

COUNCIL REGULATION (EEC) No 1926/78

of 25 July 1978

on the opening, allocation and administration of a Community tariff quota for processing work in respect of certain textile products under Community outward processing arrangements

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas on 1 August 1969 the Community concluded an arrangement with Switzerland on processing traffic in textiles; whereas under that arrangement the Community undertook to open on 1 September of every year an annual duty-free Community tariff quota for processed goods of 1 870 000 units of account of added value, apportioned as follows:

- (a) 1 650 000 units of account for processing work on woven fabrics falling within Chapters 50 to 57 of the Common Customs Tariff,
- (b) 143 000 units of account for the twisting or throwing, cabling and texturizing (whether or not combined with other processing works) of yarns falling within Chapters 50 to 57 of the Common Customs Tariff,
- (c) 77 000 units of account for processing work on products falling within heading Nos 58.04, 58.05, 58.07, 58.08, 58.09 and 60.01 of the Common Customs Tariff;

Whereas, in order that the division of the whole quota into the three categories referred to above shall correspond more exactly with the actual movement of trade during the reference year or during previous quota periods as well as with the foreseeable movement of trade during future quota periods, it has been decided to adjust the said allocation between the three categories by giving them 1 520 000, 123 000 and 227 000 units of account respectively; whereas the application of the European unit of account as from 1 January 1979 to Acts adopted by the institutions of the European Communities nevertheless requires that the quota period be divided into two parts, one being from 1 September to 31 December 1978, and the other from

1 January to 31 August 1979; whereas the Community tariff quota in question should be opened initially for the period 1 September to 31 December 1978 to cover four-twelfths of the annual amounts;

Whereas provision should be made in particular to ensure equal and continuous access for those concerned with this quota and consistent application of the rate of duty prescribed for the said quota until the quota is exhausted, to all goods reimported into any of the Member States and which have received one or other of the treatments listed above; whereas, in the light of these principles, arrangements for the utilization of the quota based on an allocation among the Member States would seem to be consistent with the Community character of the said quota; whereas it therefore seems appropriate to make the allocation on the basis of the amount of the traffic under the previous bilateral agreements, but without precluding participation by Member States not previously involved in such traffic, among which the new Member States are included; whereas, to safeguard the Community character of the quota, provision should be made to meet requirements which may arise in those Member States in the future permitting them to draw adequate amounts from the Community reserve;

Whereas to take account of future trends in the traffic in question in the various Member States, the total quota volume of 623 334 units of account should be divided into two tranches, the first being allocated among certain Member States and the second held as a reserve to cover the subsequent requirements of Member States when one of their initial shares has been exhausted and also, requirements which may arise in certain Member States in respect of processing work for which no initial share of the quota was allocated; whereas, in order to give the parties concerned in each Member State some degree of certainty, it would seem appropriate to fix the first tranche of the Community quota at a relatively high level, namely 546 667 units of account; whereas the total Community reserve of 76 667 units of account shall consist of amounts drawn from the allocations in respect of each category, that is 53 334, 4 333 and 19 000 units of account respectively;

Whereas the Member States may exhaust their initial shares at different rates; whereas to avoid disruption of supplies on this account it should be provided that any

Member State which has almost used up one of its initial shares should draw an additional share from the reserve; whereas each time its additional share is almost exhausted a Member State should draw a further share, and so on, as many times as the reserve allows; whereas the initial and additional shares should be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to keep account of the extent to which the quota has been used up and to inform the Member States accordingly;

Whereas if at a given date during the quota period a considerable quantity of a Member State's initial share remains unused it is essential, to prevent a part of the quota from remaining unused in one Member State while it could be used in others, that such State should return a significant proportion thereof to the reserve;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and jointly represented by the Benelux Economic Union, any transaction in connection with the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 September to 31 December 1978, a Community tariff quota of 623 334 units of account of value added shall be opened in the European Economic Community in respect of goods resulting from processing work as provided for in the arrangement with Switzerland on processing traffic in textiles. 2. For the purposes of this Regulation:

(a) 'processing work' means:

— for the purposes of paragraph 1 (a) and (c): bleaching, dyeing, printing, flocking, impregnating, dressing and other work which changes the appearance or quality of the goods, without however changing their nature,

— for the purposes of paragraph 1 (b): twisting or throwing, cabling and texturizing, whether or not combined with reeling, dyeing or other work which changes the appearance, quality or finish of the goods, without however changing their nature;

(b) 'value added' means: the difference between the value for customs purposes as defined in Regulation (EEC) No 803/68 ⁽¹⁾ at the time of re-importation and the value for customs purposes as it would be if the products were re-imported in the state in which they were exported.

3. Each portion as laid down in paragraph 1 shall be divided into two tranches, the first being allocated among certain Member States in accordance with Article 2 (1) and the second being used to constitute a reserve which shall be common to the three categories of processing.

4. Within this tariff quota, the Common Customs Tariff duties shall be totally suspended.

5. Re-imports of products resulting from this processing work may not be charged to the tariff quota if they are already free of customs duties under other preferential tariff arrangements.

2. The second tranche which amounts to 76 667 units of account shall constitute a Community reserve which may be used for the three categories of processing.

Article 3

In case of need, either in France in respect of the processing work referred to in Article 1 (1) (b), or in any of the new Member States in respect of any of the categories of processing work, the State concerned shall, to the extent that the reserve so permits, draw from such reserve a sufficient share of the quota.

Article 4

1. If a Member State has used 90 % or more of one of its initial shares as fixed in Article 2 (1), or of that share minus any portion returned to the reserve pursuant to Article 6, it shall forthwith, by notifying the Commission draw a second share, to the extent that the relevant reserve so permits, equal to 10 % of its initial share, rounded up as necessary to the next whole number.

2. If a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall, in accordance with the conditions laid down in paragraph 1, draw a third share equal to 5 % of its initial share.

3. If a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, in accordance with the same condition, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is exhausted.

4. Notwithstanding paragraphs 1 to 3, a Member State may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used in full. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

Article 6

The Member States referred to in Article 2 shall, not later than 1 December 1978, return to the reserve the unused portion of their initial share which, on 15 November 1978, is in excess of 20 % of the initial volume. They may return a greater portion if there are grounds for believing that it may not be used in full.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2, 3 and 4 and shall, as soon as the information reaches it, inform each State of the extent to which the reserve has been used up.

It shall, not later than 5 December 1978, inform the Member States of the amounts still in reserve following any return of shares pursuant to Article 6.

It shall ensure that when an amount exhausting this reserve is drawn the amount so drawn does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 8

1. Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to

Article 4 are opened in such a way that re-importation may be charged without interruption against their accumulated shares of the quota.

2. Every Member State shall ensure that all persons established in its territory involved in the processing traffic have free access to the shares allocated to it.

3. The extent to which a Member State has used up its shares shall be determined on the basis of the value added, as established when upon re-importation the products concerned are entered with the customs authorities for home use.

Article 9

At the request of the Commission, the Member States shall inform it of re-importations charged against their shares.

Article 10

Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
