

Statement by the Commission

(2021/C 49/04)

The Commission welcomes the adoption of the Regulation of the European Parliament and of the Council amending Regulation (EU) No 654/2014.

The Commission recalls the Statement which it made upon the adoption of the original regulation, inter alia that the implementing acts which the Commission is empowered to adopt would be designed on the basis of objective criteria and subject to the control of the Member States. In exercising that empowerment, the Commission intends to act in accordance with the statement made upon the adoption of the original regulation as well as this Declaration.

When preparing draft implementing acts affecting trade in services or trade-related aspects of intellectual property rights, the Commission recalls its obligations pursuant to Article 9(1a) and confirms that it will undertake intensive prior consultations with a view to ensuring that all relevant interests and implications can be brought to the Commission's attention, shared with Member States and are duly taken into account in the possible adoption of measures. In those consultations, the Commission will seek and expects to receive input from private stakeholders affected by possible commercial policy measures to be adopted by the Union in those areas. Similarly, the Commission will seek and expects to receive input from public authorities that may be involved in or affected by the implementation of possible commercial policy measures adopted by the Union.

In the case of measures in the fields of trade in services and trade-related aspects of intellectual property rights, in particular the input from Member States' public authorities involved in the formulation or implementation of legislation regulating the affected fields will be duly taken into account in the preparation of draft implementing acts, inter alia on how possible commercial policy measures would interact with European Union and national legislation. Likewise, other stakeholders affected by such commercial policy measures will be given an opportunity to formulate their recommendations and concerns with respect to the choice and design of measures to be adopted. The observations will be shared with the Member States when measures are adopted pursuant to Article 8 of the Regulation. The regular review of any such measures imposed during their application or after their termination will likewise take into account the input from Member State authorities and private stakeholders in relation to the operation of such measures, and allow for adjustments to be made if problems have arisen.

Finally, the Commission reaffirms that it attaches great importance to ensuring that the Regulation is an effective and efficient tool for the enforcement of the Union's rights under international trade agreements, including in the field of trade in services and trade-related aspects of intellectual property rights. Therefore, the measures to be chosen in these fields must also ensure effective enforcement in line with the rights of the Union, such that they induce compliance by the third country concerned and are consistent with the applicable international rules on the type of enforcement measures allowed.
