12. When calculating the thresholds in paragraphs 1 to 7, Member States may require the inclusion of income from other sources for undertakings for which ‘net turnover’ is not relevant. Member States may require parent undertakings to calculate their thresholds on a consolidated basis rather than on an individual basis. Member States may also require affiliated undertakings to calculate their thresholds on a consolidated or aggregated basis where such undertakings have been established for the sole purpose of avoiding the reporting of certain information.

13. In order to adjust for the effects of inflation, the Commission shall at least every five years review and, where appropriate, amend, by means of delegated acts in accordance with Article 49, the thresholds referred to in paragraphs 1 to 7 of this Article, taking into account measures of inflation as published in the *Official Journal of the European Union*.

## CHAPTER 2

### GENERAL PROVISIONS AND PRINCIPLES

#### *Article 4*

#### **General provisions**

1. The annual financial statements shall constitute a composite whole and shall for all undertakings comprise, as a minimum, the balance sheet, the profit and loss account and the notes to the financial statements.

Member States may require undertakings other than small undertakings to include other statements in the annual financial statements in addition to the documents referred to in the first subparagraph.

2. The annual financial statements shall be drawn up clearly and in accordance with the provisions of this Directive.

**▼B**

3. The annual financial statements shall give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Where the application of this Directive would not be sufficient to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss, such additional information as is necessary to comply with that requirement shall be given in the notes to the financial statements.

4. Where in exceptional cases the application of a provision of this Directive is incompatible with the obligation laid down in paragraph 3, that provision shall be disapplied in order to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. The disapplication of any such provision shall be disclosed in the notes to the financial statements together with an explanation of the reasons for it and of its effect on the undertaking's assets, liabilities, financial position and profit or loss.

The Member States may define the exceptional cases in question and lay down the relevant special rules which are to apply in those cases.

5. Member States may require undertakings other than small undertakings to disclose information in their annual financial statements which is additional to that required pursuant to this Directive.

6. By way of derogation from paragraph 5, Member States may require small undertakings to prepare, disclose and publish information in the financial statements which goes beyond the requirements of this Directive, provided that any such information is gathered under a single filing system and the disclosure requirement is contained in the national tax legislation for the strict purposes of tax collection. The information required in accordance with this paragraph shall be included in the relevant part of the financial statements.

7. Member States shall communicate to the Commission any additional information they require in accordance with paragraph 6 upon the transposition of this Directive and when they introduce new requirements in accordance with paragraph 6 in national law.

8. Member States using electronic solutions for filing and publishing annual financial statements shall ensure that small undertakings are not required to publish, in accordance with Chapter 7, the additional disclosures required by national tax legislation, as referred to in paragraph 6.

#### *Article 5*

#### **General disclosure**

The document containing the financial statements shall state the name of the undertaking and the information prescribed by points (a) and (b) of Article 5 of Directive 2009/101/EC.

*Article 6*

**General financial reporting principles**

1. Items presented in the annual and consolidated financial statements shall be recognised and measured in accordance with the following general principles:

- (a) the undertaking shall be presumed to be carrying on its business as a going concern;
- (b) accounting policies and measurement bases shall be applied consistently from one financial year to the next;
- (c) recognition and measurement shall be on a prudent basis, and in particular:
  - (i) only profits made at the balance sheet date may be recognised,
  - (ii) all liabilities arising in the course of the financial year concerned or in the course of a previous financial year shall be recognised, even if such liabilities become apparent only between the balance sheet date and the date on which the balance sheet is drawn up, and
  - (iii) all negative value adjustments shall be recognised, whether the result of the financial year is a profit or a loss;
- (d) amounts recognised in the balance sheet and profit and loss account shall be computed on the accrual basis;
- (e) the opening balance sheet for each financial year shall correspond to the closing balance sheet for the preceding financial year;
- (f) the components of asset and liability items shall be valued separately;
- (g) any set-off between asset and liability items, or between income and expenditure items, shall be prohibited;
- (h) items in the profit and loss account and balance sheet shall be accounted for and presented having regard to the substance of the transaction or arrangement concerned;
- (i) items recognised in the financial statements shall be measured in accordance with the principle of purchase price or production cost; and
- (j) the requirements set out in this Directive regarding recognition, measurement, presentation, disclosure and consolidation need not be complied with when the effect of complying with them is immaterial.

2. Notwithstanding point (g) of paragraph 1, Member States may in specific cases permit or require undertakings to perform a set-off between asset and liability items, or between income and expenditure items, provided that the amounts which are set off are specified as gross amounts in the notes to the financial statements.

**▼B**

3. Member States may exempt undertakings from the requirements of point (h) of paragraph 1.

4. Member States may limit the scope of point (j) of paragraph 1 to presentation and disclosures.

5. In addition to those amounts recognised in accordance with point (c)(ii) of paragraph 1, Member States may permit or require the recognition of all foreseeable liabilities and potential losses arising in the course of the financial year concerned or in the course of a previous financial year, even if such liabilities or losses become apparent only between the balance sheet date and the date on which the balance sheet is drawn up.

*Article 7***Alternative measurement basis of fixed assets at revalued amounts**

1. By way of derogation from point (i) of Article 6(1), Member States may permit or require, in respect of all undertakings or any classes of undertaking, the measurement of fixed assets at revalued amounts. Where national law provides for the revaluation basis of measurement, it shall define its content and limits and the rules for its application.

2. Where paragraph 1 is applied, the amount of the difference between measurement on a purchase price or production cost basis and measurement on a revaluation basis shall be entered in the balance sheet in the revaluation reserve under 'Capital and reserves'.

The revaluation reserve may be capitalised in whole or in part at any time.

The revaluation reserve shall be reduced where the amounts transferred to that reserve are no longer necessary for the implementation of the revaluation basis of accounting. The Member States may lay down rules governing the application of the revaluation reserve, provided that transfers to the profit and loss account from the revaluation reserve may be made only where the amounts transferred have been entered as an expense in the profit and loss account or reflect increases in value which have actually been realised. No part of the revaluation reserve may be distributed, either directly or indirectly, unless it represents a gain actually realised.

Save as provided under the second and third subparagraphs of this paragraph, the revaluation reserve may not be reduced.

3. Value adjustments shall be calculated each year on the basis of the revalued amount. However, by way of derogation from Articles 9 and 13, Member States may permit or require that only the amount of the value adjustments arising as a result of the purchase price or production cost measurement basis be shown under the relevant items in the layouts set out in Annexes V and VI and that the difference arising as a result of the measurement on a revaluation basis under this Article be shown separately in the layouts.

## Article 8

### Alternative measurement basis of fair value

1. By way of derogation from point (i) of Article 6(1) and subject to the conditions set out in this Article:

- (a) Member States shall permit or require, in respect of all undertakings or any classes of undertaking, the measurement of financial instruments, including derivative financial instruments, at fair value; and
- (b) Member States may permit or require, in respect of all undertakings or any classes of undertaking, the measurement of specified categories of assets other than financial instruments at amounts determined by reference to fair value.

Such permission or requirement may be restricted to consolidated financial statements.

2. For the purpose of this Directive, commodity-based contracts that give either contracting party the right to settle in cash or some other financial instrument shall be considered to be derivative financial instruments, except where such contracts:

- (a) were entered into and continue to meet the undertaking's expected purchase, sale or usage requirements at the time they were entered into and subsequently;
- (b) were designated as commodity-based contracts at their inception; and
- (c) are expected to be settled by delivery of the commodity.

3. Point (a) of paragraph 1 shall apply only to the following liabilities:

- (a) liabilities held as part of a trading portfolio; and
- (b) derivative financial instruments.

4. Measurement according to point (a) of paragraph 1 shall not apply to the following:

- (a) non-derivative financial instruments held to maturity;
- (b) loans and receivables originated by the undertaking and not held for trading purposes; and
- (c) interests in subsidiaries, associated undertakings and joint ventures, equity instruments issued by the undertaking, contracts for contingent consideration in a business combination, and other financial instruments with such special characteristics that the instruments, according to what is generally accepted, are accounted for differently from other financial instruments.

**▼B**

5. By way of derogation from point (i) of Article 6(1), Member States may, in respect of any assets and liabilities which qualify as hedged items under a fair value hedge accounting system, or identified portions of such assets or liabilities, permit measurement at the specific amount required under that system.

6. By way of derogation from paragraphs 3 and 4, Member States may permit or require the recognition, measurement and disclosure of financial instruments in conformity with international accounting standards adopted in accordance with Regulation (EC) No 1606/2002.

7. The fair value within the meaning of this Article shall be determined by reference to one of the following values:

- (a) in the case of financial instruments for which a reliable market can readily be identified, the market value. Where the market value is not readily identifiable for an instrument but can be identified for its components or for a similar instrument, the market value may be derived from that of its components or of the similar instrument;
- (b) in the case of financial instruments for which a reliable market cannot be readily identified, a value resulting from generally accepted valuation models and techniques, provided that such valuation models and techniques ensure a reasonable approximation of the market value.

Financial instruments that cannot be measured reliably by any of the methods described in points (a) and (b) of the first subparagraph shall be measured in accordance with the principle of purchase price or production cost in so far as measurement on that basis is possible.

8. Notwithstanding point (c) of Article 6(1), where a financial instrument is measured at fair value, a change in value shall be included in the profit and loss account, except in the following cases, where such a change shall be included directly in a fair value reserve:

- (a) the instrument accounted for is a hedging instrument under a system of hedge accounting that allows some or all of the change in value not to be shown in the profit and loss account; or
- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of an undertaking's net investment in a foreign entity.

Member States may permit or require a change in the value of an available for sale financial asset, other than a derivative financial instrument, to be included directly in a fair value reserve. That fair value reserve shall be adjusted when amounts shown therein are no longer necessary for the implementation of points (a) and (b) of the first subparagraph.

**▼B**

9. Notwithstanding point (c) of Article 6(1), Member States may permit or require, in respect of all undertakings or any classes of undertaking, that, where assets other than financial instruments are measured at fair value, a change in the value be included in the profit and loss account.

## CHAPTER 3

**BALANCE SHEET AND PROFIT AND LOSS ACCOUNT***Article 9***General provisions concerning the balance sheet and the profit and loss account**

1. The layout of the balance sheet and of the profit and loss account shall not be changed from one financial year to the next. Departures from that principle shall, however, be permitted in exceptional cases in order to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Any such departure and the reasons therefor shall be disclosed in the notes to the financial statements.

2. In the balance sheet and in the profit and loss account the items set out in Annexes III to VI shall be shown separately in the order indicated. Member States shall permit a more detailed subdivision of those items, subject to adherence to the prescribed layouts. Member States shall permit the addition of subtotals and of new items, provided that the contents of such new items are not covered by any of the items in the prescribed layouts. Member States may require such subdivision or subtotals or new items.

3. The layout, nomenclature and terminology of items in the balance sheet and profit and loss account that are preceded by arabic numerals shall be adapted where the special nature of an undertaking so requires. Member States may require such adaptations for undertakings which form part of a particular economic sector.

Member States may permit or require balance sheet and profit and loss account items that are preceded by arabic numerals to be combined where they are immaterial in amount for the purposes of giving a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss or where such combination makes for greater clarity, provided that the items so combined are dealt with separately in the notes to the financial statements.

4. By way of derogation from paragraphs 2 and 3 of this Article, Member States may limit the undertaking's ability to depart from the layouts set out in Annexes III to VI to the extent that this is necessary in order for the financial statements to be filed electronically.

5. In respect of each balance sheet and profit and loss account item, the figure for the financial year to which the balance sheet and the profit and loss account relate and the figure relating to the corresponding item for the preceding financial year shall be shown. Where those figures are not comparable, Member States may require the figure for the preceding financial year to be adjusted. Any case of non-comparability or any adjustment of the figures shall be disclosed, with explanations, in the notes to the financial statements.

**▼B**

6. Member States may permit or require adaptation of the layout of the balance sheet and profit and loss account in order to include the appropriation of profit or the treatment of loss.

7. In respect of the treatment of participating interests in annual financial statements:

- (a) Member States may permit or require participating interests to be accounted for using the equity method as provided for in Article 27, taking account of the essential adjustments resulting from the particular characteristics of annual financial statements as compared to consolidated financial statements;
- (b) Member States may permit or require that the proportion of the profit or loss attributable to the participating interest be recognised in the profit and loss account only to the extent of the amount corresponding to dividends already received or the payment of which can be claimed; and
- (c) where the profit attributable to the participating interest and recognised in the profit and loss account exceeds the amount of dividends already received or the payment of which can be claimed, the amount of the difference shall be placed in a reserve which cannot be distributed to shareholders.

*Article 10***Presentation of the balance sheet**

For the presentation of the balance sheet, Member States shall prescribe one or both of the layouts set out in Annexes III and IV. If a Member State prescribes both layouts, it shall permit undertakings to choose which of the prescribed layouts to adopt.

*Article 11***Alternative presentation of the balance sheet**

Member States may permit or require undertakings, or certain classes of undertaking, to present items on the basis of a distinction between current and non-current items in a different layout from that set out in Annexes III and IV, provided that the information given is at least equivalent to that otherwise to be provided in accordance with Annexes III and IV.

*Article 12***Special provisions relating to certain balance sheet items**

1. Where an asset or liability relates to more than one layout item, its relationship to other items shall be disclosed either under the item where it appears or in the notes to the financial statements.

**▼B**

2. Own shares and shares in affiliated undertakings shall be shown only under the items prescribed for that purpose.

3. Whether particular assets are to be shown as fixed assets or current assets shall depend upon the purpose for which they are intended.

4. Rights to immovables and other similar rights as defined by national law shall be shown under 'Land and buildings'.

5. The purchase price or production cost or revalued amount, where Article 7(1) applies, of fixed assets with limited useful economic lives shall be reduced by value adjustments calculated to write off the value of such assets systematically over their useful economic lives.

6. Value adjustments to fixed assets shall be subject to the following:

(a) Member States may permit or require value adjustments to be made in respect of financial fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date;

(b) value adjustments shall be made in respect of fixed assets, whether their useful economic lives are limited or not, so that they are valued at the lower figure to be attributed to them at the balance sheet date if it is expected that the reduction in their value will be permanent;

(c) the value adjustments referred to in points (a) and (b) shall be charged to the profit and loss account and disclosed separately in the notes to the financial statements if they have not been shown separately in the profit and loss account;

(d) measurement at the lower of the values provided for in points (a) and (b) may not continue if the reasons for which the value adjustments were made have ceased to apply; this provision shall not apply to value adjustments made in respect of goodwill.

7. Value adjustments shall be made in respect of current assets with a view to showing them at the lower market value or, in particular circumstances, another lower value to be attributed to them at the balance sheet date.

Measurement at the lower value provided for in the first subparagraph may not continue if the reasons for which the value adjustments were made no longer apply.

8. Member States may permit or require that interest on capital borrowed to finance the production of fixed or current assets be included within production costs, to the extent that it relates to the period of production. 10. Where the amount repayable on account of any debt is greater than the amount received, Member States may permit or require that the difference be shown as an asset. It shall be shown separately in the balance sheet or in the notes to the financial statements. The amount of that difference shall be written off by a reasonable amount each year and completely written off no later than at the time of repayment of the debt.

11. Intangible assets shall be written off over the useful economic life of the intangible asset.

In exceptional cases where the useful life of goodwill and development costs cannot be reliably estimated, such assets shall be written off within a maximum period set by the Member State. That maximum period shall not be shorter than five years and shall not exceed 10 years. An explanation of the period over which goodwill is written off shall be provided within the notes to the financial statements.

Where national law authorises the inclusion of costs of development under ‘Assets’ and the costs of development have not been completely written off, Member States shall require that no distribution of profits take place unless the amount of the reserves available for distribution and profits brought forward is at least equal to that of the costs not written off.

Where national law authorises the inclusion of formation expenses under ‘Assets’, they shall be written off within a period of maximum five years. In that case, Member States shall require that the third subparagraph apply *mutatis mutandis* to formation expenses.

In exceptional cases, the Member States may permit derogations from the third and fourth subparagraphs. Such derogations and the reasons therefor shall be disclosed in the notes to the financial statements.

12. Provisions shall cover liabilities the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

The Member States may also authorise the creation of provisions intended to cover expenses the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

At the balance sheet date, a provision shall represent the best estimate of the expenses likely to be incurred or, in the case of a liability, of the amount required to meet that liability. Provisions shall not be used to adjust the values of assets.

2. By way of derogation from Article 4(1), Member States may permit or require all undertakings, or any classes of undertaking, to present a statement of their performance instead of the presentation of profit and loss items in accordance with Annexes V and VI, provided that the information given is at least equivalent to that otherwise required by Annexes V and VI.

*Article 14*

2. In addition to the cases mentioned in paragraph 1, Member States may require any undertaking governed by their national law to draw up consolidated financial statements and a consolidated management report if:

*Article 24***The preparation of consolidated financial statements**

1. Chapters 2 and 3 shall apply in respect of consolidated financial statements, taking into account the essential adjustments resulting from the particular characteristics of consolidated financial statements as compared to annual financial statements.

2. The assets and liabilities of undertakings included in a consolidation shall be incorporated in full in the consolidated balance sheet.

3. The book values of shares in the capital of undertakings included in a consolidation shall be set off against the proportion which they represent of the capital and reserves of those undertakings in accordance with the following:

- (a) except in the case of shares in the capital of the parent undertaking held either by that undertaking itself or by another undertaking included in the consolidation, which shall be treated as own shares in accordance with Chapter 3, that set-off shall be effected on the basis of book values as they stand on the date on which those undertakings are included in a consolidation for the first time. Differences arising from that set-off shall, as far as possible, be entered directly against those items in the consolidated balance sheet which have values above or below their book values;
- (b) a Member State may permit or require set-offs on the basis of the values of identifiable assets and liabilities as at the date of acquisition of the shares or, in the event of acquisition in two or more stages, as at the date on which the undertaking became a subsidiary;

- (b) income and expenditure relating to transactions between the undertakings; and
- (c) profits and losses resulting from transactions between the undertakings, where they are included in the book values of assets.

8. Consolidated financial statements shall be drawn up as at the same date as the annual financial statements of the parent undertaking.

A Member State may, however, permit or require consolidated financial statements to be drawn up as at another date in order to take account of the balance sheet dates of the largest number or the most important of the undertakings included in the consolidation, provided that:

- (a) that fact shall be disclosed in the notes to the consolidated financial statements and reasons given;
- (b) account shall be taken, or disclosure made, of important events concerning the assets and liabilities, the financial position and the profit or loss of an undertaking included in a consolidation which have occurred between that undertaking's balance sheet date and the consolidated balance sheet date; and

This obligation may be fulfilled by the preparation of an adjusted comparative balance sheet and an adjusted comparative profit and loss account.

10. Assets and liabilities included in consolidated financial statements shall be measured on a uniform basis and in accordance with Chapter 2.

11. An undertaking which draws up consolidated financial statements shall apply the same measurement bases as are applied in its annual financial statements. However, Member States may permit or require that other measurement bases in accordance with Chapter 2 be used in consolidated financial statements. Where use is made of this derogation, that fact shall be disclosed in the notes to the consolidated financial statements and reasons given.

12. Where assets and liabilities included in consolidated financial statements have been measured by undertakings included in the consolidation using bases differing from those used for the purposes of the consolidation, those assets and liabilities shall be re-measured in accordance with the bases used for the consolidation. Departures from this requirement shall be permitted in exceptional cases. Any such departures shall be disclosed in the notes to the consolidated financial statements and reasons given.

13. Deferred tax balances shall be recognised on consolidation provided that it is probable that a charge to tax will arise within the foreseeable future for one of the undertakings included in the consolidation.

14. Where assets included in consolidated financial statements have been the subject of value adjustments solely for tax purposes, they shall be incorporated in the consolidated financial statements only after those adjustments have been eliminated.

2. Article 23(9) and (10) and Article 24 shall apply *mutatis mutandis* to the proportional consolidation referred to in paragraph 1 of this Article.

## Article 27

### Equity accounting of associated undertakings

1. Where an undertaking included in a consolidation has an associated undertaking, that associated undertaking shall be shown in the consolidated balance sheet as a separate item with an appropriate heading.
2. When this Article is applied for the first time to an associated undertaking, that associated undertaking shall be shown in the consolidated balance sheet either:
  - (a) at its book value calculated in accordance with the measurement rules laid down in Chapters 2 and 3. The difference between that value and the amount corresponding to the proportion of capital and reserves represented by the participating interest in that associated undertaking shall be disclosed separately in the consolidated balance sheet or in the notes to the consolidated financial statements. That difference shall be calculated as at the date on which that method is used for the first time; or
  - (b) at an amount corresponding to the proportion of the associated undertaking's capital and reserves represented by the participating interest in that associated undertaking. The difference between that amount and the book value calculated in accordance with the measurement rules laid down in Chapters 2 and 3 shall be disclosed separately in the consolidated balance sheet or in the notes to the consolidated financial statements. That difference shall be calculated as at the date on which that method is used for the first time.

A Member State may prescribe the application of one or other of the options provided for in points (a) and (b). In such cases, the consolidated balance sheet or the notes to the consolidated financial statements shall indicate which of those options has been used.

In addition, for the purposes of points (a) and (b), a Member State may permit or require the calculation of the difference as at the date of acquisition of the shares or, where they were acquired in two or more stages, as at the date on which the undertaking became an associated undertaking.

3. Where an associated undertaking's assets or liabilities have been valued by methods other than those used for consolidation in accordance with Article 24(11), they may, for the purpose of calculating the difference referred to in points (a) and (b) of paragraph 2, be revalued by the methods used for consolidation. Where such revaluation

**▼B**

has not been carried out, that fact shall be disclosed in the notes to the consolidated financial statements. A Member State may require such revaluation.

4. The book value referred to in point (a) of paragraph 2, or the amount corresponding to the proportion of the associated undertaking's capital and reserves referred to in point (b) of paragraph 2, shall be increased or reduced by the amount of any variation which has taken place during the financial year in the proportion of the associated undertaking's capital and reserves represented by that participating interest; it shall be reduced by the amount of the dividends relating to that participating interest.

5. In so far as the positive difference referred to in points (a) and (b) of paragraph 2 cannot be related to any category of assets or liabilities, it shall be treated in accordance with the rules applicable to the item 'goodwill' as set out in point (d) of Article 12(6), the first subparagraph of Article 12(11), point (c) of Article 24(3), and Annex III and Annex IV.

4. Where the reporting undertaking identifies significant differences between the risks for, or impacts of, the group and the risks for, or impacts of, one or more of its subsidiary undertakings, the undertaking shall provide an adequate understanding of, as appropriate, the risks for, and impacts of, the subsidiary undertaking or subsidiary undertakings concerned.

- (c) if the parent undertaking is established in a third country, the disclosures laid down in Article 8 of Regulation (EU) 2020/852, covering the activities carried out by the subsidiary undertaking established in the Union and exempted from sustainability reporting on the basis of Article 19a(9) of this Directive, shall be included in the management report of the exempted parent undertaking, or in the consolidated sustainability reporting carried out by the parent undertaking established in a third country.

**▼M4**

The Member State by whose national law the exempted parent undertaking is governed may require that the consolidated management report or, where applicable, the consolidated sustainability report of the parent undertaking is published in a language that that Member State accepts, and that any necessary translation into such language is provided. Any translation that has not been certified shall include a statement to that effect.

Parent undertakings which are exempted from preparing a management report pursuant to Article 37 shall not be obliged to provide the information referred to in points (a)(i) to (a)(iii) of the second subparagraph of this paragraph, provided that such undertakings publish the consolidated management report in accordance with Article 37.

**SUSTAINABILITY REPORTING STANDARDS***Article 29b***Sustainability reporting standards**

1. The Commission shall adopt delegated acts in accordance with Article 49 supplementing this Directive to provide for sustainability reporting standards. Those sustainability reporting standards shall specify the information that undertakings are to report in accordance with Articles 19a and 29a and, where relevant, shall specify the structure to be used to present that information.

▼ **M4**

In the delegated acts referred to in the first subparagraph of this paragraph the Commission shall, by 30 June 2023, specify the information that undertakings are to report in accordance with Article 19a(1) and (2), and Article 29a(1) and (2) where appropriate, which shall at least include the information that financial market participants subject to the disclosure obligations of Regulation (EU) 2019/2088 need in order to comply with those obligations.

In the delegated acts referred to in the first subparagraph the Commission shall, by 30 June 2024, specify:

When adopting delegated acts to specify the information required under point (ii) of the third subparagraph, the Commission shall pay particular attention to the scale of the risks and impacts related to sustainability matters for each sector, taking account of the fact that risks and impacts are higher for some sectors than for others.

The Commission shall, at least every three years after their date of application, review the delegated acts adopted pursuant to this Article, taking into consideration the technical advice of the European Financial Reporting Advisory Group (EFRAG), and, where necessary, it shall amend such delegated acts to take into account relevant developments, including developments with regard to international standards.

The Commission shall, at least once a year, consult the European Parliament, and consult jointly the Member State Expert Group on Sustainable Finance, referred to in Article 24 of Regulation (EU) 2020/852, and the Accounting Regulatory Committee, referred to in Article 6 of Regulation (EC) No 1606/2002, on EFRAG's work programme as regards the development of sustainability reporting standards.

2. The sustainability reporting standards shall ensure the quality of reported information, by requiring that it is understandable, relevant, verifiable, comparable and represented in a faithful manner. The sustainability reporting standards shall avoid imposing a disproportionate administrative burden on undertakings, including by taking account, to the greatest extent possible, of the work of global standard-setting initiatives for sustainability reporting as required by point (a) of paragraph 5.

**▼ M4**

The sustainability reporting standards shall, taking into account the subject matter of a particular sustainability reporting standard:

- (a) specify the information that undertakings are to disclose about the following environmental factors:

4. Sustainability reporting standards shall take account of the difficulties that undertakings may encounter in gathering information from actors throughout their value chain, especially from those which are not subject to the sustainability reporting requirements laid down in Article 19a or 29a and from suppliers in emerging markets and economies. Sustainability reporting standards shall specify disclosures on value chains that are proportionate and relevant to the capacities and the characteristics of undertakings in value chains, and to the scale and complexity of their activities, especially those of undertakings that are not subject to the sustainability reporting requirements in Article 19a or 29a. The first subparagraph is without prejudice to Union requirements on undertakings to conduct a due diligence process.

5. When adopting delegated acts pursuant to paragraph 1, the Commission shall, to the greatest extent possible, take account of:

*Article 46***Equivalence criteria**

1. Undertakings referred to in Articles 42 and 44 that prepare and make public a report complying with third-country reporting requirements assessed, in accordance with Article 47, as equivalent to the requirements of this Chapter are exempt from the requirements of this Chapter except for the obligation to publish this report as laid down by the laws of each Member State in accordance with Chapter 2 of Directive 2009/101/EC.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 49 identifying the criteria to be applied when assessing, for the purposes of paragraph 1 of this Article, the equivalence of third-country reporting requirements and the requirements of this Chapter.

3. The criteria identified by the Commission in accordance with paragraph 2 shall:

The Commission shall be empowered to adopt implementing acts identifying those third-country reporting requirements which, after applying the equivalence criteria identified in accordance with Article 46, it considers equivalent to the requirements of this Chapter. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 50(2).

**▼B***Article 48***Review**

The Commission shall review and report on the implementation and effectiveness of this Chapter, in particular as regards the scope of, and compliance with, the reporting obligations and the modalities of the reporting on a project basis.

The review shall take into account international developments, in particular with regard to enhancing transparency of payments to governments, assess the impacts of other international regimes and consider the effects on competitiveness and security of energy supply. It shall be completed by 21 July 2018.

The report shall be submitted to the European Parliament and to the Council, together with a legislative proposal, if appropriate. That report shall consider the extension of the reporting requirements to additional industry sectors and whether the report on payments to governments should be audited. The report shall also consider the disclosure of additional information on the average number of employees, the use of subcontractors and any pecuniary penalties administered by a country.

**▼M1**

The report shall also consider, taking into account developments in the OECD and the results of related European initiatives, the possibility of introducing an obligation requiring large undertakings to produce on an annual basis a country-by-country report for each Member State and third country in which they operate, containing information on, as a minimum, profits made, taxes paid on profits and public subsidies received.

**▼B**

In addition, the report shall analyse the feasibility of the introduction of an obligation for all Union issuers to carry out due diligence when sourcing minerals to ensure that supply chains have no connection to conflict parties and respect the EITI and OECD recommendations on responsible supply chain management.
