COMMISSION OF THE EUROPEAN COMMUNITIES

COM(78) 543 final

Brussels, 15 November 1978.

Recommendation for a
COUNCIL REGULATION

concerning the conclusion of the Agreement between
the European Economic Community and the Eastern
Republic of Uruguay
on trade in textile products

(submitted to the Council by the Commission)

COM(78) 543 final

EXPLANATORY MEMORANDUM

1. By Decision of 19 October 1977, the Council authorised the Commission to open negotiations with Uruguay with a view to the conclusion of an agreement on trade in textile products.

2. In accordance with that Council Decision, and in consultation with the Article 113 Committee, the Commission conducted negotiations with Uruguay from 20 October to 21 December 1977.

Following the negotiations, a draft Agreement was drawn up.

The draft Agreement:

(i) covers all MFA products of wool, cotton and man-made fibres originating in Uruguay;

(ii) calls for voluntary restraint, at agreed levels, on exports to the Community of certain categories of products covered by the Agreement;

(iii) provides for a consultation procedure whereby voluntary restraint measures may be introduced for categories of products not initially subject to limitation, where certain thresholds are exceeded;

(iv) establishes a double checking system for categories of products subject to limitation, and an origin control system for all categories covered by the Agreement;

(v) includes a flexibility clause allowing the transfer of a certain percentage of the quotas from category to category, or from one year to another;

(vi) in exchange for limitation, contains an undertaking by the Community not to introduce further quantitative restrictions under Article XIX of the GATT or Article 3 of the MFA, or to measures having an effect equivalent to quantitative restrictions.

The Heads of the Delegations initialled the text of the draft Agreement on 21 December 1977, having noted that it correctly represented the results of the negotiations.

3. In order to ensure that the successful implementation of the Agreement should not be put at risk and to prevent a flood of exports preceding its entry into force, the Community, following the conclusion of the negotiations, proposed to the third countries that until such time as the Agreement entered into force both parties should apply its provisions on an autonomous basis as from 1 January 1978. These provisions were put into effect for 1978 by Commission Regulation (EEC) N° 3019/77 of 30 December 1977, making the importation into the Community of textile products originating in certain third countries subject to authorisation and quantitative limitation (1), as confirmed by Council Regulation (EEC) N° 265/78 of 7 February 1978 (2).

The Commission has laid before the Council a proposal for a regulation containing the definitive measures for the implementation of the Agreement by the Community.

4. The Commission considers that the draft Agreement embodies an arrangement which is acceptable to the Community. It therefore recommends that the Council:

(i) approve the Agreement by adopting the regulation, the draft of which is annexed hereto;

(ii) pending approval of the Agreement, take the necessary decisions in connection with the signing thereof.

Procedures for origin controlArticle 1

1. Products originating in Uruguay may be imported into the Community in accordance with the arrangements established by this Agreement on production of a certificate of origin conforming to the specimen annexed to this Protocol.
2. The certificate of origin shall be issued by the competent governmental authorities of Uruguay if the products in question can be considered products originating in that country within the meaning of the relevant rules in force in the Community.
3. However, the products in Groups III, IV and V may be imported into the Community in accordance with the arrangements established by this Agreement on production of a declaration by the exporter on the invoice or other commercial document to the effect that the products in question originate in Uruguay within the meaning of the relevant rules in force in the Community.

Article 2

The certificate of origin shall be made out in English or French. If it is completed by hand, entries must be in ink and in printscript. It may comprise additional copies duly indicated as such.

The document shall measure 210 x 297 mm. The paper used must be white sized writing paper not containing mechanical pulp and weighing not less than 25 g/m². It shall have a printed guilloche-pattern background making any falsification by mechanical or chemical means apparent to the eye.

Each document shall bear a serial number, whether or not printed, by which it can be identified.

Article 3

The certificate of origin may be issued after the shipment of the products to which it relates. In such cases it must bear the endorsement "délivré a posteriori" or "issued retrospectively".

Article 4

In the event of theft, loss or destruction of a certificate of origin, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate certificate issued in this way must bear the endorsement "duplicata".

The duplicate must bear the date of the original certificate.

Article 5

The competent governmental authorities in Uruguay shall satisfy themselves that the goods exported correspond to the particulars given in the certificate of origin.

Article 6

Uruguay shall send the Commission of the European Communities the names and addresses of the governmental authorities competent to issue certificates of origin, together with specimens of ^{the} stamps used by these authorities.

Article 7

The discovery of slight discrepancies between the statements made in the certificate of origin and those made in the documents produced to the customs office for the purpose of carrying out the formalities for importing the product shall not ipso facto cast doubt upon the statements in the certificate.

Article 8

1. Subsequent verification of certificates of origin shall be carried out at random, or whenever the competent Community authorities have reasonable doubt as to the authenticity of the certificate or as to the accuracy of the information regarding the true origin of the products in question.

In such cases the competent authorities in the Community shall return the certificate of origin or a copy thereof to the competent governmental authority in Uruguay giving where appropriate the reasons of form or substance for an enquiry. If the invoice or a copy of it has been submitted, such invoice or copy shall be attached by the said authorities to the certificate of origin. The authorities shall also forward any information that has been obtained suggesting that the particulars given on the said certificate are inaccurate.

2. The provisions of paragraph 1 above shall be applicable to subsequent verifications of the declarations of origin referred to in Article 1(3) of this Protocol.

3. The results of the subsequent verifications carried out in accordance with paragraph 1 and 2 above shall be communicated to the competent authorities in the Community within three months at the latest.

Should such verifications reveal systematic irregularities in the use of the declarations of origin described in Article 1(3) of this Protocol, the Community may subject imports of the products in question to the provisions of Article 1(1) and (2) of this Protocol.

4. For the purpose of subsequent verification of certificates of origin, copies of the certificates as well as any export documents referring to them shall be kept for at least two years by the competent governmental authorities in Uruguay.

5. Random recourse to the procedure specified in this Article may not constitute an obstacle to the release for home use of the products in question.

Article 9

The provisions of this Protocol shall not apply to goods covered by a certificate of origin Form A completed in accordance with the relevant Community rules in order to qualify for generalized tariff preferences.

1. Under Article 3 of the Agreement, exports of textile products listed in Annex I may be made subject to quantitative limits by the Community on the conditions laid down in the following paragraphs.

2. Where the Community finds, under the system of administrative control set up, that the level of imports of products in any category listed in Annex I originating in Uruguay exceeds, in relation to the preceding year's total imports into the Community of products in that category, the following rates :

for categories of products in Group I, 0,2 % ;

for categories of products in Group II, 1,5 % ;

for categories of products in Group III, IV, V or VI, 4 % ,

it may request the opening of consultations in accordance with the procedure laid down in Article 5 of the Agreement, with a view to reaching agreement on an appropriate restraint level for the products in such category.

3. Pending a mutually satisfactory solution, Uruguay undertakes, from the date of notification of the request for consultations, to suspend or limit at the level indicated by the Community or to the region or regions of the Community market specified by the Community.

The Community shall authorize the importation of products of the said category shipped from Uruguay before the date on which the request for consultations was submitted.

4. Should the Parties be unable in the course of consultations to reach a satisfactory solution within the period specified in Article 5 of the Agreement, the Community shall have the right to introduce a quantitative limit at an annual level not lower than that reached by imports of the category in question and referred to in the notification of the request for consultations.

Should the trend of total imports of the product in question make it necessary, in order to ensure conformity with the conditions set out in paragraph 2, to revise upwards the annual level so fixed, such revision shall take place in accordance with the consultation procedure laid down in Article 5.

5. The quantitative limits introduced under paragraph 2 or paragraph 4 may in no case be lower than the level of imports into the Community of products in that category originating in Uruguay for 1976.

6. Quantitative limits on a regional basis may be introduced only where imports of a given product into any region of the Community paragraph 2, the following regional percentages :

Germany	28,5 %
Benelux	10,5 %
France	18,5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
UK	23,5 %

7. The annual growth rate for the quantitative limits introduced under paragraph 2, 4 or 6 shall be determined as follows :

(a) for products in Group I :

- the rate shall be fixed at 0,5 % per year for a product in category 1 or 2,

- the rate shall be fixed at 4 % per year for a product in category 3, 4, 5, 6, 7 or 8;

(b) for categories in Group II, III, IV or V, the growth rate

shall be fixed by agreement between the Parties in accordance with the consultation procedure established in Article 5 of the Agreement. Such growth rate may in no case be lower than the highest rate applied to corresponding categories under bilateral agreements concluded under the Geneva Arrangement between the Community and other third countries having a level of trade equal or comparable to that of Uruguay.

8. The provisions of this Article shall not apply where the percentages specified therein have been reached as a result of a fall in the total imports into the Community, and not as a result of an increase in exports of products originating in Uruguay.

DECLARATION

on Article 1(4) of the Agreement

The Community declares that, in accordance with the Community rules of origin referred to in Article 1(4) of the Agreement, any amendments to the said rules shall comply with the principle whereby the status of originating product is conferred on the basis of a single complete process.
