*ANNEX*

Standard forms contain fields. A standard form with appropriate information in its fields is a notice.

Standard forms and notices use mandatory and optional fields.

- (a) Mandatory fields shall be included in standard forms and notices, where they shall contain information, unless certain conditions are met (see below).
- (b) Optional fields may be included in standard forms and notices, where they may contain information.

Formats and procedures for sending notices, as established under point three of Annex VIII to Directive 2014/24/EU, of Annex IX to Directive 2014/25/EU and of Annex VI to 2009/81/EC and point two of Annex IX to 2014/23/EU, shall include conditions under which mandatory fields are not applicable. These conditions shall exclusively take into account the context of a concrete notice or a procedure (for example, fields about framework agreements shall not be mandatory if a procedure does not include a framework agreement).

The formats and procedures for sending notices shall also set which fields are mandatory and optional for notices published in line with Article 51(6) of Directive 2014/24/EU, Article 71(6) of Directive 2014/25/EU and Article 31 of Directive 2009/81/EC.

Table 1 and Table 2, below, establish which fields are used in individual standard forms and notices.

INSTRUCTIONS FOR READING TABLE 1

The standard forms in column 1 use the fields referred to in column 2 (and listed in Table 2) when used for the publication of notices referred to in column 3. For better readability, column 4 contains descriptions of column 3. In addition, any standard form or notice may contain fields from the European Single Procurement Document established by the Commission Implementing Regulation (EU) 2016/7 ⁽¹⁾.

- The fourth column contains one of the following data types:
 - ‘Indicator’: This field shall contain either ‘Yes’ or ‘No’.
 - ‘Code’: This field shall contain values from a predefined list.
