COM(2006) 544 final

Proposal for a

COUNCIL REGULATION

**amending Regulation (EC) No 379/2004 as regards the increase of the volumes of tariff
quotas for certain fishery products for the period 2004 to 2006**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1) CONTEXT OF THE PROPOSAL

- **Grounds for and objectives of the proposal/General context**

It is in the interest of the EU to increase certain existing autonomous tariff quotas, because the processing industries in some Member States are facing serious difficulties in securing for themselves sufficient Community supplies of certain fishery products. In order to overcome the shortage of raw materials, a shortage which is exacerbated by a need to adopt strict conservation measures, the industry is using substitute products originating from third countries.

Council Regulation (EC) No 379/2004 of 24 February 2004 (OJ L 64) laying down autonomous Community tariff quotas for certain fishery products for the period 2004 to 2006. The proposal is to amend this regulation in the course of the year 2006 in order to adjust the supply situation to changed circumstances in the catch sector and on the import markets .

- **Existing provisions in the area of the proposal**

Council Regulation (EC) No 379/2004 of 24 February 2004 (OJ L 64) laying down autonomous Community tariff quotas for certain fishery products for the period 2004 to 2006.

- **Consistency with the other policies and objectives of the Union**

In line with agricultural, fisheries, trade, development and external relations policies. It will not be at the expenses of developing countries enjoying a preferential trading agreement with the EU, i.e.GSP and ACP regime.
