(1) Text with EEA relevance.
of 20 December 2006
on establishing a financing instrument for the promotion of democracy and human rights worldwide

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 179(1) and 181a(2) thereof,

Having regard to the proposal from the Commission,

Acting in accordance with the procedure referred to in Article 251 of the Treaty (1),

Whereas:

Article 6(1) of the Treaty on European Union stipulates that the Union is founded on the principles of liberty, democracy, respect for human rights and fundamental freedoms, and the rule of law, principles which are common to the Member States.

The promotion, development and consolidation of democracy and the rule of law, and of respect for human rights and fundamental freedoms constitute a prime objective of the Community’s development policy and economic, financial and technical cooperation with third countries (6). A commitment to respect, promote and protect democratic principles and human rights is an essential element of the Community’s contractual relations with third countries (7).

This financing instrument contributes to the achievement of the objectives of the development policy statement on the ‘European Consensus on Development’ (DPS) jointly adopted by the Council and the Representatives of the Governments of the Member States meeting within the Council, the European Parliament and the Commission on 20 December 2005 (8). The DPS underlines that ‘progress in the protection of human rights, good governance and democratisation is fundamental for poverty reduction and sustainable development’, thereby contributing to the achievement of the Millennium Development Goals (MDGs).

The DPS having reaffirmed that the promotion of gender equality and women’s rights is a fundamental human right and a question of social justice, as well as being instrumental in achieving all the MDGs, the Cairo Programme of Action and the Convention on the Elimination of All Forms of Discrimination Against Women, this Regulation includes a strong gender component.

(2) OJ L 210, 31.7.2006, p. 82.
This financing instrument contributes to achieving the objective of the Union’s Common Foreign and Security Policy, as set out in Article 11(1) of the Treaty on European Union and shaped by EU Guidelines, regarding the development and consolidation of democracy and the rule of law, and respect for human rights and fundamental freedoms.

The Community’s contribution to the development and consolidation of democracy and the rule of law, and of respect for human rights and fundamental freedoms is rooted in the general principles established by the International Bill of Human Rights, and any other human rights instrument adopted within the framework of the United Nations, as well as relevant regional human rights instruments.

Democracy and human rights are inextricably linked. The fundamental freedoms of expression and association are the preconditions for political pluralism and democratic process, whereas democratic control and separation of powers are essential to sustain an independent judiciary and the rule of law which in turn are required for effective protection of human rights.

Human rights are considered in the light of universally accepted international norms, but democracy has also to be seen as a process, developing from within, involving all sections of society and a range of institutions, in particular national democratic parliaments, that should ensure participation, representation, responsiveness and accountability. The task of building and sustaining a culture of human rights and making democracy work for citizens, though especially urgent and difficult in emerging democracies, is essentially a continuous challenge, belonging first and foremost to the people of the country concerned but without diminishing the commitment of the international community.

In order to address the above issues in an effective, transparent, timely and flexible manner beyond the expiry of Council Regulation (EC) No 975/1999 of 29 April 1999 laying down the requirements for the implementation of Community operations, other than those of development cooperation, which, within the framework of Community cooperation policy, contribute to the general objective of developing and consolidating democracy and the rule of law and to that of respecting human rights and fundamental freedoms in third countries (7), which served as the legal base for the European Initiative for Democracy and Human Rights and which expire by 31 December 2006, there is a need for specific financial resources and a specific financing instrument that can continue to work in an independent manner whilst remaining complementary to and reinforcing related Community instruments for external assistance, the Partnership Agreement between the Members of the African, Caribbean and Pacific Group of States, of the one part, and the European Community and its Member States, of the other part (8), and humanitarian aid.

Community assistance under this Regulation is designed to complement the various other tools for implementation of EU policies on democracy and human rights, which range from political dialogue and diplomatic demarches to various instruments of financial and technical cooperation, including both geographic and thematic programmes. It will also complement the more crisis-related interventions of the Instrument for Stability.

In particular, in addition and complementary to the measures agreed with partner countries in the context of the cooperation pursued under the Instrument for Pre-accession Assistance, the European Neighbourhood and Partnership Instrument, the Development Cooperation Instrument, the Cotonou Agreement with ACP countries, the Instrument for Cooperation with Industrialised Countries and other high-income countries and territories and the Instrument for Stability, the Community provides assistance under this Regulation that addresses global, regional, national and local human rights and democratisation issues in partnership with civil society understood to span all types of social action by individuals or groups that are independent from the state and active in the field of human rights and democracy promotion.

---

(13) Furthermore, whilst democracy and human rights objectives must be increasingly mainstreamed in all external assistance financing instruments, Community assistance under this Regulation will have a specific complementary and additional role by virtue of its global nature and its independence of action from the consent of third country governments and other public authorities. This makes possible cooperation with civil society on sensitive human rights and democracy issues, including migrants’ enjoyment of human rights, rights of asylum seekers and internally displaced persons, providing the flexibility to respond to changing circumstances or to support innovation. It also provides a Community capacity to articulate and support specific objectives and measures at international level which are neither geographically linked nor crisis related and which may require a transnational approach or involve operations both within the Community and in a range of third countries. It provides the necessary framework for operations, such as support to independent EU election observation missions requiring policy coherence, a unified management system and common operating standards.

(14) Developing and consolidating democracy under this Regulation should include democratic parliaments and their capacity to support and advance democratic reform processes. National parliaments need therefore to be included as eligible bodies for funding under this Regulation when this is necessary in order to achieve its objectives, unless the proposed measure can be financed under a related Community external assistance instrument.

(15) The ‘Guidelines for strengthening operational coordination between the Community, represented by the Commission, and the Member States in the field of external assistance’ of 21 January 2001 emphasise the need for enhanced coordination of EU external assistance in the fields of supporting democratisation and promoting respect for human rights and fundamental freedoms worldwide. The Commission and Member States should ensure that their respective assistance measures are complementary and coherent, avoiding overlapping and duplication. The Commission and Member States should seek closer coordination with other donors. Community policy in the sphere of development cooperation should be complementary to the policies pursued by the Member States.

(16) The relevance and scope of Community assistance in promoting democracy and human rights calls for the Commission to seek regular and frequent exchanges of information with the European Parliament.

(17) The Commission needs to consult representatives of civil society, as well as other donors and actors, as early as appropriate in the programming process in order to facilitate their respective contributions and to ensure that assistance activities are as complementary to each other as possible.

(18) The Community needs to be able to respond rapidly to unforeseen needs and in exceptional circumstances in order to enhance the credibility and effectiveness of its commitment to the promotion of democracy and human rights in countries where such situations arise. This requires that the Commission have the possibility to decide on Special Measures not covered by Strategy Papers. This assistance management instrument corresponds to those included in the other external assistance financing instruments.

(19) The Community should also be able to respond in a flexible and timely manner to the specific needs of human rights defenders by means of ad hoc measures which are not subject to calls for proposals. Moreover, eligibility of entities which do not have legal personality under the applicable national law is also possible under the conditions of the Financial Regulation.

(20) This Regulation establishes a financial envelope for the period 2007-2013 which constitutes the prime reference amount for the budgetary authority according to point 37 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (1).

(21) Financial support needs to be secured for the European Inter-University Centre for Human Rights and Democratisation, providing a European Masters Degree in Human Rights and Democratisation and an EU-UN Fellowship Programme, beyond the expiry by the end of 2006 of Decision No 791/2004/EC of the European Parliament and of the Council of 21 April 2004 establishing a Community action programme to promote bodies active at European level and support specific activities in the field of education and training (2), which served as the legal basis for funding.

(22) European Union Election Observation Missions contribute significantly and successfully to democratic processes in third countries (3). However, the promotion of democracy extends far beyond the electoral process alone. Expenditure for EU Election Observation Missions should therefore not take up a disproportionate amount of the total funding available under this Regulation.

(3) Commission Communication of 11 April 2000 on EU Election Assistance and Observation.
The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (1).

In accordance with the principle of proportionality, it is necessary and appropriate for the achievement of the basic objectives of this Regulation to lay down rules on a European Instrument for Democracy and Human Rights. This Regulation does not go beyond what is necessary in order to achieve the objective pursued, in accordance with the third paragraph of Article 5 of the Treaty.

HAVE ADOPTED THIS REGULATION:

2. In the event of co-financing and in other duly justified cases, the Commission may, in accordance with Article 54 of Regulation (EC, Euratom) No 1605/2002, decide to entrust tasks of public authority, and in particular budget implementation tasks, to bodies referred to in Article 54(2)(c) of that Regulation.

Article 12

   b) agreements pursuant to Article 54 of Regulation (EC, Euratom) No 1605/2002;
   c) procurement contracts;
   d) employment contracts.

Article 13
Types of financing

1. Community financing may take the following forms:

In the case of joint co-financing, the total cost of the project or programme is to be shared between the partners providing the co-financing and resources are pooled in such a way that it is not possible to identify the source of funding for any given activity undertaken as part of the project or programme.

4. In the case of joint co-financing, the Commission may receive and manage funds on behalf of the bodies referred to in paragraph 2 (a), (b), and (c), for the purpose of implementing joint measures. Such funds shall be dealt with as assigned revenue in accordance with Article 18 of Regulation (EC, Euratom) No 1605/2002.

Article 14

Rules of participation and rules of origin

1. Participation in the award of procurement or grant contracts financed under this Regulation shall be open to all natural persons who are nationals of or legal persons who are established in a Member State of the Community, in an accession or official candidate country as recognised by the European Community or in a Member State of the European Economic Area.

Participation in the award of procurement or grant contracts financed under this Regulation shall also be open to all natural persons who are nationals of or legal persons who are established in a developing country, as specified by the Development Assistance Committee of the Organization for Economic Cooperation and Development (OECD/DAC), in addition to natural or legal persons eligible by virtue of this Regulation. The Commission shall publish and update the list of developing countries established by the OECD/DAC in accordance with regular reviews of this list and inform the Council thereof.

Reciprocal access shall be established by means of a specific decision concerning a given country or a given regional group of countries. Such a decision shall be adopted in accordance with the procedure laid down in Article 17(2) and shall be in force for a minimum period of one year.

2. Participation in the award of procurement or grant contracts financed under this Regulation shall also be open to all natural persons who are nationals of or legal persons who are established in any country other than those referred to in paragraph 1, where reciprocal access to their external assistance has been established. Reciprocal access shall be granted whenever a country grants eligibility on equal terms to the Member States and to the recipient country concerned.

3. Participation in the award of grants and public contracts financed under this Regulation shall be open to international organisations.

4. The provisions of paragraphs 1, 2 and 3 are without prejudice to the participation of categories of eligible organisations by nature or by localization in regard to the objectives of the action to carry out.

5. Experts may be of any nationality. This is without prejudice to the qualitative and financial requirements set out in the Community’s procurement rules.

6. If measures financed under this Regulation are implemented on a centralised basis and indirectly by delegation to specialised Community bodies, international or national public sector bodies, or bodies governed by private law with a public service mission

in accordance with Article 54(2)(c) of Regulation (EC, Euratom) No 1605/2002, participation in the public procurement and grant award procedures of the managing entity shall be open to natural persons who are nationals of the countries having access to Community contracts and grants in accordance with the principles set out in paragraph 1 of this Article, and of any other country eligible under the rules and procedures of the managing entity, and to legal persons which are established in those countries.

7. Whenever Community assistance covers an operation implemented through an international organisation, participation in the appropriate contractual procedures shall be open to all natural persons and legal persons who are eligible pursuant to this Article, as well as to all natural persons and legal persons who are eligible pursuant to the rules of that organisation, care being taken to ensure that equal treatment is afforded to all donors. The same rules shall apply in respect of supplies, materials and experts.

8. Whenever Community funding covers an operation co-financed with a third country, subject to reciprocity, or with a regional organisation, or with a Member State, participation in the appropriate contractual procedures shall be open to all natural persons and legal persons who are eligible pursuant to this Article as well as to all natural persons and legal persons who are eligible under the rules of such third country, regional organisation or Member State. The same rules shall apply in respect of supplies, materials and experts.

9. All supplies and materials purchased under a contract financed under this Regulation must originate from the Community or from an eligible country as defined in paragraphs 1 and 2. The term ‘origin’ for the purpose of this Regulation is defined in the relevant Community legislation on rules of origin for customs purposes.

10. The Commission may, in duly substantiated cases, authorise the participation of natural and legal persons either from countries having traditional economic, trade or geographical links with neighbouring countries, or from other third countries, and the purchase and use of supplies and materials of different origin.

11. Derogations may be justified on the basis of the unavailability of products and services in the markets of the countries concerned, for reasons of extreme urgency, or if the eligibility rules would make the realisation of a project, a programme or an action impossible or exceedingly difficult.

12. Tenderers who have been awarded contracts shall respect internationally agreed core labour standards, such as the International Labour Organization’s core labour standards, conventions on freedom of association and collective bargaining, elimination of forced and compulsory labour, elimination of discrimination in respect of employment and occupation, and the abolition of child labour.
Article 15

Protection of the financial interests of the Community

1. COUNCIL REGULATION (EC) No 1891/2006
of 18 December 2006
amending Regulations (EC) No 6/2002 and (EC) No 40/94 to give effect to the accession of the European Community to the Geneva Act of the Hague Agreement concerning the international registration of industrial designs

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 308 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Economic and Social Committee,

Having regard to the opinion of the European Parliament,

Whereas:

(1) Council Regulation (EC) No 6/2002 of 12 December 2001 on Community designs (1) created the Community design system whereby undertakings can by means of one procedural system obtain Community designs to which uniform protection is given and which produce their effects throughout the entire area of the Community.

(2) Following preparations initiated and carried out by the World Intellectual Property Organisation (WIPO) with the participation of the Member States which are members of the Hague Union, the Member States which are not members of the Hague Union, the Member States which are not members of the Hague Union and the European Community, the Diplomatic Conference, convened for that purpose at Geneva, adopted the Geneva Act of the Hague Agreement concerning the international registration of industrial designs (hereinafter referred to as the 'Geneva Act') on 2 July 1999.

(3) The Council, by Council Decision 95/4 approved the accession of the European Community to the Geneva Act of the Hague Agreement concerning the international registration of industrial designs (2) and authorised the President of the Council to deposit the instrument of accession with the Director-General of WIPO as from the date on which the Council has adopted the measures which are necessary to give effect to the accession of the Community to the Geneva Act. This Regulation contains those measures.

(4) The appropriate measures should be incorporated in Regulation (EC) No 6/2002 through the inclusion of a new title on 'International registration of designs'.

(5) The rules and procedures relating to international registrations designating the Community should, in principle, be the same as the rules and procedures which apply to Community designs applications. According to this principle, an international registration designating the Community should be subject to the examination as to the grounds for non-registrability before it takes the same effect as a registered Community design. Likewise, an international registration having the same effect as a registered Community design should be subject to the same rules on invalidation as a registered Community design.

(7) The accession of the Community to the Geneva Act will create a new source of revenues for the Office for the Harmonisation in the Internal Market (Trade Marks and Designs). Council Regulation (EC) No 40/94 of 20 December 1993 on the Community trade mark (3) should therefore be amended accordingly.

HAS ADOPTED THIS REGULATION:

(2) See page 18 of this Official Journal.

Article 2

COUNCIL DECISION
of 18 December 2006
approving the accession of the European Community to the Geneva Act of the Hague Agreement concerning the international registration of industrial designs, adopted in Geneva on 2 July 1999
(2006/954/EC)

THE COUNCIL OF THE EUROPEAN UNION.

Having regard to the Treaty establishing the European Community, and in particular Article 308, in conjunction with Article 300(2), first subparagraph, second sentence, and Article 300(3), first subparagraph, thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Economic and Social Committee,

Having regard to the Opinion of the European Parliament,

Whereas:

(1) Council Regulation (EC) No 6/2002 of 12 December 2001 on Community designs (1), which is based on Article 308 of the Treaty, aims to create a market which functions properly and offers conditions which are similar to those obtaining in a national market. In order to create a market of this kind and make it increasingly a single market, that Regulation created the Community design system whereby undertakings can by means of a single procedure obtain Community designs to which uniform protection is given and which produce their effects throughout the entire area of the Community.

(2) Following preparations initiated and carried out by the World Intellectual Property Organisation (WIPO) with the participation of the Member States which are members of the Hague Union, the Member States which are not members of the Hague Union and the European Community, the Diplomatic Conference, convened for that purpose at Geneva, adopted the Geneva Act of the Hague Agreement concerning the international registration of industrial designs (hereinafter referred to as the ‘Geneva Act’) on 2 July 1999.

(3) The Geneva Act was adopted in order to introduce certain innovations to the system for the international deposit of industrial designs provided for in the London Act, which had been adopted on 2 June 1934, and the Hague Act, which had been adopted on 28 November 1960.

(4) The objectives of the Geneva Act are to extend the Hague system of international registration to new members, and to make the system more attractive to applicants. As compared to the London Act and the Hague Act, one of the main innovations is that an intergovernmental organisation which maintains an office authorised to grant protection to designs with effect in the territory of the organisation may become party to the Geneva Act.

(5) The facility whereby an intergovernmental organisation which has a regional office for the registration of designs may become a party to the Geneva Act was introduced in order to allow, in particular, for the Community to accede to that Act, and hence, to the Hague Union.

(6) The Geneva Act entered into force on 23 December 2003 and became operational on 1 April 2004. As of 1 January 2003, the Office for the Harmonisation in the Internal Market (Trade Marks and Designs) started admitting applications for registered Community designs, the first date of filing being granted on 1 April 2003.

(7) The Community design system and the international registration system as established by the Geneva Act are complementary. The Community design system provides for a complete and unified regional designs registration system which covers the whole territory of the Community. The Hague Agreement constitutes a treaty centralising the procedures for obtaining protection of designs in the territory of the designated Contracting Parties.

(8) The establishment of a link between the Community design system and the international registration system under the Geneva Act would enable designers to obtain, through one single international application protection for their designs in the Community under the Community design system and in the territories of the Geneva Act inside and outside the Community.

(9) Moreover, the establishment of a link between the Community design system and the international registration system under the Geneva Act will promote a harmonious development of economic activities, will eliminate distortions of competition, will be cost efficient and will increase the level of integration and functioning of the internal market. Therefore, the Community needs to accede to the Geneva Act in order to make the Community design system more attractive.

The Commission should be authorised to represent the Community in the Assembly of the Hague Union after the accession of the Community to the Geneva Act.

This Decision does not affect the right of the Member States to participate in the Assembly of the Hague Union with regard to their national designs.

HAS DECIDED AS FOLLOWS:

Article 1

The Geneva Act of the Hague Agreement concerning the international registration of industrial designs, adopted in Geneva on 2 July 1999 (hereinafter referred to as the Geneva Act), is hereby approved on behalf of the Community with regard to the matters within its competence.

The text of the Geneva Act is attached to this Decision.

Article 2

1. The President of the Council is hereby authorised to deposit the instrument of accession with the Director-General of the World Intellectual Property Organisation as from the date on which the Council and the Commission have adopted the measures which are necessary for the establishment of a link between Community design law and the Geneva Act.

2. The declarations which are attached to this Decision shall be made in the instrument of accession.

Article 3

1. The Commission is hereby authorised to represent the European Community at the meetings of the Hague Union Assembly held under the auspices of the World Intellectual Property Organisation.

2. On all matters lying within the competence of the Community with regard to Community design, the Commission shall negotiate in the Hague Union Assembly on behalf of the Community and in accordance with the following arrangements:

   (a) the position which the Community may adopt within the Assembly shall be prepared by the relevant Council working party or, if this is not possible, at on-the-spot meetings convened in the course of the work within the framework of the World Intellectual Property Organisation;

   (b) as regards decisions involving amendments to Regulation (EC) No 6/2002, or to any other act of the Council requiring unanimity, the Community position shall be adopted by the Council acting unanimously on a proposal from the Commission;

   (c) as regards other decisions affecting Community design law, the Community position shall be adopted by the Council acting by a qualified majority on a proposal from the Commission.

In particular, it may not divulge the contents of any such international registration to any person outside the Office other than the holder of that international registration, except for the purposes of an administrative or legal proceeding involving a conflict over entitlement to file the international application on which the international registration is based.    (i) where none of the Contracting Parties designated in the international application has made a declaration under paragraph (1), at the expiry of the prescribed period,

   or

   (ii) where any of the Contracting Parties designated in the international application has made a declaration under paragraph (1)(a), at the expiry of the period notified in such declaration or, where there is more than one such designated Contracting Party, at the expiry of the shortest period notified in their declarations.

3. **[Treatment of Requests for Deferment Where Deferment Is Not Possible Under Applicable Law]**

   (i) subject to item (ii), the International Bureau shall notify the applicant accordingly; if, within the prescribed period, the applicant does not, by notice in writing to the International Bureau, withdraw the designation of the said Contracting Party, the International Bureau shall disregard the request for deferment of publication;

   (ii) subject to item (i), the International Bureau shall notify the applicant or the holder of a person having the consent of the applicant or the holder.

---

(1) When adopting Article 10, the Diplomatic Conference understood that nothing in this Article precludes access to the international application or the international registration by the applicant or the holder or a person having the consent of the applicant or the holder.
4. [Request for Earlier Publication or for Special Access to the International Registration]

(a) At any time during the period of deferment applicable under paragraph (2), the holder may request publication of any or all of the industrial designs that are the subject of the international registration, in which case the period of deferment in respect of such industrial design or designs shall be considered to have expired on the date of receipt of such request by the International Bureau.

(b) The holder may also, at any time during the period of deferment applicable under paragraph (2), request the International Bureau to provide a third party specified by the holder with an extract from, or to allow such a party access to, any or all of the industrial designs that are the subject of the international registration.

5. [Renunciation and Limitation]

(a) If, at any time during the period of deferment applicable under paragraph (2), the holder renounces the international registration in respect of all the designated Contracting Parties, the industrial design or designs that are the subject of the international registration shall not be published.

(b) If, at any time during the period of deferment applicable under paragraph (2), the holder limits the international registration, in respect of all of the designated Contracting Parties, to one or some of the industrial designs that are the subject of the international registration, the other industrial design or designs that are the subject of the international registration shall not be published.

6. Publication and Furnishing of Reproductions]

(a) At the expiration of any period of deferment applicable under the provisions of this Article, the International Bureau shall, subject to the payment of the prescribed fees, publish the international registration. If such fees are not paid as prescribed, the international registration shall be cancelled and publication shall not take place.

(b) Where the international application was accompanied by one or more specimens of the industrial design in accordance with Article 5(1)(ii), the holder shall submit the prescribed number of copies of a reproduction of each industrial design that is the subject of that application to the International Bureau within the prescribed time limit. To the extent that the holder does not do so, the international registration shall be cancelled and publication shall not take place.

Article 12

Refusal

1. [Right to Refuse] The Office of any designated Contracting Party may, where the conditions for the grant of protection under the law of that Contracting Party are not met in respect of any or all of the industrial designs that are the subject of an international registration, refuse the effects, in part or in whole, of the international registration in the territory of the said Contracting Party, provided that no Office may refuse the effects, in part or in whole, of any international registration on the ground that requirements relating to the form or contents of the international application that are provided for in this Act or the Regulations or are additional to, or different from, those requirements have not been satisfied under the law of the Contracting Party concerned.

2. [Notification of Refusal]

(a) The refusal of the effects of an international registration shall be communicated by the Office to the International Bureau in a notification of refusal within the prescribed period.

(b) Any notification of refusal shall state all the grounds on which the refusal is based.

3. [Transmission of Notification of Refusal; Remedies]

(a) The International Bureau shall, without delay, transmit a copy of the notification of refusal to the holder.

(b) The holder shall enjoy the same remedies as if any industrial design that is the subject of the international registration had been the subject of an application for the grant of protection under the law applicable to the Office that communicated the refusal. Such remedies shall at least consist of the possibility of a re-examination or a review of the refusal or an appeal against the refusal.

4. (1) [Withdrawal of Refusal] Any refusal may be withdrawn, in part or in whole, by the Office that communicated it.

Article 13

Special Requirements Concerning Unity of Design

1. [Notification of Special Requirements] Any Contracting Party whose law, at the time it becomes party to this Act, requires that designs are the subject of the same application conform to a requirement of unity of design, unity of production or unity of use, or belong to the same set or composition of items, or that only one independent and distinct design may be claimed in a single application, may, in a declaration, notify the Director General accordingly. However, no such declaration shall affect the right of an applicant to include two or more industrial designs in an international application in accordance with Article 5(4), even if the application designates the Contracting Party that has made the declaration.

(1) When adopting Article 12(4), Article 14(2)b) and Rule 18(4), the Diplomatic Conference understood that a withdrawal of refusal by an Office that has communicated a notification of refusal may take the form of a statement to the effect that the Office concerned has decided to accept the effects of the international registration in respect of the industrial designs, or some of the industrial designs, to which the notification of refusal related. It was also understood that an Office may, within the period allowed for communicating a notification of refusal, send a statement to the effect that it has decided to accept the effects of the international registration even where it has not communicated such a notification of refusal.
2. [Effect of Declaration] Any such declaration shall enable the Office of the Contracting Party that has made it to refuse the effects of the international registration pursuant to Article 12(1) pending compliance with the requirement notified by that Contracting Party.

3. [Further Fees Payable on Division of Registration] Where, following a notification of refusal in accordance with paragraph (2), an international registration is divided before the Office concerned in order to overcome a ground of refusal stated in the notification, that Office shall be entitled to charge a fee in respect of each additional international application that would have been necessary in order to avoid that ground of refusal.

Article 14

Effects of the International Registration

(c) the air carrier meets the conditions prescribed under the laws and regulations normally applied by the authority competent for the operation of international air transport;

(d) the provisions set forth in Article 14 (Aviation Safety) and Article 15 (Aviation Security) are being maintained and administered.

Article 4
Revocation of Authorisation

1. The competent authorities of either Contracting Party may revoke, suspend or limit the operating authorisations or otherwise suspend or limit the operations of an air carrier of the other Contracting Party where:

(a) for an air carrier of Morocco:

— the air carrier does not have its principal place of business or, if any, its registered office in Morocco, or has not received its operating licence and any other corresponding document in accordance with the applicable law of Morocco;

— effective regulatory control of the air carrier is not exercised and maintained by Morocco;

or

— the air carrier is not owned and effectively controlled, directly or by majority participation, by Morocco and/or nationals of Morocco or by Member States and/or nationals of Member States;

(b) for an air carrier of the European Community:

— the air carrier does not have its principal place of business or, if any, its registered office in the territory of a Member State under the Treaty establishing the European Community, or has not received its operating licence;

— effective regulatory control of the air carrier is not exercised and maintained by Morocco;

or

— the air carrier is not owned and effectively controlled, directly or by majority participation, by Morocco and/or nationals of Morocco or by Member States and/or nationals of Member States;

(b) for an air carrier of the European Community:

— the air carrier does not have its principal place of business or, if any, its registered office in the territory of a Member State under the Treaty establishing the European Community, or has not received a Community operating licence;

— effective regulatory control of the air carrier is not exercised and maintained by the Member State responsible for issuing its Air Operators Certificate or the competent aeronautical authority is not clearly identified;

or
— the air carrier is not owned and effectively controlled, directly or by majority participation, by Member States and/or nationals of Member States, or by the other States listed in Annex V, and/or nationals of these other States;

(c) the air carrier has failed to comply with the laws and regulations referred to in Article 6 (Application of Laws) of this Agreement;

or

(d) the provisions set forth in Article 14 (Aviation Safety) and Article 15 (Aviation Security) are not being maintained or administered.

2. Unless immediate action is essential to prevent further non-compliance with points (c) or (d) of paragraph 1, the rights established by this Article shall be exercised only after consultation with the competent authorities of the other Contracting Party.

Article 5

Investment

The majority ownership or the effective control of an air carrier of Morocco by Member States or their nationals, or of an air carrier of the European Community by Morocco or its nationals, shall be subject to a preliminary decision of the Joint Committee established by this Agreement.

This decision shall specify the conditions associated with the operation of the agreed services under this Agreement and with the services between third countries and the Contracting Parties. The provisions of Article 22(9) of this Agreement shall not apply to this type of decisions.

Article 6

Compliance with laws and regulations

1. While entering, within, or leaving the territory of one Contracting Party, the laws and regulations applicable within that territory relating to the admission to or departure from its territory of passengers, crew or cargo on aircraft (including regulations relating to entry, clearance, immigration, passports, customs and quarantine or, in the case of mail, postal regulations) shall be complied with by, or on behalf of, such passengers, crew or cargo of the other Contracting Party’s air carriers.

2. While entering, within, or leaving the territory of one Contracting Party, the laws and regulations applicable within that territory relating to the admission to or departure from its territory of aircraft engaged in international air transport, or to the operation and navigation of aircraft shall be complied with by the other Contracting Party’s air carriers.

Article 7

Competition

Within the scope of this Agreement, the provisions of Chapter II ('Competition and other Economic Provisions') of Title IV of the Association Agreement shall apply, except where more specific rules are contained in this Agreement.

Article 8

Subsidies

1. The Contracting Parties recognise that public subsidies to air carriers distort or threaten to distort competition by favouring certain undertakings in the provision of air transport services, that they jeopardise the basic objectives of the Agreement and that they are incompatible with the principle of an open aviation area.

2. When a Contracting Party deems it essential to grant public subsidies to an air carrier operating under this Agreement in order to achieve a legitimate objective, it shall see to it that such subsidies are proportionate to the objective, transparent and designed to minimise, to the extent feasible, their adverse impact on the air carriers of the other Contracting Party. The Contracting Party intending to grant any such subsidy shall inform the other Contracting Party of its intention and shall make sure that such subsidy is consistent with the criteria laid down in this Agreement.

3. If one Contracting Party believes that a subsidy provided by the other Contracting Party, or, as the case may be, by a public or governmental body of a country other than the Contracting Parties, is inconsistent with the criteria laid down in paragraph 2, it may request a meeting of the Joint Committee, as provided in Article 22 to consider the issue and develop appropriate responses to concerns found to be legitimate.
4. When a dispute cannot be settled by the Joint Committee, the Contracting Parties retain the possibility of applying their respective anti-subsidy measures.

5. The provisions of this Article shall apply without prejudice to the Contracting Parties’ laws and regulations regarding essential air services and public service obligations in the territories of the Contracting Parties.

Article 9

Commercial opportunities

1. The air carriers of each Contracting Party shall have the right to establish offices in the territory of the other Contracting Party for the promotion and sale of air transport and related activities.

2. The air carriers of each Contracting Party shall be entitled, in accordance with the laws and regulations of the other Contracting Party relating to entry, residence, and employment, to bring in and maintain in the territory of the other Contracting Party managerial, sales, technical, operational, and other specialist staff who are required to support the provision of air transport.

3. (a) Without prejudice to point (b) below, each air carrier shall have in relation to ground handling in the territory of the other Contracting Party:

   (i) the right to perform its own ground handling (‘self-handling’) or, at its option

   (ii) the right to select among competing suppliers that provide ground handling services in whole or in part where such suppliers are allowed market access on the basis of the laws and regulations applicable in the territory of the other Contracting Party, and where such suppliers are present in the market.

   (b) For the following categories of ground handling services i.e. baggage handling, ramp handling, fuel and oil handling, freight and mail handling as regards the physical handling of freight and mail between the air terminal and the aircraft, the rights under point (a)(i) and (ii) shall be subject only to specific constraints according to the laws and regulations applicable in the territory of the other Party. Where such constraints preclude self-handling and where there is no effective competition between suppliers that provide ground handling services, all such services shall be available on both an equal and an adequate basis to all air carriers; prices of such services shall not exceed their full cost including a reasonable return on assets, after depreciation.

4. Any air carrier of each Contracting Party may engage in the sale of air transport in the territory of the other Contracting Party directly and/or, at the air carrier’s discretion, through its sales agents or other intermediaries appointed by the air carrier. Each air carrier shall have the right to sell such transportation, and any person shall be free to purchase such transportation, in the currency of that territory or in freely convertible currencies.

5. Each air carrier shall have the right to convert and remit from the territory of the other Contracting Party to its home territory and, except where inconsistent with generally applicable law or regulation, to the country or countries of its choice, on demand, local revenues. Conversion and remittance shall be permitted promptly without restrictions or taxation in respect thereof at the rate of exchange applicable to current transactions and remittance on the date the carrier makes the initial application for remittance.

6. The air carriers of each Contracting Party shall be permitted to pay for local expenses, including purchases of fuel, in the territory of the other Contracting Party in local currency. At their discretion, the air carriers of each Party may pay for such expenses in the territory of the other Party in freely convertible currencies according to local currency regulation.

7. In operating or holding out services under the Agreement, any air carrier of a Contracting Party may enter into cooperative marketing arrangements, such as blocked-space agreements or code-sharing arrangements, with:

   (a) any air carrier or carriers of the Contracting Parties;

   and

   (b) any air carrier or carriers of a third country;

   and

   (c) any surface, land or maritime carriers;

provided that (i) all participants in such arrangements hold the appropriate authority and (ii) the arrangements meet the requirements relating to safety and competition normally applied to such arrangements. In respect of passenger transport sold involving code-shares, the purchaser shall be informed at the point of sale, or in any case before boarding, which transportation providers will operate each sector of the service.
8. (a) In relation to the transport of passengers, surface transportation providers shall not be subject to laws and regulations governing air transport on the sole basis that such surface transportation is held out by an air carrier under its own name. Surface transportation providers have the discretion to decide whether to enter into cooperative arrangements. In deciding on any particular arrangement, surface transportation providers may consider, among other things, consumer interests and technical, economic, space, and capacity constraints.

(b) Moreover, and notwithstanding any other provision of this Agreement, air carriers and indirect providers of cargo transportation of the Contracting Parties shall be permitted, without restriction, to employ in connection with international air transport any surface transportation for cargo to or from any points in the territories of Morocco and the European Community, or in third countries, including transport to and from all airports with customs facilities, and including, where applicable, the right[s] to transport cargo in bond under applicable laws and regulations. Such cargo, whether moving by surface or by air, shall have access to airport customs processing and facilities. Air carriers may elect to perform their own surface transportation or to provide it through arrangements with other surface carriers, including surface transportation operated by other air carriers and indirect providers of cargo air transport. Such intermodal cargo services may be offered at a single, through price for the air and surface transportation combined, provided that shippers are not misled as to the facts concerning such transportation.

Article 10

Customs duties and charges

1. On arriving in the territory of one Contracting Party, aircraft operated in international air transport by the air carriers of the other Contracting Party, their regular equipment, fuel, lubricants, consumable technical supplies, ground equipment, spare parts (including engines), aircraft stores (including but not limited to such items of food, beverages and liquor, tobacco and other products destined for sale to or use by passengers in limited quantities during flight), and other items intended for or used solely in connection with the operation or servicing of aircraft engaged in international air transport shall be exempt, on the basis of reciprocity, from the taxes, levies, duties, fees and charges referred to in paragraph 1 of this Article, with the exception of charges based on the cost of the service provided:

(a) aircraft stores introduced into or supplied in the territory of a Contracting Party and taken on board, within reasonable limits, for use on outbound aircraft of an air carrier of the other Party engaged in international air transport, even when these stores are to be used on a part of the journey performed over the said territory;

(b) ground equipment and spare parts (including engines) introduced into the territory of a Contracting Party for the servicing, maintenance, or repair of aircraft of an air carrier of the other Contracting Party used in international air transport;

(c) lubricants and consumable technical supplies introduced into or supplied in the territory of a Contracting Party and taken on board for use in an aircraft of an air carrier of the other Contracting Party engaged in international air transport, even when these supplies are to be used on a part of the journey performed over the said territory;

(d) printed matter, as provided for by the customs legislation of each Contracting Party, introduced into or supplied in the territory of one Contracting Party and taken on board for use on outbound aircraft of an air carrier of the other Contracting Party engaged in international air transport, even when these stores are to be used on a part of the journey performed over the said territory;

and

(e) safety and security equipment for use at airports or cargo terminals.

2. There shall also be exempt, on the basis of reciprocity, from the taxes, levies, duties, fees and charges referred to in paragraph 1 of this Article, with the exception of charges based on the cost of the service provided:

(a) aircraft stores introduced into or supplied in the territory of a Contracting Party and taken on board, within reasonable limits, for use on outbound aircraft of an air carrier of the other Party engaged in international air transport, even when these stores are to be used on a part of the journey performed over the said territory;

(b) ground equipment and spare parts (including engines) introduced into the territory of a Contracting Party for the servicing, maintenance, or repair of aircraft of an air carrier of the other Contracting Party used in international air transport;

(c) lubricants and consumable technical supplies introduced into or supplied in the territory of a Contracting Party and taken on board for use in an aircraft of an air carrier of the other Contracting Party engaged in international air transport, even when these supplies are to be used on a part of the journey performed over the said territory;

(d) printed matter, as provided for by the customs legislation of each Contracting Party, introduced into or supplied in the territory of one Contracting Party and taken on board for use on outbound aircraft of an air carrier of the other Contracting Party engaged in international air transport, even when these stores are to be used on a part of the journey performed over the said territory;

and

(e) safety and security equipment for use at airports or cargo terminals.

3. This Agreement does not exempt fuel supplied by a Contracting Party to air carriers within its territory from taxes, levies, duties, fees, and charges similar to those referred to in paragraph 1. While entering, within, or leaving the territory of one Contracting Party, its laws and regulations relating to the sale, supply, and use of aircraft fuel shall be complied with by the other Contracting Party's air carriers.
4. Equipment and supplies referred to in paragraphs 1 and 2 of this Article may be required to be kept under the supervision or control of the appropriate authorities.

5. The exemptions provided by this Article shall also be available where the air carriers of one Contracting Party have contracted with another air carrier, which similarly enjoys such exemptions from the other Contracting Party, for the loan or transfer in the territory of the other Party of the items specified in paragraphs 1 and 2.

6. Nothing in this Agreement shall prevent either Contracting Party from imposing taxes, levies, duties, fees or charges on goods sold other than for consumption on board to passengers during a sector of an air service between two points within its territory at which embarkation or disembarkation is permitted.

Article 11

User Charges

1. Each Contracting Party shall undertake not to impose on the air carriers of the other Contracting Party user charges higher than those imposed on its own air carriers operating similar international air services.

2. Increased or new charges should only follow adequate consultation between the competent charging authorities and the air carriers of each Contracting Party. Reasonable notice of any proposals for changes in user charges should be given to users to enable them to express their views before changes are made. The Contracting Parties shall also encourage the exchange of such information as may be necessary to permit an accurate assessment of the reasonableness of, justification for and apportionment of the charges in accordance with the principles set out above.

Article 12

Pricing

Prices for air transport services operated pursuant to this Agreement shall be established freely and shall not be subject to approval, but they may be required to be filed for information purposes only. Prices to be charged for carriage wholly within the European Community shall be subject to European Community law.

Article 13

Statistics

The competent authorities of either Contracting Party shall supply the competent authorities of the other Contracting Party, at their request, with the information and statistics related to the traffic carried by the air carriers authorised by one Contracting Party on the agreed services to or from the territory of the other Contracting Party in the same form as they have been prepared and submitted by the authorised air carriers to their national competent authorities. Any additional statistical data related to traffic which the competent authorities of one Contracting Party may request from the authorities of the other Contracting Party shall be subject to discussions by the Joint Committee, at the request of either Contracting Party.

TITLE II

REGULATORY COOPERATION

Article 14

Aviation safety

1. The Contracting Parties shall act in conformity with the provisions of the Community’s aviation safety legislation specified in Annex VI A, under the conditions set out hereafter.

2. The Contracting Parties shall ensure that aircraft registered in one Contracting Party suspected of non-compliance with international aviation safety standards established pursuant to the Convention landing at airports open to international air traffic in the territory of the other Contracting Party shall be subject to ramp inspections by the competent authorities of that other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment.

3. Either Contracting Party may request consultations at any time concerning the safety standards maintained by the other Contracting Party.

4. Nothing in this Agreement shall be construed to limit the authority of the competent authorities of a Contracting Party to take all appropriate and immediate measures whenever they ascertain that an aircraft, a product or an operation may:
(a) fail to satisfy the minimum standards established pursuant to the Convention or the legislation specified in Part A of Annex VI, whichever is applicable,

(b) give rise to serious concerns – established through an inspection referred to in paragraph 2 – that an aircraft or the operation of an aircraft does not comply with the minimum standards established pursuant to the Convention or the legislation specified in Part A of Annex VI, whichever is applicable,

or

(c) give rise to serious concerns that there is a lack of effective maintenance and administration of minimum standards established pursuant to the Convention or the legislation specified in Part A of Annex VI, whichever is applicable.

5. Where the competent authorities of one Contracting Party take action under paragraph 4, they shall promptly inform the competent authorities of the other Contracting Party of taking such action, providing reasons for its action.

6. Where measures taken in application of paragraph 4 are not discontinued even though the basis for taking them has ceased to exist, either Contracting Party may refer the matter to the Joint Committee.

2. The Contracting Parties shall provide upon request all necessary assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities, and any other threat to the security of civil aviation.

3. The Contracting Parties shall, in their mutual relations, act in conformity with the aviation security Standards and, as far as they are applied by them, the Recommended Practices established by the International Civil Aviation Organisation (ICAO) and designated as Annexes to the Chicago Convention, to the extent that such security provisions are applicable to the Contracting Parties. Both Contracting Parties shall require that operators of aircraft of their registry, operators who have their principal place of business or permanent residence in their territory, and the operators of airports in their territory, act in conformity with such aviation security provisions.

4. Each Contracting Party shall ensure that effective measures are taken within its territory to protect aircraft, to screen passengers and their carry-on items, and to carry out appropriate checks on crew, cargo (including hold baggage) and aircraft stores prior to and during boarding or loading and that those measures are adjusted to meet increases in the threat. Each Contracting Party agrees that their air carriers may be required to observe the aviation security provisions referred to in paragraph 3 required by the other Contracting Party, for entrance into, departure from, or while within, the territory of that other Contracting Party. Each Contracting Party shall also act favourably upon any request from the other Contracting Party for reasonable special security measures to meet a particular threat.

5. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.

6. When a Contracting Party has reasonable grounds to believe that the other Contracting Party has departed from the aviation security provisions of this Article, that Contracting Party may request immediate consultations with the other Contracting Party.

7. Without prejudice to Article 4 (Revocation of Authorisations) of this Agreement, failure to reach a satisfactory agreement within fifteen (15) days from the date of such request shall constitute grounds to withhold, revoke, limit or impose conditions on the operating authorisation of one or more air carriers of such other Contracting Party.

Article 15
Aviation Security

1. The assurance of safety for civil aircraft, their passengers and crew being a fundamental pre-condition for the operation of international air services, the Contracting Parties reaffirm their obligations to each other to provide for the security of civil aviation against acts of unlawful interference, and in particular their obligations under the Chicago Convention, the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, signed at Montreal on 24 February 1988 and the Convention on the marking of plastic explosives for purpose of detection signed at Montreal on 1 March 1991, insofar as both Contracting Parties are parties to these conventions, as well as all other conventions and protocols relating to civil aviation safety of which both Parties are parties.
8. When required by an immediate and extraordinary threat, a Contracting Party may take interim action prior to the expiry of fifteen (15) days.

9. Any action taken in accordance with the paragraph 7 shall be discontinued upon compliance by the other Contracting Party with the provisions of this Article.

**Article 16**

**Air traffic management**

1. The Contracting Parties shall act in conformity with the provisions of the legislation specified in Part B of Annex VI, under the conditions set out hereafter.

2. The Contracting Parties commit themselves to the highest degree of cooperation in the field of air traffic management with a view to extending the Single European Sky to Morocco in order to enhance current safety standards and overall efficiency for general air traffic standards in Europe, to optimise capacities and to minimise delays.

3. With a view to facilitating the application of the Single European Sky legislation in their territories:

   (a) Morocco shall take the necessary measures to adjust their air traffic management institutional structures to the Single European Sky, in particular by establishing pertinent national supervisory bodies at least functionally independent of air navigation service providers;

   and

   (b) The European Community shall associate Morocco with relevant operational initiatives in the fields of air navigation services, airspace and interoperability that stem from the Single European Sky, in particular through the early involvement of Morocco’s efforts to establish functional airspace blocks, or through appropriate coordination on SESAR.

**Article 17**

**Environment**

1. The Contracting Parties shall act in conformity with Community legislation relating to air transport specified in Part C of Annex VI.

2. Nothing in this Agreement shall be construed to limit the authority of the competent authorities of a Contracting Party to take all appropriate measures to prevent or otherwise address the environmental impacts of the international air transport performed under the Agreement provided that such measures are applied without distinction as to nationality.

**Article 18**

**Consumer protection**

The Contracting Parties shall act in accordance with Community legislation relating to air transport specified in Part D of Annex VI.

**Article 19**

**Computer reservation systems**

The Contracting Parties shall act in accordance with Community legislation relating to air transport specified in Part E of Annex VI.

**Article 20**

**Social aspects**

The Contracting Parties shall act in accordance with Community legislation relating to air transport specified in Part F of Annex VI.

**TITLE III**

**INSTITUTIONAL PROVISIONS**

**Article 21**

**Interpretation and enforcement**

1. The Contracting Parties shall take all appropriate measures, whether general or particular, to ensure fulfilment of the obligations arising out of this Agreement and shall refrain from any measures which would jeopardise attainment of the objectives of this Agreement.

2. Each Contracting Party shall be responsible, in its own territory, for the proper enforcement of this Agreement and, in particular, the regulations and directives related to air transport listed in Annex VI.
3. Each Contracting Party shall give the other Contracting Party all necessary information and assistance in the case of investigations on possible infringements which that other Contracting Party carries out under its respective competences as provided in this Agreement.

4. Whenever the Contracting Parties act under the powers granted to them by this Agreement on matters which are of interest to the other Contracting Party and which concern the authorities or undertakings of the other Contracting Party, the competent authorities of the other Contracting Party shall be fully informed and given the opportunity to comment before a final decision is taken.

Article 22

The Joint Committee

1. A committee composed of representatives of the Contracting Parties (hereinafter referred to as the Joint Committee) is hereby established, which shall be responsible for the administration of this Agreement and shall ensure its proper implementation. For this purpose it shall make recommendations and take decisions in the cases provided for in this Agreement.

2. The decisions of the Joint Committee shall be jointly adopted and shall be binding upon the Contracting Parties. They will be put into effect by the Contracting Parties in accordance with their own rules.

3. The Joint Committee shall meet as and when necessary and at least once a year. Either Contracting Party may request the convening of a meeting.

4. A Contracting Party may also request a meeting of the Joint Committee to seek to resolve any question relating to the interpretation or application of this Agreement. Such a meeting shall begin at the earliest possible date, but not later than two months from the date of receipt of the request, unless otherwise agreed by the Contracting Parties.

5. For the purpose of the proper implementation of this Agreement, the Contracting Parties shall exchange information and, at the request of either Contracting Party, shall hold consultations within the Joint Committee.

6. The Joint Committee shall adopt, by a decision, its rules of procedure.

7. If, in the view of one of the Contracting Parties, a decision of the Joint Committee is not properly implemented by the other Contracting Party, the former may request that the issue be discussed by the Joint Committee. If the Joint Committee cannot solve the issue within two months of its referral, requesting Contracting Party may take appropriate temporary safeguard measures under Article 24.

8. The decisions of the Joint Committee shall state the date of its implementation in the Contracting Parties and any other information likely to concern economic operators.

9. Without prejudice to paragraph 2, if the Joint Committee does not take a decision on an issue which has been referred to it within six months of the date of referral, the Contracting Parties may take appropriate temporary safeguard measures under Article 24.

10. The Joint Committee shall examine questions relating to bilateral investments of majority participation, or changes in the effective control of air carriers of the Contracting Parties.

11. The Joint Committee shall also develop cooperation by:

(a) fostering expert-level exchanges on new legislative or regulatory initiatives and developments, including in the fields of security, safety, the environment, aviation infrastructure (including slots), and consumer protection;

(b) regularly examining the social effects of the Agreement as it is implemented, notably in the area of employment and developing appropriate responses to concerns found to be legitimate;

and

(c) considering potential areas for the further development of the Agreement, including the recommendation of amendments to the Agreement.

Article 23

Dispute Resolution and Arbitration

1. Either Contracting Party may refer to the Joint Committee any dispute relating to the application or interpretation of this Agreement, having not been resolved in accordance with Article 22. For the purposes of this Article, the Association Council established under the Association Agreement shall act as Joint Committee.
2. The Joint Committee may settle the dispute by means of a decision.

3. The Contracting Parties shall take the necessary measures to implement the decision referred to in paragraph 2.

4. Should the Contracting Parties be unable to settle the dispute in accordance with paragraph 2, the dispute shall, at the request of either Contracting Party, be submitted to an arbitration panel of three arbitrators in accordance with the procedure laid down hereafter:

(a) each Contracting Party shall appoint an arbitrator within sixty (60) days from the date of reception of the notification for the request for arbitration by the arbitration court addressed by the other Contracting Party through diplomatic channels; the third arbitrator should be appointed by the other two arbitrators within sixty (60) additional days. If one of the Contracting Parties has not appointed an arbitrator within the agreed period, or if the third arbitrator is not appointed within the agreed period, each Contracting Party may request the President of the Council of the ICAO to appoint an arbitrator or arbitrators, whichever is applicable;

(b) the third arbitrator appointed under the terms of paragraph a) above should be a national of a third State and shall act as a President of the arbitration court;

(c) the arbitration court shall agree its rules of procedure;

and

(d) subject to the final decision of the arbitration court, the initial expenses of the arbitration shall be shared equally by the Contracting Parties.

5. Any provisional decision or final decision of the arbitration court shall be binding upon the Contracting Parties.

6. If one of the Contracting Parties does not act in conformity with a decision of the arbitration court taken under the terms of this Article within thirty (30) days from the notification of the aforementioned decision, the other Contracting Party may, for as long as this failure endures, limit, suspend or revoke the rights or privileges which it had granted under the terms of this Agreement from the Party at fault.

Article 24
Safeguard measures

1. The Contracting Parties shall take any general or specific measures required to fulfil their obligations under this Agreement. They shall see to it that the objectives set out in this Agreement are attained.

2. If either Contracting Party considers that the other Party has failed to fulfil an obligation under this Agreement, it may take appropriate measures. Safeguard measures shall be restricted with regard to their scope and duration to what is strictly necessary in order to remedy the situation or maintain the balance of this Agreement. Priority shall be given to such measures as will least disturb the functioning of this Agreement.

3. A Contracting Party which is considering taking safeguard measures shall notify the other Contracting Parties through the Joint Committee and shall provide all relevant information.

4. The Contracting Parties shall immediately enter into consultations in the Joint Committee with a view to finding a commonly acceptable solution.

5. Without prejudice to Articles 3(d), Article 4(d) and Articles 14 and 15, the Contracting Party concerned may not take safeguard measures until one month has elapsed after the date of notification under paragraph 3, unless the consultation procedure under paragraph 4 has been concluded before the expiration of the stated time limit.

6. The Contracting Party concerned shall, without delay, notify the measures taken to the Joint Committee and shall provide all relevant information.

7. Any action taken under the terms of this Article shall be suspended, as soon as the Contracting Party at fault satisfies the provisions of this Agreement.

Article 25
Geographic extension of the Agreement

The Contracting Parties, although recognising the bilateral nature of this Agreement, note that it lies within the scope of the Euro-Mediterranean partnership envisaged in the declaration of Barcelona of 28 November 1995. The Contracting Parties commit to conduct a continuous dialogue to ensure the coherence of this Agreement with the Barcelona process, and in particular with regard to the possibility of mutually agreeing amendments to take into account similar air transport agreements.
Article 26

Relationship to other Agreements

1. The provisions of this Agreement supersede the relevant provisions of existing bilateral agreements between Morocco and the Member States. However, existing traffic rights which originate from these bilateral agreements and which are not covered under this Agreement can continue to be exercised, provided that there is no discrimination between the Member States and their nationals.

2. If the Contracting Parties become parties to a multilateral agreement, or endorse a decision adopted by the International Civil Aviation Organisation or another international organisation, that addresses matters covered by this Agreement, they shall consult in the Joint Committee to determine whether this Agreement should be revised to take into account such developments.

3. This Agreement shall be without prejudice to any decision by the two Contracting Parties to implement future recommendations that may be made by the ICAO. The Contracting Parties shall not cite this Agreement, or any part of it, as the basis for opposing consideration in the ICAO of alternative policies on any matter covered by this Agreement.

Article 27

Amendments

1. If one of the Contracting Parties wishes to revise the provisions of this Agreement, it shall notify the Joint Committee accordingly. The agreed amendment to this Agreement shall enter into force after completion of the respective internal procedures.

2. The Joint Committee may, upon the proposal of one Contracting Party and in accordance with this Article, decide to modify the Annexes of this Agreement.

3. This Agreement shall be without prejudice to the right of each Contracting Party, subject to compliance with the principle of non-discrimination and the provisions of this Agreement to unilaterally adopt new legislation or amend its existing legislation in the field of air transport or an associated area mentioned in Annex VI, with respect to the principle of non-discrimination and in accordance with the provisions of this Agreement.

4. As soon as new legislation is being drawn up by one of the Contracting Parties, it shall inform and consult the other Contracting Party as closely as possible. At the request of one of the Contracting Parties, a preliminary exchange of views may take place in the Joint Committee.

5. As soon as a Contracting Party has adopted new legislation or an amendment to its legislation in the field of air transport or an associated area mentioned in Annex VI, it shall inform the other Contracting Party not later than thirty days after its adoption. Upon the request of any Contracting Party, the Joint Committee shall within sixty days thereafter hold an exchange of views on the implications of such new legislation or amendment for the proper functioning of this Agreement.

6. The Joint Committee shall:

   (a) adopt a decision revising Annex VI of this Agreement so as to integrate therein, if necessary on a basis of reciprocity, the new legislation or amendment in question;

   (b) adopt a decision to the effect that the new legislation or amendment in question shall be regarded as in accordance with this Agreement;

   or

   (c) decide any other measures, to be adopted within a reasonable period of time, to safeguard the proper functioning of this Agreement.

Article 28

Termination

1. This Agreement is concluded for an unlimited period.

2. Either Party may, at any time, give notice in writing through diplomatic channels to the other Party of its decision to terminate this Agreement. Such notice shall be sent simultaneously to the ICAO. Consistent with this right, neither Contracting Party shall unilaterally limit the volume of traffic, frequency or regularity of service, or the aircraft type or types operated by the air carriers of the other Contracting Party, except for customs, technical, operational, environmental or protection of health reasons.

G. OTHER LEGISLATION

No 91/670

Applicable provisions: Articles 1 to 8 and Annex
THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Articles 30(1)(a) and (b) and 34(2)(b) thereof,

Having regard to the initiative of the Kingdom of Sweden,

Having regard to the opinion of the European Parliament,

Whereas:

(1) One of the core objectives of the European Union is to provide its citizens with a high level of security within an area of freedom, security and justice.

(2) That objective is to be achieved by preventing and combating crime through closer cooperation between law enforcement authorities in the Member States, while respecting the principles and rules relating to human rights, fundamental freedoms and the rule of law on which the Union is founded and which are common to the Member States.

(3) Exchange of information and intelligence on crime and criminal activities is the basis for law enforcement cooperation in the Union serving the overall objective of improving the safety of the Union’s citizens.

(4) The timely access to accurate and up to date information and intelligence is a crucial element for the possibility of law enforcement authorities to successfully detect, prevent and investigate crime or criminal activity, in particular within an area where internal border controls have been abolished. As the activities of criminals are carried out clandestinely, they need to be controlled, and information relating to them needs to be exchanged particularly expeditiously.

(5) It is important that the possibilities for law enforcement authorities to obtain information and intelligence concerning serious crime and terrorist acts from other Member States be viewed horizontally and not in terms of differences with regard to type of crime or division of competencies between law enforcement or judicial authorities.

(6) Currently, effective and expeditious exchange of information and intelligence between law enforcement authorities is seriously hampered by formal procedures, administrative structures and legal obstacles laid down in Member States’ legislation; such a state of affairs is unacceptable to the citizens of the European Union and it therefore calls for greater security and more efficient law enforcement while protecting human rights.

(7) It is necessary for law enforcement authorities to be able to request and obtain information and intelligence from other Member States at different stages of investigation, from the phase of gathering criminal intelligence to the phase of criminal investigation. The Member State’s systems are different in that respect, but this Framework Decision does not purport to change these systems. However, it seeks, as regards certain types of information and intelligence, to ensure that certain information vital for law enforcement authorities is exchanged expeditiously within the Union.

(8) The absence of a common legal framework for the effective and expeditious exchange of information and intelligence between the law enforcement authorities of the Member States is a deficiency that will have to be remedied; the Council of the European Union therefore deems it necessary to adopt a legally binding instrument on simplifying the exchange of information and intelligence. This Framework Decision should not affect existing or future instruments which allow the objectives of this Framework Decision to be extended or which facilitate the procedures for exchanging information and intelligence, such as the Convention of 18 December 1997 drawn up on the basis of Article K.3 of the Treaty on European Union on Mutual Assistance and Cooperation between Customs Administrations (1).

(9) As regards the exchange of information, this Framework Decision is without prejudice to essential national security interests, the jeopardizing of the success of a current investigation or the safety of individuals, or specific intelligence activities in the field of State security.

It is important to promote the exchange of information as widely as possible, in particular in relation to offences linked directly or indirectly to organised crime and terrorism, and in a way which does not detract from the required level of cooperation between Member States under existing arrangements.

The common interest of Member States in fighting crime of a cross-border nature must strike the appropriate balance between fast and efficient law enforcement cooperation and agreed principles and rules on data protection, fundamental freedoms, human rights and individual liberties.

In the Declaration on combating terrorism as adopted by the European Council at its meeting on 25 March 2004, the European Council instructed the Council to examine measures for simplifying the exchange of information and intelligence between law enforcement authorities of the Member States.

As regards Iceland and Norway, this Framework Decision constitutes a development of the provisions of the Schengen acquis which fall within the area referred to in Article 1 of Council Decision 1999/437/EC of 17 May 1999 on certain arrangements for the application of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the association of those two States with the implementation, application and development of the Schengen acquis (1). The procedures set out in that Agreement have been followed in respect of this Framework Decision.

As regards Switzerland, this Framework Decision constitutes a development of provisions of the Schengen acquis within the meaning of the Agreement signed between the European Union, the European Community and the Swiss Confederation concerning the association of the Swiss Confederation with the implementation, application and development of the Schengen acquis, which fall within the area referred to in Article 1 of Decision 1999/437/EC read in conjunction with Article 4(1) of Decision 2004/860/EC (2) on the signing on behalf of the European Community and on the provisional application of certain provisions of that Agreement, and with Article 4(1) of Decision 2004/849/EC (3) on the signing on behalf of the European Union, and on the provisional application of certain provisions of that Agreement.

1. The purpose of this Framework Decision is to establish the rules under which Member States' law enforcement authorities may exchange existing information and intelligence effectively and expeditiously for the purpose of conducting criminal investigations or criminal intelligence operations.

2. This Framework Decision shall be without prejudice to bilateral or multilateral agreements or arrangements between Member States and third countries and to instruments of the European Union on mutual legal assistance or mutual recognition of decisions regarding criminal matters, including any conditions set by third countries concerning the use of information once supplied.

3. This Framework Decision covers all information and/or intelligence as defined in Article 2(d). It does not impose any obligation on the part of the Member States to gather and store information and intelligence for the purpose of providing it to the competent law enforcement authorities of other Member States.

4. This Framework Decision does not impose any obligation on the part of the Member States to provide information and intelligence to be used as evidence before a judicial authority nor does it give any right to use such information or intelligence for that purpose. Where a Member State has obtained information or intelligence in accordance with this Framework Decision, and wishes to use it as evidence before a judicial authority, it has to obtain consent of the Member State that provided the information or intelligence, through the use of instruments regarding judicial cooperation in force between the Member States. Such consent is not required where the requested Member State has already given its consent for the use of information or intelligence as evidence at the time of transmittal of the information or intelligence.

5. This Framework Decision does not impose any obligation to obtain any information or intelligence by means of coercive measures, defined in accordance with national law, in the Member State receiving the request for information or intelligence.

---

6. Member States shall, where permitted by and in accordance with their national law, provide information or intelligence previously obtained by means of coercive measures.

7. This Framework Decision shall not have the effect of modifying the obligation to respect fundamental rights and fundamental legal principles as enshrined in Article 6 of the Treaty on European Union and any obligations incumbent on law enforcement authorities in this respect shall remain unaffected.

Article 2

Definitions

For the purposes of this Framework Decision:

(a) 'competent law enforcement authority': a national police, customs or other authority that is authorised by national law to detect, prevent and investigate offences or criminal activities and to exercise authority and take coercive measures in the context of such activities. Agencies or units dealing especially with national security issues are not covered by the concept of competent law enforcement authority. Every Member State shall, by 18 December 2007, state in a declaration deposited with the General Secretariat of the Council which authorities are covered by the concept of 'competent law enforcement authority'. Such a declaration may be modified at any time.

(b) 'criminal investigation': a procedural stage within which measures are taken by competent law enforcement or judicial authorities, including public prosecutors, with a view to establishing and identifying facts, suspects and circumstances regarding one or several identified concrete criminal acts;

(c) 'criminal intelligence operation': a procedural stage, not yet having reached the stage of a criminal investigation, within which a competent law enforcement authority is entitled by national law to collect, process and analyse information about crime or criminal activities with a view to establishing whether concrete criminal acts have been committed or may be committed in the future;

(d) 'information and/or intelligence':

(i) any type of information or data which is held by law enforcement authorities;

(ii) any type of information or data which is held by public authorities or by private entities and which is available to law enforcement authorities without the taking of coercive measures, in accordance with Article 1(5).

(e) 'offences referred to in Article 2(2) of the Framework Decision 2002/584/JHA on the European arrest warrant (1)' (hereinafter referred to as 'offences referred to in Article 2(2) of the Framework Decision 2002/584/JHA'): offences under national law which correspond to or are equivalent to those referred to in that provision.

TITLE II

EXCHANGE OF INFORMATION AND INTELLIGENCE

Article 3

Provision of information and intelligence

1. Member States shall ensure that information and intelligence can be provided to the competent law enforcement authorities of other Member States in accordance with this Framework Decision.

2. Information and intelligence shall be provided at the request of a competent law enforcement authority, acting in accordance with the powers conferred upon it by national law, conducting a criminal investigation or a criminal intelligence operation.

3. Member States shall ensure that conditions not stricter than those applicable at national level for providing and requesting information and intelligence are applied for providing information and intelligence to competent law enforcement authorities of other Member States. In particular, a Member State shall not subject the exchange, by its competent law enforcement authority with a competent law enforcement authority of another Member State, of information or intelligence which in an internal procedure may be accessed by the requested competent law enforcement authority without a judicial agreement or authorisation, to such an agreement or authorisation.

4. Where the information or intelligence sought may, under the national law of the requested Member State, be accessed by the requested competent law enforcement authority only pursuant to an agreement or authorisation of a judicial authority, the requested competent law enforcement authority shall be obliged to ask the competent judicial authority for an agreement or authorisation to access and exchange the information sought. The competent judicial authority of the requested Member State shall apply the same rules for its decision, without prejudice to Article 10(1) and (2), as in a purely internal case.

5. Where the information or intelligence sought has been obtained from another Member State or from a third country and is subject to the rule of speciality, its transmission to the competent law enforcement authority of another Member State may only take place with the consent of the Member State or third country that provided the information or intelligence.

Article 4
Time limits for provision of information and intelligence

1. Member States shall ensure that they have procedures in place so that they can respond within at most eight hours to urgent requests for information and intelligence regarding offences referred to in Article 2(2) of Framework Decision 2002/584/JHA, when the requested information or intelligence is held in a database directly accessible by a law enforcement authority.

2. If the requested competent law enforcement authority is unable to respond within eight hours, it shall provide reasons for that on the form set out in Annex A. Where the provision of the information or intelligence requested within the period of eight hours would put a disproportionate burden on the requested law enforcement authority, it may postpone the provision of the information or intelligence. In that case the requested law enforcement authority shall immediately inform the requesting law enforcement authority of this postponement and shall provide the requested information or intelligence as soon as possible, but not later than within three days. The use made of the provisions under this paragraph shall be reviewed by 19 December 2009.

3. Member States shall ensure that for non-urgent cases, requests for information and intelligence regarding offences referred to in Article 2(2) of Framework Decision 2002/584/JHA should be responded to within one week if the requested information or intelligence is held in a database directly accessible by a law enforcement authority. If the requested competent law enforcement authority is unable to respond within one week, it shall provide reasons for that on the form set out in Annex A.

4. In all other cases, Member States shall ensure that the information sought is communicated to the requesting competent law enforcement authority within 14 days. If the requested competent law enforcement authority is unable to respond within 14 days, it shall provide reasons for that on the form set out in Annex A.

Article 5
Requests for information and intelligence

1. Information and intelligence may be requested for the purpose of detection, prevention or investigation of an offence where there are factual reasons to believe that relevant information and intelligence is available in another Member State. The request shall set out those factual reasons and explain the purpose for which the information and intelligence is sought and the connection between the purpose and the person who is the subject of the information and intelligence.

2. The requesting competent law enforcement authority shall refrain from requesting more information or intelligence or setting narrower time frames than necessary for the purpose of the request.

3. Requests for information or intelligence shall contain at least the information set out in Annex B.

Article 6
Communication channels and language

1. Exchange of information and intelligence under this Framework Decision may take place via any existing channels for international law enforcement cooperation. The language used for the request and the exchange of information shall be the one applicable for the channel used. Member States shall, when making their declarations in accordance with Article 2(a), also provide the General Secretariat of the Council with details of the contacts to which requests may be sent in cases of urgency. These details may be modified at any time. The General Secretariat of the Council shall communicate to the Member States and the Commission the declarations received.

2. Information or intelligence shall also be exchanged with Europol in accordance with the Convention based on Article K.3 of the Treaty on European Union, on the establishment of a European Police Office (Europol Convention) (1) and with Eurojust in accordance with the Council Decision 2002/187/JHA of 28 February 2002 setting up Eurojust with a view to reinforcing the fight against serious crime (2), insofar as the exchange refers to an offence or criminal activity within their mandate.

---

**Article 7**

**Spontaneous exchange of information and intelligence**

1. Without prejudice to Article 10, the competent law enforcement authorities shall, without any prior request being necessary, provide to the competent law enforcement authorities of other Member States concerned information and intelligence in cases where there are factual reasons to believe that the information and intelligence could assist in the detection, prevention or investigation of offences referred to in Article 2(2) of Framework Decision 2002/584/JHA. The modalities of such spontaneous exchange shall be regulated by the national law of the Member States providing the information.

2. The provision of information and intelligence shall be limited to what is deemed relevant and necessary for the successful detection, prevention or investigation of the crime or criminal activity in question.

**Article 8**

**Data protection**

1. Each Member State shall ensure that the established rules on data protection provided for when using the communication channels referred to in Article 6(1) are applied also within the procedure on exchange of information and intelligence provided for by this Framework Decision.

2.
