#### Article 6

The intervention agency, the storer and the successful tenderer shall, at the request of the latter and by common agreement, either before or at the time of removal from storage as the tenderer chooses, take reference samples for counter-analysis at the rate of at least one sample for every 500 tonnes and shall analyse the samples. The intervention agency may be represented by a proxy, provided this is not the storer.

Reference samples for counter-analysis shall be taken and analysed within seven working days of the date of the successful tenderer's request or within three working days if the samples are taken on removal from storage.

In the event of a dispute, the analysis results shall be forwarded electronically to the Commission.

#### Article 7

1. The successful tenderer must accept the lot as established if the final result of the sample analyses indicates a quality:

- (a) higher than that specified in the notice of invitation to tender;
- (b) higher than the minimum characteristics laid down for intervention but below the quality described in the notice of invitation to tender, providing that the differences having regard to those criteria do not exceed the following limits:

- one kilogram per hectolitre as regards specific weight, which must not, however, be less than 64 kg/hl,
- one percentage point as regards moisture content,
- half a percentage point as regards the impurities referred to in points B.2 and B.4 of Annex I to Commission Regulation (EC) No 824/2000 <sup>(1)</sup>,

2. If the final result of the analyses carried out on the samples indicates a quality higher than the minimum characteristics laid down for intervention but below the quality described in the notice of invitation to tender and the difference exceeds the limits set out in paragraph 1(b), the successful tenderer may:

- (a) accept the lot as established, or
- (b) refuse to take over the lot concerned.

In the case of (b) above, the successful tenderer shall be discharged of all obligations relating to the lot in question and the securities shall be released provided the Commission and the intervention agency are immediately notified using the form in Annex I.

3. Where the final result of sample analyses indicates a quality below the minimum characteristics laid down for intervention, the successful tenderer may not remove the lot in question. The successful tenderer shall be discharged of all obligations relating to the lot in question and the securities shall be released provided the Commission and the intervention agency are immediately notified using the form in Annex I.

#### Article 8

Should the cases mentioned in Article 7(2)(b) and 7(3) arise, the successful tenderer may ask the intervention agency to supply an alternative lot of barley of the requisite quality, at no extra cost. In that case, the security shall not be released. The lot must be replaced within three days of the date of the successful tenderer's request. The successful tenderer shall immediately inform the Commission thereof using the form in Annex I.

If, following successive replacements, the successful tenderer has not received a replacement lot of the quality laid down within one month of the date of the request for a replacement, the successful tenderer shall be discharged of all obligations and the securities shall be released, provided the Commission and the intervention agency have been immediately informed using the form in Annex I.

The costs of inter-bin transfers and any additional analyses requested by a successful tenderer shall be borne by that tenderer.

*Article 10*

By way of derogation from Article 12 of Commission Regulation (EEC) No 3002/92, the documents relating to the sale of barley under this Regulation, and in particular the export licence, the removal order referred to in Article 3(1)(b) of Regulation (EEC) No 3002/92, the export declaration and, where applicable, the T5 copy shall carry one of the entries set out in Annex II.

Half of the security shall be lodged when the licence is issued and the balance shall be lodged before the cereals are removed.

*Article 12*

Within two hours of the expiry of the time-limit for the submission of tenders, the Estonian intervention agency shall electronically notify the Commission of tenders received. This notification shall be made by e-mail, using the form in Annex III.
