

COMMISSION REGULATION (EC) No 994/2002

of 11 June 2002

opening and providing for the administration of an import tariff quota for frozen beef intended for processing (1 July 2002 to 30 June 2003)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1254/1999 of 17 May 1999 on the common organisation of the market in beef and veal ⁽¹⁾, as last amended by Commission Regulation (EC) No 2345/2001 ⁽²⁾, and in particular Article 32(1) thereof,

Whereas:

- (1) The WTO schedule CXL requires the Community to open an annual import tariff quota of 50 700 tonnes of frozen beef intended for processing. Implementing rules should be laid down for the quota year 2002 to 2003 starting 1 July 2002.
- (2) The import of frozen beef under the tariff quota shall qualify for the total suspension of the specific rate of customs duty where the meat is intended for the manufacture of preserved food, which does not contain characteristic components other than beef and jelly. Where the meat is intended for other processed products containing beef, the import shall qualify for a 55 % suspension of the autonomous specific rate of customs duty. The breakdown of the tariff quota into each of the arrangements referred to above should be made taking into account the experience gained in respect of similar imports in the past.
- (3) So as to avoid speculation, access to the quota should be allowed only to active processors carrying out processing in a processing establishment approved in accordance with Article 8 of Council Directive 77/99/EEC ⁽³⁾, as last amended by Directive 97/76/EC ⁽⁴⁾.
- (4) Imports into the Community under the present tariff quota are subject to presentation of an import licence. Licences may be issued following allocations of import rights on the basis of applications from eligible processors. Subject to the provisions of this Regulation, the provisions of Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and

export licences and advance fixing certificates for agricultural products ⁽⁵⁾, as amended by Regulation (EC) No 2299/2001 ⁽⁶⁾, and Commission Regulation (EC) No 1445/95 of 26 June 1995 on rules of application for import and export licences in the beef and veal sector and repealing Regulation (EEC) No 2377/80 ⁽⁷⁾, as last amended by Regulation (EC) No 2492/2001 ⁽⁸⁾, shall apply to import licences issued under this Regulation.

- (5) In order to prevent speculation, import licences should be issued to processors solely for the quantities for which they have been allocated import rights. Moreover, for the same reason, security should be lodged together with the application for import rights. The application for import licences corresponding to the allocated rights should be a primary requirement within the meaning of Commission Regulation (EEC) No 2220/85 of 22 July 1985 laying down common detailed rules for the application of the system of securities for agricultural products ⁽⁹⁾, as last amended by Regulation (EC) No 1932/1999 ⁽¹⁰⁾.
- (6) With a view to using up quota quantities completely, a closing date should be set for the submission of import licence applications and provision should be made for a further allocation of quantities not covered by licence application submitted by that date. In the light of the experience obtained, that allocation should be limited to processors who have converted all their import rights initially allocated into import licences.
- (7) The application of the present tariff quota requires strict surveillance of imports and effective checks as to their use and destination. The processing should therefore be authorised only in the establishment referred to in box 20 of the import licence.
- (8) A security shall be lodged in order to ensure that the imported meat is used according to the tariff quota specifications. The amount of security should be fixed taking into account the difference between the customs duties applicable within and outside the quota.

Furthermore, the application shall be lodged by, or on behalf of a processing establishment approved pursuant to Article 8 of Directive 77/99/EEC. For each quantity referred to in Article 1(2) only one application for import rights which shall not exceed 10 % of each quantity available may be accepted in respect of each approved processing establishment.

Article 6

1. Quantities for which import licence applications have not been lodged by 21 February 2003 shall be subject to a further allocation of import rights.

To that end, by 28 February 2003, Member States shall forward to the Commission details of the quantities for which no applications have been received.

2. The Commission shall decide as soon as possible on the breakdown of those quantities into those intended for A-products and those intended for B-products. In doing so, the actual utilisation of the import rights allocated pursuant to Article 3 under each of the two categories may be taken into account.

3. The allocation of the remaining quantities shall be limited to processors who have applied for import licences in respect of all the import rights granted to him in application of Article 3.

4. For the purposes of this Article, Articles 2 to 5 shall apply. However, the date for application referred to in Article 3(2) shall be 21 March 2003 and the date for communication referred to in Article 3(3) shall be 28 March 2003.

Article 7

For the purposes of this Regulation:

- (a) an A-product shall be defined as a processed product falling within CN code 1602 10, 1602 50 31, 1602 50 39 or 1602 50 80, not containing meat other than that of animals of the bovine species, with a collagen/protein ratio of no more than 0,45 % ⁽¹⁾ and containing by weight at least 20 % ⁽²⁾ of lean meat excluding offal ⁽³⁾ and fat with meat and jelly accounting for at least 85 % of the total net weight.

The product must be subjected to a heat treatment sufficient to ensure the coagulation of meat proteins in the whole of the product which may not show any traces of a pinkish liquid on the cut surface when the product is cut along a line passing through its thickest part;

- (b) a B-product shall be defined as a processed product containing beef, other than:
- one specified in Article 1(1)(a) of Council Regulation (EC) No 1254/1999, or
 - one referred to under (a).

However, a processed product falling within CN code 0210 20 90 which has been dried or smoked so that the colour and consistency of the fresh meat has totally disappeared and with a water/protein ratio not exceeding 3,2 shall be considered to be a B-product.

Article 8

Member States shall set up a system of physical and documentary supervision to ensure that all meat is processed into the category of product specified on the import licence concerned.

⁽¹⁾ Determination of collagen content: the collagen content shall be taken to mean the hydroxyproline content multiplied by the factor 8. The hydroxyproline content must be determined according to ISO method 3496-1994.

⁽²⁾ The lean bovine meat content excluding fat is determined in accordance with the procedure laid down in the Annex to Commission Regulation (EEC) No 2429/86 (OJ L 210, 1.8.1986, p. 39).

⁽³⁾ Offal includes the following: heads and cuts thereof (including ears), feet, tails, hearts, udders, livers, kidneys, sweetbreads (thymus glands and pancreas), brains, lungs, throats, thick skirts, spleens, tongues, caul, spinal cords, edible skin, reproductive organs (i.e. uteri, ovaries and testes), thyroid glands, pituitary glands.

The system must include physical checks of quantity and quality at the start of the processing, during the processing and after the processing operation is completed. To this end, processors shall at any time be able to demonstrate the identity and use of the imported meat through appropriate production records.

Technical verification of the production method by the competent authority may, to the extent necessary, make allowance for drip losses and trimmings.

In order to verify the quality of the finished product and establish its conformity with the processor's recipe Member States shall proceed to representative samplings and analysis of those products. The costs of such operations shall be born by the processor concerned.

Article 9

1. The security referred to in Article 4(5) shall be released in proportion to the quantity for which, within seven months, proof has been furnished to the satisfaction of the competent authority that all or part of the imported meat has been processed into the relevant products within three months following the day of importation in the designated establishment.

However,

- (a) if processing took place after the abovementioned three-month time limit, the security shall be released minus:
- 15 %, and
 - 2 % of the remaining amount for each day by which the time limit has been exceeded;
- (b) if proof of processing is established within the abovementioned seven-month time limit and is produced within 18 months following those seven months, the amount forfeited less 15 % of the security amount shall be repaid.

2. The amount of security not released shall be forfeited and retained as a customs duty.

Article 10

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Communities*.
