Whereas:

- (1) It is necessary to determine the detailed rules for the payment of contributions by the Member States to the 10th European Development Fund (the EDF), set up by the Internal Agreement, and for the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the EC Treaty applies (OCTs).
- (2) Rules should be laid down for the treatment of the balances remaining from the previous EDFs, in particular as regards the detailed arrangements for their transfer to the 10th EDF and the rules applicable for their implementation, or the consequences of their decommitment in relation with Member States contributions.
- (3) It is necessary to lay down the conditions in accordance with which the Court of Auditors must exercise its powers in respect of the EDF.
- (4) It is necessary to lay down the conditions in accordance with which the European Investment Bank (EIB) manages EDF resources.
- (5) The provisions concerning scrutiny by the Court of Auditors of the EDF resources managed by the EIB should comply with the Tripartite Agreement concluded between the Court of Auditors, the EIB and the Commission provided for in Article 248(4) of the Treaty.
- (6) It is appropriate to ensure the proper, prompt and efficient execution of programmes and projects financed under the ACP-EC Agreement and to establish management procedures which are transparent and easy to apply, and which facilitate the decentralisation of tasks and responsibilities.
- (7) The parties to the ACP-EC Agreement have reaffirmed their commitment to the social and ethic clauses as defined by the relevant International Labour Organisation (ILO) Conventions,
- (8) It is necessary to establish the detailed rules in accordance with which the authorising officer by delegation establishes the necessary arrangements to ensure the proper execution of operations, in close cooperation with the National Authorising Officer.
- (9) As far as possible, Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽¹⁾ should, as the cornerstone of the reform of the Commission's internal management, be taken into account in this Regulation, for reasons of efficiency and simplification. If appropriate Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽²⁾ should be applied *mutatis mutandis* in certain cases.

⁽²⁾ OJ L 357, 31.12.2002, p. 1. Regulation as last amended by Regulation (EC, Euratom) No 478/2007 (OJ L 111, 28.4.2007, p. 13).

- (10) All changes in comparison with the Financial Regulation of 27 March 2003 applicable to the Ninth European Development Fund ⁽¹⁾ should contribute to achieving the objectives of the Commission's reforms, should improve or ensure sound financial management, and should enhance the protection of the financial interests of the Community against fraud and other illegal activities, and thus enhance legality and regularity of financial operations.
- (11) Some changes in comparison with the Financial Regulation for the Ninth EDF are necessary in the light of practical experience in order to facilitate EDF implementation and the realisation of the underlying policy objectives and to adjust some procedural and documentary requirements. Transparency, in particular, has to be reinforced by providing for information on beneficiaries of Community funds.
- (12) The principle of sound financial management should imply effective and efficient internal control for the implementation of EDF resources.
- (13) As regards EDF resources, it should be made possible for Member States to make voluntary financial contributions to help achieve the objectives of the ACP-EC Partnership Agreement outside co-financing arrangements, as provided for in Regulation (EC) No 617/2007.
- (14) The principle of specification should apply to the EDF.
- (15) As regards the methods of implementation of the EDF resources, the provisions on centralised, decentralised and joint management as laid down in the Financial Regulation for the Ninth EDF should be restructured for the purpose of clarity and some requirements should be made clearer. In particular, the requirements for joint management, the conditions for the delegation of tasks and the criteria for using national public-sector bodies should be simplified in order to facilitate their use and to respond to growing operational needs.
- (16) The prohibition on delegating implementation tasks to private bodies should be adjusted in respect to centralised management because the terms of that prohibition have turned out to be unnecessarily strict. It should be possible for the Commission to engage the services of a travel agency or a conference organiser to take charge of reimbursing the costs of participants at conferences, provided that care is taken to ensure that no discretionary powers are exercised by the private company.
- (17) As regards the accounting officer, his responsibility for certifying the accounts on the basis of the financial information supplied to him by the authorising officers has to be made clearer. To this end, the accounting officer should be empowered to check the information received by the authorising officer by delegation and to enter reservations, if necessary.
- (18) The conditions and limitations regarding financial liability of all financial actors and any other person involved in EDF implementation should be clarified.

⁽¹⁾ OJ L 83, 1.4.2003, p. 1.

▼B

- (19) The rules on recovery of amounts receivable should be clarified and strengthened in order to better safeguard the financial interests of the Communities. In particular, the conditions in which interest on late payments is due to the EDF should be specified.
- (20) Provision should be made for periods of limitation on the validity of claims. The Community, unlike many of its Member States, is not subject to a period of limitation under which financial claims are extinguished after a certain period of time. Nor is the Community restricted by a period of limitation in the pursuit of its claims against third persons. The introduction of such periods of limitation should correspond to the principle of sound financial management.
- (21) In line with the general Financial Regulation and Directive 2004/18/EC of the European Parliament and the Council of 31 March 2004 on the coordination of procedures for the award of public works contracts, public supply contracts and public service contracts⁽¹⁾, the rules on exclusion from a procurement procedure need to be clarified. A clear distinction should be made between mandatory exclusion and exclusion on the basis of an administrative penalty. In addition, for reasons of legal certainty and proportionality, a maximum period of exclusion should be laid down. An exception to the rules on exclusion may be provided for as regards the purchase of supplies on particularly advantageous terms from either a supplier which is definitively winding up its business activities, or the receivers or liquidators of a bankruptcy, an arrangement with creditors, or a similar procedure under national law.
- (22) It is appropriate to allow the use of the central database concerning candidates or tenderers in situations of exclusion set up under Regulation (EC, Euratom) No 1605/2002 in the context of the EDF.
- (23) As regards grants, some clarifications need to be made in Article 103, in particular as regards their scope. To improve the management of grants and to simplify procedures, it should be possible to award grants either by decisions of the institution or by written agreements with beneficiaries, and to authorise the use of lump sum and flat-rate payments alongside the more traditional method of reimbursing costs actually incurred. Finally, requirements for checks and guarantees should be more proportionate to the financial risks involved.
- (24) The rule that grants should be awarded on the basis of calls for proposals has proved its worth. Experience has shown, however, that in certain situations the nature of the action leaves no choice in the selection of beneficiaries. It should therefore be expressly recognised that such exceptional cases arise.
- (25) Where grants are given for running costs, the rule that the necessary agreement may not be signed more than four months after the start of the beneficiary's financial year has proven unnecessarily rigid. That deadline should therefore be fixed at six months.

⁽¹⁾ OJ L 134, 30.4.2004, p. 114. Directive as last amended by Commission Regulation (EC) No 1422/2007 (OJ L 317, 5.12.2007, p. 34).

▼B

- (26) As grants should continue to be awarded on the basis of selection and award criteria, there is no need to have those criteria evaluated in all cases by a committee. Other more flexible means should be allowed for the evaluation of the selection criteria.
- (27) For the sake of clarity, the rule concerning the procurement requirements to be applied by beneficiaries of grants should be simplified. Moreover, it should be expressly provided for the case in which the implementation of an action necessitates financial support to third parties,

Article 19 of Regulation (EU, Euratom) No 966/2012 on the use of the euro shall apply *mutatis mutandis*.

*Article 8***Principle of universality**

Without prejudice to Article 9 of this Regulation, total revenue shall cover total estimated payments.

All revenue and expenditure shall be entered in full without any adjustment against each other, and without prejudice to Article 23 of Regulation (EU, Euratom) No 966/2012 concerning rules on deductions and exchange rate adjustments, which shall apply.

However, the revenue referred to in point (c) of Article 9(2) of this Regulation shall automatically decrease payments made against the commitment from which it was generated.

The Union may not raise loans within the framework of the EDF.

*Article 9***Assigned revenue**

1. Assigned revenue shall be used to finance specific items of expenditure.
2. The following shall constitute assigned revenue:

4. Article 184(3) of Regulation (EU, Euratom) No 966/2012 shall apply *mutatis mutandis*.

5. Article 22(1) and (2) of Regulation (EU, Euratom) No 966/2012 concerning donations shall apply to the assigned revenue referred to in point (b) of paragraph 2 of this Article. With regard to Article 22(2) of Regulation (EU, Euratom) No 966/2012, acceptance of a donation shall be subject to the authorisation of the Council.

6. The EDF resources corresponding to assigned revenue shall be made available automatically when that revenue has been received by the Commission. However, an estimate of amounts receivable shall have the effect of making EDF resources available in the case of the assigned revenue referred to in point (a) of paragraph 2 where the agreement with the Member State is expressed in euro; payments may be carried out against that revenue only when it has been received.

Article 10

Principle of specification

EDF resources shall be earmarked for specific purposes per the ACP States or OCTs and in accordance with the main instruments of cooperation.

In respect of the ACP States, those instruments are laid down by the Financial Protocol annexed to the ACP-EU Partnership Agreement. Earmarking of resources (indicative allocations) shall also be based on the provisions of the 10th EDF Internal Agreement and of the Implementation Regulation and shall take account of the resources reserved for support expenditure linked to programming and implementation under Article 6 of the 10th EDF Internal Agreement.

In respect of the OCTs, those instruments are laid down in Part Four of the Overseas Association Decision and Annex II thereto. Earmarking of those resources shall also take into account the non-allocated reserve provided for in Article 3(3) of that Annex and the resources for studies or technical assistance measures under point (c) of Article 1(1) thereof.

▼ **M2***Article 11***Principle of sound financial management**

1. Article 30(1) and (2) of Regulation (EU, Euratom) No 966/2012 concerning the principles of economy, efficiency and effectiveness shall apply. Without prejudice to point (a) of paragraph 3 of this Article, Article 18 of Delegated Regulation (EU) No 1268/2012 shall not apply.
2. Specific, measurable, achievable, relevant and timed objectives shall be set. The achievement of those objectives shall be monitored by performance indicators.
3. In order to improve decision-making, in particular to justify and specify the determination of the contributions to be paid by Member States referred to in Article 21 of this Regulation, the following evaluations are required:
 - (a) the use of EDF resources shall be preceded by an *ex ante* evaluation of the operation to be undertaken, covering the elements listed in Article 18(1) of Delegated Regulation (EU) No 1268/2012;
 - (b) the operation shall be submitted to an *ex post* evaluation with a view to ensuring that the intended results justified the means deployed.
4. The types of financing provided for in Title VIII of this Regulation, and the methods of implementation provided for in Article 17 of this Regulation, shall be chosen on the basis of their ability to achieve the specific objectives of the actions and their ability to deliver results, taking into account, in particular, the costs of controls, the administrative burden, and the expected risk of non-compliance. For grants, this shall include a consideration of the use of lump sums, flat rates and unit costs.

*Article 12***Internal control**

Article 32 of Regulation (EU, Euratom) No 966/2012 shall apply.

*Article 13***Principle of transparency**

1. The EDF shall be implemented and the accounts presented in accordance with the principle of transparency.
2. The annual statement of the commitments, payments and the annual amount of calls for contributions under Article 7 of the 10th EDF Internal Agreement shall be published in the *Official Journal of the European Union*.
3. Without prejudice to Article 4 of this Regulation, the first subparagraph of Article 35(2) and Article 35(3) of Regulation (EU, Euratom) No 966/2012, concerning the publication of information on recipients and other information, shall apply. For the purpose of the second subparagraph of Article 21(2) of Delegated Regulation (EU) No 1268/2012, the term 'locality' shall mean, where necessary, the equivalent to the region at NUTS 2 level when the recipient is a natural person.

▼ M2

4. Actions financed under the EDF may be implemented with parallel or joint co-financing.

In the case of parallel co-financing, an action is to be split into a number of clearly identifiable components which are each financed by the different partners providing co-financing in such a way that the end-use of the financing can always be identified.

In the case of joint co-financing, the total cost of an action is to be shared between the partners providing the co-financing and the resources are to be pooled in such a way that it is no longer possible to identify the source of financing for any given activity undertaken as part of the action. In such cases, *ex-post* publication of grant and procurement contracts as required by the first subparagraph of Article 35(2) and Article 35(3) of Regulation (EU, Euratom) No 966/2012 shall comply with the rules of the entrusted entity, if any.

5. When providing financial assistance, the Commission shall, where appropriate, take all necessary measures in order to ensure the visibility of the Union's financial support. This shall include measures imposing visibility requirements on recipients of Union funds, except in duly justified cases. The Commission shall be responsible for monitoring recipients' compliance with those requirements.

*TITLE III****EDF Resources and Implementation****Article 14***Sources of EDF resources**

The EDF resources shall consist of the ceiling referred to in Article 1 of Decision 2013/759/EU and of other assigned revenue referred to in Article 9 of this Regulation.

The EDF resources managed by the EIB shall also consist of those resources of the Investment Facility managed as a revolving fund.

*Article 15***Structure of the EDF**

The EDF revenue and expenditure shall be classified according to their type or the use to which they are assigned.

*Article 16***EDF implementation in accordance with the principle of sound financial management**

1. The Commission shall assume the responsibilities of the Union as defined in Article 57 of the ACP-EU Partnership Agreement and in the Overseas Association Decision. To that end, it shall implement the revenue and expenditure of the EDF in accordance with the provisions of this Part and Part Three of this Regulation, under its own responsibility and within the limits of the EDF resources.

▼ **M2**

2. The Member States shall cooperate with the Commission so that the EDF resources are used in accordance with the principle of sound financial management.

*Article 17***Methods of implementation**

1. Articles 56 and 57 of Regulation (EU, Euratom) No 966/2012 shall apply.

2. Subject to the provisions of paragraphs 3 to 5 of this Article, the rules on methods of implementation provided for in Chapter 2 of Title IV of Part One of Regulation (EU, Euratom) No 966/2012, and Articles 188 and 193 of that Regulation, shall apply. However, point (b) of Article 58(1) and Article 59 of that Regulation, concerning shared management with Member States, shall not be applicable.

3. The entrusted entities shall ensure consistency with the Union's external policy and may entrust budget implementation tasks to other entities under conditions equivalent to those applying to the Commission. They shall fulfil their obligations under Article 60(5) of Regulation (EU, Euratom) No 966/2012 annually. The audit opinion shall be submitted within one month of the report and management declaration, to be taken into account in the assurance of the Commission.

International organisations as referred to in point (c)(ii) of Article 58(1) of Regulation (EU, Euratom) No 966/2012 and bodies of the Member States as referred to in points (c)(v) and (vi) of Article 58(1) of that Regulation which have been entrusted by the Commission may also entrust budget implementation tasks to non-profit organisations possessing the appropriate operational and financial capacity, under conditions equivalent to those applying to the Commission.

ACP States and OCTs may also entrust budget implementation tasks to their departments and to bodies governed by private law on the basis of a service contract. Those bodies shall be selected on the basis of open, transparent, proportionate and non-discriminatory procedures, avoiding conflict of interests. The financing agreement shall stipulate the terms of the service contract.

4. Where the EDF is implemented in indirect management with ACP States or OCTs, without prejudice to the responsibilities of the ACP States or the OCTs acting in their capacity of contracting authorities, the Commission:

- (a) shall, where necessary, recover amounts due from recipients according to Article 80 of Regulation (EU, Euratom) No 966/2012, including by means of a decision which shall be enforceable under the same conditions as those laid down in Article 299 of the Treaty;
- (b) may, where the circumstances so require, impose administrative and/or financial penalties under the same conditions as those laid down in Article 109 of Regulation (EU, Euratom) No 966/2012.

The financing agreement shall contain provisions on the cooperation between the Commission and the ACP State or OCTs to this end.

▼ **M2**

5. The Union's financial assistance may be provided through contributions to international, regional or national funds, such as those established or managed by the EIB, Member States, or by partner countries and regions or by international organisations, for attracting joint financing from a number of donors, or to funds set up by one or more donors for the purpose of the joint implementation of projects.

Reciprocal access by Union financial institutions to financial instruments set up by other organisations shall be promoted, as appropriate.

*TITLE IV***Financial Actors***Article 18***General provisions on financial actors and their liability**

1. The Commission shall provide each financial actor with the resources required to perform his or her duties and a charter describing in detail his or her tasks, rights, and obligations.
2. Article 64 of Regulation (EU, Euratom) No 966/2012 on the segregation of duties shall apply.
3. Chapter IV of Title IV of Part One of Regulation (EU, Euratom) No 966/2012 concerning the liability of the financial actors shall apply *mutatis mutandis*.

*Article 19***Authorising officer**

1. Articles 65, 66 and 67 of Regulation (EU, Euratom) No 966/2012 concerning, respectively, the authorising officer, his or her powers and duties, and those of Heads of Union Delegations, shall apply.

The annual activity report referred to in Article 66(9) of Regulation (EU, Euratom) No 966/2012 shall include, as an annex, tables showing by allocation, country, territory, region or sub-region, the total commitments, assigned funds and payments effected during the financial year and aggregate totals since the opening of the respective EDF.

2. Where the responsible authorising officer of the Commission becomes aware of problems in carrying out procedures relating to the management of EDF resources, he or she shall, in conjunction with the appointed national, regional, intra-ACP, or territorial authorising officer, make all contacts necessary to remedy the situation and take any steps that are necessary.
