ANNEX TO THE LEGISLATIVE RESOLUTION

**Joint Statement by the European Parliament, the Council and the Commission on antimicrobial resistance and the use of veterinary medicinal products**

The Communication from the Commission to the European Parliament and the Council entitled 'Action plan against the rising threats from Antimicrobial Resistance' (COM(2011)0748) emphasises the preventive role of the Regulation on transmissible animal diseases ('Animal Health Law') and the consequent expected reduction of the use of antibiotics in animals. In addition to the requirements of this Regulation, Member States are called upon to commit themselves to collect relevant, comparable and sufficiently detailed data on the actual use of antimicrobial medicinal products in animals and to send such data to the Commission in order to ensure a more prudent use of antimicrobial medicinal products in animals, hence contributing to the reduction of the risk of antimicrobial resistance.

**Commission Statement on the regular reporting on the use of antimicrobial medicinal products in animals in the Union**

The Commission undertakes to publish a regular report as regards the use of antimicrobial medicinal products in animals in the EU on the basis of data made available by the Member States.

**Commission Statement on animal welfare**

This Regulation lays down rules for the prevention and control of animal diseases which are transmissible to animals or to humans and does not contain provisions which regulate specifically animal welfare, albeit animal health and welfare are linked. The Union has a well-developed *acquis* regarding animal welfare covering different species (broilers, laying hens, pigs, calves) or activities (farming, transport, slaughter, research, etc.). This animal welfare legislation will necessarily continue to apply. The Commission is fully committed to paying full regard to animal welfare in accordance with Article 13 of the Treaty and within the limits set out therein, including ensuring full implementation and appropriate development of this legislation.
