5. **GENERAL DIRECTIONS FOR USE ⁽¹⁾ OF THE META SPC 1**5.1. **Instructions for use**

- Apply the product by fully wetting all surface for 5 minutes (apply approx. 18 sprays /m² or 20 ml/m² or fully cover the object to be disinfected).
- Apply only on non-porous surfaces.
- Inform the authorisation holder if the treatment is ineffective.
- Comply with the instructions for use.
- Each product label shall give information on how the dilution should be made in order to guarantee the efficacy of the product. Since the concentration of L-(+)-lactic acid in products within this meta SPC can range from 15,66% to 31,33%, it is not possible to indicate all product dilution here.

Example for a product containing 15,66% L-(+)-lactic acid	Dilution of the product	Contact time
Bacterial and yeasticidal activity	0,299% (20 ml product, add water up to 1 liter)	5 minutes

The authorisation holder shall indicate on the label the relevant volume of product to be diluted in water for each specific product.

5.2. **Risk mitigation measures**

- Wash hands after use of the concentrate product.
- Avoid contact with eyes.
- Avoid splashes and spills during mixing and loading (dilution).
- For outdoor uses, do not apply the product in case rain is expected within 24 hours.
- For outdoor uses by spray, avoid transfer to other areas by wind (drift).

⁽¹⁾ Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses within the meta SPC 1.

For professional use only:

- Wear protective chemical resistant gloves classified under EN 374 or equivalent, chemical goggles consistent with EN 16321 or equivalent and a coverall consistent with EN 14605 or equivalent when handling the concentrate product (during dilution). The full texts of the EN standards are available in Section 6. – Personal protective equipment (PPE) material to be specified by the authorisation holder within the product information.

For non-professional use only:

- A child-proof closure is required.
- Keep out of reach of children and non-target animals or pets.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

- IF ON SKIN: take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.
- IF IN EYES: immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112 or an ambulance for medical assistance.

Information to healthcare personnel or a doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid.

- IF SWALLOWED: immediately rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call 112 or an ambulance for medical assistance.
- IF INHALED: if symptoms occur call a POISON CENTRE or a doctor.

5.4. Instructions for safe disposal of the product and its packaging

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.

5. **GENERAL DIRECTIONS FOR USE ⁽⁴⁾ OF THE META SPC 4**

5.1. **Instructions for use**

- Apply the product by fully wetting all surface for 5 minutes (apply approx. 18 sprays /m² or 20 ml/m² or fully cover the object to be disinfected).
- Apply only on non porous surfaces.
- Inform the authorisation holder if the treatment is ineffective.
- Each product label shall give information on how the dilution should be made in order to guarantee the efficacy of the product. Since the concentration of L-(+)-lactic acid in products within this meta SPC can range from 7,83% to 31,33%, it is not possible to indicate all product dilution here.

Example for a product containing 7,83% L-(+)-lactic acid	Dilution of the product	Contact time
Bacterial and yeasticidal activity	0,299% (40 ml product, add water up to 1 liter)	5 minutes

The authorisation holder shall indicate on the label the relevant volume of product to be diluted in water on the label of each specific product.

⁽⁴⁾ Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses within the meta SPC 4.

5.2. Risk mitigation measures

- Wear protective chemical resistant gloves classified under EN 374 or equivalent, chemical goggles consistent with EN 16321 or equivalent and a coverall consistent with EN 14605 or equivalent when handling the concentrate product (during dilution). The full titles of the EN standard are available under section 6.
- PPE material to be specified by the authorisation holder within the product information.
- Wash hands after use of the concentrate product.
- Avoid contact with eyes.
- Avoid splashes and spills during mixing and loading (dilution).
- For outdoor uses, do not apply the product in case rain is expected within 24 hours.
- For outdoor uses by spray, avoid transfer to other areas by wind (drift).

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

- IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation or rash occur: Get medical advice.
- IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112 or an ambulance for medical assistance.

Information to healthcare personnel or a doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

- IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call 112 or an ambulance for medical assistance.
- IF INHALED: If symptoms occur call a POISON CENTER or a doctor.

5.4. Instructions for safe disposal of the product and its packaging

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

- Shelf-life: 2 years.
- Protect from frost.
