HAS ADOPTED THIS REGULATION:

Article 1

Subject to the provisions of this Regulation the Luxembourg intervention agency issues a standing invitation to tender for the export of barley held by it in accordance with Regulation (EEC) No 2131/93.

⁽²⁾ OJ L 126, 24. 5. 1996, p. 37.

⁽³⁾ OJ L 191, 31. 7. 1993, p. 76.

⁽⁴⁾ OJ L 293, 16. 11. 1996, p. 1.

Article 2

1. The invitation to tender shall cover a maximum of 3 981 tonnes of barley for export to third countries.

2. The regions in which the 3 981 tonnes of barley are stored are set out in Annex I.

Article 3

1. Notwithstanding the third paragraph of Article 16 of Regulation (EEC) No 2131/93, the price to be paid for the export shall be that quoted in the tender.

2. No export refund or tax or monthly increase shall be granted on exports carried out pursuant to this Regulation.

3. Article 8(2) of Regulation (EEC) No 2131/93 shall not apply.

Article 4

1. The export licences shall be valid from their date of issue within the meaning of Article 9 of Regulation (EEC) No 2131/93 until the end of the fourth month thereafter.

2. Tenders submitted in response to this invitation to tender may not be accompanied by export licence applications submitted pursuant to Article 44 of Commission Regulation (EEC) No 3719/88⁽⁵⁾.

Article 5

1. Notwithstanding Article 7(1) of Regulation (EEC) No 2131/93, the time limit for submission of tenders in respect of the first partial invitation to tender shall be 9 a.m. (Brussels time) on 6 August 1998.

⁽⁵⁾ OJ L 331, 2. 12. 1988, p. 1.

removal from storage as the successful tenderer chooses, take reference samples for counter-analysis at the rate of at least one sample for every 500 tonnes and shall analyse the samples. The intervention agency may be represented by a proxy, provided this is not the storer.

The analyses results shall be forwarded to the Commission in the event of a dispute.

Reference samples for counter-analysis shall be taken and analysed within seven working days of the date of the successful tenderer's request or within three working days if the samples are taken on removal from storage. Where the final result of sample analyses indicates a quality:

- (a) higher than that specified in the notice of invitation to tender, the successful tenderer must accept the lot as established;
- (b) higher than the minimum characteristics laid down for intervention but below the quality described in the notice of invitation to tender, providing that the differences having regard to those criteria do not exceed the following limits:
- two kilograms per hectolitre as regards specific weight, which must not, however, be less than 60 kg/hl,
 - one percentage point as regards moisture content,
 - half a percentage point as regards impurities as specified in points B.2 and B.4 of the Annex to Commission Regulation (EEC) No 689/92 ⁽¹⁾, and
 - half a percentage point as regards impurities as specified in point B.5 of the Annex to Regulation (EEC) No 689/92, the percentages admissible for noxious grains and ergot, however, remaining unchanged,

the successful tenderer must accept the lot as established;

- (c) higher than the minimum characteristics laid down for intervention but below the quality described in the notice of invitation to tender, and a difference exceeding the limits set out in point (b), the successful tenderer may:
- accept the lot as established, or
 - refuse to take over the lot in question. The successful tenderer shall be discharged of all his obligations relating to the lot in question and the securities shall be released only once he has informed the Commission and the intervention agency forthwith in accordance with Annex II; however, if he requests the intervention agency to supply him with another lot of intervention barley

of the quality laid down at no additional charge, the security shall not be released. The lot must be replaced within three days of the date of the successful tenderer's request. The successful tenderer shall notify the Commission immediately thereof in accordance with Annex II;

- (d) below the minimum characteristics laid down for intervention, the successful tenderer may not remove the lot in question. He shall be discharged of all his obligations relating to the lot in question and the securities shall be released only once he has informed the Commission and the intervention agency forthwith in accordance with Annex II; however, he may request the intervention agency to supply him with another lot of intervention barley of the quality laid down at no additional charge. In that case, the security shall not be released. The lot must be replaced within three days of the date of the successful tenderer's request. The successful tenderer shall immediately inform the Commission thereof in accordance with Annex II.

2. However, if the barley is removed before the results of the analyses are known, all risks shall be borne by the successful tenderer from the time the lot is removed, without prejudice to any means of redress of which he may avail himself against the storer.

3. If, as a result of successive replacements, the successful tenderer has not received a replacement lot of the quality laid down within one month of the date of his request for a replacement, he shall be discharged of all his obligations and the securities shall be released once he has informed the Commission and the intervention agency forthwith in accordance with Annex II.

4. Except where the final results of analyses indicate a quality below the minimum characteristics laid down for intervention, the costs of taking the samples and conducting the analyses provided for in paragraph 1 but not of inter-bin transfers shall be borne by the EAGGF in respect of up to one analysis per 500 tonnes. The costs of inter-bin transfers and any additional analyses requested by the successful tenderer shall be borne by him.
