

Tuesday 7 June 2011

The European Parliament calls on the European Commission to inform it within twelve months after adoption of this agreement in plenary and to make a report at the end of the transposition period on the practice of Member States in drawing up their own tables illustrating, as far as possible, the correlation between this Directive and the transposition measures, and to make them public.

Statement by the Commission on correlation tables

The Commission recalls its commitment towards ensuring that Member States establish correlation tables linking the transposition measures they adopt with the EU directive and communicate them to the Commission in the framework of transposing EU legislation, in the interest of citizens, better-law making and increasing legal transparency and to assist the examination of the conformity of national rules with EU provisions.

The Commission regrets the lack of support for the provision included in the proposal for a Directive of the European Parliament and of the Council amending Directive 1999/62/EC on the charging of heavy goods vehicles for the use of certain infrastructures (Eurovignette), which aimed at rendering the establishment of correlation tables obligatory.

The Commission, in a spirit of compromise and in order to ensure the immediate adoption of that proposal, can accept the substitution of the obligatory provision on correlation tables included in the text with a relevant recital encouraging Member States to follow this practice. It will inform within twelve months after adoption of this agreement in plenary and make a report at the end of the transposition period on the practice of Member States to draw up, for themselves and in the interests of the Union, their own tables illustrating, as far as possible, the correlation between this Directive and the transposition measures, and to make them public.

However, the position followed by the Commission in this file shall not be considered as a precedent. The Commission will continue its efforts with a view to finding together with the European Parliament and the Council an appropriate solution to this horizontal institutional issue.

Statement by the Hungarian and the incoming Polish, Danish, Cypriot Presidencies of the Council

It is hereby declared that the agreement reached between the Council and the European Parliament in the trilogue of 23 May 2011 concerning the Directive of the European Parliament and of the Council amending Directive 1999/62/EC on the charging of heavy goods vehicles for the use of certain infrastructures (Eurovignette) does not prejudice the outcome of interinstitutional negotiations on correlation tables.
