Investment firms shall ensure that disclosure to clients, pursuant to Article 23(2) of Directive 2014/65/EU, is a measure of last resort that shall be used only where the effective organisational and administrative arrangements established by the investment firm to prevent or manage its conflicts of interest in accordance with Article 23 of Directive 2014/65/EU are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of the client will be prevented.

The disclosure shall clearly state that the organisational and administrative arrangements established by the investment firm to prevent or manage that conflict are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the client will be prevented. The disclosure shall include specific description of the conflicts of interest that arise in the provision of investment and/or ancillary services, taking into account the nature of the client to whom the disclosure is being made. The description shall explain the general nature and sources of conflicts of interest, as well as the risks to the client that arise as a result of the conflicts of interest and the steps undertaken to mitigate these risks, in sufficient detail to enable that client to take an informed decision with respect to the investment or ancillary service in the context of which the conflicts of interest arise.

5. Investment firms shall assess and periodically review, on an at least annual basis, the conflicts of interest policy established in accordance with paragraphs 1 to 4 and shall take all appropriate measures to address any deficiencies. Over-reliance on disclosure of conflicts of interest shall be considered a deficiency in the investment firm's conflicts of interest policy.

▼B

- (a) the research or information is labelled or described as investment research or in similar terms, or is otherwise presented as an objective or independent explanation of the matters contained in the recommendation;
- (b) if the recommendation in question were made by an investment firm to a client, it would not constitute the provision of investment advice for the purposes of Directive 2014/65/EU.

2. A recommendation of the type covered by point (35) of Article 3(1) of Regulation (EU) No 596/2014 that does not meet the conditions set out in paragraph 1 shall be treated as a marketing communication for the purposes of Directive 2014/65/EU and investment firms that produce or disseminate that recommendation shall ensure that it is clearly identified as such.

Additionally, firms shall ensure that any such recommendation contains a clear and prominent statement that (or, in the case of an oral recommendation, to the effect that) it has not been prepared in accordance with legal requirements designed to promote the independence of investment research, and that it is not subject to any prohibition on dealing ahead of the dissemination of investment research.

*Article 37***Additional organisational requirements in relation to investment research or marketing communications**

(Article 16(3) of Directive 2014/65/EU)

1. Investment firms which produce, or arrange for the production of, investment research that is intended or likely to be subsequently disseminated to clients of the firm or to the public, under their own responsibility or that of a member of their group, shall ensure the implementation of all the measures set out in Article 34(3) in relation to the financial analysts involved in the production of the investment research and other relevant persons whose responsibilities or business interests may conflict with the interests of the persons to whom the investment research is disseminated.

The obligations in the first subparagraph shall also apply in relation to recommendations referred to in Article 36(2).

2. Investment firms referred to in the first subparagraph of paragraph 1 shall have in place arrangements designed to ensure that the following conditions are satisfied:

▼B

- (b) in circumstances not covered by point (a), financial analysts and any other relevant persons involved in the production of investment research do not undertake personal transactions in financial instruments to which the investment research relates, or in any related financial instruments, contrary to current recommendations, except in exceptional circumstances and with the prior approval of a member of the firm's legal or compliance function;
- (c) a physical separation exists between the financial analysts involved in the production of investment research and other relevant persons whose responsibilities or business interests may conflict with the interests of the persons to whom the investment research is disseminated or, when considered not appropriate to the size and organisation of the firm as well as the nature, scale and complexity of its business, the establishment and implementation of appropriate alternative information barriers;

For the purposes of this paragraph, 'related financial instrument' shall be any financial instrument the price of which is closely affected by price movements in another financial instrument which is the subject of investment research, and includes a derivative on that other financial instrument.

3. Investment firms which disseminate investment research produced by another person to the public or to clients shall be exempt from complying with paragraph 1 if the following criteria are met:

- (a) the person that produces the investment research is not a member of the group to which the investment firm belongs;

- (c) the investment firm does not present the investment research as having been produced by it;

Firms shall identify all potential conflicts of interest arising from other activities of the investment firm, or group, and implement appropriate management procedures. In cases where an investment firm cannot manage a conflict of interest by way of implementing appropriate procedures, the investment firm shall not engage in the operation.

In particular, investment firms shall as a minimum requirement establish, implement and maintain internal arrangements to ensure both of the following:

- (a) that the pricing of the offer does not promote the interests of other clients or firm's own interests, in a way that may conflict with the issuer client's interests; and

In particular, the firm shall inform and engage with the issuer client about any hedging or stabilisation strategies it intends to undertake with respect to the offering, including how these strategies may impact the issuer clients' interests. During the offering process, firms shall also take all reasonable steps to keep the issuer client informed about developments with respect to the pricing of the issue.

The policy shall set out relevant information that is available at that stage, about the proposed allocation methodology for the issue.

5. Investment firms shall involve the issuer client in discussions about the placing process in order for the firm to be able to understand and take into account the client's interests and objectives. 3. Investment firms' conflict of interest policy shall require the sharing of information about the issuer's financial situation with group entities acting as credit providers, provided this would not breach information barriers set up by the firm to protect the interests of a client.

5. The investment firm shall inform the client or potential client where accounts that contain financial instruments or funds belonging to that client or potential client are or will be subject to the law of a jurisdiction other than that of a Member State and shall indicate that the rights of the client or potential client relating to those financial instruments or funds may differ accordingly.

*Article 50***Information on costs and associated charges**

(Article 24(4) of Directive 2014/65/EU)

1. For the purposes of providing information to clients on all costs and charges pursuant to Article 24(4) of Directive 2014/65/EU, investment firms shall comply with the detailed requirements in paragraphs 2 to 10.

Without prejudice to the obligations set out in Article 24(4) of Directive 2014/65/EU, investment firms providing investment services to professional clients shall have the right to agree to a limited application of the detailed requirements set out in this Article with these clients. Investment firms shall not be allowed to agree such limitations when the services of investment advice or portfolio management are provided or when, irrespective of the investment service provided, the financial instruments concerned embed a derivative.

Without prejudice to the obligations set out in Article 24(4) of Directive 2014/65/EU, investment firms providing investment services to eligible counterparties shall have the right to agree to a limited application of the detailed requirements set out in this Article, except when,

irrespective of the investment service provided, the financial instruments concerned embed a derivative and the eligible counterparty intends to offer them to its clients.

2. For ex-ante and ex-post disclosure of information on costs and charges to clients, investment firms shall aggregate the following:

- (a) all costs and associated charges charged by the investment firm or other parties where the client has been directed to such other parties, for the investment services(s) and/or ancillary services provided to the client; and
- (b) all costs and associated charges associated with the manufacturing and managing of the financial instruments.

Costs referred to in points (a) and (b) are listed in Annex II to this Regulation. For the purposes of point (a), third party payments received by investment firms in connection with the investment service provided to a client shall be itemised separately and the aggregated costs and charges shall be totalled and expressed both as a cash amount and as a percentage.

3. Where any part of the total costs and charges is to be paid in or represents an amount of foreign currency, investment firms shall provide an indication of the currency involved and the applicable currency conversion rates and costs. Investment firms shall also inform about the arrangements for payment or other performance.

4. In relation to the disclosure of product costs and charges that are not included in the UCITS KIID, the investment firms shall calculate and disclose these costs, for example, by liaising with UCITS management companies to obtain the relevant information.

5. The obligation to provide in good time a full ex-ante disclosure of information about the aggregated costs and charges related to the financial instrument and to the investment or ancillary service provided shall apply to investment firms in the following situations:

- (a) where the investment firm recommends or markets financial instruments to clients; or
- (b) where the investment firm providing any investment services is required to provide clients with a UCITS KIID or PRIIPs KID in relation to the relevant financial instruments, in accordance with relevant Union legislation.

▼ B

6. Investment firms that do not recommend or market a financial instrument to the client or are not obliged to provide the client with a KID/KIID in accordance with relevant Union legislation shall inform their clients about all costs and charges relating to the investment and/or ancillary service provided.

7. Where more than one investment firm provides investment or ancillary services to the client, each investment firm shall provide information about the costs of the investment or ancillary services it provides. An investment firm that recommends or markets to its clients the services provided by another firm, shall aggregate the cost and charges of its services together with the cost and charges of the services provided by the other firm. An investment firm shall take into account the costs and charges associated to the provision of other investment or ancillary services by other firms where it has directed the client to these other firms.

8. Where calculating costs and charges on an ex-ante basis, investment firms shall use actually incurred costs as a proxy for the expected costs and charges. Where actual costs are not available, the investment firm shall make reasonable estimations of these costs. Investment firms shall review ex-ante assumptions based on the ex-post experience and shall make adjustment to these assumptions, where necessary.

9. Investment firms shall provide annual ex-post information about all costs and charges related to both the financial instrument(s) and investment and ancillary service(s) where they have recommended or marketed the financial instrument(s) or where they have provided the client with the KID/KIID in relation to the financial instrument(s) and they have or have had an ongoing relationship with the client during the year. Such information shall be based on costs incurred and shall be provided on a personalised basis.

Investment firms may choose to provide such aggregated information on costs and charges of the investment services and the financial instruments together with any existing periodic reporting to clients.

10. Investment firms shall provide their clients with an illustration showing the cumulative effect of costs on return when providing investment services. Such an illustration shall be provided both on an ex-ante and ex-post basis. Investment firms shall ensure that the illustration meets the following requirements:

- (a) the illustration shows the effect of the overall costs and charges on the return of the investment;

*Article 51***Information provided in accordance with Directive 2009/65/EU and Regulation (EU) No 1286/2014**

*SECTION 2****Investment advice****Article 52***Information about investment advice**

(Article 24(4) of Directive 2014/65/EU)

1. Investment firms shall explain in a clear and concise way whether and why investment advice qualifies as independent or non-independent and the type and nature of the restrictions that apply, including, when providing investment advice on an independent basis, the prohibition to receive and retain inducements.

Where advice is offered or provided to the same client on both an independent and non-independent basis, investment firms shall explain the scope of both services to allow investors to understand the differences between them and not present itself as an independent investment adviser for the overall activity. Firms shall not give undue prominence to their independent investment advice services over non-independent investment services in their communications with clients.

2. Investment firms providing investment advice, on an independent or non-independent basis, shall explain to the client the range of financial instruments that may be recommended, including the firm's relationship with the issuers or providers of the instruments.

3. Investment firms shall provide a description of the types of financial instruments considered, the range of financial instruments and providers analysed per each type of instrument according to the scope of the service, and, when providing independent advice, how the service provided satisfies the conditions for the provision of investment advice on an independent basis and the factors taken into consideration in the selection process used by the investment firm to recommend financial instruments, such as risks, costs and complexity of the financial instruments.

▼B

4. When the range of financial instruments assessed by the investment firm providing investment advice on an independent basis includes the investment firm's own financial instruments or those issued or provided by entities having close links or any other close legal or economic relationship with the investment firm as well as other issuers or providers which are not linked or related, the investment firm shall distinguish, for each type of financial instrument, the range of the financial instruments issued or provided by entities not having any links with the investment firm.

5. Investment firms providing a periodic assessment of the suitability of the recommendations provided pursuant to Article 54(12) shall disclose all of the following:

- (a) the frequency and extent of the periodic suitability assessment and where relevant, the conditions that trigger that assessment;
- (b) the extent to which the information previously collected will be subject to reassessment; and
- (c) the way in which an updated recommendation will be communicated to the client.

*Article 53***Investment advice on an independent basis**

(Article 24(4) and 24(7) of Directive 2014/65/EU)

1. Investment firms providing investment advice on an independent basis shall define and implement a selection process to assess and compare a sufficient range of financial instruments available on the market in accordance with Article 24(7)(a) of Directive 2014/65/EU. The selection process shall include the following elements:

- (a) the number and variety of financial instruments considered is proportionate to the scope of investment advice services offered by the independent investment adviser;
- (b) the number and variety of financial instruments considered is adequately representative of financial instruments available on the market;
- (c) the quantity of financial instruments issued by the investment firm itself or by entities closely linked to the investment firm itself is proportionate to the total amount of financial instruments considered; and
- (d) the criteria for selecting the various financial instruments shall include all relevant aspects such as risks, costs and complexity as well as the characteristics of the investment firm's clients, and shall ensure that the selection of the instruments that may be recommended is not biased.

▼B

Where such a comparison is not possible due to the business model or the specific scope of the service provided, the investment firm providing investment advice shall not present itself as independent.

2. An investment firm that provides investment advice on an independent basis and that focuses on certain categories or a specified range of financial instruments shall comply with the following requirements:

- (a) the firm shall market itself in a way that is intended only to attract clients with a preference for those categories or range of financial instruments;
- (b) the firm shall require clients to indicate that they are only interested in investing in the specified category or range of financial instruments; and
- (c) prior to the provision of the service, the firm shall ensure that its service is appropriate for each new client on the basis that its business model matches the client's needs and objectives, and the range of financial instruments that are suitable for the client. Where this is not the case the firm shall not provide such a service to the client.

3. An investment firm offering investment advice on both an independent basis and on a non-independent basis shall comply with the following obligations:

- (a) in good time before the provision of its services, the investment firm has informed its clients, in a durable medium, whether the advice will be independent or non-independent in accordance with Article 24(4)(a) of Directive 2014/65/EU and the relevant implementing measures;
- (b) the investment firm has presented itself as independent for the services for which it provides investment advice on an independent basis;
- (c) the investment firms has adequate organisational requirements and controls in place to ensure that both types of advice services and advisers are clearly separated from each other and that clients are not likely to be confused about the type of advice that they are receiving and are given the type of advice that is appropriate for them. The investment firm shall not allow a natural person to provide both independent and non-independent advice.

▼B*SECTION 3**Assessment of suitability and appropriateness**Article 54***Assessment of suitability and suitability reports**

(Article 25(2) of Directive 2014/65/EU)

1. Investment firms shall not create any ambiguity or confusion about their responsibilities in the process when assessing the suitability of investment services or financial instruments in accordance with Article 25(2) of Directive 2014/65/EU. When undertaking the suitability assessment, the firm shall inform clients or potential clients, clearly and simply, that the reason for assessing suitability is to enable the firm to act in the client's best interest.

Where investment advice or portfolio management services are provided in whole or in part through an automated or semi-automated system, the responsibility to undertake the suitability assessment shall lie with the investment firm providing the service and shall not be reduced by the use of an electronic system in making the personal recommendation or decision to trade.

2. Investment firms shall determine the extent of the information to be collected from clients in light of all the features of the investment advice or portfolio management services to be provided to those clients. Investment firms shall obtain from clients or potential clients such information as is necessary for the firm to understand the essential facts about the client and to have a reasonable basis for determining, giving due consideration to the nature and extent of the service provided, that the specific transaction to be recommended, or entered into in the course of providing a portfolio management service, satisfies the following criteria:

- (a) it meets the investment objectives of the client in question, including client's risk tolerance;
- (b) it is such that the client is able financially to bear any related investment risks consistent with his investment objectives;
- (c) it is such that the client has the necessary experience and knowledge in order to understand the risks involved in the transaction or in the management of his portfolio.

3. Where an investment firm provides an investment service to a professional client it shall be entitled to assume that in relation to the products, transactions and services for which it is so classified, the client has the necessary level of experience and knowledge for the purposes of point (c) of paragraph 2.

▼B

Where that investment service consists in the provision of investment advice to a professional client covered by Section 1 of Annex II to Directive 2014/65/EU, the investment firm shall be entitled to assume for the purposes of point (b) of paragraph 2 that the client is able financially to bear any related investment risks consistent with the investment objectives of that client.

4. The information regarding the financial situation of the client or potential client shall include, where relevant, information on the source and extent of his regular income, his assets, including liquid assets, investments and real property, and his regular financial commitments.

5. The information regarding the investment objectives of the client or potential client shall include, where relevant, information on the length of time for which the client wishes to hold the investment, his preferences regarding risk taking, his risk profile, and the purposes of the investment.

6. Where a client is a legal person or a group of two or more natural persons or where one or more natural persons are represented by another natural person, the investment firm shall establish and implement policy as to who should be subject to the suitability assessment and how this assessment will be done in practice, including from whom information about knowledge and experience, financial situation and investment objectives should be collected. The investment firm shall record this policy.

Where a natural person is represented by another natural person or where a legal person having requested treatment as professional client in accordance with Section 2 of Annex II to Directive 2014/65/EU is to be considered for the suitability assessment, the financial situation and investment objectives shall be those of the legal person or, in relation to the natural person, the underlying client rather than of the representative. The knowledge and experience shall be that of the representative of the natural person or the person authorised to carry out transactions on behalf of the underlying client.

7. Investment firms shall take reasonable steps to ensure that the information collected about their clients or potential clients is reliable. This shall include, but shall not be limited to, the following:

- (a) ensuring clients are aware of the importance of providing accurate and up-to-date information;
- (b) ensuring all tools, such as risk assessment profiling tools or tools to assess a client's knowledge and experience, employed in the suitability assessment process are fit-for-purpose and are appropriately designed for use with their clients, with any limitations identified and actively mitigated through the suitability assessment process;

▼B

- (c) ensuring questions used in the process are likely to be understood by clients, capture an accurate reflection of the client's objectives and needs, and the information necessary to undertake the suitability assessment; and
- (d) taking steps, as appropriate, to ensure the consistency of client information, such as by considering whether there are obvious inaccuracies in the information provided by clients.

Investment firms having an on-going relationship with the client, such as by providing an ongoing advice or portfolio management service, shall have, and be able to demonstrate, appropriate policies and procedures to maintain adequate and up-to-date information about clients to the extent necessary to fulfil the requirements under paragraph 2.

8. Where, when providing the investment service of investment advice or portfolio management, an investment firm does not obtain the information required under Article 25(2) of Directive 2014/65/EU, the firm shall not recommend investment services or financial instruments to the client or potential client.

9. Investment firms shall have, and be able to demonstrate, adequate policies and procedures in place to ensure that they understand the nature, features, including costs and risks of investment services and financial instruments selected for their clients and that they assess, while taking into account cost and complexity, whether equivalent investment services or financial instruments can meet their client's profile.

10. When providing the investment service of investment advice or portfolio management, an investment firm shall not recommend or decide to trade where none of the services or instruments are suitable for the client.

11. When providing investment advice or portfolio management services that involve switching investments, either by selling an instrument and buying another or by exercising a right to make a change in regard to an existing instrument, investment firms shall collect the necessary information on the client's existing investments and the recommended new investments and shall undertake an analysis of the costs and benefits of the switch, such that they are reasonably able to demonstrate that the benefits of switching are greater than the costs.

12. When providing investment advice, investment firms shall provide a report to the retail client that includes an outline of the advice given and how the recommendation provided is suitable for the retail client, including how it meets the client's objectives and personal circumstances with reference to the investment term required, client's knowledge and experience and client's attitude to risk and capacity for loss.

▼B

Investment firms shall draw clients' attention to and shall include in the suitability report information on whether the recommended services or instruments are likely to require the retail client to seek a periodic review of their arrangements.

Where an investment firm provides a service that involves periodic suitability assessments and reports, the subsequent reports after the initial service is established may only cover changes in the services or instruments involved and/or the circumstances of the client and may not need to repeat all the details of the first report.

13. Investment firms providing a periodic suitability assessment shall review, in order to enhance the service, the suitability of the recommendations given at least annually. The frequency of this assessment shall be increased depending on the risk profile of the client and the type of financial instruments recommended.

*Article 55***Provisions common to the assessment of suitability or appropriateness**

(Article 25(2) and 25(3) of Directive 2014/65/EU)

1. Investment firms shall ensure that the information regarding a client's or potential client's knowledge and experience in the investment field includes the following, to the extent appropriate to the nature of the client, the nature and extent of the service to be provided and the type of product or transaction envisaged, including their complexity and the risks involved:

- (a) the types of service, transaction and financial instrument with which the client is familiar;

3. An investment firm shall be entitled to rely on the information provided by its clients or potential clients unless it is aware or ought to be aware that the information is manifestly out of date, inaccurate or incomplete.

*Article 56***Assessment of appropriateness and related record-keeping obligations**

(Article 25(3) and 25(5) of Directive 2014/65/EU)

1. Investment firms, shall determine whether that client has the necessary experience and knowledge in order to understand the risks involved in relation to the product or investment service offered or demanded when assessing whether an investment service as referred to in Article 25(3) of Directive 2014/65/EU is appropriate for a client.

An investment firm shall be entitled to assume that a professional client has the necessary experience and knowledge in order to understand the risks involved in relation to those particular investment services or transactions, or types of transaction or product, for which the client is classified as a professional client.

2. Investment firms shall maintain records of the appropriateness assessments undertaken which shall include the following:

- (a) the result of the appropriateness assessment;
- (b) any warning given to the client where the investment service or product purchase was assessed as potentially inappropriate for the client, whether the client asked to proceed with the transaction despite the warning and, where applicable, whether the firm accepted the client's request to proceed with the transaction;
- (c) any warning given to the client where the client did not provide sufficient information to enable the firm to undertake an appropriateness assessment, whether the client asked to proceed with the transaction despite this warning and, where applicable, whether the firm accepted the client's request to proceed with the transaction.

Investment firms that hold client financial instruments or client funds shall send at least on a quarterly basis, to each client for whom they hold financial instruments or funds, a statement in a durable medium of those financial instruments or funds unless such a statement has been provided in any other periodic statement. Upon client request, firms shall provide such statement more frequently at a commercial cost.

The evaluation of the estimated value shall be performed by the firm on a best effort basis.

In cases where the portfolio of a client includes the proceeds of one or more unsettled transactions, the information referred to in point (a) may be based either on the trade date or the settlement date, provided that the same basis is applied consistently to all such information in the statement.

3. Investment firms which hold financial instruments or funds and which carry out the service of portfolio management for a client may include the statement of client assets referred to in paragraph 1 in the periodic statement it provides to that client pursuant to Article 60(1).

*SECTION 5****Best execution****Article 64***Best execution criteria**

(Articles 27(1) and 24(1) of Directive 2014/65/EU)

1. When executing client orders, investment firms shall take into account the following criteria for determining the relative importance of the factors referred to in Article 27(1) of Directive 2014/65/EU:

- (a) the characteristics of the client including the categorisation of the client as retail or professional;
- (b) the characteristics of the client order, including where the order involves a securities financing transaction (SFT);
- (c) the characteristics of financial instruments that are the subject of that order;
- (d) the characteristics of the execution venues to which that order can be directed.

For the purposes of this Article and Articles 65 and 66, 'execution venue' includes a regulated market, an MTF, an OTF, a systematic internaliser, or a market maker or other liquidity provider or an entity that performs a similar function in a third country to the functions performed by any of the foregoing.

2. An investment firm satisfies its obligation under Article 27(1) of Directive 2014/65/EU to take all sufficient steps to obtain the best possible result for a client to the extent that it executes an order or a specific aspect of an order following specific instructions from the client relating to the order or the specific aspect of the order.

3. Investment firms shall not structure or charge their commissions in such a way as to discriminate unfairly between execution venues.

▼B

4. When executing orders or taking decision to deal in OTC products including bespoke products, the investment firm shall check the fairness of the price proposed to the client, by gathering market data used in the estimation of the price of such product and, where possible, by comparing with similar or comparable products.

*Article 65***Duty of investment firms carrying out portfolio management and reception and transmission of orders to act in the best interests of the client**

(Article 24(1) and 24(4) of Directive 2014/65/EU)

1. Investment firms, when providing portfolio management, shall comply with the obligation under Article 24(1) of Directive 2014/65/EU to act in accordance with the best interests of their clients when placing orders with other entities for execution that result from decisions by the investment firm to deal in financial instruments on behalf of its client.

2. Investment firms, when providing the service of reception and transmission of orders, shall comply with the obligation under Article 24(1) of Directive 2014/65/EU to act in accordance with the best interests of their clients when transmitting client orders to other entities for execution.

3. In order to comply with paragraphs 1 or 2, investment firms shall comply with paragraphs 4 to 7 of this Article and Article 64(4).

4. Investment firms shall take all sufficient steps to obtain the best possible result for their clients taking into account the factors referred to in Article 27(1) of Directive 2014/65/EU. The relative importance of these factors shall be determined by reference to the criteria set out in Article 64(1) and, for retail clients, to the requirement under Article 27(1) of Directive 2014/65/EU.

An investment firm satisfies its obligations under paragraph 1 or 2, and is not required to take the steps mentioned in this paragraph, to the extent that it follows specific instructions from its client when placing an order with, or transmitting an order to, another entity for execution.

5. Investment firms shall establish and implement a policy that enables them to comply with the obligation in paragraph 4. The policy shall identify, in respect of each class of instruments, the entities with which the orders are placed or to which the investment firm transmits orders for execution. The entities identified shall have execution arrangements that enable the investment firm to comply with its obligations under this Article when it places or transmits orders to that entity for execution.

▼B

6. Investment firms shall provide information to their clients on the policy established in accordance with paragraph 5 and paragraphs 2 to 9 of Article 66. Investment firms shall provide clients with appropriate information about the firm and its services and the entities chosen for execution. In particular, when the investment firm selects other firms to provide order execution services, it shall summarise and make public, on an annual basis, for each class of financial instruments, the top five investment firms in terms of trading volumes where it transmitted or placed client orders for execution in the preceding year and information on the quality of execution obtained. The information shall be consistent with the information published in accordance with the technical standards developed under Article 27(10)(b) of Directive 2014/65/EU.

Upon reasonable request from a client, investment firms shall provide its clients or potential clients with information about entities where the orders are transmitted or placed for execution.

7. Investment firms shall monitor on a regular basis the effectiveness of the policy established in accordance with paragraph 5 and, in particular, shall monitor the execution quality of the entities identified in that policy and, where appropriate, correct any deficiencies.

Investment firms shall review the policy and arrangements at least annually. Such a review shall also be carried out whenever a material change occurs that affects the firm's ability to continue to obtain the best possible result for their clients.

Investment firms shall assess whether a material change has occurred and shall consider making changes to the execution venues or entities on which they place significant reliance in meeting the overarching best execution requirement.

A material change shall be a significant event that could impact parameters of best execution such as cost, price, speed, likelihood of execution and settlement, size, nature or any other consideration relevant to the execution of the order.

8. This Article shall not apply where the investment firm that provides the service of portfolio management or reception and transmission of orders also executes the orders received or the decisions to deal on behalf of its client's portfolio. In those cases Article 27 of Directive 2014/65/EU shall apply.

*Article 66***Execution policy**

Such a review shall also be carried out whenever a material change as defined in Article 65(7) occurs that affects the firm's ability to continue to obtain the best possible result for the execution of its client orders on a consistent basis using the venues included in its execution policy. An investment firm shall assess whether a material change has occurred and shall consider making changes to the relative importance of the best execution factors in meeting the overarching best execution requirement.

2. The information on the execution policy shall be customised depending on the class of financial instrument and type of the service provided and shall include information set out in paragraphs 3 to 9.

3. Investment firms shall provide clients with the following details on their execution policy in good time prior to the provision of the service:

- (a) an account of the relative importance the investment firm assigns, in accordance with the criteria specified in Article 59(1), to the factors referred to in Article 27(1) of Directive 2014/65/EU, or the process by which the firm determines the relative importance of those factors.
- (b) a list of the execution venues on which the firm places significant reliance in meeting its obligation to take all reasonable steps to obtain on a consistent basis the best possible result for the execution of client orders and specifying which execution venues are used for each class of financial instruments, for retail client orders, professional client orders and SFTs;
- (c) a list of factors used to select an execution venue, including qualitative factors such as clearing schemes, circuit breakers, scheduled actions, or any other relevant consideration, and the relative importance of each factor; The information about the factors used to select an execution venue for execution shall be consistent with the controls used by the firm to demonstrate to clients that best execution has been achieved in a consistent basis when reviewing the adequacy of its policy and arrangements;
- (d) how the execution factors of price costs, speed, likelihood of execution and any other relevant factors are considered as part of all sufficient steps to obtain the best possible result for the client;
- (e) where applicable, information that the firm executes orders outside a trading venue, the consequences, for example counterparty risk arising from execution outside a trading venue, and upon client request, additional information about the consequences of this means of execution;

- (g) a summary of the selection process for execution venues, execution strategies employed, the procedures and process used to analyse the quality of execution obtained and how the firms monitor and verify that the best possible results were obtained for clients.

That information shall be provided in a durable medium, or by means of a website (where that does not constitute a durable medium) provided that the conditions specified in Article 3(2) are satisfied.

4. Where investment firms apply different fees depending on the execution venue, the firm shall explain these differences in sufficient detail in order to allow the client to understand the advantages and the disadvantages of the choice of a single execution venue.

5. Where investment firms invite clients to choose an execution venue, fair, clear and not misleading information shall be provided to prevent the client from choosing one execution venue rather than another on the sole basis of the price policy applied by the firm.

6. Investment firms shall only receive third-party payments that comply with Article 24(9) of Directive 2014/65/EU and shall inform clients about the inducements that the firm may receive from the execution venues. The information shall specify the fees charged by the investment firm to all counterparties involved in the transaction, and where the fees vary depending on the client, the information shall indicate the maximum fees or range of the fees that may be payable.

7. Where an investment firm charges more than one participant in a transaction, in compliance with Article 24(9) of Directive 2014/65/EU and its implementing measures, the firm shall inform its clients of the value of any monetary or non-monetary benefits received by the firm.

8. Where a client makes reasonable and proportionate requests for information about its policies or arrangements and how they are reviewed to an investment firm, that investment firm shall answer clearly and within a reasonable time.

9. Where an investment firm executes orders for retail clients, it shall provide those clients with a summary of the relevant policy, focused on the total costs they incur. Where an investment firm is able to demonstrate on reasonable grounds that without the combination it would not have been able to carry out the order on such advantageous terms, or at all, it may allocate the transaction for own account proportionally, in accordance with its order allocation policy referred to in Article 68(1)(c).

3. As part of the order allocation policy referred to in Article 68(1)(c), investment firms shall put in place procedures designed to prevent the reallocation, in a way that is detrimental to the client, of transactions for own account which are executed in combination with client orders.

CHAPTER IV

OPERATING OBLIGATIONS FOR TRADING VENUES*Article 80***Circumstances constituting significant damage to investors' interests and the orderly functioning of the market**

(Articles 32(1), 32(2), 52(1) and 52(2) of Directive 2014/65/EU)

1. For the purpose of Articles 32(1), 32(2), 52(1) and 52(2) of Directive 2014/65/EU, a suspension or a removal from trading of a financial instrument shall be deemed likely to cause significant damage to investors' interests or the orderly functioning of the market at least in the following circumstances:

- (a) where it would create a systemic risk undermining financial stability, such as where the need exists to unwind a dominant market position, or where settlement obligations would not be met in a significant volume;
- (b) where the continuation of trading on the market is necessary to perform critical post-trade risk management functions when there is a need for the liquidation of financial instruments due to the default of a clearing member under the default procedures of a CCP and a CCP would be exposed to unacceptable risks as a result of an inability to calculate margin requirements;

▼B

- (c) where the financial viability of the issuer would be threatened, such as where it is involved in a corporate transaction or capital raising.

2. For the purpose of determining whether a suspension or a removal is likely to cause significant damage to the investors' interest or the orderly functioning of the markets in any particular case, the national competent authority, a market operator operating a regulated market or an investment firm or a market operator operating an MTF or an OTF shall consider all relevant factors, including:

- (a) the relevance of the market in terms of liquidity where the consequences of the actions are likely to be more significant where those markets are more relevant in terms of liquidity than in other markets;
- (b) the nature of the envisaged action where actions with a sustained or lasting impact on the ability of investors to trade a financial instrument on trading venues, such as removals, are likely to have a greater impact on investors than other actions;
- (c) the knock-on effects of a suspension or removal of sufficiently related derivatives, indices or benchmarks for which the removed or suspended instrument serves as an underlying or constituent;
- (d) the effects of a suspension on the interests of market end users who are not financial counterparties, such as entities trading in financial instruments to hedge commercial risks.

3. The factors set out in paragraph 2 shall also be taken into consideration where a national competent authority, a market operator operating a regulated market or an investment firm or a market operator operating an MTF or an OTF decides not to suspend or remove a financial instrument on the basis of circumstances not covered by the list of paragraph 1.

Article 81

Circumstances where significant infringements of the rules of a trading venue or disorderly trading conditions or system disruptions in relation to a financial instrument may be assumed

(Articles 31(2) and 54(2) of Directive 2014/65/EU)

1. When assessing whether the requirement to immediately inform their competent authorities of significant infringements of the rules of their trading venue or disorderly trading conditions or system disruptions in relation to a financial instrument applies, operators of trading venues shall consider the signals listed in Section A of Annex III to this Regulation.

▼B

2. Information shall only be required in cases of significant events which have the potential to jeopardise the role and function of trading venues as part of the financial market infrastructure.

*Article 82***Circumstances where a conduct indicating behaviour that is prohibited under Regulation (EU) No 596/2014 may be assumed**

(Articles 31(2) and 54(2) of Directive 2014/65/EU)

1. When assessing whether the requirement to immediately inform their competent authorities of conduct that may indicate behaviour that is prohibited under Regulation (EU) No 596/2014 applies, operators of trading venues shall consider the signals listed in Section B of Annex III to this Regulation.

2. The operator of one or several trading venues where a financial instrument and/or related financial instrument are traded shall apply a proportionate approach and shall exercise judgment on the signals triggered, including any relevant signals not specifically included in Section B of Annex III to this Regulation, before informing the relevant national competent authority, taking into account the following:

- (a) the deviations from the usual trading pattern of the financial instruments admitted to trading or traded on its trading venue; and
- (b) the information available or accessible to the operator, whether that be internally as part of the operations of the trading venue or publicly available.

3. The operator of one or several trading venues shall take into account front running behaviours, which consist in a market member or participant trading, for its own account, ahead of its client, and shall use for that purpose the order book data required to be recorded by the trading venue pursuant to Article 25 of Regulation (EU) No 600/2014, in particular those relating to the way the member or participant conducts its trading activity.

CHAPTER V

POSITION REPORTING IN COMMODITY DERIVATIVES

*Article 83***Position reporting**

(Article 58(1) of Directive 2014/65/EU)

1. For the purpose of the weekly reports referred to in Art 58(1)(a) of Directive 2014/65/EU, the obligation for a trading venue to make public such a report shall apply when both of the following two thresholds are met:

▼ B

- (a) 20 open position holders exist in a given contract on a given trading venue; and

▼ M3

- (b) the absolute amount of the gross long or short volume of total open interest expressed in the number of lots of the relevant commodity derivative is equal to, or exceeds, 10 000 lots.

For emission allowances and derivatives thereof, point (b) shall not apply.

▼ B

2. The threshold set out in point (a) of paragraph 1 shall apply in aggregate on the basis of all of the categories of persons regardless of the numbers of position holders in any single category of persons.

▼ M3

3. For contracts where there are fewer than five position holders in a given category of persons, the aggregate long and short positions, changes thereto since the previous report, the percentage of the total open interest in that category and the number of position holders in that category shall not be published.

▼ B

4. For contracts that meet the conditions set out in points (a) and (b) of paragraph 1 for the first time, trading venues shall publish the contracts first weekly report as soon as it is feasibly practical, and in any event no later than 3 weeks from the date on which the thresholds are first triggered.

5. Where the conditions set out in points (a) and (b) of paragraph 1 are no longer met, trading venues shall continue to publish the weekly reports for a period of three months. The obligation to publish the weekly report no longer applies where the conditions set out in points (a) and (b) of paragraph 1 have not been met continuously upon expiry of that period.

▼ B*ANNEX III***Requirement for operators of trading venues to immediately inform their national competent authority***SECTION A****Signals that may indicate significant infringements of the rules of a trading venue or disorderly trading conditions or system disruptions in relation to a financial instrument****Significant infringements of the rules of a trading venue*

1. Market participants infringe rules of the trading venue which aim to protect the market integrity, the orderly functioning of the market or the significant interests of the other market participants; and
2. A trading venue considers that an infringement is of sufficient severity or impact to justify consideration of disciplinary action.

Disorderly trading conditions

3. The price discovery process is interfered with over a significant period of time;
4. The capacities of the trading systems are reached or exceeded;
5. Market makers/liquidity providers repeatedly claim mis-trades; or
6. Breakdown or failure of critical mechanisms under Article 48 of Directive 2014/65/EU and its implementing measures which are designed to protect the trading venue against the risks of algorithmic trading.

System disruptions

7. Any major malfunction or breakdown of the system for market access that results in participants losing their ability to enter, adjust or cancel their orders;
8. Any major malfunction or breakdown of the system for the matching of transactions, that results in participants losing certainty over the status of completed transactions or live orders as well as unavailability of information indispensable for trading (e.g., index value dissemination for trading certain derivatives on that index);
9. Any major malfunction or breakdown of the systems for the dissemination of pre- and post-trade transparency and other relevant data published by trading venues in accordance with their obligations under Directive 2014/65/EU and Regulation (EU) No 600/2014;
10. Any major malfunction or breakdown of the systems of the trading venue to monitor and control the trading activities of the market participants; and any major malfunction or breakdown in the sphere of other interrelated services providers, in particular CCPs and CSDs, that has repercussions on the trading system.

▼B*SECTION B****Signals that may indicate abusive behaviour under Regulation (EU) No 596/2014****Signals of possible insider dealing or market manipulation*

1. Unusual concentration of transactions and/or orders to trade in a particular financial instrument with one member/participant or between certain members/participants.
2. Unusual repetition of a transaction among a small number of members/participants over a certain period of time.

Signals of possible insider dealing

3. Unusual and significant trading or submission of orders to trade in the financial instruments of a company by certain members/participants before the announcement of important corporate events or of price sensitive information relating to the company; orders to trade/transactions resulting in sudden and unusual changes in the volume of orders/transactions and/or prices before public announcements regarding the financial instrument in question.
4. Whether orders to trade are given or transactions are undertaken by a market member/participant before or immediately after that member/participant or persons publicly known as linked to that member/participant produce or disseminate research or investment recommendations that are made publicly available.

Signals of possible market manipulation

The signals described below in points 18 to 23 are particularly relevant in an automated trading environment.

5. Orders to trade given or transactions undertaken which represent a significant proportion of the daily volume of transactions in the relevant financial instrument on the trading venue concerned, in particular when these activities lead to a significant change in the price of the financial instruments.
6. Orders to trade given or transactions undertaken by a member/participant with a significant buying or selling interest in a financial instrument which lead to significant changes in the price of the financial instrument on a trading venue.
7. Orders to trade given or transactions undertaken which are concentrated within a short time span in the trading session and lead to a price change which is subsequently reversed.
8. Orders to trade given which change the representation of the best bid or offer prices in a financial instrument admitted to trading or traded on a trading venue, or more generally the representation of the order book available to market participants, and are removed before they are executed.
9. Transactions or orders to trade by a market/participant with no other apparent justification than to increase/decrease the price or value of, or to have a significant impact on the supply of or demand for a financial instrument, namely near the reference point during the trading day, e.g. at the opening or near the close.

▼ B

10. Buying or selling of a financial instrument at the reference time of the trading session (e.g. opening, closing, settlement) in an effort to increase, to decrease or to maintain the reference price (e.g. opening price, closing price, settlement price) at a specific level (usually known as marking the close).
11. Transactions or orders to trade which have the effect of, or are likely to have the effect of increasing/decreasing the weighted average price of the day or of a period during the session.
12. Transactions or orders to trade which have the effect of, or are likely to have the effect of, setting a market price when the liquidity of the financial instrument or the depth of the order book is not sufficient to fix a price within the session.
13. Execution of a transaction, changing the bid-offer prices when this spread is a factor in the determination of the price of another transaction whether or not on the same trading venue.
14. Entering orders representing significant volumes in the central order book of the trading system a few minutes before the price determination phase of the auction and cancelling these orders a few seconds before the order book is frozen for computing the auction price so that the theoretical opening price might look higher or lower than it otherwise would do.
15. Engaging in a transaction or series of transactions which are shown on a public display facility to give the impression of activity or price movement in a financial instrument (usually known as painting the tape).
16. Transactions carried out as a result of the entering of buy and sell orders to trade at or nearly at the same time, with the very similar quantity and similar price by the same or different but colluding market members/participants (usually known as improper matched orders).
17. Transactions or orders to trade which have the effect of, or are likely to have the effect of bypassing the trading safeguards of the market (e.g. as regards volume limits; price limits; bid/offer spread parameters; etc.).
18. Entering of orders to trade or a series of orders to trade, executing transactions or series of transactions likely to start or exacerbate a trend and to encourage other participants to accelerate or extend the trend in order to create an opportunity to close out/open a position at a favourable price (usually known as momentum ignition).
19. Submitting multiple or large orders to trade often away from the touch on one side of the order book in order to execute a trade on the other side of the order book. Once that trade has taken place, the manipulative orders will be removed (usually known as layering and spoofing).
20. Entry of small orders to trade in order to ascertain the level of hidden orders and particularly used to assess what is resting on a dark platform (usually known as ping order).

▼B

21. Entry of large numbers of orders to trade and/or cancellations and/or updates to orders to trade so as to create uncertainty for other participants, slowing down their process and to camouflage their own strategy (usually known as quote stuffing).
22. Posting of orders to trade, to attract other market members/participants employing traditional trading techniques ('slow traders'), that are then rapidly revised onto less generous terms, hoping to execute profitably against the incoming flow of 'slow traders' orders to trade (usually known as smoking).
23. Executing orders to trade or a series of orders to trade, in order to uncover orders of other participants, and then entering an order to trade to take advantage of the information obtained (usually known as phishing).
24. The extent to which, to the best knowledge of the operator of a trading venue, orders to trade given or transactions undertaken show evidence of position reversals in a short period and represent a significant proportion of the daily volume of transactions in the relevant financial instrument on the trading venue concerned, and might be associated with significant changes in the price of a financial instrument admitted to trading or traded on the trading venue.

Signals for cross-product market manipulation, including across different trading venues

The signals described below should be particularly considered by the operator of a trading venue where both a financial instrument and related financial instruments are admitted to trading or traded or where the above mentioned instruments are traded on several trading venues operated by the same operator.

25. Transactions or orders to trade which have the effect of, or are likely to have the effect of increasing/decreasing/maintaining the price of a financial instrument during the days preceding the issue, optional redemption or expiry of a related derivative or convertible;
