PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON
COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of
certain organic coated steel products originating in the People's Republic of China**

(2018/C 96/06)

Following the publication of a Notice of impending expiry⁽¹⁾ of the anti-dumping measures in force on the imports of certain organic coated steel products originating in the People's Republic of China ('the country concerned'), the European Commission ('the Commission') has received a request for review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union⁽²⁾, as amended by Regulation (EU) 2017/2321⁽³⁾ ('the basic Regulation').

1. Request for review

The request was lodged on 13 December 2017 by EUROFER ('the applicant') representing more than 70 % of the total Union production of certain organic coated steel products.

2. Product under review

The product subject to this review is certain organic coated steel products ('OCS'), i.e. flat-rolled products of non-alloy and alloy steel (not including stainless steel) which are painted, varnished or coated with plastics on at least one side, excluding so-called 'sandwich panels' of a kind used for building applications and consisting of two outer metal sheets with a stabilising core of insulation material sandwiched between them, excluding those products with a final coating of zinc-dust (a zinc-rich paint, containing by weight 70 % or more of zinc), and excluding those products with a substrate with a metallic coating of chromium or tin, currently falling within CN codes ex 7210 70 80, ex 7212 40 80, ex 7225 99 00, ex 7226 99 70 (TARIC codes 7210 70 80 11, 7210 70 80 91, 7212 40 80 01, 7212 40 80 21, 7212 40 80 91, 7225 99 00 11, 7225 99 00 91, 7226 99 70 11 and 7226 99 70 91), and originating in the People's Republic of China ('the product under review').

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Implementing Regulation (EU) No 214/2013⁽⁴⁾.

4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in continuation or recurrence of dumping and injury to the Union industry.

⁽¹⁾ OJ C 187, 13.6.2017, p. 60.

⁽²⁾ OJ L 176, 30.6.2016, p. 21.

⁽³⁾ Regulation (EU) 2017/2321 of the European Parliament and of the Council of 12 December 2017 amending Regulation (EU) 2016/1036 on protection against dumped imports from countries not members of the European Union and Regulation (EU) 2016/1037 on protection against subsidised imports from countries not members of the European Union (OJ L 338, 19.12.2017, p. 1).

⁽⁴⁾ Council Implementing Regulation (EU) No 214/2013 of 11 March 2013 imposing a definitive anti-dumping duty and collecting definitively the provisional duty imposed on imports of certain organic coated steel products originating in the People's Republic of China (OJ L 73, 15.3.2013, p. 1).

4.1. *Allegation of likelihood of continuation or recurrence of dumping*

The applicant claimed that it is not appropriate to use domestic prices and costs in the country concerned due to the existence of significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation.

The information contained in the report produced by the Commission services on 20 December 2017 describing the specific market circumstances in the country concerned also tends to confirm the significant distortions alleged by the applicant. In particular, the production and sales of the product under review is potentially affected by the factors mentioned, inter alia, in chapter 'Steel Sector' of the report.

In addition to the report, the applicant referred to policy documents from the authorities of the country concerned and reports issued by the US Department of Commerce, the International Monetary Fund, the EU Chamber of Commerce in the country concerned, the World Trade Organisation and other bodies. The applicant also referred to the Commission's findings in the original anti-subsidy proceeding regarding the product under review ⁽¹⁾ and in the anti-subsidy proceeding regarding hot-rolled flat steel products ⁽²⁾.

In light of the information available, the Commission considers that there is sufficient evidence pursuant to Article 5(9) of the basic Regulation of significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation warranting the initiation of an investigation on that basis.

As a result, in view of Article 2(6a) of the basic Regulation, the allegation of continuation or recurrence of dumping is based on a comparison of a constructed normal value on the basis of costs of production and sale reflecting undistorted prices or benchmarks in an appropriate representative country, with the export price (at ex-works level) of the product under review from the country concerned when sold for export to the Union.

On that basis the dumping margins calculated are significant for the country concerned.

4.2. *Allegation of likelihood of continuation or recurrence of injury*

The applicant has provided sufficient evidence showing likelihood of continuation or recurrence of injury, which is likely to be caused by an increase of dumped imports from the country concerned. In this respect, the applicant has provided evidence that, should the measures be allowed to lapse, imports of the product under review from the country concerned to the Union are likely to increase due to (i) the existence of unused capacity in the People's Republic of China, (ii) the attractiveness of the Union market in terms of volume; and (iii) the existence of trade defence measures in other third countries. In addition, in the absence of measures, Chinese export prices would be at a level low enough to injure the Union industry.

In addition, the applicant alleges that any substantial increase of imports at dumped prices from the country concerned would be likely to cause further injury to the Union industry should measures be allowed to lapse.

5. **Procedure**

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in the country concerned and a continuation or recurrence of injury to the Union industry.

5.1. *Review investigation period and period considered*

The investigation of a continuation or recurrence of dumping will cover the period from 1 January 2017 to 31 December 2017 ('the review investigation period'). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2014 to the end of the investigation period ('the period considered').

⁽¹⁾ Council Implementing Regulation (EU) No 215/2013 of 11 March 2013 imposing a countervailing duty on imports of certain organic coated steel products originating in the People's Republic of China (OJ L 73, 15.3.2013, p. 16).

⁽²⁾ Commission Implementing Regulation (EU) 2017/969 of 8 June 2017 imposing definitive countervailing duties on imports of certain hot-rolled flat products of iron, non-alloy or other alloy steel originating in the People's Republic of China and amending Commission Implementing Regulation (EU) 2017/649 imposing a definitive anti-dumping duty on imports of certain hot-rolled flat products of iron, non-alloy or other alloy steel originating in the People's Republic of China (OJ L 146, 9.6.2017, p. 17).

5.2. Procedure for the determination of a likelihood of continuation or recurrence of dumping

In an expiry review, the Commission examines exports that were made to the Union in the review investigation period and, irrespective of exports to the Union, considers whether the situation of the companies producing and selling the product under review in the country concerned is such that exports at dumped prices to the Union would be likely to continue or recur if measures expire.

Therefore, all producers of the product under review from the country concerned, irrespective of whether or not they exported ⁽¹⁾ the product under review to the Union in the review investigation period, are invited to participate in the Commission investigation.

5.2.1. Investigating producers in the country concerned

In view of the potentially large number of producers in the country concerned involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to this review, are hereby requested to make themselves known to the Commission. Those parties have to do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex I to this Notice.

In order to obtain the information it deems necessary for the selection of the sample of producers, the Commission will also contact the authorities of the country concerned and may contact any known associations of producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known producers, the authorities of the country concerned and associations of producers will be notified by the Commission, via the authorities of the country concerned if appropriate, of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation with regard to producers, the Commission will send questionnaires to the producers selected to be in the sample, to any known association of producers and to the authorities of the country concerned.

All producers selected to be in the sample will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating producers').

5.2.2. Additional procedure with regard to the country concerned

In accordance with point (e) of Article 2(6a), the Commission will, shortly after initiation by means of a note to the file for inspection by interested parties, inform parties to the investigation about the relevant sources, including the selection of an appropriate representative third country where appropriate, that it intends to use for the purpose of determining normal value pursuant to Article 2(6a) of the basic Regulation. Parties to the investigation shall be given 10 days to comment from the date at which that note is added to the file for inspection by interested parties. According to the information available to the Commission, a possible representative third country is South Africa. With the aim of finally selecting the appropriate representative third country, the Commission will examine whether there is a similar level of economic development as the exporting country, whether there is production and sales of the product under review and whether relevant data are readily available. Where there is more than one such country, preference will be given, where appropriate, to countries with an adequate level of social and environmental protection.

With regard to the relevant sources, the Commission invites all producers in the country concerned to provide the information requested in Annex III to this Notice within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

⁽¹⁾ An producer is any company in the country concerned which produces the product under review, including any of its related companies involved in the production, domestic sales or exports of the product under review.

In order to obtain the information it deems necessary for its investigation with regard to the alleged significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation, the Commission will also send a questionnaire to the Government of the country concerned.

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence regarding the application of Article 2(6a) of the basic Regulation.

Unless otherwise specified, such information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.2.3. Investigating unrelated importers ⁽¹⁾ ⁽²⁾

Unrelated importers of the product under review from the country concerned to the Union, including those that did not cooperate in the investigation leading to the measures in force, are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. Those parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex II to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. Those parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.3. Procedure for the determination of a likelihood of a continuation or recurrence of injury

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, Union producers of the product under review are invited to participate in the Commission investigation.

⁽¹⁾ Only importers not related to producers can be sampled. Importers that are related to producers have to fill in Annex I to the questionnaire for these exporting producers. In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code (OJ L 343, 29.12.2015, p. 558), two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same. Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife, (ii) parent and child, (iii) brother and sister (whether by whole or half blood), (iv) grandparent and grandchild, (v) uncle or aunt and nephew or niece, (vi) parent-in-law and son-in-law or daughter-in-law, (vii) brother-in-law and sister-in-law. In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code acts (OJ L 269, 10.10.2013, p. 1), 'person' means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal.

⁽²⁾ The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

5.3.1. *Investigating Union producers*

In view of the large number of Union producers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 17 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties. Interested parties are hereby invited to consult the file (for this they should contact the Commission using the contact details provided in Section 5.7 below). Other Union producers, or representatives acting on their behalf, including Union producers who did not cooperate in the investigation leading to the measures in force, that consider that there are reasons why they should be included in the sample must contact the Commission within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

All interested parties wishing to submit any other relevant information regarding the selection of the sample must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Union producers and to any known associations of Union producers. Those parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.4. ***Procedure for the assessment of Union interest***

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest. Union producers, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under review.

Parties that make themselves known within the 15 days' deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. That information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

5.5. ***Other written submissions***

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence.

Unless otherwise specified, such information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.6. ***Possibility to be heard by the Commission investigation services***

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

5.7. ***Instructions for making written submissions and sending completed questionnaires and correspondence***

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing (a) the Commission to use the information and data for the purpose of this trade defence proceeding; and (b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

All written submissions, including the information requested in this Notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Limited' ⁽¹⁾. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.

Interested parties providing 'Limited' information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. Those summaries must be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence. If a party providing confidential information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.

Interested parties are invited to make all submissions and requests by email including scanned powers of attorney and certification sheets, with the exception of voluminous replies which shall be submitted on a CD-ROM or DVD by hand or by registered mail. 6. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

⁽¹⁾ A 'Limited' document is a document which is considered confidential pursuant to Article 19 of the basic Regulation and Article 6 of the WTO Agreement on Implementation of Article VI of the GATT 1994 (Anti-Dumping Agreement). It is also a document protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

7. **Hearing Officer**

Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and requests by third parties to be heard. The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised.

A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

8. **Schedule of the investigation**

The investigation will be concluded, pursuant to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this Notice in the *Official Journal of the European Union*.

9. **Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

10. **Processing of personal data**

Any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council (⁽¹⁾).
