

Notice of initiation of a partial interim review of the antidumping measures applicable to imports of grain oriented flat-rolled products of silicon-electrical steel (GOES) originating in the United States of America and Russia

(2006/C 254/06)

The Commission has decided on its own initiative to initiate a partial interim review pursuant to Article 11 (3) of Council Regulation (EC) No 384/96 on protection against dumped imports from countries not members of the European Community ('the basic Regulation')⁽¹⁾, as last amended by Council Regulation (EC) No 2117/2005. The review is limited to the examination of the product scope as regards the exclusion of very thin GOES.

1. Product

The product under review is grain oriented flat-rolled products of silicon-electrical steel originating in the United States of America and Russia ('the product concerned'), currently classifiable within CN codes 7225 11 00 and 7226 11 00. These CN codes are given only for information.

2. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 1371/2005⁽²⁾ on imports of **grain oriented flat-rolled products of silicon-electrical steel** originating in the United States of America and Russia.

3. Grounds for the review

The information at the Commission's disposal indicates that certain GOES, *inter alia* due to their high electromagnetic efficiency, low weight and the low heat development associated with their use possess properties which are not present in other types of GOES. As a result the uses of these products (which typically have a thickness of up to 0,1 mm) are also different (speciality applications such as aircrafts and medical engineering). Therefore it is appropriate to review the case as far as the scope of the product is concerned.

4. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of a partial interim review, the Commission hereby initiates a review in accordance with Article 11(3) of the basic Regulation, limited in scope to the definition of the product concerned

The investigation will assess the need for the amendment of the scope of the existing measures.

(a) Collection of information and holding of hearings

In order to obtain information and supporting evidence it deems necessary for its investigation, the Commission will contact the Community industry, the importers, the users, other known producers in the Community and exporting producers in Russia and the United States of America.

All interested parties are hereby invited to make their views known, submit information and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 5(a).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 5(b).

5. Time limits

(a) For parties to make themselves known, and submit any other information

All interested parties, if their representations are to be taken into account during the investigation, must make themselves known by contacting the Commission, present their views and submit information and supporting evidence within 40 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified.. Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

(b) Hearings

All interested parties may also apply to be heard by the Commission within the same 40-day time limit.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made, in accordance with Article 18 of the basic Regulation, of the facts available. If an interested party does not cooperate or cooperates only partially, and use of facts available is made, the result may be less favorable to that party than if it had cooperated.
