

**COUNCIL REGULATION (EC) No 2200/97**  
**of 30 October 1997**  
**on the improvement of the Community production of apples, pears, peaches and nectarines**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 43 thereof,

Having regard to the proposal from the Commission <sup>(1)</sup>,

Having regard to the opinion of the European Parliament <sup>(2)</sup>,

Whereas a feature of the Community market for apples, pears, peaches and nectarines is a certain mismatch between supply and demand; whereas this situation justifies the re-introduction and extension to pears of the measures to improve Community production introduced for the 1990/91 to 1994/95 marketing years as regards apples and for the 1995 marketing year as regards peaches and nectarines;

Whereas the areas benefiting from this operation should be limited and the least productive orchards should be excluded from it; whereas these areas should be apportioned between the Member States on the basis of the orchard area, production and withdrawals of each Member State; whereas it should be possible to amend this apportionment to optimize the area grubbed up; whereas it is also necessary to allow the Member States to decide on the regions and conditions under which this operation shall apply so that its introduction does not disturb the economic and ecological balance of certain regions;

Whereas the premium, to be paid once only, must be established by taking account of both the cost of grubbing-up and the producer's loss of income;

Whereas the aim of the grubbing-up premium is to achieve the objectives laid down in Article 39 of the Treaty; whereas provision should be made for the measure to be financed by the Guarantee Section of the European Agricultural Guidance and Guarantee Fund (EAGGF),

HAS ADOPTED THIS REGULATION:
