REGULATIONS

COUNCIL REGULATION (EC) No 215/2008

of 18 February 2008

on the Financial Regulation applicable to the 10th European Development Fund

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its Member States, of the other part, signed in Cotonou on 23 June 2000 ⁽¹⁾ and revised in Luxembourg on 25 June 2005 ⁽²⁾ (the ACP-EC Agreement),

Having regard to Council Decision 2001/822/EC of 27 November 2001 on the association of the overseas countries and territories with the European Community (the Overseas Association Decision) ⁽³⁾, and in particular the fourth paragraph of Article 23 thereof,

Having regard to Decision No 1/2006 of the ACP-EC Council of Ministers of 2 June 2006 specifying the multiannual financial framework for the period 2008 to 2013 and modifying the revised ACP-EC Agreement ⁽⁴⁾,

Having regard to the Internal Agreement between the Representatives of the Governments of the Member States, meeting within the Council, on the financing of Community aid under the multiannual financial framework for the period 2008 to 2013 in accordance with the ACP-EC Agreement and on the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the EC Treaty applies ⁽⁵⁾ (the Internal Agreement) and in particular Article 10(2) thereof,

Having regard to Council Regulation (EC) No 617/2007 of 14 May 2007 on the implementation of the 10th European Development Fund under the ACP-EC Partnership Agreement ⁽⁶⁾,

Having regard to the proposal from the Commission,

Having regard to the opinion of the Court of Auditors ⁽⁷⁾,

Having regard to the opinion of the European Investment Bank,

Whereas:

- (1) It is necessary to determine the detailed rules for the payment of contributions by the Member States to the 10th European Development Fund (the EDF), set up by the Internal Agreement, and for the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the EC Treaty applies (OCTs).
- (2) Rules should be laid down for the treatment of the balances remaining from the previous EDFs, in particular as regards the detailed arrangements for their transfer to the 10th EDF and the rules applicable for their implementation, or the consequences of their decommitment in relation with Member States contributions.
- (3) It is necessary to lay down the conditions in accordance with which the Court of Auditors must exercise its powers in respect of the EDF.
- (4) It is necessary to lay down the conditions in accordance with which the European Investment Bank (EIB) manages EDF resources.
- (5) The provisions concerning scrutiny by the Court of Auditors of the EDF resources managed by the EIB should comply with the Tripartite Agreement concluded between the Court of Auditors, the EIB and the Commission provided for in Article 248(4) of the Treaty.
- (6) It is appropriate to ensure the proper, prompt and efficient execution of programmes and projects financed under the ACP-EC Agreement and to establish management procedures which are transparent and easy to apply, and which facilitate the decentralisation of tasks and responsibilities.

- (7) The parties to the ACP-EC Agreement have reaffirmed their commitment to the social and ethic clauses as defined by the relevant International Labour Organisation (ILO) Conventions,
- (8) It is necessary to establish the detailed rules in accordance with which the authorising officer by delegation establishes the necessary arrangements to ensure the proper execution of operations, in close cooperation with the National Authorising Officer.
- (9) As far as possible, Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽¹⁾ should, as the cornerstone of the reform of the Commission's internal management, be taken into account in this Regulation, for reasons of efficiency and simplification. If appropriate Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽²⁾ should be applied *mutatis mutandis* in certain cases.
- (10) All changes in comparison with the Financial Regulation of 27 March 2003 applicable to the Ninth European Development Fund ⁽³⁾ should contribute to achieving the objectives of the Commission's reforms, should improve or ensure sound financial management, and should enhance the protection of the financial interests of the Community against fraud and other illegal activities, and thus enhance legality and regularity of financial operations.
- (11) Some changes in comparison with the Financial Regulation for the Ninth EDF are necessary in the light of practical experience in order to facilitate EDF implementation and the realisation of the underlying policy objectives and to adjust some procedural and documentary requirements. Transparency, in particular, has to be reinforced by providing for information on beneficiaries of Community funds.
- (12) The principle of sound financial management should imply effective and efficient internal control for the implementation of EDF resources.
- (13) As regards EDF resources, it should be made possible for Member States to make voluntary financial contributions to help achieve the objectives of the ACP-EC Partnership Agreement outside co-financing arrangements, as provided for in Regulation (EC) No 617/2007.
- (14) The principle of specification should apply to the EDF.
- (15) As regards the methods of implementation of the EDF resources, the provisions on centralised, decentralised and joint management as laid down in the Financial Regulation for the Ninth EDF should be restructured for the purpose of clarity and some requirements should be made clearer. In particular, the requirements for joint management, the conditions for the delegation of tasks and the criteria for using national public-sector bodies should be simplified in order to facilitate their use and to respond to growing operational needs.
- (16) The prohibition on delegating implementation tasks to private bodies should be adjusted in respect to centralised management because the terms of that prohibition have turned out to be unnecessarily strict. It should be possible for the Commission to engage the services of a travel agency or a conference organiser to take charge of reimbursing the costs of participants at conferences, provided that care is taken to ensure that no discretionary powers are exercised by the private company.
- (17) As regards the accounting officer, his responsibility for certifying the accounts on the basis of the financial information supplied to him by the authorising officers has to be made clearer. To this end, the accounting officer should be empowered to check the information received by the authorising officer by delegation and to enter reservations, if necessary.
- (18) The conditions and limitations regarding financial liability of all financial actors and any other person involved in EDF implementation should be clarified.
- (19) The rules on recovery of amounts receivable should be clarified and strengthened in order to better safeguard the financial interests of the Communities. In particular, the conditions in which interest on late payments is due to the EDF should be specified.
- (20) Provision should be made for periods of limitation on the validity of claims. The Community, unlike many of its Member States, is not subject to a period of limitation under which financial claims are extinguished after a certain period of time. Nor is the Community restricted by a period of limitation in the pursuit of its claims against third persons. The introduction of such periods of limitation should correspond to the principle of sound financial management.
- (21) In line with the general Financial Regulation and Directive 2004/18/EC of the European Parliament and the Council of 31 March 2004 on the coordination of procedures for the

⁽²⁾ OJ L 357, 31.12.2002, p. 1. Regulation as last amended by Regulation (EC, Euratom) No 478/2007 (OJ L 111, 28.4.2007, p. 13).

⁽³⁾ OJ L 83, 1.4.2003, p. 1.

award of public works contracts, public supply contracts and public service contracts ⁽¹⁾, the rules on exclusion from a procurement procedure need to be clarified. A clear distinction should be made between mandatory exclusion and exclusion on the basis of an administrative penalty. In addition, for reasons of legal certainty and proportionality, a maximum period of exclusion should be laid down. An exception to the rules on exclusion may be provided for as regards the purchase of supplies on particularly advantageous terms from either a supplier which is definitively winding up its business activities, or the receivers or liquidators of a bankruptcy, an arrangement with creditors, or a similar procedure under national law.

- (22) It is appropriate to allow the use of the central database concerning candidates or tenderers in situations of exclusion set up under Regulation (EC, Euratom) No 1605/2002 in the context of the EDF.
- (23) As regards grants, some clarifications need to be made in Article 103, in particular as regards their scope. To improve the management of grants and to simplify procedures, it should be possible to award grants either by decisions of the institution or by written agreements with beneficiaries, and to authorise the use of lump sum and flat-rate payments alongside the more traditional method of reimbursing costs actually incurred. Finally, requirements for checks and guarantees should be more proportionate to the financial risks involved.

- (24) The rule that grants should be awarded on the basis of calls for proposals has proved its worth. Experience has shown, however, that in certain situations the nature of the action leaves no choice in the selection of beneficiaries. It should therefore be expressly recognised that such exceptional cases arise.
- (25) Where grants are given for running costs, the rule that the necessary agreement may not be signed more than four months after the start of the beneficiary's financial year has proven unnecessarily rigid. That deadline should therefore be fixed at six months.
- (26) As grants should continue to be awarded on the basis of selection and award criteria, there is no need to have those criteria evaluated in all cases by a committee. Other more flexible means should be allowed for the evaluation of the selection criteria.
- (27) For the sake of clarity, the rule concerning the procurement requirements to be applied by beneficiaries of grants should be simplified. Moreover, it should be expressly provided for the case in which the implementation of an action necessitates financial support to third parties,

PART ONE

MAIN PROVISIONS

TITLE I

SUBJECT MATTER AND SCOPE

Article 1

This Regulation lays down the rules for the establishment and financial implementation of the resources of the 10th European Development Fund (EDF), and the presentation and auditing of the accounts.

Article 2

1. The Commission shall assume the responsibilities of the Community defined in Article 57 of the ACP-EC Agreement and in the Overseas Association Decision.

To that end, it shall undertake the financial implementation of operations carried out with EDF resources allocated in the form of non-repayable aid, excluding interest rate subsidies, and make payments in accordance with this Regulation.

2. For the purposes of the application of this Regulation, the Commission shall act on its own responsibility and within the limits of the resources allocated.

Article 3

The European Investment Bank (EIB), acting on behalf of the Community, shall manage the Investment Facility, as well as interest rate subsidies, and shall conduct operations there under, in accordance with the rules set out in Part Two. In that context, the EIB shall act on behalf of and at the risk of the Community.

The EIB shall undertake the financial implementation of operations carried out by means of loans from its own resources, where applicable combined with interest rate subsidies drawn from the EDF's grant resources.

Article 4

The provisions of this Part and Part Three shall apply exclusively to the financial implementation of the EDF resources managed by the Commission. Those provisions may not be interpreted as giving rise to any obligations on the Commission's part in respect of the financial implementation of EDF resources managed by the EIB.

Article 5

1. Unless otherwise specified, references in this Regulation to the ACP States shall be deemed to refer also to the bodies or representatives defined in Articles 13 and 14 of Annex IV to the ACP-AC Agreement, which they may duly mandate to exercise their responsibilities under that Agreement.

2. The financial year shall begin on 1 January and end on 31 December.

TITLE II

FINANCIAL PRINCIPLES

Article 6

EDF resources shall be established and implemented in compliance with the following principles as set out in this Regulation:

- (a) financial accuracy;
- (b) unit of account;
- (c) specification;
- (d) sound financial management;
- (e) transparency.

CHAPTER 1

Principle of financial accuracy

Article 7

1. No revenue shall be collected and no expenditure effected unless booked to an allocation of the EDF.
2. No expenditure may be committed or authorised in excess of the allocations.
3. Interest yielded by the funds which are the property of the EDF shall be entered as EDF revenue.

Article 8

1. Interest generated by pre-financing payments shall be assigned to the programme or the action concerned and deducted from the payment of the balance of the amounts due to the beneficiary.
2. Interest shall not be due to the Communities in the following cases:
 - (a) pre-financing which does not represent a significant amount;
 - (b) pre-financing paid under a procurement contract within the meaning of Article 91;
 - (c) advances paid to members of the institutions and to staff in accordance with the Staff Regulations of officials of the European Communities and the Conditions of employment of other servants of the European Communities (the Staff Regulations);
 - (d) pre-financing paid in the framework of joint management as referred to in Article 20(1)(c).
3. Articles 3, 4 and 4a of Regulation (EC, Euratom) No 2342/2002 shall apply *mutatis mutandis* to the implementation of paragraphs 1 and 2.

CHAPTER 2

Principle of the unit of account

Article 9

1. EDF resources shall be drawn up and implemented in euro and the accounts shall be presented in euro.

However, for the treasury management purposes referred to in Article 39, the accounting officer may carry out operations in euro or in other currencies.

2. Articles 7 and 8 of Regulation (EC, Euratom) No 2342/2002 shall apply *mutatis mutandis* to the implementation of paragraph 1.

CHAPTER 3

Principle of specification

Article 10

EDF resources shall be earmarked for specific purposes according to the main instruments of cooperation, as described in the Financial Protocol of the ACP-EC Agreement and in the Overseas Association Decision.

In respect of the ACP States, those instruments are laid down by the Financial Protocol set out in Annex Ib to the ACP-EC Agreement. Earmarking of resources shall also be based on the provisions of the Internal Agreement and shall take account of the resources reserved for support expenditure linked to programming and implementation under Article 6 thereof.

In respect of the OCTs, those instruments are laid down in Annex IIA bis to the Overseas Association Decision. Earmarking of those resources shall also take account of the non-allocated reserve provided for in Article 3(4) of that Annex and of the resources reserved for studies or technical assistance measures under Article 1(1)(c) thereof.

CHAPTER 4

Principle of sound financial management

Article 11

1. EDF resources shall be used in accordance with the principles of sound financial management, namely in accordance with the principles of economy, efficiency and effectiveness.

2. The principle of economy requires that the resources used for the pursuit of activities shall be made available in due time, in appropriate quantity and quality and at the best price.

The principle of efficiency is concerned with the best relationship between resources employed and results achieved.

The principle of effectiveness is concerned with attaining the specific objectives set and achieving the intended results.

3. Specific, measurable, achievable, relevant and timed objectives shall be set. The achievement of those objectives shall be monitored by performance indicators.

Article 12

In order to improve decision-making, in particular to justify and specify the determination of the contributions to be paid by Member States referred to in Article 57, the following evaluations are required:

- (a) the use of EDF resources shall be preceded by an *ex ante* evaluation of the operation to be undertaken;
- (b) the operation shall be submitted to an *ex post* evaluation with a view to ensuring that the intended results justify the means deployed.

Article 13

1. The principle of sound financial management required that EDF resources shall be implemented in compliance with effective and efficient internal control as appropriate in each management mode.

2. For the purposes of the implementation of EDF resources, internal control is defined as a process applicable at all levels of the management and designed to provide reasonable assurance on the achievement of the following objectives:

- (a) effectiveness, efficiency and economy of operations;
- (b) reliability of reporting;
- (c) safeguarding of assets and information;
- (d) prevention and detection of fraud and irregularities;
- (e) adequate management of the risks relating to the legality and regularity of the underlying transactions, taking into account the multiannual character of programmes as well as the nature of the payments concerned.

CHAPTER 5

Principle of transparency

Article 14

1. EDF resources shall be established and implemented and the accounts presented in compliance with the principle of transparency.

2. The annual estimates of commitments and payments under Article 7 of the Internal Agreement, together with the EDF accounts referred to in Article 118 of this Regulation, shall be published in the *Official Journal of the European Union*.

3. The Commission shall make available, in an appropriate manner, information on the beneficiaries of funds deriving from the EDF held by it when EDF resources are implemented on a centralised basis and directly by its departments, and information on the beneficiaries of funds as provided by the entities to which financial implementation tasks are delegated under other modes of management.

This information shall be made available with due observance of the requirements of confidentiality, in particular the protection of personal data as laid down in Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data ⁽¹⁾ and Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2001 on the protection of individuals with regard to the processing of personal data ⁽²⁾ by the Community institutions and bodies and on the free movement of such data, and of the requirements of security, taking into account the specificities of each management mode referred to in Article 20.

TITLE III

RESOURCES AND MEMBER STATES CONTRIBUTIONS

CHAPTER 1

Composition of EDF resources

Article 15

The EDF resources shall consist of the amounts laid down in Article 1 of the Internal Agreement.

Article 16

1. The Commission may manage financial contributions from Member States and other donor countries on their behalf, including in both cases their public and parastatal agencies, or from international organisations to certain projects or programmes financed by the EDF, in accordance with Article 9(1) and (2) of Regulation (EC) No 617/2007.

2. The Commission may also manage voluntary financial contributions from Member States in accordance with Article 9(4) and (5) of Regulation (EC) No 617/2007 and any specific arrangements laid down in relevant bilateral contribution agreements.

3. The additional resources as defined in paragraphs 1 and 2 shall be managed according to the same rules as the EDF resources.

TITLE IV

IMPLEMENTATION OF EDF RESOURCES

CHAPTER 1

General provisions

Article 17

The Commission may, within its own departments, delegate its powers to implement EDF resources, in accordance with the conditions laid down by this Regulation and by its internal rules and within the limits set by the Commission in the instrument of delegation. Those so empowered may act only within the limits of the powers expressly conferred upon them.

⁽¹⁾ OJ L 281, 23.11.1995, p. 31.

⁽²⁾ OJ L 8, 12.1.2001, p. 1.

Article 18

1. All financial actors and any other person involved in the implementation, management, audit or control of EDF resources shall be prohibited from taking any action which may bring their own interests into conflict with those of the Community. Should a conflict of interests arise, the person in question shall refrain from such an action and refer the matter to the competent authority.

2. There is a conflict of interests where the impartial and objective exercise of the functions of a financial actor or other person, as referred to in paragraph 1, is compromised for reasons involving family, emotional life, political or national affinity, economic interest or any other shared interest with the beneficiary.

3. Article 34 of Regulation (EC, Euratom) No 2342/2002 shall apply *mutatis mutandis* to the implementation of paragraphs 1 and 2.

Article 19

For the purposes of this Title, the term 'staff' refers to persons covered by the Staff Regulations.

CHAPTER 2

Methods of implementation

Section 1

General provisions

Article 20

1. The Commission shall implement EDF resources in accordance with the provisions set out in Articles 21 to 29 in any of the following ways:

- (a) by decentralised management;
- (b) by centralised management;
- (c) by joint management with international organisations.

2. Chapter 2 'methods of implementation' of Part I, Title IV of Regulation (EC, Euratom) No 2342/2002 shall apply *mutatis mutandis* to the implementation the present Chapter.

Section 2

Decentralised management

Article 21

As a general rule, the Commission shall undertake the financial implementation of EDF resources by one of the following:

- (a) by means of decentralised management with the ACP States in accordance with the conditions set out in the ACP-EC Agreement and applying the breakdown of responsibilities provided for in Article 57 of that Agreement and Articles 34, 35 and 36 of Annex IV thereto;

(b) by means of decentralised management with the OCTs in accordance with the conditions set out in the Overseas Association Decision and in the measures implementing that Decision.

Article 22

1. In the context of decentralised management, the Commission shall undertake the financial implementation of EDF resources in accordance with the detailed rules laid down in paragraphs 2, 3 and 4. As provided for in the case of centralised management, the Commission may delegate residual tasks to bodies referred to in Article 25(2) to (5).

2. The beneficiary ACP States or OCTs shall:

(a) conduct regular checks to ensure that the actions to be financed by EDF resources have been implemented correctly;

(b) take appropriate measures to prevent irregularities and fraud and, if necessary, bring legal proceedings to recover funds wrongly paid.

3. In order to ensure that funds are used in accordance with the applicable rules and within the limits of powers thereby conferred upon it, the Commission shall apply clearance-of-accounts procedures or financial correction mechanisms which enable it to discharge its obligations under the ACP-EC Agreement, in particular under Article 34(1) of Annex IV thereto, and under the Overseas Association Decision, in particular under Articles 20 and 32 thereof.

4. Partner countries and territories to which implementation tasks are delegated shall ensure, in conformity with Article 14(3), adequate annual *ex post* publication of beneficiaries of funds deriving from the EDF.

Article 23

The implementation by ACP States and OCTs of operations financed from EDF resources shall be subject to Commission scrutiny.

That scrutiny may be exercised by prior approval, by *ex post* checks or by a combined procedure, in accordance with the provisions of the ACP-EC Agreement, the Overseas Association Decision and the measures implementing that Decision.

Article 24

Depending on the degree of decentralisation provided for in the ACP-EC Agreement, the Overseas Association Decision and the measures implementing that Decision, the Commission shall strive to encourage the beneficiary ACP States and the OCTs to adhere, when exercising the powers entrusted to them under the ACP-EC Agreement and under the Overseas Association Decision, to the principle of sound financial management set out in Article 11, in particular the progressive application of the following criteria:

(a) transparent procurement and grant-awarded procedures, which are non-discriminatory and exclude any conflict of interests;

(b) an effective and efficient internal control system for the management of operations, which includes effective segregation of the duties of authorising officer and accounting officer or of the equivalent functions;

(c) an accounting system that enables the correct use of EDF resources to be verified and the use of funds to be reflected in the EDF accounts;

(d) an independent external audit exercised by a national institution for independent external auditing;

(e) in the case of the direct-labour operations referred to in Article 101(1), adequate provisions for the management and scrutiny of local imprest accounts and for the definition of the responsibilities of the local imprest manager and the local accounting officer.

For the purposes of applying the first subparagraph, the Commission shall, in agreement with the beneficiary ACP States and OCTs, incorporate appropriate provisions in the financing agreements referred to in Article 70(3).

Section 3

Centralised management

Article 25

1. Where the Commission implements EDF resources on a centralised basis, implementation tasks shall be performed either directly by its departments or indirectly, in accordance with paragraphs 2 to 4 of this Article and with Articles 26 to 29.

Indirect implementation, in accordance with paragraphs 2 to 4 of this Article and with Article 27 to 29 also applies in the case of delegation of residual tasks to bodies referred to in paragraph 3 of this Article in the case of decentralised management.

2. The Commission may not delegate to third parties the executive powers it enjoys under the ACP-EC Agreement or the Overseas Association Decision where those powers involve a large measure of discretion implying political choices. The implementing tasks delegated shall be clearly defined and fully supervised as to the use made of them.

The delegation of financial implementation tasks shall comply with the principle of sound financial management and shall ensure compliance with the visibility of Community action. No implementation tasks delegated in this way may give rise to conflicts of interests.

3. Within the limits laid down in paragraph 2, the Commission may delegate tasks of public authority, and in particular financial implementation tasks, to the following:

(a) the executive agencies established in accordance with Council Regulation (EC) No 58/2003 ⁽¹⁾;

⁽¹⁾ OJ L 11, 16.1.2003, p. 1.

- (b) national public-sector bodies or bodies governed by private law with a public-service mission and providing adequate financial guarantees for the implementation of the tasks assigned to them.

The Commission may draw on the EDF resources in order to pay financial compensation to these bodies for the administrative costs incurred.

The Commission shall inform annually the Council of the cases, agencies and bodies concerned. It shall provide commensurate motivation of the use of national agencies.

4. Implementation of the corresponding EDF resources by an agency referred to in paragraph 3(a) shall be carried out by the director of that agency.

5. Where the agencies and bodies referred to in paragraph 3 perform implementation tasks, they shall conduct regular checks to ensure that the actions to be financed from EDF resources have been implemented correctly.

Such agencies and bodies shall take appropriate measures to prevent irregularities and fraud and if necessary bring legal proceedings to recover funds wrongly paid or incorrectly used.

Article 26

TITLE VI

DIRECT LABOUR AND INDIRECT DECENTRALISED OPERATIONS

Article 100

This Title shall govern the direct labour and indirect decentralised operations provided for in Article 24 of Annex IV to the ACP-EC Agreement. It shall apply *mutatis mutandis* to financial cooperation with the OCTs.

Article 101

1. In the case of direct labour operations, projects and programmes shall be implemented directly through public departments of the ACP States concerned.

The Community shall contribute to the costs of those departments by providing the equipment and/or materials that they lack and/or the resources to acquire any additional staff required, such as experts from within the ACP States concerned or other ACP States. The Community's participation shall cover only costs incurred by supplementary measures and temporary expenditure relating to execution that are strictly confined to the requirements of the project in question.

The financial management of a project implemented by direct labour in accordance with the first and second subparagraphs shall be carried out by local imprest accounts administered by a local imprest manager and a local accounting officer, appointed by the national or regional authorising officer with the prior approval of the Commission's authorising officer responsible.

2. In the case of indirect decentralised operations, the contracting authority within the meaning of Article 92(1)(a) shall entrust tasks relating to the implementation of projects or programmes to bodies governed by public laws of the ACP States concerned or bodies governed by private law that are legally distinct from the ACP States concerned.

In such cases, the body concerned shall assume responsibility for the management and implementation of the programme or project in place of the national or regional authorising officer. Tasks so delegated may include the power to conclude contracts and manage contracts and the supervision of works on behalf of or for the account of the ACP States concerned.

3. Direct labour and indirect decentralised operations shall be implemented on the basis of a programme of measures to be carried out and an estimate of their cost (the programme estimate). The programme estimate is a document laying down the programme of measures to be carried out and the human and material resources required, the corresponding budget and the detailed technical and administrative implementing arrangements for decentralised execution of a project over a specified period by direct labour and, possibly, by means of public procurement and the award of specific grants.

Each programme estimate shall be prepared by the local imprest manager and the local accounting officer referred to in the third subparagraph of paragraph 1, in the case of direct labour operations, or by the body referred to in paragraph 2, in the case of indirect decentralised operations. It shall then be approved by the national or regional authorising officer and the Commission's authorising officer responsible before the activities it provides for commence.

4. In the context of the implementation of the programme estimates referred to in paragraph 3, the procurement and grant award procedures shall comply with those referred to in Titles V and VII respectively.

5. The financing agreements referred to in Article 70(3) must make provision for the implementation of direct labour operations or indirect decentralised operations.

Article 102

In the case of indirect decentralised operations the contracting authority referred to in Article 92(1)(a) shall conclude a delegation agreement when entrusting implementation tasks to a body governed by public laws of the ACP States concerned or by private law with a public service mission. It shall conclude a service contract when entrusting those tasks to a body governed by private law. The Commission shall ensure that the delegation agreement or service contract sets out:

- (a) adequate provisions for scrutiny of the use of EDF resources by the Commission, OLAF, the national or regional authorising officer, the Court of Auditors and the national audit bodies of the ACP States concerned;
- (b) a clear definition and precise delimitation of the powers delegated to the body concerned and the powers retained by the national or regional authorising officer;
- (c) the procedures to be followed in exercising the powers so delegated, such as the selection of actions to be financed, the award of contracts or the supervision of works;
- (d) the possibility of *ex post* review and financial penalties where the granting of funds or award of contracts by the body concerned does not correspond to the procedures laid down in point (c);
- (e) an effective and efficient internal control system for the management of operations, which includes effective segregation of the duties of authorising officer and accounting officer;
- (f) an accounting system that enables the correct use of EDF resources to be verified and the use of funds to be reflected in the EDF accounts.

TITLE VII

Scope and form of grants

Article 103

1. Grants are direct financial contributions, by way of donation, from EDF resources in order to finance:

- (a) either an action intended to help achieve an objective of the ACP-EC Agreement or the Overseas Association Decision, or of a programme or project adopted in accordance with that Agreement or in accordance with that Decision;
- (b) or the functioning of a body which pursues such an objective.

They shall be covered either by a written agreement or by a Commission decision notified to the successful applicant.

CHAPTER 2

Principles

Article 105

1. Grants shall be subject to the principles of transparency and equal treatment.

They may not be cumulative or awarded retrospectively and they must involve co-financing.

On no account may the combined total costs eligible, as specified in the grant agreement, for financing be exceeded.

2. Grants may not have the purpose or effect of producing a profit for the beneficiary.

Paragraph 2 shall not apply to the following:

- (a) study, research or training scholarships paid to natural persons;
- (b) prizes awarded following contests;
- (c) actions the objective of which is the reinforcement of the financial capacity of a beneficiary or the generation of an income.

Article 106

1. Grants shall be subject to an annual work programme, to be published at the start of the year.

That annual work programme shall be implemented through the publication of calls for proposals, save in duly substantiated exceptional cases of urgency or where the characteristics of the beneficiary or of the action leave no other choice for a given action, or where the beneficiary is identified in the ACP-EC Agreement and the Overseas Association Decision as recipient of a grant.

The first subparagraph shall not apply to crisis management aid and humanitarian aid operations.

2. All grants awarded in the course of a financial year shall be published annually with due observance of the requirements of confidentiality and security.

Article 107

1. Each action may give rise to the award of only one grant from EDF resources to any one beneficiary.

2. A beneficiary may be awarded only one operating grant per financial year from EDF resources.

The applicant shall immediately inform the authorising officers of any multiple applications and multiple grants relating to the same action or to the same work programme.

In no circumstances shall the same costs be financed twice by EDF resources.

Article 108

1. A grant may be awarded for an action which has already begun only if the applicant can demonstrate the need to start the action before the grant is awarded.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application, save in duly substantiated exceptional cases or in the case of expenditure necessary for the proper implementation of crisis management aid or humanitarian aid operations, as provided for in the ACP-EC Agreement or the Overseas Association Decision.

No grant may be awarded retrospectively for actions already completed.

2. An operating grant shall be awarded within six months after the start of the beneficiary's budget year. Costs eligible for financing may neither have been incurred before the grant application was lodged nor before the start of the beneficiary's budget year.

Article 109

The grant may not finance the entire costs of the action, except if this proves essential for it to be carried out.

The grant may not finance the entire operating expenditure of the beneficiary body.

CHAPTER 3

Award procedure

Article 110

1. Grant applications shall be submitted in writing.

2. Grant applications shall be eligible if they are submitted by the following persons:

- (a) legal persons; grant applications may be eligible if submitted by entities which do not have legal personality under the applicable national law, provided that their

representatives have the capacity to undertake legal obligations on their behalf and assume financial liability;

(b) natural persons in so far as this is required by the nature or characteristics of the action or the objective pursued by the applicant.

3. Grants may not be awarded to applicants who are, at the time of a grant award procedure, in one of the situations of exclusion referred to in Articles 96(1) and 97, and in Article 99(2)(a).

Applicants shall certify that they are not in one of the situations referred to in the first subparagraph. However, the authorising officer may refrain from requiring such certification for very low valued grants.

4. The authorising officer may impose administrative and financial penalties which shall be effective, proportionate and dissuasive on the applicant.

Such penalties may also be imposed on beneficiaries who at the moment of the submission of the application or during the implementation of the grant, have made false declarations in supplying the information required by the authorising officer or fail to supply this information.

Article 99 shall apply *mutatis mutandis*.

Article 111

1. The selection criteria shall be such as to make it possible to assess the applicant's ability to complete the proposed action or work programme.

2. The award criteria announced in advance in the call for proposals shall be such as to make it possible to assess the quality of the proposals submitted in the light of the objectives and priorities set.

Article 112

1. Proposals shall be evaluated, on the basis of pre-announced selection and award criteria, with a view to determining which proposals may be financed.

2. The authorising officer responsible shall then, on the basis of the evaluation provided for in paragraph 1, draw up the list of beneficiaries and the amounts approved.

3. The authorising officer responsible shall inform applicants in writing of the decision on their application. If the grant requested is not awarded, he shall give the reasons for the rejection of the application, with reference in particular to the selection and award criteria already announced.

CHAPTER 4

Payment and control

Article 113

The pace of payments shall be determined by the financial risks involved, the duration and progress of the action, or the costs incurred by the beneficiary.

Article 114

The authorising officer responsible may, if he deems it appropriate and proportionate, require the beneficiary to lodge a guarantee in advance in order to limit the financial risks connected with the payment of pre-financing.

Article 115

1. The amount of the grant shall not become final before the Commission has accepted the final reports and accounts, without prejudice to subsequent checks by the Commission.

2. Should the beneficiary fail to comply with his obligations, the grant shall be suspended or reduced or terminated after the beneficiary has been given the opportunity to make his observations.

CHAPTER 5

Implementation

Article 116

1. Where implementation of the action requires the award of procurement contracts by the beneficiary, the grant agreements referred to in Article 103(1) shall make provision for procedures that comply with the Community rules on procurement applicable to cooperation with non-member countries.

2. Where implementation of the action requires financial support to be given to third parties, the beneficiary of a grant may give such financial support provided that the following conditions are met:

- (a) the financial support is not the primary aim of the action;
- (b) the conditions for the giving of such support are strictly defined in the grant decision or agreement between the beneficiary and the Commission, with no margin for discretion;
- (c) the amounts concerned are small.

3. Each grant decision or agreement shall provide expressly for the Commission, OLAF and the Court of Auditors to exercise their powers of control, on documents and on the premises, over all contractors and subcontractors who have received financial assistance from EDF resources.

Article 117

In the context of decentralised management, referred to in Articles 21 to 24, the Commission shall strive to encourage management by the beneficiary ACP States and OCTs that is aimed at applying provisions equivalent to those laid down in this Title.
