(95/196/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Act of Accession of Austria, Finland and Sweden, and in particular Article 142 thereof,

Having regard to Council Regulation (EEC) No 827/68 of 28 June 1968 on the common organization of the market in certain products listed in Annex II to the Treaty <sup>(1)</sup>, as last amended by the Act of Accession of Austria, Finland and Sweden, and in particular the last paragraph of Article 5 thereof,

Whereas Article 142 of the Act of Accession states that the Commission is to authorize Finland and Sweden to grant long-term national aids with a view to ensuring that agricultural activity is maintained in the northern regions; whereas, in accordance with paragraph 2 of that Article, the Commission is to determine those regions;

Whereas, in order to facilitate the administration of the scheme provided for, when determining those regions, the municipality (*kunta*) should be chosen as the relevant administrative unit for such determination in line with practice followed in the application of Council Directive 75/268/EEC of 28 April 1975 on mountain and hill farming and farming in certain less-favoured areas <sup>(2)</sup>, as amended by Directive 80/666/EC <sup>(3)</sup> and Regulation EEC No 797/85 <sup>(4)</sup>, whereas, however, the rural district (*maatalouspiiri*) of Mikkeli, South Karelia and area 3 as defined in the Finnish system of aid to agriculture based on holding size, in force before accession and within the limits laid down at 31 December 1993, may also be included among the relevant administrative units;

---

<sup>(1)</sup> OJ No L 151, 30. 6. 1968, p. 16.

<sup>(2)</sup> OJ No L 128, 19. 5. 1975, p. 1.

<sup>(3)</sup> OJ No L 180, 14. 7. 1980, p. 34.

<sup>(4)</sup> OJ No L 93, 30. 3. 1985, p. 1.

Whereas Article 142 (1) of the Act of Accession stipulates that the regions to be determined should cover agricultural areas situated to the north of the 62nd parallel and some adjacent areas south of that parallel affected by comparable climatic conditions rendering agricultural activity particularly difficult; whereas, when determining those regions, the Commission is to take account in particular of the low population density, the portion of agricultural land in the overall surface area, and the portion of utilized agricultural area given over to arable crops intended for human consumption;

Whereas, where Finland is concerned, the abovementioned factors result in the list of administrative units in subregions C<sub>1</sub>, C<sub>2</sub>, C<sub>2</sub> North, C<sub>3</sub> and C<sub>4</sub> laid down in this Decision, which are north of the 62nd parallel or adjacent to the latter, are affected by comparable climatic conditions rendering agricultural activity particularly difficult and have a population density lower than or equal to 10 inhabitants per square kilometer, a utilized agricultural areas (UAA) of less than 10 % of the total area of the municipality and a portion of the UAA devoted to arable crops intended for human consumption less than or equal to 20 %; whereas municipalities surrounded by others within such areas should be entered on the list, even where they do not satisfy the same requirements;

Whereas the northern region thus determined represents 1 417 000 hectares (ha) accounting for 55,5 % of the total UAA of Finland;

Whereas, in accordance with Article 142 (3) of the Act of Accession, it is for the Commission to define the reference period in relation to which the development of agricultural production and the level of overall support should be considered; whereas, using the national statistics available as a basis, that reference period should cover 1991, 1992 and 1993 as regards agricultural production, with the exception of cow's milk and beef and veal, for which 1992 provides the best basis for fixing the milk quota and the reference herd for Finland, and horticulture, for which 1993 is the year covered by the most reliable statistics; whereas however, 1993 (when prices had not yet been affected by accession) should be used for assessing the level of overall support, where the difference in the price level of support existing between Finland and the Community must be taken into account;

Whereas production figures and support per product in the abovementioned years should be stated;

Whereas on 26 October 1994 Finland presented the aid scheme contemplated to the Commission; whereas it subsequently forwarded additional information and the final version of the aid scheme contemplated on 20 January 1995; whereas the scheme provides for aids applicable to agriculture generally in the regions in question and related to the traditional production model on each holding; whereas it also provides for specific aid payable to the Scolt Lapps, for the reindeer industry and the natural economy of those regions;

Whereas the measures provided for may be authorized as they meet the conditions laid down in Article 142 (3) of the Act; whereas those measures take account of the compensatory allowance, the agrienvironmental aid laid down for the northern regions and the aid provided for under the common organizations of the markets (COM) at a level which should be stated for the sake of transparency; whereas they also take account of the transitional aid granted in accordance with Articles 138, 139 and 140 of the Act of Accession; whereas they are not likely to lead to any increase in overall support or, where they are accompanied by the necessary measures, to any increase in production as compared with the reference period referred to above; whereas, as regards the latter point, a reduction in the aid in the following year in proportion to the overrun in production during the reference period provides a suitable instrument;

Whereas, with regard to the latter, with the exception of cow's milk, where any increase in production is controlled by the quota system provided for under the COM, the aid is not granted on the basis of the quantities produced but on the basis of production factors (livestock units (LU) or ha) within regional limits laid down by this Decision; whereas, in the case of heifers for slaughter, which fall outside the milk production network, the aid is also granted by head;

Whereas the transport aid provided for in this aid scheme may be authorized under the third subparagraph of Article 142 (3); whereas where authorization is granted for any transport aid under a national regional aid scheme, it should be ensured that compensation is not provided twice under the various aid schemes for the same activity;

Whereas those aids meet the objectives set out in the third subparagraph of Article 142 (3) of the Act of Accession since they are intended to maintain traditional methods of primary production and processing particularly suited to the climatic conditions of the regions concerned, to improve the structures for the production, marketing and processing of agricultural products, to facilitate the disposal of the said products and to ensure that the environment is protected and the countryside preserved;

Whereas, on that basis, the aid measures in question may be authorized provided, however, they comply with the limits laid down for certain products under the COM;

Whereas the aid scheme proposed provides for aid for horticultural products in the northern regions; whereas aid is also granted for the storage of such products, which is considered in such cases a measure to facilitate the disposal of the products in accordance with the third indent of the third subparagraph of Article 142 (3) of the Act;

Whereas the Commission must be kept informed of the actual trend in market prices in Finland for the horticultural products covered by this Decision in order to verify compliance with the conditions laid down in Article 142 of the Act;

Whereas the aid laid down for the breeding, processing and marketing of reindeer is in accordance with the last paragraph of Article 5 of Regulation (EEC) No 827/68,

HAS ADOPTED THIS DECISION:

## TITLE I

**DETERMINATION OF REGIONS AND OF REFERENCE PERIOD**

95/196/EC

*Article 1*

The northern region of Finland shall comprise the local administrative units and the municipal units (*kunta*) listed under the relevant subregions in Annex I hereto.

*Article 2*

1. The reference period provided for in Article 142 (3) of the Act of Accession shall be as follows:

(a) as regards production:

- 1992 for cow's milk and for cattle,
- 1993 for horticulture,
- the average for 1991, 1992 and 1993 for other products;

(b) as regards the level of overall support, 1993.

2. Production and overall support for those years per product shall be as shown in Annex II.

## TITLE II

**AUTHORIZED AID***Article 3*

1. The aid set out in Annex III shall be authorized from 1 January 1995.

The following shall be as shown in the relevant Annex:

- in Annex III, the amounts granted by subregion, production factor (ha, LU or head) or quantities produced, and the overall amount laid down,
- in Annex IV, the maximum number of hectares or of animals covered by the aid,
- in Annex V, the conversion rates into LU for the various types of livestock.

The aid:

- shall be authorized taking account of the Community aid as set out in Annex VI and the aid authorized pursuant to Articles 138, 139 and 140 of the Act of Accession,
- with the exception of aid for cow's milk, may in no case be granted on the basis of the quantity produced.

2. The aid provided for in paragraph 1 shall be limited as follows:

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <p>(a) arable land: to the average number of hectares in the region which were sown in the period 1989 to 1991 to arable crops or, as the case may be, left fallow in accordance with a publicly funded compensatory payment scheme pursuant to Council Regulation (EEC) No 1765/92 <sup>(5)</sup>;</p> <p>(b) sugarbeet: to the quantity of beet covered by contracts between producers in the regions referred to in Article 1 and between sugar-producing undertakings within the (A and B) quotas allocated to the latter pursuant to Article 24 of Council Regulation (EEC) No 1785/81 <sup>(6)</sup>;</p>                               | 95/196/EC |
| <p>(c) cow's milk: to the reference quantity allocated pursuant to Article 4 of Council Regulation (EEC) No 3950/92 <sup>(7)</sup> after the reallocation of any unused reference quantities in accordance with the second subparagraph of Article 2 (1) of that Regulation for the milk year which ends during the calendar year in question;</p>                                                                                                                                                                                                                                                                                            | 97/279/EC |
| <p>(d) suckler cows: to the individual ceilings allocated to each producer pursuant to Article 4d (1a) of Council Regulation (EEC) No 805/68 <sup>(8)</sup>;</p> <p>(e) male bovine animals: to 90 head per holding and per age bracket pursuant to Article 4b (1) of Regulation (EEC) No 805/68;</p> <p>(f) sheep and goats: to the individual limits allocated to producers pursuant to Article 5e of Council Regulation (EEC) No 3013/89 <sup>(9)</sup>.</p> <p>In addition, as regards the products referred to in (d) and (e), the stocking density provided for in Article 4g of Regulation (EEC) No 805/68 shall be complied with.</p> | 95/196/EC |

<sup>(5)</sup> OJ No L 181, 1. 7. 1992, p. 12.

<sup>(6)</sup> OJ No L 177, 1. 7. 1981, p. 4.

<sup>(7)</sup> OJ No L 405, 31. 12. 1992, p. 1.

<sup>(8)</sup> OJ No L 148, 28. 6. 1968, p. 24.

<sup>(9)</sup> OJ No L 289, 7. 10. 1989, p. 1.

*Article 4*

## 1. Finland shall:

(a) as part of the information provided pursuant to Article 143 (2) of the Act of Accession, forward to the Commission each year before 1 April and for the first time before 1 April 1996 information on the effects of the aid granted and in particular on the trend in production and in means of production qualifying for the aid, the trend in the economy of the regions concerned and the effects on the protection of the environment and the preservation of the countryside referred to in the fourth indent of the third subparagraph of Article 142 (3) of the Act of Accession;

(b) take all steps necessary to apply this Decision and suitable control measures *vis-à-vis* recipients;

(c) in the event of an overrun in the quantities laid down in Annex 2, reduce aid granted for the products concerned in the following year in proportion to the overrun in the subregions where the overrun has been recorded. As regards field-scale crop production, that reduction shall only apply if the overrun is more than 10 % on average over two consecutive years;

(d) for 1995, provide the Commission with information every four months on the producer prices recorded on the internal market for fruit and vegetables.

2. If, on the basis of the information provided pursuant to paragraph 1 (d) any increase is noted in overall support as compared with that in the reference period provided for in Article 2, this Decision shall be reviewed.

*Article 5*

This Decision shall be without prejudice to:

- the rights of the Finnish authorities to lay down, in accordance with the amounts and other factors provided for in this Decision, the conditions for granting aid to the various categories of recipients,
- the rights of the Commission to review this Decision, in particular on the basis of the trend in the value of the national currency, the determination of the Finnish quota for potato starch or the change in the rate of aid authorized following any adjustment to aid authorized pursuant to Articles 138 and 140 of the Act of Accession or to the Community aid shown in Annex VI.

95/196/EC

97/279/EC

95/196/EC

In the latter case, any correction to the authorized aid in the northern regions shall apply only from the year following that in which the adjustment takes effect.

95/196/EC

*Article 6*

This Decision is addressed to the Republic of Finland.
