

COMMISSION DECISION

of 21 March 1988

approving aid from France to the coalmining industry during 1988

(Only the French text is authentic)

(88/243/ECSC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Coal and Steel Community,

Having regard to Commission Decision No 2064/86/ECSC of 30 June 1986 establishing Community rules for State aid to the coal industry⁽¹⁾,

Whereas :

I

The French Government informed the Commission by letter of 29 December 1987, pursuant to Article 9 (2) of Decision No 2064/86/ECSC, of financial measures which it intends to implement directly or indirectly for the benefit of current production by the coalmining industry during 1988.

The following financial measure is submitted for the approval of the Commission under the above Decision :

(in million FF)

— Aid to cover operating losses :	1 661,0
— Aid to the Centre d'Etudes et de Recherches des Charbonnages de France (CERCHAR) :	80,0

The aid totalling FF 1 661 000 000 to cover operating losses will cover only part of the difference, for each tonne produced, between foreseeable average costs and the foreseeable average returns. The aid will cover only 51 % of the anticipated operating losses and therefore complies with the conditions of Article 3 (1) of the Decision.

The aid to cover operating losses is aimed at phasing the closure of certain pits. A contribution is thereby made to solving the social and regional problems related to developments in the coal industry pursuant to the third indent of Article 2 (1) of the Decision ;

The French Government proposes to grant aid to CERCHAR for 1988 in order to provide support for technical research in the coalmining sector. The amount

of this aid, which has been in existence for many years and was approved by the Commission as a general measure pursuant to Article 67 of the ECSC Treaty, is FF 80 000 000 ; whereas the conditions for the granting of this aid remain unchanged.

II

The following observations should be made on the compatibility of the proposed aid with the proper functioning of the common market :

- in view of the size of coal and coke stocks, no supply difficulties are likely to occur in 1988,
- deliveries of French coal to other Community countries are very small,
- price alignment agreements with respect to Community producers are unlikely to arise in 1988,
- French coal prices should not, in principle lead to indirect aid to industrial coal users in 1988.

Therefore, the aid proposed in 1988 for current production by the French coal industry is compatible with the proper functioning of the common market.

III

Pursuant to Article 11 (2) of the Decision, the Commission must ensure that the approved aid for current production is used exclusively for the purposes set out in Articles 3 to 6 of the Decision. Consequently, the Commission must be informed in particular of the amount of the payments and the manner in which they are apportioned,

HAS ADOPTED THIS DECISION :

Article 1

France is hereby authorized to grant aid in the amount of FF 1 741 000 000 to the French coalmining industry from 1 January 1988 for the 1988 calendar year.

The total amount shall be made up of the following aids :

1. An amount not exceeding FF 1 661 000 000, in aid to cover operating losses ;

⁽¹⁾ OJ No L 177, 1. 7. 1986, p. 1.

2. An amount not exceeding FF 80 000 000 in aid to the Centre d'Etudes et de Recherche des Charbonnages de France (CERCHAR).

Article 2

The French Government shall inform the Commission by 30 June 1989 of the actual amounts of aid paid in 1988.

Article 3

This Decision is addressed to the French Republic.

Done at Brussels, 21 March 1988.

For the Commission

Nicolas MOSAR

Member of the Commission
