DECISION No 1031/2000/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 13 April 2000

establishing the ‘Youth’ Community action programme

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community and in particular Article 149 thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the Economic and Social Committee ⁽²⁾,

Having regard to the opinion of the Committee of the Regions ⁽³⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty ⁽⁴⁾, in the light of the joint text approved on 9 March 2000 by the Conciliation Committee,

Whereas:

- (1) The Treaty establishing the European Community provides that the latter's action shall, *inter alia*, contribute to the development of quality education and training. This was resolutely reiterated by the Treaty of Amsterdam signed on 2 October 1997 which states that the Community is also to promote the development of the highest possible level of knowledge for its peoples through a wide access to education and through a continuous updating of knowledge.
- (2) By their Decision No 818/95/EC of 14 March 1995 adopting the third phase of the ‘Youth for Europe’ programme ⁽⁵⁾, the European Parliament and the Council set up an action programme regarding cooperation in the field of youth. It is appropriate to pursue and strengthen cooperation and Community action in that field on the basis of the experience acquired from that programme.
- (3) The extraordinary European Council on employment held in Luxembourg on 20 and 21 November 1997 adopted a coordinated employment strategy in which lifelong education and training have a fundamental role to play in implementing the guidelines set out in the Council resolution of 15 December 1997 ⁽⁶⁾ for the Member States' employment policies in order to enhance employability, adaptability and the culture of entrepreneurship and to promote equal opportunities.
- (4) The Commission in its communication ‘Towards a Europe of knowledge’ set out guidelines on the creation of an open and dynamic European education area capable of achieving the objective of lifelong education and training.
- (5) In its White Paper ‘Teaching and learning — Towards the learning society’, the Commission stated that the emergence of the learning society entails encouraging the acquisition of new knowledge and to this end providing motivation to learn at every opportunity. In its Green Paper ‘Education, training, research: the obstacles to transnational mobility’, the Commission highlighted

the advantages of mobility for people and competitiveness in the European Union.

- (6) There is a need to promote active citizenship, to strengthen the links between measures pursued under this programme and to step up the fight for respect for human rights and against exclusion in all its forms, including racism and xenophobia. Special attention should be focused on removing discrimination and on promoting equal opportunities for women and men.
- (7) The actions of this programme should reach young people in general and not just the initiated and/or those who belong to youth organisations. The Commission and the Member States should therefore undertake to provide an adequate flow of information and appropriate dissemination for those actions.
- (8) This Decision establishes a Community framework intended to contribute to the development of transnational voluntary service activities. The Member States should endeavour to adopt appropriate and coordinated measures to remove legal and administrative obstacles in order to further improve young people's access to the programme and facilitate recognition of the specific nature of voluntary service for young people.
- (9) Youth exchanges in particular contribute to mutual trust, the strengthening of democracy, tolerance, a willingness to cooperate and solidarity between young people, and they are therefore crucial for the cohesion and further development of the Union.
- (10) The participation of young people in voluntary service activities is a type of informal education leading to the acquisition of additional knowledge, whose quality should be largely based on appropriate preparatory measures, including those of a linguistic and cultural nature. It helps to determine the future direction of their lives, to broaden their horizons and to develop their social skills, active citizenship and balanced integration into society from the economic, social and cultural points of view, including preparation for working life, and promotes awareness of true European citizenship.
- (11) In its resolution of 14 May 1998 on the information and communication policy in the European Union⁽¹⁾, the European Parliament stated that, with regard to support and action programmes, the selection of projects should be more transparent and the reasons for the choice should be clearer to those who submit the projects.
- (12) The Commission and Member States should seek to guarantee complementarity between European voluntary service activities and the various similar national schemes.
- (13) The European Parliament and the Council, in their Decision No 253/2000/EC on education, and the Council, in Decision 1999/382/EC of 26 April 1999 on training, have established Community action programmes for the education and training fields respectively, which contribute together with the youth programme to a Europe of knowledge.
- (14) The policy of cooperation in the youth field contributes to the promotion of informal education, and therefore to lifelong learning, and this policy needs to be further developed.
- (15) The integration of young people into the world of work is an essential part of their integration into society, and this also calls for all their skills and competences acquired as part of their experience of informal education to be recognised and for a high premium to be put on their importance.
- (16) It is necessary, in order to reinforce the added value of Community action that the Commission, in cooperation with the Member

▼B

States, should ensure coherence and a complementarity at all levels between the actions implemented within the framework of this Decision and other relevant policies, instruments and actions.

- (17) It is important that the Youth programme committee should consult, on the basis of arrangements to be defined, with the committees responsible for the implementation of the Community vocational training and educational programmes (Leonardo da Vinci and Socrates). It is important that the Youth programme committee be kept regularly informed about Community initiatives taken in the fields of education, vocational training and youth.
- (18) The European Councils of Essen (9 and 10 December 1994) and Cannes (26 and 27 June 1995) stressed the need for further action to enhance the social and vocational integration of young people in Europe. The conclusions of the European Council of Florence (21 and 22 June 1996) emphasised the importance of making it easier for young people to enter the labour force. The European Council meeting in Amsterdam (15 to 17 June 1997) expressed its support for non-profit-making activities. The European Parliament and Council adopted Decision No 1686/98/EC on 20 July 1998 establishing the Community action programme 'European voluntary service for young people' ⁽¹⁾.
- (19) European voluntary service activities are not a substitute for military service, for the alternative service formulas provided in particular for conscientious objectors or for the compulsory civilian service existing in several Member States, and should not restrict or be a substitute for potential or existing paid employment.
- (20) The grant of residence permits and any visas required falls within the competence of the authorities in the Member States, and the concept of legal resident is defined by national law.
- (21) The European Parliament adopted a resolution on 2 July 1998 on promoting the role of voluntary organisations and foundations in Europe ⁽²⁾. The voluntary sector should also play an important role in enabling all young people, particularly those with the greatest difficulties, to participate in these programmes.
- (22) The Commission and the Member States are to ensure that they foster cooperation with non-governmental organisations active in the youth and social fields, as well as in the areas of the environment, culture, sport and combating the various forms of exclusion.
- (23) The Agreement on the European Economic Area (EEA Agreement) provides for greater cooperation in the field of education, training and youth between the European Community and its Member States, on the one hand, and the States of the European Free Trade Association (EFTA) participating in the European Economic Area, on the other. The EEA Agreement lays down procedures for the participation of the EFTA States participating in the EEA in Community programmes in the field of education, training and youth.
- (24) Provision should be made to open up this programme to participation of the associated central and east European countries (CEEC) in accordance with the conditions established in the Europe Agreements, in their additional protocols and in the decisions of the respective Association Councils, of Cyprus, funded by additional appropriations in accordance with the procedures to be agreed with that country, as well as of Malta and Turkey, funded by additional appropriations, in accordance with the provisions of the Treaty.

⁽²⁾ OJ C 226, 20.7.1998, p. 66.

▼B

- (25) This programme should be monitored and continually evaluated in cooperation between the Commission and the Member States in order to allow for readjustments, particularly in the priorities for implementing the measures.
- (26) In accordance with the principles of subsidiarity and proportionality as defined in Article 5 of the Treaty, since the objectives of the proposed action concerning the development and strengthening of a cooperation policy in the youth field, including European voluntary service and youth exchanges both within the Community and with third countries, cannot be sufficiently achieved by the Member States because of the complexity and diversity of the youth field, they can therefore be better achieved by the Community owing to the transnational dimension of Community actions and measures. This Decision does not go beyond what is necessary to achieve those objectives.
- (27) This Decision lays down, for the entire duration of the programme, a financial framework constituting the prime reference for the budgetary authority during the annual budgetary procedure, within the meaning of point 33 of the Interinstitutional Agreement of 6 May 1999 between the European Parliament, the Council and the Commission, on budgetary discipline and improvement of the budgetary procedure ⁽¹⁾.
- (28) The measures necessary for the implementation of this Decision should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽²⁾,

HAVE DECIDED AS FOLLOWS:

ANNEX

Funding approved under the programme is to observe the principles of co-financing and additionality. In accordance with Article 4(3) of the Decision, efforts must be made to facilitate access to the programme for young people who face difficulties of a cultural, social, physical, mental, economic or geographical nature, as well as for small local groups. The committee referred to in Article 8 of the Decision is to lay down the specific form these efforts should take. Community funding is to be distributed in such a way as to take account of the need to ensure balance between the mobility actions undertaken and an equal opportunity of participation for the young people of every Member State; that is to say, Article 4(3) is to be taken into account.

Initiatives designed to encourage tolerance and the acceptance of differences, as well as measures combating all forms of exclusion, should be given specific encouragement and stimulation. The Community will be receptive to activities giving a prominent position to culture and sport in the context of informal education for young people.

In order to achieve the objectives of the programme, five categories of action are to be implemented on the basis of the measures described in Article 3 of the Decision:

- Youth for Europe
- European voluntary service
- Youth initiatives
- Joint actions
- Support measures.

ACTION 1 — YOUTH FOR EUROPE

Action 1.1: Intra-Community exchanges for young people

The Community will support mobility activities for young people provided that the activities in question last at least one week, are carried out on the basis of joint projects within the Community and involve groups of young people aged in principle between 15 and 25 years and legally resident in a Member State. The age limits may be slightly adjusted where justified by the specific circumstances of certain projects.

Those activities, based on transnational partnerships between groups of young people, are to involve their active participation and be designed to make it possible for them to discover and become aware of different social and cultural realities and to encourage them to participate in, or initiate, other activities at European level. Particular attention is to be paid to participation by young people for whom it is their first European activity and to small-scale or local groups without experience at European level.

In order to move towards a better balance between bilateral and multilateral activities, Community support will be progressively focused on multilateral group-mobility activities. Bilateral group mobility will receive funding if this is justified in terms of the target groups or a specific pedagogical approach.

Activities designed to strengthen the active involvement of young people in group mobility projects may receive funding under this action, particularly in the form of activities to provide the young people in question with linguistic and intercultural preparation.

Action 1.2: Exchanges of young people with third countries

The Community will support mobility activities for young people provided that the activities in question last at least one week, are carried out on the basis of joint projects and involve groups of young people aged in principle between 15 and 25 years and legally resident in a Member State or in a third country. These mobility activities are to involve at least two Member States.

Those activities, based on transnational partnerships between groups of young people are to involve their active participation and be designed to make it possible for them to discover and become aware of different social and cultural realities and to encourage them to participate in, or initiate, other activities at European level. Moreover, these projects are to make it possible for partners in the third countries to gain experience of this kind of activity in the field of informal education and to contribute to the development of youth work and associations in those countries.

Activities designed to strengthen the active involvement of young people in group mobility projects may receive funding, particularly in the form of activities

▼B

to provide the young people in question with linguistic and intercultural preparation before their departure.

ACTION 2 — EUROPEAN VOLUNTARY SERVICE

For the purposes of this programme, 'young volunteer' is taken to be a person aged in principle between 18 and 25 years and legally resident in a Member State.

Young volunteers will undertake, as active citizens, to carry out an activity which gives tangible form to solidarity, with the view to acquiring social and personal abilities and skills thus laying the foundations for their future development, while at the same time contributing to society. To this end, young volunteers will participate, in a Member State other than the one in which they reside, or in a third country, in a non-profit-making and unpaid activity of importance to the community and of a limited duration (12 months maximum) in the context of a project recognised by the Member State and the Community, in compliance with the aims of this programme set out in Article 2. In particular it should not result in job substitution. Full board and lodging as well as mentoring will be provided. The voluntary service project will ensure that young volunteers are covered by health and appropriate insurance. Young volunteers will receive an allowance/pocket money.

European voluntary service is based on a partnership and shared responsibilities between the young volunteers, the sending organisation and the host organisation.

In accordance with the provisions relating to the programme committee referred to in Article 8, a document, issued by the Commission, will attest to the participation of the young volunteers in European voluntary service and to the experience and skills that they have acquired during the relevant period.

Action 2.1: Intra-Community European voluntary service

The Community will support transnational projects (for a limited period ranging in principle from three weeks to one year) which involve young people, actively and personally, in activities designed to help meet the needs of society in a wide range of fields (social, sociocultural, environmental, cultural, etc.) which constitute at the same time an experience of informal education with a view to acquiring social and cultural skills. These projects are designed to bring young people into contact with other cultures and other languages and to experience new ideas and projects in a multicultural civil society.

The Community may support schemes, particularly those with a linguistic or intercultural element, which aim at preparing young volunteers for their departure and easing their social integration during those activities as well as when they have completed their period of European voluntary service. Particular attention is to be paid to pedagogical support and mentoring.

Action 2.2: European voluntary service with third countries

The Community will support transnational projects with third countries (for a limited period ranging in principle from three weeks to one year) which involve young people, actively and personally, in activities designed to help meet the needs of society in a wide range of fields (social, sociocultural, environmental, cultural, etc.) which constitute at the same time an experience of informal education with a view to acquiring social and cultural skills. These projects are designed to bring young people into contact with other cultures and other languages and to experience new ideas and projects in a multicultural civil society.

Support may be given to action laying or consolidating the necessary foundations for developing transnational European voluntary service projects with third countries.

The Community may support schemes, particularly those with a linguistic or intercultural element, which aim at preparing young volunteers for their departure and easing their social integration during those activities as well as when they have completed their period of European voluntary service. Particular attention is to be paid to pedagogical support and mentoring.

ACTION 3 — YOUTH INITIATIVES

In order to encourage initiative and creativity among young people, the Community will support projects in which young people actively and directly participate in innovative and creative schemes and in schemes which focus on the social commitment of young people at local, regional, national or European level. These projects will allow young people to develop their initiative and to put into practice activities of their own devising in which they play the key roles.

▼B

The Community will support initiatives designed to help young volunteers to make the best possible use of the experience they have gained during their period of voluntary service and to encourage their active integration into society. Those initiatives taken by young people after completing their European voluntary service will allow them to launch and promote activities of a social, cultural, sociocultural and economic nature and/or aim at their personal development. Priority access will be given to those young people most in need.

Support will aim at encouraging extension of these projects to include similar initiatives conducted in other Member States in order to strengthen their transnational nature and greatly expand exchanges of experience and cooperation between young people. This aid may include organising meetings of young promoters of Europe-wide initiatives. Financial aid may be granted towards the effective establishment of stable, transnational partnerships between such projects.

ACTION 4 — JOINT ACTIONS

Having regard to the need for a flexible and creative approach as a precondition for cooperation between sectors, Community aid may be granted for the actions referred to in Article 6 of the Decision and for activities to be undertaken jointly with other Community schemes relating to the Europe of knowledge, in particular Community programmes in the field of education and vocational training.

The Commission, in cooperation with the Member States, will aim at developing a common system of information, observation and dissemination concerning good practice in the field of knowledge and lifelong learning, alongside joint actions with regard to multimedia for educational and training purposes. Those projects will cover a range of schemes from a number of different sectors including youth. They may be funded in a complementary manner by a number of different Community programmes, and may be implemented by means of calls for joint projects.

Appropriate measures may be adopted to promote, at regional and local level, contact and interaction between those participating in this programme and in programmes dealing with vocational training and education. In this context, activities increasing awareness of the opportunities provided by the Community to young people may be supported.

ACTION 5 — SUPPORT MEASURES

Action 5.1: Training and cooperation in relation to those involved in youth policy

Funding shall be granted to:

1. Activities designed to give further training to persons involved in youth work, particularly European voluntary service instructors, youth workers/leaders, those running European projects and youth initiative counsellors, who take part in schemes directly involving young people, of the kind described in actions 1, 2 and 3 of the programme, the aim being to ensure that such schemes are of an appropriately high quality. Particular attention is to be paid to activities seeking to encourage the participation of those young people who find it most difficult to participate in Community actions.
2. Activities designed to develop European modules fulfilling the requirements for transnational cooperation.
3. Activities, such as study visits, feasibility studies, seminars, work-experience, which focus particularly on exchanges of experience and good practice in relation to joint actions or issues of common interest or which are designed to facilitate and promote the establishment of sustainable transnational partnerships and/or multilateral networks between those active in the field of youth work.

experience of, or scope for, contacts at European level, as well as to activities in which young people play the key roles.

Action 5.2: Information for young people and youth studies

1. In line with the objectives of the programme and in particular to improve access for all young people and to enhance their initiative and active participation in society, the Commission will encourage those active in the field of youth work to become involved in informing young people at European level, as well as boosting cooperation between the information and communication systems for young people established in the Member States and at Community level. In this context, particular stress is to be laid on broadening cooperation to include the fields of education and training, as well as on the dialogue both between and with young people.
2. Accordingly, funding is to be provided for initiatives involving:
 - the acquisition of the necessary experience and skills to carry out youth information projects based on transnational cooperation and projects which provide information and, in particular, advisory services for young people,
 - cooperative projects focusing on information dissemination, enhancing the awareness among young people of the field covered by the programme and giving young people access to all necessary information to achieve the objectives of the programme,
 - the implementation, as part of transnational cooperation projects, of mechanisms permitting dialogue both between and with young people, particularly through the use of youth-oriented media and new technologies.
3. With regard to the youth studies associated with the programme objectives, the Commission will support studies focusing, among other subjects, on the impact of measures taken on behalf of young people and, in particular, measures that seek to promote cooperation in this field. Such studies shall analyse the impact of other policies on the world of youth and shall seek to provide a clearer and more comprehensive picture of young people's needs and of the circumstances in which they live.

Priority shall be given to studies concerning the paths taken by less-favoured and marginalised young people; they shall analyse, in particular, the factors which have promoted or hampered the social integration of young people, and shall bring to the fore input from the informal education sector and from the third sector in general. Priority shall also be given to comparative studies of measures designed to promote the spirit of initiative, including their impact on local development, particularly through the creation of activities (creation of jobs, creation of cultural or social enterprises, etc.). This research may take the form of case studies, the most relevant of which shall be made public.

Action 5.3: Information and visibility of measures

The Commission shall take all necessary measures to, *inter alia*, collect information on measures in the youth field from a range of sources, draw benefits from EU youth projects and increase the visibility of the actions aimed at young people at Community level by developing appropriate means of dialogue with them, including through the Internet.

Action 5.4: Support measures1. *National agencies*

Community assistance may be provided to support the activities of the structures set up by Member States, in accordance with Article 5 of the Decision.

2. *Technical assistance and operational support*

In carrying out the programme, the Commission may have recourse to technical-assistance organisations the financing of which may be provided for within the overall financial framework for the programme. It may have recourse to experts under the same conditions. Furthermore, the Commission will be able to undertake evaluation studies and organise such seminars, colloquia or other meetings of experts as are likely to facilitate the implementation of the programme, including application of Article 12 of the Decision. The Commission may also undertake information, publication and dissemination actions.
