

## Notice of initiation of an anti-dumping proceeding concerning imports of certain worked monumental or building granite stones originating in the People's Republic of China and India

(2000/C 322/03)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 <sup>(1)</sup> as last amended by Regulation (EC) No 2238/2000 <sup>(2)</sup> ('the Basic Regulation'), alleging that imports of certain worked monumental or building granite stones, originating in the People's Republic of China and India, are being dumped and are thereby causing material injury to the Community industry.

### 1. Complaint

The complaint was lodged on 29 September 2000 by the European & International Federation of Natural Stone Industries (Euro-ROC) ('the complainant'), on behalf of producers representing a major proportion, in this case more than 31 %, of the total Community production of certain worked monumental or building granite stones.

### 2. Product

The product allegedly being dumped is granite-worked monumental or building stones either simply cut or sawn, with a flat or even surface, or polished decorated or otherwise worked, with a net weight of 10 kg or more, or otherwise carved or decorated. These stones include, but are not limited to, granite tombstones, which define and/or decorate graves, in slabs positioned in most cases vertically or horizontally and enclosures (borders) which, when assembled, can be utilised as a memorial ('the product concerned'). They are, currently classifiable within CN codes ex 6802 23 00, ex 6802 93 10 and ex 6802 93 90. These CN codes are only given for information.

### 3. Allegation of dumping

The allegation of dumping for India is based on a comparison of a constructed normal value with the export prices of the product concerned to the Community.

In view of the fact that normal value for the People's Republic of China will be determined on the basis of the rules set out in Article 2(7) of the Basic Regulation, the complainant has proposed that normal value be established on the basis of a constructed normal value in a market economy country (see point 5.1(c) below).

The allegation of dumping is based on a comparison of normal value as set out above, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margins calculated are significant.

<sup>(1)</sup> OJ L 56, 6.3.1996, p. 1.

<sup>(2)</sup> OJ L 257, 11.10.2000, p. 2.

### 4. Allegation of injury

The complainant has provided evidence that imports of the product concerned from the People's Republic of China and India have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the market share held and the quantities sold by the Community industry, resulting in substantial adverse effects on the overall performance, the financial situation and the employment situation of the Community industry.

### 5. Procedure

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the Basic Regulation.

#### 5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in the People's Republic of China and India is being dumped and whether this dumping has caused injury.

##### (a) Sampling

In view of the apparent number of parties involved in this proceeding, the Commission may decide to apply sampling in accordance with Article 17 of the Basic Regulation.

##### (i) Sampling for exporters/producers in the People's Republic of China and India

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in paragraph 6(b)(i) of this notice:

- any other relevant information that would assist the Commission in the selection of the sample,
- an indication of whether the company or companies agree to their inclusion in the sample, which implies replying to a questionnaire and accepting an on-the-spot investigation of their response.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country, and any known associations of exporters/producers.

#### (ii) Sampling for importers

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in point 6(b)(i) of this notice:

- name, address, e-mail address, telephone, and fax, and/or telex numbers and contact person,

- any other relevant information that would assist the Commission in the selection of the sample,
- an indication of whether the company or companies agree to their inclusion in the sample, which implies replying to a questionnaire and accepting an on-the-spot investigation of their response.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

#### (iii) Sampling for Community producers

In view of the large number of Community producers supporting the complaint, the Commission intends to investigate injury to the Community industry by applying sampling.

The selection of the sample will be based on the largest representative volume of production and sales of the Community industry which can be reasonably investigated within the time available.

In order to obtain the information necessary for the selection of the sample of Community producers, the Commission will contact associations of Community producers and/or individual Community producers.

#### (iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in point 6(b)(i) of this notice.

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

<sup>(1)</sup> For guidance on the meaning of related companies, please refer to Article 143(1) of Commission Regulation (EEC) No 2454/93 concerning the implementation of the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(ii) and must cooperate within the framework of the investigation.

If sufficient cooperation is not forthcoming, the Commission will base its findings, in accordance with Articles 17(4) and 18 of the Basic Regulation, on the facts available.

(b) *Questionnaires*

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Community industry and to any association of producers in the Community, to the sampled exporters/producers in the People's Republic of China and India to any association of exporters/producers, to the sampled importers, to any association of importers named in the complaint, and to the authorities of the exporting countries concerned.

Exporters/producers in the People's Republic of China and India claiming an individual margin, with a view to the application of Articles 17(3) and 9(6) of the Basic Regulation, have to submit a complete questionnaire within the time limit set in point 6(a)(ii) of this notice. They therefore have to request a questionnaire within the time limit set in point 6(a)(i) of this notice. However, such parties should be aware that if sampling is applied to exporters/producers, the Commission may decide not to grant them an individual margin, if it would be unduly burdensome and would prevent the timely completion of the investigation.

(c) *Collection of information other than questionnaire replies and holding of hearings*

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence has to reach the Commission within the time limit set in point 6(a)(ii) of this notice.

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(ii).

(d) *Selection of the market economy country*

In accordance with Article 2(7)(a) of the Basic Regulation, it is envisaged to choose India as an appropriate market economy country for the purpose of establishing normal value in respect of the People's Republic of China. Interested parties are hereby invited to comment on the appropriateness of this choice within the specific time limit set in point 6(c) of this notice.

(e) *Market economy status*

For those exporters/producers in the People's Republic of China which claim aid and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the Basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the Basic Regulation. Exporters/producers intending to submit duly substantiated claims must do so within the specific time limit set in point 6(d) of this notice. The Commission will send claim forms to all exporters/producers in the People's Republic of China who have either been included in the sample or who have requested an individual margin as well as to the authorities of the People's Republic of China.

**5.2. Procedure for assessment of Community interest**

In accordance with Article 21 of the Basic Regulation and in the event that the allegations of dumping and injury caused thereby are substantiated, a decision will be reached as to whether the adoption of anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii) of this notice, make themselves known and provide the Commission with information. It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.
