

REGULATION (EEC) No 3156/75 OF THE COUNCIL

of 24 November 1975

opening, allocating and providing for the administration of a Community tariff quota for certain petroleum products, falling within Chapter 27 of the Common Customs Tariff, refined in the Arab Republic of Egypt (1976)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof;

Having regard to the proposal from the Commission;

Whereas the Agreement⁽¹⁾ between the European Economic Community and the Arab Republic of Egypt, and the Protocol⁽²⁾ laying down certain provisions relating to the Agreement between the European Economic Community and the Arab Republic of Egypt consequent on the accession of new Member States to the European Economic Community, provides for the opening of an annual Community tariff quota of 360 000 metric tons for certain petroleum products, falling within Chapter 27 of the Common Customs Tariff, refined in the Arab Republic of Egypt; whereas the Protocol provides that the tariff quota should be allocated among the Member States as follows: 200 000 metric tons for the Community as originally constituted, 5 000 metric tons for Denmark, 5 000 metric tons for Ireland and 150 000 metric tons for the United Kingdom; whereas Annex I to the Agreement provides that the duties applicable to the quota shall be equal to 45% of the duties of the Common Customs Tariff; whereas as regards the duties applicable to the quota by the new Member States, the special provisions of the Protocol and of the Act of Accession should be complied with; whereas to comply with the special provisions of the Protocol, separate arrangements should be made for the Member States of the Community as originally constituted, on the one hand, and for the new Member States, on the other;

Whereas as regards the Community as originally constituted:

- equal and uninterrupted access to the quota should be ensured for all importers and quota duties applied continuously to all imports of the said products until the quota has been used up;
- in the light of the above principles the Community nature of the quota may best be preserved by an arrangement allocating it among the Member States; whereas in order to provide the most accurate reflection of actual market trends for the said products, such allocation should be proportionate to the needs of the Member States, calculated both from the statistics for each Member State's imports from the Arab Republic of Egypt over a representative reference period and from economic prospects for the quota period in question;
- in view of the fact however that over the past three years the said products have been imported into only one Member State, and in small quantities, and that no estimates can be made for 1976 and in order to ensure a fair distribution among the Member States concerned, the initial percentage share, having regard to the potential demand for the said products in the various Member States, should be approximately 25% each;
- in order to take account of import trends for the products in question in the Member States concerned, the quota amount should be divided into two instalments, the first instalment being allocated among the same Member States, the second instalment constituting a reserve intended to cover the later requirements of Member States which have used up their initial quota shares; whereas in order to ensure a certain degree of security to importers in each Member State, the first instalment of the quota should be fixed in this case at approximately 70%;
- the initial quota shares may be used up at different rates; whereas, therefore, to avoid disruption of supplies, any Member State which

⁽²⁾ OJ No L 251, 7. 9. 1973, p. 3.

has almost used up its initial quota share, must draw an additional quota share from the reserve; whereas this must be done by each Member State as each one of its additional quota shares is almost used up, and as many times as the reserve allows; whereas the initial and additional quota shares shall be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States concerned and the Commission, and the Commission must be in a position to follow the extent to which the quota volume has been used up and inform the Member States thereof;

- if, at a given date in the quota period, a considerable quantity of the initial quota share is left over in one of the Member States concerned, it is essential that that State should return a significant proportion to the reserve, to prevent a part of the quota allocated to the Community as originally constituted from remaining unused in one Member State when it could be used in others;
- since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, any measure concerning the administration of the quota shares allocated to that economic union may be carried out by any of its members;

Whereas, as regards the new Member States:

- the quota duties shall be calculated by the new Member States in accordance with Articles 3 and 4 of the Protocol;
- equal and uninterrupted access to the quota should be ensured for all importers and quota duties should be applied continuously to all imports of the products in question until the quota has been used up,

HAS ADOPTED THIS REGULATION:

Article 3

1. A first instalment, amounting to 140 000 metric tons of the amount mentioned in Article 2, shall be allocated among the Member States; the shares, which subject to Article 6 are valid until 31 December 1976, are as follows:

Germany	35 000 metric tons,
Benelux	30 000 metric tons,
France	35 000 metric tons,
Italy	40 000 metric tons.

2. The second instalment of 60 000 metric tons shall constitute the reserve.

Article 4

1. If 90% or more of a Member State's initial quota share specified in Article 3 (1), or of that share less the portion returned to the reserve where Article 6 is applied, has been used up, that Member State shall without delay, by notifying the Commission, draw a second quota share, to the extent that the reserve is sufficient, equal to 15% of its initial quota share, rounded up to the next unit where necessary.

2. If, after its initial quota share has been used up, 90% or more of the second quota share drawn by a Member State has been used up, that Member State shall, in the manner provided for in paragraph 1, draw a third quota share equal to 7.5% of its initial quota share, rounded up where necessary to the next unit.

3. If, after its second quota share has been used up, 90% or more of the third quota share drawn by a Member State has been used up, that Member State shall, in the same manner, draw a fourth quota share equal to the third.

This procedure shall be applied until the reserve is exhausted.

4. Each of the additional quota shares drawn pursuant to Article 4 shall be valid until 31 December 1976.

Article 6

They may return a greater portion if there are grounds for believing that such portion may not be used in full.

The Member States shall, not later than 1 October 1976, notify the Commission of the total quantities of the said goods imported up to and including 15 September 1976, and charged against the appropriate Community tariff quota and any quantities of the initial share returned to the reserve.

The Commission shall keep account of the shares opened by Member States in accordance with Articles 3 and 4 and shall inform each of them of the extent to which the reserve has been used as soon as it receives the notifications.

The Commission shall, not later than 5 October 1976, notify Member States of the amount in the reserve after the return of shares pursuant to Article 6.

The Commission shall ensure that any drawing which uses up the reserve is limited to the balance available and for this purpose shall specify the amount thereof to the Member State which makes the last drawing.
