

DECISION No 9/73 OF THE JOINT COMMITTEE

supplementing and amending Articles 24 and 25 of Protocol No 3 concerning the definition of the concept of 'originating products' and methods of administrative cooperation

THE JOINT COMMITTEE,

Having regard to the Agreement between the European Economic Community and the Republic of Iceland signed in Brussels on 22 July 1972;

Having regard to Protocol No 3 concerning the definition of the concept of 'originating Products' and methods of administrative cooperation (hereafter referred to as 'Protocol No 3') and in particular Article 28 thereof;

Whereas Decision No 6/73 of the Joint Committee of 2 February 1973 amended Article 25 (1) of Protocol No 3 to avoid, to the detriment of originating products within the meaning of the Agreement of 22 July 1972, distortions of sources of supply which could arise until customs duties are abolished between the Community as originally constituted and Ireland on the one hand, and Iceland on the other, whereas that Decision has consequently amended Articles 23 and 24;

Whereas, taking account of the emergence of further risk of distortion of sources of supply, new amendments should be made to Article 25 (2) of Protocol No 3,

HAS DECIDED:

Article 1

The text of Article 25 (1) of Protocol No 3 shall be replaced by the following:

1. The following products may benefit, upon import into Iceland or Denmark or the United Kingdom, from the tariff provisions in force in Iceland or in the latter two countries and covered by Article 3 (1) and Article 4 of the Agreement:

(a) products which meet the conditions of this Protocol and for which a movement certificate has been issued indicating that they have acquired the status of originating products and have undergone any additional processing solely in Iceland or in the two countries referred to above or in the other five countries specified in Article 2 of this Protocol;

(b) products other than products of Chapters 50 to 62, which meet the conditions of this Protocol and for which a movement certificate has been issued indicating:

1. that they have been obtained by the processing of goods which, upon export from the Community as originally constituted or from Ireland, had already acquired there the status of originating products;

2. and that the added value acquired in Iceland or in the two countries referred to above or in the other five countries specified in Article 2 of this Protocol represents 50% or more of the value of those products;

(c) products listed in column 2 below which meet the conditions of this Protocol and for which a movement certificate has been issued indicating that they have been obtained by the processing of goods listed in column 1 below which, upon export from the Community as originally constituted or from Ireland, had already acquired there the status of originating products.
