

## COMMISSION DECISION

of 5 April 2006

**amending Decision 2005/432/EC laying down the animal and public health conditions and model certificates for imports of meat products for human consumption from third countries and repealing Decisions 97/41/EC, 97/221/EC and 97/222/EC***(notified under document number C(2006) 1319)***(Text with EEA relevance)**

(2006/330/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/118/EEC of 17 December 1992 laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(I) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC <sup>(1)</sup>, and in particular Article 10(2)(c) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption <sup>(2)</sup>, and in particular the introductory phrase of Article 8, the first paragraph of Article 8(1), Article 8(4) and Articles 9(2)(b), (4)(b) and (c) thereof.

Whereas:

(1) Council Decision 79/542/EEC of 21 December 1976 drawing up a list of third countries or parts of third countries, and laying down animal and public health and veterinary certification conditions, for importation into the Community of certain live animals and their fresh meat <sup>(3)</sup> establishes the animal health conditions for imports into the Community of live animals, excluding equidae, and of fresh meat of such animals but excluding meat preparations.

(2) Commission Decision 2005/432/EC <sup>(4)</sup> lays down animal and public health rules on imports into the Community of consignments of certain meat products, including the lists of third countries and parts of third countries from which imports of such products are to be authorised. That Decision also lays down the model public and animal health certificates and rules on treatments required for those products.

(3) It is necessary to ensure that there is proper correlation with the regionalisation, where applicable, of third countries, and in particular of Brazil, Namibia and South Africa, for the purposes of importing fresh meat into the Community, in order to ensure that any meat used in meat products does not come from animals from premises subject to restrictions on grounds of disease, to clarify the use of offal in certain meat products and to spell out clearly the requirements for meat of game birds used in meat products.

(4) Serbia and Montenegro are Republics with their own customs territories, which together form a State Union. They should therefore be entered separately on the list of third countries and parts of third countries from which imports of meat products are to be authorised.

(5) Decision 2005/432/EC should therefore be amended accordingly.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1*

Decision 2005/432/EC is amended as follows:

1. Article 4 is replaced by the following:

*'Article 4***Animal health conditions concerning the origin and treatment of the meat products**

Subject to compliance with the conditions concerning the origin and treatment of the meat products set out in Annex I(1) and (2), Member States shall authorise imports of meat products originating in the following third countries and parts of third countries:

<sup>(1)</sup> OJ L 62, 15.3.1993, p. 49. Directive as last amended by Commission Regulation (EC) No 445/2004 (OJ L 72, 11.3.2004, p. 60).

<sup>(2)</sup> OJ L 18, 23.1.2003, p. 11.

<sup>(3)</sup> OJ L 146, 14.6.1979, p. 15. Decision as last amended by Commission Decision 2006/259/EC (OJ L 93, 31.3.2006, p. 65).

<sup>(4)</sup> OJ L 151, 14.6.2005, p. 3.

(a) in the case of meat products not subject to a specific treatment as referred to in point 2(a)(ii) of Annex I, the third countries listed in Part 2 of Annex II and the parts of third countries listed in Part 1 of that Annex;

(b) in the case of meat products subject to a specific treatment as referred to in point 2(a)(ii) of Annex I, the third countries listed in Parts 2 and 3 of Annex II and the parts of third countries listed in Part 1 of that Annex.;

2. Annexes I, II and III are replaced by the text in the Annex to this Decision.

*Article 2*

This Decision shall apply from 1 July 2006.

However, animal and public health certificates issued before the date of application of this Decision may be used until 1 October 2006.

*Article 3*

This Decision is addressed to the Member States.

Done at Brussels, 5 April 2006.

## ANNEX

## 'ANNEX I

1. Meat products originating in the third countries or parts of third countries referred to in Article 4(a) shall contain meat eligible for import into the Community as fresh meat and/or meat products derived from one or more of the species or animals which have undergone a non-specific treatment as set out in Part 4 of Annex II.
  2. Meat products originating in the third countries or parts of third countries referred to in Article 4(b) shall comply with the following conditions set out in (a), (b) or (c).
    - (a) the meat products must:
      - (i) contain meat and/or meat products derived from a single species or animal as set out under the relevant column in Parts 2 and 3 of Annex II indicating the species or animal concerned; and
      - (ii) have undergone at least the specific treatment required for meat of that species or animal as set out in Part 4 of Annex II; or
    - (b) the meat products must:
      - (i) contain fresh, processed or partly processed meat of more than one species or animal as set out under the relevant column of Parts 2 and 3 of Annex II which are mixed prior to undergoing their final treatment as set out in Part 4 of Annex II; and
      - (ii) the final treatment referred to in (i) must be at least as severe as the most severe treatment set out in Part 4 of Annex II for meat of the species or animals concerned as set out under the relevant column in Parts 2 and 3 of Annex II; or
    - (c) the final meat products must:
      - (i) be prepared by mixing previously treated meat of more than one species or animal; and
      - (ii) the previous treatment referred to in (i) which each meat component of the meat product has undergone must have been at least as severe as the relevant treatment set out in Part 4 of Annex II for the species or animal concerned as set out under the relevant column.
  3. The treatments set out in Part 4 of Annex II shall constitute the minimum acceptable processing conditions for animal health purposes for meat derived from the relevant species or animal originating in the third countries or parts of third countries listed in Annex II. However, in cases where offal is not authorised owing to animal health restrictions, it may be used in a meat product provided the relevant treatment referred to in Part 2 of Annex II is carried out. In addition, an establishment may be authorised to produce meat products that have undergone treatments B, C or D as referred to in Part 4 of Annex II, even where that establishment is located in a third country or part of a third country that is not authorised for imports into the Community of fresh meat.

## TREATMENTS REFERRED TO IN ANNEX I

*Non-specific treatment:*

A = No minimum specified temperature or other treatment is established for animal health purposes for the meat product. However, the meat must have undergone a treatment such that its cut surface shows that it no longer has the characteristics of fresh meat and the fresh meat used must also satisfy the animal health rules applicable to exports of fresh meat into the Community.

*Specific treatments listed in descending order of severity:*

B = Treatment in a hermetically sealed container to an  $F_0$  value of three or more.

C = A minimum temperature of 80 °C which must be reached throughout the meat during the processing of the meat product.

D = A minimum temperature of 70 °C which must be reached throughout the meat during the processing of meat products, or for raw ham, a treatment consisting of natural fermentation and maturation of not less than nine months and resulting in the following characteristics:

—  $A_w$  value of not more than 0,93,

— pH value of not more than 6,0.

E = In the case of "biltong"-type products, a treatment to achieve:

—  $A_w$  value of not more than 0,93,

— pH value of not more than 6,0.

F = A heat treatment ensuring that a centre temperature of at least 65 °C is reached for a period of time as necessary to achieve a pasteurisation value (pv) equal to or above 40.
