**▼B****AGREEMENT****between the European Economic Community and the Swiss Confederation**

THE EUROPEAN ECONOMIC COMMUNITY,

of the one part, and

THE SWISS CONFEDERATION,

of the other part,

DESIRING to consolidate and to extend, upon the enlargement of the European Economic Community, the economic relations existing between the Community and Switzerland and to ensure, with due regard for fair conditions of competition, the harmonious development of their commerce for the purpose of contributing to the work of constructing Europe,

RESOLVED to this end to eliminate progressively the obstacles to substantially all their trade, in accordance with the provisions of the General Agreement on Tariffs and Trade concerning the establishment of free trade areas,

DECLARING their readiness to examine, in the light of any relevant factor, and in particular of developments in the Community, the possibility of developing and deepening their relations where it would appear to be useful in the interests of their economies to extend them to fields not covered by this Agreement,

HAVE DECIDED, in pursuit of these objectives and considering that no provision of this Agreement may be interpreted as exempting the Contracting Parties from the obligations which are incumbent upon them under other international agreements,

TO CONCLUDE THIS AGREEMENT:

*Article 1*

The aim of this Agreement is:

- (a) to promote through the expansion of reciprocal trade the harmonious development of economic relations between the European Economic Community and the Swiss Confederation and thus to foster in the Community and in Switzerland the advance of economic activity, the improvement of living and employment conditions, and increased productivity and financial stability,
- (b) to provide fair conditions of competition for trade between the Contracting Parties,
- (c) to contribute in this way, by the removal of barriers to trade, to the harmonious development and expansion of world trade.

The Joint Committee provided for in Article 29 shall examine whether the conditions set out in the preceding subparagraph are being met, particularly where a change has been made in the amount of the fiscal element.

The Joint Committee shall examine the position with a view to the conversion of such duties into internal charges before 1 January 1980 or before any other date which it might determine in the light of circumstances.

*Article 5*

1. The basic duty to which the successive reductions provided for in Article 3 and in Protocol No 1 are to be applied shall, for each product, be the duty actually applied on 1 January 1972.

*Article 18*

The Contracting Parties shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Contracting Party and like products originating in the territory of the other Contracting Party.

Products exported to the territory of one of the Contracting Parties may not benefit from repayment of internal taxation in excess of the amount of direct or indirect taxation imposed on them.

*Article 19*

Nothing in the Agreement shall prevent a Contracting Party from taking any measures:

- (a) which it considers necessary to prevent the disclosure of information contrary to its essential security interests;

**▼B**

- (b) which relate to trade in arms, munitions or war materials or to research, development or production indispensable for defence purposes, provided that such measures do not impair the conditions of competition in respect of products not intended for specifically military purposes;
- (c) which it considers essential to its own security in time of war or serious international tension.

*Article 22*

1. The Contracting Parties shall refrain from any measure likely to jeopardize the fulfilment of the objectives of the Agreement.
2. They shall take any general or specific measures required to fulfil their obligations under the Agreement.

If either Contracting Party considers that the other Contracting Party has failed to fulfil an obligation under the Agreement, it may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 27.

*Article 23*

1. The following are incompatible with the proper functioning of the Agreement in so far as they may affect trade between the Community and Switzerland:
  - (i) all agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition as regards the production of or trade in goods;
  - (ii) abuse by one or more undertakings of a dominant position in the territories of the Contracting Parties as a whole or in a substantial part thereof;
  - (iii) any public aid which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods.
2. Should a Contracting Party consider that a given practice is incompatible with this Article, it may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 27.

*Article 24*

Where an increase in imports of a given product is or is likely to be seriously detrimental to any production activity carried on in the territory of one of the Contracting Parties and where this increase is due to:

- (i) the partial or total reduction in the importing Contracting Party, as provided for in the Agreement, of customs duties and charges having equivalent effect levied on the product in question; and
- (ii) the fact that the duties or charges having equivalent effect levied by the exporting Contracting Party on imports of raw materials or intermediate products used in the manufacture of the product in question are significantly lower than the corresponding duties or charges levied by the importing Contracting Party;

the Contracting Party concerned may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 27.

**▼ M54***Article 24a*

Where compliance with the provisions of Articles 7 and 13a leads to

1. re-export towards a third country against which the exporting Contracting Party maintains, for the product concerned quantitative export restrictions, export duties or measures or charges having equivalent effect; or
2. a serious shortage, or threat thereof, of a product essential to the exporting Contracting Party;

and where the situations referred to above give rise or are likely to give rise to major difficulties for the exporting Contracting Party, that Contracting Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 27.

**▼ B***Article 25*

If one of the Contracting Parties finds that dumping is taking place in trade with the other Contracting Party, it may take appropriate measures against this practice in accordance with the Agreement on implementation of Article VI of the General Agreement on Tariffs and Trade, under the conditions and in accordance with the procedures laid down in Article 27.

*Article 26*

If serious disturbances arise in any sector of the economy or if difficulties arise which could bring about serious deterioration in the economic situation of a region, the Contracting Party concerned may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 27.

**▼ M54***Article 27*

1. In the event of a Contracting Party subjecting imports or exports of products liable to give rise to the difficulties referred to in Articles 24, 24a and 26 to an administrative procedure, the purpose of which is to provide rapid information on the trend of trade flows, it shall inform the other Contracting Party.

2. In the cases specified in Articles 22 to 26, before taking the measures provided for therein or, in cases to which paragraph 3 (e) applies, as soon as possible, the Contracting Party in question shall supply the Joint Committee with all relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Contracting Parties. In the selection of measures, priority must be given to those which least disturb the functioning of the Agreement.

The safeguard measures shall be notified immediately to the Joint Committee, and shall be the subject of periodical consultations within the Committee, particularly with a view to their abolition as soon as circumstances permit.

▼ M54

3. For the implementation of paragraph 2, the following provisions shall apply:

- (a) As regards Article 23, either Contracting Party may refer the matter to the Joint Committee if it considers that a given practice is incompatible with the proper functioning of the Agreement within the meaning of Article 23 (1).

The Contracting Parties shall provide the Joint Committee with all relevant information and shall give it the assistance it requires in order to examine the case and, where appropriate, to eliminate the practice objected to.

If the Contracting Party in question fails to put an end to the practice objected to within the period fixed by the Joint Committee, or in the absence of agreement in the Joint Committee within three months of the matter being referred to it, the Contracting Party concerned may adopt any safeguard measures it considers necessary to deal with the serious difficulties resulting from the practices in question; in particular it may withdraw tariff concessions.

- (b) As regards Article 24, the difficulties arising from the situation referred to in that Article shall be referred for examination to the Joint Committee, which may take any decision needed to put an end to such difficulties.

If the Joint Committee or the exporting Contracting Party has not taken a decision putting an end to the difficulties within 30 days of the matter being referred, the importing Contracting Party is authorized to levy a compensatory charge on the product imported.

The compensatory charge shall be calculated according to the incidence on the value of the goods in question of the tariff disparities in respect of the raw materials or intermediate products incorporated therein.

- (c) As regards Article 24a, the difficulties arising from the situations referred to in that Article shall be referred for examination to the Joint Committee. With regard to subparagraph (ii) of Article 24a, the threat of shortage shall be duly evidenced by appropriate quantitative and price indicators.

The Joint Committee may take any decision needed to put an end to the difficulties. If the Joint Committee has not taken such a decision within 30 days of the matter being referred to it, the exporting Contracting Party is authorized to apply temporarily appropriate measures on the exportation of the product concerned.

- (d) As regards Article 25, consultation in the Joint Committee shall take place before the Contracting Party concerned takes the appropriate measures.

- (e) Where exceptional circumstances requiring immediate action make prior examination impossible, the Contracting Party concerned may, in the situations specified in Articles 24, 24a, 25 and 26 and also in the case of export aids having a direct and immediate incidence on trade, apply forthwith the precautionary measures strictly necessary to remedy the situation.

**▼B***Article 28*

Where one or more Member States of the Community or Switzerland is in difficulties or is seriously threatened with difficulties as regards its balance of payments, the Contracting Party concerned may take the necessary safeguard measures. It shall inform the other Contracting Party forthwith.

*Article 29*

1. A Joint Committee is hereby established, which shall be responsible for the administration of the Agreement and shall ensure its proper implementation. For this purpose, it shall make recommendations and take decisions in the cases provided for in the Agreement. These decisions shall be put into effect by the Contracting Parties in accordance with their own rules.
2. For the purpose of the proper implementation of the Agreement the Contracting Parties shall exchange information and, at the request of either Party, shall hold consultations within the Joint Committee.
3. The Joint Committee shall adopt its own rules of procedure.

*Article 30*

1. The Joint Committee shall consist of representatives of the Community, on the one hand, and of representatives of Switzerland, on the other.
2. The Joint Committee shall act by mutual agreement.

*Article 31*

1. Each Contracting Party shall preside in turn over the Joint Committee, in accordance with the arrangements to be laid down in its rules of procedure.
2. The Chairman shall convene meetings of the Joint Committee at least once a year in order to review the general functioning of the Agreement.

The Joint Committee shall, in addition meet whenever special circumstances so require, at the request of either Contracting Party, in accordance with the conditions to be laid down in its rules of procedure.

3. The Joint Committee may decide to set up any working party that can assist it in carrying out its duties.

*Article 32*

1. Where a Contracting Party considers that it would be useful in the interests of the economies of both Contracting Parties to develop the relations established by the Agreement by extending them to fields not covered thereby, it shall submit a reasoned request to the other Contracting Party.

The Contracting Parties may instruct the Joint Committee to examine this request and, where appropriate, to make recommendations to them, particularly with a view to opening negotiations.

**▼B**

2. The agreements resulting from the negotiations referred to in paragraph 1 will be subject to ratification or approval by the Contracting Parties in accordance with their own procedures.

*Article 33*

The Annexes and Protocols to the Agreement shall form an integral part thereof.

*Article 34*

Either Contracting Party may denounce the Agreement by notifying the other Contracting Party. The Agreement shall cease to be in force twelve months after the date of such notification.

*Article 35*

The Agreement shall apply, on the one hand, to the territories to which the Treaty establishing the European Economic Community applies upon the terms laid down in that Treaty and, on the other, to the territory of the Swiss Confederation.

*Article 36*

This Agreement is drawn up in duplicate, in the Danish, Dutch, English, French, ►**M12** German and Italian languages ◀ each of these texts being equally authentic.

This Agreement will be approved by the Contracting Parties in accordance with their own procedures.

It shall enter into force on 1 January 1973 provided that the Contracting Parties have notified each other before that date that the procedures necessary to this end have been completed.

After this date this Agreement shall enter into force on the first day of the second month following such notification. The final date for such notification shall be 30 November 1973.

The provisions applicable on 1 April 1973 shall be applied upon the entry into force of this Agreement if it enters into force after that date.

Imports to which the-tariff treatment provided for in Articles 1 and 2 applies, except unwrought lead other than bullion lead (falling within subheading No 78.01 A II of the Common Customs Tariff), shall be subjected to annual indicative ceilings above which the customs duties applicable in respect of third countries may be reintroduced in accordance with the following provisions:

- (a) Taking into account the Community's right to suspend application of ceilings for certain products, the ceilings fixed for 1973 are shown in Annex B. These ceilings are calculated on the assumption that the Community as originally constituted and Ireland shall make the first tariff reduction on 1 April 1973. For 1974 the level of the ceilings shall correspond to that applied in 1973 readjusted on an annual basis for the Community and raised by 5%. From 1 January 1975 the level of the ceilings shall be raised annually by 5%.

For products covered by this Protocol but not included in Annex B, the Community reserves the right to introduce ceilings of which the level will be equal to the average amount of imports into the Community over the last four years for which statistics are available, increased by 5%; for the following years, the levels of these ceilings shall be raised annually by 5%.

- (b) Should, for two successive years, imports of a product subject to a ceiling be less than 90% of the level fixed, the Community shall suspend the application of this ceiling.
- (c) In the event of short-term economic difficulties, the Community reserves the right, after consultation within the Joint Committee, to maintain for a year the level fixed for the preceding year.
- (d) On 1 December each year the Community shall notify the Joint Committee of the list of products subject to ceilings in the following year and of the levels of the ceilings.
- (e) Imports under the tariff quotas opened in accordance with Article 1 (4) shall also be set off against the ceiling levels fixed for the same products.
- (f) Notwithstanding Article 3 of the Agreement and Articles 1 and 2 of this Protocol, when a ceiling fixed for imports of a product covered by this Protocol is reached, Common Customs Tariff duties on imports of the product in question may be reimposed until the end of the calendar year.

In this event, prior to 1 July 1977:

- (i) Denmark ► **M12** ————— ◀ and the United Kingdom shall reimpose customs duties as follows:

Years	Percentage of Common Customs Tariff duties applicable

The customs duties specified in Articles 1 and 2 of this Protocol shall be reintroduced on 1 January of the following year.

- (h) The ceilings shall be abolished at the end of the tariff dismantling periods provided for in Articles 1 and 2 of this Protocol.

*Article 4*

3. The provisions of the Agreement shall apply to products falling within Chapter 91 of the Brussels Nomenclature provided that Switzerland applies the provisions of the Additional Agreement to the 1967 Agreement concerning products of the clock and watch industry between the Swiss Confederation and the European Economic Community and its Member States, signed in Brussels on 20 July 1972.

▼ M73**PROTOCOL 2****Concerning certain processed agricultural products***Article 1***General principles**

1. The provisions of the Agreement shall apply to products listed in Tables I and II unless otherwise specified in this Protocol.
2. In particular, with respect to these products, the Contracting Parties may not levy customs duties on imports or charges having equivalent effect, including agricultural components, or grant export refunds or any refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect.
3. The provisions of this Protocol shall likewise apply to the Principality of Liechtenstein until the application of Protocol 3 to the Agreement on the European Economic Area to the Principality of Liechtenstein.

*Article 2***Application of price compensation measures**

1. In order to take account of differences in the cost of the agricultural raw materials used in the manufacture of the products specified in Table I, the Agreement does not preclude the application of price compensation measures to these products; that is the levying of agricultural components upon import and the granting of export refunds or the granting of refunds, remissions or non-payments, partial or complete of customs duties or charges having an equivalent effect.
2. If a Contracting Party applies internal measures, which reduce the price of raw materials to processing industries, these measures shall be taken into account in the calculation of the price compensation amounts.

*Article 3***Price compensation measures on imports**

1. Switzerland's basic amounts for the agricultural raw materials taken into consideration in calculating the agricultural components on imports shall neither exceed the difference between the Swiss domestic reference price and the Community's domestic reference price for the respective agricultural raw material nor the Swiss import duty actually applied for the agricultural raw material when imported as such.
2. The Swiss import regime for products specified in Table I is laid down in Table IV.
3. If the Swiss domestic reference price is lower than the Community's domestic reference price, the Community may introduce the price compensation measures as laid down in Article 2 that is the levying of agricultural components upon import, in accordance with Regulation (EC) No 1460/96 as subsequently amended.

▼ **M73***Article 4***Price compensation measures on exports**

1. The Swiss export refunds or refunds, remissions or non-payments, partial or complete, of customs duties or charges having an equivalent effect for exports to the Community for products listed in Table I shall not exceed the difference between the Swiss domestic reference price and the Community's domestic reference price for the agricultural raw materials used in the manufacture of these products multiplied by the quantities actually used. If the Swiss domestic reference price is equal or lower than the Community's domestic reference price, the Swiss export refund or refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect shall be zero.
2. If the Swiss domestic reference price is lower than the Community's domestic reference price, the Community may introduce the price compensation measures as laid down in Article 2 that is the granting of export refunds, in accordance with Regulation (EC) No 1520/2000 as subsequently amended, or the granting of refunds, remissions or non-payments, partial or complete of customs duties or charges having an equivalent effect.
3. For sugar (HS headings 1701, 1702 and 1703) used in the manufacture of products listed in Table I and Table II the Contracting Parties may not grant any export refunds or any refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect.

*Article 5***Reference prices**

1. The Community and Swiss domestic reference prices for agricultural raw materials mentioned in Articles 3 and 4 are listed in Table III.
2. The Contracting Parties shall periodically, at least once every year, provide to the Joint Committee the domestic reference prices of all raw materials for which price compensation measures are applied. The domestic reference prices, which are provided, shall reflect the actual price situation in the territory of the Contracting Party. They shall be the prices normally paid at the wholesale or the manufacturing stage by processing industries. If an agricultural raw material is available to the processing industry, or to a part of it, at a price lower than the one otherwise ruling on the domestic market, the domestic reference prices provided shall be adjusted accordingly.
3. The Joint Committee shall fix the domestic reference prices and the price differences, for agricultural raw materials listed in Table III on the basis of the information provided by the services of the European Commission and the Swiss Federal Administration. If necessary for the preservation of the relative preferential margins, the basic amounts of the agricultural raw materials listed in Table IV shall be adapted.
4. The Joint Committee shall review the domestic prices for agricultural raw materials mentioned in Articles 3 and 4 that are listed in Table III prior to the application of this Protocol.

*Article 6***Special provision on administrative cooperation**

Special provisions on administrative cooperation are laid down in the Appendix to this Protocol.

▼ **M73**

*Article 7*  
**Amendments**

The Joint Committee may decide to amend the tables, the appendices to the tables and the Appendix attached to this Protocol.

▼ M73*Appendix to Protocol 2***Provisions on administrative cooperation**

1. The Contracting Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Protocol and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where a Contracting Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud under this Protocol, the Contracting Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Annex.
3. For the purpose of this Appendix a failure to provide administrative cooperation shall mean, *inter alia*:
  - (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
  - (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
  - (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Appendix a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Contracting Party that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
  - (a) the Contracting Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud in customs and related matters shall without undue delay notify the Joint Committee of its finding together with the objective information and enter into consultations within the Joint Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Contracting Parties;
  - (b) where the Contracting Parties have entered into consultations within the Joint Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Contracting Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the Joint Committee without undue delay;
  - (c) temporary suspensions under this Appendix shall be limited to that necessary to protect the financial interests of the Contracting Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Joint Committee. They shall be subject to periodic consultations within the Joint Committee in particular with a view to their termination as soon as the conditions for their application are no longer given;

▼ **M73**

5. At the same time as the notification to the Joint Committee under paragraph 4(a) of this Appendix, the Contracting Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

▼ M87**PROTOCOL 3****concerning the definition of the concept of ‘originating products’  
and methods of administrative cooperation***Article 1***Applicable rules of origin**

For the purpose of implementing this Agreement, Appendix I and the relevant provisions of Appendix II to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin<sup>(1)</sup> (‘the Convention’), shall apply.

All references to the ‘relevant agreement’ in Appendix I to the Convention and in the relevant provisions of Appendix II to the Convention shall be construed so as to mean this Agreement.

  - (b) the measure requested;
  - (c) the object of, and reason for, the request;
  - (d) the laws, rules and other legal elements involved;
  - (e) details which are as accurate and comprehensive as possible on the natural or legal persons who are the target of the investigations;
  - (f) a summary of the relevant facts and enquiries already carried out, except in cases provided for in Article 5.
3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority.
4. If a request does not meet the formal requirements, its correction or supplementation may be requested; precautionary measures may, however, be ordered.

*Article 7***Execution of requests**

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Contracting Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to the administrative department to which the request has been addressed by the requested authority when the latter cannot act on its own.
2. Requests for assistance shall be executed in accordance with the laws, rules and other legal instruments of the requested Contracting Party.
3. Duly authorized officials of a Contracting Party may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, obtain from the offices of the requested authority or other authority for which the requested authority is responsible, information relating to operations which are, or may be, in breach of customs legislation which the applicant authority needs, in the context of an enquiry, for the purposes of this Protocol.
4. Officials of a Contracting Party may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

**▼ M65***Article 8***Form in which information is to be communicated**

1. The requested authority shall communicate results of enquiries to the applicant authority in the form of documents, certified copies of documents, reports and the like.
2. The documents provided for in paragraph 1 may be replaced by computerized information produced in any form for the same purpose.

*Article 9***Exceptions to the obligation to provide assistance**

1. The Contracting Parties may refuse to give assistance as provided for in this Protocol, where to do so would:
  - (a) be likely to prejudice the sovereignty of the Swiss Confederation or that of a Member State of the Community which has been asked to provide assistance pursuant to this Protocol; or
  - (b) be likely to prejudice public policy, their security or other essential interests, in particular in the cases referred to within the meaning of Article 10 (2); or
  - (c) involve tax or currency regulations other than customs legislation; or
  - (d) involve the violation of an industrial, commercial or professional secret.
2. Where the applicant authority requests assistance which it would itself be unable to provide if so asked, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.
3. If assistance is refused, the decision and the reasons therefor must be notified to the application authority without delay.

*Article 10***Confidentiality**

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Contracting Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws applicable in the territory of the Contracting Party which received it and the corresponding provisions applying to the Community institutions.
2. Personal data, namely all information relating to an identified or identifiable individual, may be exchanged only where the receiving Contracting Party undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the supplying Contracting Party.

▼ **M65***Article 11***Use of information**

1. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Contracting Parties requests the use of such information for other purposes, it shall ask for the prior written consent of the authority which furnished the information. Such use shall then be subject to any restrictions laid down by that authority.
2. Paragraph 1 shall not impede the use of information in any judicial or administrative proceedings instituted for failure to comply with customs legislation. The competent authority which supplied that information shall be notified of such use without delay.
3. The Contracting Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol.

*Article 12***Experts and witnesses**

An official of a requested authority may be authorized to appear, within the limitations of the authorization granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol in the jurisdiction of the other Contracting Party, and produce such objects, documents or authenticated copies thereof, as may be needed for the proceedings. The request for an appearance must indicate specifically on what matters and by virtue of what title or qualification the official will be questioned.

*Article 13***Assistance expenses**

The Contracting Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses and to interpreters and translators who are not public service employees.

*Article 14***Application**

1. The application of this Protocol shall be entrusted to the customs authorities of the Swiss Confederation on the one hand and the competent services of the Commission of the European Communities and, where appropriate, the customs authorities of the Member States of the European Community on the other. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in the field of data protection.
2. The Contracting Parties shall consult each other and keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol. In particular, they shall exchange the list of competent authorities authorized to intervene pursuant to this Protocol.

**DECLARATIONS**

**Joint declaration by the Contracting Parties concerning Article 4(3) of Protocol No 1**

The Contracting Parties acknowledge that the Exchange of Letters of 30 June 1967 between the European Economic Community and the Swiss Confederation relating to the Clock and Watch Agreement shall remain valid and may be invoked if the provisions of this Agreement should cease to apply to products falling within Chapter 91 of the Brussels Nomenclature in accordance with Article 4(3) of Protocol No 1.

**▼B**

**Joint declaration by the Contracting Parties concerning transport of goods  
in transit**

The Contracting Parties consider that it is in the common interest that the rates and conditions for the transport of goods

- (i) to and from the Community involving transit through Swiss territory; or
- (ii) to and from Switzerland involving transit through Community territory,

should not involve any discrimination or distortion based on the country of destination of the goods concerned or on the country from which they come and likely to have an adverse effect on the proper functioning of the free movement of these goods.

**▼B****Declaration concerning workers**

In view of the importance of the activities in Switzerland of workers who are nationals of Member States in the context of their reciprocal relations, the Contracting Parties emphasize the common interest they have in matters relating to labour. In this connection, they note with satisfaction the signature in Rome on 22 June 1972 of a document recording the results of the work of the Italian-Swiss Joint Committee.

The Contracting Parties have noted that in the course of that Committee's work important principles were formulated and substantial progress was thereby achieved, the stabilization policy adopted by the Swiss authorities being fully observed; appropriate provisions were adopted to achieve further progress as soon as possible. They noted also that this stabilization goes hand in hand with the implementation of a policy which is designed to introduce progressively as uniform a labour market as possible.

The Contracting Parties are determined, on either side, to promote the introduction of the most satisfactory solutions to these questions of common interest. They declare their willingness to examine together any problems which may arise concerning their workers.

**▼B**

**Declaration by the European Economic Community concerning Article 23(1)  
of the Agreement**

The European Economic Community declares that in the context of the autonomous implementation of Article 23(1) of the Agreement which is incumbent on the Contracting Parties, it will assess any practices contrary to that Article on the basis of criteria arising from the application of the rules of Articles 85, 86, 90 and 92 of the Treaty establishing the European Economic Community.
