
Declaration by the Portuguese Republic: CECAF

The Portuguese Republic considers that any reference to the zone covered by the Fishery Committee for the Eastern Central Atlantic (CECAF) must extend without prejudice to the rights of the Portuguese Republic to the effects of demarcation of Portuguese waters.

Declaration by the Portuguese Republic**on monetary questions**

In order that the movement of the real rate of the Portuguese escudo, particularly in relation to the ECU and to the currencies of the other Member States, may be followed on foreign exchange markets, the Portuguese Republic will, before accession to the Community, take the necessary measures to ensure that the foreign exchange market in Lisbon operates in a comparable fashion to that in the present Member States of the Community.
