Remarks

This appropriation is intended to cover:

- expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects,
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff), up to EUR 2 285 000. This amount is calculated on the basis of a unit annual cost per person/year, 97 % of the total comprising the remuneration for the staff in question and 3 % the costs of training, meetings, missions, information technology and telecommunications in connection with such staff,
- expenditure on studies, meetings of experts, missions, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

Remarks

This appropriation is intended to cover the following:

- statistical data collection and surveys, studies and development of indicators and benchmarks,
- quality studies and activities designed to improve the quality of statistics,
- the processing, dissemination, promotion and marketing of statistical information,
- the development and maintenance of statistical infrastructure and statistical information systems,
- the development and maintenance of IT infrastructure supporting the reengineering of the statistical production process,
- risk-based control work at the sites of entities involved in the production of statistical information in Member States, especially to support the economic governance of the Union,

**CHAPTER 29 02 — THE EUROPEAN STATISTICAL PROGRAMME** (*cont'd*)**29 02 01** (*cont'd*)

- support to collaborative networks and support to organisations having as their primary objectives and activities the promotion and support for the implementation of the European Statistics Code of Practice and the implementation of new methods of production of European statistics,
- services rendered by external experts,
- statistical training courses for statisticians,
- the cost of purchasing documentation,
- subsidies and subscriptions to international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up an annual summary report on the economic and social state of the Union on the basis of economic data and structural indicators and benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation in the field of statistics with third countries; expenditure relating to exchanges of officials, the costs of information meetings, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside databases.

In addition, funding should be used to develop new, modular techniques.

This appropriation is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the Multiannual Financial Framework) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contributions for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

This appropriation covers expenditure relating to officials and temporary staff implementing research and innovation programmes — Horizon 2020, occupying posts on the authorised establishment plans engaged in indirect action under the non-nuclear programmes, including officials and temporary staff posted in Union delegations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Legal basis*

See Chapter 32 04.

*Remarks*

This appropriation is intended to cover other administrative expenditure for all management of research and innovation programmes — Horizon 2020, in the form of indirect action under the non-nuclear programmes, including other administrative expenditure incurred by staff posted in Union delegations.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures coming under this item and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

It is also intended to cover expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects, such as conferences, workshops, seminars, development and maintenance of IT systems, missions, training and representation expenses.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Remarks*

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01 and XX 01 03 01 and Article 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

COMMISSION  
TITLE 32 — ENERGY

**CHAPTER 32 01 — ADMINISTRATIVE EXPENDITURE IN THE ‘ENERGY’ POLICY AREA** (*cont’d*)

**32 01 07** (*cont’d*)

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of that charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

*Legal basis*

Treaty establishing the European Atomic Energy Community, and in particular Articles 52, 53 and 54 thereof.

*Reference acts*

Council Decision 2008/114/EC, Euratom of 12 February 2008 establishing Statutes for the Euratom Supply Agency (OJ L 41, 15.2.2008, p. 15), and in particular Articles 4, 6 and 7 of the Annex thereto.

*Remarks*

This appropriation is intended to cover the cost of the Union contribution to financial instruments established under the Connecting Europe Facility to enable or facilitate access to long-term financing or private investors' resources and thus to accelerate or to make possible the financing of projects of common interest eligible under Regulation (EU) No 347/2013 of the European Parliament and of the Council of 17 April 2013 on guidelines for trans-European energy infrastructure and repealing Decision No 1364/2006/EC and amending Regulations (EC) No 713/2009, (EC) No 714/2009 and (EC) No 715/2009 (OJ L 115, 25.4.2013, p. 39). The financial instruments will be set up as 'debt' or 'equity' frameworks following an *ex ante* assessment as required by Article 224 of Commission Delegated Regulation (EU) No 1268/2012. They are intended to be implemented under direct management mode by the entrusted entities, within the meaning of the Financial Regulation, or jointly with the entrusted entities.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of a competitive, safe and sustainable European energy policy, of the internal energy market and its extension to third countries, of all aspects of energy supply security in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

The principal endorsed objectives are to set up a progressive common European policy ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of energy market, analysis of modelling including scenarios on the impact of considered policies and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation, as well as expenditure on information and communication, conferences and events promoting activities in the energy sector, and also electronic and paper publications directly linked to the achievement of the objective of the energy policy.

*Remarks*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

- measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructure of the European system of energy generation and transmission,
- approximation of legislation, technical standards and administrative monitoring practices relating to energy security,

**CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY** (*cont'd*)**32 02 03** (*cont'd*)

- definition of common indicators, methods and security objectives for the energy sector and collection of the data necessary for such definition,
- monitoring of measures taken on energy security by national authorities, operators and other key actors in the field,
- international coordination on energy security, including neighbouring supplier and transit countries and other world partners,
- promoting technology development in energy security.

This appropriation may also cover expenditure on information and communication, as well as electronic and paper publications directly linked to the achievement of the objective of this article.

*Remarks*

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue under Article 21(3)(c) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project aims to increase the total efficiency of district heating and cooling networks, in developing a next generation district heating and cooling, through:

- intelligent use and control of distributed energy storage systems in the network,
- improved design and smart control of substations in the building working at low-temperature heating and high-temperature cooling, and
- intelligent control of the overall network including renewable sources (primarily solar thermal, geothermal, waste heat), thermal energy demand of the connected buildings and both distributed and collective thermal energy storage systems.

CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY (*cont'd*)

32 02 77 (*cont'd*)

32 02 77 06 (*cont'd*)

The first wave of deliverables provides the initial study work (2014/2015) and includes:

- a smart control algorithm for distributed thermal energy storage and substations,
- a low-cost system to determine the state of charge of compact distributed thermal energy storage systems in the buildings,
- improved low-temperature substation design, and
- an overall control scheme to cope with the imbalance between multiple (unpredictable) renewable heat sources and thermal energy needs of the connected buildings.

The global aim is to increase the overall efficiency of the thermal network and to reduce the primary energy consumption of the back-up system for heating (gas-fired boiler) and cooling (chiller) by at least 20 %.

The second wave consists of the implementation on a site of approximately 60 buildings, some of which are to be connected within the framework of the pilot project in 2014/2015. Total emission savings because of network optimisation (= storage + substations + control) are estimated at 1 021 tonnes per year. The emission savings of using renewables have not (yet) been included in the calculations, as the focus is on the next-generation network.

CHAPTER 32 02 — CONVENTIONAL AND RENEWABLE ENERGY (*cont'd*)32 02 77 (*cont'd*)32 02 77 07 (*cont'd*)*Remarks*

In connection with emergency plans to ensure Union energy supply security and reduce dependence on energy imports, special protection should be given to vulnerable consumers hit by energy poverty. Energy used in buildings accounts for 40 % of energy use within the Union. Financing deep renovation of buildings was recently recognised as a key European and Structural Fund priority for improving energy efficiency and thereby energy security. However, optimum ways of mobilising financing to support specific low-cost energy efficiency measures that could be implemented relatively quickly in low-income households still need to be found. Such financing measures, using any available Union funds and budget lines, would help vulnerable consumers to reduce their energy needs without reducing their standard of living. A financing feasibility study will be carried out. The objectives of the study will include determining what is needed in practice to make Union funds available to this group of citizens for such short-term measures, properly taking into account social and economic impacts (creation of local jobs, reduction of consumers' bills, etc.), barriers represented by split incentives between tenants and building owners, complementarity with longer-term energy efficiency measures and the financing already available at Union and national level.

*Remarks*

The pilot project will assess the impact of the economic and financial crisis on energy poverty in the Union, focusing in particular on Member States where this issue has not yet been examined and/or addressed by policy measures.

It will also analyse existing data on those affected by fuel poverty, the measures put in place by Member States and definitions and indicators.

*Action to be funded*

A study looking at:

- the possibility of introducing a definition of energy poverty based on common parameters adjusted to take account of the specific circumstances in each Member State,
- the possibility of setting up specific financial schemes regarding energy costs for the most vulnerable households (such as fair energy pricing, support on a one-off basis or as part of other social assistance, action to prevent non-payment of bills and protection against the cutting-off of supplies),
- the possibility of establishing specific regional or national funds to reduce energy poverty, which could be funded by means of a financial contribution from energy providers which reflects their obligation to reduce consumption pursuant to Directive 2012/27/EU,
- incentives and instructive measures to help residents save energy,
- the use of effective, long-term financial leverage to make residential buildings more energy-efficient in both urban and rural areas, while ensuring that this does not lead to a significant increase in housing costs for tenants once energy savings have been taken into account; the Commission will coordinate these efforts and examine the possibility of introducing incentives,
- how energy efficiency measures to tackle energy poverty can also help prevent health problems (such as respiratory and cardiovascular conditions, allergies, asthma, food and carbon monoxide poisoning, and impacts on mental health),
- tariff compositions in Member States, including the recent introduction of higher taxes on energy,
- measures put in place in Member States.

This appropriation is intended to cover, in particular:

- expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),
- training of inspectors, and meetings with Member States and nuclear operators,
- purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal-reader systems,
- procurement and renewal of information technology hardware for inspections,
- specific information technology projects for inspections (development and maintenance),

- technical infrastructure measures, including waste management and sample transport,
- on-site analyses (labour costs and mission expenses for analysts),
- agreements on working premises on site (laboratories, offices, etc.),
- day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),
- information technology support and tests for applications for inspections.

The following will also give rise to the provision of additional appropriations in accordance with Article 21(3) of the Financial Regulation:

- paid insurance claims,
- repayment of sums unduly paid by the Commission for goods, work or services.

This appropriation may also cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

*Remarks*

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,
- expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections,
- expenditure linked to the implementation of the Commission's tasks referred to in point 31 of the European Council conclusions of 24 and 25 March 2011.

This appropriation may also cover expenditure on information and publications directly linked to the achievement of the objectives coming under this article.

*Legal basis*

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Chapter 3 of Title II and Article 174.

COMMISSION  
TITLE 32 — ENERGY

**CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY** (*cont'd*)

*Remarks*

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the framework programme for research and innovation, which covers the 2014 to 2020 period.

Horizon 2020 activities, in particular those addressed under the societal challenge 'Secure, Clean and Efficient Energy', but also relevant parts of other sections of the programme, including 'Access to Finance', implemented in line with the Union's energy policy framework, as well as the European Strategic Energy Technology Plan (SET-Plan) and the communication on Energy Technologies and Innovation, will contribute primarily to the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource-efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 will contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

Horizon 2020 will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively, and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

**CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY** (*cont'd*)

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 32 04 50 01.

Administrative appropriations of this chapter will be provided under Article 32 01 05.

**32 04 03 Societal challenges***Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks*

This appropriation is intended to support the implementation of the societal challenge 'Secure, Clean and Efficient Energy' of the Horizon 2020 priorities, in line with the Union's energy policy, the European Strategic Energy Technology Plan (SET-Plan) and the communication on Energy Technologies and Innovation. These initiatives are primarily addressing energy efficiency, wind, solar, bioenergy, carbon capture and storage (CCS), smart cities and electricity grids. In recognition of their important contribution to future sustainable energy systems, at least 85 % of the budget appropriations over the period 2014-2020 will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids and energy storage.

Market uptake measures will be supported through an Intelligent Energy Europe III programme to build capacity, improve governance and overcome market barriers so that energy efficiency and renewable energy solutions can be rolled out, thus contributing to improving energy security in the Union. Part of the appropriations in the overall energy challenge budget will therefore be spent on market uptake activities for existing renewable and energy efficiency technologies within the programme, carried out by a dedicated management structure, and will include support for sustainable energy policy implementation, capacity building and mobilisation of financing for investment, in line with what has been done to date.

*Remarks*

This appropriation is intended to cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the Rights, Equality and Citizenship Programme (the 'Programme') and the achievement of its objectives; in particular, studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union, as far as they are related to the general objectives of the programme, expenses linked to IT networks focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the Programme.

In particular, this appropriation is intended to cover:

- expenditure on technical and administrative assistance for the implementation of measures to achieve equality between men and women and tackling the particular needs of disabled people,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the Programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the Programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

## Remarks

The new Rights, Equality and Citizenship Programme is the successor to three previous programmes: Fundamental Rights and Citizenship, Daphne III, and the Antidiscrimination and Diversity and Gender Equality sections of the Programme for Employment and Social Solidarity (Progress). The objective of the Rights, Equality and Citizenship Programme is to contribute to the further development of an area where equality and the rights of persons as enshrined in the Treaty on European Union, in the Treaty on the Functioning of the European Union, in the Charter of Fundamental Rights of the European Union, and in the international human rights conventions to which the Union has acceded, are promoted, protected and effectively implemented.

COMMISSION  
TITLE 33 — JUSTICE

**CHAPTER 33 02 — RIGHTS, EQUALITY AND CITIZENSHIP** (*cont'd*)

**33 02 01** (*cont'd*)

*Remarks*

This appropriation is intended to contribute to preventing and combating all forms of violence against children, young people and women, as well as violence against other groups at risk, in particular groups at risk of violence in close relationships, and to protect victims of such violence (under 'Daphne'); to promoting and protecting the rights of the child; to ensuring the highest level of protection of privacy and personal data; to promoting and enhancing the exercise of rights deriving from citizenship of the Union; and to enabling individuals in their capacity as consumers or entrepreneurs in the internal market to enforce their rights deriving from Union law, having regard to the projects funded under the Consumer Programme.

In particular, this appropriation is intended to cover the following types of action:

- analytical activities, such as the collection of data and statistics, where appropriate disaggregated by gender; the development of common methodologies and, where appropriate, indicators or benchmarks; studies, research, analyses and surveys; evaluations; the elaboration and publication of guides, reports and educational material; workshops, seminars, experts' meetings and conferences,
- training activities incorporating a gender-sensitive perspective, such as staff exchanges, workshops, seminars, train-the-trainer events and the development of online training tools or other training modules,
- mutual learning, cooperation, awareness-raising and dissemination activities, such as the identification of, and exchanges concerning, good practices, innovative approaches and experiences; the organisation of peer reviews and mutual learning; the organisation of conferences, seminars, media campaigns, including in the online media, information campaigns, including institutional communication on the political priorities of the Union as far as they relate to the objectives of the Rights, Equality and Citizenship Programme (the 'Programme'); the compilation and publication of materials to disseminate information about the Programme and its results; the development, operation and maintenance of systems and tools using information and communication technologies,
- support for main actors whose activities contribute to the implementation of the objectives of the Programme, such as support for NGOs in the implementation of actions with European added value, support for key European actors, European-level networks and harmonised services of social value; support for Member States in the implementation of Union law and policies; and support for networking activities at European level among specialised bodies and entities as well as national, regional and local authorities and NGOs, including support by way of action grants or operating grants.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2).

This appropriation is also intended to cover the operational expenditure (Title 3) of the Agency, which is responsible for providing the relevant Union institutions and authorities of the Member States when implementing Union law with assistance and expertise relating to fundamental rights in order to support them when they take measures or formulate courses of action within their respective spheres of competence to fully respect fundamental rights.

The Agency can be expected to achieve the following operational objectives/tasks:

- provision of assistance to Union institutions and the Member States,

**CHAPTER 33 02 — RIGHTS, EQUALITY AND CITIZENSHIP** (*cont'd*)**33 02 06** (*cont'd*)

- promotion of networking of stakeholders and dialogue at European level,
- promotion and dissemination of information and awareness-raising activities to enhance visibility on fundamental rights,
- effective functioning of the management structure and implementation of operations.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

Regulation (EC) No 168/2007 entered into force on 1 March 2007. On that date, the Agency replaced the European Monitoring Centre on Racism and Xenophobia (EUMC) and legally succeeded it, assuming all the Centre's legal rights and obligations, financial commitments, liabilities, and employment contracts, as laid down in Article 23(4) of Regulation (EC) No 168/2007.

The Union contribution for 2015 amounts to a total of EUR 21 229 000. An amount of EUR 74 000 from the recovery of surplus is added to the amount of EUR 21 155 000 entered in the budget.

Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project will give relevant actors in relevant Member States an opportunity to develop a web-based knowledge platform on female genital mutilation (FGM). This platform should be developed for and by professionals in the field of health, child protection, asylum, migration, police and judiciary who are dealing with women and girls living with, or at risk of, FGM and for the media. Other important partners include national and regional authorities, as well as civil society organisations. Such a platform will give easily accessible information and support to professionals so as to deliver victim support more effectively, help prevent FGM and protect women and girls living with, or at risk of, FGM. In addition, it will contribute to implementing Directive 2012/29/EU of the European Parliament and of the Council of 25 October 2012 establishing minimum standards on the rights, support and protection of victims of crime, and replacing Council Framework Decision 2001/220/JHA (OJ L 315, 14.11.2012, p. 57) and Directive 2013/32/EU of the European Parliament and of the Council of 26 June 2013 on common procedures for granting and withdrawing international protection (OJ L 180, 29.6.2013, p. 60), with particular reference to eligibility and reception conditions.

An all-encompassing web-based knowledge platform on FGM for professionals in Europe will be developed on the basis of e-learning tools with separate modules for each government body and authority. It will be developed in the languages of the participating countries, with common information for all Member States and country-specific legislation and contact points. Modules will be developed for police and judicial authorities and professionals in a wide range of areas (social workers, child protection, reception centres, migration services, education and media). This could be complemented by guidelines for professionals in need of immediate advice. This tool will help improve knowledge of the practice, prevent stigmatisation in the media and protect women and girls living with, or at risk of, FGM.

CHAPTER 33 02 — RIGHTS, EQUALITY AND CITIZENSHIP (*cont'd*)33 02 77 (*cont'd*)33 02 77 09 (*cont'd*)*Remarks*

The EU Framework for National Roma Integration Strategies calls upon Member States to include strong monitoring mechanisms and involve civil society, including Roma organisations, in the implementation and monitoring of the strategies. Capacity-building is needed to prepare local Roma civil society organisations to contribute to the planning and implementation of the programmes. The pilot project would contribute to the creation and capacity building of local Roma civil society as well as a monitoring mechanism regarding Roma integration and inclusion especially the production and dissemination of 'shadow reports' where civil society coalitions could supplement or present alternative information and data to the reports submitted by Member States concerning the implementation of their strategies. These shadow reports could provide local knowledge to national and Union policy processes and reflect on the real social impact of government measures. The monitoring would focus on the local implementation of strategies in the four priority areas (employment, education, housing, health), in the fields of anti-discrimination and gender equality and would also provide information on the level of involvement of civil society, the use of Union funds and mainstreaming of Roma inclusion measures.

*Remarks*

The pilot project will establish and support an independent expert group to carry out a fundamental rights review of any existing Union legislation, instrument or agreement with third parties that involves the collection, retention, storage or transfer of personal data.

In the light of the main conclusion of the European Court of Justice judgment in Joined Cases C-293/12 and C-594/12 quashing the data retention directive, and taking into account current moves towards adopting Union data protection reform proposals presented by the Commission on 25 January 2012, the pilot project will support the activities of a group of independent experts responsible for reviewing the compliance of Union data collection instruments and mechanisms with the Charter of Fundamental Rights of the European Union, with particular attention being paid to the application of the proportionality principle and to an assessment of relevant safeguards for the fundamental rights to privacy and the protection of personal data.

The expert group's activities will include:

- cataloguing existing Union legislation (and any related national transposition laws), law-enforcement instruments and cooperation, and third-party agreements involving the collection, retention, storage or transfer of personal data,
- a legal analysis and fundamental rights review in the light of the most recent Union case law in the field of privacy and the protection of personal data,
- analysing and assessing compound effects of existing Union data collection programmes, with a view to identifying potential fundamental rights loopholes and interference with those rights,
- drawing up specific policy recommendations for each element identified and reviewed.

The independent expert group will include the data protection supervisory authorities, including the European Data Protection Supervisor, and draw on their expertise.

On the basis of the specific policy recommendations produced, the expert group will also draw up general guidelines for Union data collection instruments and mechanisms.

*Remarks*

This appropriation is intended to contribute to supporting and promoting judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture and, to facilitating effective access to justice for all, including to promoting and supporting the rights of victims of crime, while respecting the rights of the defence.

In particular, this appropriation is intended to cover the following types of actions:

- analytical activities, such as the collection of data and statistics; the development of common methodologies and, where appropriate, indicators or benchmarks; studies, research, analyses and surveys; evaluations; the elaboration and publication of guides, reports and educational material; workshops, seminars, experts meetings and conferences,
- training activities, such as staff exchanges, workshops, seminars, train-the-trainer events, including language training on legal terminology, and the development of online training tools or other training modules for members of the judiciary and judicial staff,
- mutual learning, cooperation, awareness-raising and dissemination activities, such as the identification of, and exchanges concerning, good practices, innovative approaches and experiences; the organisation of peer reviews and mutual learning; the organisation of conferences, seminars, information campaigns, including institutional communication on the political priorities of the Union as far as they relate to the objectives of the Justice Programme (the 'Programme'); the compilation and publication of materials to disseminate information about the Programme and its results; the development, operation and maintenance of systems and tools, using information and communication technologies, including the further development of the European e-Justice portal as a tool to improve citizens' access to justice,
- support for main actors whose activities contribute to the implementation of the objectives of the Programme, such as support for Member States in the implementation of Union law and policies, support for key European actors and European-level networks, including in the field of judicial training; and support for networking activities at European level among specialised bodies and entities as well as national, regional and local authorities and non-governmental organisations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover Eurojust's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

Eurojust must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Eurojust's establishment plan is set out in Annex 'Staff' to this section.

The Union contribution for 2015 amounts to a total of EUR 32 994 000. An amount of EUR 410 000 coming from the recovery of surplus is added to the amount of EUR 32 584 000 entered in the budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The aim is to fund projects at Union level which raise the awareness of children of their rights in the context of civil, criminal and administrative judicial proceedings

To this effect projects should develop and roll out comprehensive awareness-raising programmes in schools targeting secondary school children. In particular this could include interactive activities (such as mock trials/moot courts) that allow secondary school students to understand their rights, with some degree of customisation for each participating country to take account of the national context. Projects should enable children to experience the phases of mock criminal, civil or administrative cases, and improve their understanding of the various roles and responsibilities (e.g. child subject to proceedings, witness, guardian, parent, lawyer, prosecutor, judge, social worker, police officer, etc.) as well as their own rights.

In order to ensure optimal implementation of the projects, they should be prepared with and involve children, teachers and staff in a participatory and empowering manner and have the prior commitment of participating schools to facilitate the activities.

Remarks

This appropriation under the climate sub-programme of the LIFE Programme is intended to cover expenditure on studies, meetings of experts, workshops, conferences, evaluations, information technology, information, communication material and Eurobarometer surveys, and publications and any other technical or administrative assistance expenditure not involving public authority tasks outsourced by the Commission and service contracts in support of identification, selection, preparation, management, monitoring, evaluation, audit and supervision of programmes and projects. It is also intended to provide support to international climate events and to activities to which the Union is party and to preparatory work for future international agreements involving the Union.

In particular, it is intended to cover:

- hosting, maintenance, security, quality assurance, operation and support (hardware, software and services) of information technology (IT) systems supporting the climate policy objectives, such as the EU Single Registry, EU Transaction Log and IT systems related to the implementation of legislation on the protection of the ozone layer such as Regulation (EC) No 1005/2009 of the European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer (OJ L 286, 31.10.2009, p. 1) and Regulation (EU) No 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006 (OJ L 150, 20.5.2014, p. 195),
- publications and activities to disseminate results and best practices arising from LIFE projects, thereby supporting their sustainability, and meetings of experts and project beneficiaries (advice on management of projects, networking, sharing results and best practices),
- development, maintenance, operation and support of adequate information technology (IT) systems for communication, selecting, evaluating, monitoring, reporting on projects and disseminating results of projects,
- the engagement of IT experts *intra muros* to support the development, quality assurance, testing and security of critical policy supporting IT systems.

Under the climate action sub-programme of the LIFE Programme, this appropriation is intended to finance measures to support the Commission's role in developing, implementation and enforcement of policy and legislation and monitoring its implementation in the area of climate action, including the monitoring of mainstreaming across policy areas by developing, testing and demonstrating policy or management approaches, best practises, solutions for the climate, to improve the knowledge base (development, assessment, monitoring, evaluation) of effective climate mitigation and enhance its capacity to apply in practise, to facilitate development and implementation of integrated approaches and action plans at local, regional or national level and to contribute to the development and demonstration of innovative low carbon technologies, systems, methods and instruments for being replicated, transferred or mainstreamed.

The following priorities will be taken into account:

- ensuring the implementation of the Union's commitments under the Kyoto Protocol to the United Nations Framework Convention on Climate Change (UNFCCC),
- ensuring developing of new policies and further implementation of the 'Climate and Energy 2009' package and use of market-based instruments, in particular greenhouse gas emission trading, in order to achieve via a cost-efficient emission reduction, the '20/20/20' climate/energy targets of the Europe 2020 strategy and those of the 2030 Framework for climate and energy supporting the transition towards a low-carbon economy/society.

The measures financed by LIFE may be implemented through grants, financial instruments (to be entrusted via indirect management to the European Investment Bank (EIB) or European Investment Facility (EIF) in accordance with Articles 17 and 25 of Regulation (EU) No 1293/2013 and Article 58 of the Financial Regulation) or procurement procedures (studies, service contracts, administrative arrangements, evaluations, economic analyses and modelling of scenarios, meetings, events, networks, databases, information systems, information, publication and dissemination activities) or any other interventions needed including:

- cooperation with Eurocontrol on implementation of European Union Emissions Trading System in aviation,
- the costs of development, maintenance, operation and support (hardware, software and services) of policy support systems, in particular but not exclusively the EU Single Registry, EU Transaction Log and the Ozone Depleting Substances (ODS) Monitoring System. It will also cover the cost of project management, documentation and training linked to the implementation of these systems.

Cooperation with relevant international organisations, their institutions and bodies, shall be possible where needed for the purpose of achieving the climate action objectives.

Under the climate action sub-programme of the LIFE Programme, this appropriation is intended to finance measures to support the Commission's role in developing, implementation and enforcement of policy and legislation and monitoring its implementation in the area of climate action, including the monitoring of mainstreaming across policy areas, by developing, testing and demonstrating policy or management approaches, best practises, solutions for climate change adaptation including, where appropriate, ecosystem-based approaches, to improve the knowledge base (development, assessment, monitoring, evaluation) of effective climate change adaptation and enhance its capacity to apply in practise, to facilitate development and implementation of integrated approaches of strategies and action plans to adapt to the impact of climate change at local, regional or national level and to contribute to the development and demonstration of innovative technologies, systems, methods and instruments for being replicated, transferred or mainstreamed , taking into account the following priorities:

- developing new policies and further implementation of the existing 'Climate and Energy' package, the '2030 Framework for climate and energy' and the EU Adaptation Strategy,
- ensuring the adaptation of the Union economy and society to the adverse impacts of climate change and mitigating such impacts,
- supporting the transition towards a low-carbon, resource efficient and climate resilient economy/society, requiring to harness the contribution of many Union policies (in particular cohesion, agricultural, rural development, research and innovation, transport and energy programmes, external action, etc.) to climate action, in particular through mainstreaming and adaptation measures,
- developing innovative support mechanisms to fully exploit the potential of new technologies to reduce losses caused by climate-change-related events, such as severe drought and flooding and extreme climate events, as well as to develop the Union's capacity for disaster prevention and response,
- supporting the development of 'climate proofing' tools, risk based assessments of programmes and measures to enhance adaptive capacity and resilience to climate change support and 'climate tracking' methodologies to monitor climate related expenditure under the mainstreaming objective 'to increase the proportion of climate mainstreaming to at least 20 % of the future total Union budget in 2014-20', with contribution from different policies.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The Union has committed significant resources, providing positive incentives to developing countries to reduce emissions from global deforestation and forest degradation (REDD+). The Union, if the contributions of its Member States are also taken into account, is the biggest funding partner for this programme.

Early evaluations suggest that the lack of common methodologies and sufficient resources (human, technical and financial) to forecast, measure, report, verify and compare (FMRVC) forest emissions over time and between countries are a major weak point of REDD+.

This pilot project will use existing roads and expansion of accessibility, through the opening of new roads, as an early performance indicator for projects to reduce greenhouse gas emissions from deforestation and to strengthen Forest Law Enforcement, Governance and Trade (FLEGT). At the same time the pilot project will incorporate information on accessibility (e.g. road networks) into harmonised FMRVC methodologies as a way of improving the efficiency and reliability of REDD+ reporting, thus laying the groundwork for the post-2020 climate regime to be agreed at UNFCCC COP-21 in Paris in December 2015.

**CHAPTER 34 02 — CLIMATE ACTION AT UNION AND INTERNATIONAL LEVEL** (*cont'd*)**34 02 77** (*cont'd*)34 02 77 02 (*cont'd*)

In tropical areas, satellite and land-based data indicate that the opening of a new road through a forest is generally followed by the building of secondary roads (paved or unpaved) that will then trigger more degradation and deforestation (conversion to agriculture or ranching). Scientific reports agree that most deforestation, fragmentation and forest degradation occurs in a 'risk zone' around infrastructure and access networks.

Therefore, building new roads is not only a major driver of deforestation and forest degradation; it can also be a cost-efficient indicator of likely forest emissions and biodiversity loss. Maps of roadless areas can be created from spatial information on infrastructure, including roads, and then overlapped with up-to-date forest maps to make an early assessment of the impact of Union sectoral policies and the efficiency of the REDD+ activities supported. This could also help meet a strategic Union target stemming from the UN Convention on Biological Diversity (CBD), namely that, by 2020, the rate of loss of all natural habitats, including forests, should be at least halved and, where feasible, brought close to zero, and degradation and fragmentation significantly reduced.

Assessing the impact of accessibility expansion can help in measuring performance in the five activities encompassed by REDD+ (deforestation, forest degradation, conservation, management, and enhancement of forest carbon stock). Additionally, road planning is an easily understandable strategic tool that can be used by both donors and beneficiaries of the REDD+ scheme, and it ties in with the international drivers of deforestation (including imports in the Union).

This appropriation should help deliver and cover the cost of:

- producing an up-to-date global map of roadless areas in forested regions, focusing on tropical forests (based on best available spatial data and satellite images); these maps should be made publicly available on a dedicated website,
- developing a prediction model for deforestation and forest degradation on the basis of existing roads and road-building forecasts in priority areas,
- compiling a brochure on the impact of Union sectoral policies (e.g. infrastructure, agriculture and mining) on tropical deforestation and forest degradation,
- presenting the above deliverables in workshops and symposiums (in particular as side events during the UNFCCC and CBD conferences — COPs) and disseminating the relevant material.

Remarks

The appropriations in the Title 'Reserves' are intended for two circumstances only: (a) where no basic act exists for the action concerned when the budget is established; and (b) where there are serious grounds for doubting the adequacy of the appropriations or the possibility of implementing, under conditions consonant with sound financial management, the appropriations entered in the lines concerned. The appropriations entered in this article may be used only after transfer in accordance with the procedure laid down in Article 27 of the Financial Regulation.

*Remarks*

The emergency aid reserve (EAR) is intended to allow for a rapid response to specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection, and situations of particular pressure resulting from migratory flows at the Union's external borders where circumstances so require.

The annual amount of the reserve is fixed at EUR 280 000 000 (2011 prices) and may be used up to year n+1 in accordance with the Financial Regulation. The reserve shall be entered in the general budget of the Union as a provision. The portion of the annual amount stemming from the previous year shall be drawn on first. That portion of the annual amount from year n which is not used in year n+1 shall lapse.

*Remarks*

The aim of this reserve is to cover the European Globalisation Adjustment Fund so as to enable the Union to demonstrate solidarity towards, and to support workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world patterns due to globalisation, as a result of the continuation of the global financial and economic crisis addressed in Regulation (EC) No 546/2009 of the European Parliament and of the Council of 18 June 2009 amending Regulation (EC) No 1927/2006 on establishing the European Globalisation Adjustment Fund (OJ L 167, 29.6.2009, p. 26), or as a result of a new global financial and economic crisis and to provide financial support for their rapid reintegration into sustainable employment.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

*Legal basis*

COMMISSION

**ANNEXES**

**EUROPEAN ECONOMIC AREA**

COMMISSION  
EUROPEAN ECONOMIC AREA

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheading 1a and headings 2, 3, 4 and 5 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2015 the proportionality factor is estimated at 2,97 % (on the basis of 2013 figures), i.e. 2,86 % for Norway, 0,08 % for Iceland and 0,03 % for Liechtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EFTA contribution for the operational part for 2015 is estimated at about EUR 395 934 646 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget headings concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)*

#### **A. INTRODUCTION**

This Annex is drawn up in accordance with Article 35(1) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 31 December 2013, outstanding operations covered by the Union budget totalled EUR 82 799 439 792; of that total EUR 59 129 520 353 was inside the Union and EUR 23 669 919 439 outside (rounded figures and exchange euro rate applicable at 31 December 2013).

Council Decision 2009/459/EC of 6 May 2009 providing Community medium-term financial assistance for Romania (OJ L 150, 13.6.2009, p. 8).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 (OJ L 128, 27.5.2009, p. 1).

Council Decision 2011/288/EU of 12 May 2011 providing precautionary EU medium-term financial assistance for Romania (OJ L 132, 19.5.2011, p. 15).

Council Decision 2013/531/EU of 22 October 2013 providing precautionary Union medium-term financial assistance to Romania (OJ L 286, 29.10.2013, p. 1).

**2. Description**

In accordance with Regulation (EC) No 332/2002, the Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans was limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

On 22 October 2013, the Council decided to make available to Romania precautionary medium-term financial assistance amounting to a maximum of EUR 2 000 000 000 in the form of a loan with a maximum average maturity of 8 years.

**3. Effect on the budget**

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2013 the outstanding amount under this instrument is EUR 11 400 000 000.

2. **Description**

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (OJ L 269 of 14.10.2011, p. 31 regarding Ireland (2011/682/EU) and p. 32 regarding Portugal (2011/683/EU)).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Ireland (OJ L 173, 26.6.2013, p. 40).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Portugal. In addition, measures to be adopted by the country in line with specification in the Memorandum of Understanding were specified (OJ L 175, 27.6.2013, p. 47).

On 22 October 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the availability of the financial assistance granted to Ireland (OJ L 282, 24.10.2013, p. 71).

3. ***Effect on the budget***

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. At 31 December 2013 the outstanding amount under this instrument is EUR 43 800 000 000.

## 2. **Union budget guarantee**

Pursuant to the Council Decision of 8 March 1977, the Union guarantees loans to be granted by the European Investment Bank as part of the Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

### 3. *Description*

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the European Investment Bank the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the European Investment Bank had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish a European Investment Bank special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU grants an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (Pre-accession countries, Neighbourhood and Partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. The maximum ceiling of the EIB financing operations shall not exceed EUR 30 000 000 000 broken down into a fixed ceiling of a maximum amount of EUR 27 000 000 000 and an optional additional amount of EUR 3 000 000 000 to be decided in accordance with the ordinary legislative procedure following the mid-term review exercise. The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

#### 4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

## 3. *Description*

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the European Investment Bank might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in European Investment Bank loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)*

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the European Investment Bank to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidates: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

### 3. *Description*

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

### **Technical notes on Tables**

Exchange rate: the amounts in column 2 'Equivalent at date of signature' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2013.

Column 3 'Initial amount received/paid up to 31 December 2013': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2013 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2013': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2013, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 - column 5.

MFA 2011: following the Loan Agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, the loans initially granted to Serbia and Montenegro in 2001, 2003 and 2005 have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries.

#### The High Growth and Innovative SME Facility under 'Competitiveness and Innovation Programme' (CIP) (GIF) — Prior to 2014

(i) **Reference to the basic act**

Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007 to 2013) (OJ L 310, 9.11.2006, p. 15).

Article 01 04 04 — Competitiveness and Innovation Framework Programme — Entrepreneurship and Innovation Programme (in 2013 budget nomenclature).

Article 01 04 51 — Completion of programmes in the field of small and middle-sized enterprises (SMEs) (prior to 2014) (in 2014 budget nomenclature <sup>(1)</sup>).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP) <sup>(2)</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by increasing investment volumes of risk capital funds and other investment vehicles.

The High Growth and Innovative SME Facility (GIF) is implemented by the European Investment Fund (EIF) on behalf of the Commission. It aims to increase the supply of equity for innovative SMEs in their early stages (GIF1) and in the expansion phase (GIF2). Investment proposals by financial intermediaries are selected on the basis of a notice of implementation (OJ C 302, 14.12.2007, p.8).

The CIP market-oriented instruments have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The GIF is a venture capital facility focused and targeted on a relatively limited number of companies that have the potential to achieve high growth, to bring innovation to the market and to create high added value jobs.

For the entire period as of December 2013 (latest available figures), GIF programme achievements were the following:

Number of final recipients: 349

Actual intermediary size: EUR 2 768 million

Number of employees at final recipients at date of first investment (data from Employment Report as at 31 December 2012): 6 844

<sup>(1)</sup> Article 01 04 51 also includes the multiannual programme for enterprise and entrepreneurship, and in particular for small and medium-sized enterprises (SMEs) (2001-2005).

<sup>(2)</sup> Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007-2013) (OJ L 310, 9.11.2006, p. 15).

Number of jobs created or maintained (the information is available on the number of employees at the initial and final date):

- GIF number of employees at date of first investment: 6 844,
- GIF number of employees at the final date 31 December 2012: 9 908.

As regards the duration, the commitment period for GIF ended on 31 December 2013 but the instruments will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1,13 billion, with an original indicative split of EUR 620 million for GIF (including eco-innovation) and EUR 510 million for the SME Guarantee Facility.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The budgetary payments for 2014 amount to EUR 2 million for the High Growth and Innovative SME Facility.

No further budgetary commitments have been made by the Commission since the end of the commitment period, i.e. 31 December 2013.

The aggregate budgetary commitments for 2007-2013 amounted to EUR 605,7 million. The leverage effect on GIF is expected to be 5 which means that the impact of the aggregate budgetary commitments on the overall economy is expected to reach EUR 3 028 million of lending to beneficiary SMEs.

Article 02 02 02 — Improving access to finance for small and middle-sized enterprises (SMEs) in the form of equity and debt (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Equity Facility for Growth (EFG) shall focus on funds that provide venture capital and mezzanine finance, such as subordinated and participating loans, to expansion and growth-stage enterprises, in particular those operating across borders, while having the possibility to make investments in early stage enterprises in conjunction with the Equity Facility for Research, Development and Innovation (RDI) under Horizon 2020.

In the latter case, the investment from EFG shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity Facility for RDI will be provided on a pro rata basis, based on the funds' investment policy. The Commission may decide to amend the 20 % threshold in light of changing market conditions.

The EFG may include seed funding, angel funding and quasi-equity financing subject to market demand but exclude asset stripping.

Support shall be in the form of direct investments made by the entrusted entity in Financial Intermediaries that provide equity or quasi-equity financing to SMEs. The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market. The latter will be achieved by focusing predominantly on those risk capital funds which invest cross-border.

The implementation of the EFG will occur through an entrusted entity which will be the European Investment Fund (EIF) subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement will ensure that the EFG is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support SMEs in their growth and expansion phase.

From a technical point of view, the EIF will be instructed to invest on a pari-passu basis with other private and public investors. Target final recipients are SMEs of all sizes without a specific sector focus.

The duration of the equity instrument is planned to last until 31 December 2034 (until last operations are wound down). Estimated budget allocation for the total programming period is foreseen to be EUR 663 million.

**(ii) Relevant budget lines**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

**(iii) General description of the Financial Instrument including the duration and the impact on budget**

A Union-level Equity Facility for Research and Innovation ('R&I') is needed to help improve the availability of equity finance for early and growth-stage investments and to boost the development of the Union venture capital market.

The goal is to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovative enterprises from the seed stage through to growth and expansion.

The Equity Facility will focus on early-stage risk capital funds providing venture capital and quasi-equity (including mezzanine capital) to individual portfolio enterprises. The facility will also have the possibility to make expansion and growth-stage investments in conjunction with the Equity Facility for Growth under the programme for the Competitiveness of Enterprises and SMEs (COSME), to ensure a continued support during the start-up and development of companies.

In the latter case, the investment from the Equity Facility of Horizon 2020 shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity facility for RDI will be provided on a pro rata basis, based on the funds' investment policy. Like the EFG, the Equity Facility shall avoid buy-out or replacement capital intended for the dismantling of an acquired enterprise.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market.

In terms of Union added value, the Equity Facility for R&I will complement national schemes that cannot cater for cross-border investments in R&I. The early-stage deals will also have a demonstration effect that can benefit public and private investors across Europe. For the growth phase only at European level it is possible to achieve the necessary scale and the strong participation of private investors that are essential to the functioning of a self-sustaining venture capital market.

The implementation of the direct investments under this facility will be entrusted to the European Investment Fund (EIF) in Luxembourg.

From a technical point of view, the entrusted entity will be instructed to invest on a pari-passu basis with other private and public investors. The target final recipients are early-stage companies (notably SMEs or small midcaps) without a specific sector focus.

The duration of the equity instrument will not exceed beyond the year 2035 (until last operations are wind-down).

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

### **Connecting Europe Facility (CEF) Equity Instrument — 2014 to 2020**

(i) ***Reference to the basic act***

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129).

(ii) ***Budget lines corresponding to the relevant operation***

This instrument will be covered by the following budget lines:

- Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects,
- Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects,
- Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects.

(iii) ***General description of the financial instruments, including their duration and their impact on the budget***

*CEF financial instruments*

The objective of the financial instruments under the Connecting Europe Facility is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage. They shall help finance projects of common interest with a clear EU added value, and to facilitate greater private sector involvement in the long-term financing of such projects in the field of transport, energy and telecommunications, including broadband networks.

They shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource utilisation.

In addition, these instruments shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market oriented toolbox of EU financial support.

*CEF Equity Instrument*

The goal of the Equity Instrument shall be to contribute to overcoming the deficiencies of European capital markets by providing equity and quasi-equity investments to European projects. The instrument is being designed according to the main elements that are already defined in the basic act.

The maximum amounts of the Union contribution shall be limited as follows:

- 33 % of the target equity fund size, or
- the co-investment by the Union in a project shall not exceed 30 % of the total equity of a company.

With regards to its implementation, it is envisaged to be done through Entrusted Entities selected in accordance with the Financial Regulation.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The Union contribution shall be used:

- towards equity participations, and
- to cover agreed fees and costs associated with the establishment and management of the Equity Instrument, including its evaluation, which have been determined in line with the Financial Regulation and market practice,
- for directly related support actions.

*Duration of the Equity Instrument:* The last tranche of the Union contribution to the CEF Equity Instrument shall be committed by the Commission no later than 31 December 2020. The actual approval of equity investments by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022. The actual winding-down of the instrument will probably take place after 2032.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The CEF instruments will target projects of common interest with a clear EU added value in the field of transport, energy and telecommunications, including broadband networks.

The total amount EU funds available for this instrument will be defined after the detailed instrument has been developed.

The expected leverage of the Equity Instrument — defined as the total funding (i.e. the Union contribution plus all contributions from other investors) divided by the Union contribution shall be expected in average to range from 5 to 10, depending on market specificities.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the Competitiveness and Innovation Programme (CIP) <sup>(2)</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by providing leverage to SME debt financing instruments to increase the supply of debt finance to SMEs.

The SME Guarantee Facility (SMEG 07) is operated by the EIF on behalf of the Commission. It provides counter- or co-guarantees to guarantee schemes and direct guarantees to Financial Intermediaries operating in eligible countries.

The CIP market-oriented instruments have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The SME Guarantee Facility is a counter-cyclical instrument that helped final recipients to face the difficulties arising from the economic conditions since the crisis, namely to obtain or maintain access to finance and to create or maintain jobs over the period.

For the entire period of the programme as of 31 December 2013, SMEG 07 achievements were the following:

- number of signed agreements with 51 financial intermediaries: 66,
- number of final recipients (supported SMEs): 311 633,
- total underlying loan amount: EUR 16 108,5 million,
- number of employees at final recipients (supported SMEs) at inclusion date: 1 094 609,

### **European Progress Microfinance Guarantee Facility (EPMF-G) — Prior to 2014**

(i) **Reference to the basic act**

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility shall provide Union resources to increase access to, and availability of, microfinance for:

- persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in the preceding indent.

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF *Fonds Commun de Placement* — *Fonds d'Investissement Spécialisé* (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

For the entire period as of 30 September 2013 (latest data available as at writing date), EPMF achievements for the Guarantee Facility component of the programme were as follows:

- number of micro-loans: 7 016,

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

- total amount of micro-loans: EUR 64,49 million,
- Total number of employees (in the supported micro-SMEs), at first inclusion date: 8 684.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

No further budgetary commitments have been made by the Commission since the end of the commitment period. The budgetary payments for 2014 amount to EUR 0,9 million for EPMF-G. The aggregate EPMF-G budgetary commitments for the period 2010-2013 amount to a total of EUR 23,6 million.

Given the expected leverage effect of 11,6, the target volumes of lending to beneficiary micro-enterprises are estimated to EUR 273,8 million for the EPMF Guarantee Facility.

## **Loan Guarantee Facility under the Programme for the Competitiveness of enterprises and small and medium-sized enterprises (COSME) — 2014 to 2020**

### **(i) Reference to the basic act**

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014-2020) and repealing Decision No 1639/2006/EC (OJ L 347, 20.12.2013, p. 33).

### **(ii) Budget lines corresponding to the relevant operations**

Article 02 02 02 — Improving access to finance for small and middle-sized enterprises (SMEs) in the form of equity and debt (in 2014 budget nomenclature).

### **(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Loan Guarantee Facility (LGF) shall provide:

- counter-guarantees and other risk-sharing arrangements for guarantee schemes,
- direct guarantees and other risk-sharing arrangements for any other financial intermediaries meeting the eligibility criteria.

The LGF shall consist of:

- guarantees for debt financing via loans, including subordinated and participating loans, or leasing, which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived high risk or their lack of sufficient available collateral,
- securitisation of SME debt finance portfolios, which shall mobilise additional debt financing for SMEs under appropriate risk-sharing arrangements with the targeted institutions. Support for those transactions shall be conditional upon an undertaking by the originating institutions to use a significant part of the resulting liquidity or the mobilised capital for new SME lending within a reasonable period of time. The amount of this new debt financing shall be calculated in relation to the amount of the guaranteed portfolio risk and shall be negotiated, together with the period of time, individually with each originating institution.

The LGF shall, except for loans in the securitised portfolio, cover loans up to EUR 150 000 and with a minimum maturity of 12 months. The LGF shall also cover loans above EUR 150 000 in cases where SMEs who meet the criteria to be eligible under the COSME programme do not meet the criteria to be eligible under the SME window in the Debt Facility of the Horizon 2020 programme, and with a minimum maturity of 12 months. The LGF shall be designed in such a way that it will be possible to report on SMEs supported, both in terms of number and volume of loans.

The implementation of the LGF will occur through an entrusted entity which will be the European Investment Fund (EIF), subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement will ensure that the LGF is accessible for a broad range of financial intermediaries (guarantee societies, national promotional institutes, commercial banks, cooperatives, etc.) which are experienced in financial transactions with SMEs or which have the capacity to enter into financial transactions with SMEs.

From a technical point of view, the EIF will be instructed to provide capped portfolio guarantees to the financial intermediaries which will cover a portion of expected losses of a portfolio of newly generated SME transactions which have a higher risk profile.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

As far as securitisation transactions are concerned, the EIF will be instructed to provide guarantee coverage on a part of the mezzanine tranche of a securitisation transaction.

Target final recipients under the capped portfolio guarantees and the securitisation transactions are SMEs of all sizes without a specific sector focus. The range of financial products which can be supported through the capped guarantees will be kept broad so as to not discriminate amongst the SME population.

The guarantee instrument is planned to last until 31 December 2034 (until last operations are wound down). Individual guarantee agreements to be signed by the entrusted entity will have a maximum duration of 10 years.

The LGF may also contribute to the financial instruments to be deployed under the joint SME initiative as endorsed by the October 2013 European Council. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover, in combination with resources from ESIF, Horizon 2020 and the EIF, the mezzanine tranche of the portfolio.

Estimated budget allocation for the total programming period is foreseen to be EUR 717 million.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

Estimated budget allocation for 2014: EUR 89 million including the contribution of COSME to the SME initiative which was estimated to be an amount of around EUR 4 million for 2014.

The leverage effect indicated in the COSME programme is in the 20-30 range for the debt instrument over the lifetime of the programme.

The final leverage ratio will depend on the amounts contributed by Member States to the SME Initiative and their chosen implementation mode (securitisation or uncapped guarantees).

Based on the leverage targets of COSME, it was estimated that the total amount of financing mobilised would range from EUR 1,8 billion to EUR 2,7 billion for the 2014 budget. These numbers refer to new SME loan portfolios built during the whole availability period of individual deals with financial intermediaries authorised under the 2014 budget.

**(ii) Budget lines corresponding to the relevant operations**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

This guarantee facility succeeds and refines the RSI pilot under the RSFF in FP7, and is part of a single debt financial instrument supporting the growth of enterprises and their R&I activities. It targets R&I-driven SMEs and small midcaps (up to 499 employees) requiring loans of between EUR 25 000 and EUR 7,5 million. A loan of more than EUR 7,5 million will be considered on a case-by-case basis.

The European Investment Fund (EIF) will implement this facility by providing direct guarantees to financial intermediaries such as banks, who will extend the actual loans to final recipients. The guarantee will cover up to 50 % of intermediaries' potential losses. The EIF will also offer counter-guarantees to financial intermediaries (such as guarantee institutions) providing risk protection to banks extending loans to R&I-driven SMEs and small midcaps.

R&I-driven SMEs or small midcaps wishing to apply for a loan should contact one of the financial intermediaries signing an agreement (see selection procedure) with the EIF. This is a demand-driven facility, with no prior allocations between sectors, countries or regions. However, subject to the successful conclusion of negotiations, the Commission will incentivise the EIF to make a particular effort to ensure that a significant proportion of final recipients are eco-innovative SMEs and small midcaps.

Expected impact: R&I-driven SMEs and small midcaps able to carry out a greater amount of R&I. The indicators are the number of agreements signed with financial intermediaries and the number and volume of loans made. Targets will be set during negotiations with the EIF.

Indicative timetable: this facility is likely to be available at the end of the second quarter of 2014.

*Selection procedure*

- (a) For financial intermediaries: the EIF will issue one or more calls for expression of interest, with eligibility and selection criteria defined as part of each call after consultation with DG Research and Innovation.
- (b) For loans: according to the internal processes of the intermediary bank or other financial institution that the SME or small midcap applies to, using normal commercial criteria.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The total budget foreseen for the programming period 2014-2020 to the SMEs & Small Midcaps R&I Loans Service coming from the 'Access to Risk Finance' part of Horizon 2020 is EUR 880 million.

The indicative budget for 2014 was EUR 87,75 million. The risk-sharing arrangement with the EIF will leverage the EU contribution to the SME & Small Midcaps R&I Loans Service by a factor of up to 10, thus resulting in loan finance for R&I-driven SMEs and small midcaps of approximately EUR 875 million.

The instrument will also contribute to the financial instruments that will be deployed under the joint SME initiative as endorsed by the October 2013 European Council. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover, in combination with resources from the ESIF, COSME and the EIF, the mezzanine tranche of the portfolio.

**European Progress Microfinance Facility under 'Programme for Employment and Social Innovation (EaSI) — 2014 to 2020****(i) Reference to the basic act**

Regulation (EU) No 1296/2013 of the European Parliament and of the Council of 11 December 2013 on a European Union Programme for Employment and Social Innovation (EaSI) and amending Decision No 283/2010/EU establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 347, 20.12.2013, p. 238).

**(ii) Budget lines corresponding to the relevant operations**

Item 04 03 02 03 — Microfinance and Social Entrepreneurship — Facilitating access to finance for entrepreneurs, especially those furthest from the labour market, and social enterprises (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The general objective of these financial instruments has been described in Regulation (EU) No 1296/2013 and can be found under Article 4(1)(e).

Promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable people who wish to start up a micro-enterprise as well as for existing micro-enterprises, and by increasing access to finance for social enterprises.

Specific objectives are mentioned under Article 26:

— increase access to, and the availability of, microfinance for:

— vulnerable persons who have lost or are at risk of losing their job, or have difficulty in entering or re-entering the labour market, or are at risk of social exclusion, or are socially excluded, and are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro- enterprises;

— micro-enterprises in both start-up and development phase, especially micro-enterprises which employ persons as referred to in point (i);

— build up the institutional capacity of microcredit providers;

— support the development of the social investment market and facilitate access to finance for social enterprises by making equity, quasi-equity, loan instruments and grants of up to EUR 500 000 available to social enterprises with either an annual turnover not exceeding EUR 30 million, or an annual balance sheet total not exceeding EUR 30 million which are not themselves a collective investment undertaking.

The budget of the Microfinance and Social Enterprise financial instruments for the period 2014-2020 amount to EUR 193,08 million.

Its division shall respect the following minimum percentages:

— microfinance for vulnerable groups and micro-enterprises: 45 %,

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

— social entrepreneurship: 45 %.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

Indicative target results are 41 000 microloans given to final recipients and 1 350 loans given to social enterprises. The target for microfinance has been based on the past experience with the Progress Microfinance. The target for social enterprises has been based on the total volume of the guarantees and funded instruments funds, multiplied by the expected leverage and divided by an average investment size of EUR 200 000 per social enterprise. For the funded instruments, an expected co-investment of EUR 20 million was taken into account. These targets are subject to change as the design of the facility and potential co-investments are unknown at this stage.

Article 15 04 01 — Strengthening the financial capacity of the cultural and creative sectors, in particular for SMEs and organisations (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The general objective of the Cultural and Creative Sectors Guarantee Facility is in line with those of the Creative Europe Framework Programme which is to:

- foster the safeguarding and promotion of European cultural and linguistic diversity, and
- strengthen the competitiveness of the cultural and creative sector, with a view to promoting smart, sustainable and inclusive growth, in line with the Europe 2020 strategy.

The specific objective of the Cultural and Creative Sectors Guarantee Facility strand is to strengthen the financial capacity of the cultural and creative sectors.

The issues it will strive to address are:

- the difficulties for cultural and creative SMEs and projects in accessing bank credits,
- the limited spreading and dissemination of expertise among financial institutions in the area of financial analysis of cultural and creative SMEs and projects throughout the EU.

To respond to these issues, operational objectives will be:

- to provide guarantees to banks dealing with cultural and creative SMEs thereby enabling them easier access to bank credits,
- to provide expertise/capacity building to the financial institutions,
- to increase the number of financial institutions which are willing to work with cultural and creative SMEs,
- to maximise the European geographical diversification of financial institutions willing to work with cultural and creative SMEs.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The budgetary commitments foreseen amount to EUR 121 million, plus EUR 2 million expected recoveries from the preceding financial instrument MPGF. Based on the foreseen leverage effect of 5,6, the target volume is estimated at EUR 690 million of loans guaranteed.

### **Student Loan Guarantee Facility (Erasmus+) — 2014 to 2020**

(i) **Reference to the basic act**

Regulation (EU) No 1288/2013 of the European Parliament and of the Council of 11 December 2013 establishing 'Erasmus+': the Union Programme for education, training, youth and sport and repealing Decisions No 1719/2006/EC, No 1720/2006/EC and No 1298/2008/EC (OJ L 347, 20.12.2013, p. 50).

(ii) **Budget lines corresponding to the relevant operations**

Item 15 02 01 01 (in part) — Promoting excellence and cooperation in European education and training and their relevance to the labour market (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The objective of the 'Erasmus+ Master' student loan guarantee facility is to foster and support full programme mobility at Master level (second cycle of higher education). In order to do this, the Facility will provide partial guarantees to financial intermediaries who issue loans on favourable conditions to students from Erasmus+ participating countries undertaking a full (1 or 2-year) masters-level programme outside their country of residence, and outside the country where they obtained their Bachelor level qualification.

Guarantees issued through the Facility shall cover new eligible student loans up to a maximum of EUR 12 000 for a 1-year Master programme and up to EUR 18 000 for a 2-year Master programme.

The Facility thus represents a direct contribution to the EU and Bologna Process Ministerial target to double the proportion of students completing a study or training period abroad to 20 % by 2020.

The management of the Facility at Union level will be entrusted to the European Investment Fund (EIF), which will conclude agreements with financial intermediaries such as banks, national/regional student lending institutions. These participating financial intermediaries will in turn pass on the benefit of the EU guarantee by making student loans available free of any requirement for student or family collateral and on favourable terms e.g. lower than market rate interest, and safeguards against student hardship to include a 'grace period'. The grace period enables graduates to find employment before beginning loan repayments and a 'payment holiday' whereby they could freeze repayments if needed such as during a spell of unemployment or maternity.

Capital for the loans is leveraged from the participating financial Intermediaries, with the EU acting as part-guarantor against possible student default on loans. Repayment of loans would be via 'normal' bank loan mechanisms, with all operational information and processing taking place at a local level.

The Erasmus+ Programme 2014-2020 legal base foresees a total EU contribution of EUR 517 million, which will enable approximately 200 000 students to benefit from loans backed by the Facility.

The duration of the instrument will extend to 2037 (i.e. programme in place until 2020 + 2 years commitment deadline + up to 15 years maturity on the student loans).

The Facility will provide partial guarantees at up to 90 % of the first losses resulting from student defaults with a guarantee cap of 18 % of the loan portfolio. The estimated leverage is 6,17 (i.e. EUR 3,2 billion to be provided as capital for student loans from participating financial intermediaries).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The budgetary commitments foreseen for 2014 amount to EUR 29,86 million. Based on the foreseen leverage effect of 6,1, the target volume is estimated at EUR 184 million of loans guaranteed.

Regulation (EU) No 1293/2013 of the European Parliament and of the Council of 11 December 2013 on the establishment of a Programme for the Environment and Climate Action (LIFE) and repealing Regulation (EC) No 614/2007 (OJ L 147, 20.12.2014, p. 185), and in particular Article 17(1) thereof.

**(ii) Budget lines corresponding to the relevant operations**

Article 34 02 01 — Reducing of Union greenhouse gas emissions (in 2014 budget nomenclature).

Article 34 02 02 — Increasing resilience of the Union to climate change (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The implementation of the PF4EE instrument (Private Financing for Energy Efficiency) will be entrusted to the European Investment Bank (EIB) by means of indirect management.

The PF4EE instrument will provide (i) a risk participation mechanism (Risk Sharing Facility) for private sector financial institutions and (ii) expert support for financial intermediaries (Expert Support Facility) combined with (iii) EIB long-term funding (EIB Loan for Energy Efficiency):

— the PF4EE would provide a Risk Sharing Financial Instrument in the format of a capped guarantee to share the risk between the Commission (as funder) and financial intermediaries (as lenders),

— the Risk Sharing Facility is designed to reduce the credit risk faced by financial intermediaries when lending to the EE sector and to encourage their participation. The impact will depend on the market conditions and specific characteristics of the projects. The Risk Sharing Facility is expected to increase lending activity, access to finance and/or better financing conditions to the final recipients, including lower pricing, longer maturities, lower collateral or others.

The PF4EE needs to be operational for as long as underlying loans covered by the Risk Sharing Facility remain outstanding. Maximum tenor to be allowed under the Risk Sharing Facility will be 20 years. Therefore the PF4EE will be in place for up to 20 years after the end of the implementation period (2042).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The beneficiaries include private individuals, home-owner associations, SMEs, corporates and/or public institutions/bodies, undertaking EE (energy efficiency) investments in line with the NEEAP (National Energy Efficiency Action Plans) of each Member State.

The size of the EE loans provided to beneficiaries range from EUR 40 000, which can be reduced to accommodate small investments within the residential sector, to EUR 5 million and in exceptional cases up to EUR 15 million.

Under the PF4EE approximately 10-15 financing agreements (EIB Loans for EE and Risk Sharing/Expert support Facilities) could be signed with financial intermediaries in the period 2014-2017. A financing agreement may cover the implementation of the Instrument in more than one Member State and a financial intermediary may sign more than one financing agreement.

It is expected that over the lifetime of the programme (2014-17) and assuming an average investment cost of EUR 300 000, up to some 2 500 final beneficiaries and projects will receive a loan financing of approximately EUR 600 million.

The budget foreseen to be allocated to PF4EE between 2014 and 2017 is EUR 80 million. The total investment in PF4EE over this period could be at around EUR 800 million. Therefore, the expected leverage effect would be around 10.

Article 08 18 01 — Capacities — Risk-Sharing Finance Facility (RSFF) (in 2013 budget nomenclature); primary credits of EUR 200 million.

Article 08 02 51 (in part) — Completion of previous research framework programme — Seventh Framework Programme — EC indirect action (2007 to 2013) (in 2014 budget nomenclature).

In the period 2007-2013, a total amount of EUR 1 230,73 million has been committed from the EU budget (initial FP7 budget plus additional EFTA and Third Country appropriations to FP7) and paid to the EIB to support both Risk-Sharing Finance Facility (RSFF) and Risk-Sharing Instrument (RSI).

#### (iii) **General description of the financial instruments, including their duration and their impact on the budget**

A key objective of the RSFF is to improve access to debt finance for investments in research, development and innovation in the EU, notably by private promoters. It contributes to addressing the financing needs of innovative projects and companies of all size and ownership, including midcaps and SMEs.

The RSFF supports access to finance across the entire Research, Development, Demonstration and innovation (RDI) spectrum, from fundamental research to technological development, demonstration and innovation. The RSFF addresses cross-sector policy goals and related investments needs in a demand-driven, 'first come, first served' way.

The RSFF, co-developed by the European Commission and the EIB, was established in June 2007. The EU and the EIB are risk-sharing partners for loans provided by the EIB directly or indirectly to beneficiaries. The European Union, through FP7 budget resources, and the EIB have set aside a total amount of up to EUR 2 billion (up to EUR 1 billion each) for the period 2007-2013 to cover losses if RSFF loans are not repaid. Through these EU/EIB contributions for risk-sharing and loss coverage, the EIB is able to extend a loan volume of EUR 10 billion to companies and the research community for their investments in R&D and innovation.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

RSFF beneficiaries can be European research-intensive entities (companies, stand-alone-projects) as well as research infrastructures. RSFF loans support RDI investments made by promoters/beneficiaries located in the 28 EU Member States and in associated countries.

Risk-sharing between the EU and the EIB was initially made on a loan-by-loan basis (until 2010). Since 2011, following a recommendation by an independent expert group, risk-sharing is made on a portfolio basis, with first-loss-taking by the EU. The EIB is assuming further risks above a certain threshold in case EU risk absorption has been fully used.

In the period 2007-2013, a total amount of EUR 960,73 million has been committed from the Union budget (initial FP7 budget plus additional EFTA and third country appropriations to FP7) and paid to the EIB to support RSFF loan finance. The 'expiry date' (duration) of the programme is expected to be in 2020-2022.

In early 2012, a new pilot guarantee facility, RSI (Risk-Sharing Instrument for SMEs and small midcaps, with maximum 499 employees) was launched to improve access loan finance for RDI investments. The RSI guarantee facility is part of the RSFF implementation and is carried out by the European Investment Fund (EIF). For this RSI pilot guarantee facility, the Union budget coming from FP7 (plus additional EFTA and third country appropriations to FP7) for the period 2012/2013 amounted to EUR 270 million (in addition to the abovementioned amount).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

For the budget year 2013, a total FP 7 contribution of EUR 224,8 million (including EFTA and third country appropriation) was allocated to the RSFF and RSI. The risk-sharing arrangement with the EIB and the EIF (for RSI guarantees) leverages the EU contribution coming from FP7 by a factor of 5 (RSFF loans) and 8 (RSI guarantees), thus generating a high impact on financing available for RDI investments.

In this context, for the budget year 2013, new RSFF loan operations (signatures) of EUR 2,8 billion were envisaged by the EIB for approximately 28 new operations. This is in line with the target envisaged by the EIB of EUR 2,7 billion, for approximately 30 new operations.

Regarding RSI guarantees to financial intermediaries for loans to SMEs and small midcaps, a total guarantee volume of EUR 1,2 billion was signed by the end of December 2013 allowing the extension of loans amounting to EUR 2,4 billion to approximately 4 800 beneficiaries. The aggregate number of applications from financial intermediaries is 47, including four guarantee increases. In only 2 years' time these financial intermediaries are covering 19 countries in the European Union and Associated Countries.

Exceeding initial expectations of a total loan volume of EUR 10,5 billion the results of the RSFF under FP7 covering the period 2007 to 2013 showed a total number of 117 RDI loan operations which were signed and active accounting for EUR 11 313,2 million.

In relation to the pilot phase of the RSI, from earlier 2012 until 2013, the total number of SMEs transaction is 602, with an amount of EUR 374,8 million committed to final recipients.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The LGTT is a risk-sharing debt instrument jointly established by the Union and the EIB in 2008, to accelerate and implement TEN-T infrastructure projects.

The 'LGTT facilities' are guarantee facilities provided by the EIB under LGTT to the private sector (project sponsors/promoters), to enhance the credit rating of the senior debt by reducing traffic risk. The EIB provides a guarantee in the form of a contingent credit line, which may be drawn upon by the project promoter during the first 5 to 7 years of operation, if the revenues generated by a project are not sufficient to ensure repayment of the senior debt, in case the actual revenues from the project fall below the forecasted level.

The LGTT instrument was designed in 2008, prior to the global financial crisis. Since then, revenue based projects have become less common due to the reluctance of the private sector to take on traffic demand risk.

The total amount of the EU contribution currently available to support LGTT projects is EUR 250 million, out of which EUR 205 million was committed till 2012 and EUR 45 million was committed in 2013.

In 2013, following the adoption of Regulation (EU) No 670/2012, the risk sharing model moved from *pari passu* to portfolio based risk sharing between the Commission and the EIB.

Under the 'portfolio approach', the risk is divided into two tranches. A portfolio first loss piece, to which the EU contributes 95 % and the EIB 5 % and a residual risk tranche which the EIB covers entirely. The maximum EU risk exposure cannot exceed the budget contribution to LGTT independent of the risk-sharing model chosen.

LGTT is available for transactions approved by the EIB Board of Directors by end of 2014 with the financial close until 2016. Guarantees can be called for the first 5 to 7 years' operation, the latest draw down date of a project in the current portfolio is end of 2021. Therefore the instrument will be wound down by the end of 2028 at the latest.

The EIB has presented a list of potential transactions that lead to the assumption that the full amount committed to the LGTT instruments will be used for operations.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

To date, 7 LGTT operations were signed, of which one operation has been cancelled and one is being restructured.

Until 2013, EUR 155 million have been paid to the EIB, this has resulted into a total amount of LGTT guarantees of EUR 497 million supporting investments across six TEN-T projects whose total capital cost amounts to EUR 11 716 million. At the end of 2013, net interest and revenues were regularised and the net profit of EUR 6,9 million was added to the Commission contribution of EUR 155 million bringing it to a total of EUR 161,9 million.

The total leverage of LGTT can be broken down into two elements:

- the project leverage, which expresses a ratio between the total investment of a project and the size of the LGTT facility ( $PL = \text{total investment/LGTT facility}$ ), and
- the instrument leverage, which expresses a ratio between the LGTT facility and the total EU contribution at risk plus expensed gross costs ( $IL = \text{LGTT facility/total EU Contribution at risk plus expensed gross costs}$ ).

The total leverage is a multiplication between the project and the instrument leverage.

As of 31 December 2013 the project leverage was 24 (11,716/497) and the instrument leverage was 11 (497/45 — the amount of EU contribution at risk, EUR 38,7 million plus the gross expensed costs of EUR 6,5 million). When the two are multiplied, this results in a total leverage between EU contribution at risk and total investment of 259.

Amending Regulation (EU) No 670/2012 requires a change of the risk sharing pattern from *pari passu* to a Portfolio First Loss Piece (PFLP).

This change to the risk sharing as of January 2014 will initially increase the share of the EU contribution at risk compared to the amount of guarantees and therefore reduce the Instrument and the total leverage, but not the project leverage. The instrument leverage will decrease to a multiple of 3, resulting in a total leverage of 70.

In 2014, it was expected to merge the LGTT under the broader CEF Debt Instrument as indicated in Regulation (EU) No 1316/2013 establishing the Connecting Europe Facility.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Project Bond Initiative is a financial instrument developed, set up and supported jointly by the European Commission and the European Investment Bank (EIB) <sup>(1)</sup>.

It aims to stimulate capital market financing for infrastructure projects in the areas of trans-European networks in transport and energy as well as broadband networks by improving the credit quality of the senior debt such that it can be financed by a bond issue which is attractive inter alia to institutional investors such as insurance companies and pension funds. In addition to financing provided for the benefit of individual projects, the objective is to pave the way for the creation of a new asset class for EU infrastructure which is investable for institutional investors. This way, the Project Bond Initiative intends to open up new sources for infrastructure financing to complement constrained public budgets and restricted bank lending for infrastructure projects with long term maturities.

The instrument can finance projects or a part of projects eligible under the guidelines for TEN-T, TEN-E and the criteria for broadband projects defined in the amended Competitiveness and Innovation Framework Programme. Projects are usually structured as a Special Purpose Vehicle (SPV) established to build, finance and operate an infrastructure project. The PBI facility provides a subordinated debt tranche to the financial structure of the project company. This facility may take the form of a contingent credit line ('unfunded facility') or a subordinated loan ('funded facility') and is capped at a maximum of 20 % of the total amount of senior debt. In case the unfunded facility is called upon, the EIB becomes a creditor to the project company and amounts due under the PBI would rank junior to the service of senior debt and senior to equity. The maximum available amount for credit enhancement under PBI is 20 % of the nominal of the senior debt.

<sup>(1)</sup> The instrument may be implemented also in cooperation with other entities in the future.

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The risk-sharing mechanism between the European Commission and EIB operates on the basis of a First Loss Piece principle: the risk for the Union budget and the EIB is divided into two tranches, a Portfolio First Loss Piece (PFLP), which is called upon first in the event of impairments on PBI operations, and a Residual Risk Tranche (RRT) which is only used if PFLP has been exhausted. The EU and EIB contribute 95 % and 5 % to PFLP, respectively. The residual risk tranche is covered entirely by the EIB.

Individual PBI Operations could be approved by the EIB Board of Directors no later than end of 2014 and their financial close must take place no later than end of 2016. The instrument will wind up when there is no more contingent exposure under any PBI operations (or where such exposure has been declared by the EIB as unrecoverable).

The pilot phase has a total financial envelope of EUR 230 million: EUR 200 million from the TEN-T budget , EUR 10 million from the TEN-E budget and EUR 20 million from the CIP ICT .

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The budgetary payments foreseen for 2014 were the following: EUR 80 million for TEN-T and EUR 13 million for ICT.

Until the end of 2013, one PBI operation in the TEN-E sector reached financial close (another project bond transaction was carried out by the EIB without Union budget support). The size of the project bond credit enhancement for this transaction is EUR 54,9 million for a project size of EUR 421 million (including debt and equity). The Union budget contribution under TEN-Energy is EUR 10 million. Hence, the leverage effect exceeded 40.

In 2014, it was expected to merge the PBI under the broader CEF Debt Instrument as indicated in Regulation (EU) No 1316/2013 establishing the Connecting Europe Facility.

Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

Council Decision 2013/743/EU of 3 December 2013 establishing the specific programme implementing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 965).

(ii) **Budget lines corresponding to the relevant operations**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The goal is to improve access to debt financing — loans, guarantees, counter-guarantees and other forms of debt and risk finance — for public and private entities and public-private partnerships engaged in research and innovation activities requiring risky investments in order to come to fruition. The focus shall be on supporting research and innovation with a high potential for excellence.

The target final recipients shall potentially be legal entities of all sizes that can borrow and repay money and, in particular, SMEs with the potential to carry out innovation and grow rapidly; mid-caps and large firms; universities and research institutes; research infrastructures and innovation infrastructures; public-private partnerships; and special-purpose vehicles or projects.

The Loan and Guarantee Service for Research and Innovation will be implemented towards a platform approach offering several products specifically designed to address particular needs. The key partner as entrusted entity for the implementation of the Loan and Guarantee Service for Research and Innovation will be the European Investment Bank (EIB).

The funding of the Loan and Guarantee Service for Research and Innovation shall have two main components:

— *demand-driven*, providing loans and guarantees on a first-come, first-served basis, with specific support for beneficiaries such as SMEs and mid-caps. This component shall respond to the steady and continuing growth seen in the volume of RSFF lending, which is demand-led.

This demand-driven component will be supported by the budget of the Horizon 2020 Access to Risk Finance programme.

— *targeted*, focusing on policies and key sectors crucial for tackling societal challenges, enhancing competitiveness, supporting sustainable, low-carbon, inclusive growth, and providing environmental and other public goods. This component shall help the Union address research and innovation aspects of sectorial policy objectives and will be supported by other parts of Horizon 2020, other frameworks, programmes and budget lines in the Union budget, particular regions and Member States that wish to contribute with their own resources (including through Structural Funds) and/or specific entities (such as Joint Technology Initiatives) or initiatives.

The expiry date of the instrument is expected to be in 2027-2030.

## COMMISSION

## INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The total budget (primary credits) foreseen for the programming period 2014-2020 for the demand-driven part of the Loan and Guarantee Service for Research and Innovation is EUR 1,060 billion. This Horizon 2020 budget contribution will, at least, be matched by the EIB through its own resources, thus allowing increasing the total lending capacity and impact of the Loan and Guarantee Service for Research and Innovation by a factor of two.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The foreseen budget for the year 2014 was EUR 107,80 million.

Based on the experience of the RSFF, a leverage effect of 7 of the Union budget can be envisaged for direct and indirect loans to beneficiaries under the demand-driven part of the Loan and Guarantee Service for Research and Innovation, resulting in a total market volume of around EUR 750 million.

Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The debt instrument under the CEF, including the successor to the pilot phase of the PBI, will be developed in line with Regulation (EU) No 1316/2013. In line with Article 1 of that Regulation, the instrument will target projects of common interest in the sectors of transport, telecommunications and energy infrastructures.

Individual debt operations can be approved by the EIB or other entrusted entity before 31 December 2022. As for the pilot phase of the PBI, the instrument will wind up when there is no more contingent exposure under any PBI operations (or where such exposure has been declared by the EIB as unrecoverable).

The overall contribution from the Union budget to the financial instruments shall not exceed 10 % of the overall financial envelope of the CEF (Article 14(2) of Regulation (EU) No 1316/2013). The precise amount dedicated to the debt instrument under the CEF under the overall commitment period has not yet been decided. With regard to the Project Bond Initiative, it shall start up progressively within a ceiling of EUR 230 million during the years 2014 and 2015.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

In 2014, the respective Work Programmes for CEF-Transport, CEF-ICT and CEF-Energy include the following amounts for the debt instrument under the CEF: EUR 70 million for CEF-Transport, EUR 16,5 million for CEF-ICT and EUR 40,8 million for CEF-Energy.

The CEF Regulation provides that the leverage effect of the debt instrument under the Connecting Europe Facility (defined as total funding divided by the Union contribution) shall be expected in a range between 6 and 15. Hence, the target volume should range between EUR 725 million and EUR 1 811 million.

### Natural Capital Finance Facility — 2014 to 2020

(i) **Reference to the basic act**

Regulation (EU) No 1293/2013 of the European Parliament and of the Council of 11 December 2013 on the establishment of a Programme for the Environment and Climate Action (LIFE) and repealing Regulation (EC) No 614/2007 (OJ L 347, 20.12.2014, p. 185), and in particular Article 17(1) thereof.

(ii) **Budget lines corresponding to the relevant operations**

Article 07 02 02 — Halting and reversing biodiversity loss (in 2014 budget nomenclature).

Article 34 02 02 — Increasing resilience of the Union to climate change (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Natural Capital Finance Facility (NCFF) will finance upfront investment and operating costs for revenue-generating or cost-saving pilot projects which promote the conservation, restoration, management and enhancement of natural capital for biodiversity and adaptation benefits, including ecosystem-based solutions to challenges related to land, soil, forestry, agriculture, water and waste. The NCFF combine direct and indirect financing of projects through debt and equity.

Given that the projects supported by the NCFF will be projects that the European Investment Bank (EIB) normally does not invest in, either because they are too small or because their perceived high risk is not compatible with the AAA rating of the bank, the facility will include a risk sharing mechanism whereby the EU funds would absorb first losses in case of project failure. The precise implementation mechanism will be established in a delegation agreement between the Commission and the EIB, which will also define precise exclusion/selection criteria for projects, ensuring that the correct priorities are built in the selection process and that there is sufficient sectorial and geographical coverage.

An expert support facility will be provided in order to ensure that projects reach a sufficient stage of maturity for financing. The implementation of the NCFF will be entrusted to the EIB by means of indirect management.

The NCFF pilot phase is foreseen to last from 2014 to 2017. The overall budget foreseen for this period is EUR 60 million including EUR 10 million for the support facility.

Projects will fall into four broad categories:

- payments for Ecosystem services (PES): projects involving payments for the flows of benefits resulting from natural capital, usually a small scale bilateral transaction with a well identified buyer and seller of an ecosystem service. They are based on the beneficiary pays principle, whereby payments take place to secure critical ecosystem services,
- green Infrastructure (GI): GI is a strategically planned network of natural and semi-natural areas with other environmental features designed and managed to deliver a wide range of ecosystem services. It incorporates green spaces (or blue if aquatic ecosystems are concerned) and other physical features in terrestrial (including coastal) and marine areas. On land, GI is present in rural and urban settings. GI projects have the potential to generate revenues or save costs based on the provision of goods and services including water management, air quality, forestry, recreation, flood/erosion/fire control, pollination, increased resilience to the consequences of climate change,
- biodiversity offsets: these are conservation actions intended to compensate for the residual, unavoidable harm to biodiversity caused by development projects. They are based on the polluter pays principle, whereby offsets are undertaken for compliance or to mitigate reputational risks. Projects aimed at compensating damages done to Natura 2000 sites according to Article 6(4) of Council Directive 92/43/EEC are not eligible for financing under the NCFF,

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

- innovative pro biodiversity and adaptation investments: these are projects involving the supply of goods and services, mostly by SMEs, which aim to protect biodiversity or increase the resilience of communities and other business sectors.

The aim will be to identify and finance projects with a sufficiently broad geographical and sector coverage, while testing various financial mechanisms, to ensure replicability across the EU during the operational phase. Eligibility rules for projects and investment policy for the Facility (for example setting caps on sectors and geographical coverage, as well as minimum criteria to be met and/or principles to be adhered to, e.g. the mitigation hierarchy) will be defined prior to its set-up and agreed contractually between the European Commission and the EIB.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

NCFF will be developed in two phases: a pilot phase will allow testing different financing options, in order to focus on the most suitable approaches in a second operational phase.

During the initial pilot phase, the NCFF is expected to execute 9-12 operations (including indirect operations), or 3-4 operations per year. Individual investments would remain below EUR 10-15 million.

The estimated leverage of the value of the facility to the LIFE provision is between 2,2 and 3,2 fold. Taking into account the possible contribution of final recipients to project costs in the order of 25%, the leverage of total investment to the LIFE provision could be between 2,8 and 4,2 fold. The total investment in natural capital management projects over the pilot phase alone could be up to EUR 210 million.

### The European Progress Microfinance FCP-FIS (EPMF FCP-FIS) — Prior to 2014

(i) **Reference to the basic act**

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility provides Union resources to increase access to, and availability of, microfinance for:

- persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in the preceding indent.

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF *Fonds Commun de Placement* — *Fonds d'Investissement Spécialisé* (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- Support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

The FCP-FIS is expected to end on 30 April 2020.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

For the entire period as of 30 September 2013 (latest data available as at writing date), EPMF achievements for the FCP-FIS component of the programme were as follows:

- number of micro-loans: 6 236,
- total amount of micro-credit agreements signed by Intermediaries : EUR 51,62 million,
- total number of self-employed and employees of Micro-enterprise final recipients, at signature date of Micro-credit agreement: 11 487.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

No further budgetary commitments have been made by the Commission since the end of the commitment period. The aggregate EPMF-FIS budgetary commitments for the period 2010-2013 amount to a total of EUR 80 million and the budgetary payments amount to EUR 16,6 million until the completion of the activities. The target volumes of lending to beneficiary micro-enterprises are estimated to EUR 928 million for the EPMF Debt and equity instruments (FCP-FIS) facility (budgetary commitments of EUR 80 million leverage effect of 11,6).

Commission Decision C(2010) 941 of 25 February 2010 on European Union participation in the 2020 European Fund for Energy, Climate Change and Infrastructure (the Marguerite Fund).

**(ii) Budget lines corresponding to the relevant operations**

Article 06 03 03 — Financial support for projects of common interest in the trans-European transport network (in 2013 budget nomenclature).

Article 06 02 51 (in part) — Completion of trans-European networks programme (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Marguerite Fund is a Pan-European equity fund developed in the context of the financial crisis and in recognition of the need for successful long-term infrastructure investment in Europe. It supports infrastructure investment within the transport (TEN-T), energy (TEN-E) and renewables sectors in Member States and will primarily invest in Greenfield Projects.

The core sponsors include public long term investors from France (CDC), Italy (CdP), Germany (KfW), Spain (ICO) and Poland (PKO) as well as the EIB and the European Commission. The size of the Fund at final closing is EUR 710 million.

Union aggregate budgetary commitments: EUR 80 million from the TEN-T budget

Expected results:

- 30 to 40 % of the total commitments invested in the Transport sector,
- 25 to 35 % invested in the Energy sector,
- 35 to 45 % invested in the Renewables Energies sector,
- at least 3,5 times the EC commitment to be invested into TEN-T eligible projects.

The investment period ends in December 2016 (with a possible extension of 2 more years) while the end-date/maturity of the fund has been set at a maximum term of 20 years from the initial closing (March 2010) but may be extended for up to two additional 1-year periods (up to year 2032).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The total of the EUR 80 million of budgetary commitments for the Fund were made available in 2010. With the multiplier of 128× (as estimated below for 2014), the target volumes of cumulated project capital cost (Enterprise Value) over the lifetime of the Fund are likely to reach EUR 10,2 billion, of which circa EUR 4 billion are expected to be allocated to TEN-T transport projects.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The 2014 multiplier calculations below are based on the expected amount of capital calls in 2014 for all eligible projects, as per the information received from the Marguerite Adviser.

The assumed percentage of the Marguerite Fund equity out of the total capital costs of the projects is based for a given year on the ratio for all of the projects in the portfolio until that year inclusive: for example for 2012 the 6,7% ratio corresponds to the first six projects up to the Chirnogeni wind farm (Romania).

Using the prudence principle, the administrative costs covered from capital calls for 2014 are assumed to be at the level of 2012. In 2013, those costs were fully covered by revenues from the existing projects, but this is not certain for 2014E.

Note: there is a timing delay between the time (year) of the capital call and the construction of the asset (representing the Enterprise Value). Sometimes equity is called-in at the beginning of a project, sometimes at the very end; the length of a project construction period can be of up to 4 years or more.

Article 32 02 52 (in part) — Completion of energy projects to aid economic recovery (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

On 1 July 2011, EUR 146,3 million from the European Energy Programme for Recovery (EEPR) were allocated to a new European Energy Efficiency Fund — EEEF (in the form of a specialised investment fund (SICAV)). The EEEF invests in energy efficiency, renewable energy projects, and clean urban transport particularly in urban settings, achieving at least 20 % energy saving or GHG/CO<sub>2</sub> emission reduction.

The beneficiaries must be public authorities or public or private entities acting on their behalf, including ESCOs <sup>(1)</sup>.

The Fund was launched on 1 July 2011 with an initial volume of EUR 265 million: in addition to the EU contribution (EUR 125 million in junior 'C-shares'), the European Investment Bank (EIB) invested EUR 75 million (mainly senior 'A shares'), Cassa Depositi e Prestiti SpA (CDP) EUR 60 million (mainly senior 'A shares'); and the designated investment manager (Deutsche Bank) EUR 5 million (mezzanine 'B shares').

The Fund offers a range of non-standard financial products such as senior and junior loans, guarantees, equity participation or forfeiting schemes which can be combined in a flexible way with standard finance.

In addition, about EUR 20 million of the EU funding is available for technical assistance (in the form of grants) to help sponsors make projects bankable for the Fund.

Finally, a EUR 1,3 million programme has been established to raise awareness of financing methods and options for EE and RE (renewable energies) among national and regional authorities managing Cohesion/Structural funds. EPEC <sup>(2)</sup> manages this programme.

In accordance with the amending Regulation, EU funds had to be allocated to investment projects and Technical assistance (TA) by 31 March 2014. Apart from this, there is no fixed deadline for proposals. The winding down of the instrument will take place probably after 2024.

**Fund/Investment Manager**

Deutsche Bank (DB) is responsible i.e. for selecting projects and conducting a due diligence process before submitting the projects to the Fund's Investment Committee for advice and to the Management Board for approval. DB also manages the TA component, submitting TA propositions to DG ENER for approval.

<sup>(1)</sup> An energy service company (ESCO), via an energy performance contract (EPC), can enable a public authority to implement upfront investments (e.g. to upgrade the performance levels of public buildings or to install efficient street lighting) without taking the financial risk.

<sup>(2)</sup> The European PPP Expertise Centre (EPEC) is a joint initiative of the EIB, the European Commission and EU Member States and candidate countries. EPEC helps strengthen the capacity of its public sector members to enter into Public Private Partnership (PPP) transactions.

Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

Regulation (EU) No 232/2014 of the European Parliament and of the Council of 11 March 2014 establishing a European Neighbourhood Instrument (OJ L 77, 15.3.2014, p. 27).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

One of the priorities of the European Neighbourhood and Partnership Instrument (ENPI) and of the new European Neighbourhood Instrument (ENI), is promoting investment projects in European Neighbourhood Policy Partner Countries, the scope of which covers the Neighbourhood Investment Facility (NIF).

The EU launched the NIF in 2007. The following eight Commission Decisions have been adopted for this instrument during the period 2007-2012 for a total envelope of EUR 545 million (EUR 324,7 million for ENPI South budget line and EUR 220,3 million from ENPI East budget line): decisions C(2007) 6280, C(2008) 2698, C(2009) 3951, C(2009) 8985, C(2010) 4400, C(2010) 7989, C(2011) 5547 and C(2012) 4533. In addition, a top-up was decided in December 2012 from ENPI Decision (2012) 4533 amounting to EUR 12,7 million from the East budget line and EUR 9,2 million from the South budget line. In 2013 additional commitments of EUR 133,3 million for NIF South and EUR 77,2 million for NIF East were approved. This brings an aggregated figure of EUR 467 220 334 for the South and EUR 310 200 000 for the East (in total envelope NIF 2007-2013 is EUR 777 420 334).

The NIF has included, since the beginning of 2011, a Climate Change Window (CCW) under the Environment and the Sustainable Management of Natural Resources including Energy Thematic Programme (ENRTP) of the Development Cooperation Instrument to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures. The NIF CCW is managed in a streamlined way and has in general the same rules and the same financing and implementation modalities as the NIF.

**(iii) General description of the financial instruments, including their duration and their impact on the budget***Policy objectives and scope*

The Financial Instrument of the European Union for the Neighbourhood Region contributes to achieving the objectives of the European Neighbourhood Policy (ENP) or related EU thematic policy priorities by leveraging additional financing for the region.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The NIF's overarching objective is to mobilise additional investments to support the establishment of an area of prosperity and good neighbourliness involving the EU and neighbouring countries. In complementarity with other EU-funded programmes, the NIF can foster a sustainable, inclusive growth and a favourable investment climate in our partner countries.

Within this framework, the NIF pursues three strategic objectives, notably:

- establishing better energy and transport infrastructure interconnections between the EU and neighbouring countries and among neighbouring countries themselves,
- addressing threats to our common environment including climate change,
- promoting smart, sustainable and inclusive growth, in particular through support for small and medium size enterprises.

The NIF operations will continue to support the implementation of the ENP Action Plans and focus on five main sectors: Energy, Environment with a particular focus on climate change mitigation and adaptation, Transport, Social and Small and Medium Enterprise development.

*Geographical coverage and final recipients*

European Neighbourhood Policy partner countries directly eligible for the NIF are neighbourhood countries having signed an action plan with the EU, except for those that do not qualify because of their level of development. On a case by case basis, other countries which are not directly eligible may benefit from NIF interventions taking into account regional or specific circumstances. Their eligibility will have to be decided unanimously by Member States and the Commission.

Other final recipients will be the private sector and, in particular the SMEs. Both multilateral and national European development finance institutions might be direct beneficiaries and important stakeholders of the facility.

*Main technical characteristics*

Under the instrument, risk capital (equity and quasi-equity investments), risk-sharing instruments, guarantees, loans, other financing such as investment grants, interest rate subsidies and technical assistance can be used.

*Duration and impact on the budget*

The decisions relating to this instrument are valid for the Multiannual Financial Framework 2007-2013 and may be extended further in accordance with the Multiannual Financial Framework 2014-2020.

The final date for contracting (for both regions) is 6 July 2015 relating to decisions from 2012. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis and is not limited.

In 2013, Commission Implementing Decision (C(2013) 1276) was adopted on 11 March 2013 for a maximum contribution East and South of EUR 200 million included in the above table.

The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the NIF is of EUR 770 420 334 for the NIF South and East. The target leverage effect based on historical leverage experience during the period 2008-2013 for NIF is estimated as follows:

Total project cost (circa EUR 20,8 billion)/NIF contributions (circa EUR 753 million) : 27,6.

Eligible Finance Institutions resources (circa EUR 9.6 billion)/NIF contributions : 12,7.

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The potential total volume of payments to be generated in 2014 for the NIF was expected to reach EUR 104 070 000.

### **Investment Facility for Central Asia (IFCA) and Asia Investment Facility (AIF)**

(i) **Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (OJ L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

Based on the first results from the NIF, the Commission proposed to set up investment facilities targeting countries under the Development Cooperation Instrument (DCI) Regulation, initially in Central Asia, Asia and Latin America. Two facilities were set up for Asia: the Investment Facility for Central Asia (IFCA) in 2010 and the Asian Investment Facility (AIF) in 2011. These two facilities have been modelled on the NIF and have the same types of objectives and scope as those defined in the NIF General Framework agreed in March 2008 (cf. section of this working document on NIF).

As of end 2013, there have been three decisions for the IFCA financed through the 2010, 2011, 2012 and 2013 budgets and two decisions for AIF financed through the 2011 and 2012(jointly) and 2013 budgets.

Item 19 10 01 01 — Cooperation with developing countries in Asia (in 2013 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The IFCA's main purpose is to promote additional investments and key infrastructures with a priority focus in the first implementation period on energy and environment. Based on the development of the Central Asia Strategies, a later extension to transport, SMEs and social infrastructure sectors in the Central Asian countries was envisaged.

The AIF's main purpose is to promote additional investments and key infrastructure with a priority focus on climate change and 'green' investments in the areas of environment and energy as well as in SME's and social infrastructure. A later extension to the transport sector could be envisaged.

*Geographical coverage and final recipients*

The final recipients of these two facilities are the countries of these two regions. Other final recipients will be the private sector and, in particular SMEs.

Eligible finance institutions might be direct beneficiaries and important stakeholders of these two facilities.

*Main technical characteristics*

The types of operations to be financed are the following:

— investment co-financing in public infrastructure projects,

## COMMISSION

- loan guarantee cost financing,
- interest rate subsidies,
- technical assistance,
- risk capital operations.

Possible management modes were centralised (direct and indirect), joint and partially decentralised management (budget management modes in force until end 2013).

*Duration and impact on the budget*

The IFCA and the AIF are established for the duration of the legal basis, i.e., until 31 December 2013 and may be extended further in accordance with the Multiannual Financial Framework 2014-2020.

The final dates for contracting are 23 December 2016 for IFCA and 31 December 2014 for AIF, both related to decisions from 2013. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facilities. The duration of individual projects is established on a case-by-case basis and is not limited.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The objective of the support to FEMIP is to provide capital to the private sector of Mediterranean partner countries on terms that are not available locally.

Risk capital is invested directly or indirectly in order to (i) support the private sector, i.e. enable the creation, restructuring or growth of enterprises (ii) strengthen the role of the local financial sector by supporting the creation of new institutions or the establishment of new activities for the benefit of the private sector.

Technical assistance is mobilised to strengthen FEMIP operations in the Mediterranean region, with a special focus on private sector development.

*Geographical coverage and final recipients*

FEMIP covers the 9 Southern Mediterranean States. The beneficiaries of the Risk Capital Facility are the private sector in general and SMEs as well as financial intermediaries. The beneficiaries of technical assistance are private enterprises, public institutions and the financial intermediaries.

*Main technical characteristics*

This action with the objective of financing Risk Capital and Technical Assistance Operations will be implemented in indirect centralised management with the European Investment Bank.

The European Investment Bank is entrusted to carry out the following operations:

- risk capital operations,
- technical assistance operations.

*Duration and impact on the budget*

FEMIP is established for the duration of the Multiannual Financial Framework 2007-2013. There has been an annual budgetary commitment of EUR 32 million against budget line 19 08 01 01. Therefore, the total financial envelope for 2007-2013 is EUR 224 million.

The final date of implementation for the 2013 commitment is 31 December 2029.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

It was expected that the FEMIP scheme would receive EUR 32 million financed with 2013 budgetary appropriations.

*Policy objectives and scope*

The GEEREF is an innovative financing vehicle aiming to promote energy efficiency and renewable energy in developing countries and economies in transition. Structured as a Fund-of-Funds, GEEREF's strategy is to invest in — and thus help develop — regional private equity funds whose investments will target small and medium sized energy efficiency and renewable energy projects.

The objectives are to contribute to the expansion of renewable energy, energy efficiency and other related clean energy technologies to markets and services in developing countries and economies in transition, with the objective to increase access to low carbon, secure and affordable energy, and to help improve the economic and social circumstances of underserved or disadvantaged populations, to encourage sustainable economic development, while promoting the protection of the environment.

*Geographical coverage and final recipients*

The scope of the GEEREF is to support regional sub-funds for Sub-Saharan Africa, Caribbean and Pacific Island States, the countries of the European Neighbourhood Policy including Russia, Latin America, and Asia (including Central Asia and the Middle East). There will be a special emphasis on serving the needs of the African Caribbean and Pacific (ACP) countries.

*Duration and impact on the budget*

The end date of the activities under GEEREF is 13 December 2022, as calculated from the date the last commitment was recorded.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Financial Instrument of the European Union for the Guarantee Facility contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans.

Its major objectives are the creation of preconditions for the emergence and growth of innovative and high-potential companies. The instrument will guarantee SME loan portfolios issued by commercial banks for new SME lending. This will entail improving SME access to lending and potentially lowering the cost of borrowing.

Under the instrument, guarantees of first loss of new loans to targeted SMEs with a guarantee rate of up to 70 % and a guarantee cap of up to 25 % in the overall loan portfolio can be used. The exact guarantee rate and cap is being determined on a case by case basis.

The Commission implements the instrument under indirect management in accordance with Article 139 of the Financial Regulation (through a Fiduciary and Management Agreement). Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The Facility is to be implemented under indirect management, with the implementation tasks entrusted to the EIF.

The instrument started in 2013 and will guarantee loans with maturity until 2023. The geographical coverage will be the Western Balkans in line with Regulation (EU) No 236/2014.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The financial envelope envisaged for the instrument amounts to EUR 21,9 million (of which EUR 1,9 million is a provision for fees to the EIF as the Manager and EUR 20 million is the guarantee capital) that was committed and paid out to the EIF. As at 31 December 2013 the amount is considered as cash equivalent (fiduciary account) on the Balance Sheet of DG ELARG and not yet as a financial instrument and it was expected that the guarantees under the facility would be allocated in course of 2014. This amount shall leverage a total investment in excess of EUR 110 million, implying the leverage factor of 5,5.

The aggregate budgetary commitment of EUR 21,9 million from IPA I is expected to be increased under the Multi-beneficiary Programme IPA II subject to adoption of the corresponding financing decisions.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Green for Growth Fund (GGF) is an innovative fund initiated in 2009 by the European Investment Bank (EIB) and the KfW Entwicklungsbank (KfW) with the support of the European Commission. The Fund provides dedicated financing for energy efficiency and renewable energy projects to help the target countries reduce CO<sub>2</sub> emissions and energy consumption.

This is achieved by lending to businesses and households via financial institutions and through direct funding. The Commission is investing in the GGF on behalf of the beneficiaries, to support the stabilisation of financial markets and economies. These investments are made in the Fund's first-loss tranche ensuring that finance remains available to the public and private energy sector and countries keep high their potential to achieve the EU's 20/20/20 energy targets. The activities of GGF are complemented by a Technical Assistance Facility.

Subject to programming 2014–2020.

The Financial Instrument of the European Union for energy efficiency and renewable energies (Green for Growth Fund) contributes to achieving the objectives of the Multi-annual Indicative Planning Document (MIPD) 2010-2013, *inter alia* support for investments in energy efficiency as a potential key driver of recovery from the economic crisis and sustained economic growth.

Its major objectives are to contribute in the form of a public-private partnership with a layered risk/return structure, to enhancing energy efficiency (EE) and renewable energies (RE) in the South-East Europe region predominantly through the provision of dedicated financing to businesses and households via partnering with financial institutions and direct finance.

The instrument finances Financial Institutions (commercial banks and non-bank financial institutions, such as leasing companies) to finance mainly EE and RE investments in private households and small and medium-sized enterprises; direct financing of Energy Service Companies (ESCOs), small renewable energy projects as well as companies and municipal entities. The geographical coverage will be the Western Balkans and Turkey in line with Regulation (EU) No 236/2014.

Under the Instrument, medium to long-term senior loans, subordinated loans, syndicated loans, letters of credit, guarantees, mezzanine debt instruments, local debt securities and equity can be used.

Item 22 02 04 01 — Multi-country programmes, regional investment support (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The overall objective of the SME Recovery Support Loan for Turkey is to mitigate the crisis impact for SMEs and contribute to the development of the Turkish economy and employment sector. The main objective is to support SMEs with concrete productive investments by providing access to attractive and longer-dated debt financing. The co-financing of loans is to be provided to local commercial banks operating in Turkey (the 'Financial Intermediaries') for the benefit of eligible investments carried out by SMEs. In the context of the Action, the European Investment Bank (EIB) shall extend loans from its own resources together with the Union Contribution loans.

Individual SMEs are eligible for financing from a Financial Intermediary using funding available through the Action (each a 'Sub-Loan') up to a maximum amount of EUR 5,0 million and a minimum amount of EUR 200 000 and with a minimum maturity of 4 years.

The financial EU commitment of the instrument amounts to EUR 30,0 million (of which EUR 370 000 are for management fees). It is a joint management action with the European Investment Bank (EIB) who contributes with EUR 120,0 million. The action will end in December 2016. The whole duration of the recovery support will extend probably to 2026.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The 2009 EU commitment of EUR 30 million supported a lending volume of EUR 150 million to the two participating Turkish banks, implying the leverage factor of 5.

*Remarks*

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

- devising, developing, improving and managing information exchange systems and common infrastructures, while respecting confidentiality and security requirements,
- searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),
- supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,
- financing measures to increase the effectiveness of preventive measures, inspections and investigations,
- strengthening cooperation with national administrations, in particular to combat cigarette smuggling,
- organising and participating in monitoring and on-the-spot inspections,
- financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,
- covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,
- covering the costs of conferences, congresses and meetings that the Office organises in its anti-fraud work.

*Remarks*

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

COMMISSION  
EUROPEAN ANTI-FRAUD OFFICE

**CHAPTER A3 02 — FINANCING ANTI-FRAUD MEASURES** (*cont'd*)

**A3 02 03** (*cont'd*)

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

*Remarks*

This appropriation is intended to cover all expenditure resulting from the mandate of the members of the Supervisory Committee, namely:

- allowances granted to the members of the Supervisory Committee for the time dedicated to the fulfilment of their functions, as well as their travel expenses and ancillary costs,
- costs incurred by members of the Supervisory Committee officially representing the Supervisory Committee,
- all operating expenditure, such as the cost of purchase of equipment, stationery and office supplies and expenditure arising from communications and telecommunications (postal charges, telephone, fax and telegraph charges), documentation and library expenditure, the purchase of books and subscriptions to information media,
- travel, subsistence and incidental expenses of experts, invited by the members of the Supervisory Committee to participate in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices),
- expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) where the members of the Supervisory Committee are unable to entrust such studies to suitable staff of the Office.

**A4 02 01** ***Interinstitutional cooperation, interinstitutional services and activities***

*Remarks*

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

## CHAPTER A4 02 — INTERINSTITUTIONAL COOPERATION, INTERINSTITUTIONAL SERVICES AND ACTIVITIES (cont'd)

## A4 02 01 (cont'd)

- improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,
- reducing the length of the selection process,
- considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,
- establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,
- providing all the necessary facilities to enable the participation of applicants with disabilities.

## TITLE 2

## BUILDINGS, MOVABLE PROPERTY, EQUIPMENT AND MISCELLANEOUS OPERATING EXPENDITURE

## CHAPTER 2 0 — BUILDINGS AND ASSOCIATED COSTS

*Remarks*

Cover having been cancelled by the insurance companies, the risk of labour disputes and terrorist attacks in and on the buildings occupied by the Court of Auditors is now covered by the general budget of the Union. The appropriations earmarked under this title therefore cover all expenditure incurred in repairing damage resulting from labour disputes and terrorist attacks.

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 0** (*cont'd*)1 4 0 8 (*cont'd*)

This appropriation is intended to cover costs for services related to the establishment and payment of entitlements for officials, temporary and other staff of the Committee of the Regions. Since such services may include, amongst others, services offered by the European Commission's Office for the Administration and Payment of Individual Entitlements, interinstitutional cooperation will be enhanced and benefits will result from economies of scale, thus bringing about savings. Such services may include the following:

- the transfer of pension rights from and to the country of origin,
- the calculation of pension rights,
- the establishment and payment of resettlement allowances,
- the management of files relating to unemployment benefits and the payment of benefits to those who qualify.

It is also intended to cater for expenditure for the provision of other horizontal human resources related services to officials, temporary and other staff of the Committee of the Regions (and their family members) throughout their career such as opening up access for Committee of the Regions staff to the activities organised by the European Commission's Welcome Office. In order to generate further economies of scale, the provision of such services will, as a rule, be operated through enhanced interinstitutional cooperation.

**Remarks**

This appropriation is intended to cover expenditure on work carried out by external translation contractors: freelance translation into 24 official Union languages and also into non-Union languages is performed by contractors under framework contracts, except in case of some non-Union languages where there are no similar procedures.

It also covers expenditure on any work entrusted to the Translation Centre in Luxembourg and all interinstitutional cooperation activities in the language area.

**Conditions for releasing the reserve**

Part of the appropriation has been placed in the reserve. The reserve will be released once the final decision on the transfer of the 12 posts remaining out of a total of 24 posts has been taken.

(<sup>1</sup>) In the framework of the preparatory works to set up the future European Data Protection Board (EDPB), the creation of a task force composed of two officials (1 AD9 and 1 AST5) and a contract agent or a national expert has been proposed for the second half of 2015. As the EDPB will not be in place by that time, the officials of the proposed task force have been temporarily included in the establishment plan of the EDPS in the understanding that once the EDPB is formally set up, these posts will be transferred accordingly. In the unlikely eventuality that the EDPS was not entrusted with the Secretariat of the EDPB, these posts will be either transferred to the responsible body in charge of the Secretariat or cancelled.

- postal and delivery charges for mail, reports and publications, and for postal and other packages sent by air, land, sea or rail,
- the cost of the diplomatic bag,
- all expenditure on furniture and fittings for residential accommodation made available to officials,
- the purchase, hire or leasing of data-processing equipment (computers, terminals, mini-computers, peripherals, connection devices) with the requisite software,
- outsourced services, in particular for the development, maintenance and support of information technology systems in the delegations,
- the purchase, hire or leasing of equipment for the reproduction of information on paper, such as printers and scanners,
- the purchase, hire or leasing of telephone exchanges and switchboards and equipment for data transmission with the requisite software,
- subscription charges and fixed costs for cable or radio communications (telephone, telegraph, telex, fax), expenditure on data-transmission networks, telematic services, etc., and the purchase of directories,
- the cost of installation, configuration, maintenance, support, assistance, documentation and supplies related to this equipment,
- any expenditure on active security operations in delegations in emergencies,
- all financial charges, including bank charges,
- for imprest accounts, adjustments where all appropriate measures have been taken by the authorising officer to deal with the situation and where the adjustment expenditure cannot be booked to another specific budget line,
- adjustments in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- adjustments in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting from the liquidation or cessation of activities of a bank with which the Commission has accounts for the purposes of imprests.

It may finance costs incurred by delegations in the framework of local cooperation with Member States, notably in the context of a crisis.
