Proposal for a

COUNCIL DECISION

on the signature and provisional application of the Agreement between the European Community and the Government of Australia on certain aspects of air services

Proposal for a

COUNCIL DECISION

on the conclusion of the Agreement between the European Community and the Government of Australia on certain aspects of air services

(presented by the Commission)

EXPLANATORY MEMORANDUM

International aviation relations between Member States and third countries have traditionally been governed by bilateral air services agreements between Member States and third countries, their Annexes and other related bilateral or multilateral arrangements.

Following the judgements of the Court of Justice of the European Communities in cases C-466/98, C-467/98, C-468/98, C-471/98, C-472/98, C-475/98 and C-476/98, the Community has exclusive competence with respect to various aspects of external aviation. The Court of Justice also clarified the right of Community air carriers to benefit from the right of establishment within the Community, including the right to non-discriminatory market access.

Traditional designation clauses in Member States' bilateral air services agreements infringe Community law. They allow a third country to reject, withdraw or suspend the permissions or authorisations of an air carrier that has been designated by a Member State but that is not substantially owned and effectively controlled by that Member State or its nationals. This has been found to constitute discrimination against Community carriers established in the territory of a Member State but owned and controlled by nationals of other Member States. This is contrary to Article 43 of the Treaty which guarantees nationals of Member States who have exercised their freedom of establishment the same treatment in the host Member State as that accorded to nationals of that Member State.

Following the Court of Justice judgements, the Council authorised the Commission in June 2003 to open negotiations with third countries on the replacement of certain provisions in existing bilateral agreements with a Community agreement.¹

In accordance with the mechanisms and directives in the Annex to the Council decision authorising the Commission to open negotiations with third countries on the replacement of certain provisions in existing bilateral agreements with a Community agreement, the Commission has negotiated an agreement with Australia that replaces certain provisions in the existing bilateral air services agreements between Member States and Australia. Article 2 of the Agreement replaces the traditional designation clauses with a Community designation clause, permitting all Community carriers to benefit from the right of establishment. Article 4 (Pricing) resolves conflicts between the existing bilateral air services agreements and Council Regulation No 2409/92 on fares and rates for air services which prohibits third country carriers from being price leaders on air services for carriage wholly within the Community.

The Council is asked to approve the decisions on the signature and provisional application and on the conclusion of the Agreement between the European Community and the Government of Australia on certain aspects of air services and to designate the persons authorised to sign the agreement on behalf of the Community.

ANNEX

AGREEMENT

between the European Community and the Government of Australia

on certain aspects of air services

THE EUROPEAN COMMUNITY

of the one part, and

THE GOVERNMENT OF AUSTRALIA

of the other part

(hereinafter referred to as ‘the Contracting Parties’)

NOTING that the European Court of Justice has found that certain provisions of bilateral agreements entered into by several Member States with third countries are incompatible with Community law,

NOTING that a number of bilateral air services agreements have been concluded between several Member States of the European Community and Australia containing similar provisions and that there is an obligation on Member States to take all appropriate steps to eliminate incompatibilities between such agreements and the EC Treaty,

NOTING that the European Community has exclusive competence with respect to a number of aspects that may be included in bilateral air service agreements between Member States of the European Community and third countries,

NOTING that, under European Community law, Community air carriers established in a Member State have the right to non-discriminatory access to air routes between the Member States of the European Community and third countries,

HAVING REGARD to the agreements between the European Community and certain third countries providing for the possibility for the nationals of such third countries to acquire ownership in air carriers licensed in accordance with European Community law,

RECOGNISING that consistency between European Community law and provisions of bilateral air service agreements between Member States of the European Community and Australia will provide a sound legal basis for air services between the European Community and Australia and preserve the continuity of such air services,

NOTING that provisions of the bilateral air services agreements between Member States of the European Community and Australia, which are not inconsistent with European Community law, do not need to be amended or replaced,

NOTING that it is not a purpose of the European Community in this Agreement to increase the total volume of air traffic between the European Community and Australia, to affect the balance between Community air carriers and air carriers of Australia, or to prevail over the

interpretation of the provisions of existing bilateral air service agreements concerning traffic rights,
