Czechoslovakia, Romania and Bulgaria, signed in Brussels and in Luxembourg on 31 July 1991.

Decision 93/696/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Pursuant to Decisions 93/115/EEC and 96/723/EC, the Union guarantees loans which may be made individually by the EIB in countries of Latin America and Asia with which the European Community has concluded cooperation agreements. Decision 93/115/EEC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 November 1993 and in Luxembourg on 17 November 1993. Decision 96/723/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 18 March 1997 and in Luxembourg on 26 March 1997.

## TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRS

CHAPTER 01 03 — INTERNATIONAL ECONOMIC AND FINANCIAL AFFAIRS (*cont'd*)01 03 05 (*cont'd*)

Pursuant to Decision 95/207/EC, the Union guarantees loans which may be made individually by the EIB in South Africa. Decision 95/207/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations opened is equivalent to EUR 7 105 000 000.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 24 January 2000 and in Luxembourg on 17 January 2000, last restated in 2005, setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 19 460 000 000. The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2001/777/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 6 May 2002 and in Luxembourg on 7 May 2002 setting up a guarantee at 100 % against losses under a special lending action for selected environment projects in the Baltic Sea basin of Russia under the Northern Dimension. The overall ceiling is EUR 100 000 000.

Decision 2005/48/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 9 December 2005 and in Brussels on 21 December 2005 setting up a guarantee at 100 % against losses under loans for certain types of projects in Russia, Ukraine, Moldova and Belarus. The overall ceiling is EUR 500 000 000. It covers a period ending on 31 January 2007. At the end of this period, the loans granted by the EIB not having attained the overall amounts referred to above, the period was automatically extended by six months.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations, less amounts reimbursed, plus all related sums. The overall ceiling of the appropriations made available for all countries under the Decision is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 633/2009/EC was the basis for an amendment, signed on 28 October 2009, to the contract of guarantee between the European Community and the EIB which was signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 27 800 000 000, broken down in a basic ceiling of EUR 25 800 000 000 and an optional mandate of EUR 2 000 000 000. It covers a period ending on 31 October 2011.

CHAPTER 01 03 — INTERNATIONAL ECONOMIC AND FINANCIAL AFFAIRS (*cont'd*)01 03 05 (*cont'd*)

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees less amounts reimbursed, plus all related amounts. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 29 484 000 000, broken down into a general mandate of EUR 27 484 000 000 and a Climate Change mandate of EUR 2 000 000 000. It covers a period beginning on 1 February 2007 and ending on 31 December 2013 with an extension until the entry into force of a new decision.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg on 22 July 2014 and in Brussels on 25 July 2014. The Union guarantee is restricted to 65 % of the aggregate amount disbursed and guaranteed under EIB financing operations, less amounts reimbursed, plus all related amounts. The maximum ceiling of the EIB financing operations under the Union guarantee, less amounts cancelled, shall not exceed EUR 30 000 000 000, broken down into a fixed ceiling of EUR 27 000 000 000 and an optional mandate of EUR 3 000 000 000. The European Parliament and the Council shall decide in accordance with the ordinary legislative procedure on the activation in whole or in part of the optional mandate. The Union guarantee covers EIB financing operations signed during the period beginning on 25 July 2014 and ending on 31 December 2020 with an extension of six months if the European Parliament and the Council have not adopted a new decision granting the Union guarantee to the EIB against losses under its financing operations outside the Union before the end of 2020.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 14 of Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39) applies.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on the loans granted by the EIB.

## Remarks

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on the instruments guaranteed.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 14 of Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39) applies.

## Legal basis

Regulation (EU) 2017/1601 of the European Parliament and of the Council of 26 September 2017 establishing the European Fund for Sustainable Development (EFSD), the EFSD Guarantee and the EFSD Guarantee Fund (OJ L 249, 27.9.2017, p. 1).

*Remarks*

This appropriation is intended to cover the financing of the technical and legal assistance necessary for the evaluation of the safety, environmental, economic and financial aspects of the projects for which financing in the form of a Euratom loan has been requested, including studies undertaken by the European Investment Bank (EIB). The measures are also intended to enable loan contracts to be concluded and carried out.

Appropriation under this article will also be used to cover or temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with Euratom borrowing and lending operations.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with point (a) of Article 21(3) of the Financial Regulation.

*Remarks*

The authorised borrowing ceiling is EUR 4 000 000 000, of which EUR 500 000 000 is authorised pursuant to Decision 77/270/Euratom, EUR 500 000 000 pursuant to Decision 80/29/Euratom, EUR 1 000 000 000 pursuant to Decision 82/170/Euratom, EUR 1 000 000 000 pursuant to Decision 85/537/Euratom and EUR 1 000 000 000 pursuant to Decision 90/212/Euratom.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

*Remarks*

The European Investment Fund (EIF) implements the SME window of the European Fund for Strategic Investments, which supports loan and equity financing of SMEs and mid-caps. The EIF is entitled to receive management fees for the implementation of the SME window. As provided for in Regulation (EU) 2015/1017, fees due to the EIF shall be primarily met by revenues from the resources in the EFSI guarantee fund and the European Fund for Strategic Investments. However, to the extent that those revenues are not sufficient to cover the fees due to the EIF, those fees shall be covered by the general budget of the Union.

*Remarks*

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

Even though the end of the commitment period has been reached, the facilities have to be operated for several years during which time payments will be needed for investments and in order to honour guarantee obligations. Therefore reporting and monitoring requirements will continue until the end of the facility periods.

CHAPTER 01 04 — FINANCIAL OPERATIONS AND INSTRUMENTS (*cont'd*)01 04 51 (*cont'd*)

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget of the Union.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates, for participating in Union programmes and entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Any revenues and repayments generated on Trust Accounts entered in Article 5 2 3 of the statement of revenue will be returned to the general budget of the Union or transferred to the succeeding financial instruments under the Union equity instruments for research and innovation under Horizon 2020 or the Equity Facility for Growth under COSME, as the case may be, in accordance with the Financial Regulation and Regulations (EU) No 1287/2013 and (EU) No 1290/2013.

*Remarks*

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item in accordance with the Financial Regulation.

- information sharing, dissemination, awareness raising and advisory services to increase SME's competitiveness and help them participate in the single market and beyond,
- support to joint actions of Member States or regions, as well as other measures under the COSME programme.

The Union will provide support to activities such as the Enterprise Europe Network and entrepreneurship promotion. It will also support projects concerned with the first applications or market replication of techniques, practices or products (e.g. new business concepts for consumer goods) of Union relevance that have already been technically demonstrated with success but, owing to residual risk, have not yet significantly penetrated the market. Those projects will be designed to promote wider use within the participating countries and facilitate market uptake.

Projects will also seek to improve the framework conditions including through capacity building in clusters and other business networks notably with regard to support SME internationalisation in order to ensure that Union enterprises are competitive and sustainable, including in the tourism sector, by supporting coherence and consistency in implementation, as well as informed policy-making at Union level. In addition, projects will be put in place to support the implementation of the Single Market Strategy and the Start-up Initiative. Support actions, directly linked to the achievement of these objectives are also considered for funding: meetings (including workshops), studies, information and publications and participation in study groups.

In relation to gender equality, projects to promote the position of female entrepreneurs will receive particular attention in order to help overcome gender-based hurdles women may face and to attain an equal representation of male and female entrepreneurs throughout the Union.

Sustainable tourism activities will receive a special focus with initial priority given to soft mobility, cycling networks, eco-tourism and nature protection. Accessibility for all, particularly for people with reduced mobility and for socially disadvantaged people is also of high importance in this context.

The Union will coordinate, promote and support actions for sustainable tourism, such as:

- preservation of long-term sustainable tourism resources through protection of natural, cultural, historical and industrial heritage,
- coordination and support for access to sustainable tourism information and services for less-advantaged citizens living in poverty, as well as for persons with reduced mobility,
- cross-border coordination of European cycling networks, together with rail and long-distance bus information and services.

The 'Erasmus for Young Entrepreneurs' programme aims to encourage European entrepreneurship, the sharing of knowledge and best practices, and the creation of valuable networks and partnerships.

Due to the currently difficult economic situation it is indispensable to support European enterprises, in particular young innovative start-ups and female entrepreneurs, and to foster entrepreneurship by assigning enough funds to programmes like the programme for the competitiveness of enterprises and small and medium-sized enterprises (COSME). It is particularly important to provide support and incentives for the most modern and innovative sectors, such as the sharing economy and the digital economy. The Union needs to provide support for young entrepreneurs in these sectors and to develop and introduce instruments that will allow innovative start-ups to compete with rivals from third countries on world markets.

## CHAPTER 02 02 — COMPETITIVENESS OF ENTERPRISES AND SMALL AND MEDIUM-SIZED ENTERPRISES (COSME) (cont'd)

## 02 02 01 (cont'd)

In particular the programme 'Erasmus for Young Entrepreneurs' has been very successful, efficient and effective in contributing successfully to fighting unemployment and supporting robust start-ups across Europe. With regard to under-representation of women among entrepreneurs, special attention should be paid to involving young female entrepreneurs in the programme in order to encourage them to pursue their entrepreneurial career and to gain experience in how to overcome gender-specific hurdles they may face.

The financial means for the 'Erasmus for Young Entrepreneurs' programme must be increased in particular due to the following reasons:

- the programme helps fostering European entrepreneurship, the sharing of knowledge and best-practices as well as the creation of valuable networks and partnerships,
- the programme is very successful and has shown an increasing number of participants over the last years which is expected to increase further,
- the programme effectively tackles the problem of youth unemployment as it helps young people without work to become self-employed and existing SME to create jobs by expanding and/or internationalising their business,
- the number of applications exceeds by far the possibilities the Commission can fulfil with the financial means currently available.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is to be used to improve access to finance SMEs, including companies of female entrepreneurs, in the form of equity and debt, in their start-up, growth and transfer phase.

A loan guarantee facility (LGF) shall provide counter-guarantees, direct guarantees and other risk sharing arrangements for debt financing which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived higher risk or their lack of sufficient available collateral and for securitisation of SME debt finance portfolios.

An equity facility for growth (EFG) shall allow investments in risk capital funds which invest in SMEs in the expansion and growth stage, whilst taking a gender-sensitive and non-discriminatory approach, and in particular in those operating cross-borders. The possibility shall exist to invest in early stage funds in conjunction with the equity facility for RDI under Horizon 2020. In cases of joint investments in multi-stage funds, investments will be provided on a pro-rata basis from the EFG of COSME and the equity facility for RDI under Horizon 2020. Support from the EFG shall be (a) either directly by the European Investment Fund (EIF) or other entities entrusted with the implementation on behalf of the Commission or (b) by funds-of-funds or investment vehicles investing across borders.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with point (i) of Article 21(3) of the Financial Regulation.

*Remarks*

Tourism is Europe's third-largest industry. The Union travel and tourism sector employs almost 25 million people (directly and indirectly) and visitors generate EUR 351 billion per year. The tourism industry generates 9,7 % of total EU-28 GDP, a figure which is forecast to rise to 10,4 % by 2025.

Last year more than 455 million tourists came to the Union. Tourism is part of daily life; it is part and parcel of European values. In view of recent crises, and at a time when there is an increasing threat of global terrorism, there is a greater need for tourism, which is an industry that promotes peace.

For the sustainable development and protection of this highly economically important sector, closer co-operation is required between the European Institutions and Member State governments, as well as maximum citizen involvement.

There are already two programmes, namely the European Capital of Culture and the European Capital of Sport. The evaluations made of the European Capital of Culture programme, as well as public consultation on its future after 2019, have revealed that it has become one of the most ambitious cultural initiatives in Europe and one of the most appreciated by European citizens. That programme has generated economic growth in the majority of the cities involved. In 2013 in Marseille (France) there were close to 11 million tourists, while Pécs (Hungary) recorded a 27 % increase in hotel room occupancy. Above all, the programme has created communities and the majority of the cities involved have found a new basis for their development plans. This has also created growth in the regions in which the cities are located.

It is crucial to uphold those values and disseminate them as widely as possible. A 'European Capital of Tourism' could be an excellent vehicle for that. Such a programme would aim to promote the rich tourism offering of European countries; increase a sentiment of shared local tourism-related values; strengthen tourism-generated development in cities, their surroundings and their regions; enhance the image of cities that are awarded this title and ultimately raise the profile of their regions.

It would also be important for cities holding the title to seek to promote social inclusion and equal opportunities and to do their utmost to ensure the broadest possible involvement of all the components of civil society in the preparation and implementation of tourism-related programmes, with special attention being paid to young people and marginalised and disadvantaged groups.

The award of the title should be based on a specially created tourism-related programme, which should have a strong European dimension. That tourism development programme should be part of a long-term strategy having a sustainable impact on local economic, cultural and social development.

Because of the strong regional dimension of tourism, it is crucial, alongside the title 'European Capital of Tourism', for it to be possible to give awards to cities and regions that have reached unique, innovation based results in the tourism sector.

Accordingly, a 'European Tourism Award' could be given by an independent board of experts in different categories (for example: sustainable tourism, digital tourism, health tourism) established by the European Parliament, the Commission and the Committee of Regions. In this process the network of tourism stakeholders which created the Tourism Manifesto for Growth and Jobs, with the support of civil society organisations, could be an excellent partner.

The general aim of the preparatory action is to:

- give local tourism its own profile, and strengthen links between cities and their regions;
- establish the 'European Capital of Tourism' within the existing institutional framework alongside the Cultural and Sport Capital programmes with their effective operating methods; identify common values, harness potential synergies and avoid duplication;
- increase the attractiveness of cities and regions, which can lead to economic growth and job creation.

The operational objectives are:

- to make a maximum of three 'European Capital of Tourism' awards a year;
- to lay down conditions and categories for the 'European Tourism Award';
- to involve Member States on a voluntary basis at the outset and initiate a structural dialogue with the Council;
- to establish the professional body, the preparatory committee to assess the bids, in co-operation with the European Parliament, the Commission and the Committee of Regions;
- as regions are the main beneficiaries of Union funding, to look into the possibility of financial contributions for the sustainability of the programme;
- to create an annual cost-effectiveness plan for the number of titles and awards.

ALECO is a pilot project for a one-way mobility scheme for young Union entrepreneurs with a maximum duration of one to six months in selected third countries. The aim is for ALECO to become an integral part of Erasmus for Young Entrepreneurs (EYE), mainly upgrading the programme in terms of geographical scope and exposure to successful entrepreneurial models. The pilot project will use the existing EYE infrastructure, including support office, intermediary organisations and IT tools.

Up to 200 young entrepreneurs from Member States are expected to participate. The target group will be selected from entrepreneur profiles upon application and assessment. Eligibility criteria: 1. Future entrepreneurs showcasing ready-to-implement business plans and a binding commitment to start up a firm; 2. Entrepreneurs who have started a business in the last three years, alone or in partnership; 3. Entrepreneurs who have taken advantage of EYE exchanges and showcase progress in their business.

Hosting countries may include the USA, Israel, Canada, Singapore, Japan, China and South Korea.

The pilot project is supported by Eurochambres, the European Youth Forum, Junior Achievement, Knowledge 4 Innovation and European Democrat Students.

The activities carried out under this preparatory action could be linked to the theme of 'Culture Europe - Promoting Europe's treasures', with individual countries, regions or macro-regions presenting their distinct heritage and cultural assets to a broad international audience.

The preparatory action builds on and continues the Destination Brand Europe pilot project, but it proposes an enlarged scope and an increased budget. The action will also include promoting less well-known but equally interesting locations and tourism sites, with the ultimate aim of diversifying the range of European destinations, creating new tourism products and supporting less developed regions.

VisitEurope.com, a portal developed with Union support, could be a suitable platform for promotional and marketing activities. Additionally, the '360° European Wonders' app presented by the Commission in 2017 could be integrated into the promotional and marketing strategy.

Ultimately, the action will raise awareness around responsible and sustainable development as regards cultural heritage and the protection of resources for future generations.

The main objectives and actions include:

- preserving Europe's lead position among world tourist destination by promoting European cultural heritage;
- developing and endorsing promotional and marketing channels (online and offline) that will enable destinations to maximise the reach of their tourism offer;
- diversifying the range of European destinations by promoting less visible secondary destinations (so-called 'hidden gems') as new tourism products;
- researching and identifying a number of well-developed and accessible alternative tourist destinations with high potential demand and appeal both internally and in overseas markets;
- engaging with various stakeholders across EU Member States to raise the visibility of cultural heritage sites;
- providing support to industry partners, especially SMEs in the hospitality and transport sectors, to develop tourism products that incorporate these alternative destinations into their travel packages.

*Remarks*

The World Bridge Tourism pilot project was initiated in the 2015 budget. The main aim of the project was to ensure that Europe should benefit from world bridge tourism by increasing the GDP of the tourism sector. At the same time, it will bring about significant economic growth, including the creation of sustainable employment opportunities.

The preparatory action focuses on China as the fastest-growing tourism source market in the world. As stated in the pilot project, Chinese tourists' propensity to travel abroad is expected to continue rising in the coming decades. Beyond Asia and the Pacific, Europe is the largest destination region for Chinese travellers. As Europe has a prominent place on the Chinese 'wish list', it is necessary to think about how Member States could host Chinese tourists more effectively. This will involve mutual understanding and continuous and sustainable training of employees throughout Europe in the tourism sector.

The preparatory action will increase flows of Chinese visitors by facilitating business between European tourism providers and Chinese buyers.

2018 is EU-China Tourism Year, during the preparatory period for which the World Bridge Tourism project will have a crucial role.

The main objectives and actions include:

- identifying best practices and analysing the results of the pilot project;
- continuing the awareness campaign among tour operators and agencies;
- active involvement in the EU-China Tourism Year 2018;
- enlarging the scope of the project by involving Chinese cultural institutes (e.g. the Confucius Institute) and other public outreach stakeholders;
- increasing involvement of social networks and focusing on digitisation, and providing incentives for bringing tourist products and services into line with the needs of Chinese tourists, including the use of marketing tools (websites and flyers in Chinese) and promoting them on Chinese social networks (e.g. Weibo).

## Remarks

Knowledge and skills are crucial not only for the personal welfare of each citizen, but also for sustainable development and economic growth. It is therefore important to offer a perspective to people coming from countries in economic and social crisis, especially young people, so that they have an opportunity to create added value not only for themselves, but also for the general public.

It is therefore important to empower young migrants and refugees to gain access to knowledge and to develop skills they are able to use and leverage when they are back in their home countries.

This will make it possible for them not only to establish a livelihood, but also potentially to become entrepreneurs, build up their own businesses and create employment.

The core of this initiative will be targeted mentoring programmes from different organisations, such as civil protection and community services, as well as companies (including local suppliers). Elements of a dual-training system would help beneficiaries to identify the specific needs of organisations or companies on the ground.

The legal situation regarding the waiting period for taking up an economic activity differs considerably from Member State to Member State. To make the preparatory action a success, it will therefore also be necessary to conduct a review of current national legal frameworks and to identify best practices which could be promoted in order to speed up procedures, so that young migrants can take advantage of the proposed programmes as soon as possible upon arrival.

*Remarks*

Increasing SMEs' internationalisation capacity is crucial for European competitiveness. 99 % of Union enterprises are SMEs; most of them face many difficulties when they try to establish an internationalisation strategy, especially vis-à-vis third markets where they face strong — and sometimes unfair — competition. In the last three years, only 29 % of micro enterprises, 43 % of small enterprises and 59 % of medium-sized enterprises have exported to another Member State. Many SMEs do not have the required skills to deal with multinational companies, attend international fairs or set up an e-commerce infrastructure.

This challenge could be overcome by encouraging SMEs to combine and work together on specific internationalisation projects. In the past few years, experiences have shown the potential that cooperation among SMEs offers for enhancing their internationalisation. The added value of cooperation has also been acknowledged by the Commission (e.g. in the SBA review). On the basis of national best practices, the Commission has introduced the concept of 'business network', defining it as 'a form of inter-firm cooperation that allows companies, located also in different regions or countries, to collaborate together on a basis of common development objectives expressed in a cooperation agreement/contract. The companies decide to join their strengths, share information and create synergies to become more innovative and competitive on the domestic and international markets, while keeping their autonomy, not creating a separate legal entity. This cooperation model is suitable for any kind of business activity and sector'.

Internationalisation represents a key component for European growth and competitiveness. Taking into account the fact that the difficulties SMEs have in going international, not only in third markets but also in the European internal market, are often due to their limited size, stimulating cooperation and encouraging SMEs to join forces in order to operate on the basis of a better structure while maintaining their entrepreneurial autonomy should be tested and developed. In its Communication 'Small Business, Big World — a new partnership to help SMEs seize global opportunities' (2011), the Commission pointed out the importance of promoting clusters and networks for SME internationalisation. The Enterprise Europe Network plays an essential role in supporting SMEs' internationalisation by matching needs and reducing costs.

In this context, a trial could be launched at Union level to test the impact of SMEs from different Member States joining forces and starting to work together on strengthening internationalisation capacity and enhancing presence on markets in third countries. In particular, the trial could: (1) test the added value for internationalisation of combining SMEs, (2) promote a culture of cooperation and networking activities among SMEs, (3) disseminate this cooperation/networking model as a best practice and as a tangible way for SMEs to enter new markets, by showing that by working together on common internationalisation plans they can greatly improve their international performance.

Networks should be composed of at least three SMEs from three different Member States. Applicants should submit a proposal for an internationalisation strategy, providing a detailed description of the purpose of the collaboration and of the strategic objectives. The trial should cover the costs of the start-up phase for SME network internationalisation activities, such as:

- identifying international markets that SME network members wish to enter to market their products;
- sharing knowledge and information about markets and clients;
- developing coordinated promotion, marketing and sales strategies (including joint digital marketing strategies/e-commerce infrastructure);

- selecting marketing and distribution channels;

- improving product quality, in particular through the exchange of good practices and know-how between SME network members;
- sharing consultancy costs.

Other activities

With a budget of EUR 1 500 000, the pilot project will support 30 SME networks in developing a common internationalisation action plan. Each network will receive financial support of between EUR 30 000 and EUR 50 000. The minimum requirement is three SMEs per network. The action will cover at least 90 European SMEs.

*Remarks*

Industrial modernisation is critical to improving the Union's competitiveness and is therefore an absolute cornerstone of its policy. In this regard, the ability of industrial companies not only to develop but also to absorb and successfully implement new technologies is crucial. However, this remains a big challenge for many companies.

02 02 77 35 (cont'd)

Different stages can be identified in the process of developing and deploying new technologies. There is mounting evidence that market failure occurs at the demonstration stage (TRL 6-8) of the innovation process: between applied research, prototyping and market entry. Testing and validation of prototypes in an industrial environment and certifying new applications remain both very costly and highly uncertain. In many cases this prevents (or at least substantially delays) market uptake of very promising innovations from research and industry, including those previously financed by the Union. On the one hand, industrial companies very often do not have all the necessary equipment and skills to carry out further prototyping activities, validation tests, certification procedures, cost comparisons and other post-prototyping activities needed before full production and market launch. These activities are usually categorised as so-called 'non-recurrent costs' and contribute to what is commonly known as the 'Valley of Death'. On the other hand, very few regions have all the demonstration capabilities in place to help companies carry out the full spectrum of post-prototyping activities in a specific technology domain.

There is a strong need and rationale to establish an inter-regional innovation structure with pan-European shared demonstration facilities ('industry commons') accessible by industry and able to speed up technology deployment in and by industrial companies. Shared demonstration facilities can be established by connecting and upgrading the complementary facilities which already exist in the regions, or by creating new shared facilities if needed.

In the past, and in ongoing activities under Vanguard Initiative (VI) pilot projects ([www.s3vanguardinitiative.eu](http://www.s3vanguardinitiative.eu)), various regions have found that setting up 'shared demonstration facilities' usually involves a non-profitable component. This funding gap occurs when setting up shared facilities and meeting initial operating costs. Once this funding gap is closed, industrial demonstration activities can take place. If they are successful, companies can then upscale their production, generate revenues in the marketplace and hence generate growth and jobs. In order to speed up technology deployment and industrial modernisation, stronger public intervention is therefore needed to unlock innovation and growth potential. At the moment, there is no suitable cross-regional, pan-European instrument to support very much needed investments in innovation infrastructure.

In this context, this preparatory action will complement and further expand the ongoing activities under the VI and the Thematic Smart Specialisation Platform for Industrial Modernisation (TSSP IM). While the TSSP IM and its inter-regional partnerships, such as VI, are instrumental in detecting and initiating inter-regional collaboration for technology uptake, this action will support the development of investments, operations and services, and defray coordination costs for shared demonstration facilities serving a customer base of industrial organisations throughout Europe.

This preparatory action will be particularly important in generating input for the (re)designing of various Union policies, including innovation (FP9), investment (EFSI) and cohesion policy. The action will identify the scope and limitations of existing funds and financial instruments for ultimately stimulating the uptake of market-creating technologies and the promotion of follow-up investments by the private sector, including through close or closer cooperation with industry associations, thereby providing useful input for policy makers.

This preparatory action will focus on the specific VI pilot project for shared demonstration facilities for 'High Performance Production through 3D Printing' (3DP). The 3DP pilot project is among the most advanced, but it faces a huge investment challenge for several of its industrial applications. 3D printing has also been identified as a disruptive technology significantly impacting a broad range of industrial sectors.

Specifically, the preparatory action will focus on the following activities:

(1) setting up an operational platform of connected demonstration facilities between regions by, inter alia:

— connecting demonstration facilities to form a virtual support platform;

- monitoring the provision of know-how, equipment and services to industry, ensuring broad sectoral coverage;
- if needed, expanding the network of connected facilities to improve industrial and/or geographical coverage;
- setting up a network of accredited service providers throughout Europe (for support, training, certification, etc. within the networked demonstration facilities);

(2) attracting industrial demonstration projects via the platform by, *inter alia*:

- interacting with key stakeholders;
- promoting the platform and identifying opportunities;
- further developing 3DP demonstration cases and use cases, creating new value chains;
- identifying the specific coordination costs and investment support needs;
- communicating and working with a wider audience, including making use of the TSSP IM;
- working on synergies between the relevant pilot project and related initiatives;
- gaining specific knowledge on funding issues to address specific investment needs;

(3) providing an overview of specific proposals for changes to Union policies, in consultation with the Commission.

For proper implementation and evaluation, a timeframe of three years (2018-2020) is needed, including an annual update of the roadmap by a strategy board that will also include Members of the European Parliament.

*Remarks*

This preparatory action will create a business-enabling network for SMEs to seize circular economy business opportunities. It will advance a new type of environmentally friendly industry, where the worthless is turned into valuable by making full use of all materials, including side flows and waste.

The major chemical-using industries, businesses and associated supply chains in different parts of Europe (notably in Finland, France, Norway, Sweden and the United Kingdom) attempt to create new business out of side flows and wastes. Side flows can be recovered and used as raw materials in new industries. By refining raw materials in the Union, most added value is created in the single market, thus benefitting European economies. This will create jobs and benefit the environment.

The Cir©Lean target group is export-orientated industrial service SMEs which are willing and able and have an international outlook. Cir©Lean will build a systematic, long-term business-enabling network for Union-based SMEs by utilising cross-border, cross-sector and cross-industry knowledge and by developing innovative circular economy business models. The action will help SMEs find ways to increase the value of (currently unidentified) waste and residues by turning them into valuable products to be sold in both the domestic and international markets. The action will enhance industrial symbiosis by increasing the degree of processing of residual waste and landfill and generate new residual waste business.

New business models will be created in cross-border, cross-sector and cross-industry Open Innovation Business workshops where SMEs, primary industries, business developers, educators, researchers, authorities and financiers pool their skills. The Sustainability Assessment Tool developed in Finland will be applied in this work. The workshops will contribute to the development of new knowledge for all participants, creating new commercial products and services that span national borders.

Approximately 20 SMEs will participate in the Cir©Lean preparatory action. As a milestone for the action, 100 SMEs will participate in professional development activities, and, as part of the action, they will gain new contacts and establish cross-border cooperation. When the action is completed, exports will increase and the number of SMEs with new business models will grow. New long-term and sustainable contacts and partnerships with permanent cooperation structures will be established as a result.

Cir©Lean will set up a circular economy business-enabling network that will continue after the preparatory action ends.

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation and development:

- measures intended to make the operation of the internal market more effective and to ensure that citizens and businesses have access to the most extensive rights and opportunities resulting from the opening up and deepening of the internal market without borders and are able to exercise those rights and take advantage of those opportunities in full; and monitoring and evaluation measures relating to the practical exercise by citizens and businesses of their rights and opportunities with a view to identifying and facilitating the removal of any obstacles which may be preventing them from exercising those rights in full;
- approximation of standards and maintenance and development of an information system for technical standards and regulations, examination of the rules notified by Member States, EFTA States and Turkey and translation of the draft technical regulations;
- financing of administrative and technical coordination and of cooperation between the notified bodies, grants in support of the European Technical Approval Organisation (EOTA), and of projects of Union interest undertaken by outside bodies;
- application of Union legislation on medical devices, cosmetics, foodstuffs, textile products, chemicals, classification and labelling of substances and mixtures, cars and safety, toys, legal metrology, pre-packaging and the quality of the environment, aerosol dispensers, and information and publicity measures for greater awareness of Union legislation;
- a comprehensive review of regulations with a view to making necessary changes and producing an overall analysis of the effectiveness of the measures taken to further the sound operation of the internal market and an evaluation of the overall impact of the internal market on businesses and the economy, including the purchase of data and access by Commission departments to external databases, as well as targeted actions aimed at improving understanding of the functioning of the internal market and rewarding active participation in fostering its functioning;
- greater sectorial approximation in the fields of application of the 'new approach' directives, especially the extension of the 'new approach' to other sectors;
- measures implementing Regulation (EC) No 765/2008, both for the infrastructures and market surveillance, and Regulation (EC) No 764/2008, for procedures relating to the application of certain national technical rules to products lawfully marketed in another Member State, and implementation of the corresponding part of the Single Market Strategy (Commission Communication of 28 October 2015 (COM(2015) 550 final));
- the development of a unified area for security and defence, with measures implementing Directive 2009/43/EC simplifying terms and conditions of transfers of defence-related products within the Union and actions working towards the coordination of public procurement procedures for these products at Union level, as well as, where appropriate, devising studies and awareness-raising measures regarding the application of the legislation adopted;
- participation in the negotiation of agreements on mutual recognition and, under European agreements, support for the associate countries to allow them to adopt the *acquis* of the Union;

- implementation measures for Regulation (EC) No 1907/2006, especially those resulting from the 2017 REACH REFIT evaluation as well as the 2013 REACH review (Commission Report of 5 February 2013 (COM(2013) 49 final));
- implementation and monitoring of the provisions in the area of public procurement especially in relation to the transposition of the Directives 2014/23/EU, 2014/24/EU and 2014/25/EU;
- actions related to the implementation of Directive 2014/60/EU;
- implementing and monitoring the provisions governing public contracts with a view to ensuring their optimum operation and that tenders are genuinely open, including the awareness-raising and training of the various parties to these contracts; the introduction and use of new technologies in the various fields of operation of these contracts; the continuous adaptation of the legislative and regulatory framework in the light of developments arising from these contracts, particularly the globalisation of markets and existing or future international agreements;
- strengthening administrative cooperation through, inter alia, the Internal Market Information System (IMI), the deepening of knowledge of internal market legislation in the Member States and its sound application by them, and support for administrative cooperation between the authorities responsible for implementing legislation relating to the internal market with a view to achieving the Lisbon strategic goals as set out in the annual policy strategy;
- part of this appropriation will be used to achieve a similar level of implementation and enforcement of Union legislation by national bodies in order to fight distortions of competition and to contribute to a level playing field;
- reinforcing single market tools that make consumers and business more aware of internal market rules and enable them to enforce their rights, and that allow for better cooperation between the relevant national authorities;
- guaranteeing the completion and management of the internal market, especially in the fields of free movement of services, especially cross-border, recognition of professional qualifications, and intellectual and industrial property, in particular the development of proposals for establishing a Union patent;
- analysis of the effects of removing obstacles to the internal market for services and of the effects of measures in place as part of the follow-up to the progressive liberalisation of postal services, coordination of Union policies on postal services with regard to international systems and in particular with regard to participants in Universal Postal Union (UPU) activities, cooperation with central and eastern European countries, as well as analysis of practical implications of the application of the General Agreement on Trade in Services (GATS) provisions to the postal sector and overlap with UPU regulations;
- actions related to the implementation of EU Action Plan for the Circular Economy.

*Remarks*

In accordance with the general aim of maintaining the proper functioning of the internal market and the competitiveness of European industry, in particular through the mutual recognition of standards and the establishment of European standards in suitable cases, this appropriation is intended to cover:

- financial obligations arising from contracts to be signed with the European standardisation organisations (such as ETSI, CEN and Cenelec), for the development of standards;
- checking and certifying conformity with the standards, and demonstration projects;
- contract expenditure for the execution of the programme and projects indicated above. The contracts in question cover the following: research, association, evaluation, technical operations, coordination, scholarships, grants, training and mobility of scientific staff, participation in international agreements and participation in expenditure on equipment;
- improving the performance of standards bodies;
- promoting quality in standardisation, and the verification thereof;
- supporting the transposition of European standards into national standards, particularly by having them translated;
- measures relating to information, promotion and profile-raising of standardisation and the promotion of European interests in international standardisation;
- secretarial services for the technical committees;
- technical projects in the field of tests for compliance with the standards;

- specifying methods of certification and laying down technical methods of certification;
- encouraging use of these standards in public procurement contracts;
- coordinating the various operations to prepare the standards and doing more to implement them (user guides, demonstrations, etc.). While preparing the standards, possible gender-related specificities should be considered.

Union finance is to be used to frame and implement the standardisation operation in consultation with the main participants: industry, workers' representatives, consumers, when relevant including women's organisations, small and medium-sized enterprises, the national and European standardisation institutions, the public procurement agencies in the Member States, all users and industrial policymakers at national and Union levels.

In support of interoperability, specific provisions about the use of ICT technical specifications in public procurement are included in Regulation (EU) No 1025/2012.

This appropriation is intended to cover the costs of the functioning and activities of European non-governmental and non-profit organisations representing the interests of SMEs and consumers, as well as environmental and social interests, in standardisation activities.

Such representation in the standardisation process at European level forms part of the statutory objectives of such organisations, and they have been mandated by national non-profit organisations in at least two thirds of the Member States to represent those interests.

Contributions to such European organisations have previously been covered by the Competitiveness and Innovation Programme, the consumer policy and the Financial Instrument for the environment, LIFE+. In Regulation (EU) No 1025/2012 the actions in the field of standardisation financed by specific programmes have been brought together in a single legal act.

TITLE 02 — INTERNAL MARKET, INDUSTRY, ENTREPRENEURSHIP AND SMES

CHAPTER 02 03 — INTERNAL MARKET FOR GOODS AND SERVICES (*cont'd*)02 03 03 (*cont'd*)*Remarks*

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure in connection with the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of the Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue in accordance with point (c) of Article 21(3) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

In 2018, the Agency's revenue from fees and charges and the surplus carried over from previous year will not be sufficient to cover for the expected expenditure, which implies the need of a balancing subsidy from the Commission. The Union contribution for 2018 amounts to a total of EUR 25 722 021.

## Remarks

This appropriation is intended to cover:

- the expenditure for the management, training, further development and information linked to the services provided by the SOLVIT network, the Your Europe web portal and for creating the tools needed to enable closer cooperation between them;
- the expenditure for the running of the service contract for the management of Your Europe Advice, feedback reporting and the costs for outreach activities;
- the expected expenditure for the Internal Market Information (IMI) system;
- awareness raising activities for all Internal Market governance tools, including the Single Market Scoreboard.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

**CHAPTER 02 03 — INTERNAL MARKET FOR GOODS AND SERVICES** (*cont'd*)**02 03 77** (*cont'd*)02 03 77 05 (*cont'd*)*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The scope of the pilot project is to collect, publish and communicate through experts the best practices available in the area of cross-border parcel delivery services, based on successful implementation by all market participants, with the aim of helping all Member States to reach a common level of delivery efficiency and tackle disparities, while at the same time potential areas for further actions could also be identified where the customer satisfaction level should be further addressed.

The project could encompass four steps: (1) a comprehensive assessment of the needs of users of e-commerce-related (cross-border) parcel delivery services; (2) an assessment of the extent to which existing delivery industry practices meet these needs; (3) identification of good industry practice in this field; (4) a gap analysis identifying areas where additional innovation and service improvements are needed to satisfy existing and emerging consumer needs.

As stated by Vice-President Andrus Ansip, in charge of the Digital Single Market Strategy, regarding parcel delivery the Commission will:

- (1) take action to improve regulatory oversight while supporting innovation and ensuring a level playing field for operators;
- (2) address the issue of price transparency, including prices for small shipments. This action should mainly support consumers and small businesses. A comprehensive assessment of the situation will be carried out after two years to see if further action is needed.

*Remarks*

Having regard to paragraph 40 of the European Parliament recommendation of 4 April 2017 to the Council and the Commission following the inquiry into emission measurements in the automotive sector (P8\_TA(2017) 100), this pilot project will fund measures relating to in-service conformity checks by third-party testing in relation to the transposition of the Regulation (EC) No 715/2007.

In the past, qualified third parties provided authorities at Union and national level with reliable information on the emission behaviour of vehicles. That information was rarely made available by the responsible authorities. Funding should be made available to allow them to provide reliable data from on-road emissions testing of passenger cars which is independent of the data provided by manufacturers and the regulatory authorities in order to promote transparency and improve market surveillance. To guarantee their independence, third parties must not be providing, or have provided in the past, vehicle emissions testing or similar (studies, measurements, etc.) services for industry stakeholders.

The third parties will validate the test procedures by referring to the provisions laid down in Regulation (EC) No 715/2007, Commission Regulation (EC) No 692/2008 and the first three RDE packages (Commission Regulations (EU) 2016/427, (EU) 2016/646 and (EU) 2017/1151) and the guidelines outlined in the Commission notice of 26 January 2017. They will publish the results of their measurements in order to support the development of best practice procedures and the provision of broader information to the responsible authorities and the public. The third parties will not only measure exhaust gases and particle emissions from passenger cars.

Independent third parties will thus contribute to better oversight on how exhaust standards are performing in practice and to what extent the Union's objectives in terms of air quality and climate policy are being achieved. They will contribute to a broader understanding of exhaust reduction strategies with regard to acceleration, high speed, ambient temperature and other criteria. Their specific test procedure will be documented transparently and should take into account current rules on RDE and the latest research.

*Remarks*

The pilot project consists of a series of market investigations into several categories of consumer products in different Member States.

It will compare the qualitative characteristics of products that are sold in the single market under the same brand and in the same packaging and with the use of other marketing texts.

The pilot project will reveal how the quality of products under the same brands differs between Member States. The research will also include a comparative analysis of the labelling and consumer information for those products.

It will focus on food and non-food products. In the first phase only food products will be examined.

If the pilot project is continued, non-food products will also be examined.

With regard to food, each of the Eurostat-defined product groups examined will contain an adequate number of representative products. For non-food products, different product groups will also be represented. This may include detergents, cosmetics, toiletries and baby-products.

Products chosen will be those that consumers could reasonably believe to be the same, especially with regard to package labelling, brand name and the use of other marketing texts.

The investigation will be undertaken in at least half of the Member States, covering a representative cross-section in terms of population, Harmonised Index of Consumer Prices and geographical area. The scope of the investigation, including the selection of Member States and categories of products, will be decided by a task force on dual quality of products composed of representatives of Member States' competent authorities, consumer organisations, industry, the Commission and members of the European Parliament's Committee on Internal Market and Consumer Protection.

The following assessment will be carried for all products tested:

- physical-chemical testing;
- sensory testing;
- conformity with label declaration;

At the end of the pilot project, the Commission will publish a report informing the European Parliament and consumers in all Member States of the outcome of the investigation. It will be translated into the languages of the Member States where the investigation has been carried out and distributed to stakeholders. In order to raise consumer awareness, the report will also be publicised in the relevant Member States with the active involvement of European Parliament Information Offices, Commission Representations and Members of the European Parliament.

*Remarks*

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — the Framework Programme for Research and Innovation which covers the 2014 to 2020 period, and for the completion of the previous research programmes (Seventh Framework Programme and preceding framework programmes) and the Competitiveness and Innovation Framework Programme (CIP).

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area. Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

TITLE 02 — INTERNAL MARKET, INDUSTRY, ENTREPRENEURSHIP AND SMES

**CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES** (*cont'd*)

In Horizon 2020, gender equality is addressed as a cross-cutting issue in order to rectify imbalances between women and men and to integrate a gender dimension in research and innovation content. Particular account will be taken of the need to step up efforts to enhance the participation at all levels, including decision making, of women in research and innovation.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 02 04 50 01.

Administrative appropriations of this chapter will be provided under Article 02 01 05.

## CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES (cont'd)

02 04 02 **Industrial leadership***Remarks*

This priority of Horizon 2020 aims at making Europe a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of European companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

Remarks

The aim of this appropriation is to help remedy market deficiencies in accessing risk finance for research and innovation. In particular, the equity facility will target investments in risk capital funds which make early stage investments. It shall enable equity investments in, amongst others, seed capital funds, cross-border seed funds, business angel co-investment vehicles and early-stage venture capital funds. The equity facility, which will be demand-driven, shall use a portfolio approach, where venture capital funds and other comparable intermediaries select the firms in which to invest. Special attention should be paid to encouraging female entrepreneurs to participate in such schemes.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with point (i) of Article 21(3) of the Financial Regulation.

CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES (*cont'd*)02 04 02 (*cont'd*)02 04 02 03 (*cont'd*)*Remarks*

The aim of this appropriation is to:

- provide financing to the Enterprise Europe Network established under the COSME programme for their reinforced services linked to Horizon 2020. The support provided under the budget line is limited to services enhancing the innovation management capacity of SMEs, in particular of beneficiaries of the SME instrument;
- support the implementation and complementing the SME specific measures across Horizon 2020, notably to enhance effectiveness and efficiency of the innovation services provided to SMEs. Activities may include awareness raising, information and dissemination, training and mobility activities, networking and exchange of best practices, developing high quality innovation support mechanisms and services with strong Union added value for SMEs (e.g. intellectual property and innovation management, knowledge transfer), as well as assisting SMEs to connect to research and innovation partners across the Union;
- introduce measures encouraging female entrepreneurs to participate in the digital and innovative economy and the ICT and STEM sectors and support female entrepreneur networks;
- support market-driven innovation in view of enhancing the innovation capacity of firms by improving the framework conditions for innovation as well as tackling the specific barriers preventing the growth of innovative firms.

02 04 03 **Societal challenges***Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

## Remarks

Former Item 02 04 03 01 (in part)

The aim of this appropriation will be to support secure supply of raw materials in order to meet the needs of Union society within the sustainable limits of the planet's natural resources. Activities will target the improvement of the knowledge base on raw materials and the development of innovative solutions for the cost-effective and environmentally friendly exploration, extraction, processing, recycling and recovery of raw materials and for their substitution by economically attractive alternatives.

Support will also be provided for tackling barriers impeding the deployment of circular-economy such as recovery of raw materials from different waste streams.

Remarks

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Remarks*

Europe faces today an increasingly deteriorating security situation with the emergence of new or existing threats; the financial crisis has put constant pressure on national defence budgets and since 2006, the budget spent on defence R&D in Europe decreased by 30 %. In this context, Member States and public opinion look to the Union for greater involvement in security and defence.

The main objective of the preparatory action is to prepare and test mechanisms for conducting Union-funded defence research, including a mechanism of cooperation with the European Defence Agency, with a view to prepare, organise and deliver a variety of defence research, technology and development activities. The final aim of these activities is to improve the competitiveness and innovation in the European defence industry and to stimulate growth and job creation. It needs to produce visible and timely results for the decision making in view of the discussion on a possible defence research programme within the next Multiannual Financial Framework.

The research & technology programme of the preparatory action will be implemented by annual work programmes, mainly through calls for proposals for research projects and procurement. Tasks related to the implementation of the work programmes shall be delegated to the European Defence Agency. The preparatory action will cover all needed expenses to prepare and test mechanisms for conducting Union-funded defence research, including expenditure related to information and publications, dissemination, technical and administrative assistance, consultancy, studies and expert groups.

In 2018, this appropriation would cover funding for additional technology modules of a large scale demonstration project funded under the 2017 appropriation, which should yield timely the most tangible result: a first experimental development of new, innovative defence technology. This demonstration project should be complemented with a number of research projects, inter alia, on critical defence technologies as well as future disruptive technologies, and support activities to improve, for example, on standardisation and interoperability. The precise scope of the topics will include inter alia consultation with the Member States and the defence-related R&D stakeholders, and assistance from experts.

Any revenue from contributions from third countries entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item in accordance with the Financial Regulation.

CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES (*cont'd*)02 04 77 (*cont'd*)02 04 77 04 (*cont'd*)*Remarks**Former Item 02 03 77 06*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The pilot project on space technologies will primarily test partnership arrangements with industry to identify priorities for competitiveness. This will prepare the ground for a public-private partnership (Joint Technology Initiative or similar) in space technologies and an associated roadmap through a structured dialogue with industry.

The pilot project will focus on two themes which are not addressed by current programmes: innovative materials for space equipment and cleaner space through deorbiting.

The specific area of materials for space equipment is critical for a European space sector currently suffering from dependency in some critical materials areas. In order to support a reduction in dependency as regards materials supply and a sustainable REACH-compliant competitive space sector, two major topics could be addressed by developing innovative materials for space equipment: composite supply source for critical space equipment and non-dependency with regard to materials and processes. The market for carbon-based raw materials suffers from under-capacity, and the space sector, because it is a low-volume customer, suffers the most. Supply sources for composite raw materials are still highly concentrated in the US and Japan. The drive for non-dependency with regard to materials and processes should aim at promoting European sources for critical materials and processes affected by dependency issues or Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and establishing a European Chemicals Agency (OJ L 396, 30.12.2006, p. 1).

Innovative materials for space equipment would also provide a deorbiting solution by allowing the development of appropriate technology to ensure that satellites are removed at the end of their mission life.

The Earth's orbit needs to be in good condition in order to enable manned and unmanned operations in space in the future. The Union should start to take the steps necessary for limiting the growth of orbiting debris.

The three main areas for technological development could be:

- (1) end-of-life deorbiting solutions (propulsion);
- (2) trajectory and controlled re-entry (design and modelling);
- (3) design for demise (controlled break-up on re-entry). Establishing a long-term deorbiting scheme through a pilot project could also make a significant environmental contribution.

**CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES** *(cont'd)***02 04 77** *(cont'd)*02 04 77 04 *(cont'd)*

The aim is to achieve sustainable long-term replacement solutions for materials through innovation, and identifying solutions for space debris is critical for industry.

## Remarks

The Union contribution to the European GNSS programmes is granted with a view to financing activities relating to:

- the completion of the deployment phase of the Galileo programme, consisting of the construction, establishment, protection of the space and ground infrastructure, as well as preparatory activities for the exploitation phase including activities relating to the preparation of service provision;
- the exploitation phase of the Galileo programme, consisting of the management, maintenance, continuous improvement, evolution and protection of the space and ground infrastructure, the development of future generations of the system and the evolution of the services provided by the system, certification and standardisation operations, provision and marketing of the services provided by the system and all other activities needed to ensure that the programme runs smoothly.

The amounts repaid in accordance with Article 20 of Delegated Regulation (EU) No 1271/2013 constitute assigned revenue in accordance with point (c) of Article 21(3) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European GNSS Agency is set out in Annex 'Staff' to this section.

The Union contribution for 2018 amounts to a total of EUR 31 538 000. An amount of EUR 199 475, coming from the reserve of surplus, is added to the amount of EUR 31 338 525 entered in the budget.

## Remarks

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

## Legal basis

## Remarks

The aim of this appropriation is to:

- enable operations of Copernicus services, tailored to the needs of users;
- contribute to ensure access to data of the observation infrastructure necessary to operate Copernicus services;
- create opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

This appropriation will, in particular, fund the set-up, the establishment and operation of the six services mentioned in Regulation (EU) No 377/2014 and the related activities.

This appropriation may also fund cross-cutting activities among the services or their articulation and co-ordination, as well as for the in-situ co-ordination, user uptake and training and communication.

The budget envelope will be managed either directly by the Commission services or indirectly via delegation agreements with Union agencies and international organisations, or any entity eligible under Article 58 of the Financial Regulation.

When the Commission manages the budget directly, it may entrust the Joint Research Centre (JRC) with scientific and technical support tasks. The funding of these tasks may be entered into the JRC's indirect budget under point (c) of Article 183(2) and Article 183(6) of the Financial Regulation.

**CHAPTER 02 06 — EUROPEAN EARTH OBSERVATION PROGRAMME** (*cont'd*)**02 06 01** (*cont'd*)

In addition, in support of competitiveness and growth, this appropriation may also fund data dissemination and the incubation of new businesses by supporting more robust and innovative IT structures in Europe.

Copernicus services will facilitate access to key data required in policy formulation at Union, national, regional and local level in fields such as agriculture, forest monitoring, water management, transport, urban planning, climate change and many others. This appropriation covers mainly the implementation of delegation agreements for the Copernicus programme, pursuant to Article 58 of the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, those amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget. Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this Item in accordance with the Financial Regulation.

*Remarks*

The aim of this appropriation is to:

- build an autonomous Union's Earth observation capacity by funding the space infrastructure and favouring the European industry in that regard, namely in the construction and launch of satellites;
- contribute to the availability of the observation capacity necessary to enable the Copernicus services, in particular through the operations of the ground segment of the space infrastructure;

- create opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

The development of a European space infrastructure has a key role in enhancing competitiveness and innovation, and requires consistent public intervention to sustain the industrial effort.

This appropriation will fund the development and construction of satellites, as well as their operation. The data and information obtained through the space infrastructure is subject to the free, full and open data policy, which will increase their availability and thereby boost the downstream market.

To supplement the data needed by users, this appropriation may also fund the acquisition of data from third parties and the access to contributing mission from Member States, as well as the dedicated dissemination platform (core ground segment) which will serve, in priority the operational services funded by Article 02 06 01.

The budget envelope will be managed either directly by the Commission services or indirectly via delegation agreements with Union agencies and international organisations, or any entity eligible under Article 58 of the Financial Regulation.

When the Commission manages the budget directly, it may entrust the Joint Research Centre (JRC) with scientific and technical support tasks. The funding of these tasks may be entered into the JRC's indirect budget under point (c) of Article 183(2) and Article 183(6) of the Financial Regulation.

*Remarks*

In order to ensure that the rules on competition concerning agreements, decisions by associations of undertakings and concerted practices (Article 101 of the Treaty on the Functioning of the European Union), abuses of a dominant position (Article 102 of the Treaty on the Functioning of the European Union), aids granted by States (Articles 107 and 108 of the Treaty on the Functioning of the European Union) and concentrations between undertakings (Regulation (EC) No 139/2004) are enforced, the Commission is empowered to take decisions, to conduct investigations and to impose penalties or order recovery.

The Commission’s decisions are subject to review by the Court of Justice of the European Union in accordance with the Treaty on the Functioning of the European Union.

As a prudential measure, it is appropriate to take into account the possibility of budgetary implications stemming from rulings of the Court of Justice of the European Union.

This appropriation is intended to cover any expenditure arising from damages awarded by the Court of Justice of the European Union to claimants and resulting from legal proceedings against the Commission’s decisions in the field of competition.

Since a reasonable estimate of the financial impact on the general budget cannot be established beforehand, a token entry (‘p.m.’) appears in this article. If necessary, the Commission will propose to make available the appropriations related to actual needs by means of transfers or through a draft amending budget.

*Remarks*

This appropriation is intended to cover expenditure on studies, committees, meetings of experts, including meetings and other expenditure relating to the work of the European Platform to enhance cooperation on tackling undeclared work, conferences, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the Instrument for Pre-Accession Assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 04 05.

*Remarks*

Article 175 of the Treaty on the Functioning of the European Union provides that the objectives of economic, social and territorial cohesion set out in Article 174 shall be supported by the action the Union takes through the Structural Funds, which includes the ESF. The tasks, priority objectives and the organisation of the Structural Funds are defined in accordance with Article 177 of the Treaty on the Functioning of the European Union.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Article 39 of Regulation (EC) No 1260/1999, Articles 100 and 102 of Regulation (EC) No 1083/2006 and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the ESF.

Any revenue from the financial corrections carried out on that basis is entered in Article 6 5 1, 6 5 2, 6 5 3 or 6 5 4 of the statement of revenue and constitutes assigned revenue in accordance with point (c) of Article 21(3) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing amounts applicable to the ESF.

COMMISSION

TITLE 04 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION

**CHAPTER 04 02 — EUROPEAN SOCIAL FUND (ESF) (cont'd)**

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded under Article 24 02 01.

## Remarks

This appropriation is intended to cover the funding by the ESF of commitments remaining to be settled from the 2000-2006 programming period for innovative actions and technical assistance as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative actions included studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covered preparatory, monitoring, evaluation, supervision and management measures required for implementation of the ESF. This appropriation was, in particular, used to cover:

- support expenditure (representation expenses, training, meetings and missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,
- grants.

## Remarks

This appropriation is intended to cover commitments remaining to be settled for programmes under the ESF convergence objective in the 2007-2013 programming period. That objective is aimed at speeding up the convergence of the least developed Member States and regions by improving conditions for growth and employment.

This appropriation aims to reduce the economic, social and territorial disparities which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring and population ageing.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006, as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

## Remarks

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in less developed regions in the 2014-2020 programming period. The catching-up process for these economically and socially lagging regions requires long-term sustained efforts. This category of regions concerns those regions whose GDP per capita is less than 75 % of the average GDP of the EU-27.

Promotion of equality between women and men horizontally and through specific actions should be part of the support provided by the ESF, in order to improve the employability of women and their participation in the labour market. Special attention should be paid to non-discrimination in the labour market, combating the feminisation of poverty, access to education and affordable childcare services.

## Remarks

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in the 2014-2020 programming period in a new category of region ('transition regions') that replaces the 2007-2013 phasing-out and phasing-in system. This category of regions includes all regions with a GDP per capita between 75 and 90 % of the average GDP of the EU-27.

*Remarks*

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in more developed regions in the 2014-2020 programming period. While interventions in the less developed regions will remain the priority for cohesion policy, this appropriation is thus intended to cover important challenges that concern all Member States such as global competition in the knowledge-based economy, the shift towards the low carbon economy and social polarisation exacerbated by the current economic climate. This category of regions concerns those regions whose GDP per capita is above 90 % of the average GDP of the EU-27.

Gender mainstreaming and gender equality specific actions should be part of the support provided by the ESF, in order to improve the employability of women and their participation in the labour market. Special attention should be paid to non-discrimination in the labour market, combating the feminisation of poverty, access to education and affordable childcare services.

*Remarks*

This appropriation is intended to cover the preparatory, monitoring, technical assistance, evaluation, audit and control measures, as well as the Corporate Communication programme, necessary for implementing Regulation (EU) No 1303/2013 as provided for in Articles 58 and 118 of that Regulation. In particular, it may be used to cover the cost of activities with partner organisations and stakeholders in Member States (such as training, meetings or conferences).

This appropriation is also intended to cover administrative learning and cooperation with non-governmental organisations and social partners.

This appropriation is also intended to cover inter alia the elaboration of:

- tools for electronic project application and reporting, unification and standardisation of documents and procedures for the management and implementation of operational programmes,
- a peer review of each of the Member States' financial management and quality performance,
- standard tender documentation on public procurement,
- a common system of result and impact indicators,
- a best practices manual to optimise the absorption process and decrease the error rate.

Remarks

This appropriation is intended to provide additional support to measures against youth unemployment financed by the ESF. It represents the specific allocation to the Youth Employment Initiative under the Investment for growth and jobs goal in regions with a level of youth unemployment exceeding 25 % in 2012 or for Member States where the youth unemployment rate has increased by more than 30 % in 2012, regions that have a youth unemployment rate of more than 20 % in 2012 ('eligible regions'). The additional EUR 3 000 000 000 allocated to this line for the 2014-2020 period is intended to provide match funding to ESF interventions in the eligible regions. This appropriation is intended to finance the creation of decent jobs.

While promoting gender equality, special attention should be paid to the situation of young women who can face gender-specific obstacles to get a good quality offer of employment, continued education, an apprenticeship or a traineeship.

This appropriation is to be used, amongst others, to support the establishment of educational structures combining non-formal education, language courses, democratic awareness and vocational training in the regions most affected by youth unemployment, both by state-actors and non-governmental organisations.

The margins available below the multiannual financial framework (MFF) ceilings for commitment appropriations for 2014-2017 will constitute a global MFF margin for commitments, to be made available over and above the ceilings established in the MFF for 2016-2020 for policy objectives related to growth and employment, in particular youth employment, as established in Council Regulation (EU, Euratom) No 1311/2013 of 2 December 2013 laying down the multiannual financial framework for the years 2014-2020 (OJ L 347, 20.12.2013, p. 884).

*Remarks*

This appropriation is intended to cover expenditure on preliminary consultation meetings between European trade union representatives with a view to helping them form their opinions and harmonise their positions regarding the development of Union policies.

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases and software and the part-financing and support of measures relating to economic monitoring, analysis of the combination of measures and coordination of economic policies.

*Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

The objective of this activity is to promote geographic and professional mobility (including the coordination of social security schemes) of workers in Europe in order to overcome the obstacles to free movement of workers and to contribute to the establishment of a real labour market at European level.

This appropriation is intended to cover actions supporting the monitoring of Union law through financing of a network of experts on free movement of workers and social security reporting regularly on the implementation of Union legal acts in the Member States and at Union level, and analysing and evaluating the major trends in legislation of the Member States with regard to the free movement of workers and coordination of social security systems. This appropriation is also intended to cover actions supporting governance of Union legal acts through meetings of the committees, actions for awareness raising and implementation and other specific technical support and the development of the Electronic Exchange of Social Security Information (EESSI) system and its implementation.

This appropriation is intended to cover in particular:

- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- the analysis and evaluation of the major trends in legislation of the Member States with regard to the free movement of workers, and coordination of social security systems, as well as the financing of networks of experts in those fields,
- the analysis and research on new policy developments in the domain of free movement of workers linked for example to the end of transitional periods and modernisation of social security coordination provisions,
- ensuring fair mobility by setting up additional information centres,

## TITLE 04 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 01 (*cont'd*)04 03 01 03 (*cont'd*)

- support for the work of the Administrative Commission and its sub-groups and follow-up of the decisions taken, as well as support for the work of the Technical and Advisory Committees on free movement of workers,
- support for actions preparing for the application of the new regulations on social security, including transnational exchanges of experience and information and training initiatives developed at national level,
- the financing of actions aimed at providing a better service and raising public awareness, including measures aimed at identifying migrant workers' social security and employment problems, and measures speeding up and simplifying administrative procedures, gender-sensitive analysis of the barriers to free movement of workers and lack of coordination of social security systems and their impact on people with disabilities, including adaptation of administrative procedures to new information-processing techniques, in order to improve the system for acquiring rights and the calculation and payment of benefits pursuant to Regulations (EEC) No 1408/71, (EEC) No 574/72, Regulation (EC) No 859/2003 as well as Regulation (EC) No 883/2004, its implementing Regulation (EC) No 987/2009, and Regulation (EU) No 1231/2010,
- the development of information and actions to make members of the public aware of their rights on the free movement of workers and the coordination of social security schemes,
- the support of the electronic exchange of social security information among Member States, with a view to facilitating the implementation of Regulation (EC) No 883/2004 and its implementing Regulation (EC) No 987/2009. This includes the maintenance of the central node of the EESSI system, testing system components, helpdesk activities, support for further development of the system and training.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 01 (*cont'd*)04 03 01 04 (*cont'd*)*Remarks*

The objective of this activity is to promote better policy responses in the Member States to demographic and social challenges by producing and disseminating comparative information in the context of the implementation of the Europe 2020 strategy and the identification of future priorities for social policies, including gender-specific measures.

This appropriation is intended to cover actions promoting the development of comparative analysis and the exchange of views and experience at all relevant levels (regional, national, Union, international) regarding the social and demographic situation and the socio-economic trends in the Union, as well as the gender pay gap and discrimination against women in the workplace. This appropriation is also intended to cover actions supporting an Observatory of the Social Situation, the cooperation with relevant activities in the Member States and with international organisations and the management of a technical support group for the European Alliance for Families.

This appropriation is intended to cover in particular expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation is intended to cover in particular expenditure on Commission reports (including an annual report on the social situation and a report on demographic change and its implications every 2 years, in accordance with Article 159 of the Treaty on the Functioning of the European Union (TFEU), as well as Commission reports on problems concerning the social situation (which can be requested by the European Parliament pursuant to Article 161 TFEU).

This appropriation is also intended to cover expenditure on analysis for the reporting referred to in TFEU, as well as for the dissemination of knowledge on major social and demographic challenges and ways of tackling them. In particular, the following activities can be pursued with due consideration of the gender aspect:

- analysis of the impact of population ageing in the context of a society for all ages, in terms of trends in care and social protection needs, behaviour and flanking policies, including research on elderly minorities or migrants and the situation of informal carers,
- analysis of the impact of demographic change on Union and Member State policies, measures and programmes, and formulation of recommendations for adjustments to economic and other policies, measures and programmes at Union and national levels in order to prevent the ageing of society from having a negative impact,
- analysis of the links between family units and demographic trends,
- analysis of trends in poverty, income and wealth distribution and their broader societal impact,

- identification of the existing relations between technological development (impact on communication technologies, geographical and occupational mobility) and the consequences for households and society in general,
- analysis of the links between disability and demographic trends, analysis of the social situation of people with disabilities and their families and the needs of children with disabilities within their families and communities,
- analysis of trends in social objectives (in terms of safeguarding acquired rights or extending them) regarding both goods and services, taking account of new social challenges as well as demographic trends and changing the relationships between generations,
- development of appropriate methodological tools (sets of social indicators, simulation techniques, data collection on policy initiatives at all levels, etc.), so as to underpin the reports on the social situation, on social protection and social inclusion with a solid quantitative and scientific foundation,
- raising awareness and organising debates on the major demographic and social challenges with the aim of promoting better policy responses,
- the taking into account of demographic trends, family life and childhood in the implementation of relevant Union policies, such as the free movement of persons and equality between men and women.

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 01 (*cont'd*)04 03 01 05 (*cont'd*)

This appropriation is intended to cover in particular the following activities:

- support for the work programmes of the two specific trade union institutes, European Trade Union Institute and European Centre for Workers' Questions, which have been established to facilitate capacity-building through training and research at European level, as well as to improve the degree of involvement of workers' representatives in European governance,
- information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from the implementation of Union action in the framework of the implementation of the Union social dimension,
- measures involving representatives of the social partners in the candidate countries with the specific purpose of promoting social dialogue at Union level. It is also intended to promote equal participation of women and men in the decision-making bodies of workers' organisations.

Strong and competent social partners are needed in order to improve the process of relaunching and enhancing the functioning of social dialogue, in order to support recovery and enhance competitiveness and fairness in the social market economy.

- measures to set the conditions for social dialogue in companies and proper employee involvement in undertakings as provided under Directive 2009/38/EC on European Works Councils, Directives 2001/86/EC and 2003/72/EC on employees' involvement in the European company and in the European cooperative society, respectively, Directive 2002/14/EC establishing a general framework for informing and consulting employees in the European Community, Directive 98/59/EC on collective redundancies and Article 16 of Directive 2005/56/EC on cross-border mergers of limited liability companies,
- initiatives to strengthen transnational cooperation between workers' and employers' representatives in respect of information, consultation and participation of employees within companies operating in more than one Member State and short training actions for negotiators and representatives in transnational information, consultation and participation bodies may be funded in that context. This may involve social partners from candidate countries,
- measures to enable social partners to exercise their rights and duties as regards employee involvement, especially within the framework of European Works Councils, to familiarise them with transnational company agreements and strengthen their cooperation in respect to Union law on employee involvement,
- operations fostering the development of employee involvement in undertakings as well as assessing the findings of the 'Fitness check' and its impact on Union acts in the area of information and consultation of workers,
- innovative actions relating to employee involvement, with the view of supporting the anticipation of change and the prevention and resolution of disputes in the context of corporate restructuring, mergers, take-overs and relocation in Union-scale undertakings and Union-scale groups of undertakings,
- measures to strengthen cooperation between the social partners for the development of employee involvement in the design of solutions addressing the consequences of the economic crisis, such as mass redundancies, or the need for a shift towards an inclusive, sustainable and low-carbon economy,
- transnational exchange of information and good practice in matters relevant for social dialogue at company level.

*Remarks*

The general objective of the European Union programme for Employment and Social Innovation (EaSI) is to contribute to the Europe 2020 strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

To achieve the general objectives of EaSI in terms of promoting a high level of employment, guaranteeing adequate social protection, combating social exclusion and poverty, improving working conditions and protecting workers' safety and health, the specific objectives of the Progress axis are to:

**CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION** (*cont'd*)**04 03 02** (*cont'd*)04 03 02 01 (*cont'd*)

- develop and disseminate high-quality comparative analytical knowledge in order to ensure that Union employment and social policy and working conditions and occupational health and safety legislation are based on sound evidence and are relevant to needs, challenges and conditions in the individual Member States and the other participating countries,
- facilitate effective and inclusive information-sharing, mutual learning and dialogue on Union employment and social policy and working conditions and occupational health and safety legislation at Union, national and international level in order to assist the Member States and the other participating countries in developing their policies and in implementing Union law,
- provide policymakers with financial support to promote social and labour market policy reforms, build up the main actors' capacity to design and implement social experimentation, and make the relevant knowledge and expertise accessible,
- provide Union and national organisations with financial support to develop, promote and support the implementation of Union employment and social policy and working conditions and occupational health and safety legislation,
- raising awareness, exchanging good practice, disseminating information and promoting the debate on the key challenges and policy issues in relation to working conditions, gender equality, occupational health and safety and the reconciliation of work and family life and the ageing society, including among social partners,
- to encourage job creation, promote youth employment and fight poverty by promoting increased social convergence by means of the Social Mark.

In addition support could be provided to actions related to the implementation of the common provisions of EaSI such as monitoring, evaluation, dissemination of results and communication. Article 16 of Regulation (EU) No 1296/2013 describes the types of actions which may be financed.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

*Remarks*

The general objective of the EaSI is to contribute to the Europe 2020 strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI, in particular to promote workers' geographical mobility and boost employment opportunities by developing Union labour markets that are open and accessible to all, the specific objectives of the EURES axis are to:

- ensure that job vacancies and applications, and any related information as well as working conditions and rights are transparent for the potential applicants and the employers; this shall be achieved through their exchange and dissemination at transnational, interregional and cross-border level using standard interoperability forms,
- help ensure that European-level job vacancies and mobility options are advertised in parallel to national job vacancies and applications and not only after local or national options are exhausted,
- develop services for the recruitment and placing of workers in employment through the clearance of job vacancies and applications at European level; this shall cover all phases of placement, ranging from pre-recruitment preparation to post-placement assistance, including language skill development options, with a view to the applicant's successful integration into the labour market; such services shall include targeted mobility schemes to fill job vacancies where labour market shortcomings have been identified and/or help particular groups of workers such as young people,

TITLE 04 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSIONCHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 02 (*cont'd*)04 03 02 02 (*cont'd*)

- provide assistance for national and cross-border support activities organised by EURES partners,
- initial and further training of EURES advisers in the Member States,
- contacts between EURES advisers and cooperation between government employment services, including those of candidate countries,
- promotion of EURES among firms and the general public,
- development of special structures for cooperation and services in border regions pursuant to point (b) of Article 17(1) of Regulation (EEC) No 1612/68,
- measures to help remove mobility obstacles, particularly in the field of work-related social security.

This programme should also facilitate the matching and placement of apprentices and trainees as a critical element in helping the transition of young people from school to work, as already begun under the preparatory action 'Your first EURES job' and complemented by the Youth Employment Initiative. Companies, particularly small and medium-sized enterprises (SMEs), will be encouraged to recruit more young people, including by financial support.

Target groups:

- young people up to 30 years of age, regardless of their qualifications and work experience, as the scheme is not exclusively tailored for labour market entrants,
- all legally established businesses, particularly SMEs, to assist with reducing the costs of international hiring that affect mostly smaller companies.

Eligible jobs under this part of the programme will offer young people apprenticeships, a first work experience or specialised jobs. The scheme will not support situations of job substitution or precarious employment, or in any circumstances be contrary to national labour law.

To be eligible for funding, jobs have also to comply with the following criteria:

- be located in a EURES member country other than the country of origin of the young job-seeker (transnational vacancies),
- ensure a work placement for a minimum contractual period of 6 months.

The general objective of the EaSI is to contribute to the Europe 2020 strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI in particular to promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable groups and micro-enterprises, and by increasing access to finance for social enterprises, the specific objectives of the Microfinance and Social Entrepreneurship axis are to:

- increase access to, and the availability of, microfinance for persons who have lost or are at risk of losing their jobs, or who have difficulty in entering or re-entering the labour market, persons at risk of social exclusion and vulnerable persons, including women wishing to start entrepreneurial careers, who are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro-enterprises; and for micro-enterprises, especially those which employ these persons as referred to,
- build up the institutional capacity of microcredit providers,
- support the development of social enterprises.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to provision of additional appropriations in accordance with points (e), (f) and (g) of Article 21(2) of the Financial Regulation.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with point (i) of Article 21(3) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the European Foundation for the Improvement of Living and Working Conditions (Eurofound) staff and administrative expenditure (Titles 1 and 2), and operational expenditure for the work programme (Title 3).

Eurofound must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Union contribution for 2018 amounts to a total of EUR 20 371 000. An amount of EUR 488 coming from the recovery of surplus is added to the amount of EUR 20 370 512 entered in the budget.

Part of this appropriation is intended for studies on working conditions and industrial relations in support of policies ensuring more and better jobs, making work more sustainable and strengthening social dialogue in Europe.

A further part of this appropriation is intended for studies and forward looking research on labour markets, and specifically the monitoring and anticipation of structural change, its impact on employment and management of the consequences.

The appropriation will also cover research and gathering of knowledge on living conditions and quality of life, with a particular focus on social policies and the role of public services in improving quality of life. Research into reconciliation of professional and private life and precarious employment, including breaking down by gender, should be also covered by the appropriation.

Despite public perceptions, labour mobility is low in the Union. High unemployment and low labour mobility within and between countries coexist with skill and labour shortages in some countries and regions. Well-performing labour markets are important for facilitating adjustment to shocks, allocating resources to best effect and dealing with potential ageing-related labour market shortages. Mobility within the Union can, in principle, help to remedy labour market shortages and imbalances. The over-35 age group also faces higher mobility barriers, and it is therefore important to put financial and/or other support specifically designed for this group to the test.

Reactivate is a mobility programme for adult traineeships and work trials lasting between 6 and 12 months in other Member States. It is targeted at unemployed citizens in the 35+ age group, including the long-term unemployed (LTU). This age group generally represents a population segment with strong skills based on work experience, whence the need for this programme.

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 77 (*cont'd*)04 03 77 23 (*cont'd*)

In the light of the number of LTUs, Reactivate will test support tailor-made for them. In order to encourage employers to make job offers to unemployed persons from other Member States, Reactivate will test ways of engaging with employers and forms of financial and/or other support for employers.

Reactivate is intended as an extension of the successful EURES First Job programme, offering similar advantages for unemployed persons, in particular LTUs, over the age of 35. This project can build on EURES First Job as a sound mobility platform.

Reactivate will give unemployed persons, including LTUs, in this age group an unprecedented opportunity to acquire diversified knowledge and skills, to learn new languages, and to better understand the European internal market. All these advantages greatly militate in favour of a stronger European identity and diversity while increasing labour mobility and the employment rate.

*Remarks*

This appropriation is intended to cover implementation of the preparatory action.

Inequalities are considered to be a cause of macroeconomic destabilisation and to reduce growth. Therefore European and national action to correct inequalities affecting children can be seen as a long-term policy for macroeconomic stabilisation and growth. Opening up opportunities can spur stronger economic performance and improve living standards.

Fighting poverty and social exclusion is one of the Europe 2020 targets: to reduce by at least 20 million the number of people in or at risk of poverty and social exclusion. However, between 2008 and 2014, the number of people at risk of poverty or social exclusion in the EU-27 increased from 116 million to 121 million; almost every fourth person in the EU-27 is at risk of poverty or social exclusion. Amongst this group, child poverty is alarming. In 2014, more than 26 million children in the Union were at risk of poverty and more than nine million suffered from severe material deprivation. If no measures are taken to correct this situation, they will be at greater risk of failing in the education system (Europe 2020 target for education) and will have the most difficulties in entering the labour market (Europe 2020 target for employment). The child guarantee is an integrated approach to tackling child poverty, aiming at fully implementing the Commission's 'Investing in Children' recommendation, to ensure that every child in Europe at risk of poverty (including refugees) has access to free health care, free education, free childcare, decent housing and adequate nutrition. Covering these five areas of action through European and national action plans would ensure that the living conditions and opportunities of millions of children in Europe improve considerably and with a long-term perspective. The child guarantee is a key horizontal policy and should be regarded as an investment in the stability and prosperity of the Union, which is necessary for preserving the Union's growth potential.

To make the child guarantee a successful instrument in the fight against child poverty, Union financial support should be put in place to ensure a coordinated effort together with Member States towards common goals with binding indicators. The preparatory action will lay down the implementing framework for the child guarantee:

- (1) selecting comparative measurable criteria to assign funds in accordance with the Commission's 'Investing in Children' recommendation;
- (2) assessing existing national and Union interventions tackling multi-dimensional aspects of child poverty and mapping best practices;
- (3) delineating the typology of programmes to be funded;
- (4) establishing funding arrangements; and
- (5) establishing governance mechanisms, including monitoring and evaluation.

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 77 (*cont'd*)04 03 77 27 (*cont'd*)*Remarks*

In the personal and household services sector (PHS), a sector with high potential for job creation, experience with implementing service voucher schemes, such as in France or Belgium, has been positive. Most workers in the PHS sector are women; however, 60% of them are migrants and many are cross-border workers, and consequently there are important loopholes and limited or fragmented access to information about the rights and obligations of workers in this sector. In Member States such as France and Belgium, a dedicated tax framework has been developed to regularise activities in the sector and address the issue of undeclared work. In order to increase the number of Member States applying a policy on PHS and to support decent work in this sector, the pilot project will have two main objectives: (1) to help Member States develop service voucher schemes (or in an initial phase trial them in certain municipalities; and (2) to introduce an effective social dialogue in this sector.

This pilot project will provide advice, technical assistance and a range of tailored guidance activities and recommendations to Member States interested in developing the PHS sector, and will support the exchange of good practices among key stakeholders, national public administrations (municipalities/local administrations in the case of a trial introduction) and organisations of domestic workers, carers and employers.

Regarding the social dialogue and decent working conditions, the project will facilitate the professionalisation of these jobs, the dissemination of information on the rights and obligations of workers and employers and the creation and development of an effective social dialogue.

This pilot project will need to be supported by the principal European stakeholders in the PHS sector.

## Remarks

This appropriation is intended to cover the EGF so as to enable the Union to demonstrate solidarity towards, and to support workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world patterns due to globalisation, as a result of the continuation of the global financial and economic crisis addressed in Regulation (EC) No 546/2009 of the European Parliament and of the Council of 18 June 2009 amending Regulation (EC) No 1927/2006 on establishing the European Globalisation Adjustment Fund (OJ L 167, 29.6.2009, p. 26), or as a result of a new global financial and economic crisis and to provide financial support for their rapid reintegration into sustainable employment.

The actions undertaken by the EGF should be complementary to those of the ESF and there must be no double funding from these instruments. EGF-supported actions or measures should aim to ensure that the largest possible number of beneficiaries participating in these actions find sustainable employment as soon as possible before the final report is due.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

*Remarks*

This appropriation is intended to cover the EGF so as to enable the Union to provide time-limited and targeted support for workers made redundant as a result of major structural changes in world trade patterns due to globalisation where these redundancies have a significant adverse impact on the regional or local economy. It is applicable to all applications submitted up to 31 December 2013. For applications submitted between 1 May 2009 and 31 December 2011, it may also be used to provide support to workers made redundant as a direct result of the global financial and economic crisis.

The actions undertaken by the EGF should be complementary to those of the ESF. There must be no double funding from these instruments.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

## Remarks

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I to Regulation (EU) No 231/2014 at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

(1) This designation is without prejudice to positions on status, and is in line with the United Nations Security Council Resolution 1244(1999) and the International Court of Justice opinion on Kosovo's declaration of independence.

*Remarks*

Article 174 of the Treaty on the Functioning of the European Union sets out the Union's objective of economic, social and territorial cohesion while Article 175 specifies the role of the Structural Funds in achieving this objective and makes provisions for the adoption of specific actions outside the Structural Funds.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Articles 56 and 57 of Regulation (EU) No 223/2014 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to FEAD.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with point (c) of Article 21(3) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 44 of Regulation (EU) No 223/2014 provides for specific rules on repayment of pre-financing applicable to the FEAD.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Article 19 of Regulation (EU, Euratom) No 1311/2013 lays down the conditions for the revision of the multiannual financial framework in order to transfer to subsequent years, in excess of the corresponding expenditure ceilings, allocations not used in 2014, in the event of the adoption after 1 January 2014 of new rules or programmes.

*Remarks*

The FEAD replaces the European Union's Food Distribution Programme for the Most Deprived Persons of the Community, which was discontinued at the end of 2013.

To ensure continuity between the two programmes, expenditure shall be eligible for a support from a FEAD operational programme if it is incurred by a beneficiary and paid between 1 December 2013 and 31 December 2023.

The FEAD shall promote social cohesion, enhance social inclusion and therefore ultimately contribute to the objective of eradicating poverty in the Union by contributing to achieving the poverty reduction target of at least 20 million of the number of persons at risk of poverty and social exclusion in accordance with the Europe 2020 strategy, whilst complementing the Structural Funds. Since the proportion of women at risk of poverty or social exclusion is higher than is the case for men, FEAD will take a gender-sensitive approach by adapting measures to the groups actually at risk, including women and the elderly. It shall contribute to achieving the specific objective of alleviating and eradicating the worst forms of poverty, by providing non-financial assistance to the most deprived persons by food and/or basic material assistance, and social inclusion activities aiming at the social integration of the most deprived persons.

**CHAPTER 04 06 — FUND FOR EUROPEAN AID TO THE MOST DEPRIVED (FEAD) (cont'd)****04 06 01** (cont'd)

This objective and the results of the implementation of the FEAD shall be qualitatively and quantitatively assessed.

The FEAD shall complement and shall not replace or reduce sustainable national poverty eradication and social inclusion policies, which remain the responsibility of Member States.

The resources for the FEAD available for budgetary commitment for the 2014-2020 period shall be EUR 3 395 684 880 in 2011 prices.

Poverty is a multidimensional problem and tackling it should become a primary goal. Greater emphasis needs to be placed on poverty in all strategies, as poverty is a complex problem with many causes. Most importantly, it also has a great impact not only on the present but also on the future. People who experience poverty, especially children, are at greater risk of not succeeding in later life and of being excluded from society.

CHAPTER 05 01 — ADMINISTRATIVE EXPENDITURE OF THE 'AGRICULTURE AND RURAL DEVELOPMENT' POLICY AREA (*cont'd*)05 01 04 (*cont'd*)05 01 04 03 (*cont'd*)

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under point (b) of Article 21(2) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 05 05.

*Remarks*

This appropriation is intended to cover the EAFRD-funded technical assistance provided for in Article 51 of Regulation (EU) No 1305/2013, Article 6 of Regulation (EU) No 1306/2013 and Article 58 of Regulation (EU) No 1303/2013. Technical assistance covers preparatory, monitoring, administrative support, evaluation, and inspection measures required to implement the common agricultural policy. It can, in particular, be used to finance:

- dissemination of information, including cooperation and exchanges at Union level and networking of the parties concerned,
- provision of information including studies and evaluations,
- expenditure on information technology and telecommunications,
- expenditure for the protection of the interests of the Union (legality and regularity, fraud, penalties and recovery actions),
- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff) up to EUR 1 850 000, as well as missions relating to the external personnel.

Any revenue entered in Article 6 7 1 of the general statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21 and 177 of the Financial Regulation.

*Remarks*

This appropriation is intended to cover expenditure for measures needed to cope with major crises affecting agricultural production or distribution.

The reserve is to be established by applying at the beginning of each year a reduction to direct payments (Chapter 05 03) with the financial discipline mechanisms in accordance with Articles 25 and 26 of Regulation (EU) No 1306/2013 as well as Article 8 of Regulation (EU) No 1307/2013. When the Commission considers the reserve needs to be called on, in accordance with the relevant legislative act, it shall present to the European Parliament and the Council a proposal for a transfer from the reserve to the corresponding budget lines financing the measure deemed necessary. Any Commission proposal for a transfer to draw on the reserve must be preceded by an examination of the scope for reallocating appropriations. By the end of the financial year, any amount of the reserve not made available for crisis measures shall be reimbursed to the final recipients of direct payments according to the provisions of Article 26 (5) of Regulation (EU) No 1306/2013. Any reimbursement will be done under Article 05 03 09 from appropriations carried over from the previous financial year.

Transfers calling on the reserve and transfer back from the reserve to direct payments shall be made in accordance with the Financial Regulation.

*Remarks*

This appropriation is intended to cover outstanding payments against commitments under the EAGGF Guidance Section for programming periods prior to 2000 related to the former objectives 1, 6, 5a, 5b and the Community initiatives.

This appropriation is also intended to cover the settlement of commitments entered into, in the course of earlier programming periods, in respect of innovative, preparatory, monitoring or evaluation measures, and any similar technical assistance measures provided for in the regulations concerned.

It also funds amounts outstanding from former multiannual measures, in particular those approved and implemented under the other regulations, mentioned below, which are not covered by the priority objectives of the Funds.

This appropriation will where applicable also be used to cover amounts payable in respect of the EAGGF Guidance Section for measures for which the corresponding commitment appropriations are neither available nor provided for in the programming for 2000 to 2006.

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections for which any revenue is entered in Item 6500 of the statement of revenue.
