European Commission

Notice of reopening the anti-dumping investigation concerning the imports of certain solar glass originating in the People’s Republic of China

(2014/C 457/07)

The European Commission ('the Commission') has received a request pursuant to Article 12 of Council Regulation (EC) No 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community (1) ('the basic Regulation'), to reopen the investigation that led to measures imposed on imports of solar glass, originating in the People’s Republic of China, in order to examine whether the said measures have had an effect on export prices, resale prices or subsequent selling prices in the Union through an absorption reinvestigation.

1. Request for an absorption reinvestigation

The request was lodged on 12 November 2014 by EU ProSun Glass ('the applicant') on behalf of producers representing more than 25 % of the total Union production of solar glass.

2. Product under investigation

The product under investigation is defined as solar glass consisting of tempered soda-lime-flat-glass, with an iron content of less than 300 ppm, a solar transmittance of more than 88 % (measured according to AM1.5 300-2 500 nm), a resistance to heat up to 250 °C (measured according to EN 12150), a resistance to thermal shocks of Δ 150K (measured according to EN 12150) and having a mechanical strength of 90 N/mm² or more (measured according to EN 1288-3) originating in the People’s Republic of China ('the product under investigation'), currently falling within CN code ex 7007 19 80.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Commission Implementing Regulation (EU) No 470/2014 (2).

4. Grounds for an absorption reinvestigation

The applicant has submitted sufficient evidence showing that after the original investigation period and prior to and following the imposition of the anti-dumping duties on imports of the product under investigation, export prices have decreased and there has been insufficient movement in resale prices or subsequent selling prices in the Union. This has resulted in an increased dumping margin which has impeded the intended remedial effects of the measures in force. The evidence contained in the request indicates that the decrease in prices cannot be explained by changes in raw material prices or changes in the product mix.

Furthermore, the applicant has provided evidence showing that imports of the product under investigation have continued to enter the Union in significant volumes.

5. Procedure
Having determined, after informing the Member States, that the request has been lodged by or on behalf of the Union industry and that there is sufficient evidence to justify the initiation of an absorption reinvestigation, the Commission hereby initiates an absorption reinvestigation pursuant to Article 12 of the basic Regulation.

5.1. Investigating exporting producers

5.1.1. Procedure for selecting exporting producers to be investigated in the People's Republic of China

(a) Sampling

In view of the potentially large number of exporting producers in the People's Republic of China ('the country concerned') involved in this proceeding and in order to complete the absorption reinvestigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission. These parties have to do so within 15 days of the date of publication of this Notice in the Official Journal of the European Union, unless otherwise specified, by providing the Commission with information on their company(ies) requested in Annex I to this Notice. Within the same deadline, these parties have to inform the Commission whether they request a revision of the normal value under Article 12(5) of the basic Regulation. Where the absorption reinvestigation involves a re-examination of normal values, imports may be made subject to registration in accordance with Article 14(5) of the basic Regulation pending the outcome of the reinvestigation.

In order to obtain information it deems necessary for the selection of the sample of exporting producers, the Commission will also contact the authorities of the country concerned and may contact any known associations of exporting producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the Official Journal of the European Union, unless otherwise specified.

If a sample is necessary, the exporting producers may be selected based on the largest representative volume of exports to the Union which can reasonably be investigated within the time available, taking into account the sample and the individual examination in the original investigation. All known exporting producers, the authorities of the country concerned and associations of exporting producers will be notified by the Commission, via the authorities of the country concerned if appropriate, of the companies selected to be in the sample.

In order to obtain information it deems necessary for its investigation with regard to exporting producers, the Commission will send questionnaires to the exporting producers selected to be in the sample, to any known association of exporting producers, and to the authorities of the country concerned.

All exporting producers selected to be in the sample will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified. Parties which requested a revision of the normal value and were selected to be in the sample will have to provide, within the same deadline, complete information on revised normal values, duly substantiated by evidence. As the normal value was established on the basis of prices and costs in Turkey in the original investigation for all exporting producers pursuant to Article 2(7)(a) of the basic Regulation, the evidence on revised normal values must relate to domestic prices or constructed values in Turkey.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating exporting producers').
5.2. **Investigating unrelated importers**

Unrelated importers of the product under investigation from the country concerned to the Union are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample. The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission. These parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex II to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under investigation in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.3. **Other written submissions**

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.4. **Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission investigation services. Any request to be heard should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

5.5. **Instructions for making written submissions and sending completed questionnaires and correspondence**

Interested parties providing ‘Limited’ information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic Regulation, which will be labelled ‘For inspection by interested parties’. 6. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

7. **Hearing Officer**

Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and requests by third parties to be heard. The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised.

A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

The Hearing Officer will also provide opportunities for a hearing involving parties to take place which would allow different views to be presented and rebuttal arguments offered on issues pertaining, among other things, to the absorption of the measures in force.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: [http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/](http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/)
