COMMISSION REGULATION (EEC) No 1859/82
of 12 July 1982

**concerning the selection of returning holdings for the purpose of
determining incomes of agricultural holdings**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 79/65/EEC of 15 June 1965 setting up a network for the collection of accountancy data on the incomes and business operation of agricultural holdings in the European Economic Community ⁽¹⁾, as last amended by Council Regulation (EEC) No 2143/81 ⁽²⁾, and in particular Articles 4 (4), 5 (5) and 6 (2) thereof,

Whereas returning holdings must be selected in a uniform manner in each division and whereas to that end detailed rules should be laid down to implement the relevant provisions of Regulation No 79/65/EEC;

Whereas in the light of the latest amendments to Regulation No 79/65/EEC and of experience acquired since 1965 the detailed rules for the selection of returning holdings should be completely revised; whereas, accordingly, Commission Regulation No 91/66/EEC ⁽³⁾, should be repealed and replaced by a new Regulation;

Whereas the holdings to be studied in connection with the farm accountancy data network fall within the field of survey of the structure surveys and of Community or national censuses of agricultural holdings;

Whereas the data available for the purposes of drawing up selection plans for the '1982' and subsequent accounting years and the difference in the agricultural situation as between the different Member States require that thresholds of economic size which vary by Member State, and even in some cases by division, be adopted for that year;

Whereas experience shows that operation of the data network is facilitated if the number of returning holdings selected per division is allowed to vary within certain limits on condition that the total number of holdings per Member State is complied with;

Whereas the selection plan must include a minimum number of elements enabling its validity in relation to the objectives of the farm accountancy data network to be assessed;

Whereas the selection plan must be drawn up prior to the beginning of the corresponding accounting year so that it can be approved before being used for the selection of returning holdings;

Whereas the report on the implementation of the selection plan for returning holdings must cover the different aspects of the plan's implementation with a view in particular to identifying any adjustments which may be necessary for subsequent accounting years and whereas the report must also take account of the use of certain data from the plan for the purposes of the weighting to be given to the accountancy data;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Community Committee on the Farm Accountancy Data Network,

⁽¹⁾ OJ No 109, 23. 6. 1965., p. 1859/65.
